# 53rd Annual Convention

November 21–24, 2019

*Wisdom  
of Purpose  
and Perspective*

Extending  
the Social  
Impact  
of Cognitive  
Behavioral  
Science

ATLANTA

# Association for Behavioral and Cognitive Therapies

## Board of Directors

President	Bruce F. Chorpita, Ph.D.
President-Elect	Martin M. Antony, Ph.D.
Past President	Sabine Wilhelm, Ph.D.
Secretary-Treasurer	Mary E. Larimer, Ph.D.
Representative-at-Large (2019)	Simon A. Rego, Psy.D.
Representative-at-Large (2020)	Risa B. Weisberg, Ph.D.
Representative-at-Large (2021)	Shireen Rizvi, Ph.D.

## Coordinators and Committee Chairs

Convention and Education Issues Committees	Katharina Kircanski, Ph.D.
Continuing Education Committee	Anu Asnaani, Ph.D.
Institutes Committee	Christina L. Boisseau, Ph.D.
Workshops Committee	Lauren Weinstock, Ph.D.
AMASS Committee	Brian Baucom, Ph.D.
Master Clinician Seminar Series	Courtney Benjamin Wolk, Ph.D.
Research and Professional Development	Cole Hooley, Ph.D.
Volunteer Committee	Gabrielle Liverant, Ph.D.
Local Arrangements Committee	Leah Farrell-Carnahan, Ph.D.
Program Committee, 2019	Alyssa Ward, Ph.D.
Program Committee, 2020	Shannon Wiltsey Stirman, Ph.D.

Membership Issues Committees	Kathleen Gunthert, Ph.D.
Special Interest Groups Committee	Lance Rappaport, Ph.D.
Membership Committee	Thomas Rodebaugh, Ph.D.
Committee on Student Members	Shannon Blakey, Ph.D.
Committee on Leadership and Elections	David Pantalone, Ph.D.
Committee on Clinical Directory and Referral Issues	Daniella Cavenagh, Ph.D.
List-Serve Committee	Jamie Micco, Ph.D.
Social Networking Media Committee	Shari Steinman, Ph.D.
Fellows Committee	Linda Sobell, Ph.D.

Academic and Professional Issues Committees	Katherine J. W. Baucom, Ph.D.
Committee on International Associates	Lata McGinn, Ph.D.
Committee on Academic Training & Education Standards	Lee Cooper, Ph.D.
Committee on Awards and Recognition	Cassidy Gutner, Ph.D.
Committee on Research Facilitation	Shannon Sauer-Zavala, Ph.D.
Committee on Self-Help Book Recommendations	Erin Ward-Ciesielski, Ph.D.

Publications Committee	Michelle Newman, Ph.D.
Committee on Public Education & Media Dissemination	Emily Bilek, Ed.D.
Editor, <i>Behavior Therapy</i>	Denise Sloan, Ph.D.
Editor, <i>the Behavior Therapist</i>	Kate Wolitzky-Taylor, Ph.D.
Editor, <i>Cognitive and Behavioral Practice</i>	Brian Chu, Ph.D.
Editor, Web	Regine Galanti, Ph.D.

## ABCT Staff

Executive Director	Mary Jane Eimer, CAE
Director of Communications	David Teisler, CAE
Convention Manager	Stephen R. Crane
Membership Services Manager	Dakota McPherson
Managing Editor/Advertising Manager	Stephanie Schwartz, M.S.W.
Convention Registrar/Exhibits Manager	Tonya Childers
Publications/Administrative Secretary	Amanda Marmol
Bookkeeper	Kelli Long

## Message From the Program Chair

**Alyssa Ward, Ph.D., LCP, Virginia Department of Medical Assistance Services & Virginia Commonwealth University School of Medicine**

As the 2019 Program Chair, I welcome you to our 53rd Annual Convention with enthusiasm and hope that this year brings us one step closer to our mission and the goals that bind us together. ABCT is committed to enhancing public health and well-being through the application of science, and that promise is reflected in our theme for 2019: "Wisdom of Purpose and Perspective: Extending the Social Impact of Cognitive Behavioral Science."

Working in leadership at a state Medicaid program, I am immersed each day in decisions that drive the social impact of our collective work on a systems level. In Virginia we are implementing a radical redesign of our system to create an evidence-based, trauma-informed, and prevention-oriented array of behavioral health services to our members, who even with expansion are largely women and children. The work of translating scientific findings to policy and regulation is not one that our graduate training traditionally prepares us for, and I believe we have opportunities in organizations such as ours to support the development of critical skills in this area towards expanding our impact. I have brought the passion that fuels me in my work as a public servant to this role as your Program Chair, and it has been my honor to serve our organization in this way.

Developing a program around this theme has been timely as we are convening in a state that has recently passed legislation significantly limiting women's reproductive rights. Many within our organization have voiced concern for the impact of these regulations, our meeting occurring in this state context, and the rights and experiences of women both in our organization and in our world. As Program Chair, it has been my role to work with our committee to consider how we can address these concerns within the relatively relevant program we have sought to create over the past year.

We have some exciting programming specific to the impact of CBT on public health. We are humbled to be joined this year by both international and domestic experts who have made large-scale impact on service systems and vulnerable populations. Dr. Sonja Schoenwald, a trailblazer in the dissemination and implementation of treatments for youth into complex community-based settings, will facilitate a panel discussion involving Ileana Arias, Richard Puddy, and Craig Thomas from the Centers for Disease Control and Prevention. Dr. Vikram Patel is a Harvard psychiatrist whose ground-breaking work has focused on reducing the treatment gap for mental disorders in low-resource countries. He was recently awarded the John Dirks Canada Gairdner Global Health Award, a prestigious honor given to the world's top scientists in global health. His TED Talk on "Mental Health for All by Involving All" has over 1 million views and in 2015 he was named by TIME Magazine as among the world's 100 most influential people. He will be speaking with us on building our workforce to promote global delivery of services. Dr. Matthew Sanders joins us from Australia where over the last four decades he has built an international reputation as a clinical researcher developing treatments that address childhood behavior problems and promote stronger families. Professor Sanders' Triple P parenting system has now helped approximately 4 mil-

lion children and their families. It is used in more than 25 countries and has been translated into 21 languages other than English. More than 75,000 practitioners have been trained in its delivery. He will be speaking with us about his transformational body of work and future opportunities for social impact.

Following the passing of the abortion legislation in Georgia this summer, we worked creatively with our committee to develop an additional invited panel to bring attention to the pressing issue of using psychological science to responsibly inform and advocate policy and regulation development, with special attention to the local context here in Atlanta. We are so grateful for the fast, flexible, and thoughtful efforts of our esteemed colleague and long-time ABCT member Dr. Lynn Bufka, the Associate Executive Director for practice research and policy at the American Psychological Association, and support from our Local Arrangements Chair, Dr. Leah Farrell-Carnahan. This panel will include a diversity of speakers, including women's rights advocates representing the local climate who will address the topic "Realizing ABCT's Mission in a Politicized World."

Finally, in his presidential address, Dr. Bruce Chorpita will speak to us about maximizing the reach of cognitive and behavioral science through strategic coordination of individuals, institutions, and industries.

This year you will notice that we have made some innovations in our program process:

- This is the first year in a very long time that we have offered **child care services** at our convention, and we thank the ongoing advocacy of the Women's Issues SIG and the on-the-ground work of Stephen Crane for this addition. We are committed to making the ABCT an inclusive experience for members who are caregivers and travel to the convention with their families. For the 4th year, we will have a lactation room available for nursing and pumping attendees.
- We invite you to join us for an Instagram-worthy moment at our **Mission Wall** near registration, where we all have an opportunity to share how **YOUR WORK** enhances health and well-being. Contribute, post, and share to social media with the hashtag **#ABCT2019Impact**.
- For the first time ever, you will be able to **VOTE** at the convention! We hope that this will significantly raise our voting participation rates. Look for details in the registration area.
- Submitters noticed that the Cadmium system had several updates this year, including the **ability for you to send notices to co-authors for them to complete their own information in the site**. We also worked with great care to **revise the categories** for submission this year, to assure equity so that each Special Interest Group had an aligned category. We also have edited the key words for the program and encourage you to think of these as **hashtags** that mark a label for each submission to ease the identification of content relevant to your interests.
- The forests of the world rejoice, as **this is the first year that we will not have a**

**printed program book** and will ask that you rely on the PDF version available, the convention planner, and the smartphone application for navigation of this experience.

- We are also **testing out a new poster template**, developed and made internet viral by a psychology trainee. This new template is intended to improve the presenter and attendee experience, and we will be looking closely at your feedback on this to determine future directions.
- We are grateful to the esteemed **Dr. Judith Beck**, who will be providing a workshop on CBT for depression worth 3 CEUs on Sunday, *for free!* This session will be geared towards students but all are welcome.

It has been my privilege to serve as your Program Chair this year, and I am grateful to my mentor Dr. Bruce Chorpita and the ABCT Board for entrusting me with these duties. I would like to extend a special note of appreciation to Dr. Cameo Stanick, an ABCT colleague turned dear friend, for her support as program assistant. Further, Dr. Chorpita deserves an extra helping of thanks as he rolled up his sleeves (as always) and stepped in to support me during one of the most demanding periods of work when Dr. Stanick had a family emergency. I also would like to thank Dr. Kiara Timpano (2018 Program Chair) and Dr. Katharina Kircanski (Coordinator of Convention and Education Issues and 2017 Program Chair) for their validation and camaraderie. This year I celebrate my 15th year at ABCT and I have to thank Dr. Mike Southam-Gerow for first encouraging me to attend and for his steady support and keeping me laughing for nearly half my life now. This program comes to you via the substantial efforts of virtually hundreds of our members who have contributed to its creation. This includes first the 2019 Program Committee for their expertise, careful reviews, and flexibility during the peer review process. This year we surpassed last year's record number of reviewers, with over 350 members participating in the peer review process and 126 "Super Reviewers," and we simply would not have a convention without their dedication and service. I also thank the chairs of the Convention and Education Issues Committee for their tireless work and exceptional job developing this year's excellent program: Brian Baucom (AMASS), Lauren Weinstock (Workshops), Courtney Benjamin Wolk (Master Clinician Seminars), Cole Hooley (Research & Professional Development), Christina Boisseau (Institutes), and Shannon Wiltsey-Stirman and Dan Cheron (2020 Program Chair and Assistant Program Chair). I have worked for years with ABCT's central office, particularly during my tenure as Chair of the Women's SIG as we worked to implement a lactation room. However, I have never been so closely tied to Mary Jane Eimer and the central office team-especially the steadfast Stephen Crane-who showed devotion to developing the best convention possible. Finally, I am forever grateful to my husband, Geoff, and my two young daughters, who have cheered me on and patiently tolerated the many hours that I spent in dedication to ABCT this year.

We hope that you experience this as an engaging convention that inspires new scientific collaborations that increase our collective impact! Thank you for joining us in Atlanta.

# Convention and Education Issues

## **Coordinator, Convention and Education Issues**

Katharina Kircanski, Ph.D.

## **Program Chair, 2019**

Alyssa Ward, Ph.D., LCP

## **Program Chair Assistant, 2019**

Cameo Stanick, Ph.D.

## **Program Chair, 2020**

Shannon Wiltsey Stirman, Ph.D.

## **Continuing Education Issues Chair**

Anu Asnaani, Ph.D.

## **Institutes Committee Chair**

Christina L. Boisseau, Ph.D.

## **Workshop Committee Chair**

Lauren Weinstock, Ph.D.

## ANNUAL MEETING *of* MEMBERS

**Saturday, 12:30–1:30 P.M., L504-L505, Lobby Level**

**All ABCT members** are encouraged to attend this meeting. Learn about the Association's 2020 Strategic Plan and our priorities for the next several years. Hear about our accomplishments throughout the 2019 membership year and what is on the agenda for 2020. Meet the newest members of the ABCT governance and help thank your colleagues who have contributed so much to ABCT's success over the past year. And don't forget to VOTE in the 2020 elections! See your addendum for details.

## Registration

To receive member registration fees, members *must* renew for 2020 before completing their registration process or to join as a New Member of ABCT. To renew, go to <https://www.abctcentral.org/eStore/index.cfm> or visit the membership counter in the registration area onsite.

- **Preconvention Ticketed Sessions & Registration** Preconvention sessions will be held on Thursday, November 21 at the Atlanta Marriott Marquis. All preconvention sessions are designed to be intensive learning experiences.

Registration for all preconvention sessions (AMASS, Clinical Intervention Seminars, Institutes) will take place in the Atlanta Marriott Marquis at the ABCT onsite registration area in the International Ballroom South, International Level.

- **Thursday, November 21: 7:30 a.m. – 6:30 p.m.**

- **General Registration** Upon arrival at the Atlanta Marriott Marquis, you can pick up the program addendum and additional convention information, ribbons, and your “I Voted” sticker at the preregistration desk in the International Ballroom South.

Onsite Registration AND Preregistration pickup will be open:

- **Thursday, November 21: 7:30 a.m. – 6:30 p.m.**
- **Friday, November 22: 7:30 a.m. – 6:30 p.m.**
- **Saturday, November 23: 7:30 a.m. – 6:30 p.m.**
- **Sunday, November 24: 7:30 a.m. – 1:00 p.m.**

The general registration fee entitles the registrant to attend all events from November 21–24 except for ticketed sessions. Your canceled check is your receipt. You will also receive an automatic email receipt if you register onsite. (If you do not receive an email within 2 hours of registering, check with the registration personnel.)

You must wear your badge at all times to be admitted to all official ABCT sessions, events, and the exhibits. If you lose your badge there will be a \$15 charge for the replacement.

All presenters (except for the first two presenters of ticketed CE sessions) must pay the general registration fee. Leaders of ticketed sessions will receive information regarding their registration procedure from the ABCT Central Office.

Admission to all ticketed sessions is by ticket only. Preregistration is strongly advised as ticketed sessions are sold on a first-come, first-served basis.

- **Refund Policy/Cancellation** Refund requests must have been made in writing. Refunds were made until October 15, and a \$40 handling fee deducted. *Because of the many costs involved in organizing and producing the Convention, no refunds are given after October 15.*

- **Payment Policy** All fees must be paid in U.S. currency on a U.S. bank. Any bank fees charged to the Association will be passed along to the attendee. Please make checks payable to ABCT.

## Continuing Education at ABCT

ABCT is proud to offer you opportunities to learn from proven educators. Here is an efficient and effective way to hone your clinical skills, learn the results of the latest research, and earn continuing education credits as well.

The continuing education fee must be paid (see registration form) for a personalized continuing education credit letter to be distributed. Those who have included CE in their preregistration will receive a booklet/PDF via e-mail. Others can still purchase CE at the registration area during the convention. The current fee is \$99.00.

Ticketed sessions require an additional payment beyond the general registration fee. For ticketed events, attendees must scan in and scan out, and complete and return an individual evaluation form. It remains the responsibility of the attendee to scan in at the beginning of the session and out at the end of the session. CE will not be awarded unless the attendee scans in and out. General session attendees must scan in and scan out and answer particular questions in the CE booklet regarding each session attended. The booklets will be distributed electronically as a PDF and must be returned to ABCT by December 30.

**PSYCHOLOGY** ABCT is approved by the American Psychological Association to sponsor continuing education for psychologists. ABCT maintains responsibility for this program and its content. Attendance at each continuing education session in its entirety is required to receive CE credit. No partial credit is awarded; late arrival or early departure will preclude awarding of CE credit. For ticketed events attendees must scan in and scan out and complete and return an individual evaluation form. For general sessions attendees must scan in and scan out and answer particular questions in the CE booklet regarding each session attended. It remains the responsibility of the attendee to scan in at the beginning of the session and out at the end of the session. The booklets will be distributed electronically as a PDF and must be returned to ABCT by December 30.

**SOCIAL WORK** ABCT program is approved by the National Association of Social Workers (Approval # 886427222) for 28 continuing education contact hours.

**COUNSELING** ABCT is approved by the National Board of Certified Counselors (NBCC) Approved continuing education provider. ACEP No. 5797 and may offer NBCC-approved clock hours for events that meet NBCC requirements. Programs that do not qualify for NBCC credit are clearly identified. ABCT is solely responsible for all aspects of the program.

**LICENSED PROFESSIONALS** ABCT is approved by the California Association of Marriage and Family Therapist (CAMFT) to sponsor continuing education for counselors and MFT's. This conference will provide up to 26 hours of continuing education credit for LMFT's, LCSW's LPCC's and/or LEPs required by the California Board of Behavioral Sciences, ABCT maintains responsibility for this program/course and its contents. (Approval #133136).

# ABCT ONLINE WEBINARS

---

*Learning doesn't need to stop* at the Convention! ABCT is proud to provide webinars for psychologists and other mental health professionals. Our webinars can be attended live or viewed online at your convenience. Visit our website ([abct.org](http://abct.org)) to view live, recorded, or archived webinars. CE opportunities are available for many! E-mail Dakota at [dmcpherson@abct.org](mailto:dmcpherson@abct.org) for more information.

## *Recorded Webinars*

# AMBA ASS DORS

## ***Recognition***

- Be recognized as a role model who has had a positive impact on colleagues, students, and community by encouraging participation and membership within ABCT
- Help your students and colleagues understand more about ABCT and supporting your professional home
- Be the local resource of association knowledge and be “in-the-know”

## ***New: Student Ambassador Program***

- Interested? Contact Amie Grills, Ph.D., at [agrills@bu.edu](mailto:agrills@bu.edu)

## ***Rewards***

- Be listed as an Ambassador on our website and listed in *tBT*
- Receive a ribbon to wear at convention

Join a growing group of members and convention attendees who support the association by renewing their memberships, attending annual conventions, and providing related information. The time commitment is small, no more than 30 minutes per month.

## ***It's easy to become an ABCT ambassador***

- Visit the Help Desk in the registration area during the Atlanta convention for more information
- Attend the Ambassadors' Meeting during the convention (day and room to be announced)
- Learn about the ABCT Ambassadors Program at <http://www.abct.org/Members/?m=mMembers&fa=ambassador>

**Visit the Help Desk (Registration area) for more information.**

# ABCT Membership

## Added value for your membership dollars

[For a full listing of membership benefits, visit [www.abct.org](http://www.abct.org)]

Your annual ABCT membership gives you the most from your dues dollars for all stages of your career. Members receive more than just the lowest registration rates at the Atlanta Convention:

- Stay connected and updated with your colleagues and the latest developments in mental health research through our list serve, the ABCT membership directory, and our online resources. Join one of 40 SIGs, “like” us on Facebook, and follow us on Twitter! Share photos on our Instagram account and sign up for the convention app.
- Participate in our Find-a-CBT-Therapist online referral network at [www.findcbt.org](http://www.findcbt.org). It continues to be our most frequently visited web page. To expand your listing and include your practice particulars, pay just \$50 more per year.
- FREE on-line access to all issues of *the Behavior Therapist*, featuring articles and reviews of research and clinical import, and our outstanding journals *Cognitive and Behavioral Practice* and *Behavior Therapy* (BT is 6 issues per year; the Institute for Scientific Information now ranks us 13th out of 121 clinical psychology journals, with an impact factor of 3.243).
- Expand your skill sets and earn CE with our growing list of webinars—attend live sessions or view online at your convenience. Planning for 2020 sessions is under way! Let us know what you’d like to see by responding to the survey right after the Atlanta convention.
- Enrich the training growth of others by participating in our Mentorship Directory, where students in graduate programs can learn from your experiences as a mentor.
- Our on-line Job Bank connects job seekers with the best employment opportunities in CBT. Reasonable rates for employer listings.
- Access our growing library of syllabi and other teaching tools for the latest techniques and principles among CBT teaching resources.

# Call for Continuing Education Sessions

## 54th Annual Convention • November 19–22, 2020 | Philadelphia

*Submissions will be accepted through the online submission portal, which will open after January 1, 2020. Submit a 250-word abstract and a CV for each presenter. For submission requirements and information on the CE session selection process, please visit [www.abct.org](http://www.abct.org) and click on “Convention and Continuing Education.”*

---

**Workshops & Mini Workshops** | Workshops cover concerns of the practitioner/ educator/researcher. Workshops are 3 hours long, are generally limited to 60 attendees, and are scheduled for Friday and Saturday. Please limit to no more than 4 presenters. Mini Workshops address direct clinical care or training at a broad introductory level. They are 90 minutes long and are scheduled throughout the convention. Please limit to no more than 4 presenters. When submitting for Workshops or Mini Workshop, please indicate whether you would like to be considered for the other format as well.

► For more information or to answer any questions before you submit your abstract, contact the **Workshop Committee Chair**, [workshops@abct.org](mailto:workshops@abct.org)

**Institutes** | Institutes, designed for clinical practitioners, are 5 hours or 7 hours long, are generally limited to 40 attendees, and are scheduled for Thursday. Please limit to no more than 4 presenters.

For more information or to answer any questions before you submit your abstract, contact the **Institute Committee Chair**, [institutes@abct.org](mailto:institutes@abct.org)

**Master Clinician Seminars** | Master Clinician Seminars are opportunities to hear the most skilled clinicians explain their methods and show taped demonstrations of client sessions. They are 2 hours long, are limited to 40 attendees, and are scheduled Friday through Sunday. Please limit to no more than 2 presenters.

► For more information or to answer any questions before you submit your abstract, contact the **Master Clinician Seminar Committee Chair**, [masterclinicianseminars@abct.org](mailto:masterclinicianseminars@abct.org)

**Research and Professional Development** | Presentations focus on “how to” develop one’s own career and/or conduct research, rather than on broad-based research issues (e.g., a methodological or design issue, grantsmanship, manuscript review) and/or professional development topics (e.g., evidence-based supervision approaches, establishing a private practice, academic productivity, publishing for the general public). Submissions will be of specific preferred length (60, 90, or 120 minutes) and format (panel discussion or more hands-on participation by the audience). Please limit to no more than 4 presenters, and be sure to indicate preferred presentation length and format.

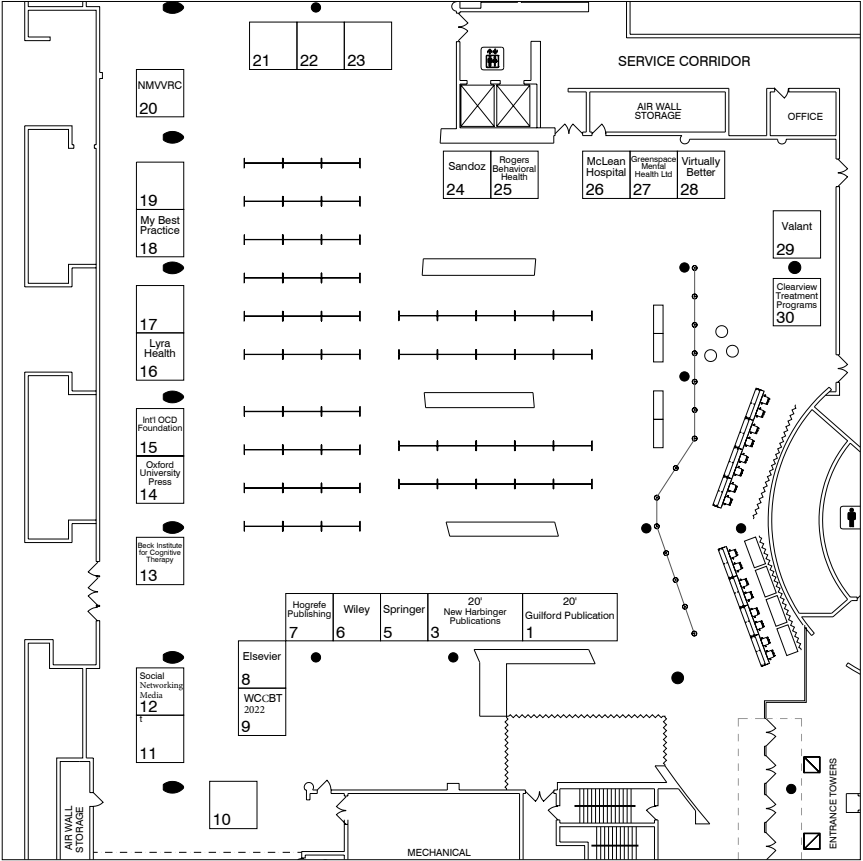

► For more information or to answer any questions before you submit your abstract, contact the **Research and Professional Development Chair** [researchanddevelopmentseminars@abct.org](mailto:researchanddevelopmentseminars@abct.org)

*Submission deadline: February 13, 2020*

ASSOCIATION FOR BEHAVIORAL AND COGNITIVE THERAPIES

NOVEMBER 21-24, 2019

INTERNATIONAL HALL - SOUTH - ATLANTA MARRIOTT MARQUIS  
ATLANTA, GEORGIA

# Special Interest Groups

Attendance at an ABCT Special Interest Group meeting is a wonderful networking opportunity. The SIGs focus on a diverse range of topics, including treatment approaches, specific disorders, or unique populations. SIGs are open to ABCT members only, so be sure to join or renew. The Friday-night Cocktail Party/SIG Exposition, 6:30 – 8:30 P.M. (Atrium Ballroom A, B, C) is a fabulous chance to get an overview of ABCT's SIG program in a friendly, networking atmosphere.

To learn more about the SIGs, including how to join or to form a SIG, visit our website at [www.abct.org/Members/?m=mMembers&fa=SIG](http://www.abct.org/Members/?m=mMembers&fa=SIG).

are located on the Marquis  
level Rear, near M100's  
restroom closest to the  
walkthrough to the Hilton  
Hotel.*

# Understanding

## the ABCT Convention

The ABCT Annual Convention is designed for practitioners, students, scholars, and scientists. All of the ABCT members involved in making the convention have as their central goals the provision of opportunities to meet the needs of the diverse audiences interested in the behavioral and cognitive therapies. Attendees have varying disciplines, varying levels of experience, varying theoretical orientations, as well as special clinical concerns. Just as important are the opportunities to meet people with similar interests for social as well as professional networking.

Some presentations will offer the chance to see and hear what is new and exciting in behavioral and cognitive work from our dynamic and vibrant presenters. Other presentations will address the clinical-scientific issues of how we develop empirical support for our work.

---

### General Sessions and Ticketed Events

---

#### • GENERAL SESSIONS

**Symposia:** Presentations of data, usually investigating efficacy of treatment protocol or particular research. Symposia are either 60 minutes or 90 minutes in length. They have one or two chairs, one discussant, and between three and five papers.

**Panel Discussions and Clinical Round Tables:** Discussions (sometimes debates) by informed individuals on an important topic. These are organized by a moderator and have between three and six panelists who bring differing experience and attitudes to the subject matter.

**Membership Panel Discussions:** Organized by representatives of the Membership Committees, these events generally have a particular emphasis on training or career development.

**Special Sessions:** These events are designed to provide useful information regarding professional, rather than scientific, issues. For more than 25 years our Internship Overview and Postdoctoral Overview have been helping people find their educational paths.

**Research and Professional Development (RPD):** Presentations explicitly focused on broad-based research issues (e.g., a methodological or design issue, grantsmanship, manuscript review) and/or professional development topics (e.g., evidence-based supervision approaches, establishing a private practice, academic productivity, publishing for the general public).

**Mini Workshops:** Mini Workshops address direct clinical care or training at a broad, introductory level. They are 90 minutes in length and occur throughout the meeting.

*After reviewing the 2019 Program, we hope you will turn to the online Itinerary Planner and begin to build your ultimate ABCT convention experience!*

- ▶ **SEARCH** by topic, presenter, session, type, day/time
- ▶ **BROWSE** by day and view the entire program in time/day order
- ▶ **DEVELOP** your personal ABCT convention schedule

**[www.abct.org/conv2019](http://www.abct.org/conv2019)**

**Clinical Grand Rounds:** Master-level clinicians give simulated live demonstrations of therapy. Clients may be portrayed by graduate students studying with the presenter and specializing in the problem area to be treated.

**Poster Sessions:** One-on-one discussions between researchers, who display graphic representations of the results of their studies, and interested attendees. Because of the variety of interests and research areas of the ABCT attendees, between 1,200 and 1,500 posters are presented each year.

**Special Interest Group Meetings:** Nearly 40 SIGs meet each year to renew relationships, accomplish business (such as electing officers), and often offer presentations. SIG talks are not peer-reviewed by the Association, nor are they eligible for CE credit.

• **TICKETED EVENTS** These listings—located throughout the program book—include a level of experience to guide attendees and offer CE credit.

**Workshops:** Covering concerns of the practitioner/educator/researcher, Workshops are an anchor of the Convention. These sessions are 3 hours long and are generally limited to 60 attendees.

**Master Clinician Seminars:** The most skilled clinicians explain their methods and show video demonstrations of client sessions. Offered throughout the Convention, these seminars are 2 hours long and are generally limited to 40 attendees.

**Advanced Methodology and Statistics Seminars:** Designed to enhance researchers' abilities, these are 4 hours long and limited to 40 attendees.

**Institutes:** Leaders and topics for Institutes are taken from previous ABCT Workshop and Master Clinician Seminar presentations in which a longer format is beneficial. They are offered as 8-hour or 5-hour sessions on Thursday, and are generally limited to 40 attendees.

**Clinical Intervention Training:** One-day event emphasizing the “how-to” of clinical intervention. The extended length allows for exceptional interaction. Participants attending a full-day session can earn 7 continuing education credits.

# AWARDS & RECOGNITION

## ***Lifetime Achievement Award***

Philip C. Kendall, Ph.D., ABPP, *Temple University*

## ***Outstanding Clinician***

Cory F. Newman, Ph.D., *University of Pennsylvania,  
Center for Cognitive Therapy*

## ***Outstanding Training Program***

Jesse R. Cougle, Ph.D., *Director, Florida State  
University's Clinical Psychology Ph.D. Program*

## ***Outstanding Service to ABCT***

Carmen McLean, Ph.D., *National Center for PTSD*

## ***Distinguished Friend to the Behavioral and Cognitive Therapies***

- Rod Holland, D.Clin.Psych., *WCCBT and EABCT*
- Philip Tata, D.Clin.Psych., *WCCBT and EABCT*

## ***President's New Researcher***

Jessica L. Schleider, Ph.D., *Stony Brook University*

## ***Anne Marie Albano Early Career Award for the Integration of Science and Practice***

Jami M. Furr, Ph.D., *Center for Children and  
Families, Florida International University*

## ***Virginia A. Roswell Dissertation Award***

Amy R. Sewart, M.A., *UCLA*

## ***Leonard Krasner Dissertation Award***

Michael Best, M.Sc., *Queen's University*

## AWARDS CEREMONY:

Friday, 5:30–6:30 p.m., L401-L403, Lobby Level

### ***John R. Z. Abela Dissertation Award***

Natalie Rodriguez-Quintana, M.P.H., *Indiana University*

### ***Student Research Grant***

Colin M. Bosma, M.A., *University of Maine*

HONORABLE MENTION: Shirley Wang, B.A., *Harvard University*

### ***Student Travel Award***

Poppy Brown, *University of Oxford*

“Beliefs About the Self and Others in Paranoia”

### ***Elsie Ramos Memorial Student Poster Awards***

- Abel Mathew, *University of Wisconsin-Milwaukee*, “Evaluating the Role of the Approach Avoidance Training on Action Tendencies in Individuals With Skin Picking Disorder”
- John McKenna, *Suffolk University*, “Sexual Assertiveness as a Predictor of Consent Attitudes and Beliefs Among LGBTQ+/Non-Binary Young Adults”
- Oliver G. Johnston, *University of Connecticut*, “Identifying Intervention Targets for Oppositional Defiant Disorder Symptoms in College Students”

### ***Spotlight on Mentors***

- Elise M. Clerkin, Ph.D., *Miami University*
- Genelle K. Sawyer, Ph.D., *The Citadel*
- Norman B. Schmidt, Ph.D., *Florida State University*

### ***ADAA Travel Awards***

- Christal Badour, Ph.D., *University of Kentucky*
- Nicholas Jacobson, M.S., *Massachusetts General Hospital/Harvard Medical School*

## Mark Your Calendars

- November 1** 2020 Membership year begins
- January 1** Submission portal opens for submitting Continuing Education sessions
- January 31** Deadline for 2020 membership renewal without late fee penalty
- February 13** Deadline for CE Submissions (AMASS, Workshop, Institute, and Master Clinician Seminars)
- February 16** Call for General Sessions (Symposia, Panel Discussions, Clinical Roundtables)
- March 2** Deadline for ABCT award nominations
- March 16** Deadline for Call for General Sessions (Symposia, Panel Discussions, Clinical Roundtables)
- September 3** Deadline for ABCT officer nominations
- November** Election month: time to vote!
- November 19-22** 54th Annual Convention, Philadelphia, PA

Visit [www.abct.org](http://www.abct.org)

# Welcome to the 53rd Annual ABCT Convention

---

Wisdom of Purpose and Perspective:  
Extending the Social Impact of Cognitive  
Behavioral Science

---

*Bruce Chorpita, Ph.D., President*

*Alyssa Ward, Ph.D., LCP, Program Chair*

---

Descriptions follow of several hundred events to be presented November 21–24, 2019. There are sessions on a large array of topic areas and all familiarity levels.

If this is your first ABCT Convention, we recommend you attend the orientation session from 8:00 A.M. to 9:00 A.M. on Friday (A601-A602, Atrium Level).

Having opportunities to discuss your clinical concerns or research interests with colleagues is essential to a rewarding convention experience. Events that are particularly conducive to networking are indicated with this symbol:

# Thursday Clinical Intervention Training 1

ticket

## Applying Exposure Principles to the Treatment of Depression: Exposure-Based Cognitive Therapy

Thursday, 8:30 a.m. – 5:00 p.m.

**L401-L403, Lobby Level**

*Adele Hayes, Ph.D., University of Delaware*  
*Carly Yasinski, Ph.D., Emory University School of Medicine*

**Earn 7 continuing education credits**

Basic to Moderate level of familiarity with the material

Primary Category: Adult Depression, Treatment-CBT

Key Words: *Depression, Exposure, Change Processes/Mechanisms*

HAYES

CARLY  
YASINSKI

Antidepressants and psychotherapy are only about 50% effective, and recurrence rates are as high as 90% by the third episode. Holtzheimer and Mayberg (2011) urge a rethinking of depression as a persistent tendency to become “stuck in a rut” when negative mood states are activated. Treatment must therefore disrupt the processes associated with entering and staying in that rut. Exposure-based cognitive therapy (EBCT) integrates cognitive behavioral therapies for depression with principles of exposure, emotional processing, and inhibitory learning from the treatment of anxiety disorders. EBCT targets key factors that maintain depression (unproductive processing, avoidance, and impaired reward sensitivity and processing). It also facilitates their more adaptive counterparts (constructive emotional processing, distress tolerance, and the ability to sustain and process positive emotions), which together can serve inhibitory functions to prevent relapse. Exposure principles are applied in: (a) weekly narratives to facilitate processing of depressive material, (b) mindfulness exercises to promote distress tolerance, (c) imaginal exposure exercises to facilitate constructive processing of memories related to defectiveness, worthlessness, and failure, and (d) exposure exercises to activate and process positive emotions and related fear and avoidance. CIT participants will learn techniques to reduce depression-maintaining processes and promote emotional processing and inhibitory learning.

At the end of this session, the learner will be able to:

- Describe the foundational principles of exposure, emotional processing, and inhibitory learning from the treatment of anxiety disorders.
- Adapt these principles to depression, given the problems of hopelessness, rumination, overgeneralization, and suicidality.
- Practice techniques to reduce chronic unproductive processing and improve distress tolerance, problem-solving, and healthy lifestyle behaviors.
- Apply exposure principles to facilitate emotional processing and inhibitory learning in depression.
- Engage and strengthen positive emotion system in depression.

## Integrative Behavioral Couple Therapy: Acceptance and Change in Couple Therapy

Thursday, 8:30 a.m. – 5:00 p.m.

**M101, Marquis Level**

*Andrew Christensen, Ph.D., University of California Los Angeles*

*Brian Doss, Ph.D., University of Miami*

**Earn 7 continuing education credits**

Moderate level of familiarity with the material

Primary Category: Couples / Close Relationships

Key Words: *Couples/Close Relationships, Treatment, Technology/Mobile Health*

ANDREW  
CHRISTENSEN

BRIAN  
DOSS

Integrative Behavioral Couple Therapy (IBCT) is an evidence-based approach to the treatment of couples developed by Andrew Christensen and the late Neil S. Jacobson. IBCT is integrative in that it brings together the twin goals of emotional acceptance and behavior change. Also, it integrates a variety of treatment strategies under a consistent behavioral theoretical framework. In this training, Christensen will describe the theoretical notions that distinguish IBCT from traditional and cognitive behavioral couple therapies. Then he will describe the four stages of treatment: assessment, feedback, active intervention, and termination. He will illustrate some of the assessment and treatment strategies with videotaped examples of couples in IBCT. He will also briefly describe the empirical support for IBCT. Brian Doss will describe the translation of IBCT into an online version (OurRelationship.com). Doss will describe and illustrate the three main phases of the intervention captured by the acronym OUR: observe, understand, and respond. He will then discuss two nationwide clinical trials that demonstrate the effectiveness of the intervention. He will conclude with discussion of the integration of the online program with in-person therapy.

At the end of this session, the learner will be able to:

- Describe the DEEP conceptualization of couple problems in Integrative Behavioral Couple Therapy (IBCT).
- Describe the evaluation procedures in IBCT.
- Describe the feedback process in IBCT.
- Distinguish between the treatment strategies of empathic joining and unified detachment.
- Describe the three core components of the OurRelationship.com program

**Recommended Readings:** Briggs, J. G., Finley, M. A., & Sprenkle, D. H. THURSDAY

ticket

## Working With Anxious Youth: Clinical Strategies Within Empirically Supported Treatment

Thursday, 8:30 a.m. – 5:00 p.m.

**M102, Marquis Level**

*Philip C. Kendall, Ph.D., Temple University*

**Earn 7 continuing education credits**

Moderate level of familiarity with the material

Primary Category: Child / Adolescent - Anxiety

Key Words: *Anxiety, Adolescent, Treatment*

EMILY  
LATTIE

This CIT will provide an initial description of the theory that guides the intervention and an overview of the nature, symptoms, and experience of anxiety in youth. We will consider when anxiety is developmentally reasonable and when it is disordered. Cognitive, behavioral, family (parenting), and emotional factors will be addressed. The bulk of the CIT will address intervention strategies. Each of the strategies (e.g., coping modeling, changing self-talk, affect education, exposure tasks) will be described in detail and illustrated with case examples and some video illustrations. A flexible implementation of the manual-based approach will be described and encouraged. Sample videos of actual sessions and reenacted sessions will be available to be played and discussed, and small groups of CIT participants will have an opportunity to engage in a role-play activity. Research outcomes that inform decisions regarding the provision of clinical services for anxious youth will be considered and these findings highlight both (a) what we know and (b) what we do not yet know about the treatment of anxiety disorders in youth.

At the end of this session, the learner will be able to:

- Accurately identify anxiety disorders in youth.
- Describe the nature of anxiety disorders in youth, including developmental, cognitive, behavioral, and familial forces.
- Acquire intervention skills for the provision of empirically supported mental health services for youth suffering from anxiety disorders.
- Practice empirically supported intervention skills for the provision anxiety treatment for youth.
- Gain a more detailed understanding of the flexible application of cognitive-behavioral treatment for anxiety disorders in youth.

## AMASS 1

ticket

**Open Science Practices For Clinical Researchers:  
What You Need to Know and How to Get Started**

Jessica L. Schleider, Ph.D., Stony Brook University  
Michael Mullarkey, M.A., University of Texas at Austin

**Earn 4 continuing education credits**

Basic level of familiarity with the material

Primary Category: Research Methods and Statistics

Key Words: *Research Methods, Statistics, Professional Development*

Clinical psychology is undergoing a revolution where hypotheses, data, materials, and papers are shared more openly than ever before, improving the credibility, accessibility, and transparency of the science we produce. Additionally, an increasing list of top-tier outlets for clinical trials now require (e.g., *Journal of Consulting and Clinical Psychology*, *Archives of General Psychiatry/JAMA Psychiatry*) or strongly encourage (e.g., *Clinical Psychological Science*) primary hypotheses to be pre-registered in order to be considered for publication.

Secondary analyses are also being subjected to ever-increasing scrutiny, with credibility of research findings becoming an integral part of the review process. However, clinical psychology has lagged behind other areas in adopting credibility-enhancing research practices. This may be at least partially because adopting such practices are often framed as a communal good, but a personal sacrifice of time and effort. The landscape is evolving such that open science practices are no longer optional and policies at leading clinical journals suggest that this will only increase over the near term (e.g., Davila, 2019; <https://www.apa.org/pubs/journals/features/ccp-ccp0000380.pdf>). This AMASS will teach easy-to-adopt strategies for enhancing the transparency, accessibility, and credibility of your research—and ways in which these practices actually save both personal time and effort. We will highlight: (a) using pre-registration tools to boost odds of publication acceptance, regardless of your study results; (b) tools for staying even more up to date in your field; (c) earning credit, and disseminating your work, earlier in the paper-writing process; (d) creating easy-to-reproduce analyses that meet current publication standards for data transparency. This session will include hands-on practice with free, credibility-increasing tools such as preprint servers, open data repositories, open source analysis tools (R & JAMOVI), and the Open Science Framework. This AMASS will also focus on immediate translation of at least one open science practice into each participant's workflow by the following day, no matter the type of research you conduct—from work on basic mechanisms of psychopathology to clinical trials to dissemination and implementation science.

At the end of this session, the learner will be able to:

- Learn how and why various credibility-enhancing practices can support and strengthen your (and your lab's) research.
- Establish a quicker ideas-to-paper pipeline (using preprint servers to disseminate research earlier).
- Download and apply at least one tool (including a point and click interface) that helps ensure your analyses are easy for others to reproduce.
- Explain how preregistration and registered reports can facilitate publication regardless of results.
- Discover at least one way you can apply open science practices in your research starting the next day, regardless of your research area within clinical psychology.

**Recommended Readings:** JAMOVİ User Manual to Create Reproducible R Code Using a Point and Click Interface: <https://www.jamovi.org/user-manual.html> Nelson, L. D., Simmons, J., & Simonsohn, U. (2018). Psychology's renaissance. *Annual Review of Psychology*, 69(1), 511–534. Nosek, B. A., Ebersole, C. R., DeHaven, A. C., & Mellor, D. T. (2018). **Desirable Difficulties: Optimizing Exposure Therapy for Anxiety Through Inhibitory Learning**

*Ryan Jacoby, Ph.D., Massachusetts General Hospital  
Shannon Blakey, Ph.D., VA Mid-Atlantic Mental Illness Research, Education  
& Clinical Center (MIRECC)/Durham VA Health Care System  
Jonathan S. Abramowitz, Ph.D., University of North Carolina at Chapel Hill*

**Earn 7 continuing education credits**

Moderate to advanced level of familiarity with the material

Primary Category: Adult Anxiety

Key Words: *Exposure, Anxiety, Phobias*

Individuals with clinical anxiety and fear comprise a large proportion of many therapists' caseloads. Although exposure therapy is highly effective for these conditions, many individuals fail to benefit or experience a return of fear at some point. New directions in the field of exposure therapy focus on an inhibitory learning model of fear extinction as derived from research on learning and memory. This model points to specific techniques for implementing exposure that can optimize short- and long-term gains. Collectively, inhibitory learning strategies emphasize fear tolerance, as opposed to habituation, for protecting against return of fear. Moreover, they introduce "desirable difficulties" into exposure sessions by challenging patients to consolidate and generalize learning via novel therapeutic strategies to foster more durable outcomes (i.e., long-term maintenance). This institute aims to help clinicians understand and apply this model to optimize exposure therapy. Incorporating attendee feedback from our 2018 ABCT institute that received extremely enthusiastic evaluations (100% recommended offering it again in 2019), the inhibitory learning model will first be described and distinguished from traditional approaches to exposure. Numerous strategies to optimize inhibitory learning will then be introduced and illustrated in detail. These strategies include framing exposure to disconfirm threat-based expectations, introducing variability to decontextualize extinction learning, deepening extinction by combining fear cues, augmenting learning with affect labeling and attentional focus, selectively using cognitive therapy to consolidate learning, and options for the elimination or judicious use of safety behaviors. The institute will be interactive and include numerous complex case examples, video demonstrations, and experiential exercises.

At the end of this session, the learner will be able to:

- Distinguish the inhibitory learning approach to exposure from the traditional emotional processing approach

- Explain why it is important to foster fear tolerance during exposure, as opposed to relying solely on fear reduction and habituation
- Describe methods of tracking changes in expectations during exposure therapy, rather than SUDS;
- Describe how to introduce variability into exposure sessions
- Describe how to implement cognitive therapy during exposure sessions to promote extinction learning

## Institute 2

ticket

**Motivational Interviewing For Health Behavior Change***Daniel McNeil, Ph.D., West Virginia University**Trevor Hart, Ph.D., Ryerson University**Nate Mitchell, Ph.D., Spalding University***Earn 7 continuing education credits**

Moderate level of familiarity with the material

Primary Category: Health Psychology / Behavioral Medicine - Adult

Key Words: *Motivational Interviewing, Health Psychology*

Motivational Interviewing (MI) is a client-centered, evidence-based, and semi-structured method for enhancing intrinsic motivation to change by exploring and resolving ambivalence. This intermediate-level institute/workshop is designed for helping professionals and trainees working in primary care and other health care settings who are interested in learning additional MI skills to increase patients' motivation to engage in healthy behavior change. The training is provided by experienced trainers in MI, including one who is a member of the Motivational Interviewing Network of Trainers (MINT). Participants will learn and practice methods to assist patients regarding the promotion of healthy lifestyle behaviors (e.g., diet and exercise, medical adherence, tobacco cessation, oral health). The workshop will review the conceptual model for understanding MI, identify the key principles of MI, provide an operational definition of "MI spirit," and describe the evidence base for the use of MI for promoting health behaviors. Using demonstrations and role-play, the application of specific techniques to increase patient motivation (and respond to resistance) will be covered. As "change talk" (in contrast to "sustain talk" and avoidance) has been demonstrated to be associated with future behavior change, methods will be described to elicit, identify, and reinforce it. The workshop will include experiential components in which participants work in dyads and small groups, and with the trainers, to practice skills in a comfortable, interactive, and supportive learning environment. Integrating MI in primary care and other health care settings will be addressed, including how to utilize brief interventions

At the end of this session, the learner will be able to:

- Conceptualize the MI model and the evidence base for the use of MI in health behavior change with patients in health care settings.
- Employ specific MI methods for eliciting change talk in clients in the context of health behavior.

- Utilize MI in primary care and other health care settings in working with adult, adolescent, and older adult patients.
- Apply specific MI interventions to increase patient motivation for healthy behavior change, including brief interventions.
- Learn specific techniques for managing patient ambivalence regarding health behavior change.

## AMASS 2

ticket

**Incorporating Intensive Measurement and Modeling into Clinical Trials***Jonathan Butner, Ph.D., University of Utah***Earn 4 continuing education credits**

Basic level of familiarity with the material

Primary Category: Research Methods and Statistics

Key Words: *Clinical Trial, Statistics, Research Methods*

Intensive data collection methods and their analytic counterparts have become commonplace in basic psychological science. Despite their tremendous value for application to clinical trials, these methods have yet to be widely adopted in efficacy or effectiveness studies of psychological interventions. For example, these methods can be used to ask questions about not only whether clients have improved to sub-clinical levels but also about the stability of that pattern of improvement. Being able to differentiate patients who have stably improved from those who have improved but are not yet stable has promise in preventing relapse and increasing the longevity of treatment gains (e.g., Hayes & Strauss, 1998). Other applications include the study of complex change processes (e.g., Hayes et al., 2015; Hawe et al., 2009) and contextual factors associated with less prolonged/less severe symptomatology (e.g., Masten, 2004). This AMASS will (a) introduce attendees to a conceptual perspective for thinking about clinically meaningful, distinct patterns of change that psychotherapy can create (dynamical systems theory; DST), (b) compare and contrast this way of conceptualizing change with current standard practices (e.g., repeated measures ANOVA and growth curve modeling), (c) describe how ideas from DST can be integrated into common research designs, and (d) build on knowledge of descriptive statistics and ordinary least squares regression to estimate single case dynamic systems models. Depending on the statistical background of attendees, single case estimation methods will be expanded to modeling entire data sets using either multilevel modeling (MLM) or structural equation modeling (SEM). Basic familiarity with MLM or SEM is recommended for attendees. Participants are encouraged to bring their own data, and we will work through annotated examples. Simulated data and code for annotated examples will be provided.

At the end of this session, the learner will be able to:

- Develop a conceptual framework for distinguishing types of clinically meaningful patterns of change.
- Apply and interpret statistical methods that parallel the conceptual framework thereby enhancing the clinical implications drawn.

- Compare current statistical approaches indicating what translates and what is not known given the DST conceptual framework.
- Create a protocol for how these models change to parallel various research designs.
- Explore how the ideas expand, with practical examples, with other advanced statistical considerations including MLM and SEM.

Primary Category: Trauma and Stressor Related Disorder and Disasters

Key Words: CBT, Trauma, Exposure

This institute provides training in Written Exposure Therapy (WET), an evidence-based treatment for PTSD. It presents the theory underlying WET, a brief overview of WET's empirical support, and step-by-step instructions in the WET protocol techniques. Throughout the workshop strategies for conceptualizing and dealing with comorbidity, managing avoidance, and keeping patients optimally engaged are provided.

At the end of this session, the learner will be able to:

- Explain barriers to implementing first-line PTSD treatment approaches
- Identify critical elements of written exposure therapy.
- Describe the efficacy data for written exposure therapy.
- Describe situations when it is appropriate to use written exposure therapy.
- Apply skills learned to deliver exposure therapy.

**Treating OCD in Children and Adolescents: A Cognitive Behavioral Approach**

*Martin E. Franklin, Ph.D., Perelman School of Medicine at the  
University of Pennsylvania*

**Earn 5 continuing education credits**

Moderate to Advanced level of familiarity with the material

Primary Category: Obsessive Compulsive and Related Disorders

Key Words: *OCD (Obsessive Compulsive Disorder), Treatment, CBT*

In the last twenty years, the evidence base for cognitive behavioral therapy involving exposure plus response prevention for treating youth with obsessive-compulsive disorder has grown substantially. Treatment typically involves in vivo and imaginal exposure to situations and thoughts that provoke obsessional anxiety, along with response prevention, which is aimed at reducing and ultimately eliminating compulsions and other more passive forms of avoidance. Randomized controlled trials conducted around the world now support the efficacy of exposure-based interventions, and effectiveness trials have since provided evidence that robust and durable outcomes can be achieved outside the academic medical contexts in which these treatments were developed and validated. These advances notwithstanding, response to treatment is still neither universal nor complete, and this subspecialty expertise remains difficult to find in many if not most clinical settings. This workshop will focus on common issues that arise in providing CBT for children and adolescents, and clinical strategies to address these challenges will be presented. Psychiatric comorbidity, family accommodation, motivational readiness, and other challenges to within and between-session protocol adherence will be addressed in turn, and ample time will be made available for discussion of clinical cases in which optimal outcomes are proving difficult to achieve.

At the end of this session, the learner will be able to:

- Articulate the expected trajectories of response to CBT for pediatric OCD, which serve as a guide for treatment.
- Identify common clinical challenges to achievement of optimal outcomes, including psychiatric comorbidity, family accommodation, and motivational readiness.
- Describe clinical strategies to address these common clinical challenges.
- Suggest common pathways forward for the clinical management of accommodation.
- Generate clinical strategies to identify and treat tic-like OCD symptoms

## Institute 5

ticket

**Tricking Coyote: Cutting-Edge Strategies For Harnessing Motivation and Achieving Goals***Michael W. Otto, Ph.D., Boston University***Earn 5 continuing education credits**

All levels of familiarity with the material

Primary Category: Transdiagnostic

Key Words: *Motivation*

After clarifying values and stating intentions, what are ways to help your patients, employees, or consultees get to, complete, and maintain behavioral change? This workshop focuses on translating advances in motivational research into stepwise interventions to enhance and maintain motivation, taking into account both strategic and habitual processing (your dual nature). Changing contexts to change or prime motivations, adding in concurrent motivators, attending to process motivations, and arranging appropriate consequences will be discussed from the perspective of introducing multiple motivational interventions across ongoing behavioral chains. Novel strategies for reducing impulsivity and other derailling processes will also be discussed. In sum, motivational interventions will be presented from a transdiagnostic perspective, so that no matter whether your patients/consultees are focusing on weight loss, reducing procrastination/avoidance, completing behavioral assignments, employee management, or maintaining healthy behaviors, this workshop will address core processes underlying goal achievement.

At the end of this session, the learner will be able to:

- Recognize common cognitive and affective factors that derail goal pursuit, especially across longer intervals.
- Attend to the role of context in behavioral self-control, and the importance of manipulating context to influence motivation.
- Evaluate motivational factors across chains of behavior, focusing on antecedent, concurrent, and consequent events.
- Delineate factors that influence the ability to apply strategic processing, and alternative self-control strategies.

## Anxiety and Emerging Adults: Incorporating Caregiver Involvement and Enhancing Exposures in the Treatment of Adolescents and Young Adults With Anxiety Disorders

Shannon Bennett, Ph.D., Weill Cornell Medicine

Lauren Hoffman, Psy.D., Columbia University Medical Center

Schuyler Fox, B.A., Columbia University Medical Center

Anne Marie Albano, ABPP, Ph.D., Columbia University Medical Center

### Earn 5 continuing education credits

Moderate to Advanced level of familiarity with the material

Primary Category: Adult Anxiety

Key Words: *Anxiety, Exposure, Families*

Emerging adulthood is a developmental stage characterized by uncertainty, anxiety, optimism and growth (Arnett, 2014). For youth with pre-existing or new anxiety disorders, this stage is often compounded by an inability to achieve independence. Although effective treatments for anxiety in youth exist (Walkup, et al., 2008), long-term remission through emerging adulthood is uncommon (Ginsburg et al., 2018). Our model argues that parent involvement, development, and salient exposures are critical for remission. Parents are often minimally involved in studies and clinical care. Age-appropriate functioning has also not been a primary target of treatment. Hence, we developed a systematic approach to assisting youth and parents to understand and meet developmental tasks while treating anxiety. Central is for youth to take on the challenges of anxiety and daily living with appropriate parental guidance and support. In this workshop, we discuss a model for integrating core components of effective CBT for anxiety with novel components designed to address patient-caretaker dependency, role transitions, and attainment of behaviors necessary for independent functioning. This developmentally-informed treatment is aimed at anxiety relief and improved functioning, based on our experiences in treating transition-aged youth and informed by critical reviews of the developmental literature. We will dive deep into practical aspects of the model, demonstration, and practice of techniques to address caregiver involvement in young adult treatment. We will provide instruction on developmental assessment that is central to our unique parent-youth ‘transition’ sessions. Participants will be taught how to implement the transition component, where youth and parents address overprotection, fears and concerns, conflict, and the transfer of responsibility to youth for meeting developmental milestones. We address parents’ fears of letting

their youth struggle, demonstrate transition sessions, and review our short term (5-session) caregiver group. We focus on exposure for this population (i.e. contextually rich exposures, virtual reality and apps, community based exposures), demonstrate and practice the unique components of the program.

At the end of this session, the learner will be able to:

- Recognize the tasks of development necessary for adolescents to transition to adulthood
- Devise strategies for addressing parental over involvement and adolescent dependency including family communication and problem solving
- Develop exposures that maximize the use of context and address developmental stage issues to increase ecological validity and reduce or develop tolerance of anxiety
- Implement caregiver-youth transition sessions
- Assess developmental milestones and form goals for increasing youth independence

**Parent-Child Interaction Therapy: A Robust Intervention for Early Childhood Mental Health***Cheryl B. McNeil, Ph.D., West Virginia University***Earn 5 continuing education credits**

Basic to Moderate level of familiarity with the material

Primary Category: Child / Adolescent - Externalizing

Key Words: *PCIT (Parent Child Interaction Therapy), Parent Training, Child*

This institute describes Parent Child Interaction Therapy (PCIT), an evidence-based behavioral treatment for families of young children with disruptive behavior disorders. PCIT is based on Baumrind's developmental theory, which holds that authoritative parenting—a combination of nurturance, good communication, and firm limits—produces optimal child mental health outcomes. In PCIT, parents learn authoritative parenting skills through direct therapist coaching of parent child interactions, guided by observational data collected in each session. Parents receive immediate guidance and feedback on their use of techniques such as differential social attention and consistency as they practice new relationship enhancement and behavioral management skills. Videotape review, slides, handouts, and experiential exercises will be used to teach participants the basic interaction skills and therapist coding and coaching skills used during treatment sessions. Applications of PCIT for children on the autism spectrum and other special populations will be discussed.

At the end of the session, the learner will be able to:

- Describe the theoretical background underlying PCIT.
- Demonstrate the PRIDE skills that are used for relationship-enhancement component of PCIT.
- Explain the importance of coding parent-child interactions as a mechanism for assisting caregivers in mastering skills.
- Demonstrate the basic skills of discipline in PCIT.
- Discuss the research base for PCIT.

**Supervision Essentials in Cognitive-Behavioral Therapy**

*Danielle A. Kaplan, Ph.D., New York University School of Medicine*  
*Cory F. Newman, ABPP, Ph.D., Perelman School of Medicine at the University of Pennsylvania*

**Earn 5 continuing education credits**

Basic to Moderate level of familiarity with the material

Primary Category: Workforce Development / Training / Supervision

Key Words: *Supervision, CBT, Education and Training*

Drawing on recent findings from evidence-based programs of CBT supervision, this presentation will highlight the essential contents and processes of CBT supervision. The following major areas of interest will be described: (1) The supervisory relationship, (2) The chief responsibilities and teaching methods of a CBT supervisor, (3) Promoting ethical behavior and cross-cultural sensitivity in supervisees, (4) Facilitating supervisee competency across different levels of supervisee development, (5) Managing important administrative tasks, and (6) Providing feedback and formal evaluations in a timely, constructive manner. Multi-modal aspects of the methods of supervision will be highlighted, including the use of readings, audio-visual recordings, role-modeling, and role-playing. This 5-hour pre-conference Institute is designed for early career professionals who anticipate or have recently commenced providing CBT supervision to trainees, as well as more experienced CBT supervisors looking for a refresher course. Demonstration role-plays, video, and interactive discussion of challenging supervision scenarios will be utilized, along with didactics.

At the end of the session, the learner will be able to:

- Enact the multiple professional responsibilities of a clinical supervisor, and to impart multiple skills that the clinical trainee must learn.
- Model professionalism, ethical behavior, cross-cultural sensitivity, and relational skills to trainees.
- Teach trainees to conceptualize cases and use the techniques of CBT competently.
- Evaluate and give feedback to trainees.
- Provide supervisees with direct support in times of crisis with a client, while still giving the supervisees room to make decisions and respond effectively.

# Friday

---

8:00 a.m. – 9:00 a.m.

---

**A601-A602, Atrium Level**

## New Attendee Orientation

Maximize your ABCT convention experience by joining us first thing Friday morning. Enjoy a cup of coffee or tea and get your personal blueprint to getting the most out of the Atlanta Convention! Whether you are a new member, first-time convention attendee, or just want to refresh your memory on how to navigate the convention, all are welcome. Learn how to take full advantage of earning continuing education credits and the documentation required, note networking opportunities, gain insights into the convention program addendum; how to utilize the online itinerary planner, and/or master the convention app. You will learn how to stay connected to ABCT throughout the year via our website, Facebook page, Special Interest Groups, and other networking opportunities. Plus be on the lookout for members wearing Ambassador ribbons. They can answer any lingering questions about ABCT in general. We look forward to personally meeting you!

**M301-M302, Marquis Level**

## Special Session

### Internship Training Site Overview

Key Words: *Career Development, Education, Training*

PRESENTERS: *Jeanette Hsu, Ph.D., VA Palo Alto Health Care System*  
*Crystal S. Lim, Ph.D., University of Mississippi Medical Center*

The Internship Training Site Overview is designed to help students learn about the internship application and selection process, including what to look for when applying to or selecting an internship, how to prepare for internship interviews, and how to find a good internship “fit.” The program will consist of two parts. The first 90 minutes will feature a panel discussion by behaviorally oriented internship directors from American and Canadian institutions. These presenters will address both the training director and the student perspectives of the application process, including the criteria used to assess applicants. Questions from the audience will be accepted at the end of the segment. The second section will consist of informal meetings between internship site representatives and prospective internship applicants. A list of participating sites will be published in the program addendum distributed at the convention registration desk. If you are a student and are either just beginning to learn about internships and the application process or are in the process of applying for internship now, we encourage you to attend.

## **African Americans in Behavior Therapy SIG**

Black Lives STILL Matter: The Impact of Police Violence on Black Mental Health  
Many studies have shown that exposure to violence produces long-term negative consequences for victims. We know that these negative consequences are not only experienced by the victims, but also by the witnesses, families, and often the entire Black community. In 2018, The Lancet published a study that analyzed over 100,000 Black adults after exposure to police killings of unarmed Black Americans. Unsurprisingly, they found adverse effects among participants with the most significant effects having occurred one to two months post-exposure. These types of events can have widespread implications for Black Americans at large in ways that spans beyond the DSM-5's conceptualization of trauma. This presentation will discuss these challenges and suggest coping strategies for the mental and overall well-being of Black Americans in light of this traumatic political climate. There will also be an opportunity for SIG members to network and share information about their experiences and research/clinical work. All are welcome to attend.

## Master Clinician 4

## Helping Suicidal Teens Build Lives Worth Living: Key Elements to Orienting and Committing Teens to DBT

Alec Miller, Psy.D., Cognitive Behavioral Consultants

### Earn 2 continuing education credits

Basic level of familiarity with the material

Primary Category: Suicide and Self-Injury, Treatment- Other

Key Words: DBT (*Dialectical Behavior Therapy*), Suicide, Adolescents

Suicide is the second leading cause of death among youth, with suicide attempts, nonsuicidal self-injurious behaviors, and suicidal ideation becoming increasingly prevalent. Clinicians are often loath to treat suicidal youth in outpatient settings due to the inherent clinical challenges associated with working with suicidal youth. DBT has recently become an established evidence-based therapy for suicidal adolescents in outpatient settings since the results from two randomized controlled trials have been published by different investigators from two countries (McCauley et al., 2018; Mehlum et al., 2014). Effectively engaging suicidal adolescents in psychotherapy requires the use of a number of DBT strategies, including orientation, commitment, dialectical, validation, and stylistic, to name a few (Miller, Rathus, & Linehan, 2007). One of the challenges for many DBT therapists working with adolescents is figuring out a way to more formally “connect the dots” between the teen’s problem behaviors, his or her life worth living goals, and showing how DBT therapy bridges the two. Targeting this problem along with other potential orientation/commitment challenges are highlighted in this seminar. This session is intended to help participants learn numerous key DBT strategies to engage and retain suicidal youth and their families in outpatient treatment. The seminar leader will use didactic teaching, role-playing, and video clips, to convey the material.

At the end of this session, the learner will be able to:

- Discuss the biosocial theory and how it helps to explain adolescents’ emotional dysregulation.
- Discuss how to build and strengthen client’s commitment by more effectively orienting them-by connecting the dots between clients’ problem behaviors, clients’ life worth living goals, and DBT treatment.
- Identify and employ key orientation, commitment, dialectical and stylistic strategies utilized in the first several individual DBT sessions with teens and families.

**Recommended Readings:** Mehlum, L., Tormoen, A., Ramberg, M., Haga, E., Diep, L., Laberg, S., . . . Groholt, B. (2014). Dialectical behavior therapy for adolescents with repeated suicidal and self-harming behavior: A randomized trial. *Journal of the American Academy of Child and Adolescent Psychiatry*, 53(10), 1082-1091. ### Mini Workshop 1

## CBT Express for Young Patients: Bite-sized Versions of Conventional Procedures

Jessica M. McClure, *Psy.D.*, Cincinnati Children's Hospital Medical Center  
Robert D. Friedberg, *Ph.D.*, Palo Alto University

### Earn 1.5 continuing education credits

Moderate to Advanced level of familiarity with the material

Primary Category: Treatment - CBT

Key Words: *Child, Transdiagnostic, Treatment Development*

Textbooks and journal articles are filled with empirical data supporting CBT with young patients experiencing various emotional difficulties. Workbooks and manuals for delivering CBT to young patients diagnosed with singular and co-morbid diagnoses are widely available. Clinical care contexts are undergoing rapid changes requiring behavioral health care providers to provide treatments in various contexts (e.g. specialty behavioral health clinics, schools, correctional institutions, integrated pediatric primary care settings, etc.). Additionally, other health care professionals (pediatricians, nurses, psychiatrists, counselors, social workers, etc.) are increasingly asked to provide CBT in their work. Payment premiums are increasingly allocated to brief and effective interventions that facilitate return to health/better functional adaptation. Consequently, there is a need to learn effective, efficient, and flexible CBT procedures that fit diverse patients, care context, delivery formats, and providers. This is precisely the aim of this mini-workshop. The brief interventions presented in this mini-workshop are called CBT EXPRESS skills. The toolkit is like an express train; efficient but guided by a track. CBT formulation directs the CBT Express. Accordingly, a simple yet robust conceptual rubric is presented. The main focus of the mini-workshop is explaining some CBT techniques that could be delivered in approximately 15 minutes. The interventions are grouped into basic behavioral tasks, cognitive restructuring, and experiment/exposure modules. More specifically, attendees

will learn procedures such as “Don’t sink the boat,” “My Worry Tree,” “Fox Talk,” “I Spy,” “Amp Up Your Feelings,” “Double Dribble,” and “It Ain’t Necessarily So.” In this practitioner friendly mini-workshop, attendees will obtain portable CBT techniques for use in a variety of clinical settings. Finally, this mini-workshop is entirely consistent with the 2019 ABCT program goals to build novel and scalable ways to extend CBT’s reach. More specifically, the mini-workshop emphasizes personalized applications of brief CBT procedures in emerging service contexts such as integrated pediatric care and school-based behavioral health.

At the end of this session, the learner will be able to:

- Develop a personalized and portable case conceptualization suitable for multiple emerging service contexts caring for young patients
- Apply 5-7 brief CBT techniques that can be applied in approximately 15 minutes when treating young patients in pediatric, school-based, inpatient, and traditional outpatient behavioral health settings.
- Extend the reach of CBT with youth to novel contexts that demand brief scalable assessment and treatment

**Recommended Readings:** McClure, J.M., Friedberg, R.D., Thordarson, M.A., & Keller, M. (In Press). CBT-Express. New York: GuilfordKendall, P. C., Makeover, H., Swan, A., Carper, M. M., Mercado, R., Kagan, E., & Crawford, E. (2016). ## Mini Workshop 2

## Sports, Superheroes, Star Wars and Beyond: Strategies for Teaching Cognitive and Behavioral Principles to Anxious Youth and Making Therapy Fun

Janina Scarlet, Ph.D., Center for Stress and Anxiety Management  
Sandra Pimentel, Ph.D., Montefiore Medical Center

**Earn 1.5 continuing education credits**

Basic level of familiarity with the material

Primary Category: Child / Adolescent - Anxiety

Key Words: Child, CBT, Anxiety

Cognitive behavioral treatment for youth anxiety is an effective intervention approach (Crowe & McKay, 2017). While manual-based approaches offer structure for the delivery of intervention strategies, there is ample room for flexibility to “breathe life” into the treatment (Kendall, Chu, & Gifford, 1998; Kendall, Gosch, Furr, & Sood, 2008). CBT components include, for example, psychoeducation, rapport-building, affective education, self-monitoring, cognitive restructuring, problem solving, somatic management, role play, modeling, skills rehearsal, behavioral experiments, exposure, reinforcement and rewards that require an understanding and integration cognitive and behavioral principles with development, family, culture, and multiple other relevant variables. This is no easy task! As such, and in working with children and adolescents in particular, CBT therapists are teachers, storytellers, coaches, collaborative empiricists, and producers as well who must utilize creativity and fun. In this interactive mini-workshop the presenters will demonstrate how to use sports, superhero narratives, and pop culture references to supercharge how to teach children and families about feelings, coping, and problem solving, and engage in practice and exposures. Participants will participate in exercises and receive sample clinical materials. Crowe, K., & McKay, D. (2017). Efficacy of cognitive behavioral therapy for childhood anxiety and depression. *Journal of Anxiety Disorders*, 49, 76-87. Kendall, P.C., Chu, B., & Gifford, A. (1998). Breathing life into a manual: Flexibility and creativity with manual-based treatments. *Cognitive and Behavioral Practice*, 5, 177-198. Kendall, PC, Gosch, E. Furr, J., & Sood, E. (2008). Flexibility Within Fidelity. *Journal of the American Academy of Child and Adolescent Psychiatry*, 47, 987-993

At the end of this session, the learner will be able to:

- Demonstrate at least three strategies for incorporating sports and pop culture into teaching youth about the CBT model.

- Demonstrate at least three strategies for incorporating sports and pop culture examples into multiple CBT components such as cognitive restructuring and exposures.
- Create and utilize at least three elements of a superhero narrative for youth with anxiety disorders.

## **Mini Workshop 12**

# **Bringing ERP From the Classroom to the Treatment Room: A Guide for Students and New Therapists to Motivate Patients to do ERP.**

*Patrick B. McGrath, Ph.D., Amita Health Alexian Brothers*

**Earn 1.5 continuing education credits**

Basic level of familiarity with the material

Primary Category: Adult Anxiety

Key Words: *Anxiety, CBT, Exposure*

For the beginning therapist, anxious patients can be intimidating, as can the idea of exposing someone to the very thing that they fear. The treatment of anxiety disorders will be reviewed in this talk through the lens of Exposure and Response Prevention (ERP) therapy. Instead of focusing on diagnosing of anxiety, this workshop will be a practical application of how to utilize ERP to treat anxiety disorders in your very first sessions after you go home from the conference. Specific CBT and ERP techniques for Panic, OCD, PTSD, Social Anxiety, School Anxiety, and Specific Phobias will be reviewed, as well as how to present it to a patient so they will actually understand the rationale for it. If you are a student, no matter what level, attend this talk to see how to take what you have learned in the textbooks and really apply it to your patients. Be ready to have some fun and learn the practical uses of humor, self-disclosure, YouTube, and props. This talk will be entertaining and educational.

At the end of this session, the learner will be able to:

- Apply basic theory behind ERP to actual, real world cases.
- Describe how ERP works and reasons why it may not in order to not make the same mistakes that seasoned professionals made when they were first starting out using ERP.
- Recall specific ways to introduce ERP to their patients so that their patients will actually look forward to doing ERP.

*Randy Wolbert, MSW*, Behavioral Tech LLC

**Earn 1.5 continuing education credits**

Primary Category: Spirituality and Religion

Key Words: *Mindfulness, Behavior Analysis, Spirituality and Religion*

A range of distinct psychotherapies incorporate aspects of mindfulness, and many of these approaches draw on concepts and practices from various spiritual traditions. A central controversy focuses on whether contemporary applications of mindfulness to psychological problems should be secular or retain their spiritual origins (Waelde & Thompson, 2016), particularly regarding moral action (Baer, 2015). This tension has major implications for the accessibility of such therapies across cultures with conflicting religious beliefs (Deluca, Kelman & Waelde, 2018). Both directing and excluding spirituality from mind-

fulness interventions can alienate patients (Linehan, 2015). The tension also extends to expectations for practitioners. DBT, MBSR, and MBCT have regulatory bodies or charters that require psychotherapists to attend retreats and maintain a regular spiritual practice (DBT-LBC, 2019, Center for Mindfulness, 2017). However, it seems contradictory that empirically-based therapies would prescribe a spiritual practice.

The 6 panelists all have expertise in therapies targeting mindfulness as a process; all of them include some contemplative or attentional training. Some speakers also have a background within a relevant spiritual tradition. The interface between their professional practice and spiritual path is one that they have grappled with on a personal and professional level. The main objectives for this panel are to synthesize theory, personal experience, and existing data from behavior therapy and affective neuroscience to (1) describe the convergence and divergence of concepts underlying behavior therapy with the spiritual tenets underpinning contemplative practice (2) discuss the position of each therapy on contemplative practice requirements for practitioners, and (3) generate principles to navigate the inherent tension in providing interventions grounded in clinical science that have been influenced by specific spiritual practices and beliefs.

Albert Einstein College of Medicine

*Yael C. Schonbrun, Ph.D.*, Alpert Medical School of Brown University

**Earn 1.5 continuing education credits**

**Primary Category:** Dissemination & Implementation Science

**Key Words:** *Dissemination, Technology / Mobile Health, Professional Development*

The lay public is eager to consume information about psychology and mental illness. Unfortunately, much of what we see about mental health in print, on TV, and in social media amounts to “fake news,” often heavy on pseudoscience but light on substance. As

highly trained, evidence-based practitioners, it is incumbent upon us to disseminate cutting-edge clinical science to wider audiences. In so doing, we can educate large numbers of people about mental illness, thereby helping to reduce stigma, and point people towards effective treatments. We can also raise the public profile of CBT, which can potentially impact national policy and funding decisions. Unfortunately, few evidence-based practitioners regularly engage with wider audiences, largely because they have not been trained to do so and feel unprepared and intimidated as a result. The aim of this panel is to inspire more clinicians to engage with the wider public, by featuring five professionals from diverse backgrounds who work to improve knowledge delivery through different mediums. These include: blogs and popular websites (Dr. Ilyse Dobrow DiMarco); popular press books, op-eds, and news articles (Dr. Mitch Prinstein); social media (Dr. Simon Rego); television (Dr. Kevin Chapman); and podcasting (Dr. Yael Schonbrun). Panelists will address the following issues: a) How to establish yourself as a writer/television personality/social media presence/podcaster; b) Potential barriers to cultivating a media presence; c) Pros and cons of interfacing with the media; d) How to successfully navigate media interactions; and e) How to effectively market yourself and your message.

Basic level of familiarity with the material

Primary Category: Professional / Interprofessional Issues

Key Words: *Career Development, Professional Issues, Training / Training Directors*

Completing a graduate degree in psychology is a long process – the median age for receiving a doctorate is 32 (Bailey, 2004). For this reason, about 25% of women and men enrolled in doctoral programs have dependent children (Mason, 2006). Research and policy efforts have focused on supporting faculty members who are parents, yet less atten-

tion has been paid to the needs of graduate student parents, who have similar challenges balancing coursework, research, and often teaching and/or clinical responsibilities— all on a tighter budget. In the field of clinical psychology, the requirements for internship and licensure add to these difficulties. Graduate student parents are often not included in universities' family friendly policies, likely contributing substantially to attrition rates, particularly for women (Council of Graduate Schools, 2008), as well as delays in having children for those who want them (Mason, 2006). This presentation will focus on identifying challenges faced by trainee parents, as well as proposing and evaluating solutions for training programs to better support them. First, Stevie Grassetti will present data collected from psychology trainees who recently shared their experiences balancing parenting and training. Data collection is ongoing, but current data ( $N = 166$ ) were provided by individuals pursuing PhDs (49%) and PsyDs (35%) in clinical psychology, and doctoral degrees in counseling psychology (16%). The sample is largely female (83%), and includes those who identify as only Caucasian (68%), as well as Hispanic (10%), Asian (10%), African American (5%), and Other (7%). Respondents reported that only 18% of training programs had accessible, specific policies regarding parental leave, compared to 25% of programs with general guidelines and 42% of programs without any guidelines or policies. Findings regarding trainees' ability to take paid and unpaid parent leave, along with their experiences speaking with clinical and research supervisors will be described.

At the end of this session, the learner will be able to:

- Identify challenges faced by psychology trainees who are also parents at each step of the training process (graduate school, practica placements, internship, and postdoctoral fellowship).
- Propose and discuss solutions to providing better support for parents during the psychology training process.
- Discuss benefits and drawbacks of implementing these solutions in psychology training programs.

## Workshop 1

## **Risk Reduction Through Family Therapy (RRFT): An Evidence-Based Treatment For Co-Occurring Substance Use Problems and PTSD Among Adolescents**

Zachary Adams, Ph.D., Indiana University  
Carla K. Danielson, Ph.D., MUSC

**Earn 3 continuing education credits**

Moderate level of familiarity with the material

Primary Category: Child / Adolescent - Trauma / Maltreatment

Key Words: *Adolescents, PTSD (Posttraumatic Stress Disorder), Addictive Behaviors*

Despite high rates of comorbidity between PTSD and substance use problems (SUP) in adolescents and adults, few integrated treatments have been rigorously evaluated to date. This slow pace of scientific advancement has left the state of practice stymied. Reasons for this limited progress include compartmentalized mental health and addiction fields, long-standing clinical lore that it is unsafe to engage a youth or adult with SUP in exposure-based treatment due to concerns that exposure-induced distress will exacerbate SUP; and the challenges of doing comorbidity treatment outcome research. Risk Reduction through Family Therapy (RRFT) was developed and evaluated over the past 15 years to address this gap (Danielson et al., 2010, 2012). RRFT is an exposure-based treatment that integrates evidence-based treatments for PTSD (TF-CBT) and substance use disorders (MST principles) to address these commonly co-occurring problems in an integrative fashion. Outcomes from 3 clinical trials, including a recently completed Stage II RCT (124 adolescents with co-occurring SUP and PTSD followed through 18-month post-baseline; Danielson, Adams, et al, under review), support the feasibility, safety, and efficacy of RRFT. Given the high rate in which SUP and PTSD co-occur in trauma-exposed adolescents, this Institute is offered to help meet the need for clinicians who serve this vulnerable population. The aim of this Institute is to provide attendees with an overview of and foundation in the RRFT treatment model. In the first part of the training, Drs. Danielson and Adams will briefly review SUP and other high-risk behaviors commonly observed in adolescents who have experienced traumatic events and will briefly describe the results from completed RRFT clinical trials. Next, the majority of the workshop will be dedicated to clinical training in the ecologically-based RRFT model. The trainers will describe the goals of each of the 7 RRFT treatment components and skills targeted in these components. Key interventions used in the Substance Abuse component and PTSD component will be of largest focus. The trainers will use a combination of activities, case

examples, and practice role plays to promote learning among attendees. Prior training in TF-CBT is highly recommended.

At the end of this session, the learner will be able to:

- Describe the associations among substance use problems, other high-risk behaviors, trauma, and PTSD among adolescents
- Explain the clinical and empirical rationale for taking an integrated and risk reduction approach to treatment with adolescents with co-occurring substance use problems and PTSD.
- List the Fundamentals in implementing RRFT
- Identify the goals and key skills targeted in each of the seven RRFT treatment components.
- Complete an Ecological Functioning Assessment and Substance Use Problem Fit Circle as key interventions applied in RRFT

## Workshop 2

## How to Apply Cognitive Behavioral Principles to Transgender Care: An Evidence-based Transdiagnostic Framework

Danielle S. Berke, Ph.D., Hunter College, City University of New York (CUNY) & The CUNY Graduate Center

Colleen A. Sloan, Ph.D., VA Boston Healthcare System & Boston University School of Medicine

### Earn 3 continuing education credits

Basic level of familiarity with the material

Primary Category: LGBTQ+

Key Words: LGBTQ+, Transdiagnostic, Case Conceptualization / Formulation

Transgender individuals are disproportionately burdened by pervasive discrimination, marginalization, and other oppressive social forces (e.g., transphobia). These stressors contribute to well-documented mental health disparities including elevated rates of suicide, anxiety, and depression. While many mental health professionals and ABCT attendees alike are motivated to use the tools of cognitive-behavioral science to address these disparities, far fewer feel prepared to effectively treat clinical distress in transgender people in a culturally affirming, tailored, and evidence-based manner. This gap maintains disparities for this marginalized group and limits the social impact and reach of cognitive-behavioral science and practice. This workshop is designed to provide basic knowledge of clinical distress in transgender populations along with strategies to conceptualize and intervene in presenting problems, utilizing cognitive-behavioral and minority stress (Meyer, 2003) frameworks. Presenters will demonstrate how to effectively apply cognitive-behavioral treatment strategies to directly address presenting problems and symptoms of transgender clients. The workshop aims to develop and/or enhance application of basic cognitive behavioral strategies (e.g., cognitive restructuring, behavioral activation) and third-wave CBT principles (e.g., mindfulness, compassion, acceptance) to the needs of a marginalized community. The workshop is intended for audiences who have some to little knowledge regarding transgender health. In order to enhance participants' engagement and learning, case vignettes, experiential exercises and role-plays, will be embedded throughout this workshop, and will be offered in an affirming, non-judgmental, and supportive environment. The broader implications and social impact of addressing transgender mental health disparities will be emphasized.

At the end of this session, the learner will be able to:

- Develop case conceptualizations of clinical distress associated with transgender-specific stressors using cognitive-behavioral and minority stress frameworks.
- Apply specific cognitive (e.g., cognitive restructuring) and behavioral strategies (e.g., exposure) to address clinical distress in transgender individuals.
- Apply third-wave CBT strategies to both the conceptualization and treatment of clinical distress in transgender clients.

### **Invited Panel 1**

## **Increasing Impact of Cognitive Behavioral Therapies: Why Public Health?**

*Sonja Schoenwald, Ph.D., Medical University of South Carolina*

*Ileana Arias, Ph.D., Centers for Disease Control and Prevention*

*Craig Thomas, Ph.D., Centers for Disease Control and Prevention*

*Richard Puddy, Ph.D., M.P.H., Centers for Disease Control and Prevention*

**Earn 1 continuing education credit**

Key Words: *Public Health, Implementation, Public Policy*

This invited session explores the intersection of public health principles and essential services with the conference theme of extending the social impact of cognitive behavioral science. Sonja Schoenwald facilitates a guided discussion among a panel from Atlanta-based, US Centers for Disease Control and Prevention that includes, Ileana Arias, PhD, Craig Thomas, PhD, and Richard Puddy, PhD, MPH. Topics addressed include: public health foundational concepts, the benefits of adopting a public health perspective; what's needed (and limitations) for interventions to work on the ground in a wide variety of potentially diverse and challenging contexts; and illustrations of comprehensive public health strategies that span the continuum from individual to population health. Success stories and battle scars will be highlighted from across a range of strategies that impact health (from individual behavioral science interventions to wide scale policy in-

terventions) all the while taking into account implementation factors. Come experience how ABCT as an organization and as a collection of individuals can gain a public health perspective on scaling solutions to increase the impact of cognitive behavioral science.

At the end of this session, the learner will be able to:

- Describe the CDC conceptual framework for population health and prevention and implications for increasing the impact of cognitive behavioral science.
- Discuss strategies to scale up and scale out effective prevention and intervention approaches to maximize their public health impact.
- Illustrate successes and challenges of implementations and implications for increasing the reach and sustainability of effective practices.

## Master Clinician 1

**ticket**

## You Are Not Supposed to Feel That Way: Making Room for Difficult Emotions

*Robert Leahy, Ph.D., American Institute for Cognitive Therapy*

### Earn 2 continuing education credits

Basic to Moderate level of familiarity with the material

Primary Category: Adult Anxiety

Key Words: *Emotion Regulation, Rumination, Transdiagnostic*

Many clients have been told that there are certain emotions that they should not have—envy, jealousy, ambivalence, boredom, resentment, regret, sadness, anger, and anxiety. They have been told, “You shouldn’t feel that way”; “Get over it”; or “Stop crying.” But a life worth living often involves experiencing unpleasant emotions that are often complex and apparently “conflicting.” Just as people with OCD struggle with unwanted intrusive thoughts or people who ruminate look for “The Answer,” we often struggle to rid ourselves of unwanted feelings. A new form of CBT-Emotional Schema Therapy,

which draws on ACT, DBT, cognitive therapy and metacognitive therapy-emphasizes that all emotions evolved because they were adaptive-including emotions that we are often told we should not have. We will review beliefs in emotional perfectionism and existential perfectionism-that is, the belief that we should feel good and that our lives should follow certain expectations that we have. But real life is filled with disappointments, loss, unfairness, and even betrayal. I describe a model of emotional inclusiveness, containment of unpleasant emotions, normalization of “the abnormal,” expansion and differentiation of emotions, and the use of these emotions to differentiate the values and meanings that we have. We will review how clients have learned problematic views of emotions, emotion regulation, and emotion expression and how these beliefs currently impede acceptance and tolerance of feelings. We will review these problematic beliefs about fear of emotions, such as the belief in Pure Mind, the need for “clarity” as opposed to openness and fluidity of emotion, beliefs in the durability and need for control of “negative” emotions, shame and guilt about emotions, and intolerance of “conflicting” emotions. We will examine how clients can overcome their fear of crying and in sharing painful feelings, while helping clients also pursue a range of other emotions. A wide range of techniques will be described and experiential participation will be encouraged to assist in deepening meaning without avoiding the unpleasant emotions often associated with finding meaning.

At the end of this session, the learner will be able to:

- Identify problematic beliefs and strategies about “unwanted” emotion.
- Implement techniques, metaphors, and experiential exercises to increase integration and use of unpleasant emotions.
- Identify beliefs in Emotional Perfectionism, Existential Perfectionism, and Pure Mind

### Special Session

## Become an American Board of Professional Psychology (ABPP) Board Certified Specialist in Behavioral and Cognitive Psychology

*Robert Klepac, Ph.D., ABPP, University of Texas Health Science Center at San Antonio*

*Linda C. Sobell, Ph.D. ABPP, Nova Southeastern University*

This workshop will focus on how to become a Board Certified Specialist in Behavioral and Cognitive Psychology. Certification by ABPP demonstrates psychologists have met

their specialty's standards and competencies. Board Certification is valuable for several reasons: (a) it is increasingly becoming an expectation in our profession; (b) it enhances practitioner credibility for patients; (c) it distinguishes you from other psychologists; (d) there are potential salary increases by the VA, hospitals, the military, and other health care facilities; (e) it enhances qualifications as an expert witness; (f) it facilitates inter-jurisdictional licensing and practice mobility; and (g) it streamlines the credentialing process for licensing boards, and insurance companies. The application process for regular, early entry (graduate students, interns, and residents), and senior option candidates will be reviewed.

---

9:00 a.m. – 10:00 a.m.

---

**Embassy F, Embassy Level, Hyatt Regency Atlanta**

## Couples Research & Treatment SIG

At this meeting we will welcome new members; announce graduate student research award recipients; discuss content of future newsletters; elect new officers; obtain dues payments; provide briefs on activities of subcommittees; discuss the SIG's role in the larger ABCT organization; and discuss salient, novel couples research and intervention issues related to theory, methodology, statistics, grant funding, and public policy.

---

9:00 a.m. – 10:00 a.m.

---

**Embassy D, Embassy Level, Hyatt Regency Atlanta**

## Student SIG

At the 2019 Student SIG meeting we will present the Best Poster Award, elect the incoming Co-President, update all membership rosters, and hold a panel for individuals who are interested in applying for and attending graduate school.

---

10:00 a.m. – 11:00 a.m.

---

**Imperial Ballroom A, Marquis Level**

### Special Session

## Internship Meet and Greet

PRESENTERS: *Jeanette Hsu, Ph.D.*, VA Palo Alto Health Care System  
*Crystal S. Lim, Ph.D.*, University of Mississippi Medical Center

For description please see "Internship Training Site Overview" on page 28 at 8:30 a.m.

FRIDAY

**Embassy C, Embassy Level, Hyatt Regency Atlanta**

## **Psychosis and Schizophrenia Spectrum SIG**

The first part of the meeting will be a discussion of the board's efforts to serve our membership in the past year, a vote on a new name for the SIG, election of officers, and SIG goals for the coming year (e.g., continuing to expand membership size and engagement, next year's preconvention community forum). The second part of the meeting will include an invited research presentation on psychosis and/or the schizophrenia spectrum.

---

10:30 a.m. – 12:00 p.m.

**M102, Marquis Level**

### **Mini Workshop 3**

## **Overcoming Challenges in the Therapeutic Relationship**

*Judith S. Beck, Ph.D.*, Beck Institute For Cognitive Behavior Therapy

**Earn 1.5 continuing education credits**

Moderate to Advanced level of familiarity with the material

Primary Category: Treatment - CBT

Key Words: CBT, *Therapeutic Relationship*, *Personality Disorders*

A good working relationship with clients is essential if clients are to make progress in therapy. Why do some clients easily form an adaptive relationship with their therapist while others do not? It's usually related to clients' maladaptive core beliefs about themselves and other people. If they believe they are vulnerable and other people are likely to hurt them, they tend to believe that their therapist may hurt them, too. Ruptures may occur even with the most expert of therapists. There are a number of strategies therapists can employ to avoid ruptures but when they do occur, a great deal of learning can take place. Strategies to repair ruptures include eliciting clients' automatic thoughts when therapists notice an affect shift in session, responding effectively to clients' concerns regarding the relationship, modeling apologizing and problem solving when clients' concerns are valid, and helping clients test their view of the therapist when their concerns are not valid. When these kinds of techniques are insufficient, therapists need to conceptualize why a particular problem has arisen so they can choose advanced strategies to improve the relationship. Having worked through a therapeutic relationship problem with clients, therapists can help clients generalize what they have learned to relevant relationships outside of therapy. Therapists may also need to use a variety of techniques to modify their

own beliefs and coping strategies that interfere with the alliance, especially developing realistic expectations for clients and for themselves. They may also need to increase their competence and engage in self-care activities. Experiential exercises will help participants apply what they've learned to their own clients.

At the end of this session, the learner will be able to:

- Identify dysfunctional beliefs associated with therapeutic relationship problems.
- List techniques to repair ruptures.
- Use strategies to prevent problems in the therapeutic relationship.

**Recommended Readings:** Beck, J.S. (2005). *Cognitive therapy for challenging problems: What to do when the basics don't work*. New York: Guilford. Kazantzis, N., Dattilio, F. M., & Dobson, K. S. ### **Mini Workshop 4**

## **Strategic Pressure for OCD: When All Else Fails**

*Jonathan B. Grayson, Ph.D., The Grayson LA Treatment Center for Anxiety & OCD*

**Earn 1.5 continuing education credits**

Moderate level of familiarity with the material

Primary Category: Obsessive Compulsive and Related Disorders

Key Words: *OCD (Obsessive Compulsive Disorder), Parenting, Adherence*

Although research and clinical practice has found that OCD can be overcome through the treatment using of exposure and response prevention, families and parents often find themselves struggling with a sufferer who refuses treatment. The results of this are devastating upon everyone. Sufferers with the potential for fulfilling lives may become housebound for countless years. Families, desperate to help, but helpless because they don't know how, often become prisoners of sufferers' obsessions. Too often these sufferers are told treatment won't be possible until they are ready. Unfortunately, these people have given up on their lives and there often seems to be no "rock bottom" that wakes them up. Strategic Pressure is an intervention developed by Lee Fitzgibbons and me to help treatment refusers and their families. Through the use of family pressure and a series of hierarchical forced choices, treatment refusers can make progress and can make the transition to active treatment participants. As with many techniques, this seemingly

simple approach is complicated to successfully implement. The presentation will focus on: 1) the mechanics and rationale underlying strategic pressure; 2) strategic pressure's strengths and limitations; 3) advantages and disadvantages of strategic pressure compared to other approaches, (e.g., intensive OCD inpatient programs); 4) ethical considerations; and 5) illustrative case presentations and their outcomes.

At the end of this session, the learner will be able to:

- Understand the rationale for using Strategic Pressure and how to determine when it is appropriate to institute Strategic Pressure.
- Explain how to motivate and educate families about their role in strategic pressure.
- Recognize how to create therapeutic forced choices and how to transform the treatment refusing patient into a collaborator in his/her own program.

## **Research and Professional Development 2**

### **Living as a Scientist-Practitioner: How to Conduct Research in Your Clinical Practice**

**PANELISTS:** *Travis L. Osborne, Ph.D., ABPP, Evidence Based Treatment Centers of Seattle*

*Andrew White, Ph.D., Portland DBT Institute*

*R. Trent Codd III, Ed.S., Cognitive-Behavioral Therapy Center of WNC, P. A.*

*Jacqueline B. Persons, Ph.D., Oakland CBT Center*

**Earn 1.5 continuing education credits**

Basic level of familiarity with the material

Primary Category: Professional / Interprofessional Issues

Key Words: *Professional Development, Professional Issues, Assessment*

These private practitioners will describe the strategies they use to conduct and publish research in their private practice settings. The presenters will cover the following topics: •

Choosing a good research question • Integrating science and practice by collecting data in clinical work to guide both the clinical work and to contribute to science • Integrating digital progress monitoring technology with multiple sources of research data • Designing and carrying out a single case experimental design • Informed consent and ethical review of practice-based research projects • Handling issues of time and money • Values, interests, and lifestyle decisions • Collaborating with others The presenters will begin with 45 minutes of didactics and discussion of these topics, including descriptions of some of their research studies and publications. The panel will then divide into four breakout groups: Implementing digital technology (White), Single case experimental design (Codd), Ethical issues (Osborne), and Choosing a good research question (Persons). Attendees can select one of these breakout groups so they can get focused help for the challenges they confront in their own practice settings.

At the end of this session, the learner will be able to:

- Identify one step s/he can take to conduct research in his/her clinical setting.
- Identify one research question that s/he could investigate in his/her clinical setting.
- Name two strategies that s/he can carry out to obtain an ethics review of a study s/he wants to conduct in his/her clinical practice setting.

*Julianne Flanagan, Ph.D.*, Medical University of South Carolina

*Ruschelle Leone, M.A.*, Medical University of South Carolina

---

10:30 a.m. – 12:00 p.m.

---

**Atrium Ballroom A, Atrium Level**

## **Symposium 16**

### **Beyond Symptom Remission: Using CBT to Empower Youth to Achieve Normative Developmental Milestones**

CHAIR: *Renae Beaumont, Ph.D.*, Weill Cornell Medicine, New York  
Presbyterian Hospital

DISCUSSANT: *Cynthia Suveg, Ph.D.*, University of Georgia

**Earn 1.5 continuing education credits**

All levels of familiarity with the material

Primary Category: Treatment - CBT

Key Words: *Social Skills Training, Emotion Regulation, Transdiagnostic*

### **Improvements in Developmentally Appropriate Tasks Following Intensive Group Behavioral Therapy for Youth with Selective Mutism**

*Danielle Cornacchio, M.S.*, Florida International University

*Natalie Hong, B.S.*, Florida International University

*Jonathan Comer, Ph.D.*, Florida International University

*Jami Furr, Ph.D.*, Florida International University

### **Using a Serious Gaming Based CBT Intervention to Improve Social-Emotional Skill Development in a Transdiagnostic Sample of Youth**

*Renae Beaumont, Ph.D., Weill Cornell Medicine, New York Presbyterian Hospital*

*Amy Miranda, LCSW, Weill Cornell Psychiatry Specialty Center*

*Jennifer Schild, B.S., Weill Cornell Medicine, New York Presbyterian Hospital*

*Jo Hariton, Ph.D., Weill Cornell Medicine, New York Presbyterian Hospital*

*Barbara Flye, Ph.D., Weill Cornell Medicine, New York Presbyterian Hospital*

*Paul Sullivan, Ph.D., Weill Cornell Medicine, New York Presbyterian Hospital*

*Corinne Catarozoli, Ph.D., Weill Cornell Medicine, New York Presbyterian Hospital*

*Alisa Powers, Ph.D., Weill Cornell Medicine, New York Presbyterian Hospital*

*Andrea Temkin, Ph.D., Weill Cornell Medicine, New York Presbyterian Hospital*

*Justin Mohatt, M.D., Weill Cornell Medicine, New York Presbyterian Hospital*

*Shannon Bennett, Ph.D., Weill Cornell Medicine*

### **Developmental Considerations in Adapting the Unified Protocol for Treatment of Emotional Disorders in Adolescents as a Group Therapy**

*Elizabeth Halliday, B.S., University of Miami*

*Niza Tonarely, M.A., University of Miami*

*Rebecca Grossman, M.S., University of Miami*

*Rebecca Ford-Paz, Ph.D., Ann and Robert H. Lurie Children's Hospital of Chicago, Northwestern University*

*Caroline Kerns, Ph.D., Ann & Robert H. Lurie Children's Hospital of Chicago; Feinberg School of Medicine*

*Jill Ehrenreich-May, Ph.D., University of Miami*

### **Am I All Grown Up Yet? Developmental Milestones, Parents, and the Treatment of Anxiety in Emerging Adults**

*Anne Marie Albano, ABPP, Ph.D., Columbia University Medical Center*

Symposium 17

## The Wisdom of a Good Night's Sleep: Sleep Disturbance as a Mechanism and Target of Treatment in Depression and Anxiety

CHAIR: Y. Irina Li, M.A., University of Rochester

DISCUSSANT: Michael L. Perlis, Ph.D., University of Pennsylvania

Earn 1.5 continuing education credits

Basic to Moderate level of familiarity with the material

Primary Category: Sleep / Wake Disorders

Key Words: Sleep, Depression, Anxiety

### Positive Affective Reactivity Mediates the Association Between Sleep Quality and Daily Depressive Symptoms in Adolescents

Lisa R. Starr, Ph.D., University of Rochester

Y. Irina Li, M.A., University of Rochester

### Temporal Relations Among Sleep Behaviors, Depression Symptoms, and Anxiety Symptoms During Intensive Cognitive-Behavioral Treatment

Carol Chu, Ph.D., Harvard University

Courtney Beard, Ph.D., McLean Hospital/Harvard Medical School

Thrösur Björgvinnson, PhD, ABPP, McLean Hospital/Harvard Medical School

Jacob Nota, Ph.D., McLean Hospital/Harvard Medical School

### Treatment Targets For CBT-I in Individuals With Insomnia With and Without Depression

Colleen E. Carney, Ph.D., Ryerson University

Nicole E. Carmona, M.A., Ryerson University

### Preliminary Evidence For the Efficacy of Cognitive Behavior Therapy For Insomnia (CBTI) for Concurrent Mood and Anxiety Symptoms

Bunmi O. Olatunji, Ph.D., Vanderbilt university

Rebecca C. Cox, M.A., Vanderbilt University

Symposium 18

**Oppressed Identities and Healing: Streamlining Intervention Targets and Coping**

CHAIR: *Broderick Sawyer, Ph.D., Behavioral Wellness Clinic*

DISCUSSANT: *Broderick Sawyer, Ph.D., Behavioral Wellness Clinic*

Earn 1.5 continuing education credits

All levels of familiarity with the material

Primary Category: Oppression and Resilience Minority Health

Key Words: *Transdiagnostic, Oppression, Resilience*

**Racial Microaggressions and Preliminary Evidence for Emotion-Focused Conceptualization and Intervention**

*Broderick Sawyer, Ph.D., Behavioral Wellness Clinic*

**An Intersectional Model of Stress and Oppression in LGBTQ+ Teens of Color: Results From the 2017 LGBTQ+ Teen Survey**

*Terence Ching, M.Soc.Sci., University of Connecticut*

**The Role of Ethnic Discrimination and Coping Style on Comorbid PTSS and Chronic Pain**

*Destiny Printz, B.A., University of Connecticut*

**Transdiagnostic Psychological Skills Groups For Youth of Refugee and Immigrant Backgrounds: A Community-Based Participatory Intervention Project**

*Jeffrey Winer, Ph.D., Boston Children's Hospital/Harvard Medical School*

Symposium 19

**Novel Preventive Intervention Strategies For Couples and Families: Extending the Reach and Social Impact of CBT to Promote Relationship Quality and Adult and Child Well-being**

CHAIR: *Allen W. Barton, Ph.D., University of Illinois, Urbana-Champaign*

DISCUSSANT: *Scott Stanley, Ph.D., University of Denver*

Earn 1.5 continuing education credits

All levels of familiarity with the material

Primary Category: Couples / Close Relationships

Key Words: *Couples / Close Relationships, Prevention, Families*

**MotherWise: Implementation and Preliminary Evidence of Effectiveness of a Perinatal Healthy Relationship Education Program For Disadvantaged Families**  
*Galena K. Rhoades, Ph.D., University of Denver*

**Less is Not More: The Benefits of Couple Based Health Interventions**

*Kathryn Pollack, Ph.D., Duke University*

*Laura Fish, Ph.D., Duke University*

*Devon Noonan, Ph.D., Duke University*

*Kristina Coop Gordon, Ph.D., University of Tennessee - Knoxville*

**Effects of a Web-based Relationship Program on Co-parenting and Child Functioning**

*McKenzie Roddy, M.S., University of Miami*

*Emily Salivar, Ph.D., Nova Southeastern University*

*Maria Llabre, Ph.D., University of Miami*

*Amanda Jensen-Doss, Ph.D., University of Miami*

*Brian Doss, Ph.D., University of Miami*

**The Protecting Strong African American Families Program: Design, Implementation, and Long-term Outcomes For Couples and Children**

*Justin Lavner, Ph.D., University of Georgia*

*Steven Beach, Ph.D., University of Georgia*

*Allen W. Barton, Ph.D., University of Georgia*

**Symposium 20**

**Moderators and Mediators in Adult Anxiety and  
Obsessive-Compulsive Disorders**

CHAIR: *Nathaniel Van Kirk, Ph.D., McLean Hospital/Harvard Medical School*

DISCUSSANT: *David Tolin, Ph.D., Institute of Living*

**Earn 1.5 continuing education credits**

Moderate level of familiarity with the material

Primary Category: Adult Anxiety

Key Words: Anxiety, OCD (*Obsessive Compulsive Disorder*), Mediation / Mediators

**Longitudinal Evaluation of Treatment Motivation in Intensive Residential  
Treatment for OCD**

*Nathaniel Van Kirk, Ph.D., McLean Hospital/Harvard Medical School*

**Mediators and Moderators in the Treatment of Anxiety and Depression**

*Miriam Ambrosino, B.A., Fordham University*

*Katherine Sheehan, Fordham University*

*Dean McKay, Ph.D., Fordham University*

*Lauryn Garner, M.A., Fordham University*

**Sudden Gains During the Cognitive-Behavioral Treatment of OCD**

*Jonathan S. Abramowitz, Ph.D., University of North Carolina at Chapel Hill*

*Jennifer Buchholz, M.A., UNC Chapel Hill*

**Predictive Influences of Genes in Cognitive-Behavioral Therapy for Emotional  
Disorders: A Meta-Analysis**

*Lauryn Garner, M.A., Fordham University*

*Dean McKay, Ph.D., Fordham University*

*Emily Steinberg, M.A., Fordham University*

Symposium 21

**Families as a Source of Resilience for Youth Facing Stressors: Extending the Reach and Relevance of Family-Based Interventions**

CHAIR: *Nada M. Goodrum, M.A., Medical University of South Carolina*

DISCUSSANT: *Deborah J. Jones, Ph.D., UNC Chapel Hill*

**Earn 1.5 continuing education credits**

All levels of familiarity with the material

Primary Category: Parenting / Families

Key Words: *Families, Resilience, Underserved Populations*

**The Role of Social Support in the Relationship Between Mother-Child Attachment and Functioning in Youth Affected by Maternal HIV**

*Lisa Armistead, Ph.D., Georgia State University*

*Marya Schulte, Ph.D., University of California, Los Angeles*

*Debra Murphy, Ph.D., University of California, Los Angeles*

*Sae-Jin Kim, B.A., Georgia State University*

**Abuse-Specific and General Maternal Support Following Child Sexual Abuse: Relations to Child and Parent Reported Outcomes**

*Nada M. Goodrum, M.A., Medical University of South Carolina*

*Funlola Are, M.A., Medical University of South Carolina*

*David Solomon, Ph.D., Western Carolina University*

*Daniel W. Smith, Ph.D., Medical University of South Carolina*

**Family Cohesion as a Protective Factor for Youth Risk Behavior, Victimization, and Mental Health in a National Sample of Adolescents**

*Daniel W. Smith, Ph.D., Medical University of South Carolina*

*Rochelle Hanson, Ph.D., Medical University of South Carolina*

*Benjamin Saunders, Ph.D., Medical University of South Carolina*

*Dean Kilpatrick, Ph.D., Medical University of South Carolina*

*Nada M. Goodrum, M.A., Medical University of South Carolina*

**Parenting Outcomes Improve in a Treatment Targeting Adolescent PTSD, Substance Use, and Other Risky Behaviors: Findings From a Stage II RCT of Risk Reduction Through Family Therapy (RRFT)**

*Zachary Adams, Ph.D., Indiana University*

*Jason Chapman, Ph.D., Oregon Social Learning Center*

*Michael McCart, Ph.D., Oregon Social Learning Center*

*Ashli Sheidow, Ph.D., Oregon Social Learning Center*

*Hannah Sebald, B.A., Medical University of South Carolina*

*Michael De Arellano, Ph.D., Medical University of South Carolina*

*Carla K. Danielson, Ph.D., MUSC*

*Austin Hahn, Ph.D., Medical University of South Carolina*

---

10:30 a.m. – 12:00 p.m.

---

**Marquis Salon A, Marquis Level**

**Symposium 22**

**Maximizing the Public Health Impact of Cognitive Behavioral Science Through Improving Consumer Engagement**

CHAIRS: *Davielle Lakind, Ph.D., University of South Carolina*

*Alayna L. Park, M.A., UCLA*

DISCUSSANT: *Kimberly D. Becker, Ph.D., University of South Carolina*

**Earn 1.5 continuing education credits**

All levels of familiarity with the material

Primary Category: Dissemination & Implementation Science

Key Words: *Dissemination, Implementation, Families*

**Does Knowledge Equal Power? A Review of Mental Health Literacy Interventions and Their Impact on Seeking Treatment**

*Jennifer Gamarra, M.A., C.Phil., UCLA*

*Katherine Barnes, B.S. (in progress), University of California, Los Angeles*

*Bruce F. Chorpita, Ph.D., UCLA*

*Jennifer Gamarra, M.A., C.Phil., UCLA*

FRIDAY

**Trajectories of Parent Participation in Prevention/early Intervention Services:  
Capitalizing on Everyday Interactions With Parents in Schools Through Flexible  
Paraprofessional-led Services**

*Grace Cua, M.S.W., University of Illinois at Chicago*

*Tara Mehta, Ph.D., University of Illinois at Chicago*

*Dana Rusch, Ph.D., University of Illinois at Chicago*

*Marc S. Atkins, Ph.D., University of Illinois at Chicago*

*Davielle Lakind, Ph.D., University of South Carolina*

**Increasing Consumer Engagement With Computer-delivered Behavioral  
Interventions: Incorporating Verbal Reflections and Non-verbal Gestures to a  
Digital Health Agent.**

*Stephanie Lunn, M.S., Florida International University*

*Mihai Polcneau, MS, Ecole Nationale D'Ingenieurs de Brest*

*Christine Lisetti, PhD, Florida International University*

*Maya M. Boustani, Ph.D., Loma Linda University*

**Harnessing Existing Cognitive-Behavioral Treatment Strategies to Address Client  
Emergent Life Events**

*Karen Guan, Ph.D., University of California, Los Angeles*

*Maya M. Boustani, Ph.D., Loma Linda University*

*Bruce F. Chorpita, Ph.D., UCLA*

*Karen Guan, Ph.D., University of California, Los Angeles*

**Provider Recommendations for Engaging Underserved Populations in Mental  
Health Services**

*Maya M. Boustani, Ph.D., Loma Linda University*

*Dana Saifan, M.A., UCLA*

*Resham Gellatly, M.A., C.Phil., UCLA*

*Jennifer Gamara, M.A., C.Phil., UCLA*

*Andrea Letamendi, Ph.D., UCLA*

*Cameo Stanick, Ph.D., LCP, Hathaway-Sycamores Child and Family Services*

*Jennifer Regan, Ph.D., Hathaway-Sycamores Child and Family Services*

*Gina Perez, Psy.D., Hathaway-Sycamores Child and Family Services*

*Debbie Mannings, MSW, Hathaway-Sycamores Child and Family Services*

*Michael Reding, Ph.D., Icahn School of Medicine at Mount Sinai*

*Bruce F. Chorpita, Ph.D., UCLA*

*Alayna L. Park, M.A., UCLA*

**Marquis Salon B, Marquis Level**

**Symposium 23**

**Extending Suicide Research to the Most Marginalized Subgroups of Sexual and Gender Minority Individuals**

CHAIRS: *Brian A. Feinstein, Ph.D.*, Northwestern University  
*Cindy Chang, B.A.*, Rutgers University  
DISCUSSANT: *Mitchell Prinstein, Ph.D.*, University of North Carolina - Chapel Hill

**Earn 1.5 continuing education credits**

All levels of familiarity with the material

Primary Category: Suicide and Self-Injury

Key Words: *Suicide, LGBTQ+, Underserved Populations*

**Suicidality and Risk Factors Among Self-identified Bisexual Youth: Differences Based on Race/ethnicity and Sex**

*Blair Turner, MPH*, Northwestern University  
*Lauren Beach, JD, Ph.D.*, Northwestern University  
*Aaron Korpak, B.A.*, Northwestern University  
*Gregory Phillips, Ph.D.*, Northwestern University  
*Brian A. Feinstein, Ph.D.*, Northwestern University

**Unique Risk Factors For Suicide Attempt in Bisexual Adults**

*Kara Fehling, M.A.*, Rutgers University  
*Brian A. Feinstein, Ph.D.*, Northwestern University  
*Edward Selby, Ph.D.*, Rutgers, The State University of new Jersey  
*Cindy Chang, B.A.*, Rutgers University

**Suicidal Ideation Among Transgender and Gender Diverse Persons: A Three-Month Follow-up Analysis**

*Allura L. Ralston, M.A.*, University of Nebraska-Lincoln  
*Alexander Farquhar-Leicester, B.A.*, University of Nebraska-Lincoln  
*Natalie R. Holt, M.A.*, University of Nebraska-Lincoln  
*Debra A. Hope, Ph.D.*, University of Nebraska-Lincoln  
*Richard A. MocarSKI, Ph.D.*, University of Nebraska at Kearney  
*Nathan Woodruff*, Trans Collaborations  
*Trans Collaborations*, Trans Collaborations  
*Terrence Z. Huit, M.A.*, University of Nebraska-Lincoln

**Correlates of Hospitalization For Suicidal Ideation and Attempt in Gender Diverse Adults**

*Emma Moscardini, B.S., Louisiana State University*  
*Annie Snow, Ph.D., University of Kentucky*  
*Julie Cerel, Ph.d., University of Kentucky*  
*Raymond Tucker, Ph.D., Louisiana State University*  
*Alix Aboussouan, B.S., Louisiana State University*

10:30 a.m. – 11:30 a.m.

**Marquis Salon C, Marquis Level**

**Symposium 24**

**Social Media For Social Good: Using Social Media to Deliver Cognitive and Behavioral Interventions to Adolescents and Young Adults**

CHAIR: *Danielle Ramo, Ph.D., Hopelab*  
DISCUSSANT: *Patricia Cavazos, Ph.D., Washington University in St. Louis*

**Earn 1.5 continuing education credits**

Basic level of familiarity with the material

Primary Category: Technology

Key Words: *Adolescents, Technology / Mobile Health, LGBTQ+*

**How are Lonely and Depressed Teens Using Social Media?: Results From a Nationally Representative Survey**

*Danielle Ramo, Ph.D., Hopelab*  
*Vicky Rideout, M.A., VJR Consultant*  
*Susannah Fox, B.A., Internet Geologist LLC*  
*Ben Miller, PsyD, Well Being Trust*  
*Jana Haritatos, Ph.D., Hopelab*  
*Emma Bruhlman-Senecal, Ph.D., Hopelab*

**Vivibot: Evaluating the Use of a Chatbot to Deliver Positive Psychology Skills to Promote Well-being in Young Cancer Survivors**

*Stephanie Greer, Ph.D., Hopelab*  
*Yin-Juei Chang, Ph.D., Hopelab*  
*Michael Fu, MD, MBA, Hopelab*  
*Danielle Ramo, Ph.D., Hopelab*

Efficacy of the Put It Out Project: A Tailored Smoking Cessation Intervention on Facebook For Sexual and Gender Minority Young Adults

Gary Humfleet, Ph.D., UCSF

Meredith Meacham, Ph.D., UCSF

Judith Prochaska, Ph.D., MPH, Stanford

Danielle Ramo, Ph.D., Hopelab

Erin Vogel, Ph.D., University of California, San Francisco

10:30 a.m. – 12:00 p.m.

FRIDAY

Symposium 25

The Treatment of Anxiety in Autism Spectrum Disorder (TAASD) Trial: Clinical Characteristics and Outcomes

CHAIR: Connor M. Kerns, Ph.D., University of British Columbia

DISCUSSANT: Susan White, Ph.D., The University of Alabama

Earn 1.5 continuing education credits

Moderate level of familiarity with the material

Primary Category: Autism Spectrum and Developmental Disorders

Key Words: Autism Spectrum Disorders, Anxiety, Clinical Trial

Social Functioning and the Presentation of Anxiety in Children With Autism Spectrum Disorder

Eric A. Storch, Ph.D., Baylor College of Medicine

Philip C. Kendall, Ph.D., Temple University

Jeffrey J. Wood, Ph.D., UCLA

Connor M. Kerns, Ph.D., University of British Columbia

Michelle C. Hunsche, B.A., University of British Columbia

Differential Treatment Response Between Personality Subgroups of Youth With ASD and Comorbid Anxiety

Jeffrey J. Wood, Ph.D., UCLA

Amanda Johnson, B.A., University of California, Los Angeles

Kashia Rosenau, B.A., University of California, Los Angeles

An Chuen Cho, M.A., University of California, Los Angeles

## **Mediators of Change in the Treatment of Anxiety in Autism Spectrum Disorders Study**

*Lesley Norris, M.A., Temple University*

*Sophie Palitz, M.A., Temple University*

*Brent Small, Ph.D., University of South Florida*

*Eric A. Storch, Ph.D., Baylor College of Medicine*

*Karen Wood, Ph.D., UCLA*

*Jeffrey J. Wood, Ph.D., UCLA*

*Connor M. Kerns, Ph.D., University of British Columbia*

*Philip C. Kendall, Ph.D., Temple University*

## **Therapeutic Alliance in the Treatment of Anxiety in Autism Spectrum Disorder (TAASD) Study: The Effect of Pre-Treatment Characteristics and Treatment Condition**

*Eric A. Storch, Ph.D., University of South Florida*

*Philip C. Kendall, Ph.D., Temple University*

*Jeffrey J. Wood, Ph.D., UCLA*

*Connor M. Kerns, Ph.D., University of British Columbia*

*Sophie Smit, M.A., University of British Columbia*

## **Standard-Practice CBT and Adapted CBT for Anxiety in Youth With Autism: Impact on Personalized Symptom Profiles Over the Course of Treatment**

*Philip C. Kendall, Ph.D., Temple University*

*Karen Wood, Ph.D., UCLA*

*Connor M. Kerns, Ph.D., University of British Columbia*

*Eric A. Storch, Ph.D., Baylor College of Medicine*

*Jeffrey J. Wood, Ph.D., UCLA*

**Symposium 26**

**Anxiety Sensitivity and Substance Use: Associations and Novel Treatment Approaches**

CHAIRS: *Amanda Raines, Ph.D., Southeast Louisiana Veterans Health Care System*

*Nicholas Allan, PhD, Ohio University*

DISCUSSANT: *Julia Buckner, Ph.D., Louisiana State University*

**Earn 1.5 continuing education credits**

All levels of familiarity with the material

Primary Category: Addictive Behaviors

Key Words: *Substance Abuse, Anxiety, Adult*

**Anxiety Sensitivity and Opioid Use: Associations Among a Treatment Seeking Veteran Sample**

*Nicholas Allan, Ph.D., Ohio University*

*Shelby McGrew, B.S., Southeast Louisiana Veterans Health Care System*

*Chelsea Ennis, M.S., Southeast Louisiana Veterans Health Care System*

*Jessica Walton, Ph.D., Southeast Louisiana Veterans Health Care System*

*C. Laurel Franklin, Ph.D., Southeast Louisiana Veterans Health Care System*

*Amanda Raines, Ph.D., Southeast Louisiana Veterans Health Care System*

**Anxiety Sensitivity and Benzodiazepine Misuse**

*Margaret Griffin, Ph.D., McLean Hospital/Harvard Medical School*

*Olivera Bogunovic, M.D., McLean Hospital/Harvard Medical School*

*Roger Weiss, M.D., McLean Hospital/Harvard Medical School*

*R. Kathryn McHugh, Ph.D., McLean Hospital/Harvard Medical School*

**Establishing Measurement Invariance and Comparing Latent Means of Anxiety Sensitivity Across Heroin and Cocaine Use Disorders**

*Kevin Saulnier, M.A., Ohio University*

*Amanda Raines, Ph.D., Southeast Louisiana Veterans Health Care System*

*Ashley Knapp, Ph.D., Northwestern University*

*Jennifer Dahne, Ph.D., Medical University of South Carolina*

*Carl Lejuez, Ph.D., University of Kansas*

*Nicholas Allan, PhD, Ohio University*

## The Impact of Hatha Yoga on Anxiety Sensitivity among Smokers Undergoing a Quit Attempt

*Emily Jeffries, Ph.D.*, Edward Hines Jr. Veterans Administration Hospital

*Michael Zvolensky, Ph.D.*, University of Houston

*Julia Buckner, Ph.D.*, Louisiana State University

*Elizabeth Lewis, B.S.*, Louisiana State University

---

10:30 a.m. – 11:30 a.m.

---

**Imperial Salon B, Marquis Level**

### Symposium 27

## Irritability in Childhood: Measurement, Predictive Utility and Treatment

CHAIR: *Jeffrey D. Burke, Ph.D.*, University of Connecticut

DISCUSSANT: *Amy K. Roy, Ph.D.*, Fordham University

**Earn 1 continuing education credit**

Basic to Moderate level of familiarity with the material

Primary Category: Anger

Key Words: Anger / Irritability, Depression, Suicide

### Childhood Chronic Irritability and the Prediction of Suicidality in Adults: Differential Informant Effects

*Emilie Bertschinger, B.A.*, University of Connecticut

*Jeffrey D. Burke, Ph.D.*, University of Connecticut

### Predictive Validity of Irritable and Oppositional ODD Dimensions: Clinical and Functional Outcomes

*Kristen Jezior, Ph.D.*, Ann & Robert H. Lurie Children's Hospital of Chicago,  
Department of Child & Adolescent Psychiatry

*Steve Lee, Ph.D.*, University of California, Los Angeles, Department of Psychology

*Kristen Jezior, Ph.D.*, Ann & Robert H. Lurie Children's Hospital of Chicago,  
Department of Child & Adolescent Psychiatry

## A Double-blind Randomized Placebo-controlled Trial of Citalopram Adjunctive to Stimulant Medication in Youth With Chronic Severe Irritability

*Kenneth Towbin, M.D.*, Mood Brain and Development Unit, Emotion and Development Branch, National Institute of Mental Health, National Institutes of Health

*Melissa A. Brotman, Ph.D.*, Neuroscience and Novel Therapeutics, Emotion and Development Branch, National Institute of Mental Health

*Daniel S. Pine, M.D.*, Section on Development and Affective Neuroscience, Emotion and Development Branch, National Institute of Mental Health, National Institutes of Health

*Ellen Leibenluft, M.D.*, Section on Mood Dysregulation and Neuroscience, Emotion and Development Branch, National Institute of Mental Health, National Institutes of Health

*Argyris Stringaris, M.D., Ph.D., FRCPsych*, Mood Brain and Development Unit, Emotion and Development Branch, National Institute of Mental Health, National Institutes of Health

*Pablo Vidal-Ribas, Ph.D.*, Mood Brain and Development Unit, Emotion and Development Branch, National Institute of Mental Health, National Institutes of Health

---

10:30 a.m. – 12:00 p.m.

---

**M104, Marquis Level**

### Symposium 28

## Am I Good Enough? The Role of Self-Evaluation in the Context of Body Image and Disordered Eating

CHAIR: *Laurel D. Sarfan, M.A.*, Miami University

DISCUSSANT: *Drew Anderson, Ph.D.*, University at Albany, State University of New York

**Earn 1.5 continuing education credits**

Basic to Moderate level of familiarity with the material

Primary Category: Eating Disorders

Key Words: *Eating, Body Image, Gender*

### What Should I Eat for Lunch? Thoughts about Dieting, Body Shape Concerns, and State Self-Esteem in Female and Male Dieters

*Elise M Clerkin, Ph.D.*, Miami University

*Bethany A. Teachman, Ph.D.*, University of Virginia

*April R. R. Smith, Ph.D.*, Miami University

*Laurel D. Sarfan, M.A.*, Miami University

**Social Comparisons to Media Images: Does Gender Matter?***Emily Johnson, B.A., University of South Florida**Ryan Lerch, B.A., University of South Florida**Jennifer K Bosson, Ph.D., University of South Florida**Diana Rancourt, Ph.D., University of South Florida***The Impact of Idealized Media Images on Body Checking: An Examination Utilizing Behavioral Observation***Erica Ahlich, M.A., University of South Florida**Michelle Beekman, B.A., University of South Florida**Diana Rancourt, Ph.D., University of South Florida**Erica Ahlich, M.A., University of South Florida***Striving for Imperfection: Testing Interpretation Bias Modification for Perfectionism and Related Psychopathology***April R. R. Smith, Ph.D., Miami University**Dorian R. Dodd, Ph.D., Miami University***Using Network Analysis to Identify Central Eating Disorder Symptoms Among Men***Natalie Perkins, M.S.**Jason Lavender, Ph.D., University of California San Diego**April R. R. Smith, Ph.D., Miami University**Lauren N. Forrest, M.A., Miami University*

**Symposium 29**

**New Directions in Learning Research: Clarifying Psychopathological Risk and Identifying Treatment Targets**

CHAIRS: *Adam Jaroszewski, M.A., Harvard University*

*Emily E. Bernstein, M.A., Harvard University*

DISCUSSANT: *Michelle Craske, Ph.D., University of California Los Angeles*

**Earn 1.5 continuing education credits**

Moderate level of familiarity with the material

Primary Category: Transdiagnostic

Key Words: *Behavior Experiments, Risk / Vulnerability Factors, Transdiagnostic*

**People With Recent Suicidal Thoughts Display Learning Deficits in Relation to Suicide Information**

*Alexander Millner, Ph.D., Harvard University*

*Samuel Gershman, Ph.D., Harvard University*

*Matthew Nock, Ph.D., Harvard University*

*Adam Jaroszewski, M.A., Harvard University*

**Interacting Effects of Acute and Chronic Stress on Medial Prefrontal Function and Neurochemistry in Depression**

*Jessica Cooper, Ph.D., Emory University*

*Makiah Nuutinen, B.S., Emory University*

*Brittany DeVries, B.S., Emory University*

*Michael Treadway, Ph.D., Emory University*

**Mnemonic Discrimination and Overgeneralization of Fear Learning**

*Floor Van Der Does, M.Sc., Utrecht University*

*Scott Orr, Ph.D., Massachusetts General Hospital*

*Richard J. J. McNally, Ph.D., Harvard University*

*Emily E. Bernstein, M.A., Harvard University*

**Using Virtual Reality to Understand Why People Decide to Engage in Suicidal Behaviors**

*Joseph C. Franklin, Ph.D., Florida State University*

**"It's Still Gross, But I Can Handle It": An Inhibitory Learning-Based Approach to Reducing Disgust and Anxiety in Contamination Fear**

Bunmi O. Olatunji, Ph.D., Vanderbilt University

Kelly A. Knowles, M.A., Vanderbilt University

10:30 a.m. – 12:00 p.m.

---

**M303, Marquis Level**

**Symposium 30**

**Response to Treatment For Adolescent Depression:  
Pathways to Efficient and Personalized Psychotherapy**

CHAIRS: Molly Adrian, Ph.D., University of Washington

Jennifer B. Blossom, Ph.D., Seattle Children's/UW School of  
Medicine

DISCUSSANT: Elizabeth McCauley, Ph.D., University of Washington

**Earn 1.5 continuing education credits**

All levels of familiarity with the material

Primary Category: Child / Adolescent - Depression

Key Words: *Depression, Clinical Decision Making, Treatment*

**Detecting Early Response to Behavioral Activation for Adolescent Depression:  
Implications for Measurement-Based Care**

Molly Adrian, Ph.D., University of Washington

Kelly Schloredt, Ph.D., University of Washington

Gretchen Gudmundsen, Ph.D., St. Luke's

Elizabeth McCauley, Ph.D., University of Washington

Jennifer B. Blossom, Ph.D., Seattle Children's/UW School of Medicine

**Development of an Algorithm For Measurement-based Care to Guide  
Interpersonal Psychotherapy For Depressed Adolescents**

Laura Mufson, Ph.D., Columbia University

Gail Bernstein, M.D., University of Minnesota

Ana Westervelt, MPH, University of Minnesota

Kristina Reigstad, Psy.D., University of Minnesota

Bonnie Klimes-Dougan, Ph.D., University of Minnesota

Kathryn Cullen, M.D., University of Minnesota

Aimee Murray, Psy.D., University of Minnesota

David Vock, Ph.D., University of Minnesota

Meredith Gunlicks-Stoessel, Ph.D., University of Minnesota

**A Data Driven Treatment Assignment Algorithm for Depression in Adolescence**

*Bonnie Klimes-Dougan, Ph.D., University of Minnesota*

*Adrienne VanZomeren, Ph.D., University of Minnesota*

*Jessica Arend, Ph.D., University of Minnesota*

*Meredith Gunlicks-Stoessel, Ph.D., University of Minnesota*

*Sisi Ma, Ph.D., University of Minnesota*

**Targeted Intervention For Depressed Adolescents Following Child Maltreatment:  
Neural and Behavioral Mechanisms Within the Reward System**

*Meg Dennison, Ph.D., Phoenix Australia*

*Steven Kasparke, Ph.D., Harvard University*

*Elizabeth McCauley, Ph.D., University of Washington*

*Katie McLaughlin, Ph.D., Harvard*

*Jessica Jenness, Ph.D., University of Washington*

*Jessica Jenness, Ph.D., University of Washington*

**Better But Not Well?: Success and Failure in Treating Depression Within a  
Transdiagnostic Protocol**

*Karen Schwartz, M.S., SDSU/UC San Diego Joint Doctoral Program in Clinical  
Psychology*

*Michelle Rozenman, Ph.D., University of Denver*

*Robin Weersing, Ph.D., San Diego State University*

Symposium 31

**Understanding Relationship Functioning and Dynamics to Serve Diverse and Underserved Sexual Minority Individuals**

CHAIRS: *Cara Herbitter, M.P.H., M.A., University of Massachusetts Boston*

*Ellora Vilkin, B.A., Stony Brook University*

DISCUSSANT: *Debra A. Hope, Ph.D., University of Nebraska-Lincoln*

**Earn 1.5 continuing education credits**

Basic level of familiarity with the material

Primary Category: LGBTQT+

Key Words: *Sexuality, Couples / Close Relationships, LGBTQ+*

**Understanding the Impact of Pre-exposure Prophylaxis on Sexual Communication and Sexual Behavior of Urban Gay and Bisexual Men**

*Ian Holloway, Ph.D., MSW, MPH, UCLA*

*Alison Goldblatt, BA, University of Massachusetts, Boston*

*Kaitlyn Gorman, MA, MS, University of Massachusetts, Boston*

*Cara Herbitter, M.P.H., M.A., University of Massachusetts, Boston*

*Christian Grov, Ph.D., MPH, CUNY School of Public Health & Health Policy*

## **Imagine Being Accused of Scientific Fraud!**

Linda C. Sobell, Ph.D. ABPP, Nova Southeastern University

Mark B. Sobell, Ph.D., ABPP, Nova Southeastern University

**Earn 1 continuing education credits**

Primary Category: Addictive Behaviors

Key Words: *Addictive Behaviors, Evidence-Based Practice, Treatment Development*

Our careers have been characterized by wonderfully serendipitous opportunities; being accused of scientific fraud was not one of them. The study involved a randomized controlled trial we conducted in 1970-1971 with alcohol abusers using a low-risk drinking goal rather than an abstinence goal, and the low-risk drinking goal group had better outcomes over 3 years of follow-up. In 1982 it was alleged that we had committed scientific fraud. The attack received national and international attention, including on 60 Minutes. Fortunately, we had maintained meticulous records from the study for 12 years and were vindicated in four major investigations and a \$95 million lawsuit. In retrospect, that experience had an upside. It taught us that science is a social process that can be very rough and tumble, that colleagues with integrity are invaluable, and that investigative news shows are primarily entertainment and are forgotten very quickly. Our careers also had other highlights. Our early research involved conducting experimental intoxication studies with individuals who had serious alcohol problems. We learned much from those studies, because alcohol problems are among the few disorders almost always studied in the absence of symptoms. To evaluate our first controlled trial with low-risk drinking, we developed an assessment instrument now known as the Timeline Followback for collecting retrospective reports of behaviors. Over our careers we focused on the large population of persons who have alcohol problems that are not severe, we did research on natural recovery (also referred to as self-change), and we developed and validated a treatment called

FRIDAY

Guided Self-Change (GSC) in individual and group formats. The GSC treatment has now been validated in 12 studies and 4 languages. Finally, we were involved in community dissemination of evidence-based practice, preventing alcohol-exposed pregnancies, and we developed and evaluated a computer and smartphone intervention called iSelfChange.

At the end of this session, the learner will be able to:

- Describe the upside, downside, and aftermath of a scientific controversy that derived from research successfully challenging conventional wisdom.
- Describe evolution of a program of motivational behavioral-cognitive treatment research on alcohol problems to pioneer research on self-change and innovative treatments.
- Describe how studying persons with alcohol use disorders when they were intoxicated provided valuable insights into the nature of alcohol problems.

## M301-M302, Marquis Level

### Special Session

## Postdoctoral Paths for Professional Development

*Key Words: College Students, Education and Training - Graduate*

Presenter: Debra Kaysen, Ph.D. - Professor, University of Washington  
 Presenter: Jeanette Hsu, Ph.D. - VA Palo Alto Health Care System  
 Panelists will address important issues for interns and others considering applying to a postdoctoral residency training program and those who are interested in postdoctoral research funding. Topics to be addressed include: what applicants should look for in a postdoctoral training program; the differences between research and clinical postdoctoral training, including how training is funded; the advantages or disadvantages of following a postdoctoral path in terms of professional development; how best to find and select a program that fits the applicant's needs; the impact of APA accreditation in the postdoctoral arena; what training sites are looking for in evaluating applications; tips on how to prepare for the interview; and how postdoctoral offers are made and the process of accepting an offer. There will be time for questions from the audience during the panel presentation. After the panel, prospective postdoctoral applicants will be able to meet with representatives from postdoctoral programs. A list of participating sites will be published in the program addendum distributed at the convention registration desk. Postdoctoral sites that would like to be represented in this event should contact Dakota McPherson at the ABCT Central Office: dmcpherson@abct.org.

Workshop 3

**ticket** **Regulation of Cues Treatment: Using Appetite Awareness Training and Cue-Exposure Treatment to Treat Binge Eating, Overeating and Obesity**

Kerri N. Boutelle, Ph.D., University of California San Diego  
Dawn M. Eichen, Ph.D., University of California San Diego

**Earn 3 continuing education credits**

Basic to Moderate level of familiarity with the material

Primary Category: Eating Disorders, Weight Management

Key Words: *Eating, Evidence-Based Practice, Exposure*

FRIDAY

Current behavioral treatments of obesity result in clinically significant weight loss for approximately 50% of patients and binge eating treatments result in significant decreases in binge eating in 40-60% of patients. Targeting underlying mechanisms of overeating and binge eating could improve current treatment and maintenance outcomes. The behavior susceptibility theory suggests that individuals who overeat are less sensitive to internal hunger and satiety signals and more sensitive to external environmental cues to eat. We developed the Regulation of Cues (ROC) program which addresses these two underlying mechanisms of overeating. ROC integrates appetite awareness training to target satiety responsiveness and cue-exposure treatment to target food cue responsiveness and utilizes in vivo training with food. We have utilized this treatment with success with overweight adults who binge eat and overweight children and their parent. This workshop will a) outline the key components of the ROC program; b) present findings from published and current studies that utilize ROC; c) demonstrate how to implement ROC using case examples, role-plays and audience participation; d) discuss common challenges with the implementation of ROC. Upon completion, workshop participants will appreciate the rationale for the ROC program, learn about the data supporting ROC, and develop the basic knowledge and skills to deliver the ROC program in clinical settings. Workshop attendees will partake in an appetite awareness training exercise and a cue exposure treatment exercise to gain a first-hand experience of what the ROC treatment entails. Accordingly, the majority of the workshop will be spent in experiential learning of the treatment components and preparing attendees to be equipped to deliver the treatment in clinical practice.

At the end of this session, the learner will be able to:

- Describe the rationale behind the ROC intervention.
- Assess the efficacy data for ROC in children and adults.
- Deliver the critical elements of ROC treatment in clinical practice

**Recommended Readings:** Boutelle, K.N., Zucker, Peterson, CB., Rydell S, Carlson J, Harnack LJ (2011). ## **Workshop 4**

# **Emotion Regulation Treatment (ERT) for Alcohol Use Disorders: Helping Clients to Manage Negative Emotions**

*Clara M. Bradizza, Ph.D., School of Social Work, University at Buffalo*  
*Paul R. Stasiewicz, Ph.D., School of Social Work, University at Buffalo*  
*Kim S. Slosman, LMHC, School of Social Work, University at Buffalo*

## **Earn 3 continuing education credits**

Moderate level of familiarity with the material

Primary Category: Addictive Behaviors, Treatment- CBT

Key Words: *Alcohol, Emotion Regulation, Prolonged Exposure*

Alcohol use is commonly motivated by a desire to regulate one's emotional experience. Over-reliance on the use of alcohol to regulate emotion, especially to avoid or escape negative affect, can factor heavily in the development and maintenance of Alcohol Use Disorders. CBT-based Emotion Regulation Treatment of Alcohol Use Disorders (ERT) adapts and integrates evidence-based emotion regulation strategies with addiction treatment to provide an innovative approach for the treatment of alcohol use disorders. In this workshop, we will review ERT's underlying theory, describe its basic components, including mindfulness and imaginal exposure, and illuminate the core therapeutic principle of ERT – learning to engage with the discomfort of negative emotions and cravings. Participants will learn how ERT strategies may deepen a client's awareness of the physical sensations, thoughts, emotions, and urges that are related to substance use and how to use such information to help clients accept and tolerate negative emotions without resorting to substance use. Preparing for and conducting the imaginal exposure component of ERT will be a focus of additional attention. Participants will receive instruction on how to prepare the client, present a rationale for exposure, select and develop a scene that includes

emotional distress and a desire to drink, develop rating scales, conduct the exposure, and process it afterwards. Case examples and audiovisual recordings will illustrate key elements of this process. We will address commonly asked questions about the delivery of ERT as well as solutions to clinical challenges.

At the end of this session, the learner will be able to:

- Describe the theory and research that support an emotion regulation approach for individuals with an alcohol use disorder.
- Identify client drinking situations where alcohol is used to avoid negative emotions and develop the situations for use in imaginal exposure.
- Describe four key elements for conducting exposure, including assessing cravings and addressing substance-related avoidance within exposure.

**Recommended Readings:** Stasiewicz, P. R., Bradizza, C. M., & Slosman, K. S. (2018). Emotion regulation treatment of alcohol use disorders: Helping clients manage negative thoughts and feelings. ## Men’s Mental & Physical Health SIG

The 2019 meeting will begin with research updates and discussion. We will also discuss of current issues and research in the field, potential for collaborations on research projects and symposia, and ways to grow the SIG membership and visibility in the ABCT community.

## Workshop 5

ticket

**When Time Matters: A Process Based Approach  
for Delivering Powerful Brief Interventions***Kirk Strosahl, Ph.D., HeartMatters Consulting LLC***Earn 3 continuing education credits**

Moderate level of familiarity with the material

Primary Category: Treatment - CBT

Key Words: ACT (*Acceptance & Commitment Therapy*), *Change Process / Mechanisms*

Many behavioral clinicians find themselves practicing in contexts that require brief interventions (i.e., health care, schools, jails, nursing homes) or, if running a private practice, are facing pressure from managed care companies to reduce the number of sessions needed to treat common mental health problems. Fortunately, contemporary research demonstrates that condensed versions of evidence-based treatment packages are comparable, if not superior, to their longer-term counterparts. A process-based explanation of this surprising finding is that there are core underlying therapeutic change mechanisms shared by all behavior therapies that, when properly targeted, result in immediate clinical benefits, irrespective of the number of therapy sessions. The goal thus is to target in-session client behaviors in order to create a pathway for activation of one or more of these underlying mechanisms of change. In this workshop, we will demonstrate these process-based assumptions using Focused Acceptance and Commitment Therapy (fACT), a brief therapy version of ACT. We will describe four potent process-based change mechanisms of the fACT approach: context-oriented self-awareness, acceptance of private experience, reformulation of self-instructional rules, expansion of behavioral variability. These four processes can be sequentially activated by design via use of specific interviewing tactics. Participants will learn through direct practice how to both activate and control the “flow” of these four processes during a clinical conversation. As a result, participants will be better able to conceptualize and deliver single session interventions that help clients shift from rigid patterns of emotional and behavioral avoidance to flexible patterns of acceptance and value-based behavioral approach strategies.

At the end of this session, the learner will be able to:

- Use change oriented interviewing strategies that both activate core therapeutic processes and help structure the “flow” of the clinical conversation.
- Identify and modify core psychological processes that singly, or together, contribute to increased emotional resiliency and change readiness.

- Reformulate the client's underlying system of self-instructional rules, so as to increase the client's readiness and willingness to engage in new patterns of more workable behavior.

**Recommended Readings:** Strosahl, K., Robinson, P. & Gustavsson, T. (2015) Inside this moment: Promoting radical change in Acceptance and Commitment Therapy. **A707, Atrium Level**

## Workshop 6

### **Assessment and Case Conceptualization of Disgust in Anxiety Disorders and Obsessive-Compulsive Disorder**

*Dean McKay, Ph.D., Fordham University*

**Earn 3 continuing education credits**

Moderate to Advanced level of familiarity with the material

Primary Category: Adult Anxiety, Obsessive Compulsive and Related Disorders

Key Words: *Anxiety, OCD (Obsessive Compulsive Disorder), Case Conceptualization / Formulation*

Research into emotional processes in anxiety disorders and obsessive-compulsive disorder (OCD) reveals that for many of these conditions, disgust plays a functional role in avoidance. Accordingly, disgust would appear a reasonable target for intervention. However, clinicians endeavoring to do so must overcome the challenge of disentangling disgust from fear in these clients, and then develop methods for alleviating an emotional state for which, at this point, treatment approaches are in nascent stages of development and remain largely unknown to practitioners. Complicating this further, most practitioners have limited formal understanding of disgust as it is not commonly covered in training programs or other professional training courses. Fortunately, there are presently several assessment measures to evaluate the relevance of disgust for individual clients. There are also several potential lines of interventions recently developed that have been derived from existing evidence-based approaches for anxiety and OCD. This workshop, therefore, has the following three broad aims. First, an overview of the nature of disgust and how it is

unique from fear will be presented. Second, a systematic approach to assessing disgust in clients will be covered and include a review of measures that available at no cost and that can be readily integrated into everyday practice. And third, recommendations for treatment, including case conceptualizations that integrate disgust, will be covered, including an overview of the current treatment research and case illustrations.

At the end of this session, the learner will be able to:

- Evaluate the extent disgust contributes to clinical presentations of anxiety disorders and obsessive-compulsive disorder.
- Select suitable assessment instruments to evaluate the severity of disgust reactions that contribute to avoidance associated with anxiety disorders and obsessive-compulsive disorder.
- Develop treatment plans that address disgust in the context of fear associated with anxiety disorders and obsessive-compulsive disorder.

**Recommended Readings:** McKay, D. (2017). **Marquis Salon D, Marquis Level**

## **Clinical Roundtable 2**

### **Adaptations for Assessments & Increased Impact of Evidence Based Treatments for Individuals With Autism Spectrum & Co-occurring Disorders**

**MODERATOR:** *Daniel L. Hoffman, ABPP, Ph.D.*, Long Island Jewish Medical Center/Zucker Hillside Hospital

**PANELISTS:** *Susan White, Ph.D.*, The University of Alabama  
*Lauren Moskowitz, Ph.D.*, St Johns University  
*Matthew Lerner, Ph.D.*, Stony Brook University  
*Valerie Gaus, Ph.D.*, Private Practice  
*Connor M. Kerns, Ph.D.*, University of British Columbia

**Earn 1.5 continuing education credits**

Primary Category: Autism Spectrum and Developmental Disorders

Key Words: *Autism Spectrum Disorders, Evidence-Based Practice, Emotion Regulation*

Although the prevalence of autism spectrum disorders (ASD) is approximately 1/59 people in the USA, with more frequent diagnosis in recent years (CDC), this population

remains underserved. Significant barriers persist in the valid assessment and treatment for both ASD and commonly co-occurring conditions. These co-occurring disorders have a point prevalence as high as ~70%, with ADHD and anxiety disorders the most commonly diagnosed (e.g. Rodriguez-Seijas et al., in press). Of note, diagnostic overshadowing continues to stymie valid assessment (Rosen et al., 2018), which leads to the delay of effective treatment.

Children with ASD may also be at increased risk to experience traumatic events and reactions (Kerns et al., 2015). Recent research suggests that youth with ASD encounter more potentially traumatic events than the general population (Kerns et al., 2017; Hoover & Kaufman, 2018), as well as limited social-emotional coping strategies for them (Kerns et al., 2015). As such, both general and trauma-related co-occurring psychiatric symptoms are highly common among youth with ASD. While evidence-based practices (EBP) are available for these conditions, clinicians often express concerns about how to treat them when they appear in clients with ASD, even when well-established and accessible EBPs and adaptations exist (e.g. Reaven et al., 2018).

This clinical round table will focus on proposed helpful and/or necessary adaptations for assessments for disorders that co-occur with ASD and on flexibly providing EBP's for the co-occurring disorders within fidelity (Kendall et al., 2008) to people with ASD. We will address how basic neuroscience and translational research inform therapy adaptations for people with ASD. In an effort to expand the EBT workforce, our panelists will discuss barriers to clinicians' willingness to treat patients with special needs, and make suggestions about encouraging therapists to work with individuals with ASD. Enhancing clinicians' sensitivity to neurodiversity-related issues will be an additional focus. Panelists will bring examples from their clinical work and/or research to illustrate important adaptations that increase assessment validity, as well as treatment tolerability, efficacy, and effectiveness.

**Atrium Ballroom B&C, Atrium Level**

**Invited Address 1**

**Building the Workforce to Deliver Psychological Therapies Globally**

*Vikram Patel, Ph.D., Harvard Medical School*

**Earn 1 continuing education credits**

Primary Category: Global Mental Health

Key Words: *Global Mental Health, Professional Development, Digital Technology*

VIKRAM  
PATEL

Depression, anxiety, alcohol abuse, and trauma-related mental health problems affect hundreds of millions of people around the world. Brief psychological therapies such as behavioral activation for depression are highly effective in helping people recover. Community health workers, nurses, social workers, peers, and even lay people, can effectively deliver these therapies if they are well trained and properly supervised. Yet, more than 90% of those affected by these common mental health problems do not receive these therapies. A major reason for this is the lack of skilled providers. Currently we rely on traditional face-to-face method for training, supervising, and supporting providers. This is inefficient, costly, and impossible to scale up. This lecture will describe an initiative that aims to address this obstacle to the worldwide provision of high-quality psychological therapy by creating a digital platform to help providers learn and master its delivery. This platform will emphasize an evidence-based common elements approach to the selection of specific treatments; will support a suite of components for each psychological therapy, from training to competency assessment to supervision; and will include a range of tools to help providers manage their workload, guide therapy delivery and maintain its quality. The platform will be designed to be used by any provider worldwide and will be capable of being tailored for

specific contexts, for example, through adaptation for language and cultural factors. The platform will offer opportunities for big data analytics to enable tailoring of learning and supervision to specific provider needs. The platform is a partnership between the Global Mental Health at Harvard initiative and the 7 Cups Foundation, and is guided by leading international psychological treatment and digital mental health experts.

At the end of this session, the learner will be able to:

- Describe how brief psychological therapies are delivered in global contexts, including the settings, providers, format, and effects;
- Describe how training and competency assessments are conducted for providers and the evidence on digital approaches for delivering these interventions;
- Discuss a new initiative that aims to transform the opportunities to learn and master the delivery of brief psychological therapies globally.

*Mitchell L. Schare, ABPP, Ph.D., Hofstra University*

**Earn 1.5 continuing education credits**

*Key Words: Professional Development, Cognitive-behavioral Career, Private Practice*

By the time mental health professionals have a license to practice, they may feel both over-prepared in regard to providing services and under-prepared in regard to the practical and financial realities of sustaining a practice. When developing a practice, a wide variety of issues arise, including: (1) Type of Practice: individual/group? Specialist/generalist? (2)

Insurance: Whether to take it and how to go about doing so. (3) Logistics: Renting space, effective advertising, legal issues. Our panelists have a wide range of experiences in developing and maintaining practices. They will provide both a guide to their thinking on these issues and practical advice as to common pitfalls and best practices. Much of the panel's allotted time will be made available for questions and answers.

At the end of this session, the learner will be able to:

- Explain three specific pieces of information from mid-level and senior cognitive-behavioral professionals about developing a private practice.
- Identify and describe two specific decision points in building your practice, including choices regarding insurance, individual vs. group practice, and identity development.
- Describe panelists' answers to the questions you have about your emerging career in private practice.

### **Mini Workshop 5**

## **Building the Effective Workforce of the Future: A Comprehensive Model for Training Students in Evidence-Based Practice for Youth Mental Health**

*Teri Bourdeau, Ph.D., PracticeWise, LLC*

*Kimberly D. Becker, Ph.D., University of South Carolina*

*Bruce F. Chorpita, Ph.D., UCLA*

*Charmaine K. Higa McMillan, Ph.D., University of Hawaii at Hilo*

### **Earn 1.5 continuing education credits**

Basic to Moderate level of familiarity with the material

Primary Category: Workforce Development / Training / Supervision

Key Words: *Education and Training, Evidence-Based Practice, Child*

This mini-workshop is intended for faculty who teach or seek to teach evidence-based practice for youth in their classes or practica. It will introduce participants to the Managing and Adapting Practice (MAP) system and its "Instructor Model," which supports faculty with ready-to-use instructional materials (e.g., annotated slides, exercises, online learning resources, and clinical tools and guides) and the ability to award credentialing hours to students. Regularly updated content includes practices and clinical algorithms distilled from over 1,000 randomized trials for treatments targeting 11 problem areas (e.g., anxiety, disruptive behavior, suicidality, substance use), supported by easy-to-use guides, spreadsheets, and online tools. Specifically, this workshop will: (1) introduce attendees

to the MAP system and resources, (2) demonstrate how curricula can be tailored for a diversity of learners and support their learning over time (e.g., undergraduate, graduate; psychology, social work, psychiatry; classroom and field settings), (3) demonstrate how to meet educational and clinical objectives related to practice delivery, real-time measurement, and integrative reasoning and clinical decision-making, and (4) cover best practices in instruction and training (e.g., use of role play in classes). Whether you wish to incorporate material into an existing curriculum or to develop an entire course, whether you are giving undergraduates a didactic overview or supervising graduate practicum, whether you are redesigning your entire clinical training model or simply updating a single lecture, this workshop will provide ideas and resources to make your teaching easier and more effective, helping you build the evidence-based thinkers, practitioners, and treatment developers of the future.

At the end of this session, the learner will be able to:

- Describe the MAP system and how it meets educational objectives related to practice delivery, real-time measurement, and clinical decision-making.
- Identify how the MAP curriculum can be tailored for a diversity of learners and to support their learning over time.
- Recognize empirically supported practices in instruction and training of youth mental health treatments.

**Earn 1.5 continuing education credits**

All levels of familiarity with the material

Primary Category: Professional / Interprofessional Issues

Key Words: *Career Development, Professional Development, Student Issues*

The goal of this moderated panel is to help students and early career psychologists tailor career paths in clinical psychology to meet their professional and personal goals. The panelists are seasoned clinical psychologists with successful careers in five types of settings: (1) medical school, (2) research university, (3) liberal arts college, (4) Veterans Affairs, and (5) private practice. In different career tracks, the panelists are all actively involved in ABCT and in furthering ABCT's mission to advance scientific approaches to "the understanding and improvement of human functioning" by investigating and applying evidence-based principles in clinical psychology. Therefore, the audience will learn about different pathways and approaches toward a career that is consistent with the fundamental professional values of ABCT and its members. The panelists will reflect on their own professional experiences and will address issues such as: How did you choose your career path? What advice do you have for a junior colleague or student considering that path? Is there anything unique about your position? What do you value most about your position and what might you change if you could? In your role, how do you balance your professional and personal lives? In addition, a large portion of time will be reserved for questions so that audience members have the opportunity to inquire about specific issues relevant to their professional development in a forum that will benefit others with similar considerations.

At the end of this session, the learner will be able to:

- Describe different career paths that are consistent with the mission of ABCT and the professional values of its members.
- Provide advice for students on how to choose and navigate career paths.
- Address questions and concerns about career decisions and related quality of life.

*Key Words: College Students, Education and Training- Graduate*

Panelists will address important issues for interns and others considering applying to a postdoctoral residency training program and those who are interested in postdoctoral research funding. Topics to be addressed include: what applicants should look for in a postdoctoral training program; the differences between research and clinical postdoctoral training, including how training is funded; the advantages and disadvantages of following a postdoctoral path in terms of professional development; how best to find and select a program that fits the applicant's needs; the impact of APA accreditation in the postdoctoral arena; what training sites are looking for in evaluating applications; tips on how to prepare for the interview; and how postdoctoral offers are made and the process of accepting an offer. There will be time for questions from the audience during the panel presentation. After the panel, prospective postdoctoral applicants will be able to meet with representatives from postdoctoral programs. A list of participating sites will be published in the program addendum distributed at the convention registration desk.

FRIDAY

Symposium 32

**Technology-Based Targeted Prevention of Post-Sexual Assault Substance Use and Mental Health Symptoms**

CHAIRS: *Emily Dworkin, Ph.D.*, University of Washington School of Medicine

*Amanda Gilmore, Ph.D.*, Medical University of South Carolina

DISCUSSANT: *Angela Moreland, Ph.D.*, Medical University of South Carolina

**Earn 1.5 continuing education credits**

Basic to Moderate level of familiarity with the material

Primary Category: Prevention

Key Words: *Addictive Behaviors, Violence / Sexual Assault, Prevention*

**Acceptability and Usability of an mHealth Intervention Following a Sexual Assault**

*Lauren Wray, M.A.*, Medical University of South Carolina

*Daniel Oesterle, B.S.*, Medical University of South Carolina

*Julianne Flanagan, Ph.D.*, Medical University of South Carolina

*Christine K. Hahn, Ph.D.*, Medical University of South Carolina

*Ron Acierno, Ph.D.*, Medical University of South Carolina

*Tatiana Davidson, Ph.D.*, Medical University of South Carolina

*Amanda Gilmore, Ph.D.*, Medical University of South Carolina

*Ruschelle Leone, M.A.*, Medical University of South Carolina

**Developing a Web-Based Early Intervention to Prevent Posttraumatic Stress and High-Risk Drinking After Sexual Assault: A User-Centered Design Approach**

*Debra Kaysen, Ph.D.*, University of Washington

*Emily Dworkin, Ph.D.*, University of Washington School of Medicine

**Acceptability of a Web-Based Screening, Brief Intervention, and Referral to Treatment Tool for Substance Use Following Exposure to Interpersonal Violence**

*Angela Moreland, Ph.D.*, Medical University of South Carolina

*Sara Barber, M.A.*, SCCADVASA

*Emily Greenway, MPH*, Medical University of South Carolina

*Alyssa Rheingold, Ph.D.*, Medical University of South Carolina

*Amanda Gilmore, Ph.D.*, Medical University of South Carolina

*Christine K. Hahn, Ph.D.*, Medical University of South Carolina

## **Post-Sexual Assault Cigarette Smoking: Findings From a Randomized Clinical Trial of a Video-Based Intervention**

*Amanda Gilmore, Ph.D., Medical University of South Carolina*

*Julie Schumacher, Ph.D., University of Mississippi*

*Scott Coffey, Ph.D., University of Mississippi*

*Patricia Frazier, Ph.D., University of Minnesota*

*Linda Ledray, Ph.D., SANE SART Resource Service*

*Ron Acierno, Ph.D., Medical University of South Carolina*

*Kenneth Ruggiero, Ph.D., Medical University of South Carolina*

*Dean Kilpatrick, Ph.D., Medical University of South Carolina*

*Heidi Resnick, PhD, Medical University of South Carolina*

*Kate Walsh, PhD, Yeshiva University*

## **Prescription Opioid Misuse After A Recent Sexual Assault: A Randomized Clinical Trial of a Video Intervention**

*Kate Walsh, Ph.D., Yeshiva University*

*Patricia Frazier, Ph.D., University of Minnesota*

*Linda Ledray, Ph.D., SANE SART Resource Service*

*Ron Acierno, Ph.D., Medical University of South Carolina*

*Kenneth Ruggiero, Ph.D., Medical University of South Carolina*

*Dean Kilpatrick, Ph.D., Medical University of South Carolina*

*Heidi Resnick, Ph.D., Medical University of South Carolina*

*Amanda Gilmore, Ph.D., Medical University of South Carolina*

Symposium 33

## Mindfulness, Compassion and CBT Interventions for Mood and Anxiety Disorders: Brain and Behavioral Investigations of Therapeutic Change

CHAIR: *Philippe R. Goldin, Ph.D.*, University of California, Davis

DISCUSSANT: *Stefan G. Hofmann, Ph.D.*, Boston University Center for Anxiety and Related Disorders

Earn 1.5 continuing education credits

All levels of familiarity with the material

Primary Category: Treatment - CBT

Key Words: *Anxiety, Depression, Compassion / Empathy*

### fMRI of Reappraisal and Acceptance of Negative Self-Beliefs During CBGT Versus MBSR for Social Anxiety Disorder: A Randomized Clinical Trial

*Craig Moodie, Ph.D.*, Stanford university

*Richard Heimberg, Ph.D.*, Temple University

*James Gross, Ph.D.*, Stanford university

*Philippe R. Goldin, Ph.D.*, University of California, Davis

### Metta (loving-kindness)-focused CBT for Chronic Depression: A Randomized Controlled Trial

*Isabel Thennes, M.S.*, Goethe University Frankfurt

*Artjom Frick, M.S.*, Goethe University Frankfurt

*Stefan G. Hofmann, Ph.D.*, Boston University Center for Anxiety and Related Disorders

*Ulrich Stangier, Ph.D.*, Goethe University

### Effects of Compassion Training on Brain Responses to Suffering Others: A Randomized Controlled Trial

*Jessica Andrews-Hanna, Ph.D.*, University of Arizona

*Joan Halifax, Ph.D.*, Upaya Zen Center

*Sona Dimidjian, Ph.D.*, University of Colorado Boulder

*Tor Wager, Ph.D.*, University of Colorado Boulder

*Yoni Asher, M.S.*, University of Colorado Boulder

**The Process-Outcome Mindfulness Effects in Trainees (PrOMET) Study: Results of a Randomized Controlled Component Trial**

*Paul Blanck, Ph.D., University of Heidelberg*

*Paula Kröger, Ph.D., University of Heidelberg*

*Christoph Flückiger, Ph.D., University of Zurich*

*Hinrich Bents, Ph.D., University of Heidelberg*

*Wolfgang Lutz, Ph.D., University of Trier*

*Sven Barnow, Ph.D., University of Heidelberg*

*Johannes Mander, Ph.D., University of Heidelberg*

*Thomas Heidenreich, Ph.D., Prodekan*

---

12:30 p.m. – 2:00 p.m.

---

**L506-L507, Lobby Level**

**Symposium 34**

**Partnering With Families in Therapy: Leveraging Family Processes in the Treatment of Anxiety Disorders**

CHAIR: *Ryan Jacoby, Ph.D., Massachusetts General Hospital*

DISCUSSANT: *Eric A. Storch, Ph.D., Baylor College of Medicine*

**Earn 1.5 continuing education credits**

Moderate level of familiarity with the material

Primary Category: Parenting / Families

Key Words: *Families, CBT, Anxiety*

**Predictors of Changes in Family Accommodation During Exposure Therapy For Pediatric OCD**

*Hannah Smilansky, B.S., Massachusetts General Hospital*

*Jin Shin, B.A., Massachusetts General Hospital*

*Monica S. Wu, Ph.D., UCLA*

*Brent Small, Ph.D., University of South Florida*

*Sabine Wilhelm, Ph.D., Harvard Medical School; Massachusetts General Hospital*

*Eric A. Storch, Ph.D., Baylor College of Medicine*

*Daniel Geller, M.D., Massachusetts General Hospital*

*Ryan Jacoby, Ph.D., Massachusetts General Hospital*

FRIDAY

**An Initial Waitlist-controlled Evaluation of the iCALM Program—a Family-based, Videoconferencing-delivered Treatment For Early Child Anxiety Problems**

*Jonathan Comer, Ph.D., Florida International University*

*Jami Furr, Ph.D., Florida International University*

*Christiana Del Busto, Ph.D., Mental Health Interventions and Technology (MINT) Program, Florida International University*

*Karina Silva, B.A., Florida International University*

*Elizabeth Miguel, B.A., Florida International University*

*Anthony Puliafico, Ph.D., Columbia University Medical Center*

*Jonathan Comer, Ph.D., Florida International University*

**A Brief Intervention for Reducing Symptom Accommodation and Increasing Treatment Support Among the Family Members of Veterans With PTSD**

*Johanna Thompson-Hollands, Ph.D., National Center for PTSD*

*Ellen DeVoe, Ph.D., Boston University School of Social Work*

*Denise Sloan, Ph.D., Boston University School of Medicine & National Center for PTSD*

*Johanna Thompson-Hollands, Ph.D., National Center for PTSD*

**Secondary Benefits of a Group Intervention to Reduce Symptom Accommodation Among Caregivers of Anxious Relatives**

*Jonathan S. Abramowitz, Ph.D., University of North Carolina at Chapel Hill*

*Lillian Reuman, M.A., Veterans Affairs Boston Healthcare System*

---

12:30 p.m. – 2:00 p.m.

---

**Imperial Salon B, Marquis Level**

**Symposium 35**

**Trigger Warnings! Are They Helpful, Harmful, or Neither?**

CHAIR: *Richard J. J. McNally, Ph.D., Harvard University*

**Earn 1.5 continuing education credits**

Basic to Moderate level of familiarity with the material

Primary Category: Trauma and Stressor Related Disorders and Disasters

Key Words: *Trauma, Resilience, Risk / Vulnerability Factors*

**Trigger Warnings: Effects on Psychological Resilience Across Populations**

*Payton J. Jones, M.A., Harvard University*

*Richard J. J. McNally, Ph.D., Harvard University*

*Benjamin W. Bellet, M.S., Harvard University*

**The Trauma Centrality Profile and Psychophysiological Reactivity of Students Given Trigger Warnings**

*Madeline J. Bruce, B.A., St. Louis University*

**Trigger Warnings Are Trivially Helpful at Reducing Symptoms of Distress**

*Deryn Strange, Ph.D., John Jay College of Criminal Justice*

*Maryanne Garry, Ph.D., University of Waikato*

*Mevagh Sanson, Ph.D., University of Waikato*

**Trigger Warnings and the Neurotic Treadmill: Does it Matter if We Expand the Definition of Violence?**

*Richard J. J. McNally, Ph.D., Harvard University*

*Payton J. Jones, M.A., Harvard University*

---

12:30 p.m. – 2:00 p.m.

---

**M106-M107, Marquis Level**

**Symposium 36**

**Responding to Stress Early in Life: Bench-to-bedside Implications For Regulating Emotions**

CHAIRS: *Jennifer Pearlstein, M.A., University of California, Berkeley*  
*Victoria E. Cosgrove, Ph.D., Stanford University School of Medicine*

DISCUSSANT: *Patricia Brennan, Ph.D., Emory University*

**Earn 1.5 continuing education credits**

All levels of familiarity with the material

Primary Category: Transdiagnostic

Key Words: *Violence / Sexual Assault, Risk / Vulnerability Factors, Translational Research*

**State-based Alterations in Cognitive Control as a Transdiagnostic Risk Factor For Psychopathology**

*Sheri Johnson, Ph.D., Clinical Science Program*

*Kiana Mondavi, B.A., Clinical Science Program*

*Andrew Peckham, Ph.D., Clinical Science Program*

*Charles Carver, Ph.D., Department of Psychology*

*Jennifer Pearlstein, M.A., University of California, Berkeley*

**Psychobiological Implications of Responding to Stress Within the Context of Pediatric Depression**

*Jennifer Pearlstein, M.A., University of California, Berkeley*

*Nishita Berla, Psy.D., Kaiser Redwood City*

*Victoria E. Cosgrove, Ph.D., Stanford University School of Medicine*

## Effects of Acute and Chronic Sexual Minority Stressors on The Health and Wellbeing of Sexual and Gender Minorities Assigned Female at Birth

Gregory Swann, M.A., Northwestern Institute for Sexual and Gender Minority Health and Wellbeing

Michael Newcomb, Ph.D., Feinberg School of Medicine

Sarah W. Whitton, Ph.D., University of Cincinnati

## Real World-implications For Addressing Stress Related Emotional Reactivity in an Evidence-based Practice

Lata McGinn, Ph.D., Ferkauf Graduate School

Alec Miller, Psy.D., Cognitive Behavioral Consultants

Casey O'Brien, Psy.D., Cognitive Behavioral Consultants

---

12:30 p.m. – 2:00 p.m.

---

**M304, Marquis Level**

### Symposium 37

## Using Technology to Enhance Cognitive-behavioral Interventions and Reduce Barriers to Access

CHAIR: *Jennifer Buchholz, M.A., UNC Chapel Hill*

DISCUSSANT: *Jonathan S. Abramowitz, Ph.D., University of North Carolina at Chapel Hill*

**Earn 1.5 continuing education credits**

Moderate level of familiarity with the material

Primary Category: Treatment - CBT

Key Words: CBT, Technology / Mobile Health, Dissemination

### Employee Assistant Programs as a Dissemination Tool For Internet-based Cognitive-behavioral Interventions

*Navya Singh, Psy.D., WayForward*

*Samantha N. Hellberg, B.A., University of North Carolina at Chapel Hill*

*Jonathan S. Abramowitz, Ph.D., University of North Carolina at Chapel Hill*

*Jennifer Buchholz, M.A., UNC Chapel Hill*

## **Technology-Enhanced Behavioral Parent Training: Lessons Learned & Future Directions**

*Margaret Anton, Ph.D., MUSC*

*Alexis Georgeson, M.A., University of North Carolina at Chapel Hill*

*April Highlander, M.A., UNC Chapel Hill*

*Raelyn Loiselle, M.A., UNC chapel Hill*

*Patrick Turner, B.A., UNC Chapel Hill*

*Chloe Zachary, M.A., UNC Chapel Hill*

*Nicole Lafko Bresland, Ph.D., UVM*

*Rex Forehand, Ph.D., UVM*

*Olga Khavjou, M.A., RTI*

*Deborah J. Jones, Ph.D., UNC Chapel Hill*

## **HabitWorks: Smartphone-delivered Cognitive Bias Modification For Interpretation**

*Ramya Ramadurai, B.S., McLean Hospital*

*Kirsten Christensen, M.A., University of Massachusetts Boston*

*Thrósur Björgvinnson, Ph.D., ABPP, McLean Hospital/Harvard Medical School*

*Courtney Beard, Ph.D., McLean Hospital/Harvard Medical School*

## **Using Technology to Extend Childhood Anxiety Treatment Out of the Office**

*Stephen Whiteside, Ph.D., Mayo Clinic*

## **Reaching Underserved Populations: Spanish Translation and Modification of MindTrails, an Online, Anxiety-reduction Cognitive Bias Modification Program**

*Sofia Espinosa, University of Virginia*

*Bethany A. Teachman, Ph.D., University of Virginia*

*Claudia P. Calicho-Mamani, B.A., University of Virginia*

**Marquis Salon C, Marquis Level**

**Symposium 68**

**Does How We Implement an EBT Matter? Measuring the Process of Therapy**

CHAIR: *Jenelle Nissley-Tsiopinis, Ph.D., Children's Hospital of Philadelphia*

DISCUSSANT: *Anne Marie Albano, ABPP, Ph.D., Columbia University Medical Center*

**Earn 1.5 continuing education credits**

All levels of familiarity with the material

Primary Category: ADHD - Child

Key Words: *Therapy Process, ADHD, Anxiety*

**Youth and Therapist In-session Behaviors: Relationships With Youth Anxiety Treatment Outcomes**

*Philip C. Kendall, Ph.D., Temple University*

*Erika Crawford, M.A., Temple University*

**Understanding Processes that Promote the Efficacy of Organizational Skills Training in Schools**

*Jenelle Nissley-Tsiopinis, Ph.D., Children's Hospital of Philadelphia*

*Phylcia Fitzpatrick-Fleming, Ph.D., Children's Hospital of Philadelphia*

*Alex Holdaway, Ph.D., Children's Hospital of Philadelphia*

*Howard Abikoff, Ph.D., NYU School of Medicine*

*Richard Gallagher, Ph.D., New York University School of Medicine*

**Master Clinician 2**

**Evidence-Based Assessment and Treatment of Bipolar Disorder and Mood Dysregulation in Youth and Early Adulthood**

*Eric A. Youngstrom, Ph.D., University of North Carolina at Chapel Hill*

*Mary A. Fristad, ABPP, Ph.D., The Ohio State University*

**Earn 2 continuing education credits**

Moderate level of familiarity with the material

Primary Category: Bipolar Disorders

Key Words: *Bipolar Disorders, Emotion Regulation, Mood*

Mood dysregulation is one of the biggest problems in childhood, and it often worsens in adolescence and early adulthood. Yet there has been much uncertainty about how to conceptualize these problems diagnostically. DSM-5 added a new diagnosis, creating another label, but without an evidence base about course or treatment. Fortunately, there has been a surge of evidence about the validity of carefully diagnosed mood disorders in youth, along with better evidence-based tools for assessment and treatment. This seminar discusses key assessment and therapy issues, including: how bipolar and other mood disorders manifest clinically, presentation similarities and differences in children versus

adults, how to use self-report and parent-report measures to aid diagnosis and treatment, and specific treatment strategies. We summarize the available biological interventions, emphasizing what non-prescribing clinicians need to know about these treatments. We then concentrate on how to implement therapeutic techniques used in individual-family and multifamily psychoeducational psychotherapy, one of the most promising evidence-based approaches to managing mood dysregulation in youth. This program will utilize lecture format, case presentations, demonstrations, role-plays, and question-and-answer periods. Often challenging conventional wisdom, the seminar presents new evidence from NIMH grants that can be applied immediately in practice.

At the end of this session, the learner will be able to:

- Describe the use of evidence-based assessment methods that aid in differential diagnosis and measuring treatment response.
- Recognize which symptoms and risk factors are helpful in recognizing bipolar disorder, and which may be “red herrings” that are common to other conditions.
- Explain how to adapt specific therapeutic techniques to treat youth with bipolar disorder and other mood dysregulation.
- Identify how to apply specific therapeutic techniques to address family concerns about mood dysregulation and treatment.
- Explain how to integrate a conceptual model for working within systems-of-care into your practice with cases dealing with mood dysregulation.

## Mini Workshop 6

## How to Integrate Mindfulness into a Cognitive Behavior Therapy Framework

*Judith S. Beck, Ph.D.*, Beck Institute for Cognitive Behavior Therapy  
*Robert K. Hindman, Ph.D.*, Beck Institute for Cognitive Behavior Therapy

**Earn 1.5 continuing education credits**

Moderate level of familiarity with the material

Primary Category: Treatment - CBT

Key Words: *Mindfulness, Cognitive Therapy, CBT*

Many CBT clinicians use mindfulness as a stand-alone technique, either during treatment or at the end of treatment (to reduce relapse). But using an individualized case conceptualization to integrate mindfulness into CBT can make this intervention much more powerful. When clients engage in an unhelpful thought process, such as worry or rumination, Socratic questioning and guided discovery are often insufficient. These clients need to learn a different way to relate to their thoughts and emotions. And there are a number of techniques that CBT therapists should use before introducing mindfulness. It is important to identify maladaptive beliefs about thoughts, thought processes, and emotions. For example, many clients believe that a thought process such as worry or rumination will help them in some way. They also often believe that internal experiences such as thoughts and emotions are uncontrollable and/or could lead to a highly negative outcome. Participants in this workshop will learn how to set up mindfulness exercises by evaluating maladaptive beliefs using cognitive restructuring. They will also learn how to set up mindfulness exercises as behavioral experiments, both to evaluate maladaptive beliefs and to teach clients an adaptive approach to relate to their experiences. Strategies to induce maladaptive cognitive and emotional experiences in-session prior to mindfulness practice will be discussed and demonstrated. Participants will learn how these strategies can help clients generalize the mindfulness strategies learned in-session to their real-world experiences outside of session. This workshop will incorporate both didactic instruction and experiential mindfulness exercises designed to simulate how mindfulness is used in a therapy session.

At the end of this session, the learner will be able to:

- Describe how mindfulness strategies fit into a Cognitive Behavior Therapy framework.
- Identify beliefs about thoughts, thought processes, and emotions that can be targeted during mindfulness meditations.
- Conduct mindfulness meditations designed to evaluate beliefs about thoughts, thought processes, and emotions.

### Mini Workshop 7

## Stronger Than OCD: Engaging Youth in Exposure and Ritual Prevention Treatment

Joanna Robin, Ph.D., Westchester Anxiety Treatment  
Psychological Services, PC

Anthony Puliafico, Ph.D., Columbia University Medical Center

### Earn 1.5 continuing education credits

Basic to Moderate level of familiarity with the material

Primary Category: Child / Adolescent - Anxiety

Key Words: OCD (*Obsessive Compulsive Disorder*), Child, Exposure

Exposure and ritual prevention (EX/RP) is the front-line therapeutic intervention for pediatric obsessive-compulsive disorder (OCD), with a substantial evidence base supporting its use (Abramowitz et al., 2005). However, guiding children and families through the treatment process remains a challenge, as evidenced by estimated attrition rates as high as 10-20% (Franklin et al., 2015). When initiating treatment, children and families often express concern about facing anxiety-provoking situations and removing rituals on which they have come to rely. Effective treatment of pediatric OCD therefore requires a therapist to develop strong therapeutic alliance, provide a rationale for treatment in child-friendly terms, and build a child's confidence and willingness to participate in potentially difficult EX/RP tasks. This mini workshop will focus on teaching clinicians to conduct EX/RP with youth in a lively and engaging manner. Through live demonstrations, video, and role plays, the presenters will guide attendees through the various components of EX/RP treatment, including psychoeducation and normalizing OCD symptoms for youth, identifying the function of OCD symptoms, building an exposure hierarchy, cognitive strategies, and gradual EX/RP. The presenters will demonstrate creative activities to bring treatment concepts to life. Ample time will be spent reviewing child-friendly exposure ideas for the range of common pediatric OCD symptoms. The presenters will discuss strategies to effectively

involve parents in treatment. Finally, the presenters will discuss common pitfalls in the treatment of pediatric OCD and how to overcome them.

At the end of this session, the learner will be able to:

- Better understand the challenges of providing effective treatment for pediatric OCD.
- Apply concrete strategies to improve engagement of youth in EX/RP treatment.
- Generate and execute creative exposures that are geared for youth

---

1:45 p.m. – 2:45 p.m.

---

**Marietta, Conference Level, Hyatt Regency Atlanta**

## **Clinical Research Methods and Statistics SIG**

During our meeting, we will have a designated speaker to discuss an issue related to clinical research methods and statistics. Following this, we will plan symposia and speakers for the ABCT 2019, Atlanta conference.

---

2:00 p.m. – 3:30 p.m.

---

**Embassy F, Embassy Level, Hyatt Regency Atlanta**

## **Oppression and Resilience: Minority Mental Health SIG**

Meeting agenda will include: 1) Outlining current SIG growth and outreach initiatives, 2) Processing this year's sociopolitical sources of oppressive stress and its effects on SIG members, research directions/initiatives, clinical practice, and outreach initiatives; and 3) Networking.

---

2:00 p.m. – 3:30 p.m.

---

**Embassy E, Embassy Level, Hyatt Regency Atlanta**

## **Parenting and Families SIG**

The Parenting and Families SIG meeting will host an event pertinent to those involved in research and clinical activities. Past meetings have included roundtable discussions and honoring distinguished researchers in the field. During our 2019 meeting we will also honor this year's recipient of the student award in research excellence, discuss general SIG business, and vote on executive committee positions for the upcoming year.

---

2:00 p.m. – 3:30 p.m.

---

**Embassy D, Embassy Level, Hyatt Regency Atlanta**

## **Suicide and Self-Injury SIG**

The Suicide and Self-Injury SIG meeting will consist of updates on research from members, including a data blitz presentation, presentation of the Student Poster Award and Rising Star Award, and opportunities for networking and collaboration. Senior faculty will be available for research consultation.

FRIDAY

Clinical Grand Round 1

## Which Way Do You Go? A Live, Annotated Demonstration of Acceptance and Change in Adolescent DBT

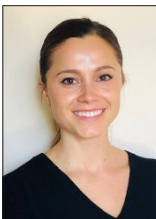

CHAIR: Maggie Gorraiz, Ph.D., McLean Hospital, Harvard Medical School

PANELISTS: Esme Shaller, Ph.D., University of California, San Francisco  
Ashley Maliken, Ph.D., University of California San Francisco  
Alison Yaeger, Psy.D., McLean Hospital, Harvard Medical School

Earn 1.5 continuing education credits

Primary Category: Suicide and Self-Injury

Key Words: DBT (Dialectical Behavior Therapy), Adolescents, Risky Behaviors

MAGGIE  
GORRAIZ

ESME  
SHALLER

ASHLEY  
MALIKEN

ALISON  
YAEGER

Dialectical Behavior Therapy (DBT), is a comprehensive, empirically supported treatment for suicide and self-injurious behaviors among adults and adolescents with emotion dysregulation. DBT's theoretical framework is grounded in a dialectical philosophy, embracing a central dialectical tension between acceptance and change strategies. While DBT's principle-based paradigm allows the therapist to execute these core strategies in a flexible manner, it can be challenging to know which way to go when presented with high emotion dysregulation, life-threatening and treatment-interfering behaviors in the therapy session. Many providers leave a session feeling "stuck" and unbalanced in their delivery of DBT, often contributing to feelings of burnout and ineffectiveness in helping the client achieve their life worth living goals.

This Clinical Grand Rounds will provide didactics on acceptance (e.g. levels of validation) and change (e.g. skills training, behavioral assessment, exposure, and cognitive modification) and conduct a loosely scripted live-role play demonstration of an individual DBT session with an adolescent. During the role play, the provider's use of specific strategies will be coded on a scrolling projector screen to elucidate how a blend of these core strategies can help the provider achieve "movement, speed and flow" to strike a balance of acceptance and change.

**Recommended Readings:** Linehan, M. M., Korslund, K. E., Harned, M. S., Gallop, R. J., Lungu, A., Neacsiu, A. D., ... & Murray-Gregory, A. M. (2015). Dialectical behavior therapy for high suicide risk in individuals with borderline personality disorder: a randomized clinical trial and component analysis. *JAMA psychiatry*, 72(5), 475-482; Mehlum, L., Tørmøen, A. J., Ramberg, M., Haga, E., Diep, L. M., Laberg, S., ... & Grøholt, B. (2014). Dialectical behavior therapy for adolescents with repeated suicidal and self-harming behavior: a randomized trial. *Journal of the American Academy of Child & Adolescent Psychiatry*, 53(10), 1082-1091

At the end of this session, the learner will be able to:

- Explain the core dialectic in DBT.
- Describe six levels of validation.
- Describe three types of change strategies.
- Identify two differences between acceptance and change strategies when targeting suicidal and self-injurious behaviors.

**Clinical Roundtable 3****Beyond Standard CBT: Innovative Developments in Behavioral Interventions for Eating Disorders**

MODERATOR: *Loren Prado, M.S., Center for Dialectical and Cognitive Behavioral Therapies*

PANELISTS: *Christina Wierenga, Ph.D., University of California, San Diego*  
*Stephanie Knatz Peck, Ph.D., UCSD Eating Disorder Treatment Center*  
*Mima Simic, M.D., Maudsley Centre for Child and Adolescent Eating Disorders*  
*Nicholas R. Farrell, Ph.D., Rogers Behavioral Health*  
*Leslie Karwoski Anderson, Ph.D., UC San Diego Eating Disorders Center*

**Earn 1.5 continuing education credits**

Primary Category: Eating Disorders

Key Words: *Eating, Evidence-Based Practice, Comorbidity*

Eating disorders (EDs) are complex conditions that are marked by significant medical complications as well as substantial psychiatric comorbidity. Cognitive behavioral therapy (CBT) has shown robust empirical evidence as a transdiagnostic intervention and is thus recommended as a frontline treatment across most EDs (National Institute for Health and Care Excellence, 2017). However, many patients experience minimal benefit from CBT (Cooper & Fairburn, 2011), and about one-third quickly relapse following an ostensibly successful treatment course (Carter et al., 2009). Moreover, there is differential effectiveness of CBT when applied across the ED diagnoses (Costa & Melnik, 2016). Taken together, these limitations with standard CBT warrant exploration of novel interventions that can enhance the magnitude and durability of treatment effects. Fortunately, there have been several novel behavioral approaches developed recently that have shown promise as either augmentations or alternative strategies to traditional CBT. The objective of this panel is to describe these new behavioral approaches and their unique applications to individuals with EDs.

In keeping with this year's conference theme of extending the impact of cognitive behavioral science, our panel will first aim to identify the progress made in developing and refining CBT for EDs before identifying clinical presentations and features that CBT struggles to "reach." Examples include individuals with emotion dysregulation difficulties and/or complex comorbidity. This will lead into our descriptions of innovative behavioral interventions that have shown promise in addressing complex ED pathology. The interventions include Dialectical Behavior Therapy (DBT), which can improve emotional regulation in individuals with EDs, and Radically Open DBT (RO DBT) which addresses

rigid rule-governed behavior and social signaling deficits. Additionally, exposure therapy techniques for EDs (e.g., exposure to feared foods, body-focused exposure) can augment the benefits of CBT for EDs. Lastly, we will overview the newly developed Temperament-Based Treatment with Supports (TBT-S), which targets underlying neurobiological mechanisms and has yielded promising outcomes.

**Mini Workshop 8**

**The Unified Protocol For Transdiagnostic Treatment of Emotional Disorders in Children: Applications For Anger and Irritability**

*Jessica Malmberg, Ph.D., University of Colorado Anschutz Medical Campus*

*Jill Ehrenreich-May, Ph.D., University of Miami*

*Sarah M. Kennedy, Ph.D., University of Colorado School of Medicine*

**Earn 1.5 continuing education credits**

Basic to Moderate level of familiarity with the material

Primary Category: Anger

Key Words: *Child, Unified Treatment, Parenting*

Youth psychiatric disorders are typically classified as internalizing or externalizing, and few evidence-based interventions target symptoms across both domains in a single protocol. Irritability has been identified as a transdiagnostic symptom dimension that spans externalizing and internalizing disorders, and many risk factors implicated in the development and maintenance of irritability are shared with anxiety and depressive disorders (e.g., information processing biases, emotion regulation deficits, parenting practices). Transdiagnostic interventions targeting shared risk and maintenance factors may be able to address both diagnoses traditionally classified as “internalizing” and “externalizing” in a single intervention. In this workshop, we will introduce an adapted version of the Unified Protocol for Transdiagnostic Treatment of Emotional Disorders in Children (UP-C; Ehrenreich-May et al., 2018) designed to more directly target irritability and anger in addition to traditional “internalizing” emotions. After presenting an introduction to the rationale for a unified approach to treating emotional disorders, we will discuss how a unified case conceptualization model of emotional disorders can be applied to youth anger and irritability. We will review components of a version of UP-C that incorporates a greater focus on anger and irritability in youth using various instructional modalities, including didactic teaching and case examples. Throughout this workshop, we will highlight the unique features of this adapted version of the UP-C, including earlier introduction of opposite

action, use of anger inducing exposures, and enhanced parent management training and coaching of “opposite parenting behaviors.” We will also briefly review completed and ongoing research investigating the efficacy of this adapted intervention.

At the end of this session, the learner will be able to:

- Apply a unified, transdiagnostic case conceptualization model to the treatment of anger and irritability in youth
- Enhance participants’ ability to flexibly deliver the Unified Protocol for Transdiagnostic Treatment of Emotional Disorders to irritable youth and youth with disruptive behaviors
- Understand how to conduct exposure and opposite action experiments targeting anger, frustration intolerance, and irritability in youth

## Panel Discussion 2

# Translating Research Findings to Clinical Practice: Out of the Echo Chamber; Into the Marketplace!

**MODERATOR:** *Robert D. Friedberg, Ph.D., Palo Alto University*

**PANELISTS:** *Mary A. Fristad, ABPP, Ph.D., The Ohio State University*

*Sara J. Becker, Ph.D., Center for Alcohol and Addictions  
Studies Brown University School of Public Health*

*Torrey A. Creed, Ph.D., Perelman School of Medicine at the  
University of Pennsylvania*

*Susmita Pati, M.D., Stony Brook University School of  
Medicine & Stony Brook Children’s Hospital*

**Earn 1.5 continuing education credits**

Primary Category: Translational

Key Words: *Mental Health Literacy, Evidence-Based Practice, Stakeholder Relevant*

The research-practice gap in evidence-based treatment yields an interrupted information stream among scholars and practitioners as well as to the public. Knowledge trickles down to clinicians from traditional distribution channels such as journal articles, books,

and workshops. It is commonly believed that academicians talk and write for other scholars. Practitioners often lament that research findings are irrelevant to their work and that the “information highway” is really a one-way street. Additionally, the public’s mental health literacy especially about “evidenced-based practices/EBPs” is limited and skewed by misinterpretations. Reaching professionals and the public via accurate and compelling information that is presented in an engaging manner is a promising route to narrowing the research-practice gap in order to better people’s health and well-being. This is the precise focus of this panel that brings together four experts in conducting research, teaching, training, and clinical practice. Panelists hold experience in direct-to-consumer marketing, continuing education, supervision, publishing parenting/self-help books, and dissemination. The panelists will discuss the following central questions: 1) What are the lessons learned from your research experiences that may spur dissemination efforts?, 2) In what ways can direct-to-consumer marketing propel mental health literacy?, 3) How can training programs like the Alda Center for Communicating Science help researchers and practitioners reach the public with state-of-the-science information?, 4) What is the role of evidence-based self-help materials in improving mental health literacy?, and 5) Based on your research and clinical experiences, what types of training do graduate students and practicing clinicians want as well as need in order to effectively deliver evidence-based treatments in treatment-as-usual settings? The panel directly addresses this year’s conference theme “Wisdom of Purpose and Perspective: Extending the social impact of cognitive behavioral science” by emphasizing the proactive mobilization of research. Finally, the panel addresses the leveraging of new workforces and stakeholders by increasing mental health literacy.

**Panel Discussion 3****The MAP Toolkit For Enhancing the Connections Between Science and Practice: Common Elements and Much More**

MODERATOR: *Kimberly D. Becker, Ph.D., University of South Carolina*

PANELISTS: *Brad J. Nakamura, Ph.D., University of Hawaii at Manoa*  
*Cameo Stanick, Ph.D., LCP, Hathaway-Sycamores Child and Family Services*

*Adam Bernstein, Ph.D., PracticeWise*

*Michael Southam-Gerow, Ph.D., Virginia Commonwealth University*

*Angela Chiu, Ph.D., Weill Cornell Medicine*

*Alyssa Ward, Ph.D., Department of Medical Assistance Services*

**Earn 1.5 continuing education credits**

Primary Category: Improved Use of Research Evidence

Key Words: *Clinical Decision Making, Common Elements*

This panel brings together individuals with expertise in research, clinical education, workforce development, systems evaluation, agency administration, and policy to discuss a multi-decade initiative toward improving mental health services by informing decisions and actions with the best available evidence within the framework of Managing and Adapting Practice (MAP). Panelists will provide examples of key features of MAP as an evidence-oriented, developmental, dynamic, outcome-centered, self-correcting system that supports the use of evidence-based treatments (EBTs) but that can also serve as a treatment-building toolkit. Panelists will address treatment-related topics such as “common elements,” real-time measurement, clinical challenges (e.g., crises, low treatment engagement), client diversity, and coordination among sources of evidence. They will discuss current approaches in the field and highlight opportunities for complementary approaches such as those offered by MAP. Additionally, panelists will expand their discussion beyond clinical practice to talk about workforce development topics such as student education, clinical supervision, and provider training. Finally, panelists will describe empirically evaluated initiatives to integrate evidence frameworks into mental health agencies and systems. Together, the discussion points will demonstrate that MAP is more than just common elements; it is a system for enhancing the connections between science and practice to solve problems that are meaningful to stakeholders and ultimately, to improve mental health services for children and families. Moreover, this panel will illustrate that although MAP offers a model for leveraging science to address the myriad of complexities in mental

Panel Discussion 5

Treatment Engagement of Youth With Suicide Risk From Underserved Communities

MODERATORS: *Cindy Chang, B.A., Rutgers University*

*Sara Ghassemzadeh, B.A., Rutgers University*

PANELISTS: *Shireen L. Rizvi, Ph.D., ABPP, Rutgers University*

*Kristin Scott, Ph.D., Children’s Health, University of Texas at Southwestern*

*Betsy D. Kennard, Psy.D., University of Texas Southwestern Medical Center at Dallas*

*Ethan Mereish, Ph.D., American University*

*Pamela End of Horn, LICSW, MSW, US DHHS Indian Health Service*

Earn 1.5 continuing education credits

Primary Category: Suicide and Self-Injury

Key Words: *Suicide, Underserved Populations*

It is well-established that mental health service utilization is notably low in individuals with elevated suicide risk, and even fewer access evidence-based services. In particular, youth from racial, cultural, ethnic, sexual, and gender minority communities experience significant disparities in suicide risk and are even less likely to access and stay in evidence-based services. To increase the social impact of our evidence-based treatments, new strategies are needed to tailor outreach efforts and intervention approaches to effectively engage underserved populations. This panel will address several topics related to the engagement of youth with suicide risk from racial, ethnic, gender, and sexual minority communities in evidence-based treatment. We will discuss unique and common barriers to treatment engagement in these different communities. Panelists were chosen based on their experiences utilizing evidence-based interventions among underserved youth for suicide risk and effectively engaging families in treatment. Dr. Shireen Rizvi, PhD, ABPP will discuss the application of Dialectical Behavior Therapy for high-risk adolescents from diverse communities. Dr. Ethan Mereish, PhD has received an NIH grant to examine mechanisms of suicidal and nonsuicidal self-injurious behavior in sexual minority youth for treatment development. Dr. Pamela End of Horn, MSW, LICSW has extensive expertise in suicide prevention in the American Indian population. Dr. Betsy Kennard, PsyD, ABPP will discuss the development of an adolescent suicide prevention program for Latinos in a

community-based setting. Dr. Kristin Scott, PhD will discuss treatment considerations for addressing suicide risk in African American youth. The panel will discuss practical obstacles that arise while working with underserved families and outline strategies to improve outreach and engagement.

2:30 p.m. – 4:00 p.m.

Panel Discussion 6

Cognitive-behavioral Interventions for Substance Use Disorders: Challenges and Future Directions

MODERATORS: *Korine Cabrera, B.S., Clark University*

*Kathleen M. Palm Reed, Ph.D., Clark University*

PANELISTS: *Robert Miranda, Ph.D., Brown University Center for Alcohol and Addiction Studies*

*Paola Pedrelli, Ph.D., Harvard Medical School, Massachusetts General Hospital*

*Christina S. Lee, Ph.D., Northeastern University*

*Andrea Taylor, Ph.D., University of Texas Health Science Center, McGovern Medical School*

Earn 1.5 continuing education credits

Primary Category: Addictive Behaviors

Key Words: *Substance Abuse, Evidence-Based Practice, Integrated Care*

The primary aim of this panel is to discuss how cognitive behavioral science could improve its impact on the treatment of substance use disorders (SUDs). An estimated 21.5 million Americans are currently living with a SUD (SAMHSA, 2014). The costs of this disorder are increasing rapidly; for example, deaths due to prescription opioid and heroin overdoses have quadrupled over the past decade (Hedegaard, Chen & Warner, 2015). While cognitive-behavioral interventions rank among the most efficacious for SUDs (McHugh, Hearon & Otto, 2010), there are significant challenges to implementing these interventions in the current healthcare system, including lack of clinical training and organizational barriers (Manuel, Hagedorn & Finney, 2012). There are several treatment contexts and populations that could especially benefit from additional research to extend the social impact of our science. For example, individuals with co-occurring physical or mental health concerns are more likely to present in primary care or emergency departments, though evidence-based treatments for SUDs are implemented at low rates in these settings (Ernst, Miller & Rollnick, 2007), suggesting a need for more dissemination and implementation research. Further, there are gaps in our understanding and treatment of the unique experiences of underrepresented populations and adolescent substance users, suggesting a need for cultural adaptations of SUD treatments (Burlew, Copeland, Ahua-

ma-Jonas & Calsyn, 2013), and improved treatment for adolescent SUDs (Paino, Aletraris & Roman, 2015). The panelists will bring their expertise to bear on important considerations across populations (adolescents, underrepresented groups, dual-diagnosis patients) and treatment contexts (integrated behavioral health, outpatient services, inpatient hospital). Panelists will discuss their perspectives on current limitations and future directions that would improve the treatment of SUDs.

**M301-M303, Marquis Level**

**Panel Discussion 7**

**Social Justice Advocacy: What it is, Why it Matters, & How to Help Psychology Fellows Integrate it into Their Professional Identity and Practice**

MODERATORS: *Emily Treichler, Ph.D.*, VA San Diego MIRECC/University of California, San Diego

*Jennifer N. Crawford, Ph.D.*, VA San Diego Healthcare System/University of California, San Diego

PANELISTS: *Robyn L. Gobin, Ph.D.*, University of Illinois at Urbana Champaign

*Kirsten A. Gonzalez, Ph.D.*, The University of Tennessee, Knoxville

*Erica Lee, Ph.D.*, Emory University School of Medicine

*Wayne G. Siegel, ABPP, Ph.D.*, University of Minnesota

**Earn 1.5 continuing education credits**

Primary Category: Professional/ Interprofessional Issues

Key Words: *Education and Training, Professional Development, Underserved Populations*

Postdoctoral training is an ideal time to solidify and generalize social justice-related competencies into professional identity and practice. Although training programs and incoming fellows are invested in continued cultural competency development, there isn't yet a clear framework for social justice advocacy training at the postdoctoral level. Moderators will introduce the topic and present novel data on incoming fellows' training needs. Panelists with expertise in postdoctoral training, and advocacy education, research, and practice will discuss what social justice advocacy can look like for psychologists broadly, and apply lessons learned from their own experiences to make recommendations for utilizing postdoctoral training to increase social justice advocacy training within the field. Discussion will begin with definitions of social justice advocacy, description of panelists' own advocacy roles and other roles psychologists can use to expand social justice-related activity beyond advocacy for individual clients, toward influencing institutional and government policy and practice. Then, models of effective advocacy training will be discussed,

with panelists representing diverse modalities from program-level models to targeted seminars. Finally, panelists will discuss strategies to increase advocacy training in postdoctoral programs and facilitate inclusion of advocacy in fellows' professional identities as they transition to independence. The primary goal of this panel is to inform postdoctoral training recommendations to increase the ability of early career psychologists to integrate social justice into their professional identity and engage in meaningful social justice advocacy. Recommendations include continued use of a novel self-assessment in research and training; identification of a best practices training model; and partnering with stakeholders to provide applied social justice advocacy experiences.

**M304, Marquis Level**

### **Panel Discussion 8**

## **Advocacy in Action: Psychologists' Role in Advocacy to Improve the Health of Marginalized Populations**

**MODERATOR:** *Colleen A. Sloan, Ph.D.*, VA Boston Healthcare System & Boston University School of Medicine

**PANELISTS:** *Brian A. Feinstein, Ph.D.*, Northwestern University

*Anu Asnaani, Ph.D.*, University of Utah

*Abigail W. Batchelder, Ph.D.*, Massachusetts General Hospital/  
Harvard Medical School & Fenway Health

*Jae A. Puckett, Ph.D.*, Michigan State University

*William Spaulding, Ph.D.*, University of Nebraska-Lincoln

**Earn 1.5 continuing education credits**

Primary Category: Vulnerable Populations

Key Words: *Vulnerable Populations, Global Mental Health, Stakeholder Relevant*

Psychologists are trained to conduct research, provide clinical services, and teach, but they are rarely prepared to engage in advocacy, which reflects a critical gap in psychological training and practice. Advocacy can be a powerful tool for collaborating with marginalized communities to reduce health disparities, and it can play an important role in science (e.g., evaluating advocacy initiatives, generating hypotheses based on experiences with community members). In line with the convention theme—to extend the reach and impact of scientific knowledge—the goal of this panel is to discuss how psychologists can use advocacy as a tool for disseminating scientific knowledge, increasing the impact of psychological science, and ultimately improving the health of marginalized populations. Panelists will share their experiences engaging in advocacy in multiple settings with diverse populations (e.g., sexual and gender minorities, people of color, people living with HIV, people diagnosed with serious mental illness). Examples of their work include developing and leading task forces, advocating for policy changes, enhancing community collaborations, engaging stakeholders to determine clinical priorities, and using research to evaluate and support

community advocacy initiatives, both domestically and internationally. Panelists will also reflect on various roles psychologists can play in advocacy, including utilizing clinical research skills to aid community partners in conducting needs assessments, evaluating the impact of advocacy initiatives, and obtaining grant support for academic-community partnerships. Finally, panelists will discuss challenges of engaging in advocacy as psychologists and potential strategies for overcoming barriers. By the end of this session, attendees will have a deeper understanding of the importance of engaging in advocacy as psychologists, and how to use their training and skills for this purpose.

Neuroscience & Human Behavior*

### Earn 1.5 continuing education credits

Primary Category: Child / Adolescent - Anxiety

Key Words: Anxiety, Child, Treatment/ Program Design

Exposure-based cognitive behavioral therapy (CBT) is considered the gold standard for treating youth with anxiety and obsessive-compulsive disorders (OCD; Higa-McMillan et al., 2016). Increasing evidence suggests that CBT delivered in a brief, intensive format yields outcomes equivalent to traditional once-weekly CBT (Ost & Ollendick, 2017). Intensive treatment also offers notable advantages over once-weekly sessions, including increased retention of learning, decreased opportunities for avoidance, and faster reentry into activities of daily living. As such, specialty outpatient clinics now offer intensive CBT for youth with anxiety and OCD. However, considerable variety exists in intensive treatment delivery for this population, and clinics differ in their inclusion criteria, program structure, and treatment duration. The goal of this clinical round table is to discuss special considerations for the design and delivery of intensive exposure-based CBT for youth with anxiety and obsessive-compulsive disorders in an outpatient clinical setting.

The moderator and five presenters are expert clinicians and researchers from specialty clinics at Bradley Hospital, University of Denver, McLean Hospital, Seattle Children's Hospital, UCLA Semel Institute, and Weill-Cornell Medical Center. Presenters will briefly describe their clinics, including intake procedures and program structure, and will then answer questions during a moderated discussion. Questions will address lessons learned during program development, costs and benefits of programming choices, incorporation of research, and strategies for patient and parent engagement. This round table will offer a unique opportunity for presenters to share challenges that have been faced and suggestions for overcoming barriers to successful treatment implementation. Presenters will also discuss key research questions that have arisen from their intensive program experience. This round table will benefit both clinicians and researchers interested in understanding and providing this innovative treatment approach for youth with anxiety and OCD.

### Mini Workshop 9

## Evidence-Based Treatment With a Higher Purpose: Spiritually-Integrated CBT

*David H. Rosmarin, ABPP, Ph.D., McLean Hospital/Harvard Medical School*

### Earn 1.5 continuing education credits

Basic level of familiarity with the material

Primary Category: Spirituality and Religion

Key Words: *Spirituality and Religion, Case Conceptualization / Formulation*

In some respects, evidence-based treatment always serves a higher purpose in that it changes human lives by alleviating suffering and improving life. In other respects, however, the practice of CBT is anything but a spiritual enterprise, given that the vast majority of CBT clinicians receive no training in how to broach spiritual matters with patients, and many never inquire about this domain at all (Rosmarin, Green, Pirutinsky & McKay, 2013). These limitations are significant when one considers that more than nine in ten Americans believe in God (Gallup Poll, 2011) and the statistical majority of psychotherapy patients wish to discuss spirituality in treatment (Rose, Westefeld, & Ansley, 2001). This workshop will present an easy-to-understand framework for CBT clinicians to conceptualize the relevance of spirituality to a variety of mental health concerns, based on current research. Attendees will also emerge with concrete skills in how to implement a brief CBT-based assessment of spirituality in clinical practice.

At the end of this session, the learner will be able to:

- Describe at least three ways that spirituality/religion is functionally related to mental health.
- Formulate spiritual resources and struggles in clinically meaningful terms.
- Implement a brief CBT-based assessment of spirituality in clinical practice.

## **Earn 3 continuing education credits**

Moderate level of familiarity with the material

Primary Category: Suicide and Self-Injury, Treatment- Mindfulness & Acceptance

Key Words: *Suicide, ACT (Acceptance & Commitment Therapy), Recovery*

Suicide is a leading cause of death and competency in suicide risk assessment and prevention is a vital component of clinical practice. Yet responding to suicide risk can be a tremendous source of stress and place therapists at odds with their clients. Acceptance and Commitment Therapy (ACT) provides a powerful and balanced approach to suicide prevention by promoting life in addition to preventing suicidal behavior. The workshop will begin with a concise review of the literature on ACT and suicide. Then participants will learn to apply key components of ACT for Life, a brief empirically-based intervention developed via a formative evaluation with ACT and suicide prevention experts. Case examples and experiential exercises will be used to build skills for working effectively and compassionately with clients at risk of suicide, while still maintaining best practices for suicide prevention. We will identify therapist challenges to working with clients considering suicide and discuss methods for overcoming these barriers. Participants will learn how to maintain an ACT therapeutic stance when conducting suicide risk assessment, practice emphasizing function over form when identifying drivers of suicidal thoughts and behaviors, and create an ACT-consistent safety plan. We will demonstrate how to join with

clients in acknowledging and accepting the pain that leads them to desire death, while still empowering them to engage in values-consistent behavior, building a meaningful life of their choosing. This workshop will not include a comprehensive introduction to ACT and is recommended for attendees with at least some previous ACT training and experience.

At the end of this session, the learner will be able to:

- Identify potential barriers to working effectively and skillfully to prevent suicidal behavior.
- Create an ACT-consistent safety plan.
- Explain how to use ACT to reduce suicide risk and help clients build vital lives they can choose to live.

## Functional Analysis in Process-Based CBT

Steven C. Hayes, *Ph.D.*, University of Nevada, Reno  
 Stefan G. Hofmann, *Ph.D.*, Boston University Center for Anxiety and  
 Related Disorders

**Earn 3 continuing education credits**

Moderate level of familiarity with the material

Primary Category: Transdiagnostic, Treatment - CBT

Key Words: *Treatment, Transdiagnostic, FAP (Functional Analytic Psychotherapy)*

Process-Based CBT (PCBT) is a radical departure from the latent disease model of the DSM and the absurd proliferation of the protocols-for-syndrome approach. Instead, PBCBT focuses on how to best target and change core biopsychosocial processes in a specific situation for given goals with a given client. This approach recognizes that psychotherapy typically involves non-linear (rather than linear), bidirectional (rather than unidirectional), and dynamic changes of many (rather than only a few) interconnected variables. Effective therapy changes the entire system toward a stable and adaptive state. For therapy

to be most effective, we, therefore, need to embrace a systematic, assessment-guided, and theory-based approach to understand the relationships of the various problems of a given client. Functional analysis, the foundation of behavior therapy, provides the basis to understand these relationships. Functional analysis in PBCBT acknowledges the complexity, inter-relatedness, and multidimensional levels of the problems in a given client. This workshop will illustrate how PBCBT is used to target key treatment processes by combining functional analysis with a dynamic and person-specific network approach. The workshop will discuss specific strategies to target specific processes in a specific client.

At the end of this session, the learner will be able to:

- Articulate the limitations and weaknesses of the contemporary medical model.
- Develop an idiographic, functional diagnostic system that has treatment utility.
- Use functional analysis in conjunction with complex network approach in a given client.

## Appetite Monitoring in Individual and Family-Based Healthy Weight Coaching

Linda W. Craighead, Ph.D., Emory University

### Earn 2 continuing education credits

Moderate level of familiarity with the material

Primary Category: Obesity, Parenting, Families

Key Words: *Eating Disorders, Parenting, Families*

FRIDAY

Family-based Healthy Weight Coaching (F-b HWC) is a psychoeducational intervention designed to help parents engage in family lifestyle change to promote healthy weight management. It is appropriate for parents with children who have current weight concerns or those at risk for becoming overweight due to maladaptive eating habits and/or family history. The goal is to empower parents to navigate making uncomfortable changes in family routines and norms about eating. The intervention is based on Appetite Awareness Training (AAT), a self-monitoring strategy originally designed and evaluated within interventions targeting binge eating, bulimia, and weight management for adults. AAT aims to restore a more natural feeling of control over-eating by training individuals to be more aware of, and then rely primarily on, internal cues of moderate hunger and fullness to regulate their eating rather than responding to emotional cues, environmental cues, or following food plans/diet rules. AAT discourages both “getting too hungry” as well as “getting too full.” The approach addresses the need for portion control while minimizing feelings of hunger and/or deprivation. In this adaptation for family use, parents first learn to monitor their own appetite using an electronic app. Parents are then provided a child’s storybook which uses the fun, child-friendly metaphor of “training your inner pup” to explain the use of three tools—a Hunger Scale, a Worth It Scale, and a Stomach Stop Sign—designed to reinforce the child’s self-awareness of appetite cues. Cases of families with targeted children ranging in age from 8 to 14 will be presented.

At the end of this session, the learner will be able to:

- Describe the rationale for Family-based Healthy Weight Coaching and learn how to present the rationale to parents.
- Explain how to use a self-monitoring app and child-friendly metaphors to help parents make healthy lifestyle changes for themselves and their family.
- Respond to the most common parent concerns and difficulties in implementing healthy behavior change in the home.

## Mindfulness & Acceptance SIG

We invite members and nonmembers alike to attend the first 20 minutes of our meeting for a guided mindfulness meditation practice. We can all use some time out of “conference mind” and in “being mind!” Following the practice, we will attend to SIG business, hear updates on mindfulness research, and hear from our student award winner.

**Clinical Roundtable 5****Clinical Considerations for Culturally Tailored Couple Care With Underserved Groups**

MODERATOR: *Kimberly Z. Pentel, M.A.*, University of North Carolina at Chapel Hill

PANELISTS: *Anthony L. Chambers, Ph.D.*, Family Institute at Northwestern University, Center for Applied Psychological and Family Studies

*Kristina Coop Gordon, Ph.D.*, University of Tennessee - Knoxville

*Shalonda Kelly, Ph.D.*, Rutgers University, Graduate School of Applied and Professional Psychology

*Sarah W. Whitton, Ph.D.*, University of Cincinnati

**Earn 1.5 continuing education credits**

Primary Category: Couples / Close Relationships

Key Words: *Couples / Close Relationships, Culture, Treatment/ Program Design*

Although many evidence-based interventions exist to help couples improve relationship functioning, these interventions have been mainly evaluated with a narrow demographic of couples with easier access to care (Fischer et al., 2016; Kelly et al., 2014). While some facets of couples interventions may have broad-reaching benefit (e.g., increasing effective communication skills), there is great utility in tailoring services for underserved couples (e.g., Beach et al., 2011; Whitton et al., 2017). Per APA guidelines on culturally competent care (2003), interventions developed in one cultural context should not be applied in another without critically examining fit and inherently-held cultural values. Topics related to one's identity are often central in couples services, and providing care in line with minority clients' culture and values is associated with greater effect sizes (Benish et al., 2011). Therapists require training to design treatment congruent with couple values, utilize couple strengths, and address minority stress which impacts relationship wellbeing. Yet, most couple therapists lack training in systematically tailoring interventions for underserved groups (Green et al., 2015).

This expert panel of scholar-clinicians offers a timely discussion for conducting and translating culturally relevant research into affirming clinical practice, in line with the convention theme of increasing social impact by reaching diverse populations. Panelists are leaders in culturally tailoring couple care, spearheading efforts to understand the needs of and tailor care for low-income (Dr. Gordon), rural (Dr. Whitton), racial and ethnic minority (Drs. Chambers, Kelly), and LGBTQ couples (Dr. Whitton). Panelists will provide valuable insight on how to (a) identify the needs of underserved couples, (b) integrate efficacious facets of existing interventions to develop tailored and responsive couple care,

and (c) disseminate services in a way that overcomes health disparities and increases access to care.

4:30 p.m. – 6:00 p.m.

L504-L505, Lobby Level

Clinical Roundtable 6

**“The Way You Make Me Feel”: Trans-theoretical Approaches to Addressing Emotions in Couple Therapy**

MODERATOR: *Alexandra K. Wojda, B.A., University of North Carolina at Chapel Hill*

PANELISTS: *Donald H. Baucom, Ph.D., University of North Carolina at Chapel Hill*

*Christina Balderrama-Durbin, Ph.D., Binghamton University*

*Andrew Christensen, Ph.D., University of California Los Angeles*

**Earn 1.5 continuing education credits**

Primary Category: Couples / Close Relationships

Key Words: *Couples / Close Relationships, Clinical Decision Making, Change Process / Mechanisms*

Within couples research, one truth is self-evident: Emotions play a central role in the interactions of partners and in the longevity of relationships. Emotional expression can bring partners together, facilitate empathic responding, and enhance relational well-being; conversely, it can foster conflict, destructive communication, and even relationship dissolution. As such, emotions are central to relationship functioning and couple therapy. Within the past three decades, couple therapists and researchers have designed a number of empirically-supported interventions to address emotions in relationships, using different strategies to optimize emotion regulation, acceptance, and mutual connection between partners while minimizing maladaptive emotional experience and expression. Although diverse approaches to addressing emotions exist among different couple therapies, empirical evidence has not favored any one treatment approach, suggesting that there may be underlying common themes across the various couple therapies. Identifying the similarities and differences among these interventions targeting emotions has the potential to highlight the active ingredients of therapeutic change in the treatment of relationship distress and related problems.

Thus, this clinical roundtable brings together a panel of experts on different orientations of couple therapy—cognitive-behavioral, integrative behavioral, emotion-focused, and insight-oriented—to discuss clinical approaches to emotions in intimate relationships. Taking a trans-theoretical approach, this widely-experienced panel will (a) discuss common principles in addressing emotions across couple therapies and (b) consider implications for interventions targeting relationship distress. Consistent with the conference theme,

“Extending the Social Impact of Cognitive Behavioral Science”, the panel will also discuss factors to consider when adapting these interventions for different cultural groups and for couples with diverse presenting problems (e.g., infidelity, psychopathology, interpersonal violence).

**Clinical Roundtable 7**

**Beyond the Office: Benefits, Challenges, and Considerations for the Use of Telehealth in Diverse Clinical Settings**

**MODERATOR:** *Amanda R. McGovern, Ph.D., McGovern Psychotherapy, LLC*

**PANELISTS:** *Erin K. Engle, Psy.D., Columbia University Medical Center*

*Caitlin B. Shepherd, Ph.D., Smith College*

*Nicholas Crimarco, Ph.D., Columbia University Medical Center*

*Elliot Kaminetzky, Ph.D., My OCD Care*

**Earn 1.5 continuing education credits**

Primary Category: Treatment - CBT

Key Words: *Technology / Mobile Health, Treatment, Dissemination*

Whereas prevalence of mental health concerns is growing, availability of evidence-based treatments by qualified clinicians has declined. Access to such treatments is even more limited for certain populations including those with disabilities, from low-income backgrounds, and residing in rural areas. One promising avenue for addressing these issues is the delivery of evidence-based treatments by specialists engaging in videoconferencing with patients. Referred to as teletherapy, utilizing technology in this way allows professionals to offer treatments to broader, more diverse populations than they typically serve. Preliminary evidence suggests that teletherapy is comparable to face-to-face treatment for a variety of disorders, including depression, anxiety, PTSD, OCD, and eating disorders. These outcomes are evident across different age groups, ethnic groups, and treatment settings. Furthermore, teletherapy has added benefits such as decreasing cancellations and improving continuity of care. Despite these advantages, there are a number of important legal, ethical, and clinical considerations and challenges. The APA has issued guidelines for the practice of telepsychology; however, interpreting these guidelines can be difficult. Moreover, information for clinicians about how to modify cognitive and behavioral treatments for videoconferencing is scarce.

This clinical roundtable aims to engage in a dialogue about the implementation of teletherapy in diverse clinical settings. Panelists specializing in the delivery of evidence-based treatments will review recent research on teletherapy as well as the guidelines for the practice of telepsychology. Participants will learn about the applications and ben-

FRIDAY

efits of teletherapy as well as considerations based on age, patient population, diagnosis, or treatment framework. Discussion will focus on challenges that arise from the use of teletherapy including technological issues, privacy and confidentiality, communication issues, safety concerns, logistical barriers, and sustainability issues. Panelists will share insights into the use of teletherapy in their practice, including adaptations of evidence-based treatments, through case examples and personal experiences.

**M104, Marquis Level**

## **Clinical Roundtable 8**

### **Optimizing Success in Delivery of Trauma Focused Treatments With Patients With Borderline Personality Disorder**

MODERATORS: *Sarah C. Voss Horrell, Ph.D.*, Salem VA Medical Center

*Ren F. Stinson, ABPP, Ph.D.*, Minneapolis VAMC

PANELISTS: *Lea Didion, Psy.D.*, US Department of Veterans Affairs

*Laura Meyers, ABPP, Ph.D.*, Orlando VAMC

*Dana R. Holohan, Ph.D., Ph.D.*, Salem VA Medical Center

*Sara J. Landes, Ph.D.*, Central Arkansas Veterans Healthcare System

*Melanie S. Harned, Ph.D.*, University of Washington

#### **Earn 1.5 continuing education credits**

Primary Category: Trauma and Stressor Related Disorders and Disasters

Key Words: *PTSD (Posttraumatic Stress Disorder), Borderline Personality Disorder, Psychotherapy Process*

Borderline Personality Disorder (BPD) is highly comorbid with PTSD, particularly in veteran samples, and research indicates that outcomes following DBT are less robust in individuals with comorbid PTSD (Barnicot & Priebe, 2013). Patients with BPD and co-occurring anxiety disorders often see a remission of their anxiety disorder following BPD treatment; however, this has not been the case for patients with co-occurring BPD and PTSD (Keuroghlian et al., 2015). Further, patients who experience an increase in untreated PTSD symptoms over time are more likely to also experience a relapse of BPD symptoms following BPD treatment. Additionally, a PTSD diagnosis contributes significantly to risk for future suicide attempts in patients with BPD (Wedig et al., 2012). Given these findings, researchers have suggested that treating PTSD would improve outcomes in patients with comorbid BPD (Barnicot & Crawford, 2018). While the preponderance of available evidence suggests individuals who complete Trauma Focused Therapies (TFTs) have a significant reduction in SI and self-harm, many therapists are still reluctant to engage individuals with previous self-harm behaviors or previous suicide attempts in these

treatments. As a large percentage of the VA patient population, relative to community samples, presents with symptoms of emotional and interpersonal dysregulation in addition to PTSD; having treatment options for individuals with BPD symptoms and comorbid PTSD is critical. The primary goals of this clinical roundtable are to discuss issues that pertain to delivery of TFTs, primarily prolonged exposure therapy (PE) and cognitive processing therapy (CPT), with individuals with comorbid BPD. This panel, consisting of VA psychologists from across the country, who are trained in various TFTs and Dialectical Behavior therapy for BPD, will discuss the relevant literature addressing delivery of TFTs with individuals with BPD symptoms, and discuss implications for clinical practice.

4:30 p.m. – 6:00 p.m.

M303, Marquis Level

Clinical Roundtable 9

Challenges of Treating Traumatized Adolescents:  
Successes, Failures, and the Value of Good Old-  
Fashioned Case Conceptualization

MODERATORS: *Elissa J. Brown, Ph.D.*, St. John’s University

*Carla K. Danielson, Ph.D.*, MUSC

PANELISTS: *Chelsea N. Grefe McCann, Psy.D.*, UPMC Children’s Hospital  
of Pittsburgh

*Colleen Lang, Ph.D.*, Behavioral Wellness of NYC

*Komal Sharma-Patel, Ph.D.*, St. John’s University

Earn 1.5 continuing education credits

Primary Category: Child / Adolescent - Trauma / Maltreatment

Key Words: *Trauma, Treatment, Adolescents*

The primary purpose of this clinical roundtable is to provide principles-based guidelines for addressing numerous complications related to the evidence-based treatment of traumatized adolescents. Adolescents with PTSD related to interpersonal trauma often present with difficulties across multiple domains of functioning, and for a variety of reasons (e.g., sociocultural variables, high family discord, severe interpersonal and emotional dysregulation, higher treatment resistance, safety concerns) can be difficult to engage in structured treatment. Panel members will discuss examples of treatment success and failure in use of a protocol that integrates empirically-validated treatment components to address each of these different trauma sequelae. Cases will be presented from *PARTNERS with Teens*, which involves an exposure-based protocol that includes engagement strategies, cultural sensitivity, elements of MI, DBT, and caregiver/family components, to reduce symptoms of PTSD and depression and improve emotion regulation among economically-disadvantaged, multi-racial/ethnic adolescents. Case examples will be used to illustrate how treatment components were emphasized and incorporated differentially as a function of case conceptualization and how treatment success and failure were a function of how

well each case conceptualization honored the principles and philosophies underlying different treatment components. The larger panel, clinicians and researchers with decades of experience in working with this population, will further discuss these cases to highlight how effective treatment can be when directed by a theoretically-grounded case conceptualization that allows for effective engagement of adolescents and caregivers. Discussion will further address how dropout and symptom escalation might be predicted by failure in how principles of MI, DBT and caregiver components are synthesized and developmentally contextualized. Implications for training and for the broad delivery of treatment to this underserved population are discussed, with an emphasis upon ways of developing and using nuanced case conceptualizations that carefully synthesize the theories and principles upon which treatment components are founded.

### **Earn 2 continuing education credits**

*Key Words: Education, Graduate School, Professional Development*

This session brings together the perspectives of well-established graduate program directors, faculty mentors, and current graduate students to provide useful information about graduate school to prospective and early-career graduate students, as well as the opportunity for attendees to interact with directors of specific graduate programs. The panelists include representatives from U.S. clinical psychology Ph.D. and Psy.D. programs and Canadian Ph.D. programs. Panelists will provide information about the graduate school application process, including how undergraduate students and other prospective applicants can: (a) select a graduate degree and graduate program that meets their training and career goals, (b) best prepare themselves to be successful applicants to graduate programs, and (c) effectively navigate the application process. Panelists will also discuss how, once enrolled in graduate school, students can capitalize on the skills that got them there by focusing on their work ethic, love of learning, and passion for research or practice,

and channel those skills to build a vita and set of experiences that will prepare them for success at each future step of their graduate training and careers. The panel will be followed by a question-and-answer session and by a “Graduate Programs on Parade” session where representatives of graduate programs (typically 30–35 programs) will be available to discuss their particular programs with interested applicants. Several student members and new member professionals will be available to answer questions about their experiences applying to and participating in graduate programs. Attendees are encouraged to attend the ABCT SIG Expo immediately following this session. ABCT has over 40 different Special Interest Groups, many of which will be presenting research at the Expo. This is an excellent opportunity to meet students and professionals in specific areas of the behavioral therapies. Participants are encouraged to visit [www.abct.org](http://www.abct.org) and take advantage of ABCT’s resources for students, including information on getting into graduate school and what to expect as a graduate student in CBT, internships, grants, mentorships, postdoctoral fellowships, featured labs, and a student awards program.

At the end of this session, the learner will be able to:

- Provide information about activities one could engage in as an undergraduate student that will best prepare him/her for graduate school in psychology.
- Provide information about selecting graduate programs, filing applications, completing a personal statement, and interviewing.
- Provide information about strategies for surviving the first year in a graduate program.

### **Mini Workshop 10**

## **Behavioral Activation for Adolescents**

*W. Edward Craighead, ABPP, Ph.D., Emory University*  
*Allison LoPilato, Ph.D., Emory University School of Medicine*

### **Earn 1.5 continuing education credits**

Basic level of familiarity with the material

Primary Category: Child / Adolescent - Depression

Key Words: *Behavioral Activation, Adolescents, Depression*

Adolescent depression is a significant public health crisis. Research shows that adolescent onset depression is associated with a more severe and protracted clinical course, poorer treatment response, greater functional and social impairment, and increased rates of substance abuse and suicidal behaviors. These findings, coupled with the low rates of remission and high rates of relapse following current treatment practices, highlight the critical need for alternate treatment approaches for this population. Accumulating

research suggests that Behavioral Activation therapy may be particularly well suited for depressed adolescents, given its emphasis on maladaptive avoidance patterns. Behavioral avoidance has consistently been identified as a critical factor in the emergence and maintenance of depression. As individuals withdraw from activities and relationships in response to negative mood states (e.g., escape distress from daily hassles and interpersonal conflicts) their access to rewarding experiences is limited and their environment narrows. Such avoidance is particularly detrimental in adolescence. Accordingly, the overarching goal of BA are to replace mood-driven behavior (i.e., avoidance) with goal-directed behavior (i.e., approach). This workshop will introduce key BA principles, techniques, and skills that can be used to augment treatment and improve engagement with depressed adolescents. These components can be used to create a stand-alone treatment or incorporated into other complementary treatments to help improve outcomes. Emphasis will be placed on teaching, modeling, and practicing key skills related to helping adolescents increase activity, overcome avoidance, and maximize positive experiences in their life. The use of functional analysis, monitoring, activity scheduling, behavioral rehearsal, and problem-solving will be reviewed and illustrated with real case examples. We will also address the common treatment obstacles that emerge in adolescent treatment and discuss creative solutions. Drawing on experience with adolescents in our clinic and research projects, we will also show how to flexibly apply BA skills to meet the needs of adolescents with diverse problems, characteristics, and backgrounds.

At the end of this session, the learner will be able to:

- Implement key BA principles, techniques, and strategies with their adolescent patients.
- Flexibly adapt BA components based on the characteristics of their adolescent patients (e.g., SES, developmental level, family dynamics).
- Generate creative solutions to common treatment barriers that arise with adolescent patients and their families.

**M301-M302, Marquis Level****Mini Workshop 11****Integration of Multiculturalism and Cognitive Behavioral Treatments for People of Color With Anxiety**

*Tahirah Abdullah, Ph.D., University of Massachusetts Boston*  
*Amber Calloway, Ph.D., University of Massachusetts Boston*  
*Jessica Graham-LoPresti, Ph.D., Suffolk University*

**Earn 1.5 continuing education credits**

All Levels level of familiarity with the material

Primary Category: Culture / Ethnicity / Race

Key Words: Anxiety, CBT, Culture

The diversity among individuals living in the United States has rapidly increased over the past few decades with people of color making up an estimated 41.5% of the United States population in 2017 (US Census Bureau, 2017). Because clinicians with higher levels of cultural competence and responsiveness experience more favorable outcomes with their clients (Sue, 2001), utilizing multicultural competency to effectively tailor CBT may better serve the mental health needs of marginalized populations (Hofmann, 2006; Iwamasa & Hays, 2019). The current workshop focuses on the adaptation of traditional cognitive behavioral treatments for anxiety with specific examples of how we have integrated multicultural principles and traditional CBTs for anxiety to better serve individuals from marginalized backgrounds. This workshop will present some background and basic skills of applying multicultural principles in therapy and the culturally sensitive adaption of traditional cognitive behavioral treatments for people of color with anxiety. Specifically, the workshop will draw heavily from our experience treating people of color with anxiety and the integration of multicultural principles and culturally responsive adaptations of cognitive restructuring, exposure, as well as mindfulness and acceptance approaches.

At the end of this session, the learner will be able to:

- Describe the theory and research that support the integration of multiculturalism and CBT in the treatment of people of color experiencing anxiety.
- Articulate and understand how specific stressors often impact the development, course, and treatment of people of color experiencing anxiety.
- Learn specific skills through case presentations from our work to highlight the ways that cognitive behavioral therapies can be adapted to better serve clients from marginalized backgrounds.

*Carol Cassidy, M.A., Rutgers School of Social Work; New York University; MotherLion Media;*

#### **Earn 1.5 continuing education credits**

Primary Category: Professional/ Interprofessional Issues

Key Words: *Professional Issues, Career Development, Dissemination*

What is a sound bite? What does “off-the-record” mean and how is it different from “on background”? Who do I look at in a TV interview and how can I avoid misleading headlines? Many scientists and clinicians may avoid speaking with journalists about their work for fear of their work being taken out of context or being quoted as saying something they did not mean. However, in order to extend the social impact of cognitive behavioral science, it is critical that mental health professionals learn how to disseminate evidence-based research and practice in the media. Increasing our media presence will enable the broader public to make informed treatment choices, enhance the likelihood that public policy is guided by science, and help shape the public discourse around mental health. In this panel discussion, organized by ABCT’s Public Education and Media Dissemination Committee, expert clinicians, researchers, and media professionals will share their wisdom about how to speak effectively with the media, while maintaining the standards and ethics of evidence-based research and practice. This panel will discuss how

to maintain our professional values, while also promoting our work to the public. Specifically, they will elucidate terminology specific to each type of media and provide guidance on how to prepare for different types of media interviews (e.g., newspaper, radio, TV). The panel will discuss ways to maximize the impact of your message during an interview and teach attendees how to translate abstract concepts into concrete examples and metaphors that are both media-ready and scholarly. The panel will also discuss effective strategies for talking about controversial topics (e.g., mass shootings).

**Imperial Ballroom B, Marquis Level**

**Panel Discussion 10**

**Community Violence: Promoting Change by Bridging Science, Training, Policy, and Practice**

- MODERATOR: *Tommy Chou, M.S.*, Florida International University
- PANELISTS: *Marc S. Atkins, Ph.D.*, University of Illinois at Chicago  
*Sonya Dinizulu, Ph.D.*, Department of Psychiatry & Behavioral Neuroscience, University of Chicago  
*Stacy Frazier, Ph.D.*, Florida International University  
*Michael A. Lindsey, M.P.H., Ph.D.*, MSW, Silver School of Social Work, New York University;  
*Greta Massetti, Ph.D.*, Center for Disease Control and Prevention Division of Violence Prevention

**Earn 1.5 continuing education credits**

Primary Category: Violence / Aggression

Key Words: *Community-Based, Public Health, Vulnerable Populations*

Community violence exposure (CVE) endangers the physical safety and wellbeing of youth across the country (Kennedy & Ceballos, 2014). Further, CVE disproportionately impacts families in urban settings, communities of color, and those with high rates of poverty (Stein et al., 2003). Adjacent literature describes the array of risk factors conferred on youth living in poverty (Yoshikawa et al., 2012), and indicates drastic mental healthcare disparities for members of ethnic and racial minorities (Cook et al., 2017), highlighting compounding effects of context. Considerations for violence prevention and post-CVE intervention are equally complex, as targets for change exist at the community, family, and individual levels (Dinizulu et al., 2014; Foster & Brooks-Gunn, 2009; Hernandez-Cordero et al., 2011).

This panel aims to take a stepwise approach to discussing the exponentially complex phenomenon of CVE, following the guidance of Desmond Tutu (“There is only one way to eat an elephant – one bite at a time”). Panelists will (1) review the context and current conceptualization of CVE; (2) examine ongoing and potential avenues for change at the

national, neighborhood, family, and individual levels; and (3) explore implications for graduate and early career training. Invited speakers represent experience in consultation and academic-community partnership at local (e.g., Chicago, Miami, New York), state, and national levels. Moreover, speakers bring extensive expertise in community-engaged mental health intervention and services research with urban communities (Atkins); mediators and moderators of the relationship between CVE and youth outcomes (Dinizulu); dissemination, implementation, and services research training for doctoral students, interns, and junior investigators (Frazier); poverty research and policy (Lindsey); and nationwide violence prevention efforts led by the Center for Disease Control and Prevention (Massetti).

**M304, Marquis Level**

### **Panel Discussion 11**

## **Research Recruitment Strategies For ‘Hard to Reach’ Populations: A Panel to Share Lessons Learned and Tangible Takeaways**

**MODERATOR:** *Lanay M. Mudd, Ph.D.*, National Center for Complementary and Integrative Health at NIH

**PANELISTS:** *Lisa Uebelacker, Ph.D.*, Brown University & Butler Hospital  
*Jennifer L. Huberty, Ph.D.*, Arizona State University  
*Lauren Weinstock, Ph.D.*, Brown University & Butler Hospital

**Earn 1.5 continuing education credits**

Primary Category: Research Methods and Statistics

Key Words: *Clinical Trial, Research Methods*

Recruitment to research studies can be a difficult and daunting task. There are potential scientific, ethical, and funding implications if anticipated recruitment is not achieved. However, research suggests a majority of trials do not reach their planned enrollment on time. Recruitment can be particularly challenging in “hard-to-reach” populations – i.e., people with conditions of relatively low prevalence in the general population, vulnerable populations, people who are particularly hesitant to participate in research for various reasons, or who experience other barriers to participation. However, in order for research to have an impact on real-world populations, hard to reach populations must be included as partners in research. The purpose of this panel is to share strategies used to recruit hard to reach populations. Panelists will draw on examples from their own NIH-funded work with people with chronic medical conditions such as HIV, chronic pain, or blood cancer; people in medication-assisted treatment for opioid use disorder; people with serious mental illness or who are at high risk for suicide; depressed pregnant women and women who have experienced stillbirth; adolescents; and incarcerated individuals. We will provide our own lessons learned and offer tangible ways in which to recruit for future studies. We will

discuss community-based recruitment, clinic-based recruitment, and use of social media. We will also discuss the importance of monitoring and evaluating different recruitment strategies. The moderator will reflect on these topics from the perspective of an NIH program officer. Following an initial presentation, there will be a facilitated discussion related to recruitment.

**Earn 1.5 continuing education credits**

Primary Category: Professional/interprofessional issues

Key Words: *Professional development: Student issues*

Most psychology trainees are familiar with the department of psychology faculty model of professional practice, yet mental health professionals are employed across a wide array of settings, including academic medical centers, VA/government systems, independent

practices, and non-profit research institutes. Despite the diverse applicability of advanced degrees in psychology and related fields, students and recent graduates are often unfamiliar with how to pursue careers outside the “ivory tower.” This panel, sponsored by the ABCT Student Membership Committee, will provide trainees and early career professionals insight into “a day in the life” of psychologists who looked beyond traditional academic settings in pursuit of their career. Collectively, members of this panel will be able to speak to engaging in mental health research at a private practice, academic medical center, VA medical center, university affiliated research institute, and nonprofit institute. In addition to describing their career trajectories and lessons learned along the way, panelists will offer guidance on: understanding the differences between various career paths, obtaining the necessary training to successfully embark on different career paths, identifying research questions and methodologies suitable to various systems, operating within an interprofessional setting, and more. There will be ample opportunity for attendee participation in addition to moderated Q&A.

At the end of this session, the learner will be able to:

- The typical balance of professional activities/responsibilities across settings and how performance is evaluated across those settings.
- Advantages of (and challenges to) conducting mental health research across career settings.
- Recommendations for embarking on successful careers that fall outside the department of psychology faculty model.

## Friday Night Welcome Party and SIG Expo

Come join your colleagues and friends at the first official networking event at the convention. Enjoy this terrific opportunity to find like-minded colleagues at the Special Interest Group tables. Each SIG selects poster presentations submitted by their members on their topic or population. You will get to speak with young researchers doing the most up-to-the-minute studies. See the program addendum, distributed at the Convention Registration Desk for a complete listing of titles and authors. Everyone attends, so be on the lookout for that friend from grad school-or that interesting person you met at last year's ABCT conference. Support the ABCT Student Awards by participating in the "Secure Our Future" fundraiser in conjunction with the Welcome Cocktail Party and SIG Expo. All donations, in any amount, are greatly appreciated.

### Master Clinician 5

**ticket** **In-Depth Analysis of the Unified Protocol  
in Clinical Practice: Transdiagnostic Case  
Conceptualization and Application**

Todd Farchione, Ph.D., Center for Anxiety and Related Disorders, Boston University  
Shannon Sauer-Zavala, Ph.D., Center for Anxiety and Related Disorders, Boston University

**Earn 2 continuing education credits**

Moderate level of familiarity with the material

Primary Category: Adult Anxiety, Transdiagnostic, Treatment- CBT

Key Words: *Transdiagnostic, CBT, Emotion Regulation*

Recent conceptualizations of anxiety, depressive, and related “emotional” disorders emphasize their similarities rather than their differences. In response, there has been a movement in recent years away from traditional disorder-specific manuals for the treatment of these disorders and toward treatment approaches that focus on addressing psychological processes that appear to cut across disorders. These “transdiagnostic” evidence-based treatments may prove to be more cost-efficient and have the potential to increase availability of evidence-based treatments to meet a significant public health need. The Unified Protocol for Transdiagnostic Treatment of Emotional Disorders (UP), developed by Dr. David Barlow and colleagues at Boston University, is the most recognizable and widely used transdiagnostic treatment with empirical support for its use. The UP is designed to address the full range of emotional disorders (i.e., anxiety, depressive, and related disorders) by targeting common core temperamental vulnerabilities, particularly

neuroticism, that contribute to the development and maintenance of these frequently co-occurring disorders rather than surface-level, DSM diagnostic symptoms. This seminar goes beyond an introduction to the UP by focusing on the “nuts and bolts” of transdiagnostic assessment, case conceptualization, and real-world clinical application of the UP’s core treatment modules. A clinical case study will be used to illustrate the use of this protocol to address symptoms of anxiety, depression, and other emotion regulation difficulties. Attendees are expected to gain a better understanding of the UP and how this innovative protocol can be effectively applied in their clinical practice.

At the end of this session, the learner will be able to:

- Demonstrate application of core treatment modules using case material and clinical vignettes.
- Illustrate a transdiagnostic approach to assessment and case conceptualization.
- Describe how to adapt core treatment strategies of the UP (e.g., emotion awareness training, cognitive reappraisal, reduction of emotion avoidance and maladaptive emotion driven behaviors) based on the patient’s presenting symptoms.

## Master Clinician 8

ticket

**Comprehensive Behavioral Intervention for Tics***Douglas Woods, Ph.D., Marquette University**Michael Himle, Ph.D., University of Utah***Earn 2 continuing education credits**

Moderate level of familiarity with the material

Primary Category: Tic and Impulse Control Disorders, Child/Adolescent Anxiety, Obsessive Compulsive/Related Disorders

Key Words: *Tic Disorders, Child, Obsessive Compulsive Disorder*

Tourette Syndrome is a neurological condition consisting of multiple motor and vocal tics that are presumably due to failed inhibition within cortical-striatal-cortical motor pathways. In recent years, there has been a growing recognition among psychiatry and neurology about the utility of behavior therapy procedures in managing the symptoms of Tourette Syndrome in children and adults. Recently, the American Academy of Neurology recommended behavior therapy as a first-line treatment for Tourette Syndrome. This Comprehensive Behavioral Intervention for Tics (CBIT) combines elements of habit reversal training with psychoeducation and function-based behavioral interventions. Unfortunately, very few clinicians have been trained in evidence-based treatments for Tourette Syndrome and tic disorders, and in most U.S. cities there are no behavior therapists who provide this treatment. In this session, developers of CBIT will describe and demonstrate the treatment. In addition to learning the general therapeutic techniques, attendees will learn about the underlying model of Tourette as well as the theoretical and empirical rationale for using behavioral interventions. Various instructional technologies will be employed including didactic instructions, videotaped samples of actual treatment, and role-play demonstrations.

At the end of this session, the learner will be able to:

- Recognize tic disorders and understand their key phenomenological features.
- Explain the core elements of behavior therapy for tic disorders.
- Discuss the evidence base supporting the efficacy of behavior therapy for tic disorders.

**Recommended Readings:** Piacentini, J. C., Woods, D. W., Scahill, L. D., Wilhelm, S., Peterson, A., Chang, S., . . . Walkup, J. T. (2010). **CBT for Addictions: Customizing Your Strategies to Meet the Needs of People from Diverse Backgrounds**

*Bruce S. Liese, ABPP, Ph.D., University of Kansas Medical Center*

**Earn 1.5 continuing education credits**

Moderate level of familiarity with the material

Primary Category: Addictive Behaviors

Key Words: *Addictive Behaviors, Case Conceptualization / Formulation, CBT*

Addictions afflict people from all walks of life. They don't discriminate based on race, ethnicity, religion, socioeconomic status, sexual orientation, or gender identity. The primary purpose of this institute is to highlight the importance of conceptualizing individuals with addictions from diverse sociocultural backgrounds, in order to choose the most appropriate CBT strategies and techniques for helping these individuals. While the evidence base of CBT for addictions has been established, there are presently no evidence-based formulas for choosing specific CBT strategies and techniques for individuals from specific sociocultural backgrounds. Clinicians must rely on their case conceptualization skills for choosing strategies and techniques that meet the needs of diverse individuals. Hence, the process of conceptualizing individuals with addictions, especially from diverse backgrounds, is just as important as implementing the strategies themselves. This will be an active, experiential Institute, focusing on the decision-making process that should take place while providing CBT to individuals who come from diverse backgrounds. We will consider questions like:

- What does the term "sociocultural diversity" mean to you?
- When you think about sociocultural diversity, what particular groups come to mind?
- How do you integrate sociocultural diversity into your CBT case conceptualization?
- In what ways does your own sociocultural identity impact how you think about diversity?
- In the process of practicing CBT, what experiences have had the greatest impact on how you think about diversity?
- What assumptions do you make regarding sociocultural influences on addictive behaviors?
- How do you determine whether your treatment choices were effective with individuals from diverse sociocultural backgrounds?

In this Institute we make use of lecture, discussion, case studies, and role-playing to address questions like these. Participants are strongly encouraged to prepare for this Institute by reflecting on

SATURDAY

diverse individuals they have seen in therapy – understanding of course that all cases for discussion must be de-identified to avoid violations of privacy and confidentiality.

At the end of this session, the learner will be able to:

- Articulate their own personal definition of sociocultural diversity, specifically in the context of CBT for addictive behaviors
- Explain how they integrate sociocultural diversity into their CBT case conceptualization when treating people with addictive behaviors
- Identify how their sociocultural background may impact how they think about people from different backgrounds
- Describe at least one actual clinical experience that has impacted their view of sociocultural diversity
- Explain how their CBT case conceptualization impacts their choice of specific techniques for people from diverse backgrounds

**Earn 1.5 continuing education credits**

Primary Category: Parenting / Families

Key Words: *Parenting, Families, LGBTQ+*

With the increasing acceptance of gender diversity as a normal variant of youth development, there is a salient need to understand affirming parenting practices in both clinical and research contexts. A growing evidence base shows that supportive and accepting families and caregivers are associated with more positive outcomes among Gender Diverse (GD) youth. This is especially important given their higher risk for negative mental health outcomes and suicide. While there is some understanding of parenting sexual minority youth, there is a need to examine the unique challenges and needs for GD youth and their families in particular. Caregivers of gender diverse youth face numerous decisions around social, legal, and medical transition access for their children. There is also the distinct experience for parents of GD youth as they confront internalized and societal preconceptions and stigma surrounding gender variance, while simultaneously facing financial and legal barriers to their child's care and identity affirmation. Of course, this all occurs in a cultural context that may include other pressures on the families. It is time for researchers and behavioral health providers to expand our understanding of effective parenting to include families with gender diverse youth. Only a few researchers are addressing this important issue. The multidisciplinary panel includes experts in gender diverse youth and their families (Shelley Craig & Ashley Austin), Latinx families of gender diverse youth (Arlene Noriega), and mental health and medical decision-making specific to gender diverse youth (Diane Chen). The goal of the panel is to identify important research and clinical questions to help meet the needs of these families. The panel will also serve as an introduction to parenting gender diverse youth for clinicians who are seeing these families in their practices.

**M106-M107, Marquis Level****Panel Discussion 13****Bridging Anxiety, OCD, and Psychosis to Address Overlapping symptoms and Provide Evidence-based Care for Comorbid Presenting Problems**

MODERATOR: *Jonathan S. Abramowitz, Ph.D., University of North Carolina at Chapel Hill*

PANELISTS: *Charlie A. Davidson, Ph.D., Mercer University College of Health Professions*

*Jennifer Buchholz, M.A., UNC Chapel Hill*

*Rachel Waford, Ph.D., Emory University Rollins School of Public Health*

*Jordan E. Cattie, Ph.D., Emory University School of Medicine*

**Earn 1.5 continuing education credits**

Primary Category: Transdiagnostic

Key Words: *Comorbidity, OCD (Obsessive Compulsive Disorder), Psychosis / Psychotic Disorders*

Almost half of individuals with psychosis also have an anxiety disorder, and anxiety symptoms are associated with poor long-term outcomes. There is also substantial overlap in theory, neurological processes, and presentation between positive symptoms of psychosis, OCD, and anxiety symptoms. Paranoia can be seen as social anxiety with perceived threat. Delusional thoughts and hallucinations are exacerbated when they are preoccupying and feel compulsory. Negative and cognitive symptoms can be indistinguishable from depression-anxiety. On the other hand, odd beliefs, perceptual manifestations, and magical thinking about obsessions and compulsions are relatively common in OCD, and severe anxiety may transition easily into pseudo-delusional expectancies. There are clear empirically-supported techniques for each set of problems individually, but clinicians presented with both have little evidence base to adapt assessment and treatment planning. The stigma and shortcomings in psychological training related to psychosis result in barriers to access to care for people experiencing any mix of psychosis, anxiety, or OCD.

This panel brings together scientist-practitioners who specialize in anxiety, OCD, and psychosis and who have experience at their intersections. Unpublished data from participants with anxiety disorders, early psychosis, high-risk for psychosis, and nonclinical samples will be presented to highlight the prevalence and impact of psychosis-like experiences for those without psychotic disorders as well as the role of constructs like anxiety sensitivity and experiential avoidance among people with psychotic disorders. Two presenters are renowned local clinicians in evidence-based treatment for psychosis and OCD, respectively, who will discuss ACT-based approaches to address these transdiagnostic issues. The moderator is a renowned anxiety and OCD researcher whose collaborators include some of

the best in the field of psychosis treatment research. Panelists will summarize the evidence base and applied experience at the intersection of psychosis and anxiety, present new data, highlight areas for future research and policy, and provide clinical tools and resources for therapists.

**M301, Marquis Level**

**Panel Discussion 14**

**The Role of Cognitive Behavioral Science in Addressing Individual and Systemic Constraints to Evidence-based Practice in the Changing Health Care Marketplace**

**MODERATOR:** *Kathleen M. Palm Reed, Ph.D., Clark University*

**PANELISTS:** *Kathleen M. Palm Reed, Ph.D., Clark University*

*Kerrie Toole, LICSW, MSW, Castlebrook Counseling Services, Inc.*

*Zachary Rosenthal, Ph.D., Duke University*

*Lauren Weinstock, Ph.D., Brown University & Butler Hospital*

**Earn 1.5 continuing education credits**

**Primary Category:** Dissemination & Implementation Science

**Key Words:** *Evidence-Based Practice, Training / Training Directors, Clinical Decision Making*

Technological innovation and the proliferation of evidence-based practices have led to improved standards of care, yet technology and the structured nature of short-term treatment protocols may have shortcomings that our science and training need to address. For example, research funding and clinical care reimbursements have been favoring brief interventions that do not necessarily allow for the complete delivery of evidence-based protocols that trainees have learned to implement. Practicing clinicians must be able to quickly establish rapport, assess, and prioritize treatment goals. Unfortunately, with the increased focus on treatment protocols, there has been decreased training and research emphases on developing and understanding evidence-based therapeutic relationship and clinical decision-making skills that promote flexibility and effectiveness in a changing healthcare marketplace. The primary goal of this panel is to discuss the individual and systemic constraints to implementing evidence-based practices in their respective contexts. They also will address discuss potential training and research directions that could address these constraints and inform more effective delivery of evidence-based practices. Additional questions panelists will address include, “How can we merge the warmth of good clinical practice with emerging science?”, and “How can providers translate clinical results from research, training, and technological innovations to “soft skills” necessary for successful treatment of clients?”

## Panel Discussion 15

## Making CBT an Alternative to Medication at Scale: Emerging Pathways for Increasing the Accessibility of Evidence-based Psychological Treatments

MODERATOR: *Michael W. Otto, Ph.D.*, Boston University

PANELISTS: *Jenna R. Carl, Ph.D.*, Big Health

*Steve D. Hollon, Ph.D.*, Department of Psychology, Vanderbilt University

*Michelle Craske, Ph.D.*, University of California Los Angeles

*Jonathan Comer, Ph.D.*, Florida International University

*R. Kathryn McHugh, PhD*, McLean Hospital/Harvard Medical School

Earn 1.5 continuing education credits

Primary Category: Dissemination & Implementation Science

Key Words: *Dissemination, Technology / Mobile Health, Integrated Care*

Despite the fact that CBT is recommended as the first line treatment for many common mental health disorders (e.g., NICE guidance) and 75% of patients would prefer therapy over medication (McHugh, Whitton, Peckham, Welge, & Otto, 2013), evidence-based psychological treatments have largely remained unavailable to the general population. But a confluence of diverse factors have begun to shape a new era of mental health care that may finally change this fact. The opioid crisis and increasing recognition of the risks of many psychotropic medications (Johnell et al., 2016) has made medications seem less viable as the default treatment for common mental health problems. On the payer side, the shift from fee-for-service to value-based reimbursement is encouraging the adoption of interventions that are efficient, safe, and provide consistent, measurable patient outcomes. Within industry, there have been advances in the development of technologies to improve health care delivery and outcomes, including the emergence of a new category of “digital therapeutics” that can be FDA-approved as clinical treatments akin to medicine. Lastly, growing awareness of the prevalence and costs of untreated mental health conditions has motivated a variety of public and private stakeholders to develop innovative and collaborative ways of improving access to CBT. These developments are unlocking promising new pathways for extending and integrating CBT into routine health care that have the potential to finally make CBT an accessible, scalable alternative to medication. This panel brings together experts on the forefront of these new developments within mental health care to share their unique insights into the opportunities and challenges for increasing access to CBT afforded within this changing landscape.

## Research and Professional Development 4

## Applying for F31 Predoctoral or F32 Postdoctoral Fellowship Awards

PANELISTS: Lou Ann Brown, Ph.D., Emory University School of Medicine  
 Becky Kinkad, Ph.D., Emory University School of Medicine

## Earn 1.5 continuing education credits

Advanced level of familiarity with the material

Primary Category: Professional / Interprofessional Issues

Key Words: *Professional Development*

As described by NIH, the purpose of the Ruth L. Kirschstein National Research Service Award (NRSA) Fellowship Award program is to support promising applicants during their mentored pre- or postdoctoral training under the guidance of outstanding faculty sponsors. The integrated program of research and training should enhance the individual's potential to develop into a productive, independent researcher. But what does it mean to be a 'promising' candidate? What are the characteristics of 'outstanding' faculty sponsors? And how do you train to be an 'independent' researcher? The goals of this workshop are to describe: 1) The key elements of F31 and F32 applications 2) What it means to be a 'promising' F31 or F32 applicant 3) How to determine if the F31 or F32 is the best funding mechanism 4) How to identify an outstanding mentoring team, and how to use the mentoring team to shore up weaknesses in the training plan and to enhance independence 5) How to obtain letters of reference 6) How to determine which NIH funding institute to apply to 7) How to outline a research plan 8) The components of an excellent training plan 9) How to get started By the end of this workshop, participants should understand the key elements in F31 and F32 proposals, be able to identify potential weaknesses in the application and options to address those weaknesses, know how to get started. The target audience for this workshop is graduate students applying for an F31, graduate students entering postdoctoral positions in the next 1-2 years, postdoctoral fellows planning F32 applications, and junior faculty interested in having their postdoctoral fellows apply for an F31 or F32.

At the end of this session, the learner will be able to:

- Understand the key elements in an F32 proposal.
- Be able to identify potential weaknesses in the application and options to address those weaknesses.
- Know how to get started.

Primary Category: Child / Adolescent - Externalizing

Key Words: ADHD, CBT, School

A recent advance in the psychosocial treatment of ADHD has been the addition of forms of Organizational Skills Training as empirically-validated treatments for ADHD (Bikic, et al, 2017). Challenges and deficits in executing tasks, including organization, time management, and planning often hinder individual, family, and school adjustment in youth with ADHD. Organizational Skills Training (OST) and Supporting Teens' Auton-

SATURDAY

omy Daily (STAND) are two well-established treatments for children with ADHD (Evans et al., 2014). OST with elementary school children has wide impact in improving organization, time management, and planning which contributes to improved achievement and to reduced homework problems and family conflict (Abikoff et al., 2013). STAND, a parent-teen therapy (Sibley, 2017), has had similar positive impact with middle and high school children. Both protocols have been fully tested in clinical settings with promising results shown for adaptations in school and community mental health settings. These CBT treatments address how ADHD symptoms interfere with the practical execution of actions needed at school and home, which parents and teachers see as a critical concern. This workshop will be a training on efficaciously administering the foundations of the protocols (Gallagher et al., 2014; Sibley, 2017). It will emphasize engaging youth, parents, and teachers in a collaborative process to build skills in: supportive parent behavior management, self-motivation, tracking assignments, managing materials, time management, planning, and study skills. In addition to didactics, active learning techniques, including role-plays and exercises, will be utilized to allow participants to fully understand the approaches. Participants will learn how to supportively coach children and teens so that they feel empowered and how to incorporate positive responses from parents and teachers to effectively motivate youth. The program will review the components of related empirically-supported or promising programs for in-school delivery. Presenters are authors of the clinical interventions and the principal investigators of adaptations for delivery in groups in clinical, school, and community settings.

At the end of this session, the learner will be able to:

- List the practical executive deficits that children and teens with ADHD face in organization, time management, and planning that hinder home and school functioning.
- Use assessment methods to evaluate organization, time management, and planning and other executive function deficits in order to select appropriate candidates for treatment.
- Use manuals to treat executive function and organizational deficits in children and teens with ADHD and creatively adapt methods for use in school settings.

## Workshop 10

## **Supervision and Clinical Case Consultation Strategies: Guided Discovery, Strengthening the Supervisory Relationship, and Experiential Teaching Techniques**

*Brittany C. Hall, Ph.D., UT Southwestern Medical Center  
Lynn McFarr, Ph.D., Harbor-UCLA Medical Center & CBT California  
Scott H. Waltman, ABPP, Psy.D., Brooke Army Medical Center*

### **Earn 3 continuing education credits**

Moderate level of familiarity with the material

Primary Category: Workforce Development / Training / Supervision, Dissemination & Implementation Science

Key Words: *Cognitive Therapy, Supervision, Implementation*

A major component of extending the social impact of cognitive behavioral science is through the effective dissemination and implementation of the behavioral and cognitive therapies to new trainees. Frequently, these new trainees are delivering care to those who are under-served in the public mental health system. This often translates to needing to teach CBT skills in a shorter time frame than the typical term of doctoral and postdoctoral study. This also includes training clinicians who have been out of 'student mode' for years and may be less research-inclined than doctoral students. Trainers and supervisors need practical skills and strategies to aid in the implementation of the behavioral and cognitive therapies. One of the more challenging CBT skills to teach is compassionately and artfully guiding a client to take a more balanced or helpful perspective. Socratic Questioning is at the heart of cognitive exploration; however, it is a complicated skill that is difficult to teach. Common problems of clinicians learning Socratic Questioning included not knowing which questions to ask, trying to get the client to arrive at specific conclusions, or trying to convince the client. This workshop will focus on demystifying the process of guided discovery and presenting a practical framework for how to utilize these techniques in the supervision process. Additional cognitive behavioral, experiential learning, supervision strategies will be discussed and modeled as an effective method for increasing CBT knowledge. Also, the use of CBT strategies will also be discussed to strengthen the supervisory relationship to withstand critical feedback. Essential components such as teaching clinicians how to identify the key cognitions to target, gather more information, curiously listen, provide a summary, and tie it all together will be reviewed and practiced. This workshop is geared towards front-line clinicians, supervisors, and trainers. The workshop

will focus on the strategies that have been found to be successful in two separate large-scale public mental health CBT implementation initiatives. Experiential methods of learning will be emphasized.

At the end of this session, the learner will be able to:

- Utilize a framework for Socratic and guided discovery strategies in supervision and clinical case consultation to inform case formulation, treatment planning, and clinical interventions.
- Use Cognitive Behavioral Strategies for strengthening the supervisory and consultation relationship to be prepared for constructive feedback.
- Incorporate experiential teaching of Cognitive Behavioral strategies to increase supervisee and trainee knowledge of intervention techniques.

## Workshop 11

ticket

# Trauma-Informed Mindfulness: Integrating Mindfulness-Based Practices Into Psychotherapy With Traumatized Clients

Noga Zerubavel, Ph.D., Duke University Medical Center  
Terri L. Messman-Moore, Ph.D., Miami University

**Earn 3 continuing education credits**

Basic level of familiarity with the material

Primary Category: Treatment - Mindfulness & Acceptance

Key Words: *Mindfulness, Trauma, Education and Training*

This training will provide participants with an understanding of how to integrate mindfulness into psychotherapy with trauma survivors safely and effectively. Trauma occurs as a result of violence, abuse, neglect, loss, disaster, war, and other emotionally

harmful experiences, and the impact often endures long past the event through a variety of sequelae. Traumatized individuals vacillate between experiences of hyperarousal, emotional reactivity, and intrusive imagery, and hypoarousal, dissociation, and numbing of emotions. Mindfulness can provide clients with specific techniques for enhancing self-awareness, emotion regulation, distress tolerance, and attentional control, while also cultivating qualities of acceptance, compassion, and cognitive flexibility. Meditation and other mindfulness practices can promote optimal arousal and provide traumatized clients emotion regulation strategies. Evidence-based mindfulness interventions, such as Mindfulness-Based Cognitive Therapy (MBCT), are widespread. However, mindfulness practices can trigger traumatic memories or physiological arousal in some trauma survivors. Emerging evidence suggests mindfulness exercises may need to be modified for traumatized clients. Trauma-sensitive mindfulness interventions titrate the client's arousal to maintain a window of tolerance, which facilitates psychotherapy and general well-being. In this training, Dr. Messman-Moore and Dr. Zerubavel will provide guidance on how to integrate mindfulness-based practices into psychotherapy with traumatized clients. Participants will learn to teach mindfulness as a way to reduce traumatic sequelae and improve emotion regulation. Discussion will emphasize both formal meditative practices and informal mindfulness practice. The training will involve learning through various methods, including lecture, experiential practice of guided mindfulness meditation, and small group work. No prior knowledge of mindfulness is assumed.

At the end of this session, the learner will be able to:

- Describe rationale for how mindfulness practice can benefit the treatment of trauma-related mental health issues, and how mindfulness techniques can foster focused attention, body awareness, emotion regulation, and self-awareness.
- Explain how traumatic experience dysregulates physiological arousal, and how mindfulness practices foster physiological regulation.
- Identify signs of client overwhelm and discuss strategies to modify mindfulness practices and reduce dysregulation.

## Workshop 12

ticket

## Designing and Implementing Contingency Management Interventions for Health Behaviors

Jeremiah Weinstock, Ph.D., Saint Louis University

Carla Rash, Ph.D., UConn Health

### Earn 3 continuing education credits

Basic level of familiarity with the material

Primary Category: Addictive Behaviors, Health Psychology/Medicine-Adult

Key Words: *Addictive Behaviors, Treatment, Behavioral Economics*

Contingency management (CM) is an effective behavioral intervention that provides tangible reinforcement when target behaviors are completed and objectively verified. A large body of literature supports CM's use for treating substance use disorders (SUDs). For example, a meta-analysis of psychological treatments for SUDs found that contingency management had the largest effect size (Dutra et al., 2008) and a recent comprehensive review highlights its diverse applications (Rash, Stitzer, & Weinstock, 2017). Many applications of CM in treating SUDs focus on abstinence, providing monetary rewards or prizes when clients provide objective evidence of abstinence from drugs (e.g., urine samples). Contingency management has also been adapted successfully to reinforce other behaviors, including treatment attendance, medication adherence, treatment-related activities (e.g., submitting job applications, attending medical appointments), physical activity, chronic disease management (e.g., glucose monitoring), and therapeutic homework. Despite this strong empirical foundation, CM has only been widely disseminated within large self-contained healthcare systems (e.g., Veterans Affairs). In this workshop, we will review the application of CM to promote positive behavior change in various health behaviors. Attendees will learn how to design and implement a CM program using guidelines that can be adapted to a variety of target behaviors. Specifically, we will describe 1) the theoretical underpinnings and supporting empirical literature, 2) different types of CM programs (i.e., voucher, prize), 3) effective design features, 4) common barriers to and problems with implementation, 5) how to calculate costs of a CM program, and 6) how to implement CM programs in individual and group settings.

At the end of this session, the learner will be able to:

- Select, monitor, and reinforce target behaviors in a CM intervention.
- Recognize effective features of CM reinforcement schedules.
- Design and calculate costs for a prize-based contingency management intervention.

**Recommended Readings:** Petry, N. M. (2012). Contingency management for substance abuse treatment: A guide to implementing this evidence-based practice. New York, NY: Routledge. Rash, C. J., Stitzer, M., & Weinstock, J. (2017). Contingency management: New directions and remaining challenges for an evidence-based intervention. *Journal of Substance Abuse Treatment*, 72, 10-18. **Clinical Roundtable 10**

**Embracing the Dialectics in the Implementation of  
Dialectical Behavior Therapy (DBT) in the Veterans  
Health Administration (VHA)**

MODERATORS: *A. Nicole Winchester, Psy.D.*, Cincinnati VA Medical Center  
*Laura Meyers, ABPP, Ph.D.*, Orlando VAMC

PANELISTS: *Sara J. Landes, Ph.D.*, Central Arkansas Veterans Healthcare  
System

*Ren F. Stinson, ABPP, Ph.D.*, Minneapolis VAMC

*Elizabeth Chapman, MSW*, Ann Arbor Veterans Healthcare  
System

*Jeanette R. DeVevo, LCSW*, US Department of Veteran Affairs,  
Phoenix

*Melanie S. Harned, Ph.D.*, University of Washington

**Earn 1.5 continuing education credits**

Primary Category: Military and Veterans Psychology

Key Words: *DBT (Dialectical Behavior Therapy), Veterans, Implementation*

The need for evidence-based treatment to address the national health crisis of suicide in critical. Unfortunately, veterans suicide rates are 1.5 times higher than the rates of non-veterans. Dialectical Behavior Therapy (DBT) has demonstrated time and time again clinical efficacy to address not only the life-threatening behaviors seen in multiple diagnostic presentations, and ultimately how to assist patients in building a life worth living. While the research and clinical knowledge supports implementation and use of DBT in mental health settings, there is difficulty in implementing this complex model in a large system such as the Veterans Health Administration. Implementation of DBT in the VHA system is on a scope and scale vastly different than most research has conceptualized and examined. VHA provides treatment services to millions of veterans across the thousands of locations in treatment settings ranging from outpatient, to inpatient, and residential. Recent research from VHA providers has started to highlight the unique challenges and barriers to implementation of DBT, as well as demonstrating the benefits of using DBT in veteran populations, as well as factors that increase facilitation of DBT implementation.

The focus of this clinical round table is to gather prominent VHA clinical leaders that have been part of the grassroots implementation of DBT at various facilities across the country. Topics that have been researched and that will be the focus of the clinical round table include: service utilization costs associated with DBT participation, barriers and facilitators of DBT implementation in VHA care, training options, overcoming conflicting VA pressures and priorities (e.g., suicide prevention initiatives, political pressures, access

concerns), and needed resources for DBT implementation. There are many similarities that are seen with implementation of DBT in community settings, including the concern of maximizing the return on a training investment. The panel will also dive into the unique aspects of implementation of DBT including providing DBT services and maintaining a program in the VHA. As one practices DBT in the VHA, embracing the concept of dialectics (the D in DBT) is paramount to implementation of this needed service.

10:30 a.m. – 12:00 p.m.

Atrium Ballroom B&C, Atrium Level

Invited Panel 2

Realizing ABCT’s Mission in a Politicized World

Lynn Bufka, Ph.D., American Psychological Association  
Laura D. Seligman, Ph.D., University of Texas Rio Grande Valley  
Brandon Gaudiano, Ph.D., Brown University & Butler Hospital  
Megan Gordon-Kane, Feminist Women’s Health Center  
Anita Brown, Ph.D., Georgia Psychological Association  
Lauren MacIvor Thompson, Ph.D., Perimeter College of Georgia State University

Key Words: Public Policy

ABCT is “committed to the enhancement of health and well-being by advancing the scientific understanding, assessment, prevent and treatment of human problems through the global application of behavioral, cognitive, and biological evidence-based principles.” How can ABCT as an organization and individual ABCT members leverage this mission and knowledge to inform public policy and legislation? Members may be energized by recent issues- such as Georgia’s restrictive abortion laws- but enhancing the health and well-being of others through the application of evidence-based principles extends to many domains. Panelists will address the realities of policy development in our modern era and discuss the best strategies for ensuring that science appropriately informs the process. Panelists will also address the challenging realities of working within divisive and partisan politics to find solutions that advance health and well-being. Challenges include “fake news,” the public’s lack of understanding of science, attempting to advance multiple priorities that require political good will, “irrational” decision making, and working within the legal and ethical bounds of the organization and our disciplines. Panelists include Dr. Laura Seligman, an active member of ABCT’s Women’s SIG, Dr. Anita Brown, an advocate for psychology within the state of Georgia, Dr. Lauren Thompson, a historian specializing in law and health, Ms. Megan Gordon-Kane, an advocate for state level reproductive justice policies from Atlanta based Feminist Women’s Health Center, and Dr. Brandon Gaudiano, an expert in science and pseudoscience. The panel will be moderated by Dr. Lynn Bufka, who oversees policy and research development for professional practice at the American Psychological Association.

SATURDAY

**Marquis Salon D, Marquis Level****Mini Workshop 14****CBT for Looming Vulnerability Distortions in Anxiety**

*John Riskind, Ph.D., George Mason University*

**Earn 1.5 continuing education credits**

Basic level of familiarity with the material

Primary Category: Adult Anxiety

Key Words: *Anxiety, Cognitive Biases / Distortions, CBT*

The proposed mini-workshop will expose participants to a set of new constructs, strategies and novel interventions derived from the looming vulnerability model of anxiety that can be incorporated into standard CBT (Riskind & Rector, 2018). In the general CBT paradigm for anxiety today, threat perception is a core etiological process that involves distortions of the probabilities and costs of negative events. Threat perception is framed as a static snapshot of a dynamic emergent process. For example, potential romantic rejection or contamination exposure can be growing/approaching quickly or slowly. There is considerable evidence that anxiety is associated with to a cognitive bias to distort and overestimate dynamic emerging properties of threats: individuals who are afraid of spiders overestimate the speed and approaching movement of spiders, individuals who have contamination fear overestimate the rapid spread of germs in their direction, and individuals with social anxiety disorder tend to overestimate the extent that ambiguous social events represent rapidly growing threats of social rejection. Standard CBT has been shown to successfully reduce some of these distortions (Katz et al., 2017). However, additional interventions that target “looming vulnerability distortions” may help to augment the efficacy of CBT. Dorfan and Woody (2006) showed that while imagery instructions to imagine a drop of urine that was placed on their hands as spreading impeded standard habituation, instructions to image the urine as static facilitated habituation. Although condensed to reach a larger audience, the present material was well received as a workshop at last year’s ABCT.

At the end of this session, the learner will be able to:

- Describe the theory and research that support a looming vulnerability model as a cognitive perspective to anxiety and fear.
- Describe novel techniques for targeting and correcting these cognitive and perceptual distortions that can provide adjunctive tools for CBT protocols.

**Recommended Readings:** Riskind, J. H., & Rector, N. (2018). *Looming Vulnerability: Theory, Research and Practice*. Springer Nature. Riskind, J. H., Rector, N. A., & Taylor, S. (2012). Looming Cognitive Vulnerability to Anxiety and its Reduction in Psychotherapy. *Journal of Psychotherapy Integration*, 22, 137-162. Dorfan, N. M., & Woody, S. R. (2006).

Imperial Salon A, Marquis Level

Mini Workshop 15

Treating Impulsive, Addictive, and Self-Destructive Behaviors

Peggilee Wupperman, Ph.D., John Jay College/The Graduate Center/City University of New York

Earn 1.5 continuing education credits

Basic to Moderate level of familiarity with the material

Primary Category: Treatment - Other

Key Words: Addictive Behaviors, Eating, Aggression / Disruptive Behavior / Conduct Problems

Clients with dysregulated behavior often have trouble engaging in treatment, completing home-practice, and/or attending sessions regularly. As a result, treatment outcomes are often disappointing, and drop-out rates are high. To address these issues, Mindfulness and Modification Therapy (MMT; Wupperman, 2019) offers time- and cost-effective strategies for helping clients break free from dysregulated behavior. MMT integrates key elements from Motivational Interviewing, Dialectical Behavior Therapy, Acceptance and Commitment Therapy, Mindfulness-Based Relapse Prevention, and other evidence-based approaches. Preliminary trials of MMT have shown decreases in alcohol use, drug use, binge eating, physical aggression, and verbal aggression in both self-referred and court-referred clients. Retention has been greater than 80% across studies. Case studies have shown decreases in trichotillomania, skin picking, smoking, compulsive shopping, and other dysregulated behaviors. MMT can be used as a stand-alone treatment or as a precursor to decrease problematic behaviors before moving to more-intensive therapy. In this workshop, participants will master strategies that help improve motivation, engagement, and outcome in clients presenting with dysregulated behavior. Participants will learn to (1) conceptualize and address behavioral dysregulation in ways that decrease treatment obstacles, and (2) help clients begin moving toward lives that feel more meaningful and fulfilling. Implementation of strategies will be demonstrated through descriptions of therapeutic procedures, discussions of case vignettes, and presentation of videos. A guide for integrating the strategies within existing treatment will be presented along with sample handouts that can be modified to fit treatment goals. Adaptations to address client diversity will be discussed.

At the end of this session, the learner will be able to:

- Conceptualize dysregulated behaviors with empirically supported methods.
- Integrate evidenced-back strategies to improve treatment engagement in clients with dysregulated behavior(s).
- Describe strategies to address common treatment obstacles (homework noncompliance, missed sessions, ambivalence about treatment, etc.). Customize strategies and techniques to fit diverse client needs and treatment plans.

**Recommended Readings:** Wupperman, P. (April 2019). Treating Impulsive, Addictive, and Self-Destructive Behaviors: Mindfulness and Modification Therapy. New York, NY: Guilford Press. <https://www.guilford.com/books/Treating-Impulsive-Addictive-and-Self-Destructive-Behaviors/Peggilee-Wupperman/9781462538836> Arkowitz, H., Miller, W. R., & Rollnick, S. (Eds.). (2015). Motivational interviewing in the treatment of psychological problems. Guilford Publications. Wupperman, P., Gintoft-Cohen, M., Haller, D.L., Flom, P., Litt, L.C., & Rounsaville, B.J. (2015). Mindfulness and Modification Therapy for behavior dysregulation: A comparison trial focused on substance use and aggression. *Journal of Clinical Psychology*, 71, 964-978.

**Marquis Salon B, Marquis Level**

## **Panel Discussion 17**

# **Telehealth and mHealth: Innovations and Challenges in Clinical and Research Applications Across Private Sector, VA, and DoD Settings**

**MODERATOR:** *Jessica Stern, Ph.D.*, NYU Langone Health  
Steven A. Cohen  
Military Family Clinic

**PANELISTS:** *Ariane Ling, Ph.D.*, NYU Langone Health  
Steven A. Cohen  
Military Family Clinic

*Gina Raza, Ph.D.*, Puget Sound Healthcare System; Virginia  
Tech-Carilion School of Medicine

*Jessica Watrous, Ph.D.*, Naval Health Research Center

**Earn 1.5 continuing education credits**

Primary Category: Military and Veterans Psychology

Key Words: *Military, Veterans, Technology / Mobile Health*

Use of technology has become an increasingly large part of mental health treatment, dissemination, and research. Use of technology through telehealth services and mHealth applications has become an important tool particularly amongst the military and Veteran community, an underserved population; reasons include, the international spread of military personnel, physical and psychological limitations for in-person attendance, increased demand and geographical limitations to healthcare settings, among others. With increased use of technological advancements in research and clinical practice come ethical

and logistical considerations and challenges. The panelists represent individuals involved in research and/or clinical practice for servicemembers and Veterans in the primary sectors involved in military health: Dr. Watrous, a civilian contractor conducting research with a Department of Defense (DoD) research command in San Diego, Dr. Raza, a VA clinician at VA Puget Sound Healthcare System, and Dr. Ling, a clinician in a private sector military mental health clinic at NYU Langone Health.

Dr. Watrous will discuss the importance of using telehealth and mHealth for treatment and research with the military population given their global reach. She will explore how electronic data collection strategies, mHealth, and telehealth, will allow for increased study beyond the catchment area of San Diego, including those stationed abroad. Additionally, she will share challenges faced in implementing these strategies. Dr. Raza will discuss how telehealth has been used across the West Coast Veteran population within the VA. Additionally, she will explore programmatic and logistical challenges, as well as ethical considerations. Furthermore, she will discuss the use of VA applications in treatment. Dr. Ling will discuss considerations in providing telehealth to Veterans in the community. She will focus on the use of telehealth for higher-risk individuals, including those with Dual Diagnosis presentations, an area yet to be explored more widely clinically and in research. She will discuss clinical and ethical considerations, as well as logistical challenges in applying telehealth services for less-explored and higher-risk indications.

**Panel Discussion 27****Expanding the Reach of CBT Through Community, Industry, and Neuroscience Partnerships**

MODERATOR: *Angela Fang, Ph.D.*, Massachusetts General Hospital/Harvard Medical School

PANELISTS: *Cassidy A. Gutner, Ph.D.*, Boston University School of Medicine

*Amanda Baker, Ph.D.*, Massachusetts General Hospital/Harvard Medical School

*Stephen Schueller, Ph.D.*, University of California, Irvine

*Sabine Wilhelm, Ph.D.*, Harvard Medical School;  
Massachusetts General Hospital

*Philippe R. Goldin, Ph.D.*, University of California, Davis

**Earn 1.5 continuing education credits**

Primary Category: Dissemination & Implementation Science

Key Words: *Neuroscience, Technology / Mobile Health, Industry*

Although cognitive behavioral therapy (CBT) is widely recognized as an effective psychological treatment for multiple clinical conditions, meta-analyses consistently indicate that approximately 50% of patients do not achieve remission during CBT. The convention theme this year promotes new partnerships to expand the impact of CBT through improved service delivery and translation from related disciplines such as technology and neuroscience. Designed to address diverse approaches to improve CBT outcomes, this panel discussion includes panelists who are leading the effort to develop collaborations with community health systems, industry, and neuroscience partners to expand the reach of CBT outside of the traditional office-based therapeutic context. Cassidy Gutner will provide a broad perspective on implementation within the VA and through a global healthcare company. She will discuss interactions with stakeholders at multiple levels (patients, clinicians, administrators, policy makers) and community providers in providing clinical supervision. Amanda Baker will discuss interactions with companies providing both psychophysiological equipment and smartphone application companies to track CBT-related outcomes. Stephen Schueller will address the intersection of mental health and technology through his experience as Executive Director of Psyberguide, an online resource that reviews mental health apps to help individuals make informed health decisions. Sabine Wilhelm will discuss the rationale of partnering with industry sponsors to improve access to CBT, and strategies for establishing effective collaborations. Philippe Goldin will discuss leveraging findings in neuroscience to improve clinical practice and interacting with neuroscience-based apps to engage patients, clinicians, and the public in

mental health treatment. Angela Fang will moderate the discussion connecting the panelists' work to themes in clinical science.

10:30 a.m. – 12:00 p.m.

Research and Professional Development 5

The Power and Promise Individual Participant Data:  
Developing A Clinical Trial Repository for Pediatric OCD

PANELISTS: Scott N. Compton, Ph.D., Duke University  
Jennifer B. Freeman, Ph.D., Alpert Medical School of Brown University  
Kristen M. Benito, Ph.D., Bradley Hospital  
David H. Barker, Ph.D., Bradley Hasbro Children's Research Center

Earn 1.5 continuing education credits

Moderate level of familiarity with the material

Primary Category: Obsessive Compulsive and Related Disorders

Key Words: OCD (*Obsessive Compulsive Disorder*), *Clinical Trial*, *Statistics*

Individual participant data (IPD) from clinical trials provides a rich resource that can be used in conjunction with causal modeling, flexible prediction approaches from machine learning and integrative data analysis to help personalize patient recommendations. This workshop will have three core presentations: 1) a summary of current clinical trial evidence in Pediatric OCD, 2) an introduction to the concepts and assumptions undergirding analyses utilizing IPD including a survey of analytic methods and worked examples, and 3) breakout groups that will discuss working documents provided by the presenters focused on practical aspects of building a clinical trials repository. The breakout groups will include the following: i)ethics and by-laws (e.g., confidentiality, access to the repository, publication rules and guidelines, data use agreements), ii) scientific guidance (e.g., prioritize research and clinical questions that can be addressed by the repository, identify prognostic indicators of the outcome, identify theoretically meaningful treatment modifiers), and iii) data curation (e.g., outreach efforts to principal investigators, quality assurance efforts, strategies to overcome barriers to obtaining IPD data). Results of the breakout groups will be used to inform the development of a clinical trials repository in pediatric OCD. Participants will leave with a better understanding of what is known about pediatric OCD treatment, of state-of-the-science analytic approaches to IPD, and of the practical challenges and possible solutions to building a clinical trial repository.

At the end of this session, the learner will be able to:

- Identify evidence gaps in pediatric OCD that can be addressed using IPD from clinical trials
- Articulate the assumptions undergirding analysis of IPD.

- Identify current approaches to IPD analysis. Participants will be able to Understand the process of building a clinical trials repository.

## Spotlight Research 2

# Toward a Dimensional Taxonomy of Perseverative Thought

CHAIR: *Kiara R. Timpano, Ph.D.*, Department of Psychology;  
University of Miami

Panelist: *Lauren Hallion, Ph.D.*, University of Pittsburgh

PRESENTERS: *Aidan Wright, Ph.D.*, University of Pittsburgh  
*Marc Coutanche, Ph.D.*, University of Pittsburgh  
*Jutta Joormann, Ph.D.*, Yale University  
*Susan Kusmierski, B.A.*, University of Pittsburgh  
*M. Kathleen Caulfield, B.A.*, University of Pittsburgh

**Earn 1.5 continuing education credits**

Primary Category: Transdiagnostic

Key Words: *Transdiagnostic, Anxiety, Methods*

Perseverative thought (PT), sometimes called negative repetitive thought, is a transdiagnostic mechanism and defining feature of several major psychological disorders (American Psychological Association, 2013; Watkins, 2008). Although transdiagnostic models

of PT have gained popularity (Ehring & Watkins, 2008; Hallion, Wright, Coutanche, Joormann, & Kusmierski, invited submission), PT remains overwhelmingly conceptualized in terms of subtypes (e.g., worry; obsessions; rumination; intrusive memories). These subtypes are defined, with varying degrees of consistency, on the basis of underlying features such as temporal orientation, ego-dystonicity, and valence.

The taxonomies that are used to classify PT have far-reaching implications. A clinician's decision to classify a thought as an "obsession" versus a "worry," for example, has a major impact on diagnosis, case conceptualization, and treatment. This talk reviews the current state of the science on the classification of PT, bridging historical perspectives and new insights from clinical neuroscience, quantitative modeling, and clinical practice. Longstanding assumptions about the latent structure of PT (e.g., the existence of discrete, mutually-exclusive subtypes) are identified and challenged, and an empirically-derived, fully-dimensional taxonomy is introduced (Hallion et al., invited submission). Using multi-level modeling and machine learning approaches, data suggest that the underlying features of PT naturally covary in terms of five robust dimensions, which outperform a categorical (subtype) model in terms of fit, replicability across samples, and explanatory power (Hallion et al., invited submission). Current studies using functional neuroimaging (Caulfield et al., in progress) and cognitive experimental tasks (Hallion, Kusmierski, & Caulfield, in prep) provide preliminary multimodal support.

During discussion, special attention is paid to potential implications for diverse stakeholders of a shift toward a dimensional taxonomy of PT. Future directions for research are discussed with deference to the superordinate goal of clinical utility, including issues of dissemination and implementation.

At the end of this session, the learner will be able to:

- Identify important underlying features for defining and distinguish between traditionally-defined subtypes of PT.
- Describe some ways that advanced quantitative methods have furthered our understanding of PT.
- Discuss the potential implications, benefits, and drawbacks for diverse stakeholders of implementing a dimensional model of PT.

## Cognitive Behavioral Therapy for Body Dysmorphic Disorder

*Fugen Neziroglu, Ph.D., ABPP, Bio Behavioral Institute*

**Earn 2 continuing education credits**

Moderate to Advanced level of familiarity with the material

Primary Category: Obsessive Compulsive and Related Disorders, Treatment- CBT

Key Words: *Body Dysmorphic Disorder, CBT, Treatment*

Body Dysmorphic Disorder (BDD) is classified under obsessive-compulsive spectrum disorders due to its many shared similarities with OCD, including preoccupations associated with engagement in safety behaviors. Patients with BDD have a perceived or imagined defect in their physical appearance, and may engage in behaviors such as mirror gazing, camouflaging, ruminating, skin picking, intense social comparison, and needless dermatological treatment or cosmetic surgery. Though there has been a surge of effective pharmacological and cognitive behavioral treatments in the past 10 years, BDD is still underrecognized and often misdiagnosed. This seminar will begin with a review of the theoretical and empirical models of the psychopathology of and treatment for BDD. It will continue with discussion of and practical instruction on strategies to mitigate symptoms,

such as image re-scripting, attentional training, habit reversal, and exposure and response prevention. Through recent and ongoing research, our ability to treat and recognize BDD has dramatically improved our ability to alleviate a significant amount of the poor quality of life and social isolation that many patients with BDD experience. This seminar will capitalize on these recent improvements through the emphasis of new cognitive and behavioral treatment strategies for this challenging disorder.

At the end of this session, learners will be able to:

- Recognize and diagnose body dysmorphic disorder.
- Identify cognitive behavioral models of BDD and the factors that maintain symptoms.
- Utilize treatment strategies as well as strategies for engagement and change.

**Recommended Readings:** Allen, A. (2006). Cognitive-behavioral treatment of body dysmorphic disorder. *Primary Psychiatry*, 13(7), 70-76. Neziroglu, F., Bonasera, B., & Curcio, D. (2018). ## **A Transdiagnostic Approach to Exposure-Based Treatment: A Memory-Centric Perspective**

*Mark Powers, Ph.D., Baylor Scott & White Health*  
*Michael W. Otto, Ph.D., Boston University*  
*Jasper Smits, Ph.D., University of Texas at Austin*

**Earn 3 continuing education credits**

Basic level of familiarity with the material

Primary Category: Adult Anxiety, Treatment- CBT

Key Words: *Treatment, Exposure, Anxiety*

Exposure-based treatments are often disseminated in the context of manualized protocols, and these protocols may have the unwitting effect of drawing attention away from

SATURDAY

the core principles of change that underlie the effect exposure therapy. This workshop is designed to provide a personalized and transdiagnostic approach to thinking through exposure therapy in a way that integrates the latest research in extinction and memory processes. Exposure will be discussed as an active learning process that must be integrated into existing (fear) memory structures. Specific strategies for conceptualizing exposure targets and delivering exposure learning interventions will be emphasized. The goal is to help clinicians enact especially individualized exposure treatments that flexibly move between specific fear targets and exposure procedures.

At the end of this session, the learner will be able to:

- Develop an approach to exposure therapy based on the enactment of core principles of therapeutic change rather than protocols/strategies.
- Plan exposure strategies that can engage the core therapeutic change mechanisms across diagnostic subtypes
- Evaluate the role of contexts in case formulations and exposure planning. Integrate exposure planning with perspectives from cognitive science.

### Earn 3 continuing education credits

Basic to Moderate level of familiarity with the material

Primary Category: Treatment - Mindfulness & Acceptance, Workforce Development/Training/Supervision

Key Words: ACT (*Acceptance & Commitment Therapy*), *Training / Training Directors, Education and Training*

Applying experiential techniques to oneself, as a process of learning ACT, has always been an essential and valued component of ACT training. The culture of deeply personal and emotional work in workshop and supervision settings is deeply valued in the ACT community. Despite this, therapists' self-practice and self-reflection (SP/SR) has rarely been explored and elaborated upon in a systematic way. The presenters will draw upon the significant and growing literature on therapists' self-reflection and self-practice established by James Bennett Levy and colleagues in the context of cognitive-behavioral training and will provide an introduction to an organized and user-friendly approach to developing self-practice in ACT. Participants will learn and directly experience a new way of furthering their mastery of ACT and the psychological flexibility model, through cultivating a rigorous and evidence-based personal practice.

At the end of this session, the learner will be able to:

- Explain and apply an ACT-consistent program for therapists' personal and professional development through self-practice of ACT and self-reflection.
- Summarize at least three key findings from the literature on self-practice and self-reflection in psychotherapy training.

- Apply ACT methods to their own personal issues, enhancing their psychological flexibility and self-care through deliberate and systematic ACT work with themselves as the therapeutic instrument and object of intervention.

**Recommended Readings:** Tirsch, D.T., Silberstein-Tirsch, L. R., Codd, III, R.T., Brock, M. J. & Wright, M.J. (2019). *Experiencing ACT from the Inside Out: A Self-Practice/Self-Reflection Workbook for Therapists* (Self-Practice/Self-Reflection Guides for Psychotherapists). The Guilford Press. ## Workshop 15

ticket

## Means Safety Counseling for Suicide Prevention

*Craig J. Bryan, ABPP, Psy.D., National Center for Veterans Studies*

**Earn 3 continuing education credits**

Basic level of familiarity with the material

Primary Category: Suicide and Self-Injury

*Key Words: Suicide, Aggression / Disruptive Behavior / Conduct Problems, Clinical Utility*

Means safety counseling, also referred to as means restriction counseling, entails assessing whether an individual at risk for suicide has access to a firearm or other lethal means for suicide, and working with the individual and their support system to limit their access to these means until suicide risk has declined. Of the many interventions and strategies developed to prevent suicide, means restriction has garnered the most empirical support and is one of the only intervention that has consistently led to reductions in suicide across diverse samples and populations. Although means safety has long been considered an important component of clinical work with suicidal patients, clear guidance and recommendations for discussing means safety with patients has only recently emerged. This presentation will provide an overview of the means safety counseling approach used in brief cognitive behavioral therapy for suicide prevention (BCBT), with a particular focus on firearm safety. This workshop provides practical suggestions and tips for navigating conversations about firearm safety with high-risk patients, and includes skills training with feedback.

At the end of this session, the learner will be able to:

- Identify the key assumptions that underlie means safety counseling.
- Describe the evidence supporting means restriction for suicide prevention.
- Identify the three core assumptions of means safety counseling.
- Identify common barriers to means safety counseling.
- Use effective clinical strategies to increase an individual's willingness to enact firearm safety procedures.

**Recommended Readings:** Britton, P. C., Bryan, C. J. , & Valenstein, M. (2016). Motivational interviewing for means restriction counseling with patients at risk for suicide. *Cognitive and Behavioral Practice*, 23(1), 51-61. Bryan, C. J. , Stone, S. L. , & Rudd, M. D. (2011). ## Workshop 16

**ticket**

## Case Formulation and Treatment Planning in Dialectical Behavior Therapy

Shireen L. Rizvi, *Ph.D.*, ABPP, Rutgers University  
Jennifer Sayrs, *Ph.D.*, Evidence Based Treatment Centers of Seattle

**Earn 3 continuing education credits**

Moderate level of familiarity with the material

Primary Category: Treatment - CBT

Key Words: DBT (*Dialectical Behavior Therapy*), Adherence, Borderline Personality Disorder

Dialectical Behavior Therapy (DBT) is a complex cognitive-behavioral treatment designed for a population with multiple problematic and high-risk behaviors. As with any behavioral treatment, the role of assessment in DBT is critical. Although there is a significant body of research supporting the efficacy of DBT, there is a relative dearth of practical

SATURDAY

and principle-based information that help therapists formulate cases and treatment from a DBT perspective. In this workshop, we will provide a step-by-step guide for creating an assessment-driven DBT case formulation. We will focus on identifying stage of treatment, determining goals, identifying the target hierarchy, assessing and treating the primary target behavior, and tracking outcomes. We will highlight the few rules that inform DBT assessment and practice, note and correct several common misconceptions, and demonstrate how the use of thorough assessment can result in a more nuanced case formulation and ultimately, a more effective treatment. Experiential exercises and case examples will be utilized to bring the principles to life. This workshop is designed for clinicians with some direct clinical experience conducting DBT; basic DBT principles will not be reviewed.

At the end of this session, the learner will be able to:

- Identify the key principles that inform case formulation in DBT.
- Describe a seven-step process of generating a DBT case formulation and treatment plan.
- Assess key variables in order to create an idiographic case formulation.

**Transforming the Lives of Children, Parents,  
and Communities: Accomplishments and Future  
Opportunities**

*Matthew Sanders, Ph.D., The University of Queensland*

**Earn 1 continuing education credit**

Primary Category: Parenting / Families

Key Words: *Parenting, Prevention*

MATTHEW  
SANDERS

This presentation argues that the field of evidence-based parenting support using social learning and cognitive-behavioral principles has made a major contribution to the mental health and well being of children and young people. Of all the potentially modifiable risk and protective factors associated with poor developmental outcomes, none are more important than the quality interactions between parents and children. However, the approach has vast untapped potential to address a much larger range of diverse problems experienced by families in raising their children. The emergence of a population approach combined with ongoing applications for a much wider range of child and adolescent problems has shown the application of core principles to highly effective, flexibly tailorable, and culturally acceptable in a wide range of cultural and socioeconomic contexts around the world. Ongoing innovations include the development of parenting interventions for anxiety disorders, pain syndromes, chronic illnesses, sibling and peer relationship problems, academic attainment, and serious mental health problems and neurodevelopmental disorders. The presentation will illustrate how the field has continued to evolve as a

population health perspective has been increasingly adopted with low-intensity, low-cost programs (in-person and online programs) with wide population reach. The principles of minimal sufficiency and “proportionate universalism” will be illustrated to show how increasing population reach can be achieved in a cost-effective manner. At the same time programs are needed for the most vulnerable children and families. Future parenting interventions should focus on promoting self-regulation skills in both adults and children. Finally, the role of parenting programs in tackling some of the world’s “wicked” problems will be discussed.

At the end of this session, the learner will be able to:

- Describe how innovations in the delivery of positive parenting principles has occurred to tackle a diverse range of child problems.
- Demonstrate an understanding of integrated, multilevel systems of evidence-based interventions to promote population-level change.
- Explain how parenting interventions continue to evolve to address the needs of contemporary parents and families in a culturally sensitive manner.

Join the editors of both Behavior Therapy and Cognitive and Behavioral Practice as they discuss ways to tailor your manuscript for their journals. The editorial team of Cognitive and Behavioral Practice, ABCT's clinically oriented journal, will discuss the mission and objectives of the journal. The team will explain the strategies to help less experienced authors get published. The session is interactive, and is designed for both junior clinicians and academics as well as more senior therapists who may be less familiar with writing and publishing in clinically oriented scientific journals. This is essential for those who have clinical techniques they'd like to share but want help in developing them into an article. The team will also discuss the new online streaming video features the journal launched and ways to better illustrate therapeutic techniques. In addition, the team will talk about the newly section on multi-media reviews. The editors of Behavior Therapy, ABCT's research journal, will talk about the strategies that will help turn a manuscript into an accepted article. The editors will highlight areas they are hoping to increase and offer tips for getting the right mix of discussion, methods, and findings. Questions are welcomed and should be the order of the day.

Research and Professional Development 6

## Developing Your Research Career: NIH Training and Career Development Funding Opportunities

PANELISTS: Ashlee Tipton, Ph.D., National Center for Complementary and Integrative Health at NIH  
Lisa Uebelacker, Ph.D., Brown University & Butler Hospital  
Christina M. Luberto, Ph.D., Massachusetts General Hospital/  
Harvard Medical School  
Ivan W. Miller, Ph.D., Brown University  
Ana M. Abrantes, Ph.D., Brown University  
Lauren Weinstock, Ph.D., Brown University & Butler Hospital  
Lanay M. Mudd, Ph.D., National Center for Complementary and Integrative Health at NIH

### Earn 1.5 continuing education credits

Basic level of familiarity with the material

Primary Category: Workforce Development / Training / Supervision

Key Words: *Career Development, Research Funding, Professional Development*

Applying to the National Institutes of Health (NIH) can seem daunting to many students and early career investigators; however, a training or career development award is a great opportunity to establish a track-record of funding, obtain pilot data for future applications, and receive additional mentorship. The purposes of this panel session are to provide an overview of NIH training and career development funding opportunities, tips for successful grant submissions and review, and advice on key aspects of planning a successful research career with NIH funding. The session presenters will include a program officer at the National Center for Complementary and Integrative Health (NCCIH) at the NIH (Dr. Mudd), a scientific review officer at NCCIH (Dr. Tipton), a current K23-awardee (Dr. Luberto), and a previous K-awardee and now senior investigator with experience as an NCCIH training panel reviewer (Dr. Uebelacker). We have also invited three established investigators who have served on several NIH review panels and have experience mentoring junior faculty to participate in a mock study section and join the panel for Q&A (Dr. Miller, Dr. Abrantes, and Dr. Weinstock). Dr. Mudd and Tipton will provide an overview of funding opportunities and the NIH review process, as well as describe funding priorities at the NCCIH. Dr. Luberto will share her experience transitioning from an NCCIH T32 fellowship and applying for, receiving and starting her K-award. Dr. Uebelacker will discuss her transition from her K-award to subsequent R-level funding, as well as her experience reviewing training applications. Each presenter will provide their unique perspective about how to make successful early career transitions and how to secure NIH

funding. A mock study section will be used to illustrate key strengths and weaknesses commonly discussed when reviewing K applications. There will be ample opportunity for questions and answers during the session. Overall, the session will focus on developing a successful research career plan with NIH funding.

At the end of this session, the learner will be able to:

- Understand NIH career development funding opportunities and the application review process.
- Become familiar with NCCIH funding priorities for mindfulness and acceptance-based approaches.
- Be able to develop a successful research career plan that links different NIH funding opportunities to different stages of career development.

**Earn 2 continuing education credits**

Moderate level of familiarity with the material

Primary Category: Treatment – Other, Treatment- CBT, Transdiagnostic

Key Words: *Motivational Interviewing, CBT, Motivation*

Both cognitive-behavioral therapy (CBT) and motivational interviewing (MI) based interventions have decades of empirical study and are front-line evidence-based treatment interventions for a variety of psychological and self-care treatments. Despite the strongest evidence for CBT (Hofmann, Asnaani, Vonk, Sawyer, & Fang, 2012), there are still many individuals who do not respond to treatment, do not adhere to between-session practice change tasks, discontinue treatment prematurely, or, after initial success, are unable to maintain change (Naar-King, Earnshaw, & Breckon, 2013). The use of a collaborative, guiding conversational style to strengthen a person's own intrinsic motivation and commitment for change (motivational interviewing) may be a powerful way to maximize outcomes in cognitive-behavioral treatments. There are several ways that MI can be combined with CBT. First, MI may be delivered as a brief pretreatment to build motivation for multisession intervention. Second, MI can be used at specific moments during CBT when discord or ambivalence arises. Third, MI can serve as an integrative framework in which other interventions, such as CBT strategies, could be delivered. After providing a

brief didactic presentation, this seminar will interact with participants to demonstrate and practice integrating MI with assessment and collaborative treatment planning and integrating MI with an example CBT-intervention, behavioral activation. We will end with questions and discussion.

At the end of this session, the learner will be able to:

- Describe the MI Spirit and the reinforcement of change language as the foundation for patient/client-provider interactions when conducting CBT interventions.
- Demonstrate integrating MI with collaborative assessment and treatment planning.
- Explain the use of MI to promote adherence to CBT interventions.

## **Technology & Behavior Change SIG**

The Technology and Behavior Change SIG meeting will discuss SIG business and will have members share research and clinical work relevant to the SIG focus. Members will have the opportunity to give brief presentations in a modified Ignite presentation format (5 minutes) to showcase their work using varying technologies to facilitate behavior change. Presentations can be about formal research projects or findings, work in progress, new ideas, and innovative uses of technology in clinical practice. All ABCT members are welcome to join this meeting, and we encourage all individuals with shared interest in technology and behavior change to attend and consider joining our SIG.

*Christopher R. Martell, ABPP, Ph.D., University of  
Massachusetts-Amherst*

*Elizabeth McCauley, Ph.D., University of Washington*

Earn 1.5 continuing education credits

Primary Category: Child / Adolescent - Depression

Key Words: *Depression, Behavioral Activation, Adolescents*

Recent meta-analytic research suggests that psychotherapy treatment of depression in teens is less effective than previously recognized, with effect sizes among the lowest for all psychiatric conditions in youth. Further, depression in teens is increasingly understood to be a heterogeneous condition requiring flexible and personalized psychotherapy treatments. In light of these challenges, Behavioral Activation (BA) has emerged as a promising additional strategy for supporting youth to overcome depression. In this clinical roundtable, panelists representing outpatient child psychiatry clinics and inpatient and outpatient research groups will review considerations in the flexible application of BA treatment with heterogeneous and complicated presentations of depression in teens. Panelists will review the BA model, highlighting the central role of behavioral avoidance in the onset and maintenance of depression, as well as research on the neurobiology of reward functioning in depressed teens that supports renewed interest in this approach. Case examples will illustrate how BA principles can be applied to conceptualize and guide treatment in complex presentations with comorbidities and challenging contextual factors. Panelists will also review approaches under study to optimally engage parents and support treatment with challenging populations including teens with depression and comorbid conditions. Discussion will focus on strategies to maximize the impact of treatment through in-vivo activation activities. Panelists will also discuss challenges of assessing and maintaining fidelity while applying this model flexibly according to principles rather than to a set protocol.

*Michael Southam-Gerow, Ph.D.*, Virginia Commonwealth  
University

**Earn 1.5 continuing education credits**

Primary Category: Treatment - CBT

Key Words: *Exposure, Anxiety, Treatment*

Exposure therapy is defined as any treatment that encourages the systematic confrontation of feared stimuli, which can be external (e.g., feared objects, activities, situations) or internal (e.g., feared thoughts, physical sensations) in order to reduce the person's fearful reaction to the stimulus (Kaplan & Tolin, 2011). At this time, expert consensus guidelines consider exposure therapy to be the most effective treatment for anxiety disorders, with 60% to 90% of treatment completers having either no remaining symptoms or sub-clinical symptoms. As a long considered "first-line" treatment, exposure therapy has been taught in training programs and workshops for years and, as a result, has been adopted in all of its various forms (e.g., in vivo, imaginal, interoceptive, virtual reality, etc.) into the clinical repertoire of cognitive behavioral therapists throughout the world. While our protocols and textbooks typically describe how to implement exposure therapy in a seemingly simple and straightforward manner, as many exposure therapists know firsthand, what happens in the real world is often unpredictable. Thus, fears of this unpredictability, along with concerns about crossing ethical lines and buying into the myths of exposure lead many novice therapists to be reluctant to utilize exposure therapy and, as a result, patients receive a modified version of exposure (if at all) that ironically may limit progress in therapy and also discourage patients from trying a proper course of treatment with a bona-fide exposure therapist. How often does exposure therapy not go exactly as planned? What should the therapist do in these instances or when an unanticipated issue emerges during an exposure exercise? Are there predictable challenges in conducting exposure therapy that can be prophylactically addressed? Is there an ethical line that should not be crossed when engaging in exposure? Is there any validity to some of the myths about exposure?

These questions, along with any other questions the audience members may have, will be answered by four master clinicians (Anne Marie Albano, Marty Franklin, Michael Southam-Gerow, and Maureen Whittal) with decades of experience in conducting exposure therapy with children, adolescents, and adults.

**Clinical Roundtable 13**

**Psychologists in Pediatric Medical Settings: Extending the Reach of Evidence-Based Treatment**

MODERATORS: *Corinne Catarozoli, Ph.D.*, Weill Cornell Medicine, New York Presbyterian Hospital

*Rebecca Lois, Ph.D.*, New York University School of Medicine

PANELISTS: *Lara Brodzinsky, Psy.D.*, Hassenfeld Children's Hospital at NYU Langone

*Laura Reigada, Ph.D.*, City University of New York, Brooklyn College and the Graduate Center

*Christopher Smith, Ph.D.*, Samaritan Family Medicine

*Joslyn Kenowitz, Ph.D.*, Nemours/A.I DuPont Hospital for Children

**Earn 1.5 continuing education credits**

Primary Category: Health Psychology / Behavioral Medicine - Child

Key Words: *Behavioral Medicine, Health Psychology, Integrated Care*

This clinical round table aims to both illustrate the benefits of psychologists providing evidence-based treatment in pediatric medical settings, as well as discuss realistic implementation of these positions. A significant research base has demonstrated the value of extending psychological services within the medical setting as a means to improve health outcomes, reduce unnecessary healthcare utilization, and improve patient experience. As a result, healthcare systems are increasingly employing psychologists, in turn increasing access to care for individuals with a wide range of health problems across diverse populations. The shift to this more comprehensive behavioral health model requires multidisciplinary collaboration. Accordingly, the role of psychologist in these settings expands beyond providing direct service as a clinician to include consultant, educator, supervisor, and trainer. Oftentimes, pediatric psychologists are the first mental health provider with which families interface and can offer important education on the role of non-pharmacological treatment of various medical issues (i.e., pain). Operating from this behavioral health framework offers an integrative and individualized approach to healthcare, as it conceptualizes and addresses mental and physical aspects to health, two domains that have historically been separated. The panelists in this clinical round table represent a wide

range of pediatric medical settings including outpatient, inpatient consultation-liaison, primary care, and specific medical divisions of pediatric gastroenterology and endocrinology. Several frameworks of how psychologists are integrated and practice in medical settings will be presented and panelists will discuss optimal models (consultation, co-location, integrated care) for various behavioral health problems. This panel will heavily focus on implementation and coordinated care among a multidisciplinary team, including discussion on facilitating communication between medical and psychiatric providers, as well as issues including funding, insurance, and billing. Presenters will offer pragmatic guidance on overcoming operational challenges and areas for future direction.

### **Mini Workshop 16**

## **Using Digital Tools to Facilitate Cognitive-Behavioral Therapy for Insomnia Treatment With Veterans**

*Carolyn J. Greene, Ph.D., VA*

*Christi S. Ulmer, Ph.D., VA Center of Innovation; Duke University School of Medicine*

*Katherine E. Miller, Ph.D., Department of Veterans Affairs*

*Pearl A. McGee-Vincent, Psy.D., National Center for PTSD, VA Palo Alto Health Care System*

**Earn 1.5 continuing education credits**

All levels of familiarity with the material

Primary Category: Technology

Key Words: *Sleep, Technology / Mobile Health, Veterans*

The Society of Behavioral Sleep Medicine, the American Academy of Sleep Medicine, the American College of Physicians, and the National Institutes of Health recommend Cognitive Behavioral Therapy for Insomnia (CBT-I) as the standard treatment for chronic insomnia<sup>2-5</sup>. CBT-I is highly effective in reducing not only insomnia severity, but also depression and suicidal ideation. This workshop will describe and demonstrate digital tools developed by the Department of Veterans Affairs (VA) to facilitate CBT-I delivery and access and will provide pragmatic clinical implementation strategies and resources. Although these tools were developed with Veterans in mind, they are publicly available and can be used with any adult population. CBT-i Coach<sup>6</sup> is a free mobile app that facilitates delivery of CBT-I for those engaged in face to face treatment with a trained provider. The app provides users with a convenient and easy-to-use sleep diary, customizable reminders, educational content, and additional tools like relaxation exercises. CBT-I trained

clinicians have reported favorable impressions of its impact on homework adherence and outcomes. 7 Research has shown that CBT-I can be effectively delivered by self-help workbooks, computers, and/or mobile apps.<sup>8-10</sup> The VA developed Path to Better Sleep<sup>11</sup>, a free online program that contains all the components of CBT-I, to help reach the many Veterans who would benefit from CBT-I. Path to Better Sleep can be used independently as a self-help tool, or in conjunction with clinician support. Presenters will provide participants with skills and resources to integrate CBT-I Coach and Path to Better Sleep into clinical practice. The workshop will include demonstration, lecture, and discussion of clinical considerations, including privacy and risk issues. Presenters will assume a knowledge of CBT techniques. We anticipate that this workshop will be relevant to a broad audience of clinicians whose patients struggle with insomnia.

At the end of this session, the learner will be able to:

- Describe how free digital CBT-I resources such as Path to Better Sleep or CBT-i Coach meet an important public health need.
- Describe how these resources can be used with Veterans, either as adjuncts to treatment or as recommendations for self-care.
- Identify three client-centered considerations to take into account when integrating technology into clinical care.

**Panel Discussion 4****So You Want to Train People From Different Professions in CBT... Now What?**

MODERATOR: *Barbara Kamholz, ABPP, Ph.D., VA Boston HCS & BU School of Medicine*

PANELISTS: *Pooja Dave, N/A, Ph.D., CHA/Harvard Medical School*  
*Cory F. Newman, ABPP, Ph.D., Perelman School of Medicine at the University of Pennsylvania*  
*Gail Steketee, Ph.D., Boston University*  
*Shona N. Vas, Ph.D., The University of Chicago*

**Earn 1.5 continuing education credits**

Primary Category: Treatment - CBT

Key Words: *Education and Training, CBT, Supervision*

The importance of disseminating cognitive-behavioral therapies (CBT) is widely acknowledged (e.g., Becker & Wiltsey-Stirman, 2011; Chorpita et al., 2011), with a portion of that attention focused on traditional clinical education and training (e.g., Kamholz et al., 2014). If CBT is going to permeate the healthcare field, training must go beyond psychology programs to meaningfully include social work, psychiatry, and primary care, among others. It is therefore unsurprising that major CBT-oriented organizations, such as ABCT, ADAA, and ISTSS note the importance of interprofessional CBT education (e.g., Kamholz et al., 2014), and aim to attract mental health (and other healthcare) professionals from a broad range of backgrounds and disciplines to their membership and meetings. Unfortunately, CBT experts typically do not have formal guidance in interprofessional training and may struggle to translate psychology-centric education to a broader range of learners. Furthermore, the American Psychological Association, Accreditation Council for Graduate Medical Education, and Council on Social Work Education offer little specific direction to inform these issues. Panelists include CBT educators with decades of experience training a range of students and professionals in evidence-based psychotherapies. They will discuss (1) the ways in which background education and philosophy of training affects CBT training, (2) considerations for “must have” topics for CBT curriculum development and clinical training (across basic and more advanced experiences), (3) strengths/challenges of different professions for CBT training and how to have/set appropriate expectations for training, and (4) assessment of competencies.

**Atrium Ballroom A, Atrium Level****Panel Discussion 18****Successful Career Paths For the Scientist-Practitioner: A “Branching Pipeline” Approach to Retaining Women in Clinical Psychology**

MODERATOR: *Jennifer W. Malatras, Ph.D.*, University at Albany, State University of New York

PANELISTS: *Julia M. Hormes, Ph.D.*, University at Albany, State University of New York

*Ilana R. Luft, Ph.D.*, St. Louis Children’s Hospital, Washington University School of Medicine

*Julie N. Morison, Ph.D.*, HPA/LiveWell

*Julie L. Ryan, Ph.D.*, William James College

*C. Alix Timko, Ph.D.*, University of Pennsylvania

**Earn 1.5 continuing education credits**

Primary Category: Professional/ Interprofessional Issues

Key Words: *Professional Issues, Professional Development, Women’s Issues*

Receiving a doctorate in Clinical Psychology prepares the Scientist-Practitioner for diverse roles, responsibilities, and career paths, yet the predominant culture of the field is to dichotomize the pipeline of career development (e.g., academic vs. clinical). Moreover, while there has been significant progress toward equal representation of women in the workplace, gender disparities persist, contributing to pipeline leakage. One related systemic barrier to pipeline progression is the relative dearth of systemic training, mentorship, and knowledge about the variety of career options both available and emerging and how to successfully navigate career transitions (Kaslow et al., 2018). These barriers may be particularly salient for women who remain underrepresented in more traditional pathways and who may be underprepared to explore alternative routes.

In line with this year’s conference theme, *Extending the Social Impact of Cognitive Behavioral Science*, this panel will take a step to shift the culture of career development, embracing the concept of a branching pipeline to successfully retain more women in the field. Specifically, the panel seeks to legitimize and provide knowledge about multiple professional pathways in the field of clinical psychology by bringing together early- and mid-career women psychologists from a variety of career paths for a discussion of career options and trajectories. Collectively, the panelists have experience as cognitive-behavioral psychologists in a range of settings, including tenure- and non-tenure track doctoral program faculty, university-based clinical faculty, hospital-based clinical and research faculty, and private practice. Panelists will discuss how and why each have made different career

choices, how they integrate science and practice, and how they strive to achieve work-life balance in each career setting. Audience participation and questions are encouraged.

2:30 p.m. – 4:00 p.m.

Panel Discussion 19

**Levering Technology to Support Personalized care:  
Applying User-centered Design, Citizen Science, and  
Machine Learning Algorithms to Digital Interventions**

MODERATOR: *Stephen Schueller, Ph.D., University of California, Irvine*

PANELISTS: *Adrian Aguilera, Ph.D., University of California, Berkeley*

*Naomi Pollock, DSW, LCSW, AbleTo*

*Lauren A. Rutter, Ph.D., McLean Hospital/Harvard Medical School*

Earn 1.5 continuing education credits

Primary Category: Program / Treatment Design

Key Words: *Technology / Mobile Health, Behavioral Medicine, Assessment*

As digital behavioral health interventions become widely developed and implemented, personalization is emerging as a key element to ensure broad scale effectiveness. Deep knowledge of the user is required to support personalization. This knowledge can be obtained through a wide range of methods, including user-centered design principles, citizen science, and machine learning algorithms. The selection of methodology depends on aspects of care delivery such as the type of intervention, the user, the technology, and the treatment. Panelists from research and private industry were selected to discuss the process of personalization, applying these methods in both assessment and intervention. We will first discuss how a user-centered design process can be employed to increase therapist adoption of personalized assessments and interventions. We will also review how citizen science can inform assessment. Lastly, we will discuss examples of the use of machine learning algorithms to personalize interventions. We will discuss the pros and cons of these various approaches, offering insights about personalization across populations and intervention modalities. We will also discuss the intervention implementation process, how to incorporate continuous feedback into a digitally-delivered intervention, and discuss some strengths and limitations of personalized care delivery.

SATURDAY

## Spotlight Research 3

**Training Family and Caregivers in CBT for Psychosis-Informed Skills Within the Context of a CBTp Provider Network**

- CHAIR: *Sarah L. Kopelovich, Ph.D., University of Washington School of Medicine*
- Presenter: *Samantha Davis, BFA, University of Washington*
- PANELISTS: *Bryan Stiles, M.A., University of Washington School of Medicine*  
*Marie Monroe-DeVita, Ph.D., University of Washington*  
*Kate Hardy, Ph.D., Stanford University*  
*Doug Turkington, M.D., Newcastle University*

**Earn 1.5 continuing education credits**

Primary Category: Schizophrenia / Psychotic Disorders

Key Words: *Psychosis / Psychotic Disorders, Parent Training, Underserved Populations*

CBT for psychosis (CBTp), an evidence-based treatment for schizophrenia spectrum disorders, emphasizes integration of family members in the treatment course, yet these recommendations are discordant with common practice. Psychosis REACH (Recovery by Enabling Adult Carers at Home) is a training for family members and caregivers in CBTp-informed principles and skills. A pilot study of Psychosis REACH, conducted in the UK and Canada, demonstrated the feasibility of training adult caregivers in this intervention. Improvements in caregiver mental health across time, including significantly less psychological distress and negative appraisal of caregiving circumstances at follow-up, were reported. This investigative team offered a one-day Psychosis REACH training for the first time in the United States to a self-selected sample of 225 family members of individuals with a psychotic spectrum disorder in Washington State. A smaller intensive three-day training with follow-on consultation was delivered to a subsample of 30 family members selected with the assistance of a local Family and Caregiver Advisory Board to function as family peer supports in the state. Family members were referred from agencies that comprise Washington State's CBTp Provider Network, as well as by those without CBTp-trained providers. Participants completed measures of positive and negative caregiving experiences, self-perceived psychological distress, attitudes toward or interactional style with their loved one with psychosis, and attitudes toward psychosis prior to the training, immediately after completing the training, and 4 months post-training. This presentation will report on the findings of the initial training and 4-month follow-up, will discuss the opportunities and challenges of training adult caregivers in CBTp skills, and will consider the potential for extending care to an underserved population through this novel training approach.

At the end of this session, the learner will be able to:

- Recognize the challenges in current approaches to caregiver engagement for families of individuals with psychosis.
- Describe the impact of evidence-based family-focused interventions on caregiver mental health and engagement.
- Delineate the feasibility and acceptability of implementing short-term CBT interventions in caregiver populations.

networking  **Embassy D, Embassy Level, Hyatt Regency Atlanta**

## **Clinical Psychological Science SIG**

This is the first meeting of the Clinical Psychological Science SIG. We will allow new members to meet one another, develop a mission statement, as well as plan for governance of the SIG.

SATURDAY

Clinical Grand Round 2

## Virtual Reality Exposure Therapy For PTSD: Demonstrations of Imaginal Exposure With and Without Virtual Reality

CHAIR: Andrew M. Sherrill, Ph.D., Emory University School of  
Medicine

PANELISTS: Barbara Rothbaum, Ph.D., Emory University School of  
Medicine

Laura A. Loucks, Ph.D., Emory University School of Medicine

Mark S. Burton, Ph.D., Emory University School of Medicine

Jessica R. Goodnight, Ph.D., Emory University School of  
Medicine

Earn 1.5 continuing education credits

Primary Category: Trauma and Stressor Related Disorders and Disasters

Key Words: PTSD (Posttraumatic Stress Disorder), Prolonged Exposure, Technology /  
Mobile Health

ANDREW  
SHERRILL

BARBARA  
ROTHBAUM

LAURA  
LOUCKS

JESSICA  
GOODNIGHT

Prolonged exposure (PE) is a trauma-focused intervention for posttraumatic stress disorder (PTSD) with extensive efficacy in diverse populations and trauma types. The active components of PE are imaginal exposure to the patient's memory of their index trauma and *in vivo* exposure to trauma-related stimuli and situations. Most patients effectively respond to conventional imaginal exposure; however, a significant minority of patients do not benefit. Conventional imaginal exposure can include several barriers including difficulty with imaginal visualization, subtle cognitive avoidance strategies (e.g., distraction, minimization), and limited clinician control. By providing a multisensory experience (e.g., sights,

sounds, smells), virtual reality exposure therapy (VRE) is one method designed to help combat these barriers and help patients access and engage their trauma memories more effectively. VRE for PTSD builds upon the theory, methods, and strong evidence-base of PE. In VRE, imaginal exposure to the trauma memory is conducted with the eyes open. As the patient verbally recounts the trauma, the clinician manipulates the virtual environment to match the memory's context (e.g., hotel room, city market) and sensory stimuli (e.g., sound of incoming mortars, smell of smoke). In 1999, Dr. Barbara Rothbaum and colleagues published the first study on VRE for PTSD. Now, twenty years later, the cost of virtual reality technologies has dramatically decreased, making VRE widely accessible to clinicians. The aim of this Clinical Grand Round is to demonstrate the use of imaginal exposure with and without virtual reality to help audience members understand the potential advantages of VRE and illustrate the competencies necessary to conduct VRE. Drs. Loucks and Burton will introduce the session and provide a brief background on the theory, evidence, and implementation of VRE. Next, one mock patient (Dr. Goodnight) will be used for demonstrations by two clinicians. Dr. Sherrill will demonstrate conventional imaginal exposure and Dr. Rothbaum will demonstrate how virtual reality is used in imaginal exposure. The mock patient will report the same trauma memory for both demonstrations. After the demonstrations, all presenters will answer audience questions.

At the end of this session, the learner will be able to:

- Describe how virtual reality exposure therapy is used for PTSD.
- Discuss potential advantages of using virtual reality for imaginal exposure to trauma memories.
- List prerequisites to implementing virtual reality exposure therapy for PTSD.

**Clinical Roundtable 14****Athlete Mental Health: Strategies for Engaging Stakeholders in Identification and Treatment**

MODERATOR: *Christopher Stanley, Ph.D., Florida Gulf Coast University*

PANELISTS: *Katherine Rovtar, Clemson University*

*Bailey J. Nevels, Ph.D., Clemson University*

*Ashley Brauer, Ph.D., The Victory Program at McCallum Place*

*Diana Rancourt, Ph.D., University of South Florida*

**Earn 1.5 continuing education credits**

Primary Category: Global Mental Health

Key Words: *Global Mental Health, Underserved Populations, Integrated Care*

Mental health issues in athletic contexts are often under-identified and under-treated due to several factors. Athletes may be hesitant to disclose mental health difficulties due to concerns related to stigma, reduced playing time, or scholarship. Athletics staff may be wary of assessing mental health due to potential for high performing athletes to be removed from competition. Recent policy changes have attempted to address these issues. For example, the NCAA provides educational resources about student-athlete mental health, including a model of care. This has prompted some universities to generate athlete wellness protocols, inclusive of mental health concerns. Athletic trainers (ATs) and Sport Psychology (SP) professionals, who share a collective role in managing and preserving athlete wellness and are often the first line of intervention with athlete mental health issues, have helped generate and employ these protocols. However, many SP professionals may be more performance-oriented, and are not necessarily clinically trained. Nonetheless, performance interventions often stem from cognitive-behavioral skills, and brief cognitive behavioral interventions have potential to target identified mental health concerns in the often limited time available.

The interdisciplinary clinical roundtable panel will include professionals with extensive experience relevant to mental health. Two researchers will discuss research findings and barriers to obtaining athlete mental health data; an AT with experience in university and elite settings will discuss protocols and how to balance demands from competing stakeholders; a licensed psychologist working with college athletes will discuss common concerns, effective CBT interventions, and multidisciplinary collaboration. The moderator is a certified mental performance consultant (CMPC) and SP professional working in various contexts, including with US elite national teams.

**Clinical Roundtable 15****Practicing Cognitive Behavioral Therapy With Religious Patients From Christian, Muslim and Jewish Communities**

MODERATOR: *Amy Weisman de Mamani, Ph.D.*, University of Miami

PANELISTS: *David H. Rosmarin, ABPP, Ph.D.*, McLean Hospital/Harvard Medical School

*Shadi Beshai, Ph.D.*, University of Regina

*Jeremy Cummings, Ph.D.*, Southeastern University

**Earn 1.5 continuing education credits**

Primary Category: Spirituality and Religion

Key Words: *Spirituality and Religion, CBT, Therapy Process*

Even in this increasingly secular age, more than eight in ten people worldwide identify with a religious group, including 2.2 billion Christians, 1.6 billion Muslims, and 14 million Jews (Pew Research Center, 2010). Yet, spiritual and religious issues are often ignored in the practice of Cognitive Behavioral Therapy (CBT). A recent study of CBT practitioners (Rosmarin, Green, Pirutinsky, & McKay, 2013) found that 36% reported discomfort in addressing spiritual issues, 19% reported never/rarely inquiring about spirituality, and 71% reported little-to-no previous clinical training in this area. However, this same study also found that 47% of practitioners had interest in learning how to better address spirituality in CBT, and that previous training was significantly associated with more favorable attitudes towards spirituality and mental health (Rosmarin et al., 2013). A lack of core competencies in how to address spirituality and religion in CBT is not inconsequential in that it encumbers efforts to disseminate evidence-based treatments to communities in need. Further, recent meta-analytic findings point to potential clinical advantages to addressing spirituality/religion in the context of treatment (Smith, Bartz & Richards, 2007). To these ends, this clinical round table will focus on the multicultural application of CBT to religious patients from Christian, Muslim, and Jewish communities. We will discuss effective strategies for delivering cognitive restructuring, exposure, and other CBT techniques with religiously diverse patients. We will also discuss methods for treating common clinical presentations (e.g., scrupulosity) among adherents. Finally, we will broadly address connections between CBT theory and diverse faith systems, as well as how religious worldviews can inform CBT case conceptualization and the treatment process.

Primary Category: Couples / Close Relationships

Key Words: *Couples / Close Relationships, Families, Treatment*

Family interventions have a long tradition in the treatment of psychopathology in children and adolescents. Although interpersonal influences on various disorders and their social consequences are well researched throughout the life span, adults typically receive individually focused treatment. However, interventions that incorporate partners or other family members have frequently been shown to be more effective than individual interventions, with the most extensive evidence for mood and substance use disorders. Additionally, family-based interventions can reach beyond the index patient, with positive effects for the involved family members who suffer from high rates of caregiver burden and psychopathology. Thus, including family members when treating adults can increase the effectiveness and reach of our interventions. However, many clinicians do not feel equipped to address the complexities of involving more people in treatment, or they are unsure how to adapt their couple/family services when psychopathology is present. This clinical roundtable consists of leading researchers, clinicians, and trainers who are experts in their respective areas, which results in multiple perspectives on the central questions for this roundtable – What are the clinical challenges and opportunities for partner and fam-

ily involvement in the treatment of adult psychopathology? How can benefits for patients and family members be maximized? What are possible next steps at the level of the individual clinician, their organizations, and the broader mental health systems? The panels' combined expertise spans across disorders (depression, anxiety disorders, PTSD, OCD, eating disorders, substance use disorders, bipolar disorder), settings (Universities, VA medical centers, England's National Health Service), and populations (Veterans/civilians, rural/urban, couples/families), providing a unique synergy for an informative roundtable.

## **Clinical Roundtable 17**

### **Improving Access to CBT in Rural Canada: Challenges and Opportunities**

MODERATOR: *Amanda Lints-Martindale, Ph.D., University of Manitoba*

PANELISTS: *Amanda Lints-Martindale, Ph.D., University of Manitoba*  
*Jolene Kinley, Ph.D., University of Manitoba*  
*Shelley Goodwin, Ph.D., Dalhousie University*  
*Jennifer Richards, Ph.D., IWK Health Centre*

**Earn 1.5 continuing education credits**

Primary Category: Vulnerable Populations

Key Words: *CBT, Service Delivery, Vulnerable Populations*

The primary goal of this clinical round table is to discuss the challenges and opportunities related to the implementation of Cognitive Behavioural Therapy (CBT) in rural Canada. The traditional approach toward mental health treatment (i.e., 1:1 treatment services) may not be sufficient to address demands in Canada as there are, arguably, not enough psychologists in Canada to meet existing demand (e.g., there are an estimated 48 psychologists per 100,000 Canadians with most psychologists concentrated in urban centers; Votta-Bleeker & Cohen, 2014). Lack of access to clinical psychologists is particularly problematic in rural areas of Canada where recruitment and retention of psychologists can be challenging (Dyck & Hardy, 2013). As such, various reports have encouraged psychologists to reconceptualize how evidence based therapies such as CBT are provided within the publicly funded system, particularly within rural areas (e.g., Chodos, 2017, Peachy, 2013; 2017). In this clinical round table presentation, panelists will endeavor to shed light on this topic by discussing strategies to increase access to CBT in rural areas of Canada, including the development and implementation of CBT-based classes, implementation of interprofessional collaborative practice, and use of clinician training aimed to increase fidelity to CBT. Panelists will discuss challenges from rural areas of Manitoba and Nova Scotia from the perspectives of both private and public practice. Discussants will also highlight future directions for CBT within rural Canada.

## Mini Workshop 17

**Cognitive and Behavioral Practice With Sexual and Gender Minorities***Matthew D. Skinta, ABPP, Ph.D., Private Practice**Debra A. Hope, Ph.D., University of Nebraska-Lincoln**Jeffrey M. Cohen, Psy.D., Columbia University Medical Center***Earn 1.5 continuing education credits**

Basic level of familiarity with the material

Primary Category: LGBTQ+

Key Words: LGBTQ+

Chronic invalidation contributes to higher rates of emotional disorders in sexual and gender minorities, a population more likely to seek mental health services relative to their cisgender, heterosexual counterparts. Cognitive and Behavioral Therapies (CBTs) acknowledge the context of behavior, which allows for the consideration of negative thoughts and avoidance behaviors as potential learned responses. CBTs also offer valuable coping techniques to address unhelpful cognitions and behavior which can be used to empower sexual and gender minority people. This workshop addresses how to apply evidence-based cognitive and behavioral approaches, including traditional CBT and more recent iterations under the umbrella of Contextual Behavioral Therapies, such as Acceptance and Commitment Therapy (ACT) or Functional Analytic Psychotherapy (FAP), for work with sexual and gender minorities. We will introduce the psychological processes that contribute to emotional disorders in sexual and gender minorities such as internalized stigma, rejection sensitivity, and concealment. These unique processes warrant adaptations to standard practice. Utilizing live therapy demonstrations, we will illustrate how to adapt cognitive and behavioral techniques to address sexual and gender minority specific treatment targets. A master CBT therapist and a master ACT/FAP therapist will both provide a demonstration of a therapy session with an SGM person.

At the end of this session, the learner will be able to:

- Identify and address psychological processes unique to sexual and gender minorities in order to maximize treatment gains.
- Increase your ability to apply and adapt CBT techniques such as cognitive restructuring, exposure, and behavioral activation to sexual and gender minority specific treatment targets.
- Utilize acceptance and mindfulness-based techniques such as cognitive defusion, values clarification, and committed action for work with sexual and gender minorities.

**Recommended Readings:** Feinstein, B. A., Goldfried, M. R., & Davila, J. (2012). The relationship between experiences of discrimination and mental health among lesbians and gay men: An examination of internalized homonegativity and rejection sensitivity as potential mechanisms. *Journal of consulting and clinical psychology*, 80(5), 917. **Mini Workshop 18**

**Recovery Oriented Cognitive Therapy for Schizophrenia**

Aaron P. Brinen, *Psy.D.*, Drexel University College of Medicine

**Earn 1.5 continuing education credits**

Basic level of familiarity with the material

Primary Category: Schizophrenia / Psychotic Disorders

Key Words: *Schizophrenia, Cognitive Therapy, Recovery*

Despite the best efforts of inpatient and outpatient providers, some individuals with schizophrenia spectrum diagnoses require long-term hospital care or experience repeated hospitalization. This workshop operationalizes specific procedures that promote the recovery efforts of individuals with a schizophrenia spectrum diagnosis who are having difficulty sustaining themselves in the community. The key elements are activating schema of hope connection and success, identifying the future-oriented aspirations, promoting action toward those targets, and using the cognitive model to understand and strategize the removal of obstacles (low energy, aggressive behavior, disorganization, psychosis, self-injury) to each person’s unique recovery progress. These success experiences serve as opportunities for experiential learning to correct maladaptive beliefs. Each individual’s hidden capacities can be activated and reintegrated into the self. The workshop will be relevant to hospital and community service providers.

- At the end of this session, the learner will be able to:
- Name the three parts of the Recovery Oriented Cognitive Therapy Protocol.
  - Explain how the therapeutic relationship and in session experiences are used for behavioral experiments.
  - Describe the cognitive formulation for negative symptoms.

**Recommended Readings:** Grant, P.M., Huh, G.A., Perivoliotis, D., Stolar, N.M., Beck, A.T. (2012). Randomized trial to evaluate the efficacy of cognitive therapy for low-func-

## **Panel Discussion 20**

### **How will Progress Continue After the Grant Ends? The Role of Purveyor Organizations in Sustainable Dissemination of Evidence-based Programs**

MODERATORS: Margaret E. Crane, M.A., Temple University

Philip C. Kendall, Ph.D., Temple University

PANELISTS: Matthew Sanders, Ph.D., The University of Queensland

Eric Daleiden, Ph.D., PracticeWise, LLC

Allen R. Miller, Ph.D., Beck Institute for Cognitive Behavior  
Therapy

Dennis D. Embry, Ph.D., PAXIS Institute

Ceth Ashen, Ph.D., C. Ashen Consulting

**Earn 1.5 continuing education credits**

Primary Category: Dissemination & Implementation Science

Key Words: *Dissemination, Implementation, Industry*

Despite advancements in dissemination and implementation science, a gap remains between evidence-based programs (EBP) and clinical practices. One potentially important group that is under-acknowledged in the literature is purveyor organizations, a group that actively works to implement a program or practice (Fixsen et al., 2005). Purveyor organizations may exist separate from academics and research settings, and often involve entrepreneurial thinking and atypical funding models. Such organizations can extend the reach of EBP by creating scalable models to program dissemination and implementation. Our panel will bring together five trailblazers in purveyor organizations (Matthew Sanders, Eric Daleiden, Allen Miller, Dennis Embry, and Ceth Ashen) to share their insights and experiences (positive and interfering) in the role of purveyor organizations for sustainable dissemination of EBP. Panelists will discuss their experiences (respectively, with Triple P International, PracticeWise, the Beck Institute for Cognitive Behavioral Therapy, the PAXIS Institute, and Incredible Years, Inc.), and how their purveyor organization has learned from implementation successes and failures. They will describe how their organization works with stakeholders, policy makers, community organizations, and provides

opportunities for trainees. Regardless of whether the panelists work with manual-based, modular, or principle-based treatments, they will assess the value of the program brand to increasing pull demand and consumer awareness of their program. Panelists will also address potential conflicts of interest and balancing financial realities of running an organization with making programs affordable to clients. Each panelist will conclude with recommendations for the “next needed” study to maximize sustainable implementation of EBTs.

**Panel Discussion 21**

**Improving the Impact of Evidence-Based Treatments  
for Youth: What the Manuals Don’t Tell You About  
Navigating Caregiver Challenges**

MODERATORS: *H. Gemma Stern, B.S., Graduate School of Applied and Professional Psychology, Rutgers State University of New Jersey*

*Emily Badin, B.A., Graduate School of Applied and Professional Psychology, Rutgers State University of New Jersey*

PANELISTS: *Andrea M. Chronis-Tuscano, Ph.D., University of Maryland*  
*Brian C. Chu, Ph.D., Graduate School of Applied and Professional Psychology, Rutgers University*  
*Tom Hildebrandt, PsyD, Department of Psychiatry, Icahn School of Medicine at Mount Sinai*  
*Cheryl B. McNeil, Ph.D., West Virginia University*  
*Anthony Puliafico, Ph.D., Columbia University Medical Center*

**Earn 1.5 continuing education credits**

Primary Category: Parenting / Families

Key Words: *Parenting, Child, Treatment*

Caregiver factors (e.g., caregiver psychopathology and familial stress) can negatively impact positive treatment outcomes for youth across diagnostic presentations. Currently, caregivers have varying degrees of involvement in treatment, from functioning as agents of change to simply facilitating their child’s attendance to session. As a result, both common and distinct challenges (e.g., parental disengagement and/or overinvolvement) may arise across different treatment approaches. Furthermore, clinicians lack evidenced-based resources to navigate the aforementioned obstacles. Panelists were chosen to present on their research and clinical expertise to highlight caregiver challenges across diverse ap-

proaches to childhood treatment. These experts will identify evidence-based strategies to address these concerns. Dr. Andrea Chronis-Tuscano will discuss her research on the attenuating role of parental psychopathology on the treatment of externalizing disorders, early behavioral inhibition, and anxiety disorders. Dr. Brian Chu will address caregiver challenges encountered in individual treatment of youth anxiety and depression. Dr. Tom Hildebrandt will consider parental factors in the treatment of eating disorders and the clinical decisions of when and what type of exposure to use drawing on his lab's research and clinical application of Exposure-Based Family Therapy. Dr. Cheryl McNeil will highlight unique caregiver obstacles when implementing Parent-Child Interaction Therapy. Dr. Anthony Puliafico, co-creator of PCIT CALM, will explore the barriers to effective anxiety treatment when working with anxious caregivers of young children. To increase the social impact of evidence-based treatments for youth, the panel will suggest strategies to equip clinicians to work effectively with caregivers across varied settings and diverse family backgrounds, resources, and cultures. The panel will consider implications for guiding future research and clinical practice.

**Earn 1.5 continuing education credits**

Primary Category: Workforce Development / Training / Supervision

Key Words: *Education and Training, Training / Training Directors, Career Development*

Masters-level practitioners (e.g., marriage and family therapists, counselors, and clinical social workers) provide the majority of psychotherapy services in the United States. However, few programs that train providers at this level emphasize evidence-based, cognitive-behavioral practice (EBCBP). Creating Masters-level training programs that emphasize EBCBP can increase the impact of CBT by “getting in at the ground level” of clinical training, in contrast to training via continuing education, which is shown to have limited impact on practice. This also increases the chance that consumers of services will have the most effective treatments available.

Toward the conference theme of “leveraging or developing new workforces or stakeholders,” faculty and alumnae from three Masters-level programs that emphasize EBCBP will discuss the following themes: (1) Training students to integrate multicultural and contextual thinking into cognitive-behavioral case conceptualization, given the diversity of the clients they will serve in community mental health settings; (2) Creating curricula that both emphasizes theoretical and practical foundations of EBCBP and covers the broad range of content mandated by licensure requirements; (3) Providing infrastructure for students to develop EBCBP skills in the context of community practicum sites where these approaches may or may not be emphasized; (4) Providing experiences to support students’ specific career goals (e.g., community practice, doctoral study); (5) Training in nomothetic and ideographic assessment to support measurement-based care. Panelists will also discuss their career trajectories toward training Masters-level clinicians and provide advice for grad students and early-career professionals interested in pursuing this path. We will conclude with Q&A in which panelists and attendees will dialogue about audience-nominated topics in training EBCBP at the Masters level.

**Jumping Off the Academic Track: Extending the Social Impact of CBT in Unique Careers**

**MODERATOR:** *Ilyse Dobrow DiMarco, Ph.D.*, North Jersey Center for Anxiety and Stress Management

**PANELISTS:** *Ilyse Dobrow DiMarco, Ph.D.*, North Jersey Center for Anxiety and Stress Management

*Jonathan Fader, Ph.D.*, Union Square Practice/SportStrata

*Amelia Aldao, Ph.D.*, Private practice

*Kenneth R. Weingardt, Ph.D.*, Pear Therapeutics

*Paula Wilbourne, Ph.D.*, Sibly

**Earn 1.5 continuing education credits**

Primary Category: Professional/ Interprofessional Issues

Key Words: *Professional Development, Technology / Mobile Health, Dissemination*

Graduate students in clinical psychology, particularly those involved with groups like ABCT, are often primed to enter a career in academia. Yet not every academically-oriented professional ultimately chooses an academic career; and in fact, there are a number of non-traditional job opportunities for individuals trained in research methods and evidence-based treatments. Individuals in these roles are tasked with delivering CBT knowledge in novel and unique ways. They can often reach significantly larger and more diverse audiences than can traditional career academics, thereby extending the social impact of CBT. In this panel, several professionals who “jumped off the academic track” will discuss

SATURDAY

their career trajectories and offer guidance to those looking to pursue similar paths. Panelists include a tenure-track faculty member turned management consultant (Dr. Amelia Aldao); a popular press writer/blogger (Dr. Ilyse Dobrow DiMarco); a sports and performance psychologist who works with a number of professional athletic teams (Dr. Jonathan Fader); the clinical director of a tech company developing digital therapeutics for behavioral health conditions (Dr. Ken Weingardt); and the co-founder and chief officer of a mental health app (Dr. Paula Wilbourne). Each of the panelists will: 1) Describe their background and training; 2) Describe their current career and how they pursued it; 3) Discuss the pros and cons of “taking the road less traveled;” and 4) Provide concrete suggestions for others looking to explore similar careers.

Medical Center*

*Patricia A. Resick, Ph.D., Ph.D., Duke University Medical  
Center*

*Jacqueline B. Persons, Ph.D., Oakland CBT Center*

*Sabine Wilhelm, Ph.D., Harvard Medical School;  
Massachusetts General Hospital*

**Earn 1.5 continuing education credits**

Primary Category: Women's Issues

Key Words: *Career Development, Professional Development, Women's Issues*

According to Gerdes (2003), from 1976 to 1995, the number of women faculty members and women in higher education executive-administrative-managerial positions more than doubled. However, it is discouraging to realize that women continue to be underrepresented in the upper ranks of faculty and administrators, in leadership of mental health care/practice organizations, and in professional organizations, and women continue to earn less than men in comparable situations (Billard, 1994; Glazer-Raymo, 1999; National Center for Education Statistics, 1998; Ransom & Megdal, 1993; Valian, 1998). In addition, a gender-based bias is evident across the range of professional mental health settings, including the VA, where women could use all their vacation time and sick leave for maternity, as well as the academic workplace, where strict requirements for achieving tenure discriminate against young faculty with family care responsibilities, most notably mothers (Halpern, 2008). Thus, unfortunately the concepts “glass ceiling” (Morrison, White, Van

Velsor, & Center for Creative Leadership, 1992) and “chilly climate” (Sandler, 1986), originally introduced in the 1980s, along with the inequities in the academic workplace, sometimes called the “baby gap” or “motherhood penalty” are still well-understood and frequent depictions of structural and attitudinal constraints impeding women’s progress in the field, making professional development a challenge for early career psychologists with family care responsibilities and, at times, forcing them to consider alternative career paths. Sadly, the issue remains so pervasive that inevitably, even in the most enlightened workplaces, women are forced to contend with subtle biases. Therefore, in fitting with the theme of this year’s convention, “Wisdom of Purpose and Perspective: Extending the Social Impact of Cognitive Behavioral Science”, four past ABCT presidents (Anne Marie Albano, Patricia Resick, Jacqueline Persons, and Sabine Wilhelm) will provide their perspectives and advice to early career psychologists on how to successfully combine their professional and family roles and responsibilities, as well as to senior psychologists on how to successfully nurture the careers of their younger colleagues.

### **Spotlight Research 4**

## **Implicit Anti-Black Bias Predicts Black Mortality Rates**

CHAIR: *Monnica T. Williams, Ph.D., University of Connecticut*  
Presenter: *Terence Ching, M.Soc.Sci, University of Connecticut*  
PANELISTS: *Jamilah R. George, M.Div, University of Connecticut*  
*Terence Ching, M.Soc.Sci, University of Connecticut*

**Earn 1.5 continuing education credits**

Primary Category: Culture / Ethnicity / Race

Key Words: *African Americans / Black Americans, PTSD (Posttraumatic Stress Disorder), Competence*

Black Americans experience disparities in access to quality mental health care and mental health overall. Black-White racism has been implicated as a source of disparities in the US, but the role of bias from other non-White ethnic groups is unclear. Implicit bias attitudes are thoughts and feelings that often exist outside of conscious awareness, and thus are difficult to acknowledge and control. These attitudes are often automatically activated and can influence human behavior without conscious volition, leading to increased commission of small racist acts. Many studies over the last several decades demonstrate the pervasive nature of implicit bias and its significant impact on the lives of Black people in the US and abroad (Brewer, 1979; Kleinpenning & Hagendoom, 1993; Pettigrew & Meertens, 1995; Hodson, Dovidio, & Gaertner, 2002; Hall et al, 2015; Lee, Lindquist, & Payne, 2018).

We investigated the extent to which implicit anti-Black racial bias exists among various ethnic/racial groups. Significant anti-Black bias was noted among all non-Black groups, with non-Hispanic Whites and East Asians consistently exhibiting the most bias

after correcting for multiple comparisons (all  $ps < .001$ ). We also examined anti-Black bias state-by-state and correlated these findings with several different relevant indicators for Black Americans. For example, among non-Hispanic Whites, implicit anti-Black bias was significantly correlated with all examined measures of explicit anti-Black bias ( $rs = .21-.25$ ,  $ps < .001$ ). Next, we used mean implicit anti-Black bias (excluding explicit racists) to predict CDC mortality rates for Blacks, while controlling for per capita hate groups (to examine explicit environmental bias), as well as White death rate. Implicit anti-Black bias significantly and uniquely predicted overall Black mortality rates,  $b = -.45$ ,  $MSe = 36130.26$ ,  $t(47) = -3.71$ ,  $p < .001$ . Black mortality from mental health problems was more strongly predicted by per capita hate groups ( $b = .495$ ,  $MSe = 68.351$ ,  $t(37) = 2.934$ ,  $p = .006$ ), than White implicit bias when both were entered into a linear regression. Finally, we will discuss how implicit versus explicit biases may contribute to mental health disparities for Black people nationally.

At the end of this session, the learner will be able to :

- Articulate an overview of implicit bias, its role in the US historical and sociopolitical context, and its relevance to the field of mental health.
- Summarize data which indicate the significant impact of anti-Black bias (state-by-state) predicting Black mortality rates.
- Engage with a provided framework to deepen one's awareness and understanding of implicit bias to minimize disparaging health outcomes for Blacks.
- Assess for trauma symptoms due to racism and discrimination utilizing the UConn Racial/Ethnic Stress & Trauma Survey (UnRESTS).

BRUCE  
CHORPITA

The focus for ABCT this year is purposeful reflection on how we can better achieve the mission of health and wellness through cognitive behavioral science. I will begin by outlining the landscape that must be crossed to achieve that mission, noting where our current resources and strategies encounter seemingly unmanageable complexity. On the other hand, an inventory of our strengths will show that we know more than at any time in human history about how to address mental health challenges and that we have unprecedented technological capabilities to organize and deliver that knowledge to where it is needed. Accordingly, I will articulate a framework of Coordinated Strategic Action to organize people and evidence to make efficient use of these historic capabilities to meet these extraordinary challenges, with working examples and empirical findings from mental health systems and interventions. Finally, in the spirit of our organization's behavioral intellectual rebellion, I will call for us to reflect on the contingencies or "token economies" in which we, our organizations, and our industries operate, to ask what we can do to

engineer a society with greater capability of engaging in healthy and therapeutic behavior for ourselves and those around us.

At the end of this session, the learner will be able to:

- Describe the “Three D’s” of robust knowledge frameworks deigned for challenging contexts: Diversity, Dynamics, and Development.
- Provide one or more concrete illustrations of Coordinated Strategic Action as a way of organizing people, knowledge, and technology to reduce human suffering and increase wellness.
- Articulate the contingencies operating on yourself as an individual, on your institution, and on your industry, to consider how to better align our collective activities with our larger mission.

Primary Category: Improved Use of Research Evidence

Key Words: *Technology / Mobile Health, Public Health, Evidence-Based Practice*

Pseudoscience pervades everyday life and influences the public's understanding of psychopathology and effective treatments for mental illness. Countless websites, commercials, internet ads, social media groups and influencers promote "miracle cures" for everything from acne to schizophrenia. Additionally, contraindicated advice on parenting strategies, psychotherapy, and mental and physical health is proclaimed in these popular forums. In part due to low science and mental health literacy, the public is particularly vulnerable to these false claims from polished, yet dubious sources. Evidence based psychosocial interventions in mental health care are at a disadvantage to pharmaceutical spending on advertising, branding and messaging across media outlets.

As evidence-based mental health practitioners, we have a responsibility to help the public discern effective from ineffective—even dangerous—treatments. It is imperative that we develop more compelling means of delivering knowledge and engaging the public to extend the social impact of evidence-based treatments (EBT's). We need to effectively harness the full range of media, including social networking media, to increase visibility

and accessibility of EBT's for mental health conditions, to dispel myths about effective approaches, and to debunk false claims of the efficacy of the "snake oil de jour." Panelists will address the "demarcation problem" in science, helping the audience distinguish effective behavioral and cognitive therapies from those which remain theoretical. We will emphasize the importance of conveying this distinction to the public, through the media, in widely understood lay terms.

Panelists will explore methods to more effectively communicate scientifically-derived information with the public in ways that will enhance engagement and encourage meaningful steps toward change in evidence based behavioral healthcare. We will discuss our current efforts to promote EBT's and influence our family and friends, our patients, our communities, our students and trainees, our colleagues, and the general public through media and social media outlets. Time will be allocated for interaction with the audience.

*Christian S. Hildreth, Psy.D.*, Central State Hospital

*Lynne Deigert*, Behavioral Health Services of South Georgia

**Earn 1.5 continuing education credits**

Primary Category: Schizophrenia / Psychotic Disorders

Key Words: Schizophrenia, Implementation, Recovery

This panel will present a state-wide collaborative project, between the Georgia Department of Behavioral Health and Developmental Disabilities (DBHDD), the Center of Excellence for Children's Behavioral Health at Georgia State University, and the Aaron T. Beck Psychopathology Research Center at the University of Pennsylvania, to implement re-

covery-oriented cognitive therapy (CT-R). This effort aimed to develop the capacity of the treatment network to empower individuals given a serious mental health diagnosis who have difficulty remaining in the community (continuously or chronically hospitalized). CT-R is an empirically-supported approach that systematically operationalizes recovery to help these individuals live the life of their choosing in the community. The implementation project took place in stages across the state and included training of staff in state hospitals, on Assertive Community Treatment and related behavioral health teams, in community clinics, and on first-episode teams.

Members of the panel – drawn from all levels of the project – will discuss their experience, focusing on successes and lessons learned:

- GA DBHDD: state-wide mental health expert
- UPenn: intro to CT-R and evidence in GA
- Center of Excellence: trainee to trainer experience
- Hospital: forensic successes and challenges
- Trained provider: impact on service provision

## **Panel Discussion 26**

### **Anxiety-Focused PCIT: Innovations in the Treatment of Early Childhood Anxiety Disorders**

**MODERATOR:** Cheryl B. McNeil, *Ph.D.*, West Virginia University

**PANELISTS:** Steve Mazza, *Ph.D.*, Columbia University Medical Center  
Anthony Puliafico, *Ph.D.*, Columbia University Medical Center  
Steven Kurtz, *ABPP, Ph.D.*, Kurtz Psychology Consulting  
Jonathan Comer, *Ph.D.*, Florida International University  
Donna Pincus, *Ph.D.*, Child Center for Anxiety and Related Disorders, Boston University  
Andrea M. Chronis-Tuscano, *Ph.D.*, University of Maryland

**Earn 1.5 continuing education credits**

Primary Category: Child / Adolescent - Anxiety

Key Words: PCIT (*Parent Child Interaction Therapy*), Anxiety, Exposure

Anxiety disorders are the most common psychiatric disorder in children and have been shown to predict adverse future functioning (Bittner et al., 2007; Costello, Egger, & Angold, 2005). Parent training programs, including adaptations of Parent-Child Interaction Therapy (PCIT), have shown promise in treating anxiety disorders in early childhood (Carpenter, Puliafico, Kurtz, Pincus, & Comer, 2014; Pincus, Eyberg, & Choate, 2005). Panelists were chosen to discuss the current state of PCIT adaptations for treating anxiety disorders and how to best move these treatments forward. Initial discussions will focus

SUNDAY

describing the various adaptations and their efficacy. Treatments that will be presented include PCIT-CALM (Coaching Approach Behavior and Leading by Modeling), Brave START (Skills Training & Anxiety Reduction Treatment), The Turtle Program (group PCIT for behavioral inhibited preschoolers), and Bravery-Directed Interaction (BDI), PCIT-SM (Selective Mutism). Next, similarities and differences between these adaptations will be elucidated, as well as the primary mechanisms of behavior change across therapies. The feasibility of implementing these interventions across treatment settings and populations (including internet-based treatments) will also be addressed. The panel will conclude with a conversation about the future of early childhood anxiety treatments and how to best move the field forward.

**L504-L505, Lobby Level**

**Panel Discussion 28**

**Integrating Community-Based Projects in the Training of Clinical Scientists For Social Impact**

- MODERATOR: *Lauren A. Stutts, Ph.D., Davidson College*
- PANELISTS: *Lauren A. Stutts, Ph.D., Davidson College*  
*Taryn A. Myers, Ph.D., Virginia Wesleyan University*  
*Elizabeth Dalton, Ph.D., Elizabethtown College*  
*Susan Wenzel, Ph.D., Lafayette College*  
*Cheri A. Levinson, Ph.D., University of Louisville*

**Earn 1.5 continuing education credits**

Primary Category: Workforce Development / Training / Supervision

Key Words: *Education and Training, Community-Identified Problems, Dissemination*

Community-based projects are practical, evidence-based experiences that can be integrated into the training of clinical scientists. These projects have two primary purposes: 1) to allow students to apply course material to real-world problems, and 2) to positively impact the community. Five panelists will discuss how to integrate community-based projects into clinical courses/training on the following topics: psychology and the law, stress, mood disorders, eating disorders, and health. First, we will describe how we created partnerships with community-based organizations. Second, we will discuss ways to integrate and have students apply course material through community-based projects. For example, one panelist will describe how she has students present what they learned about mood disorders to a local chapter of the Depressive and Bipolar Support Alliance. Third, we will share ways to assess and create assignments around community-based work. For instance, one panelist will discuss how she has students write reflection papers where they draw connections between stress-related theories and their community-based experiences. Fourth, we will address some of the challenges of conducting community-based work. Lastly, we will provide strategies for maintaining partnerships and disseminating products to the

community. For example, one panelist will share how she has students create and present posters on a project assessing healthy food access in low income communities at a local community-based poster fair. Overall, we will share ideas and activities that will highlight the benefits, accessibility, and impact of integrating community-based work into training.

**Facing Fear the Right Way: What We Know and Need to Learn About Maximizing Exposure Outcomes**

MODERATORS: *Joseph K. Carpenter, M.A., Boston University*

*Hayley E. Fitzgerald, M.A., Boston University*

PANELISTS: *Michelle Craske, Ph.D., University of California, Los Angeles*

*Michael W. Otto, Ph.D., Boston University*

*Dirk Hermans, Ph.D., KU Leuven*

*David Tolin, Ph.D., Institute of Living*

*Jonathan S. Abramowitz, Ph.D., University of North Carolina at Chapel Hill*

**Earn 1.5 continuing education credits**

Primary Category: Adult Anxiety

Key Words: *Exposure, Anxiety, Fear*

As effective as exposure therapy can be for the treatment of anxiety disorders, response and relapse rates suggest that there is significant room for improvement. Two central questions for understanding how to improve exposure outcomes are: 1) what exactly do patients need to learn from their exposures in order to lead to durable reductions in fear?, and 2) how should we conduct exposure therapy to best promote that learning?

Translational research on fear and extinction learning suggests that successful exposure therapy consists of the development of new memories of safety that override previously acquired fear memories. Based on such research, inhibitory learning theory and other frameworks for understanding mechanisms of exposure (e.g. emotional processing theory), have proposed a variety of possible explanations for what drives symptom improvement. These include expectancy violations, increases in fear tolerance, improvements in coping self-efficacy, within- and between-session fear reduction, and changes in threat-related cognitions.

Emphasizing any one of these targets clinically can lead to different approaches to conducting exposures, but much is unknown about the relationship between these constructs as well as their relative importance. This leaves clinicians with several unanswered questions about how to optimally conduct exposure therapy and evaluate progress. For example, do fear reductions during exposures really not matter? What should be the focus

of post-exposure processing? What sort of learning is most likely to help patients generalize improvements across contexts? This panel will bring together experts in the field of anxiety and mechanisms of exposure therapy to discuss how to best answer these types of questions, and elucidate future directions for enhancing exposure outcomes.

Panel Discussion 31

Ensuring Cultural Humility Across Clinical Research Designs

MODERATORS: Rachel R. Ouellette, M.S., Florida International University

Jacqueline O. Moses, M.S., Florida International University

PANELISTS: Miya Barnett, PhD, University of California, Santa Barbara

Stacy Frazier, Ph.D., Florida International University

Omar G. Gudiño, ABPP, Ph.D., University of Kansas

David A. Langer, ABPP, Ph.D., Suffolk University

Jessica LoPresti, Ph.D., Suffolk University

Earn 1.5 continuing education credits

Primary Category: Culture / Ethnicity / Race

Key Words: Culture, Underserved Populations, Research Methods

Mental health providers are supporting an increasingly diverse population (Jones & Bullock, 2012), while experiencing an ongoing deficit in empirically supported mental health services and knowledge about therapeutic mechanisms for diverse populations (Benish et al., 2011). The importance of considering cultural, racial, and ethnic identities when providing effective mental health services is demonstrated in common definitions of evidence-based practice in psychology, with recent definitions emphasizing clinical decisions based on the best available research evidence filtered through clinical expertise and patient characteristics (e.g., culture and individual preferences) (Tolin, 2014). Hence, evidence-based practice is, by definition, both empirically- and culturally-informed, highlighting cultural humility as a cornerstone of effective mental health care. Cultural humility is defined as the, “ability to maintain an interpersonal stance that is other-oriented (open to the other) in relation to aspects of cultural identity that are most important to the [person]” (Hook et al., 2013). This definition highlights cultural humility as an ongoing and bidirectional process, which may conflict with highly controlled research designs. The proposed panel brings together a team of experts conducting efficacy (Dr. David Langer), effectiveness (Drs. Jessica LoPresti and Omar Gudiño), services (Dr. Stacy Frazier), and implementation (Dr. Miya Barnett) science to discuss cultural humility in clinical research. Discussion will center around cultural humility across the spectrum of research designs from high internal to high external validity, as well as across different research questions, methods, measures, and interpretation of results. Conversation will highlight ways in

which cultural humility can be brought to any and all research questions towards the goal of promoting effective and culturally-informed services for diverse populations.

Research and Professional Development 7

It Never Hurts to Ask! Strategies to Negotiate Academic Job Offers

PANELISTS:    *Andrea K. Graham, Ph.D.*, Northwestern University Feinberg School of Medicine  
                      *Fabiana S. Araujo, Ph.D.*, The University of Chicago  
                      *Shona N. Vas, Ph.D.*, The University of Chicago

Earn 1.5 continuing education credits

Basic to Moderate level of familiarity with the material

Primary Category: Professional / Interprofessional Issues

Key Words: *Professional Development, Career Development, Technology / Mobile Health*

Negotiation is a critical component of obtaining and retaining academic jobs, yet most psychology training programs do not provide training on how to be effective negotiators. Negotiation has significant long-term implications, as failure to negotiate a first salary can result in >\$500,000 in lost wages by age 60. There also remains a gender gap in negotiating, as women are less likely to initiate or engage in negotiations and set lower expectations for the process. Gender differences perpetuate a salary gap with 2017 estimates showing that women earn 73.2% of men’s salaries. The purpose of this workshop is to provide instruction in the benefits and process of negotiation, by drawing on diverse perspectives and utilizing lessons learned from industry and academia. In the first stage of negotiation, candidates identify what they want by articulating what is important to them and what they value for this position and their career. The second stage is identifying what is being negotiated. Candidates prepare for this process by identifying what they need to be most successful in this position, knowing with whom they are negotiating, and understanding the context surrounding the position. The third stage is engaging in the negotiation, which includes key considerations like how to preserve the relationship and when to walk away. We will present case examples and engage in role play to demonstrate these skills. Thus, by the end of the presentation, participants will be equipped with skills and strategies to successfully negotiate.

At the end of this session, the learner will be able to:

- Recognize the importance of negotiation as a specific skill with implications for professional development.
- Identify components of particular elements of the position that could be negotiable.
- Learn specific skills to negotiate successfully.

SUNDAY

### ABCT 2019 Student Workshop

## CBT for Depression

Judith S. Beck, Ph.D., Beck Institute

### Earn 3 continuing education credits

Primary Category: Adult Depression, Treatment - CBT

Key Words: CBT, Depression, Training/Training Directors

To treat depressed clients effectively, you need to start with two essential components of CBT: an evolving cognitive conceptualization of the client and a strong therapeutic alliance. Then you need to do a number of things:

- explore clients' values, set goals, and inspire hope
- structure sessions to efficiently address their specific current problems
- use your conceptualization to plan treatment
- use a variety of strategies from various psychotherapeutic modalities to bring about change in cognition, mood, and behavior
- collaboratively create Action Plans (homework), and
- do relapse prevention

In this interactive workshop, we'll use a Cognitive Conceptualization Diagram to conceptualize clients, identify the most important dysfunctional cognitions and behaviors, and plan treatment in and across sessions. We'll discuss how to develop a strong therapeutic relationship with clients, especially when they're hopeless or resistant. Then we'll cover the activities listed above. Case examples and demonstration roleplays will illustrate how to implement various techniques. Finally, we'll discuss what to do when "standard" CBT isn't sufficiently effective.

After attending this workshop, participants will be able to:

- Use a cognitive conceptualization to plan treatment;
- List key techniques to develop the therapeutic relationship; and
- Describe how to flexibly structure sessions.

*Greg J. Siegle, Ph.D., University of Pittsburgh*

Key Words: *Neuroscience*

Insights from neuroscience have prompted the development of interventions designed to target neural mechanisms of psychopathology. Such interventions have largely been limited to small trials in research settings, while broader clinical penetration remains a future goal. This special session will consider what is needed to facilitate translation of insights from clinical cognitive neuroscience to real world clinics. Two researchers working on translating neuroscience to clinical practice (Drs. Thilo Deckersbach and Greg Siegle) will introduce a number of nascent interventional technologies. Four implementation experts will speak to what is necessary to make neuroscience-informed, mechanistic interventions acceptable, desirable, and available to clinicians, including how to evaluate and address obstacles to translation. They include two implementation scientists (Drs. Rinad Beidas and Kelsey Dickson), one clinician who has been successful in widespread implementation of CBT in the primary care setting (Dr. Allen Miller), and one clinician (Dr. John McQuaid) actively working to bring novel technologies to patients. Together, the speakers and audience will brainstorm next steps for bringing neuroscience to the clinic with the objective of charting out a practical roadmap for individual and programmatic studies in this area.

Primary Category: Workforce Development / Training / Supervision

Key Words: *Training / Training Directors, Education and Training, African Americans / Black Americans*

Although diversity among early career psychologists is increasing (APA, 2018), the psychology workforce overall is still largely a racially homogeneous group. This may be partially due to many top-ranked psychology graduate programs failing to recruit and retain racial and ethnic minority students (Hewer, 2015), an issue which negatively affects the reach and impact of evidence-based interventions, and further disadvantages career trajectories for ethnic and racial minority trainees.

Increasing diversity in clinical training has beneficial impacts for the field, as diversity improves innovation and problem solving (Sellers, 2015). In addition, a meta-analysis of 52 studies found a moderately strong preference for a therapist of the same racial/ethnic group (Cabral & Smith, 2011), particularly among African-American and Latino(a) individuals. Moreover, some racial/ethnic minority clients are willing to sacrifice treatment efficacy to work with a minority provider or a provider with significant cultural competency (Swift et al., 2015). To continue to increase the diversity of the psychology workforce and to improve the cultural competence and relevancy of psychology to reflect the needs and diversity of the community, diverse individuals must be recruited to graduate programs, and graduate programs must implement active strategies to amplify and learn from the perspectives of their racially and ethnically diverse members. Accordingly, APA accreditation standards require graduate, internship, and postdoctoral training programs to document coherent, long term strategies to recruit, retain, and create a supportive climate for diverse trainees.

The current roundtable focuses on strategies for recruiting and retaining trainees of color to graduate, internship, and postdoctoral training programs in psychology. Discus-

sion will focus on specific barriers to recruitment, retention, and the integration of diverse perspectives throughout clinical training, as well as effective strategies for addressing those barriers. Given the specific contextual factors that may make each institution's barriers and needs unique, the panel will facilitate audience-led questions to enhance efforts towards inclusion in their own institutions.

Primary Category: Dissemination & Implementation Science

Key Words: *Treatment Development, Implementation, Technology / Mobile Health*

Researchers and clinicians often face challenges when attempting to implement evidence-based cognitive-behavioral therapy (CBT) interventions into traditional clinical care settings and into technology-enabled services (e.g. web-based and app-based interventions). These challenges are in part due to poor design of interventions that do not fully consider the needs and preferences of diverse users and the settings in which they operate. User-centered design (UCD) is a discipline – grounded in human factors engineering, cognitive psychology, and user experience design – that focuses on designing innovations for the people and settings that will ultimately use the innovation. UCD principles are increasingly being used to improve the development and implementation of mental health interventions.

This panel will provide an introduction to and discussion of UCD, and the application of UCD to the development and implementation of CBT-based interventions. Panelists include psychologists and designers from academia and industry, who will introduce user-centered design concepts and terminology and discuss research methods that are common within the discipline of UCD. Illustrative examples include identification of users and user needs through interviews, focus groups, observational field visits, and user testing sessions; rapid prototyping in which designers create and test mock-ups that are intended to “fail quickly” as they iteratively progress toward a solution; and co-creation of

potential solutions with users. Panelists will discuss their experiences in using UCD methods in CBT research across a variety of design questions (e.g., interventions vs. implementation strategies; traditional vs. technology-enabled services), and provide examples from services focused on adolescent anxiety, autism, college student mental health, depression in primary care, and the management of obesity and binge eating.

### **Panel Discussion 33**

## **Extending the Reach of Exposure Therapy: How Can We Maximize Dissemination and Delivery?**

MODERATOR: *Nicholas R. Farrell, Ph.D.*, Rogers Behavioral Health

PANELISTS: *Jonathan S. Abramowitz, Ph.D.*, University of North Carolina at Chapel Hill

*Kate Wolitzky-Taylor, Ph.D.*, University of California - Los Angeles

*Melanie S. Harned, Ph.D.*, University of Washington

*Carolyn B. Becker, Ph.D.*, Trinity University

*Brad Riemann, Ph.D.*, Rogers Behavioral Health

### **Earn 1.5 continuing education credits**

Primary Category: Dissemination & Implementation Science

Key Words: *Dissemination, Exposure, Public Health*

Based on its robust empirical support, exposure therapy is widely regarded as the gold standard treatment for anxiety and related disorders and is considered “one of the greatest success stories in the history of clinical psychology” (Abramowitz, Deacon, & Whiteside, 2011). However, in spite of its effectiveness and accolades, exposure therapy has suffered from a significant dissemination problem that has arguably hindered its overall benefit on public health. It is well-documented that exposure therapy is underutilized by clinicians and is often delivered in a suboptimal manner that limits its effectiveness (Deacon et al., 2013). If the benefits of exposure are to become more robust and far-reaching, it is important for leaders in our field to make renewed efforts at extending the reach of exposure on both the “micro-level” (e.g., innovative supervision models that minimize clinician fears of exposure) and “macro-level” (e.g., designing internet-based training paradigms).

In light of ABCT’s emphasis on extending the impact of cognitive-behavioral science at the 2019 convention, the objective of this panel discussion is to bring further awareness to the issue of exposure therapy dissemination and provide practical, evidence-based solutions for addressing this problem. Panel members include five distinguished exposure therapy experts, each of whom has been at the forefront of research and clinical efforts aimed at improving the dissemination of exposure in various ways. Examples of these innovative dissemination efforts include: (a) creating an internet-based training program

in exposure therapy, (b) designing exposure therapy education seminars for community-based clinicians in rural areas, (c) developing a novel supervision model for the delivery of exposure therapy by novice paraprofessional clinicians, and (d) creating exposure interventions that include spouses and other caregivers in the treatment of their loved ones. Panel members will review these dissemination efforts and discuss other strategies to improve the reach and accessibility of exposure therapy. Audience members will be given ample opportunity to ask questions of panelists and/or share their own perspectives on improving exposure therapy dissemination.

**M303, Marquis Level**

**Panel Discussion 34**

**Cultural Insiders: Ethics, Research, Training, and Practice for Investigators of Color Working in Diverse Communities**

MODERATORS: *Jacqueline O. Moses, M.S., Florida International University*

*Tommy Chou, M.S., Florida International University*

PANELISTS: *Heather A. Jones, Ph.D., Virginia Commonwealth University*

*Kelsie H. Okamura, Ph.D., State of Hawaii Child and Adolescent Mental Health Division*

*Rosaura Orenge-Aguayo, Ph.D., Medical University of South Carolina*

*Erlanger A. Turner, Ph.D., University of Houston-Downtown*

*Miguel Villodas, Ph.D., San Diego State University*

**Earn 1.5 continuing education credits**

Primary Category: Culture / Ethnicity / Race

Key Words: *Culture, Professional Development, Ethics*

Reflective of the increasingly diverse U.S. population, the field of clinical psychology is moving towards prioritizing and supporting the inclusion of ethnically and racially diverse populations in research and practice (APA, 2017; NIMH, 2019). Though there have been significant strides towards expanding the reach of mental health care to serve the unmet needs of populations of color, new investigators often struggle with questions of ethical practice in conducting culturally-sensitive, community-engaged work with diverse populations (Campbell, 2017). This challenge is further complicated for the burgeoning number of clinical psychology graduate students and early career professionals coming from diverse ethnic/racial backgrounds who aim to work with culturally-similar communities of color (Case, 2017; Haarlamert, et al., 2017). These young professionals often have few formal supports or training opportunities to guide their efforts. The proposed

panel will explore considerations towards ethical, culturally-sensitive, community-engaged research, practice, and training for clinical scientists of color.

The panel consists of prominent clinical scientists of color who engage in collaborative work with diverse communities. Panelists will describe their history of academic and research collaboration with populations in which they are “cultural insiders”; examine barriers and challenges in balancing multiple identities; and discuss the strengths of conducting partnered research in communities culturally similar to their own. Discussion will leverage panelists’ own experiences to examine ethical dilemmas arising from dual identities as investigators of color working in partnership with communities that are culturally similar to their personal backgrounds. Panelists will provide practical recommendations and strategies for investigators of color seeking to conduct similar work, as well as review broader implications for research, practice, training, and policy.

**M304, Marquis Level**

### **Panel Discussion 35**

## **Supporting Graduate Students of Color: How to Identify and Overcome Barriers to Success in Predominantly White Institutions**

MODERATOR: *Alexandria N. Miller, B.S., B.A., Suffolk University*

PANELISTS: *Tahirah Adbullah, Ph.D., University of Massachusetts, Boston*

*Jessica Graham LoPresti, Ph.D., Suffolk University*

*Stevie N. Grassetti, Ph.D., West Chester University of Pennsylvania*

*Ana Bridges, Ph.D., University of Arkansas - Fayetteville*

*Jenny Phan, B.A., Loyola University Chicago*

*Roselee Ledesma, B.A., University of Arkansas*

**Earn 1.5 continuing education credits**

Primary Category: Student Issues

Key Words: *Education and Training, Training / Training Directors, Race*

Students from underrepresented racial and ethnic minority groups (URM) are enrolling in doctoral programs at increased rates, yet their average time to completion is longer, and attrition higher, than their White peers. Exposure to racial stressors and microaggressions in predominately White doctoral programs can reduce URM students’ sense of belonging, impair psychosocial functioning, and interfere with academic performance. Systemic changes are needed to correct injustices and provide access and opportunity to URM students.

This panel brings together graduate students, faculty members, and administrators with experience directly supporting and creating program wide changes that positively

impact the adjustment of students of color in predominantly white institutions. Panelists will share their personal and professional experiences and discuss potential methods of addressing the inequities faced by students of color in their applications to, and experiences in, psychology graduate programs.

Panelists will discuss (1) barriers and challenges that they have seen or experienced as students of color in PWIs, (2) the different policies/strategies that have been successfully implemented in their programs, and (3) the challenges to broad implementation of these practices in established educational environments and possible solutions.

Questions and comments will be solicited from the audience to foster a collaborative approach to navigating these barriers.

**A702, Atrium Level**

**Research and Professional Development 8**

**Values-Based Self-Care: Creating a Professional Self-Care Plan that Will Stick**

PANELISTS: *Jessica Campoli, B.A., University of Saskatchewan*  
*Jorden Cummings, Ph.D., University of Saskatchewan*

**Earn 1.5 continuing education credits**

Basic level of familiarity with the material

Primary Category: Professional / Interprofessional Issues

Key Words: *Professional Issues, Stress, Career Development*

Self-care: You've heard the term and probably think you should be doing more. You might even be advising others to do it! Not only is engaging in self-care an ethical imperative for mental health professionals, our chosen profession makes us vulnerable to stress, burnout, emotional distress, depression, and even suicidal ideation. These negative outcomes can impair our professional functioning, service provision, teaching, research, and have negative consequences on our health and personal lives. Although we can all list what we "should" be doing to promote our self-care and well-being, and promote these activities in others (i.e., our clients), most mental health practitioners are not maintaining consistent self-care practices. In this workshop we review research on why self-care is necessary for everyone but how individual and institutional barriers often prevent us from doing self-care. Based on an ongoing randomized control trial being conducted in our lab, we then outline our values-based model of self-care and why it works. Participants in this workshop will then work to ground their self-care intentions in their personal and professional values, develop a self-care plan, trouble-shoot barriers to making it stick, and develop strategies for group-care to promote within their workplaces.

At the end of this session, the learner will be able to:

- Develop personally relevant self-care strategies grounded in their values.
- Problem-solve how to continue with self-care practices as a busy professional, particularly when challenges to self-care plans arise.

- Better promote self-care in others, including their students, clients, trainees, and workplaces.

Symposium 144

**Translating Research Findings into Practical Tools For the Assessment of Mechanisms and Barriers in Real-World Treatment For OCD**

- CHAIRS: Jennie M. Kuckertz, M.S., San Diego State University/  
University of California, San Diego  
Nathaniel Van Kirk, Ph.D., McLean Hospital/Harvard Medical School
- DISCUSSANT: *Thrösur Björgvinnson, Ph.D., ABPP, McLean Hospital/Harvard Medical School*

**Earn 1.5 continuing education credits**

Moderate level of familiarity with the material

Primary Category: Obsessive Compulsive and Related Disorders

Key Words: OCD (*Obsessive Compulsive Disorder*), *Measurement, Change Process / Mechanisms*

**Assessment of Exposure Learning Within Sessions: Preliminary Investigation of a Clinically Valid, Feasible Tool**

Nader Amir, Ph.D., San Diego State University/University of California, San Diego  
Jennie M. Kuckertz, M.S., San Diego State University/University of California, San Diego

**Assessing Maladaptive Beliefs Rapidly and Reliably: Validating an Abbreviated Version of the Obsessive Beliefs Questionnaire With Patients Seeking Intensive/ Residential Treatment for OCD**

Nathaniel Van Kirk, Ph.D., McLean Hospital/Harvard Medical School  
Alexandra Hernandez-Vallant, B.S., McLean Hospital/Harvard Medical School  
Sriramya Potluri, B.S., McLean Hospital/Harvard Medical School  
Jason Krompinger, Ph.D., McLean Hospital OCD Institute/Harvard Medical School  
Jordan E. Cattie, Ph.D., Emory University School of Medicine  
Lauryn Garner, M.A., Fordham University  
Jesse Crosby, Ph.D., McLean Hospital/Harvard Medical School  
Brian Brennan, M.D., McLean Hospital/Harvard Medical School  
Jason Elias, Ph.D., CBTeam LLC  
Jean-Philippe Gagné, M.A., Concordia University

**Novel Assessment of Repetitive Negative Thinking During Exposure in OCD:  
Relationship to Symptom Cluster and Treatment Outcome**

*Jacob Nota, Ph.D., McLean Hospital/Harvard Medical School*

*Kara Kelley, B.A., McLean Hospital*

*Nathaniel Van Kirk, Ph.D., McLean Hospital/Harvard Medical School*

*Jason Krompinger, Ph.D., McLean Hospital OCD Institute/Harvard Medical School*

**Assessing the Motivational Impact of Symptom Function in OCD**

*George Clum, Ph.D., Virginia Tech*

*Thrösur Björgvinnson, Ph.D., ABPP, McLean Hospital/Harvard Medical School*

*Nathaniel Van Kirk, Ph.D., McLean Hospital/Harvard Medical School*

Kelly J. J. Rohan, Ph.D., University of Vermont

Michael A. Young, Ph.D., Illinois Institute of Technology

# Friday Poster Sessions

8:30 a.m. – 9:30 a.m.

International Ballroom, International Level

## Poster Session 1A

### PS1

Key Words: ADHD, Adolescents, Risk / Vulnerability Factors

#### (PS1-A1) Risk and Protective Factors for Peer Victimization in Adolescents with ADHD

W. John Monopoli, M.A.<sup>1</sup>, Samantha M. Margherio, M.A.<sup>1</sup>, Steven W. Evans, Ph.D.<sup>1</sup>, Joe Xiang, B.A.<sup>1</sup>, Megan Brickner, Joshua Langberg, Ph.D.<sup>3</sup>, 1. Ohio University, 2. University of North Carolina at Chapel Hill, 3. Virginia Commonwealth University

#### (PS1-A2) Risky Romantic Relationship Behaviors of Adolescents With ADHD: The Role of Emotion Dysregulation

R. Elizabeth Capps, M.A.<sup>1</sup>, Samantha M. Margherio, M.A.<sup>1</sup>, W. John Monopoli, M.A.<sup>1</sup>, Steven W. Evans, Ph.D.<sup>1</sup>, George J. DuPaul, Ph.D.<sup>2</sup>, Julie Sarno Owens, Ph.D.<sup>1</sup>, 1. Ohio University, 2. Lehigh University

#### (PS1-A3) Examining Parental Support in Relation to Peer Functioning in Adolescents With and Without ADHD

Paul A. Isaacson, M.A.<sup>1</sup>, Joshua Langberg, Ph.D.<sup>2</sup>, Stephen P. Becker, Ph.D.<sup>1</sup>, 1. Cincinnati Children's Hospital Medical Center, 2. Virginia Commonwealth University

#### (PS1-A4) ADHD and Overweight/obesity in US Youth: Health Lifestyle Behaviors Differentially Modify Risk for Those With ADHD

Annah R. Cash, B.S., Chris S. Clark, B.A., Amanda D. Cox, B.S., Dustin E. Sarver, Ph.D., University of Mississippi Medical Center

#### (PS1-A5) Brooding Exacerbates the Association Between Inattention and Suicidality in Adolescents With and Without ADHD

Hana-May Eadeh, B.S.<sup>1</sup>, Stephen P. Becker, Ph.D.<sup>2</sup>, Joshua Langberg, Ph.D.<sup>3</sup>, 1. University of Iowa, 2. Cincinnati Children's Hospital Medical Center, 3. Virginia Commonwealth University

#### (PS1-A6) Examining Sex Differences in the Relation Between Social Anxiety and Peer Functioning in Children with ADHD

Ellen E. Kneeskern, B.A., Leanne Tamm, Ph.D., Stephen P. Becker, Ph.D., Cincinnati Children's Hospital Medical Center

- (PS1-A7) Too Connected to Being Connected? Social Media Emotional Investment Moderates the Association Between Cybervictimization and Internalizing Symptoms in Adolescents With and Without ADHD**  
*Nicholas Marsh, B.A.<sup>1</sup>, Nicholas Fogleman, M.S.<sup>2</sup>, Stephen P. Becker, Ph.D.<sup>2</sup>, Joshua Langberg, Ph.D.<sup>3</sup>, 1. Amherst College, 2. Cincinnati Children's Hospital Medical Center, 3. Virginia Commonwealth University*
- (PS1-A8) Elevated ADHD Symptoms as a Predictor of Conduct Problems Among Male Juvenile Offenders**  
*Kathleen Ramsey, B.S., Stephanie D. Smith, Ph.D., University of Southern Mississippi*
- (PS1-A9) Interactive Effects of ADHD Symptoms and Trauma Exposure on Executive Functioning in Children**  
*Courtney L. Clemminshaw, B.A.<sup>1</sup>, George J. DuPaul, Ph.D.<sup>2</sup>, Alicia M. Chunta, B.A.<sup>1</sup>, Heath Patterson, None<sup>1</sup>, 1. Lehigh University, 2. Lehigh University*
- (PS1-A10) Age as a Potential Moderator in the Relation Between Executive Dysfunction and ADHD Symptom Severity**  
*Robyn S. Herbert, M.S., Tammy D. Barry, Ph.D., Washington State University*
- (PS1-A11) An Evaluation of Risk and Protective Factors for Peer Victimization in Elementary School Students**  
*Makenna McIntire, B.A.<sup>1</sup>, Hannah D. Kassab, B.S.<sup>1</sup>, Julie Sarno Owens, Ph.D.<sup>1</sup>, Amori Y. Mikami, Ph.D.<sup>2</sup>, Steven W. Evans, Ph.D.<sup>1</sup>, W. John Monopoli, M.A.<sup>1</sup>, 1. Ohio University, 2. University of British Columbia*
- (PS1-A12) ADHD Symptoms Mediate the Relation Between Executive Function (EF) and Specific Social Skills Outcomes: A Parallel Mediation Analysis**  
*Dane Hilton, Ph.D.<sup>1</sup>, Matthew Jarrett, Ph.D.<sup>2</sup>, Nicole Ferretti, B.S.<sup>2</sup>, Savannah L. King, B.A.<sup>2</sup>, 1. Roanoke College, 2. The University of Alabama*
- (PS1-A13) Connecting Service Delivery Systems to Expand ADHD Service Provision in Urban Socioeconomically Disadvantaged Communities: A Proof of Concept Pilot Study**  
*Michael D. Levy, M.A., Anil Chacko, Ph.D., New York University*
- (PS1-A14) Rethinking Hyperactivity: Preliminary Evidence for a Cognitively-informed Re-conceptualization of Hyperactivity in Pediatric ADHD**  
*Nicole B. Groves, B.S., Elia F. Soto, B.S., Elizabeth S. Chan, M.A., Lauren N. Irwin, M.S., Caroline E. Miller, B.A., Leah J. Singh, Ph.D., Michael J. Kofler, Ph.D., Florida State University*
- (PS1-A15) A Pilot Mindfulness Meditation Enhancement to a Preschool ADHD Parent Behavioral Training Program**  
*Jessica G. Meyer, B.A.<sup>1</sup>, Tanya E. Froehlich, M.D., M.S.<sup>2</sup>, Heather A. Ciesielski, M.A., Ph.D.<sup>2</sup>, 1. Cincinnati Children's Hospital Medical Center, 2. Cincinnati Children's Hospital Medical Center*
- (PS1-A16) Specific ADHD Symptoms Most Associated With Receipt of Negative and Positive Nominations from Peers in Elementary School**  
*Mary N. Lee, B.S.<sup>1</sup>, Julie Sarno Owens, Ph.D.<sup>1</sup>, Amori Y. Mikami, Ph.D.<sup>2</sup>, Steven W. Evans, Ph.D.<sup>1</sup>, Lindsey Swimm,<sup>3</sup> 1. Ohio University, 2. University of British Columbia, 3. The Ohio State University*

**(PS1-A17) Higher Rates of Caffeine Use During Afternoons and Evenings in Adolescents With ADHD**

Caroline N. Cusick, B.S.<sup>1</sup>, Cathrin D. Green, B.S.<sup>1</sup>, Rosanna P. Breaux, Ph.D.<sup>1</sup>, Joshua Langberg, Ph.D.<sup>1</sup>, Stephen P. Becker, Ph.D.<sup>2</sup>, 1. Virginia Commonwealth University, 2. Cincinnati Children's Hospital Medical Center

**(PS1-A18) ADHD Symptoms as Predictors of TBI Risk in Children**

Jae Hyung Ahn, M.A., George J. DuPaul, Ph.D., Lehigh University

**(PS1-A19) Social Skills Acquisition and Performance Problems in ADHD and Autism Spectrum Disorder**

Caroline E. Miller, B.A., Elia F. Soto, B.S., Nicole B. Groves, B.S., Elizabeth S. Chan, M.A., Erica L. Wells, M.S., Michael J. Kofler, Ph.D., Florida State University

**(PS1-A20) Measuring Financial Burden of Childhood ADHD in a Large and Diverse Sample of U.S. Families**

Xin Zhao, M.S.<sup>1</sup>, Timothy F. Page, Ph.D.<sup>1</sup>, Amy R. Altszuler, Ph.D.<sup>1</sup>, Elizabeth M. Gnagy, B.S.<sup>1</sup>, William E. Pelham III, M.A.<sup>2</sup>, Nicole K. Schatz, Ph.D.<sup>1</sup>, Fiona L. Macphee, M.S.<sup>1</sup>, Brittany M. Merrill, M.S.<sup>1</sup>, Marcela C. Ramos, B.S.<sup>1</sup>, Andrew Greiner, B.S.<sup>1</sup>, William E. Pelham Jr., ABPP, Ph.D.<sup>3</sup>, 1. Florida International University, 2. Arizona State University, 3. Florida International University, Center for Children and Families

**(PS1-A21) Attention-deficit/hyperactivity Disorder (ADHD) and Working Memory: Methodological Variability in Grouping Strategies Affects Estimates of Impairment**

Jessie L. Betancourt, B.A., R. Matt Alderson, Ph.D., Elaine F. Arrington, M.S., Delanie K. Roberts, B.A., Lauren Koetting, Oklahoma State University

**(PS1-A22) An Error Analysis of Phonological Working Memory Performance in Children with and Without ADHD**

Delanie K. Roberts, B.A., R. Matt Alderson, Ph.D., Elaine F. Arrington, M.S., Jessie L. Betancourt, B.A., Natalie J. Ramirez, B.A., Alison C. Van Horn, Oklahoma State University

**(PS1-A23) Differences in Functional Impairments Between Adolescent Girls With ADHD and Adolescent Girls with ADHD Plus Comorbid Internalizing Disorders**

Holly Quimby, M.A.<sup>1</sup>, Jenelle Nissley-Tsiopinis, Ph.D.<sup>2</sup>, Mary Lazar, Psy.D.<sup>1</sup>, Mary Rourke, Ph.D.<sup>1</sup>, Jacqlyn Zarabba, Psy.D.<sup>1</sup>, 1. Widener University, 2. Children's Hospital of Philadelphia

**(PS1-A24) The Effectiveness of the Multiple Family Group Service Model in the Treatment of ADHD Symptoms**

Amrita Ramakrishnan, B.S., Maria Michelle Vardanian, B.A., Anil Chacko, Ph.D., New York University

**(PS1-A25) Urgency and Aggression Among Children With and Without ADHD**

Kelly E. Slaughter, M.S., Kirsten D. Leaberry, M.S., Joseph Reese, M.S., Paul J. Rosen, Ph.D., University of Louisville

**(PS1-A26) Mindfulness Practice for Children With ADHD at the Summer Treatment Program: A Pilot Study**

Marcela C. Ramos, B.S.<sup>1</sup>, Fiona L. Macphee, M.S.<sup>1</sup>, Brittany M. Merrill, M.S.<sup>1</sup>, Xin Zhao, M.S.<sup>1</sup>, Elizabeth M. Gnagy, B.S.<sup>1</sup>, Andrew Greiner, B.S.<sup>1</sup>, William E. Pelham Jr., ABPP, Ph.D.<sup>2</sup>, 1. Florida International University, 2. Florida International University, Center for Children and Families

**PS1**

Key Words: *Depression, College Students, Race*

**(PS1-B27) Group Differences in Mental Health: Social and Campus Factors That Impact the Mental Health of First-generation Students and Students of Color**  
Mahal Alvarez-Backus, Erin Sheets, Ph.D., Colby College

**(PS1-B28) Does Cultural Humility Training Improve Adult Mentors' Sensitivity and Responsiveness to Young People Who Encounter Racism?**  
Anna Flitner, B.A., Samuel D. McQuillin, Ph.D., University of South Carolina

**(PS1-B29) Ethnic Identity, Cultural Treatment Preference, and Anxiety Symptom Severity Among Latino Young Adults Receiving Outpatient Care**  
Eva Schonfeld Reichel, B.A.<sup>1</sup>, Payal Desai, M.P.H.<sup>2</sup>, Jazmin Reyes-Portillo, Ph.D.<sup>3</sup>, Rebecca Erban De La Vega, Psy.D.<sup>4</sup>, Carolina Zerrate, M.D.<sup>5</sup>, Cristiane Duarte, M.P.H., Ph.D.<sup>6</sup>, 1. Columbia University/New York State Psychiatric Institute, 2. New York State Psychiatric Institute/Columbia University Medical Center, 3. Montclair State University/NYSPI/Columbia University Medical Center, 4. New York Presbyterian / Columbia University Medical Center, 5. Columbia University Medical Center and New York Presbyterian Hospital, 6. Columbia University - New York State Psychiatric Institute

**(PS1-B30) Co-rumination in a Cultural Context: Adjustment Trade-offs in Latinx Parent-child Dyads**  
Gilly Kahn, M.A., M.S., Lourdes Suarez-Morales, Ph.D., Nova Southeastern University

**(PS1-B31) Perceived Ethnic Discrimination and Depression Severity Among Ethnic/Racial Minority Young Adults: The Moderating Effect of Expressive Suppression**  
Erika S. Trent, B.S.<sup>1</sup>, Lindsay E. Holly, Ph.D.<sup>2</sup>, Alicia R. Fenley, M.A.<sup>2</sup>, Laura Nelson Darling, M.A.<sup>3</sup>, David Langer, Ph.D.<sup>3</sup>, 1. University of Houston, 2. Center for Anxiety and Related Disorders, Boston University, 3. Child Center for Anxiety and Related Disorders, Boston University

**(PS1-B32) Differences in the Delivery of Cognitive Therapy for Depression When Therapists Work With Minority and Non-minority Patients**  
Iony D. Schmidt, M.A., Graham C. Bartels, Daniel R. Strunk, Ph.D., The Ohio State University

- (PS1-B33) **Mindfulness and Experiential Avoidance Moderate the Relation Between Enculturation and Student Course Engagement For Latinx College Students**  
*Natalie Arbid, M.A., Lizabeth Roemer, Ph.D., University of Massachusetts Boston*
- (PS1-B34) **The Moderating Effects of Alcohol Use in the Relationship Between Social Anxiety and Sexual Victimization in a Latina Sample**  
*Andrew E. Dials, B.S., Michio Hirai, Ph.D., The University of Texas Rio Grande Valley*
- (PS1-B35) **The Relationship Between Social Anxiety Symptoms and Self-construal**  
*Savannah T. Simon<sup>1</sup>, Kevin Narine, B.A.<sup>2</sup>, Jeremy Tyler, Psy.D.<sup>2</sup>, Lily Brown, Ph.D.<sup>2</sup>, 1. Perelman School of Medicine at the University of Pennsylvania, 2. University of Pennsylvania*
- (PS1-B36) **Therapists' Perspectives on Barriers to Reaching the Latino Community**  
*Desiree L. Curcio, B.A., M.S., Melyssa M. Mandelbaum, B.A., Mariessa Robles, B.A., Kayla D. Sanchez, B.A., Megan Moxey, M.A., M.S., Amanda Oliva, B.A., Margarita Savchuk, B.A., M.S., Mary Elsharouny, B.A., M.S., Mona Ahdifara, M.S., Long Island University*
- (PS1-B37) **Test of the Tripartite Model of Anxiety and Depression Among College Students in India**  
*Anjali Jain, M.A.<sup>1</sup>, Aaron Luebke, Ph.D.<sup>1</sup>, Tony Sam George, Ph.D.<sup>2</sup>, Vaishali Raval, Ph.D.<sup>1</sup>, 1. Miami University, 2. Christ University*
- (PS1-B38) **My Culture Is My Identity: Understanding Cultural Aspects That Permeate Ethnic Minorities' Feelings Regarding Their Bodies**  
*Nicole M. Williams, College of Saint Mary*
- (PS1-B39) **Perceived Discrimination and Psychiatric Symptoms: The Moderating Role of Coping**  
*Ana Martinez de Andino, M.S.<sup>1</sup>, Amy Weisman de Mamani, Ph.D.<sup>2</sup>, 1. Emory University School of Medicine, 2. University of Miami*
- (PS1-B40) **Developmental and Sociocultural Correlates of Mental Health Stigma Among African American Adults**  
*Kelsey L. Luks, B.A.<sup>1</sup>, Nicholas J. Sibrava, Ph.D.<sup>2</sup>, 1. Fordham University, 2. Baruch College - The City University of New York*
- (PS1-B41) **Efficacy, Feasibility, and Acceptability of an Innovative Multicultural Education Training Package**  
*Macey L. Arnold, B.S., B.A.<sup>1</sup>, Amy Lakin, B.A.<sup>1</sup>, Kathryn Morse, B.A.<sup>1</sup>, Christian Mauro, Ph.D.<sup>1</sup>, Sean Conway<sup>1</sup>, Jane Gagliardi, M.D.<sup>1</sup>, Zachary Rosenthal, Ph.D.<sup>1</sup>, Margie Molloy,<sup>1</sup> Gabriela A. Nagy, Ph.D.<sup>2</sup>, 1. Duke University, 2. Department of Psychiatry and Behavioral Sciences, Duke University Medical Center*
- (PS1-B42) **American Indian Gang Involvement: Changes and Associated Risk Factors for Adolescents on Reservation Communities 1993-2013**  
*Lauren P. Fox, M.A.<sup>1</sup>, Todd Moore, Ph.D.<sup>2</sup>, 1. University of Tennessee - Knoxville, 2. The University of Tennessee, Knoxville*
- (PS1-B43) **Depressive Symptoms Among Latinx and Asian Immigrants: Examining the Influence of Acculturative Stress and Reason for Migration**  
*Isabel Lopez, B.A., Crystal L. Venegas, B.A., Jose Arreola, B.A., Jonathan Martinez, Ph.D., California State University, Northridge*

**(PS1-B44) Racial/Ethnic Differences in Risk/benefit Perceptions Underlying Illicit Use of Prescription Stimulants**

*Kara L. Nayfa, M.S., Kevin J. Armstrong, Ph.D., Mississippi State University*

**(PS1-B45) Illicit Prescription Stimulants and Body Image: Racial Protective Factors in College Students**

*Kara L. Nayfa, M.S., Kevin J. Armstrong, Ph.D., Mississippi State University*

**(PS1-B46) Enculturation, Biculturalism and Depression in an Immigrant Hispanic Sample**

*Linda E. Guzman, B.A.<sup>1</sup>, Ana Bridges, Ph.D.<sup>2</sup>, 1. University of Arkansas, 2. University of Arkansas - Fayetteville*

**(PS1-B47) Environmental Mastery Moderates Physical and Mental Health and Suicidal Ideation for African American and Latinx Adults**

*Ijeoma J. Madubata, M.A., Judy Hong, M.A., David Talavera, Ph.D., Mary Odafe, M.A., Soumia Cheref, M.A., Jasmin R. Brooks, B.A., Jake Leavitt, B.A., Rheeda Walker, Ph.D., University of Houston*

**(PS1-B48) The Positive Effects of Prosocial Behavior Among Latinx Adolescents: A Daily Process Study**

*Even Fisseha, B.A., Amanda Chue, M.A., Rebecca Kim, M.A., Diana Cox, B.S., Kathleen Gunthert, Ph.D., American University*

**(PS1-B49) An Assessment of Support for Government Involvement in Social Issues**

*Dulce Diaz Benitez, B.A.<sup>1</sup>, Alejandra M. Kaplan, M.P.H.<sup>1</sup>, Ana Bridges, Ph.D.<sup>2</sup>, 1. University of Arkansas, 2. University of Arkansas - Fayetteville*

**(PS1-B50) The Jezebel Stereotype and the Potential Impact on Black Adolescents: A Content Analysis**

*Salome A. Wilfred, M.A.<sup>1</sup>, Alicia Harrington, Jasmine Eddinger, M.S.<sup>2</sup>, Jennifer Lundgren, Ph.D.<sup>2</sup>, 1. University of Missouri-Kansas City, 2. University of Missouri*

**International Ballroom, International Level**

**Poster Session 1C**

**PS1**

*Key Words: Behavioral Medicine, Coping, Health Care System*

**(PS1-C51) Cancer Survivorship Planning and Confidence in Women Ending Treatment for Breast Cancer: A Randomized Control Trial**

*Erin O'Hea, Ph.D.<sup>1</sup>, Samantha Creamer, B.S.<sup>2</sup>, Julie Flahive, M.S.<sup>2</sup>, Elizabeth Keating<sup>2</sup>, Tina Harvalson, Ph.D.<sup>3</sup>, Kathryn Edmiston, M.D.<sup>2</sup>, Edwin D. Boudreaux, Ph.D.<sup>2</sup>, 1. Stonehill College and UMASS Medical School, 2. UMASS Medical School, 3. Tridium*

**(PS1-C52) The Role of Psychological Distress and Intolerance of Uncertainty in Medical Decision Making for BRCA Mutation Carriers**

*Christie Kincaid, Psy.D.<sup>1</sup>, Elana Maurin, Ph.D.<sup>2</sup>, Edward Shearin, Ph.D.<sup>2</sup>, 1. KRCC, 2. American School of Professional Psychology*

- (PS1-C54) Mediators of Change in a Randomized Controlled Trial of a Cognitive Behavioral Therapy Group Targeting Medical Transition Readiness**  
*Kate L. Herts, Ph.D.<sup>1</sup>, Annette Stanton, Ph.D.<sup>2</sup>, 1. Weill Cornell Medicine, 2. University of California Los Angeles*
- (PS1-C55) Sign Language and Deaf Cultural Identity as Protective Factors Against Psychological Maladjustment Among Deaf College Students**  
*Victoria A. Popov, B.S., M.S., Lindsay S. Schenkel, Ph.D., Rochester Institute of Technology*
- (PS1-C56) RCT Examining Breast Cancer Survivorship Care Plans: Confidence in Survivorship Information in Relation to SCP Satisfaction**  
*Samantha Creamer, B.S.<sup>1</sup>, Julie Flahive, M.S.<sup>1</sup>, Elizabeth Keating,<sup>1</sup> Kathryn Edmiston, M.D.<sup>1</sup>, Tina Harralson, Ph.D.<sup>2</sup>, Edwin Bourdreaux, Ph.D.<sup>3</sup>, Erin O'Hea, Ph.D.<sup>4</sup>, 1. UMASS Medical School, 2. Tridium, 3. University of Massachusetts, 4. Stonehill College and UMASS Medical School*
- (PS1-C57) Examination of Eating Attitudes and Behaviors Associated With Quality of Life and Body Mass in an Obese Underserved Population: Identification of Unique Treatment Targets**  
*Corby K. Martin, Ph.D.<sup>1</sup>, James Dorling, Ph.D.<sup>2</sup>, John W. Apolzan, Ph.D.<sup>2</sup>, Robert L. Newton, Ph.D.<sup>2</sup>, Candice A. Myers, Ph.D.<sup>2</sup>, Emily F. Mire, M.S.<sup>2</sup>, Kara D. Denstel, M.P.H.<sup>2</sup>, Tina K. Thethi, M.D.<sup>3</sup>, Peter T. Katzmarzyk, Ph.D.<sup>2</sup>, 1. Pennington Biomedical, 2. Louisiana State University, 3. Tulane University*
- (PS1-C58) Cancer-specific Distress Is Associated With Perceived (but Not Objective) Physical Function After Breast Cancer Surgery**  
*Avelina C. Padin, M.A., Janice K. Kiecolt-Glaser, Ph.D., The Ohio State University*
- (PS1-C59) Allodynia, Stress, and Disability in Migraineurs: A Mediation Analysis**  
*Ashley N. Polk, B.A., Todd A. Smitherman, Ph.D., University of Mississippi*
- (PS1-C60) Influence of Exercise on the Network Dynamics of Positive and Negative Affect**  
*Joshua Curtiss, M.A.<sup>1</sup>, Emily E. Bernstein, M.A.<sup>2</sup>, Stefan G. Hofmann, Ph.D.<sup>1</sup>, Richard J. McNally, Ph.D.<sup>2</sup>, 1. Boston University Center for Anxiety and Related Disorders, 2. Harvard University*
- (PS1-C61) Not the Exercise Type? Personality Traits and Anxiety Sensitivity as Predictors of Objectively Measured Physical Activity**  
*Bridget A. Hearon, Ph.D.<sup>1</sup>, Thomas J. Harrison, B.A.<sup>2</sup>, 1. Albright College, 2. Saint Joseph's University*
- (PS1-C62) The Nature, Frequency, and Correlates of Migraine-specific Food Cravings**  
*Samantha P. Spoor, B.S.<sup>1</sup>, Julia M. Hormes, Ph.D.<sup>1</sup>, Natalia Orloff, Ph.D.<sup>2</sup>, Angela Antonikowski, Ph.D.<sup>3</sup>, Karen M. Powers, M.D.<sup>3</sup>, 1. University at Albany, State University of New York, 2. University of California San Diego, 3. Albany Medical College*
- (PS1-C63) In What Ways Does Health-related Quality of Life Motivate People to Adhere to Medical Treatment Plans?**  
*Alexandra Pizzuto, B.A., Alannah Shelby Rivers, B.A., M.A., Keith Sanford, Ph.D., Baylor University*

- (PS1-C64) Psychological Characteristics of Individuals With Chiari Malformation and Ehlers-danlos**  
*Ann Taylor Adams, B.A., Marie L. LePage, Ph.D., Steffi Shi Qing Kong, Converse College*
- (PS1-C65) An Examination of the Individual and Interactive Effects of Distress Intolerance and Working Memory Capacity on Goal Attainment**  
*Hayley E. Fitzgerald, M.A.<sup>1</sup>, Eugenia Gorlin, Ph.D.<sup>2</sup>, Michael W. Otto, Ph.D.<sup>1</sup>, 1. Boston University, 2. Yeshiva University, Ferkauf Graduate School of Psychology*
- (PS1-C66) Cognitive and Affective Predictors of Time to Smoking Lapse After an Acute Health Event: An Application of the Sentinel Event Method**  
*Edwin D. Boudreaux, Ph.D.<sup>1</sup>, Erin O'Hea, Ph.D.<sup>2</sup>, Bo Wang, Ph.D.<sup>3</sup>, Eugene Quinn, Ph.D.<sup>4</sup>, Bruce Becker, M.D.<sup>5</sup>, Brigitte M. Baumann, M.D.<sup>6</sup>, Beth C. Bock, Ph.D.<sup>7</sup>, 1. UMASS Medical School, 2. Stonehill College and UMASS Medical School, 3. University of Massachusetts Medical School, 4. Stonehill College, 5. Warren Alpert Medical School of Brown University, 6. Cooper Medical School of Rowan University, 7. Warren Alpert Medical School of Brown University and Miriam Hospital*
- (PS1-C67) What Motivates People to Follow Medical Treatment Plans? Autonomous Motivation and Perceived Competence Each Have Distinct Effects**  
*Kiley A. Schneider, M.S., Keith Sanford, Ph.D., Baylor University*
- (PS1-C68) Examining the Effect of Acute Aerobic Exercise on Emotion Regulation and Emotional Distress Tolerance**  
*Christopher F. Drescher, Ph.D.<sup>1</sup>, Tyler Laurent, B.S.<sup>2</sup>, Madison K. Knox, B.S.<sup>2</sup>, Caitlin Daigle, B.S.<sup>3</sup>, Christopher R. Berghoff, Ph.D.<sup>4</sup>, Randy Aldret, Other<sup>3</sup>, Gregory Davis, Ph.D.<sup>2</sup>, David Bellar, Ph.D.<sup>2</sup>, Michael J. McDermott, Ph.D.<sup>2</sup>, 1. Augusta University, 2. University of Louisiana at Lafayette, 3. University of Louisiana at Lafayette, 4. University of South Dakota*
- (PS1-C69) Evaluation of a Virtual Reality Tele-rehabilitation Platform for Patients With Traumatic Brain Injury**  
*Georgina Cardenas-Lopez, Psy.D.<sup>1</sup>, Pedro Gamito, Ph.D.<sup>2</sup>, Gaspar Ayora, B.A.<sup>3</sup>, Derian Torres, B.A.<sup>3</sup>, 1. Universidad Nacional Autonoma de Mexico, 2. University of Lusofona, 3. Universidad Nacional Autonoma de Mexico*
- (PS1-C70) Piloting a Lifestyle Intervention for Cardiovascular Health in Midlife Women Living with HIV**  
*Georgia Goodman, B.A.<sup>1</sup>, Greer Raggio, M.P.H., Ph.D.<sup>2</sup>, Gregory Robbins, M.P.H., M.D.<sup>3</sup>, Allison Labbe, Ph.D.<sup>1</sup>, Sara Looby, Ph.D.<sup>4</sup>, Christina Psaros, Ph.D.<sup>1</sup>, 1. Massachusetts General Hospital, 2. National Center for Weight and Wellness, 3. Harvard Medical School/Massachusetts General Hospital, 4. Harvard Medical School*
- (PS1-C71) Item Response Theory (IRT) Analysis of the Hospital Anxiety & Depression Scale-anxiety Subscale (HADS-A) in HIV+ Adults**  
*Estefany C. Saez-Flores, M.S.<sup>1</sup>, C. Andres Bedoya, Ph.D.<sup>2</sup>, Conall O'Cleirigh, Ph.D.<sup>3</sup>, Megan Pinkston-Camp, Ph.D.<sup>4</sup>, Steven Safren, PhD<sup>1</sup>, 1. University of Miami, 2. Harvard Medical School, 3. Massachusetts General Hospital/Harvard Medical School, 4. Brown University*

**(PS1-C72) Asthma Control and Sleep Duration as Predictors of Panic Symptoms, Depressive Symptoms and Suicidality**

*Hannah Nordberg, B.A.<sup>1</sup>, Juliet Kroll, M.A.<sup>1</sup>, Matti Miller,<sup>1</sup> Yumna Furqan,<sup>1</sup> Kayla Kostroske,<sup>1</sup> Alexis Jones,<sup>1</sup> Hadleigh Nelson,<sup>1</sup> Thomas Ritz, Ph.D.<sup>2</sup>, 1. Southern Methodist University, 2. SMU*

**(PS1-C73) Contribution of Optimism, Self-efficacy, and Religious Coping to Chronic Pain**

*Nate Mitchell, Ph.D., Anna Grace Cooper, M.A., Colin Seymour, M.A., Christina Thomas, Jennifer Paige, Ryan McPeak, Sydney Black, M.A., Spalding University*

**(PS1-C74) Associations Among State and Trait Hope, Optimism, and Chronic Pain**

*Nate Mitchell, Ph.D., Colin Seymour, M.A., Christina Thomas, Sydney Black, M.A., Jennifer Paige, Ryan McPeak, Anna Grace Cooper, M.A., Victoria Dickerson, Spalding University*

**International Ballroom, International Level**

**Poster Session 1D**

**PS1**

Key Words: Anxiety, CBT, Change Process / Mechanisms

**(PS1-D75) Reward Sensitivity Predicts Treatment Outcomes for Anxious Youth**

*Lesley A. Norris, M.A., Kate E. Phillips, B.A., Jonathan Rabner, M.A., Rebekah J. Mennies, M.A., Philip Kendall, PhD, Temple University*

**(PS1-D76) Understanding the Link Between Anxiety and a Neural Marker of Anxiety (the Error-related Negativity) in 5- to 7-year-old Children**

*Lyndsey J. Chong, B.A., Alexandria Meyer, Ph.D., Florida State University*

**(PS1-D77) Predicting Anxiety Impairment in Youths: The Role of Anxiety Sensitivity and Experiential Avoidance**

*Margaret E. Crane, M.A., Philip Kendall, Ph.D., Temple University*

**(PS1-D78) Maternal Borderline Personality Disorder Symptomology, Parenting Behavior, and Child Anxiety Risk**

*Sydney M. Risley, M.A., Madison Hannapel, Lauren Jones, B.A., Elizabeth Kiel, Ph.D., Miami University*

**(PS1-D79) Attentional Control Deficits in Anxious Youth: The Relationship Between Core Components of Executive Function and Anxiety at the Screening Level**

*Madeleine Rassaby, B.A.<sup>1</sup>, Alex E. Keller, B.A., M.A.<sup>2</sup>, David Langer, Ph.D.<sup>2</sup>, Donna Pincus, Ph.D.<sup>2</sup>, 1. Center for Anxiety and Related Disorders, Boston University, 2. Child Center for Anxiety and Related Disorders, Boston University*

**(PS1-D80) Therapeutic Process Predictors of Outcomes in a Randomized Controlled Trial of School-based CBT for Pediatric Anxiety**

*EB Caron, Ph.D.<sup>1</sup>, Heather R. Souer, B.A.<sup>1</sup>, Kelly L. Drake, Ph.D.<sup>2</sup>, Jeffrey E. Pella, Ph.D.<sup>1</sup>, Golda S. Ginsburg, Ph.D.<sup>1</sup>, 1. University of Connecticut Health Center, 2. Johns Hopkins University*

- (PS1-D81) The Self-efficacy During Exposure – Child (SEE-C) Measure: The Development and Pilot Field Testing**  
*Mary Kathryn M. Cancilliere, M.S., Ellen Flannery-Schroeder, ABPP, Ph.D., University of Rhode Island*
- (PS1-D82) Caregiver-child Coping Response Discrepancies and Outcome in Cognitive-behavioral Therapy For Youth Anxiety and Depression**  
*Michael Friedman, B.A.<sup>1</sup>, H. Gemma Stern, B.S.<sup>1</sup>, Brian C. Chu, Ph.D.<sup>2</sup>, 1. Graduate School of Applied and Professional Psychology, Rutgers State University of New Jersey, 2. Graduate School of Applied and Professional Psychology, Rutgers University*
- (PS1-D83) Effortful Control, Anxiety Sensitivity, and Child Anxiety Symptom Severity in a Sample of Children With Anxiety Disorders**  
*Elizabeth M. Raines, B.A., Erika S. Trent, B.S., Emma C. Woodward, M.A., Abigail E. Candelari, M.A., Andres G. Viana, ABPP, Ph.D., University of Houston*
- (PS1-D84) The Role of Parasympathetic Nervous System Reactivity in the Association Between Interpretive Biases and Childhood Anxiety Symptom Severity**  
*Erika S. Trent, B.S.<sup>1</sup>, Elizabeth M. Raines, B.A.<sup>1</sup>, Emma C. Woodward, M.A.<sup>1</sup>, Abigail E. Candelari, M.A.<sup>1</sup>, Andres G. Viana, ABPP, Ph.D.<sup>1</sup>, Eric A. Storch, Ph.D.<sup>2</sup>, Michael Zvolensky, Ph.D.<sup>1</sup>, 1. University of Houston, 2. Baylor College of Medicine*
- (PS1-D85) Childhood Anxiety Sensitivity, Fear Responding, and Fear Regulation: Vagal Suppression as a Moderator of Risk**  
*Erika S. Trent, B.S.<sup>1</sup>, Andres G. Viana, ABPP, Ph.D.<sup>1</sup>, Elizabeth M. Raines, B.A.<sup>1</sup>, Emma C. Woodward, M.A.<sup>1</sup>, Abigail E. Candelari, M.A.<sup>1</sup>, Eric A. Storch, Ph.D.<sup>2</sup>, Michael Zvolensky, Ph.D.<sup>1</sup>, 1. University of Houston, 2. Baylor College of Medicine*
- (PS1-D86) The Associations Between Anxiety and Friendship Quality in Adolescence: A Meta-analytic Review**  
*Meghan Huang, M.A., Lisa Starr, Ph.D., University of Rochester*
- (PS1-D87) Associations Between Social Anxiety Severity and Visual Attention Towards Eye Regions of Emotional Faces: Insights from Eye-tracking**  
*Nicole N. Capriola-Hall, M.S.<sup>1</sup>, Thomas Ollendick, Ph.D.<sup>2</sup>, Susan White, Ph.D.<sup>1</sup>, 1. The University of Alabama, 2. Virginia Polytechnic Institute and State University*
- (PS1-D88) Sleep Problems Mediate the Relationship Between Emotion Regulation and Clinical Outcomes in an Adolescent Inpatient Population**  
*Afsoon Gazor, M.A.<sup>1</sup>, Elizabeth Hartwig, B.A.<sup>2</sup>, Cara Palmer, Ph.D.<sup>3</sup>, Michelle Patriquin, Ph.D.<sup>1</sup>, 1. The Menninger Clinic, 2. Loyola University Chicago, 3. Montana State University*
- (PS1-D89) Adolescent and Mother Perceptions of Conflict: Discrepancies in Perception and Social Competence**  
*Lauren E. Hauck, B.A., Sebastian Szollos, B.A., Nina S. Mounts, Ph.D., Northern Illinois University*
- (PS1-D90) Clinical Factors Associated With Emotion Regulation Deficits in Anxious Youth**  
*Erin E. O'Connor, Ph.D., Abbe Garcia, Ph.D., Alpert Medical School of Brown University*

**(PS1-D91) Multiple Assessments of Temperament Longitudinally Predict Social**

**Anxiety Symptoms: A Structural Equation Model**

*Randi A. Phelps, M.A., Elizabeth Kiel, Ph.D., Miami University*

**(PS1-D92) Illness Pathways Between Anxious and Depressive Symptoms in Children**

*Angela H. Lee, M.S., Kathryn Mills, Ph.D., University of Oregon*

**(PS1-D93) Parenting Style Predicts Changes in Anxiety Symptoms Across Development: Results from a 2-year Longitudinal Study**

*Isaac A. Mirzadegan, B.A., Greg Hajcak, Ph.D., Alexandria Meyer, Ph.D., Florida State University*

**(PS1-D94) Repetitive Negative Thinking as a Mediator of the Relationship Between Parent Anxiety and Maladaptive Parenting Behaviors**

*Elizabeth Casline, M.S.<sup>1</sup>, Zabin S. Patel, M.P.H., M.S.<sup>1</sup>, Kiara R. Timpano, Ph.D.<sup>2</sup>, Amanda Jensen-Doss, Ph.D.<sup>1</sup>, 1. University of Miami, 2. Department of Psychology; University of Miami*

**(PS1-D95) State Tiredness Predicts Emotional Reactions to Hyperventilation and Sadness Induction Tasks Among Adolescents**

*Anna Marie T. Nguyen, Rebecca Campbell, B.S., Teah-Marie R. Bynion, M.A., Matthew Feldner, Ph.D., Ellen Leen-Feldner, Ph.D., University of Arkansas*

**(PS1-D96) Testing Beliefs About Differential Response Rates**

*Jonathan Rabner, M.A., Lesley A. Norris, M.A., Philip Kendall, Ph.D., Temple University*

**(PS1-D97) The Identification of Bridge Symptoms Amongst the Big Three Pediatric Anxiety Disorders: A Network Perspective**

*Katherine E. Phillips, B.S.<sup>1</sup>, Matti Cervin, M.S.<sup>2</sup>, Lesley A. Norris, M.A.<sup>1</sup>, Philip Kendall, Ph.D.<sup>1</sup>, 1. Temple University, 2. Lund University*

**(PS1-D98) Examining the Role of Social Acceptance and Physiological Hyperarousal in the Relation Between Academic Stress and Anxiety Among Adolescents in India**

*Mackenzie Trevethan, B.A.<sup>1</sup>, Anjali Jain, M.A.<sup>1</sup>, Aaron Luebke, Ph.D.<sup>1</sup>, Anuradha Sathiyaseelan, Ph.D.<sup>2</sup>, Vaishali Raval, Ph.D.<sup>1</sup>, 1. Miami University, 2. Christ University*

**(PS1-D99) The Differential Impact of Mothers' Self-report vs. Physiological Emotion Dysregulation and Anxiety Symptoms on Anxiety-relevant Emotion Socialization**

*Natalee Price, B.S., Lauren Jones, B.A., Elizabeth Kiel, Ph.D., Miami University*

**(PS1-D100) Child-reported Insomnia and Children's Heart-rate Variability Are Both Related to Self-reported Internalizing Concerns: Evidence for Allostatic Load Theory in Children**

*Kristen Torres,<sup>1</sup> Jacob Holzman, Ph.D.<sup>2</sup>, Gabrielle Fabrikant-Abzug,<sup>1</sup> Emily Harrington, M.A.<sup>1</sup>, Sarah Kennedy, Ph.D.<sup>3</sup>, Benjamin Mullin, Ph.D.<sup>4</sup>, Jessica Malmberg, Ph.D.<sup>4</sup>, 1. Children's Hospital Colorado, 2. University of Colorado Anschutz Medical Campus, 3. University of Colorado School of Medicine, 4. University of Colorado, School of Medicine*

## International Ballroom, International Level

## Poster Session 2A

## PS2

Key Words: Addictive Behaviors, Trauma, Substance Abuse

**(PS2-A1) Differential Influence of Stress Induction on Physiological and Psychological Reactivity Between Trauma-exposed Daily and Non-daily Caffeine Users***Nathan T. Kearns, M.S., Sonja Hunter, Hanan Rafiuddin, B.A., Caitlyn N. Carey, B.S., Ateka A. Contractor, Ph.D., Heidemarie Blumenthal, University of North Texas***(PS2-A2) Developing and Evaluating a Targeted Cognitive Remediation Treatment for Substance Use Disorders***Allison M. Stuppy-Sullivan, M.S., Arielle Baskin-Sommers, Ph.D., Yale University***(PS2-A3) Urgency, Emotion Dysregulation, and Substance-use Related Impairment Among Alcohol and Marijuana Using College Students***Jordan Skalisky, M.S., Benjamin D. Johnson, B.A., Amy H. Mezulis, Ph.D., Seattle Pacific University***(PS2-A4) Alcohol Motives Mediate the Relationship Between Emotional Clarity and Negative Outcomes Among Alcohol and Marijuana Using College Students***Jordan Skalisky, M.S., Benjamin D. Johnson, B.A., Jaclyn T. Aldrich, M.A., M.S., Amy H. Mezulis, Ph.D., Seattle Pacific University***(PS2-A5) Bringing Community Problems out of the Shadows or Fueling the Stigma? Impact of Opioid Overdose Photos on Addiction Stigma, Explicit Bias, Willingness to Help, and Support for Policy Items***Anne Parent, B.A., Maureen Carrigan, Ph.D., Adam Pazda, Ph.D., Edward Callen, Ph.D., University of South Carolina Aiken***(PS2-A6) Examining the Temporal Associations Between Nightly Alcohol Use and Next-day Valued Living: A Daily Diary Study***Jeffrey Pavlacic, B.A., Laura J. Dixon, Ph.D., Stefan Schulenberg, Ph.D., University of Mississippi***(PS2-A7) Relations Among Coping Motives, Negative Urgency, and Protective Skills in College Drinkers***Dennis Hoyer, M.A., Christopher J. Correia, Ph.D., Auburn University***(PS2-A8) Distress Intolerance and Withdrawal Severity Among Daily Smokers: The Role of Smoking Abstinence Expectancies***Rachel L. Rosen, B.S.<sup>1</sup>, Allison M. Borges, M.S.<sup>1</sup>, Marc L. Steinberg, Ph.D.<sup>2</sup>, Teresa M. Leyro, Ph.D.<sup>1</sup>, Samantha G. Farris, Ph.D.<sup>3</sup>, 1. Rutgers University, 2. Rutgers Robert Wood Johnson Medical School, 3. Rutgers, The State University of New Jersey*

**(PS2-A9) Unpacking the Real-world Temporal Dynamics of Anxiety and Craving During Treatment for Cannabis Use Disorder**

*Philip Himmelstein, B.S., Stephanie E. Wemm, Ph.D., Nia Fogelman, Ph.D., Rajita Sinha, Ph.D., Yale School of Medicine*

**(PS2-A10) Exercise as a Moderator in the Relationship Between Alcohol Consumption and Consequences of Drinking**

*Russell Sorenson, M.S., Ashley R. McWaters, M.S., Peter Vik, Ph.D., Pacific University*

**(PS2-A11) Rack 'em Up: Assessing Variability in Drinking Game Behavior Preparation Using a Free-pour Procedure**

*Celyn Jones, Lola Mahner, Noelle Johnson, Olivia Trehern, Nicole Schultz, M.A., Christopher J. Correia, Ph.D., Auburn University*

**(PS2-A12) Relations Between Parental Distress Intolerance, Adolescent Motives for Cigarette Use, and Adolescent Cigarette Smoking Levels**

*Sarah A. Bilsky, Ph.D., Ashley Karlovich, B.A., Madeleine S. Smith, B.A., University of Arkansas*

**(PS2-A13) Alcohol Use and Drinking-related Eating Restriction Behaviors Among College Students**

*Peter Preonas, M.S., Amy Stamates, M.S., Kenacia Goings, Sean Cox, Cathy Lau-Barraco, Ph.D., Old Dominion University*

**(PS2-A14) Daily Fluctuations in Alcohol Expectancies and Affect Are Related to Alcohol Use Among College Students**

*Peter Preonas, M.S.<sup>1</sup>, Amy Stamates, M.S.<sup>1</sup>, Rhiannon Roberts,<sup>1</sup> Ashley Linden-Carmichael, Ph.D.<sup>2</sup>, Cathy Lau-Barraco, Ph.D.<sup>1</sup>, 1. Old Dominion University, 2. The Pennsylvania State University*

Key Words: *Aggression / Disruptive Behavior / Conduct Problems, Child, Parent Training*

**(PS2-C51) Are Callous-unemotional Traits Associated With Differential Response to Reward Versus Punishment Components of Parent-training? A Randomized Trial**

Camilo Ortiz, Ph.D.<sup>1</sup>, David Hawes, Ph.D.<sup>2</sup>, Michael Lorber, Ph.D.<sup>3</sup>, Sarah Lazer, Psy.D.<sup>4</sup>, Laurie Miller Brotman, Ph.D.<sup>3</sup>, Devora Samet, M.S.<sup>4</sup>, 1. Ortiz, 2. The University of Sydney, 3. NYU Langone Medical Center, 4. Long Island University - Post

**(PS2-C52) Treatment of Disruptive Behavior in a Community-based Training Clinic**

Lauren Delk, M.S.<sup>1</sup>, Alyssa Gatto, M.S.<sup>2</sup>, Lee Cooper, Ph.D.<sup>1</sup>, 1. Virginia Polytechnic Institute and State University, 2. Virginia Tech

**(PS2-C53) Ratings of Externalizing Symptoms Effect Parent-child Agreement on Internalizing Symptoms Throughout Treatment**

Charlotte Brown, <sup>1</sup>, Alyssa Gatto, M.S.<sup>2</sup>, Lee Cooper, Ph.D.<sup>1</sup>, 1. Virginia Polytechnic Institute and State University, 2. Virginia Tech

**(PS2-C54) Disruptive Behavior Treatment Progress in Youth Usual Care as a Function of Individual Practices Derived From the Evidence Base for Disruptive Behavior and Depressed Mood**

Daniel Wilkie, M.A.<sup>1</sup>, Austen Taylor K. Matro, B.A.<sup>2</sup>, Charles Mueller, Ph.D.<sup>3</sup>, 1. University of Hawaii at Manoa, 2. University of Hawai'i at Manoa, 3. University of Hawai'i at Manoa

**(PS2-C55) Practices Derived From the Evidence Base for Depressed Mood Predict Disruptive Behavior Progress in Usual Care for Both Preadolescent and Adolescent Youth**

Daniel Wilkie, M.A.<sup>1</sup>, Kalyn L. Holmes, B.S.<sup>2</sup>, Charles Mueller, Ph.D.<sup>2</sup>, 1. University of Hawaii at Manoa, 2. University of Hawai'i at Manoa

**(PS2-C56) The Effect of Executive Function Deficits on Treatment Response in****Children with Oppositional Defiant Disorder**

Savannah L. King, B.A.<sup>1</sup>, Nicole Ferretti, B.S.<sup>1</sup>, Matthew Jarrett, Ph.D.<sup>1</sup>, Thomas Ollendick, Ph.D.<sup>2</sup>, 1. The University of Alabama, 2. Virginia Polytechnic Institute and State University

**(PS2-C57) Examining the Effects of Transdiagnostic CBT on Anger Dysregulation in Youth with Comorbid Emotional and Externalizing Disorders**

Elizabeth Halliday, BS, Jill Ehrenreich-May, Ph.D., University of Miami

**(PS2-C58) Do Different Indices of Working Memory Moderate the Relation Between Community Violence Exposure and Youth Aggression?**

Rafaella Jakubovic, B.S., Deborah Drabick, Ph.D., Temple University

**(PS2-C59) Moderating Effects of Resilience on Externalizing Behavior Problems in Children Exposed to Adverse Experiences**

Laura Deem, B.A., Anna Yeo, M.A., Atara Siegel, M.A., Leslie Halpern, Ph.D., University at Albany, State University of New York

**(PS2-C60) Youth With Sexual Misconduct Receive Greater Volumes and Diversity of Treatment Foci and Therapeutic Practices Within Usual Care**

Austen Taylor K. Matro, B.A.<sup>1</sup>, Daniel Wilkie, M.A.<sup>2</sup>, Kalyn L. Holmes, B.S.<sup>3</sup>, Henri-Lee Stalk, Ph.D.<sup>1</sup>, Charles Mueller, Ph.D.<sup>3</sup>, 1. University of Hawai'i at Manoa, 2. University of Hawaii at Manoa, 3. University of Hawai'i at Manoa

**(PS2-C61) Perceptual Bias as a Predictor of Rule Violating Behavior Among Juvenile Offenders**

Kimberly G. Barajas, B.S., Stephanie D. Smith, Ph.D., University of Southern Mississippi

**(PS2-C62) Parental and Child Emotion Regulation and Their Impact on Adolescent Externalizing Behavior**

Sarah Ryan Radtke, M.S., Alexis Brieant, M.S., Jungmeen Kim-Spoon, Ph.D., Thomas Ollendick, Ph.D., Virginia Polytechnic Institute and State University

**(PS2-C63) Parental Depression and Child Treatment Response: Parental Stress and Parenting as Mechanisms**

Emilie Bertschinger, B.A., Jeffrey D. Burke, Ph.D., University of Connecticut

**(PS2-C64) Emotion Regulation of Children with Mothers of Anxiety or Traumatic Disorders vs. Children with Mothers Without Anxiety or Traumatic Disorders**

Madeleine S. Smith, B.A., Sarah A. Bilsky, Ph.D., Ashley Karlovich, B.A., Riley Gourmay, Matthew Feldner, Ph.D., Ellen Leen-Feldner, Ph.D., University of Arkansas

**(PS2-C65) Youth with Sexual Misconduct Have Longer and More Restrictive Treatments, Higher Levels of Impairment, and More Diagnoses Than Other Youth in Community Care**

Leeyannah Armaine Santos,<sup>1</sup> Austen Taylor K. Matro, B.A.<sup>2</sup>, Henri-Lee Stalk, Ph.D.,<sup>2</sup> Charles Mueller, Ph.D.<sup>1</sup>, 1. University of Hawai'i at Manoa, 2. University of Hawai'i at Manoa

**(PS2-C66) A Preliminary Investigation of Facial Affect Sensitivity Training for Young Children with CU Traits**

Bradley White, Ph.D.<sup>1</sup>, Breanna Dede, B.A.<sup>1</sup>, Meagan Heilman, M.A.<sup>1</sup>, Lauren Delk, M.S.<sup>2</sup>, Susan White, Ph.D.<sup>1</sup>, Chuong Bui, Ph.D.<sup>1</sup>, 1. The University of Alabama, 2. Virginia Polytechnic Institute and State University

**(PS2-C67) Emerging Psychopathic Traits in Youth: What Roles Do Fearless****Temperament and Specific Parenting Behaviors Play?**

Breanna Dede, B.A.<sup>1</sup>, Meagan Heilman, M.A.<sup>1</sup>, Lauren Delk, M.S.<sup>2</sup>, Bradley White, Ph.D.<sup>1</sup>,  
1. The University of Alabama, 2. Virginia Polytechnic Institute and State University

**(PS2-C68) Psychopathic Tendencies and Facial Emotion Recognition Deficits in Young Children**

Meagan Heilman, M.A.<sup>1</sup>, Breanna Dede, B.A.<sup>1</sup>, Lauren Delk, M.S.<sup>2</sup>, Bradley White, Ph.D.<sup>1</sup>,  
1. The University of Alabama, 2. Virginia Polytechnic Institute and State University

**(PS2-C69) Maternal Affective Knowledge and Preschooler's Social Skills as Moderators of the Relationship Between Inconsistent Parenting and Externalizing Behaviors in Preschool-aged Children**

Alison Chapman, M.A., Monique M. LeBlanc, Ph.D., Southeastern Louisiana University

**(PS2-C70) Child Callous-unemotional Traits as a Moderator in the Relation Between Parental Distress and Parenting Sense of Competency**

Alexis Fuller, B.S.<sup>1</sup>, Robyn S. Herbert, M.S.<sup>2</sup>, Tammy D. Barry, Ph.D.<sup>2</sup>, 1. Central Washington University, Washington State University, 2. Washington State University

**(PS2-C71) Psychometric Properties and Proposed Norms for Parent Ratings of Elementary Age Children on the Inventory of Callous-unemotional Traits**

Daniel A. Waschbusch, Ph.D.<sup>1</sup>, Pevitr S. Bansal, B.S.<sup>2</sup>, Dara E. Babinski, Ph.D.<sup>1</sup>, 1. Penn State Hershey Medical Center, 2. University of Kentucky

**(PS2-C72) Does Temperament Moderate the Relationship Among Bi-dimensional ODD and Parenting**

Jenika Hardeman, M.A., M.S., Deborah Drabick, Ph.D., Temple University

**(PS2-C73) Patient Ratings of Healthcare Provider Quality and Content of Discussion at End of Treatment: An RCT Comparing the Polaris Oncology Survivorship Transition (POST) Program versus TAU**

Shannon R. Williamson,<sup>1</sup> Samantha Creamer, B.S.<sup>2</sup>, Julie Flahive, M.S.<sup>2</sup>, Elizabeth Keating,<sup>2</sup> Candice Crocker, Ph.D.<sup>3</sup>, Kathryn Edmiston, M.D.<sup>2</sup>, Edwin D. Boudreaux, Ph.D.<sup>2</sup>, Erin O'Hea, Ph.D.<sup>4</sup>, 1. Stonehill College, 2. UMASS Medical School, 3. DalHousie University, 4. Stonehill College and UMASS Medical School

**(PS2-C74) Developing Local Norms For a Statewide System of Care: Leveraging Ohio Scales Youth Externalizing Scores in Clinical and Community Samples**

Tristan J. Maesaka, B.A.<sup>1</sup>, Jonathan K. Ahuna, B.A.<sup>1</sup>, David S. Jackson, Ph.D.<sup>2</sup>, Liam O. Mueller, B.S.<sup>3</sup>, Trina Orimoto, Ph.D.<sup>4</sup>, Charles Mueller, Ph.D.<sup>1</sup>, 1. University of Hawai'i at Manoa, 2. State of Hawai'i Child and Adolescent Mental Health Division, 3. The University of Tennessee, Knoxville, 4. Child and Adolescent Mental Health Division, Department of Health Hawaii

**(PS2-C75) Gender, Age, and Level of Impairment Predict Strength-based Treatment Focus in Children's Community Mental Health**

Jonathan K. Ahuna, B.A., Emilee H. Turner, M.A., Charles Mueller, Ph.D., University of Hawai'i at Manoa

Poster Session 2D

PS2

Key Words: PTSD (Posttraumatic Stress Disorder), Abuse / Maltreatment, Military

**(PS2-D76) Reports of Childhood Emotional Neglect and Military Unit Cohesion as Predictors of PTSD in Deployed Marines**

Breanna Grunthal, B.A.<sup>1</sup>, Stephanie A. Ellickson-Larew, Ph.D.<sup>2</sup>, Alanna Coady, <sup>2</sup>, Jessica Carney, B.A.<sup>2</sup>, Brett Litz, Ph.D.<sup>2</sup>, 1. Boston VA Healthcare System, 2. VA Boston Healthcare System

**(PS2-D77) Public Stigma For Women and Men Veterans: Empathy, Gender Role Beliefs, and Veteran Control**

Ray Daniel, B.S., Sean A. Lauderdale, Ph.D., Lexis Ely, Texas A & M- Commerce

**(PS2-D78) Examining the Relationship Between Activity Engagement, Pain Willingness, and Depressive Symptoms Among Veterans Experiencing Chronic Pain**

Mary E. Hammons, Ph.D.<sup>1</sup>, Jennifer L. DelVentura, ABPP, Ph.D.<sup>2</sup>, Sheila Rauch, Ph.D.<sup>3</sup>, 1. US Department of Veterans Affairs, 2. Atlanta VA Health Care System; Emory University School of Medicine, 3. Emory University School of Medicine

**(PS2-D79) Gender Moderates the Association Between Military Sexual Trauma and Posttraumatic Stress Disorder Symptom Cluster Severity**

Hallie S. Tannahill, B.A., Jamison Fargo, Ph.D., Rebecca Blais, Ph.D., Utah State University

**(PS2-D80) Ethnoracial Differences in Nicotine Use Among Military Sexual Trauma Survivors**

Katherine Fedele, Ph.D., Heather M. Cochran, Ph.D., Minden B. Sexton, Ph.D., Ann Arbor Veterans Healthcare System

**(PS2-D81) Nonsuicidal Self-injury Among Treatment-seeking Veterans Following Military Sexual Trauma: Relationships with Demographic, Service-related, Diagnostic, and Trauma Exposure Characteristics**

Chelsea D. Cawood, Ph.D.<sup>1</sup>, Rebecca Lusk, ABPP, Psy.D.<sup>1</sup>, Diana C. Bennett, Ph.D.<sup>2</sup>, Minden B. Sexton, Ph.D.<sup>1</sup>, 1. Ann Arbor Veterans Healthcare System, 2. New Mexico VA

**(PS2-D82) Associations Between MST, Hazardous Drinking, IPV, and PTSD in a Sample of Women Veterans Presenting to VA Primary Care**

Mollie E. Shin, B.A.<sup>1</sup>, Morgan R. Bennett, B.S.<sup>1</sup>, Kathryn R. Roe, B.A.<sup>1</sup>, Nicole D'Aoust,<sup>2</sup> Golfo Wernette Tzilos, Ph.D.<sup>3</sup>, Lindsay Orchowski, Ph.D.<sup>4</sup>, Christopher Kahler, Ph.D.<sup>5</sup>, M. VISN 17 Center of Excellence for Research on Returning War Veterans, 2. Baylor University, 3. University of Michigan Medical School, 4. Alpert Medical School of Brown University, 5. Brown University School of Public Health, 6. Dell Medical School, 7. Dell Medical School of the University of Texas at Austin

- (PS2-D83) The Pen Is Mightier Than the Sword: Qualitative Analyses of Supportive Messages in a Peer Suicide Prevention Intervention for Veterans**  
*Andrew Ton, B.A.<sup>1</sup>, Sarah P. Bricker-Carter, Ph.D.<sup>2</sup>, Rebecca Leitner, MSW<sup>1</sup>, Lori Zoellner, Ph.D.<sup>3</sup>, Natalie Mizik, Ph.D.<sup>3</sup>, Mark A. Reger, Ph.D.<sup>2</sup>, 1. US Department of Veterans Affairs, 2. VA Puget Sound Health Care System, 3. University of Washington, Seattle*
- (PS2-D84) The Role of Posttraumatic Cognitions in PTSD Treatment Selection and Completion Among Survivors of Military Sexual Trauma**  
*Diana C. Bennett, Ph.D.<sup>1</sup>, Kathryn Smagur, Ph.D.<sup>2</sup>, Katherine Porter, Ph.D.<sup>2</sup>, Erin Smith, Ph.D.<sup>2</sup>, Minden B. Sexton, Ph.D.<sup>2</sup>, 1. New Mexico VA, 2. Ann Arbor Veterans Healthcare System*
- (PS2-D85) The Role of Patient Experience in Obtaining High Quality Mental Health Treatment Among Women Veterans**  
*Fernanda S. Rossi, Ph.D.<sup>1</sup>, Sarah Javier, Ph.D.<sup>1</sup>, Rachel Kimerling, Ph.D.<sup>2</sup>, 1. Stanford University/Veterans Affairs Palo Alto Health Care System, 2. Veterans Affairs Palo Alto Health Care System*
- (PS2-D86) Emotion Dysregulation Mediates the Association Between PTSD Severity and Stress-induced Alcohol Craving Among Women Veterans**  
*Ashley C. Sherrill, M.S.<sup>1</sup>, Cathryn Holzhauer, Ph.D.<sup>1</sup>, Elizabeth Epstein, Ph.D.<sup>2</sup>, David Smelson, Psy.D.<sup>2</sup>, Kristin Mattocks, Ph.D.<sup>1</sup>, 1. Veteran Affairs Central Western Massachusetts, 2. University of Massachusetts Medical School*
- (PS2-D87) Use of the Patient-reported Outcomes Measurement Information System in a Veteran Population**  
*Emerson G. West, B.S., Yue Doris Hong, Psy.D., Ashleigh Conroy-Zugel, Mary Alexis Iaccarino, M.D., Erika L. Clark, Ph.D., Massachusetts General Hospital*
- (PS2-D88) Improving Veteran Post-psychiatric Hospitalization Care Among Frequent Utilizers: Can a Critical Time Intervention Make a Difference?**  
*Alisha Wray, Ph.D.<sup>1</sup>, Tim Hoyt, Ph.D.<sup>2</sup>, 1. Baylor University, 2. National Center of Telehealth and Technology*
- (PS2-D89) Effect of Sexual Re-victimization on Treatment Outcomes in Veterans in a 3-week Intensive Treatment Program for PTSD**  
*Jenna M. Bagley, B.S., B.A.<sup>1</sup>, Vanessa Tirone, Ph.D.<sup>1</sup>, Ashton Lofgreen, Ph.D.<sup>1</sup>, Kathryn K. Carroll, LCSW<sup>2</sup>, Philip Held, Ph.D.<sup>1</sup>, 1. Rush University Medical Center, 2. Rush University Medical Center Road Home Program*
- (PS2-D90) Treatment Response Trajectories in a Three-week Cpt-based Intensive Treatment Program for Veterans with PTSD**  
*Jenna M. Bagley, B.S., B.A., Dale Smith, Ph.D., Philip Held, Ph.D., Randy A. Boley, B.A., Mark Pollack, M.D., Rush University Medical Center*
- (PS2-D91) Assessment of Mental Health Needs and Treatment Utilization Among Veteran College Students**  
*Lindsey Chesus, M.A., Sam Worrall, M.S., Christina Hassija, Ph.D., California State University, San Bernadino*
- (PS2-D92) Event Centrality, Posttraumatic Stress, and Suicide Risk Among U.S. Military Veterans**  
*Lauren B. Johnson, M.S., Drexel University*

(PS2-D93) Effects of Brief Mindfulness Induction on Experimentally Induced Anxiety  
Solomon Plonka, B.A., Michael Moore, Ph.D., Adelphi University

11:30 a.m. – 12:30 p.m.

## International Ballroom, International Level

### Poster Session 3A

### PS3

Key Words: *Women's Issues, Personality Disorders, Borderline Personality Disorder*

(PS3-A1) Gender Discrepancies in Provision of Borderline Personality Disorder Diagnoses in Patients With Suicidality and Treatment-resistant Depression  
Rebecca R. Seidemann, B.A.<sup>1</sup>, Rachel E. Hershenberg, Ph.D.<sup>2</sup>, 1. Emory University School of Medicine, 2. Emory University

(PS3-A2) The Interaction Between Borderline Personality Disorder Traits and Fear of Negative Evaluation: A Daily Examination Predicting Anger, Anger Rumination, Acting on Anger, and Anxiety  
Matison W. McCool, B.S.<sup>1</sup>, Brian A. Bulla, M.A.<sup>2</sup>, Nora E. Noel, Ph.D.<sup>1</sup>, Richard S. Pond, Jr., Ph.D.<sup>1</sup>, 1. University of North Carolina Wilmington, 2. University of Southern Mississippi

(PS3-A3) In Their Own Words: A Qualitative Analysis of Symptom Expression in Borderline Personality Disorder  
Julianne Wilner Tirpak, M.A.<sup>1</sup>, Keara Russell,<sup>2</sup> Kayla Furbish, <sup>2</sup>, Alexandra Comeau, M.A.<sup>3</sup>, Sophia D. Castillo, <sup>3</sup>, Shannon Sauer-Zavala, Ph.D.<sup>4</sup>, 1. Boston University, 2. Boston University Center for Anxiety and Related Disorders, 3. Research Assistant, 4. Center for Anxiety and Related Disorders, Boston University

(PS3-A4) Predicting Behavioral Responses to Emotions in Borderline Personality Disorder: An Ecological Momentary Assessment (EMA) Approach  
Nicole D. Cardona, B.A.<sup>1</sup>, Maya Nauphal, B.A.<sup>1</sup>, Shannon Sauer-Zavala, Ph.D.<sup>2</sup>, 1. Boston University Center for Anxiety and Related Disorders, 2. Center for Anxiety and Related Disorders, Boston University

(PS3-A5) Intrapersonal and Interpersonal Emotion Regulation Strategy Use in Borderline Personality Pathology  
Julia R. Richmond, M.A., Tara Spitzen, M.A., Kim Gratz, Ph.D., Matthew T. Tull, Ph.D., University of Toledo

(PS3-A6) The Role of Interpersonal Emotion Regulation in the Relation Between Borderline Personality Pathology and Substance Use Frequency  
Julia R. Richmond, M.A., Ariana Vidaña, B.S., Kim Gratz, Ph.D., Matthew T. Tull, Ph.D., University of Toledo

- (PS3-A7) Intrapersonal and Interpersonal Emotion Regulation Strategy Use in Probable Posttraumatic Stress Disorder, Borderline Personality Disorder, and Their Co-occurrence**  
*Julia R. Richmond, M.A., Ariana Vidaña, B.S., Kim Gratz, Ph.D., Tara Spitzzen, M.A., Matthew T. Tull, Ph.D., University of Toledo*
- (PS3-A8) The Role of Motives for Negative Emotions in the Relationship Between Psychopathic Traits and Sadomasochistic Fantasies**  
*Morgan A. Hill, M.A.<sup>1</sup>, Jennifer C. Veilleux, Ph.D.<sup>2</sup>, 1. University of Arkansas, Department of Psychological Science, 2. University of Arkansas*
- (PS3-A9) Personality Disorders and Rational-emotive Behavior Therapy Outcomes**  
*Amanda M. Fisher, B.A., Natasha Kostek, M.A., Joanne Raptis, B.A., Raymond DiGiuseppe, Ph.D., St. John's University*
- (PS3-A10) Change in Emotions Over the Course of Dialectical Behavior Therapy and the Moderating Effect of Posttraumatic Stress Disorder**  
*Skye Fitzpatrick, Ph.D., Katharine Bailey, B.S., Shireen L. Rizvi, Ph.D., Rutgers University*
- (PS3-A11) Arriving at the Crossroads of Employment-related Dysfunction and Borderline Symptomology in a DBT Outpatient Sample**  
*Kate A. Cohen, B.A.<sup>1</sup>, Hollie G. Granato, Ph.D.<sup>2</sup>, Marget Thomas, Psy.D.<sup>2</sup>, Robert M. Montgomery,<sup>3</sup> Max Stivers, B.A.<sup>1</sup>, Sandra M. Chen, B.A.<sup>1</sup>, Lindsey Thornburg, B.A.<sup>2</sup>, Lynn M. McFarr, Ph.D.<sup>2</sup>, 1. Pepperdine University Graduate School of Education and Psychology, 2. CBT California, 3. CSU Northridge*
- (PS3-A12) A Daily Diary Study of BPD Features and Emotional Reactivity to Interpersonal Events**  
*Madison M. Guter, M.A., Alexandra Long, M.A., Vincent Barbieri, M.A., Nathaniel R. Herr, Ph.D., American University*
- (PS3-A13) The Experience of Emotion in BPD: Subjective Assessment of Physiological Arousal Following Mood-induction and Opposite Action Coping**  
*Alexandra Comeau, M.A.<sup>1</sup>, Shannon Sauer-Zavala, Ph.D.<sup>2</sup>, 1. Boston University Center for Anxiety and Related Disorders, 2. Center for Anxiety and Related Disorders, Boston University*
- (PS3-A14) Interaction Between Sleep and BPD Features in Predicting Self-harm Urges**  
*Elinor E. Waite, B.A., Anne Neary, Lauren Haliczzer, M.A., Katherine L. Dixon-Gordon, Ph.D., University of Massachusetts, Amherst*
- (PS3-A15) Borderline Personality Disorder Symptoms and Emotion Regulation Flexibility in Daily Life**  
*Kayla Scamaldo, M.A., Ilya Yaroslavy, Ph.D., Cleveland State University*
- (PS3-A16) The Impact of Interpersonal Context on Substance Use in Daily Life for Individuals with Borderline Personality Disorder Symptoms**  
*Kayla Scamaldo, M.A., Skye Napolitano, M.A., Ilya Yaroslavy, Ph.D., Cleveland State University*
- (PS3-A17) Callous-unemotional Traits Are Not Related to Reward Seeking**  
*Brianna Mann, B.A., Erick A. Rogers, B.A., Andrew Freeman, Ph.D., University of Nevada, Las Vegas*

**(PS3-A18) Matching Evidence-based Practices to Patient Characteristics in Pediatric Consultation-liaison**

Amanda A. Bowling, M.A., Leslie A. Guzman, Weixi Wang, Sarah Kate Bearman, B.A., Ph.D., The University of Texas at Austin

**(PS3-A19) What Keeps Kids up at Night: Exploring the Indirect Relationship Between Experiential Avoidance, Internalizing Problems, and Sleep Difficulties**

Emily Harrington, M.A.<sup>1</sup>, Jacob Holzman, Ph.D.<sup>2</sup>, Kristen Torres,<sup>1</sup> Gabrielle Fabrikant-Abzug, <sup>1</sup>, Sarah Kennedy, Ph.D.<sup>3</sup>, Benjamin Mullin, Ph.D.<sup>3</sup>, Jessica Malmberg, Ph.D.<sup>3</sup>, 1. Children's Hospital Colorado, 2. University of Colorado Anschutz Medical Campus, 3. University of Colorado School of Medicine

**(PS3-A20) Peer-related Cognitions and Stress Predict Hemoglobin a1c in Youth with Type 1 Diabetes: The Moderating Effect of Changing Schools**

Mary Keenan, B.A.<sup>1</sup>, Jessica Cook, Ed.S.<sup>1</sup>, Kimberly Klages, M.S.<sup>1</sup>, Katherine Semenkovich, M.S.<sup>1</sup>, Tiffany Rybak, M.S.<sup>1</sup>, Ramin Alemzadeh, M.D.<sup>2</sup>, Angelica Eddington, Ph.D.<sup>2</sup>, 1. University of Memphis, 2. Le Bonheur Children's Hospital

**(PS3-A21) Preliminary Validation of the Intent to Exercise Scale for Early Adolescence**

Chelsy S. Simmons, B.S., Thomas J. Parkman, M.S., Adam T. Schmidt, Ph.D., Jason Van Allen, Ph.D., Elizabeth Morger, Ryan D'Souza, Texas Tech University

**(PS3-A22) Profiles of Social Information Processing and Psychological Symptoms as Predictors of Glycemic Control and Health-related Quality of Life in Youth with Type 1 Diabetes**

Jessica Cook, Ed.S.<sup>1</sup>, Mary Keenan, B.A.<sup>1</sup>, Kristoffer Berlin, Ph.D.<sup>1</sup>, Rachel Ankney, M.S.<sup>1</sup>, Kimberly Klages, M.S.<sup>1</sup>, Katherine Semenkovich, M.S.<sup>1</sup>, Tiffany Rybak, M.S.<sup>1</sup>, Gabrielle Banks, Ph.D.<sup>1</sup>, Ramin Alemzadeh, M.D.<sup>2</sup>, Angelica Eddington, Ph.D.<sup>2</sup>, 1. University of Memphis, 2. Le Bonheur Children's Hospital

**(PS3-A23) Health Care Professionals Inform the Development of an Internet-delivered Mental Health Program for Children and Adolescents with Cystic Fibrosis: A Qualitative Study**

Hilary A. Power, B.S.<sup>1</sup>, Amanda M. Oliver, B.A.<sup>1</sup>, Shelby S. Shivak, B.A.<sup>1</sup>, Heather Switzer, Ph.D.<sup>2</sup>, Kristi D. Wright, Ph.D.<sup>1</sup>, 1. University of Regina, 2. Saskatchewan Health Authority

**International Ballroom, International Level**

**Poster Session 3B**

**PS3**

Key Words: Grief / Bereavement, Resilience, Case Conceptualization / Formulation

**(PS3-B24) Comparing Grief and Growth Responses in Bereaved, Divorced, and Unemployed Individuals**

Zakieh B. Klurfeld, M.A., Tom Buqo, M.A., William C. Sanderson, Ph.D., Hofstra University

**(PS3-B25) Impact of Sleep Quality on the Effects of Emotion Regulation Strategies**

Anne R. Limowski, M.A., William C. Sanderson, Ph.D., Hofstra University

**(PS3-B26) Cognitive Fusion Moderates the Relationship Between Posttraumatic Beliefs and Posttraumatic Stress Disorder**

Natasha Benfer, B.A., Joseph R. Bardeen, Ph.D., Natalie E. Conboy, Auburn University

**(PS3-B27) Self-discrepancy as a Transdiagnostic Factor Related to Fear- and Distress-based Disorders**

Jabeene Bhimji, Ph.D.<sup>1</sup>, Xiaomeng Xu, Ph.D.<sup>2</sup>, 1. Stanford University, 2. Idaho State University

**(PS3-B28) An Analysis of a Bi-factor versus Two-factor Model of Repetitive Negative Thinking**

Brandon Kosciński, M.A.<sup>1</sup>, Sydney N. Jones,<sup>1</sup> Brad Schmidt, Ph.D.<sup>2</sup>, Nicholas Allan, Ph.D.<sup>1</sup>, 1. Ohio University, 2. Florida State University

**(PS3-B29) The Development and Evaluation of a Brief Shame Intervention Module: Proof of Concept in Social Anxiety Disorder**

E. Marie Parsons, M.A., Elise Clerkin, Ph.D., Miami University

**(PS3-B30) A Latent Profile Analysis of Experiential Avoidance and Depression in Outpatients with Emotional Disorders**

Mengxing Wang, M.A.<sup>1</sup>, Esther S. Tung, M.A.<sup>2</sup>, Shannon Sauer-Zavala, Ph.D.<sup>2</sup>, Todd Farchione, Ph.D.<sup>1</sup>, David Barlow, Ph.D.<sup>3</sup>, 1. Boston University Center for Anxiety and Related Disorders, 2. Center for Anxiety and Related Disorders, Boston University, 3. Boston University

**(PS3-B31) Examining Transdiagnostic Clinical Variables Associated with Anhedonia**

Angela Pisoni, B.A., Moria J. Smoski, Ph.D., Duke University

**(PS3-B32) Changes in Anxiety and Depression Symptoms Across Several Stages of the Unified Protocol for the Transdiagnostic Treatment of Emotional Disorders**

Jorge Osma, Ph.D.<sup>1</sup>, Óscar Peris-Baquero,<sup>2</sup> Carlos Suso-Ribera, Ph.D.<sup>3</sup>, Alba Quilez-Orden, Master Student<sup>4</sup>, Cristina Acuses, Master Student<sup>4</sup>, 1. Universidad de Zaragoza and Instituto de Investigación Sanitaria de Aragón, 2. Instituto de Investigación Sanitaria de Aragón, 3. Universitat Jaume I, 4. Universidad de Zaragoza

**(PS3-B33) Exploring the Narrow Factors of the Tri-level Model of Anxiety and Depression: findings With a Nonclinical Sample**

Anni M. Hasratian, M.A., Alicia Meuret, Ph.D., Michael Chmielewski, Ph.D., Thomas Ritz, Ph.D., Southern Methodist University

**(PS3-B34) Trait Impulsivity and Health Risk Behaviors: A Latent Profile Analysis**

Mary Moussa Rogers, M.A., Cliff McKinney, Ph.D., Mississippi State University

**(PS3-B35) The Role of Emotion Dysregulation in the Ability to Perceive Other People's Emotions**

Kibby McMahon, M.A., Victoria Trimm, Bridget M. Wallace, B.A., Zachary Rosenthal, Ph.D., Duke University

**(PS3-B36) The Cognitive Coping Model of Reinforcement Sensitivity: A Longitudinal Path Analysis**

Benjamin W. Katz, B.A.<sup>1</sup>, Iftah Yovel, M.A., Ph.D.<sup>2</sup>, 1. University of New England, 2. The Hebrew University of Jerusalem

**(PS3-B37) Seasonal Variation in Mood and Anxiety Symptoms in a Transdiagnostic**

**Acute Psychiatric Program**

Kirsten Christensen, B.S.<sup>1</sup>, Bjorn Kvale Sundberg<sup>2,4</sup>, Ivar Snorrason, Ph.D.<sup>1</sup>, Courtney Beard, Ph.D.<sup>2</sup>, Thröstur Björgvinsson, PhD, ABPP<sup>3</sup>, 1. McLean Hospital, 2. McLean Hospital/Harvard Medical School, 3. McLean Hospital's Behavioral Health Partial Program/Harvard Medical School, 4. University of Bergen

**(PS3-B38) Depressive, Anxiety, and Obsessive-compulsive Spectrum Disorders and Their Relationship with Suicidality in an Acute Psychiatric Sample**

Kirsten Christensen, B.S.<sup>1</sup>, Ivar Snorrason, Ph.D.<sup>1</sup>, Courtney Beard, Ph.D.<sup>2</sup>, Andri Björnsson, Ph.D.<sup>3</sup>, Thröstur Björgvinsson, Ph.D., ABPP<sup>4</sup>, 1. McLean Hospital, 2. McLean Hospital/Harvard Medical School, 3. University of Iceland, 4. McLean Hospital's Behavioral Health Partial Program/Harvard Medical School

**(PS3-B39) Developing a Measure of Tolerance of Uncontrollability**

Aleena Hay Wickham, Ph.D., Abigail L. Barthel, M.A., Danielle M. Moskow, B.A., Stefan G. Hofmann, Ph.D., Boston University Center for Anxiety and Related Disorders

**(PS3-B40) Utilizing Empirically Derived Emotion Groups to Better Understand Symptoms of Psychopathology**

Brittany Jaso, M.S.<sup>1</sup>, William J. Villano, B.A.<sup>1</sup>, Chiemeka Ezie, B.S.<sup>2</sup>, Aaron S. Heller, Ph.D.<sup>1</sup>, 1. University of Miami, 2. New York University School of Medicine

**(PS3-B41) Early Neural Predictors of Later Emotion Dysregulation**

Shannon L. Gair, B.A.<sup>1</sup>, Hallie Brown, M.S.<sup>1</sup>, Maya Hareli, B.A.<sup>2</sup>, Rosanna P. Breaux, Ph.D.<sup>3</sup>, Claudia Lugo, Ph.D.<sup>4</sup>, Elizabeth Harvey, Ph.D.<sup>1</sup>, Jennifer McDermott, Ph.D.<sup>1</sup>, 1. University of Massachusetts Amherst, 2. Massachusetts General Hospital, 3. Virginia Commonwealth University, 4. Columbia University

**(PS3-B42) Characterizing an Anhedonic Sample in a Transdiagnostic Treatment Study**

Macey L. Arnold, B.S., B.A.<sup>1</sup>, Gabriela A. Nagy, Ph.D.<sup>2</sup>, Kevin Haworth, Ph.D.<sup>1</sup>, Paul Cernasov, B.A.<sup>3</sup>, Jessica Kinard, Ph.D.<sup>3</sup>, Erin Walsh, Ph.D.<sup>4</sup>, Gabriel Dichter, Ph.D.<sup>3</sup>, Moria J. Smoski, Ph.D.<sup>1</sup>, 1. Duke University, 2. Department of Psychiatry and Behavioral Sciences, Duke University Medical Center, 3. University of North Carolina at Chapel Hill, 4. University of North Carolina at Chapel Hill, Department of Psychiatry

*Antonio F. Pagan, B.A., Sarah J. David, M.A., Kaley A. Roberts, B.A., Casey Thornton, M.A., Gregory H. Mumma, Ph.D., Texas Tech University*

**(PS3-D93) Re-examination of the Latent Structure of the Distress Intolerance Index**

Keith P. Klein, M.A.<sup>1</sup>, Emily M. Bartholomay, M.A.<sup>2</sup>, Kimberly Stevens, Ph.D.<sup>3</sup>, Sarah J. Kertz, Ph.D.<sup>1</sup>, 1. Southern Illinois University, 2. Southern Illinois University - Carbondale, 3. Anxiety Disorders Center, The Institute of Living

**(PS3-D94) Interpersonal Emotion Regulation Moderates the Association Between Non-reactivity and Anxiety Symptoms in a College Sample**

Gretchen L. Spoor, B.A.<sup>1</sup>, Abigail L. Barthel, M.A.<sup>2</sup>, Jackie Nelson, Ph.D.<sup>3</sup>, Stefan G. Hofmann, Ph.D.<sup>2</sup>, 1. Boston University, 2. Boston University Center for Anxiety and Related Disorders, 3. University of Texas Dallas

**(PS3-D95) The Utilization of Brief Action Planning (BAP) as an Efficient Intervention For an Underserved Population With Type 2 Diabetes Mellitus: A Feasibility Project**

Vincent M. Fitch, M.S., Alexander Griskell, M.S., Sarah Vitale, M.S., Carly Salzberg, M.S., Mark A. Stillman, Ph.D., Mercer University

**(PS3-D96) Unacknowledged Sexual Assault, Posttraumatic Stress Disorder, and Rape Myths Acceptance Among College Students**

Deborah Yarmush, B.A.<sup>1</sup>, Kate Hamilton, M.A.<sup>1</sup>, Julia Kurtz, B.A.<sup>1</sup>, Nicole Weishoff, B.A.<sup>1</sup>, Sarah Lowe, Ph.D.<sup>2</sup>, Kate Walsh, Ph.D.<sup>3</sup>, 1. Yeshiva University - Ferkauf Graduate School of Psychology, 2. Montclair State University, 3. Yeshiva University

1:00 p.m. – 2:00 p.m.

---

**International Ballroom, International Level****Poster Session 4A****PS4**

Key Words: *Depression, Stress, College Students*

**(PS4-A1) Mindset Matters: Stress Mindset Moderates the Association Between Perceived Stress and Depressive Symptoms in College Students**

Nathan Huebschmann, Erin Sheets, Ph.D., Colby College

**(PS4-A2) Behavioral Activation as a Source of Ayahuasca's Anti-depressant Effects**

Maha N. Mian, B.S., Brianna R. Altman, B.A., Luna Ueno, M.S., Mitch Earleywine, Ph.D., University at Albany, State University of New York

**(PS4-A3) The Effects of Affective Expectations on Experience in Individuals With and Without Anhedonia**

Sarah J. Horne, Emily E. Bernstein, M.A., Richard J. McNally, Ph.D., Harvard University

**(PS4-A4) Comorbid Post-traumatic Stress Disorder and Fear of Anger Predict Use of Thought Suppression in Veterans With Unipolar Depression**

Sarah T. Wieman, B.A., Shelley L. Kind, M.S., Alora A. Rando, M.S., Gabrielle I. Liverant, Ph.D., Suffolk University

- (PS4-A5) Effects of Savoring on Reward Sensitivity and Learning**  
*Kelsey M. Irvin, M.A., Bruce Bartholow, Ph.D., Debora J. Bell, Ph.D., University of Missouri-Columbia*
- (PS4-A6) Identifying the Relative Importance of Various Internal Cognitive Processes to Male and Female University Students' Depressive Symptoms**  
*Gabriella Hinojosa, Olivia Reyes, B.A., Scott Plunkett, Ph.D., California State University, Northridge*
- (PS4-A7) Factor Analysis of Depression Symptoms: Differences and Similarities Between Six Broad Cultural Groups**  
*Danielle Goodman, B.A.<sup>1</sup>, Sariah Daouk, M.A.<sup>1</sup>, Megan Sullivan, B.A.<sup>1</sup>, Nancy H. Liu, Ph.D.<sup>2</sup>, Monica Garza, Ph.D.<sup>3</sup>, Suzanne Barakat, M.D.<sup>4</sup>, Ricardo F. Muñoz, Ph.D.<sup>1</sup>, Yan Leykin, Ph.D.<sup>1</sup>, 1. Palo Alto University, 2. University of California, Berkeley, 3. Legacy Community Health, 4. University of California San Francisco*
- (PS4-A8) Behavioral and Self-reported Impulsivity in Depressed Suicide Attempters as Compared to Non-attempters**  
*Jessica S. Fields, B.A., Elizabeth D. Ballard, Ph.D., Dede K. Greenstein, Ph.D., Carlos A. Zarate, Jr., M.D., Laura R. Waldman, LCSW, National Institute of Mental Health*
- (PS4-A9) The Role of Hope in Predicting Treatment Outcomes for Outpatients With Emotional Disorders**  
*Andrea Maheras, Mengxing Wang, M.A., Todd Farchione, Ph.D., Boston University Center for Anxiety and Related Disorders*
- (PS4-A10) Getting to GOAL: Psychometrics of the Go/no-go Active Learning Form in Depression**  
*George Abitante, B.A.<sup>1</sup>, Evan Russek, Ph.D.<sup>2</sup>, Jessica DeArcangelis, B.A.<sup>1</sup>, Quentin Huys, Ph.D.<sup>2</sup>, Jacqueline Gollan, Ph.D.<sup>1</sup>, 1. Northwestern University Feinberg School of Medicine, 2. University College London*
- (PS4-A11) Depression and Regulation of Positive Affect: Extending Our Knowledge to the "Real World"**  
*Madison N. Beedon, B.A., Kelsey M. Irvin, M.A., Debora J. Bell, Ph.D., University of Missouri-Columbia*
- (PS4-A12) Depression Is Associated with Attenuated Reward Responsiveness Through the Nonacceptance of Positive Emotions in a Community Sample**  
*Courtney Forbes, B.A., Kim Gratz, Ph.D., Matthew T. Tull, Ph.D., University of Toledo*

- (PS4-A13) Childhood Trauma's Association With Emotion Conflict and Reward Processing Among Depressed Adult Outpatients: Neuroimaging Results from the EMBARC Study**  
*Joseph M. Trombello, Ph.D.<sup>1</sup>, Anne K. Fuller, Ph.D.<sup>2</sup>, Abu Minhajuddin, Ph.D.<sup>2</sup>, Crystal C. Cooper, Ph.D.<sup>2</sup>, Cherise R. Chin Fatt, Ph.D.<sup>2</sup>, Manish K. Jha, M.D.<sup>3</sup>, Thomas J. Carmody, Ph.D.<sup>2</sup>, Diego A. Pizzagalli, Ph.D.<sup>4</sup>, Myrna M. Weissman, Ph.D.<sup>5</sup>, Christian A. Webb, Ph.D.<sup>4</sup>, Patrick J. McGrath, M.D.<sup>5</sup>, Maurizio Fava, M.D.<sup>6</sup>, Ramin V. Parsey, M.D., Ph.D.<sup>7</sup>, Melvin McInnis, M.D.<sup>8</sup>, Mary L. Phillips, M.D.<sup>9</sup>, Amit Etkin, M.D., Ph.D.<sup>10</sup>, Madhukar H. Trivedi, M.D.<sup>2</sup>, 1. University of Texas Southwestern Medical Center, 2. UT Southwestern Medical Center, 3. Ichan School of Medicine at Mount Sinai and UT Southwestern Medical Center, 4. Harvard Medical School - McLean Hospital, 5. New York State Psychiatric Institute & Department of Psychiatry, College of Physicians and Surgeons of Columbia University, 6. Massachusetts General Hospital, 7. Stony Brook University, 8. University of Michigan, 9. University of Pittsburgh, 10. Stanford University*
- (PS4-A14) Exploring the Role of Online Behavioral Interventions and Fitbit Use in Improving Depression and Disability**  
*Selen Amado, B.A., Marina Rakhilin, B.S., Elizabeth Cory, B.S., Sophie Greenebaum, B.A., Alec Shannon, B.S., Brett Davis, B.A., Louisa Sylvia, Ph.D., Thilo Deckersbach, Ph.D., Andrew Nierenberg, M.D., Massachusetts General Hospital*
- (PS4-A15) Cognitive and Chronobiological Vulnerabilities as Mediators of Outcomes Following CBT-SAD and Light Therapy for Winter Depression**  
*Julia Camuso, B.S., Keith Burt, Ph.D., Kelly J. Rohan, Ph.D., University of Vermont*
- (PS4-A16) Protective and Risk Factors for Depression, Anxiety and Stress in College Students on the U.S./Mexico Border**  
*Claudia J. Woloshchuk, B.A., Carlos Portillo, B.S., Emilio Posada, Daniel Hill, Alejandro Trejo, Theodore V. Cooper, Ph.D., University of Texas at El Paso*
- (PS4-A17) An Ecological Assessment of Emotion Regulation Skills in Major Depressive Disorder and Generalized Anxiety Disorder**  
*Megan Whelen, B.S., Lisa Vittorio, B.A., Samuel T. Murphy, B.S., Daniel R. Strunk, Ph.D., The Ohio State University*
- (PS4-A18) A Longitudinal Test of the Mediating Roles of Negative Problem Orientation and Perceived Stress in Predicting Changes in Depressive Symptom Severity**  
*Natalie M. Holbrook, M.A., Michelle L. Buffie, M.A., Douglas W. Nangle, Ph.D., University of Maine*
- (PS4-A19) College Students' Beliefs About Evidence-based and Non-evidence-based Approaches to Treating Depression**  
*Samantha D. Sorid, B.A., Emma G. Preston, B.A., Elizabeth B. Raposa, Ph.D., College of William & Mary*
- (PS4-A20) Choice Under Pressure: An Investigation of the Relationships Between Emotion Regulation Flexibility, Stress, and Emotional Symptoms in Daily Life**  
*Laura A. Kanji, B.A., Emily E. Bernstein, M.A., Richard J. McNally, Ph.D., Harvard University*

**(PS4-A21) Examining the Relationship Between Internalizing Symptoms and Susceptibility to Suggestion-induced False Memories**

*Amanda Raymond, B.A., Eunyo Ro, Ph.D., Southern Illinois University Edwardsville*

**(PS4-A22) Comparison of Negative Self-referential Schemas Between Depressed, Remitted, and Healthy Controls**

*Ananya I. Roy, Rochelle Stewart, B.A., Mary E. McNamara, B.A., Kean J. Hsu, Ph.D., Christopher Beevers, Ph.D., University of Texas at Austin*

**(PS4-A23) Comorbidity Status and Recurrence Following Winter Depression Treatment with CBT or Light Therapy**

*Jessica Perez, B.A., Kelly J. Rohan, Ph.D., University of Vermont*

**(PS4-A24) Dampening Positive Affect Mediates the Link Between Childhood Emotional Abuse and Women's Depressive Symptoms**

*Lindsey B. Stone, Ph.D., Christopher Newport University*

**(PS4-A25) Approach-avoidance Training and Behavioral Activation in Major Depressive Disorder: Outcomes of a Pilot Randomized Controlled Trial**

*Alison Sweet, Sarah L. Pearlstein, M.S., Charles Taylor, Ph.D., University of California San Diego*

**International Ballroom, International Level**

**Poster Session 4B**

**PS4**

*Key Words: Eating, Social Relationships, Emotion Regulation*

**(PS4-B26) Relationships Between Eating Pathology, Negative Urgency, and Psychosocial Functioning Among Women Previously Diagnosed With an Eating Disorder**

*Sarah A. Horvath, M.S., K.J. Forney, Ph.D., Ohio University*

**(PS4-B27) Body Trust and Body Mass Index: An Application of Quantile Regression**

*Mary E. Duffy, B.A., Megan L. Rogers, M.S., Grace A. Kennedy, M.S., Pamela K. Keel, Ph.D., Thomas Joiner, Ph.D., Florida State University*

**(PS4-B28) The Effects of a Behavioral Experiment to Reduce the Perceived Pressure to Be Thin Among Female Undergraduate Students in Japan**

*Hikari Takashina, B.A.<sup>1</sup>, Yuki Okazaki, B.A.<sup>2</sup>, Masaya Takebe, Ph.D.<sup>3</sup>, Chisato Kuribayashi, M.A.<sup>1</sup>, Keiko Takemori, M.A.<sup>1</sup>, Satsuki Ueda, M.A.<sup>4</sup>, Hiroshi Sato, Ph.D.<sup>1</sup>, 1. Kwansei Gakuin University, 2. School of Humanities, Kwansei Gakuin University, 3. Faculty of Psychology, Risho University, 4. Graduate School Humanities, Kwansei Gakuin University*

**(PS4-B29) Examining the Influence of Athletic Identity on the Relationship Between Sport Competition Level and Disordered Eating Behaviors**

*Madeline Palermo, M.S., Diana Rancourt, Ph.D., University of South Florida*

**(PS4-B30) Gender Differences in Substances Used by Disordered-eating College Students**

Kristen Van Swearingen, B.S., Nora E. Noel, Ph.D., University of North Carolina Wilmington

**(PS4-B31) Trait Mindfulness Increases During Exposure Therapy for Eating Disorders**

Irina A. Vanzhula, M.S.<sup>1</sup>, Madeline McCloud, Cheri A. Levinson, Ph.D.<sup>1</sup>, 1. University of Louisville, 2. The University of Louisville

**(PS4-B32) Sociocultural Variables in the Longitudinal Prediction of Drive for Leanness**

Brittany Lang, M.A., Diana Rancourt, Ph.D., University of South Florida

**(PS4-B33) Eating Disorder Core Symptoms and Symptom Pathways Across Developmental Stages: A Network Analysis**

Caroline Christian, B.S., Sarah E. Ernst, Cheri A. Levinson, Ph.D., The University of Louisville

**(PS4-B34) Bridge Symptoms Between Obsessive-compulsive Disorder and Eating Disorders in Individuals with Eating Disorders**

Shruti Shankar Ram, B.S., Irina A. Vanzhula, M.S., Cheri A. Levinson, Ph.D., University of Louisville

**(PS4-B35) Development and Validation of a Scale Measuring Weighing Tendencies: The Approach/Avoidance of Weighing Questionnaire (AAWQ)**

P. Evelyn Kambanis, B.A., Angeline R. Bottera, B.A., Kyle P. De Young, Ph.D., University of Wyoming

**(PS4-B36) The Eating Disorder Examination Questionnaire: Examination of Measurement Invariance in Hispanic and Non-hispanic White Undergraduate Males**

Kelsey N. Serier, M.S.<sup>1</sup>, Jamie M. Smith, M.S.<sup>1</sup>, Mindy L. McEntee, Ph.D.<sup>2</sup>, Jane Ellen Smith, Ph.D.<sup>1</sup>, 1. University of New Mexico, 2. Arizona State University

**(PS4-B37) Positive Expectations May Not Be So Positive: Expecting Eating to Be Rewarding May Be Related to Hedonic Hunger and Binge Eating**

Megan N. Parker, M.S., Adrienne S. Juarascio, Ph.D., Drexel University

**(PS4-B38) Emotional Avoidance and Guilt Are Core Symptoms During Mealtimes Among Individuals With Eating Disorders**

Brenna M. Williams, B.A., Lindsay Chapman, Irina A. Vanzhula, M.S., Cheri A. Levinson, Ph.D., University of Louisville

**(PS4-B39) Are Negative Self-beliefs a Shared Vulnerability for Eating Disorders and Social Anxiety?**

Brenna M. Williams, B.A., Cheri A. Levinson, Ph.D., University of Louisville

**(PS4-B40) Evaluation of the Eating Disorder Diagnostic Scale for Differential Item Functioning With Regards to Sex**

H. Sophie Bronston, Angeline R. Bottera, B.A., P. Evelyn Kambanis, B.A., Kyle P. De Young, Ph.D., University of Wyoming

**(PS4-B41) Promoting Physical Activity for Bulimia Nervosa: Recipe for Recovery or Relapse?**

Elizabeth Lampe, B.A., Evan Forman, Ph.D., Stephanie Manasse, Ph.D., Drexel University

- (PS4-B42) The Development and Initial Feasibility and Acceptability of a Novel Physical Activity Enhanced Cognitive Behavioral Therapy for Bulimia Nervosa: A Case Series**  
Elizabeth Lampe, B.A., Evan Forman, Ph.D., Stephanie Manasse, Ph.D., Drexel University
- (PS4-B43) Quality of Life in Individuals With Eating Pathology: Examining the Moderating Role of Social Connectedness**  
Joseph M. Donahue, M.A., Courtney E. Breiner, B.A., Christina Scharmer, M.A., Drew Anderson, Ph.D., University at Albany, State University of New York
- (PS4-B44) What Type of Cognitive Dissonance Influences Self-esteem and Where? An Examination of a Brief Appearance-focused Versus Non-appearance-focused Intervention on Public versus Private Instagram Pages**  
Tayler Wilson, B.A.<sup>1</sup>, Amber McDonald, B.A.<sup>2</sup>, Jenna Serna, B.A.<sup>3</sup>, Taryn A. Myers, Ph.D.<sup>3</sup>, 1. Columbia University, Teachers College, 2. George Washington University, 3. Virginia Wesleyan University
- (PS4-B45) What Role Does Cognitive Dissonance Play in Body Image and Affect? An Examination of a Brief Appearance-focused Versus Non-appearance-focused Intervention on Public versus Private Instagram Pages**  
Amber McDonald, B.A.<sup>1</sup>, Tayler Wilson, B.A.<sup>2</sup>, Jenna Serna, B.A.<sup>3</sup>, Taryn A. Myers, Ph.D.<sup>3</sup>, 1. George Washington University, 2. Columbia University, Teachers College, 3. Virginia Wesleyan University
- (PS4-B46) Characterological Shame: An Emotional Mechanism Underlying Hoarding and Bulimic Symptoms**  
Grace A. Kennedy, M.S., Brittany M. Mathes, M.S., Brad Schmidt, Ph.D., Pamela K. Keel, Ph.D., Florida State University
- (PS4-B47) Association of Everyday Discrimination and Eating Pathology in a Sample of Sexual Minority Men**  
Alexandra D. Convertino, B.S.<sup>1</sup>, Aaron J. Blashill, Ph.D.<sup>2</sup>, 1. SDSU/UC San Diego Joint Doctoral Program in Clinical Psychology, 2. San Diego State University
- (PS4-B48) Approach and Avoidance Food Craving: How Do the Dimensions of Craving Change over the Course of Eating Disorder Treatment?**  
Christina L. Verzijl, M.A., Emily Choquette, M.A., Erica Ahlich, M.A., Diana Rancourt, Ph.D., University of South Florida
- (PS4-B49) What Is the Role of Habit in Shaping Behavior in Anorexia Nervosa? Exploring the Self-report Habit Index**  
Lauren E. Davis, B.S., Evelyn Attia, M.D., Janet Schebendach, Ph.D., Deborah R. Glasofer, Ph.D., Teresa Ruffin, B.A., Maya Dalack, B.S., B. Timothy Walsh, M.D., Joanna E. Steinglass, M.D., New York State Psychiatric Institute/Columbia University Medical Center
- (PS4-B50) The Effects of Acceptance- and Distraction-based Interventions on Explanatory Styles in Children with Functional Abdominal Pain**  
Lindsay Ives, B.S.<sup>1</sup>, Kate Stein, M.D.<sup>2</sup>, Kaela Kovach-Galton, B.A.<sup>3</sup>, Savannah Erwin, B.S.<sup>1</sup>, Kristen Caldwell, B.S.<sup>3</sup>, Nancy Zucker, Ph.D.<sup>3</sup>, 1. Department of Psychology and Neuroscience, Duke University, United States, 2. Department of Psychiatry, University of Oxford, Oxford, United Kingdom, 3. Department of Psychiatry and Behavioral Sciences, Duke University School of Medicine, United States

Poster Session 4C

PS4

Key Words: *Technology / Mobile Health, Research Methods, Clinical Trial*

**(PS4-C51) Mobile Recruitment of Disaster Survivors: Feasibility, Costs, and Lessons Learned**

Margaret Anton, Ph.D.<sup>1</sup>, Leigh E. Ridings, Ph.D.<sup>2</sup>, Tatiana Davidson, Ph.D.<sup>2</sup>, Tonya Hazelton, M.S.<sup>2</sup>, Kenneth L. Ayers, Jr., B.S.<sup>2</sup>, Kenneth Ruggiero, Ph.D.<sup>2</sup>, 1. MUSC, 2. Medical University of South Carolina

**(PS4-C52) Implementation and Utility of an Automated Text Messaging System to Facilitate Symptom Self-monitoring and Identify Risk for PTSD and Depression in Trauma Center Patients**

Brian E. Bunnell, Ph.D.<sup>1</sup>, Tatiana Davidson, Ph.D.<sup>1</sup>, Winkelmann Jennifer, M.A.<sup>1</sup>, Jessica Maples-Keller, Ph.D.<sup>2</sup>, Leigh E. Ridings, Ph.D.<sup>1</sup>, Jennifer Dahne, Ph.D.<sup>1</sup>, Samir M. Fakhry, M.D.<sup>3</sup>, Kenneth Ruggiero, Ph.D.<sup>1</sup>, 1. Medical University of South Carolina, 2. Emory School of Medicine, 3. George Washington University

**(PS4-C53) Varying Experiences of Cyber Victimization Among Middle and High School Students**

Kathleen I. Diaz, M.A., Paula J. Fite, Ph.D., Madelaine R. Abel, M.A., Rachel L. Doyle, B.A., University of Kansas

**(PS4-C54) Treatment Engagement and Effectiveness Using an Internet-delivered Cognitive Behavioral Program at a University Counseling Center**

Meredith S. Pescatello, B.S., Scott Baldwin, Ph.D., Tyler Pedersen, Ph.D., Kelly Woods, Brigham Young University

**(PS4-C55) Minimally Trained Peer Coaches for Internet-based Cognitive Behavioral Therapy for Adults With Social Anxiety Disorder**

Chandra L. Bautista, Ph.D.<sup>1</sup>, Allura Ralston, M.A.<sup>2</sup>, Rebecca Brock, Ph.D.<sup>2</sup>, Debra A. Hope, Ph.D.<sup>2</sup>, 1. Michael E. DeBakey VA Medical Center, 2. University of Nebraska-Lincoln

**(PS4-C56) Psychiatry Outpatients' Willingness to Share Social Media Posts and Smartphone Data for Research and Clinical Purposes**

Agnes Rieger, B.A., Averi Gaines, B.A., Ian Barnett, Ph.D., Claudia F. Baldassano, M.D., Mary Beth Connolly Gibbons, Ph.D., Paul Crits-Christoph, Ph.D., University of Pennsylvania

**(PS4-C57) Remotely Conducted Versus Office-based Virtual Reality Treatment for Fear of Flying**

Stephanie Cherestal, M.A., Stephanie J. Grimaldi, M.A., Kayla C. Costello, M.A., Mitchell L. Schare, ABPP, Ph.D., Christopher R. DeJesus, M.A., Hofstra University

**(PS4-C58) The Influence of the Avatar Physical Appearance in a Physical Activity****Motion-controlled Game Task**

Jessica navarro, Ph.D.<sup>1</sup>, Jorge Peña, Ph.D.<sup>2</sup>, Ausiàs Cebolla, Ph.D.<sup>3</sup>, Rosa M. Baños, Ph.D.<sup>4</sup>,  
 1. Department of Personality, Evaluation and Psychological Treatment, University of Valencia; CIBER Physiopathology of Obesity and Nutrition (CIBEROBN), Instituto Carlos III, Madrid, Spain., 2. University of California, Davis, 3. University of Valencia and CIBEROBN, 4. Department of Personality, Evaluation and Psychological Treatment, University of Valencia; CIBER Physiopathology of Obesity and Nutrition (CIBEROBN), Instituto Carlos III, Madrid, Spain; Polibienestar Institute, University of Valencia, Valencia, España.

**(PS4-C59) Barriers and Potential Mobile Health Solutions to Barriers Associated With the Implementation of Homework in Youth Mental Health Treatment**

Kristen Higgins, B.A.<sup>1</sup>, Kenneth Ruggiero, Ph.D.<sup>1</sup>, Lynne Nemeth, Ph.D.<sup>1</sup>, Leslie Lenert, M.D.<sup>1</sup>, Nikolaos Kazantzis, Ph.D.<sup>2</sup>, Esther Deblinger, Ph.D.<sup>3</sup>, Brian E. Bunnell, Ph.D.<sup>1</sup>, 1. Medical University of South Carolina, 2. Monash University, 3. Rowan University - School of Osteopathic Medicine

**(PS4-C60) Testing a Cognitive-behavioral Smartphone Application for Body Dysmorphic Disorder: Maintenance of Gains at 6-month Follow-up**

Ilana Ladis, B.A.<sup>1</sup>, Hilary Weingarden, Ph.D.<sup>2</sup>, Anna Schwartzberg, B.A.<sup>1</sup>, Oliver Harrison, Ph.D.<sup>3</sup>, Sabine Wilhelm, Ph.D.<sup>4</sup>, 1. Massachusetts General Hospital, 2. Massachusetts General Hospital/Harvard Medical School, 3. Telefónica Innovation Alpha, 4. Harvard Medical School; Massachusetts General Hospital

**(PS4-C61) Brief Imaginal Exposure Exercises for Social Speech Anxiety Delivered via a Smartphone Application**

Jeremy T. Schwob, M.A., Michelle G. Newman, Ph.D., The Pennsylvania State University

**(PS4-C62) Acceptability of an Internet Delivered CBT for Adjustment Disorders: Results from a Randomized Controlled Trial**

Iryna Rachyla, Ph.D.<sup>1</sup>, Sonia Mor, M.S.<sup>1</sup>, Cristina Botella, Ph.D.<sup>2</sup>, Soledad Quero, Ph.D.<sup>1</sup>, 1. UJaumeI, 2. Jaume I University

**(PS4-C63) Usage Characteristics of a Self-help Mobile App for Depression: Differences by Country, Gender, and Age**

Langting Su, B.S., Page L. Anderson, Ph.D., Georgia State University

**(PS4-C64) An Evaluation of a Dedicated Smartphone App for Contingency Management Procedures with Children and Its Effect on Treatment Expectancies**

Daniel Scullington, M.S., Camilo Ortiz, Ph.D., Long Island University

**(PS4-C65) Gender Differences in the Associations of Time Spent Online and Psychosocial Outcomes**

Grace Carter, B.S.<sup>1</sup>, David Cole, Ph.D.<sup>2</sup>, Elizabeth A. Nick, M.S.<sup>2</sup>, 1. Judge Baker Children's Center, 2. Vanderbilt University

**(PS4-C66) Predictors of Treatment Engagement and Adherence in a Novel Mhealth Intervention for Emotion Regulation Difficulties**

Bridget M. Wallace, B.A., Kibby McMahon, M.A., Zachary Rosenthal, Ph.D., Duke University

**(PS4-C67) Cybervictimization, Substance Abuse, and Social Support Among Young Adults**

*Danielle M. Nisenon, B.A., Alexandra Edwards, Julia Totten, None, Sally L. Grapin, Ph.D., Carrie Masia Warner, Ph.D., Montclair State University*

**(PS4-C68) Technology-related Sleep Facilitation Strategies Among Undergraduate Students: Practices, Beliefs, and Sleep Quality**

*Karla K. Murdock, Ph.D., Washington and Lee University*

**(PS4-C69) A Literature Review of Mental Health of Chinese International Students Attending U.S. Higher Education Institutions**

*Jingyan Gu, B.A., Janelle Y. Wee, B.S., Keyne C. Law, Ph.D., Seattle Pacific University*

**(PS4-C70) Adapting Wise Interventions for Kenyan Adolescents: Lessons from a Pilot Randomized Controlled Trial**

*Akash Wasil, B.A., Katherine Venturo-Conerly, Tom Osborn, John Weisz, Ph.D., Harvard University*

**International Ballroom, International Level**

**Poster Session 4D**

**PS4**

*Key Words: Abuse / Maltreatment, Child, Sleep*

**(PS4-D71) Sleep Disturbance Predicts Internalizing and Externalizing Behavior Beyond Pre-adoptive History and Risk Factors**

*Kristin Aho, M.S.<sup>1</sup>, Angela D. Staples, Ph.D.<sup>1</sup>, Elisa Esposito, Ph.D.<sup>2</sup>, Jamie Lawler, Ph.D.<sup>1</sup>, Morgan Daugherty, B.A.<sup>1</sup>, 1. Eastern Michigan University, 2. Widener University*

**(PS4-D72) Development and Psychometrics of a Retrospective Maternal Support Questionnaire**

*Samantha J. Klaver, B.A.<sup>1</sup>, David T. Solomon, Ph.D.<sup>1</sup>, Katherine Kane,<sup>1</sup> Daniel W. Smith, Ph.D.<sup>2</sup>, 1. Western Carolina University, 2. Medical University of South Carolina*

**(PS4-D73) Increasing Students' and New Professionals' Knowledge of Child Sexual Abuse Outcomes: An Evaluation of an Online Intervention**

*Kate Theimer, M.A.<sup>1</sup>, Brittany Biles, M.A.<sup>1</sup>, Katie Meidlinger, M.A.<sup>1</sup>, Kelsey McCoy, M.A.<sup>1</sup>, Emily A. Sonnen, M.A.<sup>1</sup>, Terrence Z. Huit, M.A.<sup>1</sup>, Akemi E. Mii, B.A.<sup>1</sup>, Mary Fran Flood, Ph.D., MSW<sup>2</sup>, David Hansen, Ph.D.<sup>1</sup>, 1. University of Nebraska-Lincoln, 2. Department of Psychology, UNL*

**(PS4-D74) Effects of Trauma-specific Cbts on Emotion Regulation Difficulties Among Adolescents With Interpersonal Trauma Histories**

*Amy H. Lee, M.A., Komal Sharma-Patel, Ph.D., Elissa J. Brown, Ph.D., St. John's University*

**(PS4-D75) A Longitudinal Examination of Community Violence Exposure and Autonomic Functioning in At-risk Youth**

*Francesca Kassing, M.A.<sup>1</sup>, John E. Lochman, ABPP, Ph.D.<sup>1</sup>, Matthew Hudnall, Ph.D.<sup>1</sup>, Nicole Powell, Ph.D.<sup>1</sup>, Devon Romero, Ph.D.<sup>2</sup>, Eric Vernberg, ABPP, Ph.D.<sup>3</sup>, 1. The University of Alabama, 2. The University of Texas at San Antonio, 3. University of Kansas*

**(PS4-D76) A Pediatric Medical Home for Youth in Foster Care: Assessing Continuity of Care**

*Hannah C. Espeleta, M.S.<sup>1</sup>, Michael C. Garbe, M.P.H.<sup>2</sup>, Dana M. Bakula, M.S.<sup>1</sup>, Ashley T. Thumann,<sup>2</sup>, Julie Lees, M.D.<sup>2</sup>, Deborah Shropshire, M.D.<sup>2</sup>, Larry Mullins, Ph.D.<sup>1</sup>, Stephen Gillaspay, Ph.D.<sup>2</sup>, 1. Oklahoma State University, 2. University of Oklahoma Health Sciences Center*

**(PS4-D77) The Indirect Effects of Emotion Regulation Difficulties on the Association Between Cumulative Trauma Severity and Symptom Severity Among Adolescents With Interpersonal Trauma Histories**

*Komal Sharma-Patel, Ph.D.<sup>1</sup>, Amy H. Lee, M.A.<sup>1</sup>, Augustine Lombera, III, B.A.<sup>2</sup>, Elissa J. Brown, Ph.D.<sup>1</sup>, 1. St. John's University, 2. Child HELP Partnership*

**(PS4-D78) Caregiver Distress and Child Behavior Problems as Predictors of Family Cohesion for Families Presenting to Treatment Following Child Sexual Abuse**

*Kelsey McCoy, M.A.<sup>1</sup>, Katie Meidlinger, M.A.<sup>1</sup>, Terrence Z. Huit, M.A.<sup>1</sup>, Emily A. Sonnen, M.A.<sup>1</sup>, Kate Theimer, M.A.<sup>1</sup>, Brittany Biles, M.A.<sup>1</sup>, Akemi E. Mii, B.A.<sup>1</sup>, Mary Fran Flood, Ph.D., MSW<sup>2</sup>, David Hansen, Ph.D.<sup>1</sup>, 1. University of Nebraska-Lincoln, 2. Department of Psychology, UNL*

**(PS4-D79) Examining the Effectiveness of Trauma-focused Cognitive Behavioral Therapy with Commercial Sexually Exploited and Trafficked Youth**

*Elizabeth Perry, B.S.<sup>1</sup>, Katherine K. Franchot, M.P.H.<sup>1</sup>, Camille Kramer, M.P.H.<sup>2</sup>, Melissa C. Osborne, M.P.H., Ph.D.<sup>1</sup>, Ashwini Tiwari, Ph.D.<sup>3</sup>, Kelly Kinnish, Ph.D.<sup>2</sup>, Shannon R. Self-Brown, Ph.D.<sup>1</sup>, 1. Georgia State University, 2. Georgia Center for Child Advocacy, 3. Augusta University*

**(PS4-D80) The Impact of Adult Attachment on Parenting and Interpersonal Conflict**

*Jonathan Savini, M.S., Anna Claire Woody, Nina Campanile, B.A., Jan Faust, ABPP, Ph.D., Samatha Clark, M.A., Nova Southeastern University*

**(PS4-D81) Parent Child Abuse Potential and Children's Somatic Complaining Behavior**

*Kourtney Schroeder, M.S., Lauren Novak, B.S., Jan Faust, ABPP, Ph.D., Samatha Clark, M.A., Nova Southeastern University*

**(PS4-D82) Attention Problems of Child Sexual Abuse Victims: Relationship With Treatment Participation and Outcome**

*Akemi E. Mii, B.A.<sup>1</sup>, Terrence Z. Huit, M.A.<sup>1</sup>, Kate Theimer, M.A.<sup>1</sup>, Brittany Biles, M.A.<sup>1</sup>, Katie Meidlinger, M.A.<sup>1</sup>, Kelsey McCoy, M.A.<sup>1</sup>, Emily A. Sonnen, M.A.<sup>1</sup>, Mary Fran Flood, Ph.D., MSW<sup>2</sup>, David Hansen, Ph.D.<sup>1</sup>, 1. University of Nebraska-Lincoln, 2. Department of Psychology, UNL*

**(PS4-D83) Childhood Traumas and Adolescent Psychopathology in a Population-based Sample**

*Sarah N. Vacek, B.A., Mark A. Whisman, Ph.D., University of Colorado Boulder*

**(PS4-D84) Development and Psychometric Evaluation of Measures for the Workshop to Educate on Child Abuse and Neglect (WE-CAN) for Schools**  
*Kaitlin Happer, M.A.<sup>1</sup>, Elissa J. Brown, Ph.D.<sup>2</sup>, Komal Sharma-Patel, Ph.D.<sup>1</sup>, 1. St. John's University, 2. St. John's University*

**(PS4-D85) Examination of the Relative Contributions of Trauma Characteristics on Children's Interpersonal Trauma Experiences: A Comparison of Measurement Models**  
*Augustine Lomberra, III, B.A.<sup>1</sup>, Amy H. Lee, M.A.<sup>2</sup>, Komal Sharma-Patel, Ph.D.<sup>2</sup>, Elissa J. Brown, Ph.D.<sup>2</sup>, 1. Child HELP Partnership, 2. St. John's University*

**(PS4-D86) Pubertal Status Moderates Effects of Perceived Peer Support on HPA Activation: Further Evidence of Regulatory Fit**  
*Jason Bendezu, Ph.D.<sup>1</sup>, Abigail Findley, B.A.<sup>1</sup>, Ashley N. Howell, Ph.D.<sup>1</sup>, Christopher Sege, Ph.D.<sup>1</sup>, Kathleen Crum, Ph.D.<sup>1</sup>, Zachary Adams, Ph.D.<sup>2</sup>, Casey Calhoun, Ph.D.<sup>1</sup>, Carla K. Danielson, Ph.D.<sup>3</sup>, 1. Medical University of South Carolina, 2. Indiana University School of Medicine, 3. MUSC*

## International Ballroom, International Level

### Poster Session 5A

## PS5

Key Words: ADHD, Measurement, Psychotherapy Process

**(PS5-A1) Validation of the ADHD Cognitions Scale~ College Version: A Brief Measure of a Clinical Change Mechanism of CBT for College Students With ADHD**  
*Laura D. Eddy, Ph.D.<sup>1</sup>, Arthur D. Anastopoulos, Ph.D.<sup>1</sup>, Joshua Langberg, Ph.D.<sup>2</sup>, Lisa Weyandt, Ph.D.<sup>3</sup>, George J. DuPaul, Ph.D.<sup>4</sup>, 1. University of North Carolina Greensboro, 2. Virginia Commonwealth University, 3. The University of Rhode Island, 4. Lehigh University*

**(PS5-A2) ADHD Symptoms and Impairment Across the Adult Lifespan**  
*Ross W. Abrash,<sup>1</sup> Leah Mais, B.S.<sup>1</sup>, Miranda M. Thompson,<sup>1</sup> Laura E. Knouse, Ph.D.<sup>1</sup>, Russell A. Barkley, Ph.D.<sup>2</sup>, 1. University of Richmond, 2. Virginia Commonwealth University Medical Center*

**(PS5-A3) Substance Use, Depression, and Academic Functioning Among College Students With and Without ADHD**  
*Kirk Mochrie, M.A., Matthew C. Whited, Ph.D., Tony Cellucci, ABPP, Taylor Freeman, M.A., Ansley Taylor Corson, M.A., Aieshwarya Singh, B.A., Rebecca Harrell, East Carolina University*

**(PS5-A4) The Interaction of ADHD Factors and Marijuana Use on College GPA and Academic Difficulties**  
*Rebecca Harrell, Kirk Mochrie, M.A., Tony Cellucci, ABPP, Aieshwarya Singh, B.A., East Carolina University*

**(PS5-A5) Qualitative Assessment of the Perceived Needs of ADHD College Students**

Aieshwarya Singh, B.A., Kirk Mochrie, M.A., Tony Cellucci, ABPP, Rebecca Harrell, East Carolina University

**(PS5-A6) Depressive Symptoms and Concurrent Alcohol Consequences in College Students with ADHD: The Role of Avoidance/rumination**

Patricia A. Trice, B.A.<sup>1</sup>, Michael C. Meinzer, Ph.D.<sup>2</sup>, Lauren E. Oddo, B.A.<sup>1</sup>, John Vasko, MPS<sup>3</sup>, Andrea M. Chronis-Tuscano, Ph.D.<sup>2</sup>, 1. University of Maryland- College Park, 2. University of Maryland, 3. University of Wyoming

**(PS5-A7) Does SCT Predict Impairment in Self-concept Above and Beyond ADHD?**

Helena F. Alacha, B.A.<sup>1</sup>, Bailey Holm, B.S.<sup>1</sup>, Judah W. Serrano, M.A.<sup>2</sup>, Will H. Canu, Ph.D.<sup>3</sup>, Cynthia Hartung, Ph.D.<sup>2</sup>, Elizabeth Lefler, Ph.D.<sup>1</sup>, 1. University of Northern Iowa, 2. University of Wyoming, 3. Appalachian State University

**(PS5-A8) Sluggish Cognitive Tempo, Inattention, and Hyperactivity/impulsivity as Predictors of Sedentary Behavior in College Students**

John Vasko, MPS<sup>1</sup>, Judah W. Serrano, M.A.<sup>1</sup>, Anne Stevens, M.A.<sup>1</sup>, Zoe O. Hendricks, <sup>1</sup>, Will H. Canu, Ph.D.<sup>2</sup>, Elizabeth Lefler, Ph.D.<sup>3</sup>, Erik Willcutt, Ph.D.<sup>4</sup>, Cynthia Hartung, Ph.D.<sup>1</sup>, 1. University of Wyoming, 2. Appalachian State University, 3. University of Northern Iowa, 4. University of Colorado Boulder

**(PS5-A9) Self-perceived Physical Competence in College Students With and Without ADHD**

John Vasko, MPS<sup>1</sup>, Judah W. Serrano, M.A.<sup>1</sup>, Anne Stevens, M.A.<sup>1</sup>, Fernando Munoz, <sup>1</sup>, Will H. Canu, Ph.D.<sup>2</sup>, Elizabeth Lefler, Ph.D.<sup>3</sup>, Erik Willcutt, Ph.D.<sup>4</sup>, Cynthia Hartung, Ph.D.<sup>1</sup>, 1. University of Wyoming, 2. Appalachian State University, 3. University of Northern Iowa, 4. University of Colorado Boulder

**(PS5-A10) Family Climate for Road Safety as a Mediator of the Relationship Between ADHD Symptoms and Driving Problems**

Austin B. Burns, B.A.<sup>1</sup>, Annie A. Garner, Ph.D.<sup>1</sup>, Catherine Stachniak, M.S.<sup>1</sup>, Amina A. Avion, M.S.<sup>1</sup>, Stephen P. Becker, Ph.D.<sup>2</sup>, Michael J. Kofler, Ph.D.<sup>3</sup>, Matthew Jarrett, Ph.D.<sup>4</sup>, Aaron Luebke, Ph.D.<sup>5</sup>, G. Leonard Burns, Ph.D.<sup>6</sup>, 1. Saint Louis University, 2. Cincinnati Children's Hospital Medical Center, 3. Florida State University, 4. The University of Alabama, 5. Miami University, 6. Washington State University

**(PS5-A11) Relative Independence of Depressive and ADHD Symptoms in a College Sample**

Paisley E. Vincent, B.S.<sup>1</sup>, Jack Thompson, B.A.<sup>1</sup>, Will H. Canu, Ph.D.<sup>1</sup>, Judah W. Serrano, M.A.<sup>2</sup>, Anne Stevens, M.A.<sup>2</sup>, Elizabeth Lefler, Ph.D.<sup>3</sup>, Erik Willcutt, Ph.D.<sup>4</sup>, Cynthia Hartung, Ph.D.<sup>2</sup>, 1. Appalachian State University, 2. University of Wyoming, 3. University of Northern Iowa, 4. University of Colorado Boulder

**(PS5-A12) Recollection of Childhood ADHD in First-year College Students vs. Parent Reports**

Hannah Yelanich, None<sup>1</sup>, Mia J. Cave, B.A.<sup>1</sup>, Paisley E. Vincent, B.S.<sup>1</sup>, Will H. Canu, Ph.D.<sup>1</sup>, Judah W. Serrano, M.A.<sup>2</sup>, Anne Stevens, M.A.<sup>2</sup>, Elizabeth Lefler, Ph.D.<sup>3</sup>, Erik Willcutt, Ph.D.<sup>4</sup>, Cynthia Hartung, Ph.D.<sup>2</sup>, 1. Appalachian State University, 2. University of Wyoming, 3. University of Northern Iowa, 4. University of Colorado Boulder

**(PS5-A13) An Investigation of University Services for College Students with ADHD in Relation to School Size**

Will H. Canu, Ph.D., Hannah C. Huff, B.S., Megan A. Reeves, B.S., Sam C. Cole, B.S., Anne E. Sorrell, M.A., Appalachian State University

**(PS5-A14) ADHD and Avoidant Coping After Failure: The Role of Negative Emotions and Self-regulation Mindsets**

Vidhi Patel,<sup>1</sup> Natalie Szumel,<sup>1</sup> Laura E. Knouse, Ph.D.<sup>1</sup>, Jeni L. Burnette, Ph.D.<sup>2</sup>, 1. University of Richmond, 2. North Carolina State University

**(PS5-A15) Internet Based Strategies That Promote Emotional Well-being and Provide Evidence-based Information on Psychoactive Substances in Bogotá, Colombia**

Manuela Lüchau, B.A., M.S.<sup>1</sup>, Catalina Botero-Ruge, B.A., M.S.<sup>1</sup>, Gustavo Perdomo, M.D.<sup>1</sup>, Zorayda Moreno, B.A.<sup>1</sup>, Elizabeth Borrero, M.D.<sup>2</sup>, Amelia Rey,<sup>3</sup> Nicolas Acosta, B.A.,<sup>4</sup> Adriana Pulido, M.D.<sup>2</sup>, Dario Londoño, M.D., M.S., Ph.D.<sup>2</sup>, 1. Fundación Santa Fe de Bogota, 2. Fundación Santa Fe de Bogotá, 3. Secretaria Distrital de Salud, 4. Don Doctor

**(PS5-A16) Characteristics of Participants of a Spanish/English Self-help Depression Prevention Website**

Robert Curland, M.S., Renee Gutierrez, B.S., Yan Leykin, Ph.D., Blanca S. Pineda, Ph.D., Lauren Pescador, M.S., Ricardo F. Muñoz, Ph.D., Palo Alto University

**(PS5-A17) Peer Support for Self-care Adherence and Stress Reduction in Psychology Doctoral Students**

Kimmy Ramotar, Psy.D.<sup>1</sup>, Hilary B. Vidair, Ph.D.<sup>2</sup>, 1. Long Island University - Post, 2. LIU Post

**(PS5-A18) A Systematic Review of Parent Participation Engagement (PPE) in Child Mental Health Prevention Programs**

Rachel Haine-Schlagel, Ph.D.<sup>1</sup>, Kelsey Dickson, Ph.D.<sup>2</sup>, Teresa Lind, Ph.D.<sup>3</sup>, Natalia Escobar Walsh, Ph.D.<sup>4</sup>, Vanja Lazarevic, Ph.D.<sup>2</sup>, May Yeh, Ph.D.<sup>5</sup>, Brent Crandal, Ph.D.<sup>6</sup>, Gina May, B.A.<sup>7</sup>, 1. CASRC/San Diego State University, 2. San Diego State University, 3. University of California, San Diego, 4. University of California San Diego, 5. San Diego State University, Child and Adolescent Services Research Center, University of California, San Diego, 6. Rady Children's Hospital-San Diego, 7. UCSD/CASRC

**(PS5-A19) Perception of Grief Symptomatology: Are Pathological Grief Symptoms and the Stages of Grief Considered Normal?**

Jonathan Singer, M.A.<sup>1</sup>, Crissa Levin, Ph.D.<sup>2</sup>, Elisabeth McLean, B.A.<sup>1</sup>, Julie Kahler, Ph.D.<sup>1</sup>, Tony Papa, Ph.D.<sup>1</sup>, 1. University of Nevada, Reno, 2. Utah State University

**(PS5-A20) Preliminary Results of a Brazilian CBT Intervention of Health Promotion for Adolescents**

Carmem B. Neufeld, Ph.D., Suzana Peron, M.S., University of São Paulo

**(PS5-A21) Sensation Seeking, Impulsivity, and the Big Five Factors of Personality as Predictors of Risky Behavior Following Sports-related Concussion**

Megan Gardner, B.A., Bradley T. Conner, Ph.D., Colorado State University

**(PS5-A22) Promoting Healthy Trajectories for Urban Youth Through County-funded After-school Programming**

Allison C. Goodman, B.A.<sup>1</sup>, Rachel R. Ouellette, M.S.<sup>1</sup>, Emily M. D'Agostino, Ph.D.<sup>2</sup>, Eric Hansen, M.S.<sup>2</sup>, Stacy Frazier, Ph.D.<sup>1</sup>, 1. Florida International University, 2. Miami-Dade County Department of Parks, Recreation and Open Spaces

**(PS5-A23) Who Engages in a Mobile Health Intervention to Improve Parent Mood and Strengthen Practices That Promote Infant Social Communication Within a Randomized Controlled Trial?**

Katy Miller Spinks,<sup>1</sup> Kathleen Baggett, Ph.D.<sup>1</sup>, Betsy Davis, Ph.D.<sup>2</sup>, Edward Feil, Ph.D.<sup>2</sup>, Lisa Sheeber, Ph.D.<sup>2</sup>, Susan Landry, Ph.D.<sup>3</sup>, 1. Georgia State University, 2. Oregon Research Institute, 3. Children's Learning Institute

**(PS5-A24) Developing Self-report Measures to Assess Child, Teacher, and Parent Reported Social Validity of School-based Mindfulness Prevention Programs**

Susan J. Doyle, M.S., Wesley Bullock, Ph.D., Sarah Francis, Ph.D., University of Toledo

**(PS5-A25) Feasibility and Favorability of Cam's Classroom: A Cbt-informed Universal Prevention Program for At-risk Schools**

Kimberly Kleinman, Psy.D., Zoe Chiel, Ph.D., Amanda L. Webb, B.A., Zoe Elena Rosenbloom, B.A., Stephanie Garcia Sosa, New York-Presbyterian Hospital/Columbia University Medical Center

**(PS5-A26) The Effects of Sensation Seeking, Impulsivity, and the Big Five Factors of Personality on Extreme Sport Engagement and Injury**

Megan Gardner, B.A., Shane Kentopp, M.S., Bradley T. Conner, Ph.D., Colorado State University

**(PS5-A27) Question, Persuade, Refer Gatekeeper Training in Substance Abuse Recovery Communities**

Megan A. Blanton, M.S.<sup>1</sup>, Jose Gonzalez, B.S.<sup>1</sup>, Chandra Brown, M.S.<sup>2</sup>, Jennifer Langhinrichsen-Rohling, Ph.D.<sup>1</sup>, 1. The University of South Alabama, 2. Lifelines Counseling Services

**International Ballroom, International Level**

**Poster Session 5B**

**PS5**

Key Words: Autism Spectrum Disorders, Adult, Emotion Regulation

**(PS5-B28) Autism Traits and Emotion Regulation in an Adult Community-based Sample**

Gretchen Diefenbach, Ph.D.<sup>1</sup>, Amanda Dunlap, M.S.<sup>2</sup>, Kimberly Stevens, Ph.D.<sup>3</sup>, Godfrey Pearlson, M.D.<sup>2</sup>, Michal Assaf, M.D.<sup>2</sup>, 1. Institute of Living, 2. Olin Neuropsychiatry Research Center, The Institute of Living, 3. Anxiety Disorders Center, The Institute of Living

- (PS5-B29) Adapting One-session Treatment for Specific Phobias for Children With Autism Spectrum Disorder: A Multiple Baseline Study**  
*Ashley Muskett, M.S., Sarah Ryan Radtke, M.S., Isaac Smith, M.S., Thomas Ollendick, Ph.D., Virginia Polytechnic Institute and State University*
- (PS5-B30) Addressing Disparities in Diagnostic and Treatment Services for Autism Spectrum Disorder Through Family Navigation: Defining Core Components**  
*Kassandra Martinez, B.A.<sup>1</sup>, Nicole Stadnick, Ph.D.<sup>2</sup>, Emily Hickey, Ph.D.<sup>3</sup>, Sarabeth Broder-Fingert, Ph.D.<sup>4</sup>, 1. SDSU/UC San Diego Joint Doctoral Program in Clinical Psychology, 2. University of California, San Diego, 3. Postdoctoral Research Fellow, 4. Boston Medical Center & Boston University School of Medicine*
- (PS5-B31) Parenting Stress in a Parent-mediated Intervention for Children With Autism Spectrum Disorder and Disruptive Behavior Disorders**  
*Hannah M. Rea, M.S.<sup>1</sup>, T. Lindsey Burrell, Ph.D.<sup>2</sup>, 1. University of Georgia, 2. Marcus Autism Center, Children's Healthcare of Atlanta, Department of Pediatrics, Emory University School of Medicine*
- (PS5-B32) Predictors of Academic Competence in Children With and Without Autism Spectrum Disorder**  
*Anna Milgramm, B.A., Kristin V. Christodulu, Ph.D., University at Albany, State University of New York*
- (PS5-B33) Behavioral Parent Training in Children With Autism Spectrum Disorder: Feasibility and Effectiveness of a Group Intervention**  
*Garet Edwards, Ph.D., Kimberly Zlomke, Ph.D., Ashley Dawn Greathouse, M.A., University of South Alabama*
- (PS5-B34) A Systematic Review of Paraprofessional Implemented Social Competence Interventions for Students With Autism Spectrum Disorder**  
*Jordan Albright, M.S., Sarah Munro, Angela Scarpa, Ph.D., Virginia Polytechnic Institute and State University*
- (PS5-B35) The Therapeutic Alliance in ASD: A Predictor for Positive Peer Outcomes**  
*Ayla N. Gioia, B.S., Erin Kang, M.A., Matthew Lerner, Ph.D., Stony Brook University*
- (PS5-B36) Parenting Daily Hassles and Pessimism Moderate the Relation Between ASD Symptom Severity and Parental Expressed Emotion**  
*Aurora H. Brinkman, B.A., Haven Warwick, Rebecca A. Lindsey, M.S., Tammy D. Barry, Ph.D., Washington State University*
- (PS5-B37) A Longitudinal Examination of Interactions Between Autism Symptom Severity and Parenting Behaviors in Predicting Change in Child Behavior Problems**  
*Rebecca A. Lindsey, M.S., Stephanie Saltness, B.S., Austin Lau, B.S., Tammy D. Barry, Ph.D., Washington State University*

**(PS5-B38) Staff Perception and Fidelity of Implementation for an Autism Spectrum****Disorder Care Pathway on a General Inpatient Psychiatric Service**

Lauren Donnelly, Ph.D.<sup>1</sup>, Beryl Filton, Ph.D.<sup>2</sup>, Paige E. Cervantes, Ph.D.<sup>1</sup>, Jennifer Havens, M.D.<sup>3</sup>, Sarah Kuriakose, Ph.D.<sup>4</sup>, Sarah M. Horwitz, Ph.D.<sup>1</sup>, Eugene Okparaek, B.S.<sup>4</sup>, 1. Hassenfeld Children's Hospital at NYU Langone, Department of Child and Adolescent Psychiatry, Child Study Center, 2. New York University School of Medicine, 3. Hassenfeld Children's Hospital at NYU Langone, Department of Child and Adolescent Psychiatry, Child Study Center & Office of Behavioral Health, NYC Health and Hospitals, 4. Hassenfeld Children's Hospital at NYU Langone Medical Center

**(PS5-B39) Reductions in Parenting Stress in the Context of PEERS: A Social Skills****Intervention for Adolescents with Autism Spectrum Disorder**

Cortney Janicki, M.A.<sup>1</sup>, Laura L. Corona, Ph.D.<sup>2</sup>, Anna Milgramm, B.A.<sup>3</sup>, Kristin V. Christodulu, Ph.D.<sup>3</sup>, 1. Center for Autism and Related Disabilities - University at Albany, SUNY, 2. Vanderbilt University Medical Center - Treatment and Research Institute for Autism Spectrum Disorder, 3. University at Albany, State University of New York

**(PS5-B40) Supporting College Students on the Spectrum: The Role of Natural Mentors**

Allison B. Smith, M.A., Ayla R. Mapes, M.A., Meredith J. Sourk, M.A., Jake C. Steggerda, B.A., Timothy A. Cavell, Ph.D., University of Arkansas

**(PS5-B41) Adolescents' Self-reported Separation Anxiety Symptoms Mediate the Relationship Between ASD Symptoms and Self-reported Emotion Control**

Ayla N. Gioia, B.S.<sup>1</sup>, Jennifer Keluskar, Ph.D.<sup>1</sup>, Samantha Sommer, B.A.<sup>2</sup>, Alan Gerber, M.A.<sup>1</sup>, Matthew Lerner, Ph.D.<sup>1</sup>, 1. Stony Brook University, 2. University of Maryland-College Park

**(PS5-B42) Efficacy of a Telehealth-based Parent Training for Children with Autism Spectrum Disorder (ASD): Rural versus Urban Areas**

Angela V. Dahiya-Singh, M.A.<sup>1</sup>, Lisa Ruble, Ph.D.<sup>2</sup>, Grace Kuravackel, Ph.D.<sup>3</sup>, Angela Scarpa, Ph.D.<sup>1</sup>, 1. Virginia Polytechnic Institute and State University, 2. University of Kentucky, 3. University of Louisville School of Medicine

**(PS5-B43) Comparing the Use, Usefulness and Perceived Research Support for Preference-based Strategies in Expert vs Community ASD Care**

Serene Tianyou Qiu, M.A.<sup>1</sup>, Matthew Lerner, Ph.D.<sup>1</sup>, Amy Drahota, Ph.D.<sup>2</sup>, Lauren Moskowitz, Ph.D.<sup>3</sup>, Latha Soorya, Ph.D.<sup>4</sup>, Alison Wainer, Ph.D.<sup>5</sup>, Elizabeth Cohn, Ph.D.<sup>6</sup>, Connor Kerns, Ph.D.<sup>7</sup>, 1. Stony Brook University, 2. Michigan State University, 3. St. John's University, 4. Rush Institute, 5. Rush Medical College, 6. Adelphi University, 7. University of British Columbia

**(PS5-B44) The Therapeutic Alliance in Cognitive-behavioral Therapy for School-aged Children With Autism and Clinical Anxiety**

Kashia Rosenau, B.A., Sami Klebanoff, Ph.D., Jeffrey Wood, Ph.D., University of California, Los Angeles

**(PS5-B45) Use of Companion™ Vocal Biomarkers to Predict Depression Status**

Maya Kuperberg, M.D.<sup>1</sup>, Thilo Deckersbach, Ph.D.<sup>1</sup>, Tae-Sung Yeum, M.D.<sup>1</sup>, Skyler Place, Ph.D.<sup>2</sup>, Victoria Smith, B.S.<sup>2</sup>, Andrew Nierenberg, M.D.<sup>1</sup>, 1. Massachusetts General Hospital, 2. CompanionMx

Poster Session 5C

PS5

Key Words: *Rumination, Adolescents, Cognitive Processes*

**(PS5-C46) Affective Response to Rumination in Adolescence: Comparing Perseveration in Imagery and Verbal Form**

*Hannah R. Lawrence, M.A.<sup>1</sup>, Greg J. Siegle, Ph.D.<sup>2</sup>, Rebecca Schwartz-Mette, Ph.D.<sup>1</sup>, 1. University of Maine, 2. University of Pittsburgh, School of Medicine*

**(PS5-C47) The Role of Best Friend Emotion Regulation in the Relation Between Co-rumination and Depressive Symptoms in Adolescence**

*Molly E. Miller, B.A.<sup>1</sup>, Sarah K. Borowski, M.A.<sup>2</sup>, Janice Zeman, Ph.D.<sup>1</sup>, 1. The College of William & Mary, 2. University of Missouri*

**(PS5-C48) Puberty, Parents, and Depression: An EMA Study in Adolescent Girls**

*Danielle Apple, B.S., Stefanie Sequeira, B.S., Jennifer Silk, Ph.D., University of Pittsburgh*

**(PS5-C49) The Role of Trauma in Adolescent Suicidality: Implications for Treatment and Future Directions**

*Kristin Scott, Ph.D.<sup>1</sup>, Kristin Wolfe, M.S.<sup>2</sup>, Katia Goga, B.S.<sup>2</sup>, Jessica King, M.A.<sup>2</sup>, Betsy D. Kennard, Psy.D.<sup>3</sup>, 1. Children's Health, University of Texas at Southwestern, 2. Children's Health – Children's Medical Center/University of Texas Southwestern Medical Center, 3. University of Texas Southwestern Medical Center at Dallas*

**(PS5-C50) Thirteen Reasons Why: Perceptions and Correlates of Media Influence in Psychiatrically Hospitalized Adolescents**

*Melanie K. Altemus, B.A.<sup>1</sup>, Jacqueline Nesi, Ph.D.<sup>1</sup>, Sarah E. Johnson, Ph.D.<sup>2</sup>, Heather M. Thibau, B.A.<sup>1</sup>, Jennifer Wolff, Ph.D.<sup>2</sup>, 1. Rhode Island Hospital/Alpert Medical School of Brown University, 2. Alpert Medical School of Brown University*

**(PS5-C51) Coping with Peer Stress in Youth: Age and Gender as Moderators of the Association With Anxiety and Depression**

*Allegra S. Anderson, B.A.<sup>1</sup>, Michelle M. Reising, Ph.D.<sup>1</sup>, Kelly H. Watson, Ph.D.<sup>1</sup>, Jennifer P. Dunbar, Ph.D.<sup>1</sup>, Alexandra Bettis, Ph.D.<sup>2</sup>, Meredith Gruhn, M.A.<sup>1</sup>, Bruce Compas, Ph.D.<sup>1</sup>, 1. Vanderbilt University, 2. Alpert Medical School of Brown University*

**(PS5-C52) Adolescent Coping and Current Parental Depression Moderate the Relationship Between Adolescent Stress and Anxiety and Depression Symptoms**

*Rachel E. Siciliano, B.A.<sup>1</sup>, Kelly H. Watson, Ph.D.<sup>1</sup>, Alexandra Bettis, Ph.D.<sup>2</sup>, Meredith Gruhn, M.A.<sup>1</sup>, Jennifer P. Dunbar, Ph.D.<sup>1</sup>, Michelle M. Reising, Ph.D.<sup>1</sup>, Bruce Compas, Ph.D.<sup>1</sup>, 1. Vanderbilt University, 2. Alpert Medical School of Brown University*

**(PS5-C53) Depression in Adolescents: Student Beliefs About Components of Evidence-based and Alternative Approaches**

*Miranda Meeker, B.A., Stephen Hupp, Ph.D., LeAnna Kehl, B.A., Elizabeth Sakran, B.A., Jeremy Jewell, Ph.D., Southern Illinois University Edwardsville*

- (PS5-C55) Sex Role Orientation, Engagement in Relational and Physical Aggression, and Long-term Depression Outcomes Among a Nationally Representative Sample of Adolescents: A Mediation Analysis**  
*Rose H. Miller, B.A., Jonathan Rottenberg, Ph.D., University of South Florida*
- (PS5-C56) Assessing Potential Predictors of Mental Health Services Use Among Adolescents**  
*Emily Kutok, B.S., B.A.<sup>1</sup>, Anthony Spirito, Ph.D.<sup>2</sup>, Shira Dunsiger, Ph.D.<sup>2</sup>, Megan Ranney, M.P.H., M.D.<sup>3</sup>, 1. Rhode Island Hospital/Alpert Medical School of Brown University, 2. Brown University, 3. Warren Alpert medical School of Brown University*
- (PS5-C57) Social Media, Perceived Social Support, and Depression Symptoms: A Sub-analysis of the Intervention to Prevent Cyber-victimization Among Adolescents Through Text-messaging (iPACT) Program**  
*Caroline R. Scherzer, B.S.<sup>1</sup>, Megan Ranney, M.P.H., M.D.<sup>2</sup>, Anthony Spirito, Ph.D.<sup>3</sup>, Shira Dunsiger, Ph.D.<sup>3</sup>, 1. Brown University/Rhode Island Hospital, 2. Warren Alpert Medical School of Brown University, 3. Brown University*
- (PS5-C58) Competing Effects of Social Support and Peer Victimization on Depressive and Self-esteem Outcomes in Adolescents: A Trio of Meta-analyses**  
*Elizabeth A. Nick, M.S., David Cole, Ph.D., Vanderbilt University*
- (PS5-C59) Life Satisfaction in Depressed Youth Receiving Relapse Prevention CBT and Medication Management**  
*Katia Goga, B.S.<sup>1</sup>, Courtney Tran, B.S.<sup>1</sup>, Alexandra Moorehead, B.S.<sup>1</sup>, Kristin Wolfe, M.S.<sup>1</sup>, Brandon Oscarson, M.S.<sup>1</sup>, Graham Emslie, M.D.<sup>1</sup>, Betsy D. Kennard, Psy.D.<sup>2</sup>, 1. Children's Health - Children's Medical Center/University of Texas Southwestern Medical Center, 2. University of Texas Southwestern Medical Center at Dallas*
- (PS5-C60) Parental Attachment, Emotion Regulation, and Depression Among College Students: Mediation by Gender**  
*Ellie Lisitsa, B.A., Benjamin D. Johnson, B.A., Amy H. Mezulis, Ph.D., Seattle Pacific University*
- (PS5-C61) Moderators of the Relationship Between Mother and Father Ratings of Child Emotional Problems and Child Ratings of Depression**  
*Kimberly Ellison, M.S., Paige Adenuga, B.S., Paige N. Picou, B.A., Thompson Davis, Ph.D., Louisiana State University*
- (PS5-C62) Mind-wandering in Adolescents Predicts Heightened Negative Affect and Aberrant Functional Connectivity: An Ecological Momentary Assessment Study**  
*Elana S. Israel, B.A.<sup>1</sup>, Emily Belleau, Ph.D.<sup>1</sup>, Erika Forbes, Ph.D.<sup>2</sup>, Diego A. Pizzagalli, Ph.D.<sup>3</sup>, Christian A. Webb, Ph.D.<sup>3</sup>, 1. McLean Hospital/Harvard Medical School, 2. University of Pittsburgh, 3. Harvard Medical School - McLean Hospital*
- (PS5-C63) Examining the Relationship Between Trait Positive Affect and Daily Emotion Regulation Strategies in Response to Positive Events Using Ecological Momentary Assessment**  
*Hailey E. Caudle, M.S., China R. Bolden, B.A., Katherine S. Benjamin, B.A., Amy H. Mezulis, Ph.D., Seattle Pacific University*

**(PS5-C64) The Effects of Psychiatric Distress and Male Role Norms on Men's Attitudes Towards Help-seeking**

Madeleine D. Tuten, Corinne E. Zachry, M.A., Danielle S. Berke, Ph.D., Hunter College, The City University of New York

**(PS5-C65) Men's Friendships and Masculinity Matter: Correlates of Depression and Significant Suicide Risk in a Sample of Justice-involved U.S. Military Veterans Presenting at a Specialty Treatment Court**

Jesse Serna, B.A., Desi Vasquez, Ph.D., Luis F. Ponte, M.A., Alyssa Vera, M.A., Ivette Soto, B.A., Texas A & M University

**International Ballroom, International Level**

**Poster Session 5D**

**PS5**

Key Words: Alcohol, PTSD (Posttraumatic Stress Disorder), Emotion Regulation

**(PS5-D66) Testing Mediator and Moderator Effects in the Association Between Posttraumatic Stress Disorder and Alcohol Misuse**

Svetlana Goncharenko, B.A.<sup>1</sup>, Nicole H. Weiss, Ph.D.<sup>1</sup>, Ateka A. Contractor, Ph.D.<sup>2</sup>, Katherine L. Dixon-Gordon, Ph.D.<sup>3</sup>, Shannon R. Forkus, M.A.<sup>1</sup>, 1. University of Rhode Island, 2. University of North Texas, 3. University of Massachusetts Amherst

**(PS5-D67) The Role of Interpersonal Emotion Regulation in the Relation Between Posttraumatic Stress Disorder Severity and Substance Use**

Ariana Vidaña, B.S., Julia R. Richmond, M.A., Margaret Baer, B.A., Kim Gratz, Ph.D., Matthew T. Tull, Ph.D., University of Toledo

**(PS5-D68) Peritraumatic Distress Predicts Depression in Traumatically Injured Patients Admitted to a Level I Trauma Center**

Brian E. Bunnell, Ph.D.<sup>1</sup>, Tatiana Davidson, Ph.D.<sup>1</sup>, Margaret Anton, Ph.D.<sup>2</sup>, Bruce Crookes, M.D.<sup>1</sup>, Kenneth Ruggiero, Ph.D.<sup>1</sup>, 1. Medical University of South Carolina, 2. MUSC

**(PS5-D69) Unique Associations Between PTSD Symptom Clusters and Suicidal Ideation**

Ryan M. Kozina, M.S., Layla M. Elmi, B.S., Shira M. Kern, M.A., Adam J. Ripley, M.S., Joshua D. Clapp, Ph.D., University of Wyoming

**(PS5-D70) Effects of Rumination on PTSD Symptoms in Trauma Exposed Veterans: Evidence for Distinct Moderating Effects of Attentional Control Domains**

Sarah C. Jessup, B.S., Rebecca C. Cox, M.A., Bunmi Olatunji, Ph.D., Vanderbilt University

**(PS5-D71) Moral Emotions Following Loss: Exploring the Effect of Shame and Guilt on Complicated Grief and Depression in a Bereaved Sample**

Emma R. Toner, B.A.<sup>1</sup>, Nicole J. LeBlanc, M.A.<sup>1</sup>, Emily B. O'Day, M.A.<sup>2</sup>, Luana Marques, Ph.D.<sup>3</sup>, Donald J. Robinaugh, Ph.D.<sup>1</sup>, Richard J. McNally, Ph.D.<sup>4</sup>, 1. Massachusetts General Hospital, 2. Temple University, 3. Harvard Medical School, 4. Harvard University

- (PS5-D72) Emotional Reactivity and Cognitive Interference for Negative Emotion Stimuli Mediate Associations Between Post-traumatic Stress, Coping, and Resiliency in At-risk Adolescents**  
*Lauren Rodriguez, M.A., Jennifer Read, Ph.D., University at Buffalo, The State University of New York*
- (PS5-D73) Influence of Trauma-related Stress Induction on Psychological and Physiological Reactivity Between Varying Levels of Suicidality**  
*Hanan Rafiuddin, B.A., Nathan T. Kearns, M.S., Ateka A. Contractor, Ph.D., Sonja Hunter, Caitlyn N. Carey, B.S., Heidemarie Blumenthal, University of North Texas*
- (PS5-D74) Emotion Dysregulation as a Risk Factor for PTSD: The Mediating Effects of Anxiety Sensitivity**  
*Alexa M. Raudales, B.A., Thomas J. Preston, B.S., Brian J. Albanese, M.S., Norman B. Schmidt, Ph.D., Florida State University*
- (PS5-D75) The Role of Interpersonal Trauma, Negative Affect, Neuroticism, and Emotion Dysregulation in Comorbid PTSD and Depression**  
*Melissa Turkel, M.A.<sup>1</sup>, Steven E. Bruce, Ph.D.<sup>2</sup>, 1. James A. Haley Veteran's Hospital, 2. University of Missouri-St. Louis*
- (PS5-D76) Cardiovascular Risk Moderates Associations Between Cognitive-affective Risk Factors and Psychiatric Symptoms Among Trauma-exposed Firefighters**  
*Rachel Ranney, M.A.<sup>1</sup>, Hanaan Bing-Canar, B.S.<sup>1</sup>, Katherine Paltell, B.S.<sup>1</sup>, Jana Tran, Ph.D.<sup>2</sup>, Erin Berenz, Ph.D.<sup>1</sup>, Anka Vujanovic, Ph.D.<sup>3</sup>, 1. University of Illinois at Chicago, 2. Houston Fire Department, 3. University of Houston*
- (PS5-D77) Fear of Self-compassion Mediates the Link Between Negative Social Reactions and Negative Outcomes Among Female Victims of Sexual Victimization**  
*Selime R. Salim, B.A., Prachi Bhuptani, M.A., Terri L. Messman-Moore, Ph.D., Miami University*
- (PS5-D78) Understanding the Association Between Peritraumatic Emotions and PTSD: The Role of Posttraumatic Emotions and Cognitions**  
*Jesse McCann, B.S., Shari Lieblich, B.S., Yinyin Zang, Ph.D., Antonia Kaczurkin, Ph.D., Edna Foa, Ph.D., University of Pennsylvania*
- (PS5-D79) Interpreter Vicarious Trauma: An Examination of the Mental Health Interpreter Experience**  
*James Simms.<sup>1</sup>, M.A., Alexandra R. Thelan.<sup>1</sup>, B.A., Melanie F. Midkiff.<sup>1</sup>, M.S., Danielle Piggott.<sup>1</sup>, None, Sarah E. Domoff.<sup>1</sup>, Ph.D., Chun-Fang Kuo.<sup>2</sup>, Ph.D., Elizabeth A. Meadows, Ph.D.<sup>1</sup>, 1. Central Michigan University, 2. University of Hawaii at Hilo*
- (PS5-D80) Rumination as a Mediator of the Relationship Between PTSD and Physical Symptoms**  
*Sophie Haven, B.A., Steven E. Bruce, Ph.D., University of Missouri-St. Louis*
- (PS5-D81) PTSD and Risky Behaviors Among Trauma-exposed African Americans: Religiosity as a Protective Factor**  
*Emmanuel D. Thomas, B.A., Nicole H. Weiss, Ph.D., University of Rhode Island*

**(PS5-D82) Predictors of Family Accommodations in the Aftermath of Hurricane Harvey**

Megan M. Millmann, M.S., Behnaz Darban, M.A., Monica Martinez, M.A., Mary Short, Ph.D., Sara R. Elkins, Ph.D., University of Houston – Clear Lake

**(PS5-D83) Conceptualizing Posttraumatic Stress Disorder from Interpersonal Violence: Taking a Network Approach**

Robert Graziano, M.A., Steven E. Bruce, Ph.D., University of Missouri- St. Louis

**(PS5-D84) An Examination of the Relationships Between Distress Intolerance, Attentional Control, and Posttraumatic Stress Symptoms**

Eva K. Harris, M.A., Keith P. Klein, M.A., Sarah J. Kertz, Ph.D., Southern Illinois University

**(PS5-D85) Occipital Alpha EEG in Posttraumatic Stress Disorder (PTSD) Clusters**

Sarah Huffman, B.A., Kateryna Kolnogorova, M.A., Nicholas Allan, Ph.D., Ohio University

**(PS5-D86) An Examination of Ethnoracial Variation in Treatment Retention Among Military Sexual Trauma Survivors Engaged in PTSD Treatment**

Minden B. Sexton, Ph.D.<sup>1</sup>, Katherine Fedele, Ph.D.<sup>1</sup>, Michelle Fernando, M.S.<sup>2</sup>, Brittany Hall-Clark, Ph.D.<sup>3</sup>, Sheila Rauch, Ph.D.<sup>4</sup>, Katherine Porter, Ph.D.<sup>1</sup>, 1. Ann Arbor Veterans Healthcare System, 2. Eastern Michigan University, 3. UT Health San Antonio, 4. Emory University School of Medicine

**(PS5-D87) Emotion Dysregulation Mediates the Relation Between Fear of Self-compassion and Depression, Anxiety, and Stress Among Women With Child Maltreatment Histories**

Nicole M. LaPlena, B.A., Selime R. Salim, B.A., Prachi Bhuptani, M.A., Terri L. Messman-Moore, Ph.D., Miami University

**(PS5-D88) Predictors of Dropout in Cognitive Processing Therapy for PTSD: An Examination of Trauma Narrative Content**

Elizabeth Alpert, M.A.<sup>1</sup>, Adele Hayes, Ph.D.<sup>1</sup>, J. Ben Barnes, Ph.D.<sup>2</sup>, Denise Sloan, Ph.D.<sup>3</sup>, 1. University of Delaware, 2. VA Boston Healthcare System, 3. National Center for PTSD

**(PS5-D89) “I Hate myself.” Self-disgust Is Associated with Self-reported Symptoms of Posttraumatic Stress Among Trauma-exposed Women as Well as Anxious Arousal Following Standardized Trauma Cue Presentation**

Riley Gournay, Teah-Marie R. Bynion, M.A., Madeleine S. Smith, B.A., Ashley Karlovich, B.A., Matthew Feldner, Ph.D., Ellen Leen-Feldner, Ph.D., University of Arkansas

**(PS5-D90) A Network Approach to the Comorbidity Between Posttraumatic Stress Disorder and Major Depressive Disorder in Traumatized Adolescents**

J. Kyle Haus, M.A., Hanna Grandgenett, M.A., David DiLillo, Ph.D., Trey Andrews, Ph.D., University of Nebraska-Lincoln

International Ballroom, International Level

Poster Session 6A

PS6

Key Words: *Parent Training, Families, Externalizing*

**(PS6-A1) An International Examination of the Effectiveness of Functional Family Therapy (FFT) in a Danish Community Sample**

*Maria Michelle Vardanian, B.A.<sup>1</sup>, Christoffer Scavenius Sonne-Schmidt, Ph.D.<sup>2</sup>, Megan Granski, B.A.<sup>1</sup>, Anil Chacko, Ph.D.<sup>1</sup>, 1. New York University, 2. VIVE - The National Research and Analysis Center for Welfare*

**(PS6-A2) Organized Chaos: Daily Routines Link Household Chaos and Child Behavior Problems**

*Kristy L. Larsen, B.A., Sara Jordan, Ph.D., University of Southern Mississippi*

**(PS6-A3) Investigating Racial/Ethnic Differences in Associations Among Emotion Socialization, Emotion Regulation, and Mental Health Outcomes in Emerging Adults**

*Sarah T. Giff, M.A.<sup>1</sup>, Sadia Saleem, Ph.D.<sup>2</sup>, Keith D. Renshaw, Ph.D.<sup>1</sup>, 1. George Mason University, 2. University of Management and Technology*

**(PS6-A4) What Do Parents Want?: Comparing Behavioral Parent Training to a Health Maintenance Model**

*Tali Wigod, M.S.<sup>1</sup>, Hilary B. Vidair, Ph.D.<sup>2</sup>, Rachel Kupferberg, M.S.<sup>1</sup>, 1. Long Island University, 2. LIU Post*

**(PS6-A5) A Healthy Interparental Relationship During Pregnancy Sets the Stage for Adaptive Family Functioning Postpartum**

*Erin L. Ramsdell, M.A., Rebecca Brock, Ph.D., University of Nebraska - Lincoln*

**(PS6-A6) Confirmatory and Exploratory Factor Analyses of the Family Empowerment Scale with a Large Diverse Community Sample**

*Spencer Choy, B.A., Taylor DeMotta, B.A., Brad J. Nakamura, Ph.D., University of Hawai'i at Manoa*

**(PS6-A7) Confirmatory and Exploratory Factor Analyses of the Parental Attitudes Toward Psychological Services Inventory With a Large Diverse Community Sample**

*Spencer Choy, B.A., Taylor DeMotta, B.A., Brad J. Nakamura, Ph.D., University of Hawai'i at Manoa*

**(PS6-A8) Findings from a Pre-post Study of the Impact of a Psychoeducational Program With Caregivers to Prevent Abuse and Bullying on Parenting Self-efficacy**

*Margaret F. Canter, M.A.<sup>1</sup>, Elissa J. Brown, Ph.D.<sup>1</sup>, Emily Hockenberry, B.A.<sup>1</sup>, Rebekha Simons, B.A.<sup>1</sup>, Lois Beekman, B.A.<sup>2</sup>, 1. St. John's University, 2. Child HELP Partnership*

- (PS6-A9) Clinicians Experiences Collaborating with Families on Child Inpatient Units**  
*Rebecca E. Kason, M.S.<sup>1</sup>, Hilary B. Vidair, Ph.D.<sup>2</sup>, Megan Moxey, M.A., M.S.<sup>1</sup>, Amanda Oliva, B.A.<sup>1</sup>, 1. Long Island University, 2. LIU Post*
- (PS6-A10) Parental Validation, Emotion Regulation and Psychopathology Among Adolescents in DBT Programs: A Test of the Transactional Model**  
*Allison K. Ruork, M.A.<sup>1</sup>, Alan E. Fruzzetti, Ph.D.<sup>2</sup>, 1. University of Nevada, Reno, 2. Harvard Medical School*
- (PS6-A11) Parenting Behaviors and Parent Post-traumatic Stress Symptoms in Relation to Child Post-traumatic Stress in a School-based Community Sample**  
*Brigid M. Behrens, B.S., Kaitlin Fondren, M.A., Kristin Valentino, Ph.D., University of Notre Dame*
- (PS6-A12) Do Maternal Executive Functions Moderate Associations Between Stress and Parenting Behaviors?**  
*Joanne Park, M.A., Charlotte Johnston, Ph.D., University of British Columbia*
- (PS6-A13) Investigating the Influence of Temperament on Parenting Behaviors as Moderated by Maternal Alpha Asymmetry**  
*Randi A. Phelps, M.A., Natalee Price, B.S., Elizabeth Kiel, Ph.D., Miami University*
- (PS6-A14) Relationship of Social Support and Basic Needs With Parent Mental Health Among Child Welfare Referred Parents**  
*Matthew J. Lyons, MSW, Daniel Whitaker, Ph.D., Shannon R. Self-Brown, Ph.D., Erin Weeks, M.P.H., Georgia State University*
- (PS6-A15) Long-term Evaluation of the Theory of Change For Multisystemic Therapy With Serious Juvenile Offenders**  
*Kaitlin M. Sheerin, M.A., Cynthia E. Brown, M.A., Charles M. Borduin, Ph.D., University of Missouri*
- (PS6-A16) Perceived Discrimination Predicts Help-seeking Attitudes in Ethnic/Racial Minority Parents**  
*Alyssa Gatto, M.S., Harveen Pantleay, Delaney Keller, Lee Cooper, Ph.D., Virginia Polytechnic Institute and State University*
- (PS6-A17) Time-out With Youtube: Assessing Parents' Reactions to Evidence-based Time-out Youtube Videos**  
*Mary Elsharouny, B.A., M.S.<sup>1</sup>, Ami Zala, B.A.<sup>1</sup>, Angelique Romulus, B.A.<sup>1</sup>, Carly Apar, B.A.<sup>1</sup>, Desiree L. Curcio, B.A., M.S.<sup>1</sup>, Hilary B. Vidair, Ph.D.<sup>2</sup>, 1. Long Island University, 2. LIU Post*
- (PS6-A18) Uniting the Unit: The Influence of Paternal Psychopathology on Child Internalizing Problems**  
*Emily N. Bailey, M.S., Craig D. Marker, Ph.D., Mercer University*
- (PS6-A19) Having Your Heart Outside Your Body: Parenting Behaviors Linked to Child Heart Rate Variability, Especially for Younger Children**

- (PS6-C63) Implementing the Trauma Narrative in Trauma Focused-cognitive Behavioral Therapy: A Qualitative Study of Clinical Decision Making**  
*Briana S. Last, M.A.<sup>1</sup>, Hannah E. Frank, M.A.<sup>2</sup>, Brittany Rudd, Ph.D.<sup>1</sup>, Hilary Kratz, Ph.D.<sup>3</sup>, Colleen Harker, Ph.D.<sup>4</sup>, Sara Fernandez-Marcote, <sup>5</sup>, Kamilah Jackson, M.P.H., M.D.<sup>5</sup>, Rinad Beidas, Ph.D.<sup>1</sup>, 1. University of Pennsylvania, 2. Temple University, 3. La Salle University, 4. Perelman School of Medicine at the University of Pennsylvania, 5. Community Behavioral Health, City of Philadelphia*
- (PS6-C64) Dissemination and Implementation of Prolonged Exposure in Philadelphia Community Mental Health: Assessing Rates of Trauma Exposure and PTSD**  
*Liza E. Pincus, M.S.<sup>1</sup>, Sandy Capaldi, Psy.D.<sup>2</sup>, Carrie Comeau, LCSW<sup>3</sup>, Edna Foa, Ph.D.<sup>2</sup>, Lily Brown, Ph.D.<sup>2</sup>, 1. Rutgers University, 2. University of Pennsylvania, 3. City of Philadelphia*
- (PS6-C65) A Psychometric Investigation of the Ohio Scales, Short Form, Problem Severity Domain Using a Large Multiethnic Community Mental Health Sample of Youth Within Hawai'i's System of Care**  
*Tommie M. Laba, B.A.<sup>1</sup>, Kayla Soma Tsutsuse, B.A.<sup>1</sup>, Daniel Wilkie, M.A.<sup>1</sup>, Taylor A. Stacy, B.S.<sup>1</sup>, David S. Jackson, Ph.D.<sup>2</sup>, Brad J. Nakamura, Ph.D.<sup>1</sup>, 1. University of Hawaii at Manoa, 2. State of Hawai'i Child and Adolescent Mental Health Division*
- (PS6-C66) Computerized Motivational Enhancement Therapy for Substance Using Adolescents on an Inpatient Unit**  
*Andrea S. Lapomardo, Psy.D.<sup>1</sup>, Sarah E. Johnson, Ph.D.<sup>1</sup>, Melanie K. Altemus, B.A.<sup>2</sup>, Heather M. Thibea, B.A.<sup>2</sup>, Jennifer Wolff, Ph.D.<sup>1</sup>, 1. Alpert Medical School of Brown University, 2. Rhode Island Hospital/Alpert Medical School of Brown University*
- (PS6-C67) Examining Therapists' Attitudes, Subjective Norms, Perceived Behavioral Control, and Behavioral Intentions on Evidence-based Practice Behaviors**  
*Albert C. Mah, M.A.<sup>1</sup>, Kelsie H. Okamura, Ph.D.<sup>2</sup>, David S. Jackson, Ph.D.<sup>2</sup>, Brad J. Nakamura, Ph.D.<sup>1</sup>, 1. University of Hawaii at Manoa, 2. State of Hawai'i Child and Adolescent Mental Health Division*

**(PS6-C69) Predicting and Changing Negative Beliefs Community Clinicians Hold Towards Exposure Use with Youth**

Grace Woodard, B.S., Julie P. Harrison, M.S., Rosemary Meza, M.S., Alya N. Khairuzzaman, Lucy Berliner, MSW, Shannon Dorsey, Ph.D., University of Washington

**(PS6-C70) Benchmarking Engagement Practice Use in Usual Care Against Common Elements of Effective Engagement Interventions**

Eleanor G. Wu, B.A.<sup>1</sup>, Kimberly D. Becker, Ph.D.<sup>1</sup>, Jennifer M. Gamarra, M.A.<sup>2</sup>, Rachel E. Kim, Ph.D.<sup>3</sup>, Jonathan Martinez, Ph.D.<sup>4</sup>, Bruce F. Chorpita, Ph.D.<sup>2</sup>, 1. University of South Carolina, 2. University of California, Los Angeles, 3. Judge Baker Children's Center, 4. California State University, Northridge

**(PS6-C71) Measurement of Treatment Engagement in Children's Mental Health Research: Systematic Review and Implications for Research and Practice**

W. Joshua Bradley, B.A., Davielle Lakind, Ph.D., Ajay Patel, None, Kimberly D. Becker, Ph.D., University of South Carolina

**(PS6-C72) Stakeholder Perspectives on School-based Suicide Risk Assessment With Ethnic Minority Youth**

Kenny Le, B.S., Tamar Kodish, M.A., Joanna J. Kim, M.A., Stephanie Yu, B.A., Anna Lau, Ph.D., University of California, Los Angeles

**(PS6-C73) Broker Reports of Engagement in Evidence Based Practices Following Participation in a Community Based Learning Collaborative (CBLC)**

Zabin S. Patel, M.P.H., M.S.<sup>1</sup>, Elizabeth Casline, M.S.<sup>1</sup>, Amanda Jensen-Doss, Ph.D.<sup>1</sup>, Vanessa Ramirez, Psy.D.<sup>2</sup>, 1. University of Miami, 2. Kristi House

**(PS6-C74) Prevalence of Beliefs in Myths Regarding Adolescence**

Jeremy Jewell, Ph.D., Stephen Hupp, Ph.D., Southern Illinois University, Edwardsville

**(PS6-C75) Measurement Challenges in the Real World: Predictors of Observational Fidelity Monitoring Participation in a Statewide Implementation of Parent-child Interaction Therapy**

Mira D. Snider, M.S.<sup>1</sup>, Amy Herschell, Ph.D.<sup>2</sup>, David J. Kolko, Ph.D.<sup>3</sup>, 1. West Virginia University, 2. Community Care Behavioral Health Organization, UPMC Insurance Services Division, 3. University of Pittsburgh School of Medicine

**International Ballroom, International Level**

**Poster Session 6D**

**PS6**

Key Words: *Primary Care, Integrated Care, Medication*

**(PS6-D76) An Open Trial of Symptom Improvements in Primary Care Patients Receiving Behavior Therapy With and Without Concurrent Pharmacotherapy**

Roselee J. Ledesma, B.A.<sup>1</sup>, Ana Bridges, Ph.D.<sup>2</sup>, Juventino Hernandez Rodriguez, Ph.D.<sup>3</sup>, Aubrey Dueweke, M.A.<sup>1</sup>, Elizabeth Anastasia, M.A.<sup>1</sup>, Sasha Rojas, M.A.<sup>1</sup>, 1. University of Arkansas, 2. University of Arkansas - Fayetteville, 3. Mental Health Disparities & Diversity Program Department of Psychiatry & Behavioral Sciences Medical University of South Carolina

**(PS6-D77) Factors Influencing Graduate Students' Attitudes Toward Integrated Health Care**

Cameron Mosley, M.S., Robert D. Friedberg, Ph.D., Matthew Cordova, Ph.D., Teceta Tormala, Ph.D., Palo Alto University

**(PS6-D78) Using Technology to Implement an On-line Psychotherapy Tracking Database in a Multisite Primary Care Integrated Behavioral Health Program**

Dagoberto Heredia, Jr., Ph.D.<sup>1</sup>, Julia R. Craner, ABPP, Ph.D.<sup>2</sup>, Summer L. Berg, MSW<sup>1</sup>, Carol Goulet, Ph.D.<sup>1</sup>, Nathaniel Lombardi, Ph.D.<sup>1</sup>, Michelle LeRoy, ABPP, Ph.D.<sup>1</sup>, Sarah Trane, Ph.D.<sup>1</sup>, Olivia E. Bogucki, M.A.<sup>1</sup>, Craig N. Sawchuk, ABPP, Ph.D.<sup>1</sup>, 1. Mayo Clinic, 2. Mary Free Bed Rehabilitation Hospital

**(PS6-D79) Qualitative Feedback From a Brief Cognitive Behavioral Group Intervention for Insomnia in Primary Care**

John Mack, MSW<sup>1</sup>, Julia R. Craner, ABPP, Ph.D.<sup>2</sup>, Dagoberto Heredia, Jr., Ph.D.<sup>1</sup>, Olivia E. Bogucki, M.A.<sup>1</sup>, Craig N. Sawchuk, ABPP, Ph.D.<sup>1</sup>, 1. Mayo Clinic, 2. Mary Free Bed Rehabilitation Hospital

**(PS6-D80) Development, Implementation, and Dissemination of a Large-scale Psychotherapy Tracking Database in a Multisite Pediatric Integrated Behavioral Health Program**

Hannah Mulholland, MSW<sup>1</sup>, Sarah Trane, Ph.D.<sup>1</sup>, Jocelyn Lebow, ABPP, Ph.D.<sup>1</sup>, Nikki Rose, MSW<sup>1</sup>, Janice Schreier, MSW<sup>1</sup>, Patricia Kane, MSW<sup>1</sup>, Dagoberto Heredia, Jr., Ph.D.<sup>1</sup>, Olivia E. Bogucki, M.A.<sup>1</sup>, Julia R. Craner, ABPP, Ph.D.<sup>2</sup>, Craig N. Sawchuk, ABPP, Ph.D.<sup>1</sup>, 1. Mayo Clinic, 2. Mary Free Bed Rehabilitation Hospital

**(PS6-D81) Extending the Impact of Interventions for Depressive and Anxiety Symptoms into Primary Care: The Effectiveness of the Primary Care Behavioral Health (PCBH) Model**

Kevin M. Wilfong, B.A.<sup>1</sup>, Jeffrey Goodie, ABPP, Ph.D.<sup>1</sup>, Justin Curry, Ph.D.<sup>2</sup>, Chris Hunter, ABPP<sup>2</sup>, Phillip Kroke, B.S.<sup>1</sup>, 1. Uniformed Services University of the Health Sciences, 2. Defense Health Agency

**(PS6-D82) Facilitating Patient Disclosure of Anxiety and Depression in Primary Care**

Rachael James, Ph.D., Olivia M. Peros, M.A., Erin Ward-Ciesielski, Ph.D., Hofstra University

**(PS6-D83) For People With Medical Conditions, Interpersonal Countersupport Is More Consequential Than Types of Positive Interpersonal Support in Predicting Wellbeing Outcomes**

Brittany Sherrill, M.S., Priscilla Layman, M.S., Keith Sanford, Ph.D., Baylor University

**(PS6-D84) Ready or Not? How Patient Stage of Change Relates to Primary Care Behavioral Health Service Engagement**

Ana Bridges, Ph.D., Ayla R. Mapes, M.A., Meredith J. Souk, M.A., Linda E. Guzman, B.A., K. Vanessa Hutcheson, <sup>3</sup>, Wendy Diaz, <sup>3</sup>, James Valentine, University of Arkansas - Fayetteville

**(PS6-D85) A Multidisciplinary Approach to Enhancing Health Literacy and Managed Care Among Charitable Pharmacy Patients**

Fallon Richie, B.A.<sup>1</sup>, Candice N. Selwyn, Ph.D.<sup>1</sup>, Marlena Kelley, <sup>2</sup>, Shearie Archer, B.S.<sup>2</sup>, Jennifer Langhinrichsen-Rohling, Ph.D.<sup>1</sup>, 1. University of South Alabama, 2. Ozanam Charitable Pharmacy

**(PS6-D86) The Pattern of Visual Attention to Aversive Stimuli During Exposure (3)**

*Minoru Takahashi, B.A., Faculty of Human Sciences, Mejiro University*

**(PS6-D87) Parent Preferences for the Utilization and Presentation of Research Evidence in Guiding Mental Health Treatment Decision-making**

*Madeleine Rassaby, B.A.<sup>1</sup>, Laura Nelson Darling, M.A.<sup>2</sup>, David Langer, Ph.D.<sup>2</sup>, 1. Center for Anxiety and Related Disorders, Boston University, 2. Child Center for Anxiety and Related Disorders, Boston University*

**(PS6-D88) Perspectives of Mental Health Trainees and Professionals on Evidence-based Training Practices in India and the United States**

*Pankhuri Aggarwal, M.A.<sup>1</sup>, Aaron Luebke, Ph.D.<sup>1</sup>, Baiju Gopal, Ph.D.<sup>2</sup>, Harishankar Moosath, MA<sup>2</sup>, Aneesh Kumar, Ph.D.<sup>2</sup>, Viju Painadath, Ph.D.<sup>2</sup>, Jayasankara Reddy, Ph.D.<sup>2</sup>, Madhavi Rangaswami, Ph.D.<sup>2</sup>, Vaishali Raval, Ph.D.<sup>1</sup>, 1. Miami University, 2. Christ University*

**(PS6-D89) Bridging the Gap Between Research and Practice in Community Centers Serving Diverse, Low-income, Trauma-exposed Women: A Feasibility Study**

*Amelia P. Tankersley++, M.S., Janey E. Dike, M.A., P'trice Jones, B.S., Russell T. Jones, Ph.D., Virginia Polytechnic Institute and State University*

# Saturday Poster Sessions

8:30 a.m. – 9:30 a.m.

## International Ballroom, International Level

### Poster Session 7A

#### PS7

Key Words: *Exercise, Longitudinal, Mood*

(PS7-A1) **The Climb: The Highs and Lows of Mental Health on the Appalachian Trail**  
*Marie L. LePage, Ph.D., Michelle Cardona, Danielle Varquez, Converse College*

(PS7-A2) **The Impact of Burnout in Child and Adolescent Dance Students**  
*Christina Mayfield, M.S., Meghan Cody, Ph.D., Mercer University College of Health Professions*

(PS7-A3) **Exploring Gratitude, Anxiety, and Affect in the Social Context of Youth Team Sports**  
*Pallavi Babu, B.A., Hannah C. Herc, M.S., Sarah Francis, Ph.D., Peter Mezo, Ph.D., Mojisola Tiamiyu, Ph.D., University of Toledo*

(PS7-A4) **Cultivating the Well-being of Elite Youth Athletes: The Importance of Grit and Mindfulness**  
*Hannah C. Herc, M.S., Kaylynn Frantz, Rana Al-Nahha, B.A., Mojisola Tiamiyu, Ph.D., Sarah Francis, Ph.D., Peter Mezo, Ph.D., University of Toledo*

(PS7-A5) **Behavioral Inhibition and Activation Systems (BIS/BAS), Positive and Negative Partner Behavior, and Relationship Satisfaction in Married Adults**  
*Bailey A. Starritt, Mark A. Whisman, Ph.D., The University of Colorado at Boulder*

(PS7-A6) **The Interaction of Proactive and Reactive Motives on Physical Intimate Partner Aggression Perpetration in Conflict-prone Couples: A Dyadic Analysis**  
*Miklos B. Halmos, M.A.<sup>1</sup>, Kevin Moino, B.A.<sup>1</sup>, Dominic J. Parrott, Ph.D.<sup>1</sup>, Christopher I. Eckhardt, Ph.D.<sup>2</sup>, 1. Georgia State University, 2. Purdue University*

(PS7-A7) **Oh My Love, I am Not My Thoughts: Decentering Mediates the Association Between Mindfulness and Relationship Satisfaction**  
*Katherine A. Lenger, M.A.<sup>1</sup>, Cameron L. Gordon, Ph.D.<sup>2</sup>, Robyn Sessler, B.A.<sup>2</sup>, 1. University of Tennessee, Knoxville, 2. Middle Tennessee State University*

(PS7-A8) **Development and Initial Validation of the Relational Ambiguity Scale**  
*Neslihan James-Kangal, M.A., Sarah W. Whitton, Ph.D., University of Cincinnati*

**(PS7-A9) Psychological IPV and PTSD Arousal and Reactivity in Veteran Couples:**

**The Mediating Role of Difficulty with Impulse Control**

Kimberley Stanton, Ph.D.<sup>1</sup>, Katherine Knies, Ph.D.<sup>2</sup>, Julian Libet, Ph.D.<sup>1</sup>, Karen H. Petty, Ph.D.<sup>3</sup>, Grace McKee, M.A.<sup>4</sup>, Alice B. Huang, B.A.<sup>1</sup>, 1. Ralph H. Johnson VA Medical Center, 2. Ralph H. Johnson VAMC, 3. Couples and Family Clinic, Ralph H. Johnson VA Medical Center; Medical University of South Carolina, 4. Southern Methodist University

**(PS7-A10) Romantic and Sexual Behaviors Among Adolescents in Sexting Romantic Relationships**

Charlie Huntington, B.A., Galena K. Rhoades, Ph.D., University of Denver

**(PS7-A11) Basic Psychological Needs and Their Correlates Moderate Associations of Relationship Contingent Self-esteem with Mental Health and Relationship Outcomes**

Frane F. Santic, B.A., Lee J. Dixon, Ph.D., Catherine Zois, Ph.D., University of Dayton

**(PS7-A12) Transmission of Parental Relationship Communication Patterns to Young Adults**

Sara Wigderson, M.S., Kristin Lindahl, Ph.D., University of Miami

**(PS7-A13) How Well Do Romantic Partners Perceive Each Other's Depressive Symptoms?**

Chelsea N. Carson, B.S.<sup>1</sup>, Lauren Papp, Ph.D.<sup>2</sup>, Chrystyna Kouros, Ph.D.<sup>1</sup>, 1. Southern Methodist University, 2. University of Wisconsin - Madison

**(PS7-A14) Construction and Validation of the Emotional Dependency Scale (EDS)**

Blanca Elizabeth Jiménez-Cruz, Ph.D., Gabriela Amaré Pelayo, None, Karla Fernanda Ledesma Ortega, Angélica Riveros Rosas, Ph.D., National Autonomous University of Mexico

**(PS7-A15) Individual Coping Style Moderates the Relationship Between Prenatal Couple Conflict Behavior and Postpartum Depression**

Mona Khaled, M.A., Darby Saxbe, Ph.D., University of Southern California

**(PS7-A16) Adapting Healthy Relationship Education for Incarcerated Women: A Pilot Study**

Maggie O'Reilly Treter, M.A., Galena K. Rhoades, Ph.D., University of Denver

**(PS7-A17) A Closer Look at Closeness: The Impact of Hourly Mood on Couples' Closeness**

Corey Pettit, B.A.<sup>1</sup>, Stassja Sichko, B.A.<sup>2</sup>, Hannah Schacter, B.A., M.A., Ph.D.<sup>1</sup>, Sarah Barnett, B.A.<sup>1</sup>, Sohyun Han, M.A.<sup>1</sup>, Yehsong Kim, B.A.<sup>1</sup>, Adela Timmons, Ph.D.<sup>3</sup>, Gayla Margolin, Ph.D.<sup>1</sup>, 1. University of Southern California, 2. University of California, Los Angeles, 3. Florida International University

**(PS7-A18) Your Empathy, My Depression: Using Self- and Partner-reports to Examine Associations Between Partner's Empathy and One's Depression in Veterans in Couples Therapy**

Alice B. Huang, B.A.<sup>1</sup>, Jenna B. Teves, Ph.D.<sup>1</sup>, Grace McKee, M.A.<sup>2</sup>, Kimberley Stanton, Ph.D.<sup>1</sup>, Karen H. Petty, Ph.D.<sup>3</sup>, Julian Libet, Ph.D.<sup>1</sup>, 1. Ralph H. Johnson VA Medical Center, 2. Southern Methodist University, 3. Couples and Family Clinic, Ralph H. Johnson VA Medical Center; Medical University of South Carolina

**(PS7-A19) Relationship Functioning, Satisfaction, and Violence Among Mexican American Couples**

*Alexa Chandler, B.A.<sup>1</sup>, Erika Lawrence, Ph.D.<sup>2</sup>, 1. University of Arizona, 2. The Family Institute at Northwestern University*

**(PS7-A20) A Daily Diary Study of Normal Narcissism and Relationship Satisfaction in Couples**

*Alexandra Long, M.A., Madison M. Guter, M.A., Jessica A. Birg, B.A., Nathaniel R. Herr, Ph.D., American University*

**(PS7-A21) Mediating Role of Negative Affect on the Relationship Between Anxious Attachment Style and Trait Forgiveness**

*Kayla Scamaldo, M.A., Madeline S. Herman, M.A., Angela Bush, M.A., Elizabeth Goncy, Ph.D., Cleveland State University*

**(PS7-A22) Attachment and Dyadic Stress Regulation: Multilevel Mixed Modeling of Time-lagged Respiratory Sinus Arrhythmia**

*Binghuang A. Wang, M.S., Leanna Poole, B.A., Eileen Barden, B.S., Christina Balderrama-Durbin, Ph.D., Binghamton University, State University of New York*

**International Ballroom, International Level**

**Poster Session 7B**

**PS7**

*Key Words: Adolescents, Anger / Irritability, Emotion Regulation*

**(PS7-B23) The Role of Executive Functioning in the Neural Mechanisms of Reward Processing in Youths with Irritability**

*Maria Kryza-Lacombe, M.S.<sup>1</sup>, Natalia Iturri,<sup>2</sup> Katie Strickland,<sup>2</sup> Laurie Wakschlag, Ph.D.<sup>3</sup>, Lea R. Dougherty, Ph.D.<sup>4</sup>, Jillian Lee Wiggins, Ph.D.<sup>5</sup>, 1. San Diego State University/UC San Diego Joint Doctoral Program in Clinical Psychology, 2. San Diego State University, 3. Northwestern University Feinberg School of Medicine, 4. University of Maryland- College Park, 5. SDSU/UCSD*

**(PS7-B24) Hippocampal Sub-region Volume in Preadolescence: Associations With Maternal Depression History and Later Youth Depressive Symptoms in Early Adolescence**

*Samantha Hubachek, B.A.<sup>1</sup>, Morgan Botdorf, M.S.<sup>1</sup>, Emma Chad-Friedman, M.S.<sup>1</sup>, Daniel Klein, Ph.D.<sup>2</sup>, Lea Dougherty, Ph.D.<sup>1</sup>, 1. University of Maryland, College Park, 2. Stony Brook University*

**(PS7-B25) Left-sided Repetitive Transcranial Magnetic Stimulation (rTMS) as a Treatment For Anxiety and Depression in a Mixed Clinical Sample**

*Alicia Kruzelock, B.A., Matt Judah, Ph.D., Old Dominion University*

**(PS7-B26) Evidence-based Ethics? Testing a Novel Decision-making Tool**

*Melissa G. Hunt, Ph.D., Megha Nagaswami, B.A., Suh Jung Park, University of Pennsylvania*

**(PS7-B27) Identifying Challenging Interactions Between Outpatient Nurses and Caregiving Families**

*Kara L. Buda, M.A.<sup>1</sup>, Talia Zaider, Ph.D.<sup>2</sup>, Smita Banerjee, Ph.D.<sup>2</sup>, Shira Hichenberg, M.A.<sup>2</sup>, Patricia Parker, Ph.D.<sup>2</sup>, 1. The Graduate Center and Hunter College, The City University of New York, 2. Memorial Sloan Kettering Cancer Center*

**(PS7-B28) Using Vignettes as a Proxy to Measure Violence Myth Acceptance and Rape Empathy: A Validation Study**

*Pearl Patterson,<sup>1</sup> Emma Culbertson,<sup>1</sup> Melanie D. Hetzel-Riggin, Ph.D.<sup>2</sup>, 1. Penn State Behrend, 2. Penn State Erie, The Behrend College*

**(PS7-B29) Prefrontal Cortical Integrity Links Exposure to Violence in Childhood With the Perpetration of Violence in Adulthood**

*Nadia Bounoua, B.S., Rickie Miglin, B.S., Jeffrey M. Spielberg, Ph.D., Naomi Sadeh, Ph.D., University of Delaware*

**(PS7-B30) Family-of-origin Violence and Intimate Partner Violence Perpetration Among Men Arrested for Domestic Violence: The Mediating Role of Emotion Dysregulation**

*Gloria Romero, M.S., Hannah Grigorian, B.A., Alisa Garner, M.A., Autumn Rae Florimbio, M.A., Meagan J. Brem, M.A., Gregory Stuart, Ph.D., The University of Tennessee, Knoxville*

**(PS7-B31) Abusive Texts and Coercive Sexes: Exploring Cyber Dating Abuse Perpetration as a Function of Cognitive Jealousy and Romantic Obsessions/Compulsions**

*Meagan J. Brem, M.A.<sup>1</sup>, Hannah Grigorian, B.A.<sup>1</sup>, Autumn Rae Florimbio, M.A.<sup>1</sup>, Gloria Romero, M.S.<sup>1</sup>, Alisa Garner, M.A.<sup>1</sup>, Tara L. Cornelius, Ph.D.<sup>2</sup>, Gregory Stuart, Ph.D.<sup>1</sup>, 1. The University of Tennessee, Knoxville, 2. Grand Valley State University*

**(PS7-B32) The Dark Side of Emotions: Emotion Dysregulation and Empathy as Predictors of Aggression**

*Victoria Trimm, None, Kibby McMahon, M.A., Zachary Rosenthal, Ph.D., Duke University*

**(PS7-B33) Cyber and In-person Dating Abuse Among Sexual Minority College Students: The Interaction Between Alcohol Problems and Perceived Partner Infidelity**

*Meagan J. Brem, M.A.<sup>1</sup>, Ryan Shorey, Ph.D.<sup>2</sup>, Tara L. Cornelius, Ph.D.<sup>3</sup>, Gregory Stuart, Ph.D.<sup>1</sup>, 1. The University of Tennessee, Knoxville, 2. University of Wisconsin-Milwaukee, 3. Grand Valley State University*

**(PS7-B34) The Relationship Between Autonomic Nervous System Reactivity and Emotion Dysregulation with Trait Physical Aggression**

*Alexander A. Puhalla, M.A., Kristen M. Sorgi, B.S., Joey C. Cheung, B.S., Martha K. Fahlgren, M.A., Zari Weaver, Sarah Taylor, Carla Capone, B.A., Michael McCloskey, Ph.D., Temple University*

**(PS7-B35) Gender Moderates the Effects of Exposure to Harsh Parenting, Interparental Aggression and Autonomic Nervous System Activity on Aggression**

*Edward C. Merritt, M.A., University at Albany, State University of New York*

**(PS7-B36) From Intimate Partner Aggression Victimization to Perpetration: A Test of Moderated Mediation**

Andrea A. Massa, M.S.<sup>1</sup>, Christopher I. Eckhardt, Ph.D.<sup>1</sup>, Dominic J. Parrott, Ph.D.<sup>2</sup>, 1. Purdue University, 2. Georgia State University

**(PS7-B37) Alcohol Use/problems and Sexual Aggression Perpetration Among College Men: The Moderating Effect of Positive Urgency**

Alisa Garner, M.A.<sup>1</sup>, Autumn Rae Florimbio, M.A.<sup>1</sup>, Meagan J. Brem, M.A.<sup>1</sup>, Gloria Romero, M.S.<sup>1</sup>, Hannah Grigorian, B.A.<sup>1</sup>, Melissa A. Lewis, Ph.D.<sup>2</sup>, Ryan Shorey, Ph.D.<sup>3</sup>, Tara L. Cornelius, Ph.D.<sup>4</sup>, Gregory Stuart, Ph.D.<sup>1</sup>, 1. University of Tennessee, Knoxville, 2. University of North Texas Health Science Center, 3. University of Wisconsin-Milwaukee, 4. Grand Valley State University

**(PS7-B38) Characterizing Sexual Assault Disclosure Among Undergraduate Sexual Assault Survivors**

Charlotte D. Brill, M.S., William H. George, Ph.D., University of Washington

**(PS7-B39) College Students' Acknowledgment of Sexual Assault Experiences Over Time: Associations With the #metoo Movement**

Anna Jaffe, Ph.D.<sup>1</sup>, Ian Cero, Ph.D.<sup>2</sup>, David DiLillo, Ph.D.<sup>3</sup>, 1. University of Washington, Seattle, 2. University of Rochester Medical Center, 3. University of Nebraska-Lincoln

**(PS7-B40) Gender Differences in Correlates of Bystander Decision Making**

Theresa Buczek, B.S.<sup>1</sup>, Alaina Kress, B.A.<sup>1</sup>, Jessica Feketik,<sup>1</sup> Melanie D. Hetzel-Riggin, Ph.D.<sup>2</sup>, 1. Penn State Behrend, 2. Penn State Erie, The Behrend College

**(PS7-B41) Sensitivity to Facial Affect Among Partner Violent Men: The Role of Personality Disorder Traits and Alcohol**

Victoria Bennett, M.A., Donald A. Godfrey, III, B.S., Alexandra Snead, M.A., Julia Babcock, Ph.D., University of Houston

**(PS7-B42) The Impact of Interpersonal Violence Victimization Experiences on Bystander Intervention Efficacy**

Lauren Plummer,<sup>1</sup> Alaina Kress, B.A.<sup>1</sup>, Theresa Buczek, B.S.<sup>1</sup>, Samantha Reedy,<sup>1</sup> Melanie D. Hetzel-Riggin, Ph.D.<sup>2</sup>, 1. Penn State Behrend, 2. Penn State Erie, The Behrend College

**International Ballroom, International Level**

**Poster Session 7C**

**PS7**

Key Words: African Americans / Black Americans, Sleep, Depression

**(PS7-C43) Racial Discrimination Predicts Depressive Symptoms and Sleep Problems: Replication Across Family Members Among Blacks in the Rural South**

Ariel R. Hart, B.A., Justin Lavner, Ph.D., Steven Beach, Ph.D., University of Georgia

**(PS7-C44) Cognitive Mediators of Effects of Racial Stressors on Anxiety in Daily Life**

Janarthan Sivaratnam, B.S., Erin K. Verdi, M.S., Tilda Cvrkel, Ph.D., Seattle Pacific University

- (PS7-C45) A Longitudinal Investigation of Racial Discrimination, Distress Tolerance, and Psychological Well-being in African American College Students**  
Thomas Le, B.A., Lindsey Burke, Derek Iwamoto, Ph.D., University of Maryland, College Park
- (PS7-C46) Factor Structure of the COPE in an Ethnocultural Minority Sample**  
Cheryl K. Best, M.A., Elisabeth O'Rourke, M.A., Joe Bettcher, M.A., Atara Siegel, M.A., Anna Yeo, M.A., Leslie Halpern, Ph.D., University at Albany, State University of New York
- (PS7-C47) Comparing Parent's Emotional Distress and Negative Expectations in Clinical and Subclinical Symptom Groups of Sexually Abused Children**  
Emily A. Sonnen, M.A.<sup>1</sup>, Brittany Biles, M.A.<sup>1</sup>, Katie Meidlinger, M.A.<sup>1</sup>, Kate Theimer, M.A.<sup>1</sup>, Kelsey McCoy, M.A.<sup>1</sup>, Terrence Z. Huit, M.A.<sup>1</sup>, Akemi E. Mii, B.A.<sup>1</sup>, David Hansen, Ph.D.<sup>1</sup>, Mary Fran Flood, Ph.D., MSW<sup>2</sup>, 1. University of Nebraska-Lincoln, 2. Department of Psychology, UNL
- (PS7-C48) Youths' Implicit Beliefs as a Mechanism Linking Childhood Trauma Exposure with Anxiety, Depression, and PTSD Symptoms**  
Lucy Lurie, B.A.<sup>1</sup>, Maya L. Rosen, Ph.D.<sup>1</sup>, Katie A. McLaughlin, Ph.D.<sup>2</sup>, 1. University of Washington, Seattle, 2. Harvard University
- (PS7-C49) From Maternal Childhood Victimization to Child Emotional and Behavioral Problems: Gender Moderated Pathways**  
Jacqueline Duong, B.A., Meghan Evans, B.A., Miguel Villodas, Ph.D., San Diego State University
- (PS7-C50) Emotional Awareness Mediates the Relationship Between Childhood Emotional Abuse and Borderline Personality Disorder Features of Affective Instability and Identity Problems**  
Jessica A. Seddon, B.A.<sup>1</sup>, Anne Shaffer, Ph.D.<sup>2</sup>, Kristel Thomassin, Ph.D.<sup>1</sup>, 1. University of Guelph, 2. University of Georgia
- (PS7-C51) When Does Symptom Reduction Occur During a Trauma-focused Intervention for K-5 Students with PTSD?**  
Stevie N. Grassetti, Ph.D.<sup>1</sup>, Leigh Andrews, M.A.<sup>2</sup>, Briana Haut, Psy.D.<sup>2</sup>, Timothy Fowles, Ph.D.<sup>2</sup>, Ryan Beveridge, Ph.D.<sup>2</sup>, Adina Seidenfeld, Ph.D.<sup>3</sup>, 1. West Chester University of Pennsylvania, 2. University of Delaware, 3. University of Pennsylvania, Department of Psychiatry, Philadelphia, PA
- (PS7-C52) Responding to the Prevalence and Impact of Trauma in Elementary Schools: A Multi-tiered, Cbt-informed Intervention**  
Kimberly Kleinman, Psy.D., Zoe Chiel, Ph.D., Amanda L. Webb, B.A., Stephanie Garcia Sosa, Zoe Elena Rosenbloom, B.A., New York Presbyterian Hospital/Columbia University Medical Center
- (PS7-C53) Emotional Nonacceptance, Distraction Coping and PTSD Symptoms in a Trauma-exposed Adolescent Inpatient Sample**  
Emma C. Woodward, M.A., Elizabeth M. Raines, B.A., Abigail E. Candelari, M.A., Erika S. Trent, B.S., Andres G. Viana, ABPP, Ph.D., University of Houston
- (PS7-C54) Cognitive Control Moderates the Relationship Between Maltreatment and Anxiety in Youth**  
Zelal Kilic, Alexandra M. Rodman, Ph.D., Katie A. McLaughlin, Ph.D., Harvard University

**(PS7-C55) The Impact of Caregivers' Victimization History on Their Children's Behavior**

*Tre D. Gissandaner, B.A., Andrew Littlefield, Ph.D., Adam T. Schmidt, Ph.D., Ann Mastergeorge, Ph.D., Texas Tech University*

**(PS7-C56) Informing Behavioral Parenting Interventions by Testing Potential Mediators in the Relation Between Child Physical Abuse and Adolescent Weapon Carrying**

*Melissa C. Osborne, M.P.H., Ph.D.<sup>1</sup>, Shannon R. Self-Brown, Ph.D.<sup>1</sup>, Betty S. Lai, Ph.D.<sup>2</sup>, 1. Georgia State University, 2. Boston College*

**(PS7-C57) Social Cognitive Pathways from Childhood Abuse to Suicide Risk in Adolescence: The Role of Perception of Social Competency**

*Mariah Xu, B.A., Beverlin del Rosario, B.A., Emily Kline, B.A., Regina Miranda, Ph.D., The Graduate Center and Hunter College, City University of New York*

**(PS7-C58) Relation of Maltreatment and Alcohol Use to Cortical Brain Function in Adolescents**

*Gloria Meiers, B.A., Jennifer Giordano, B.A., Kate Nooner, B.A., M.S., Ph.D., University of North Carolina Wilmington*

**(PS7-C59) Intergenerational Transmission of Child Maltreatment: Mediating Role of Maternal Distress and Family Violence**

*Nicholas M. Morelli, B.A., Meghan Evans, B.A., Jacqueline Duong, B.A., Damian M. Elson, B.A., Miguel Villodas, Ph.D., San Diego State University*

**(PS7-C60) Relationship Between Caregiver Trauma History, Baseline Posttraumatic Stress Symptoms and Engagement in TF-CBT After Child Sexual Abuse**

*Sophia Valenti,<sup>1</sup> Lauren Brumley, M.A.<sup>1</sup>, Hiu-fai Fong, M.D.<sup>2</sup>, Phillip Scribano,<sup>3</sup> 1. University of Pennsylvania, 2. Boston Children's Hospital/Harvard Medical School, 3. Children's Hospital of Philadelphia/Perelman School of Medicine at the University of Pennsylvania*

**(PS7-C61) Who Brings Their Children to Treatment Consistently and Does It Matter?: Predictors and Consequences of Session Frequency for Trauma-focused Cognitive Behavioral Therapy for Sexual Abuse**

*Lauren Brumley, M.A.<sup>1</sup>, Sophia Valenti,<sup>1</sup> Hiu-fai Fong, M.D.<sup>2</sup>, Phillip Scribano,<sup>3</sup> 1. University of Pennsylvania, 2. Boston Children's Hospital/Harvard Medical School, 3. Children's Hospital of Philadelphia/Perelman School of Medicine at the University of Pennsylvania*

**(PS7-C62) Poorer Set Shifting Ability Prospectively Predicts Trauma-related Rumination Among Individuals Exposed to Hurricane Irma**

*Kimberly A. Arditte Hall, Ph.D.<sup>1</sup>, Caitlin A. Stamatis, M.S.<sup>2</sup>, Nikki A. Puccetti, B.A.<sup>2</sup>, Aaron S. Heller, Ph.D.<sup>2</sup>, Kiara R. Timpano, Ph.D.<sup>2</sup>, 1. VA Boston Healthcare System, 2. University of Miami*

Poster Session 7D

PS7

Key Words: Autism Spectrum Disorders, Anxiety, Implementation

**(PS7-D63) Feedback from School Stakeholders to Improve the Contextual Fit of a School-based CBT Program for Youth with ASD and Anxiety**

Katherine Pickard, Ph.D.<sup>1</sup>, Allison Meyer, Ph.D.<sup>1</sup>, Caitlin Walsh, Ph.D.<sup>1</sup>, Lisa Hayutin, Ph.D.<sup>1</sup>, Audrey Blakeley-Smith, Ph.D.<sup>2</sup>, Richard Boles, Ph.D.<sup>3</sup>, Susan Hepburn, Ph.D.<sup>4</sup>, Megan Morris, Ph.D.<sup>1</sup>, Nuri Reyes, Ph.D.<sup>2</sup>, Tanea Tanda, B.A.<sup>2</sup>, Judy Reaven, Ph.D.<sup>2</sup>, 1. University of Colorado, School of Medicine, 2. JFK Partners, University of Colorado Anschutz Medical Campus, 3. University of Colorado Anschutz Medical Campus, 4. Colorado State University

**(PS7-D64) Utilizing Practice Element Profiles to Identify Training Targets in a Community Child Mental Health Agency**

Natalie Finn, B.S.<sup>1</sup>, Selamawit Hailu, M.S.<sup>1</sup>, Adam Bernstein, Ph.D.<sup>2</sup>, Michael Southam-Gerow, Ph.D.<sup>1</sup>, 1. Virginia Commonwealth University, 2. PracticeWise

**(PS7-D65) The Influence of Clinician Characteristics on Utilization of Core Practice Elements Within an EBP at a Community Mental Health Agency**

Elisa E. Hernandez, B.A., Amanda Gentz, B.A., Jennifer Regan, Ph.D., Cameo Stanick, Ph.D., Gina Perez, Psy.D., Debbie Manners, LCSW, Hathaway-Sycamores Child and Family Services

**(PS7-D66) Skills Acquisition and Acceptability of the DBT STEPS-A Intervention Among Middle School Students**

Nikita Patel, M.A.<sup>1</sup>, Sarah Kerner, Psy.D.<sup>2</sup>, Devora Panish, B.A.<sup>3</sup>, Elena Benjamin, Psy.D.<sup>2</sup>, Sweene Oscar, Ph.D.<sup>2</sup>, 1. Yeshiva University - Ferkauf Graduate School of Psychology, 2. Columbia University Medical Center, 3. Rutgers University

**(PS7-D67) Formative Work to Adapt a Parent Training Intervention for the Kenyan Context**

Martha Ishiekwene, B.A.<sup>1</sup>, Lisa Armistead, Ph.D.<sup>1</sup>, Jenelle Shanley, Ph.D.<sup>2</sup>, Darius Nyamai, B.S.<sup>3</sup>, Victoria Mutiso, Ph.D.<sup>3</sup>, Christine Musyimi, B.S.<sup>3</sup>, David Ndeti, M.D.<sup>4</sup>, 1. Georgia State University, 2. The Pennsylvania State University, 3. Africa Mental Health Foundation, 4. University of Nairobi

**(PS7-D69) Who Takes Advantage of Implementation Initiatives: Preaching to the Choir or Whistling in the Wind?**

Brigid Marriott, M.A., Jack Andrews, B.S., Kristin Hawley, Ph.D., University of Missouri

**(PS7-D70) Usual Care Therapists' Treatment Approaches: Do Their Practice Element Selections Vary by Diagnosis and Align with the Evidence-base?**

Kaitlin A. Hill, M.A., Albert C. Mah, M.A., Brad J. Nakamura, Ph.D., University of Hawaii at Manoa

**(PS7-D71) The Unique Effects of Hope, Optimism, and Self-efficacy on Subjective Well-being and Depression in German Adults**

Johann D'Souza, M.A., Matthew W. Gallagher, Ph.D., University of Houston

**(PS7-D72) Unpacking Grit: Perseverance of Effort, Consistency of Interest, and Well-being in Young Adults**

*Clorinda E. Velez, Ph.D., Quinnipiac University*

**(PS7-D73) Development of the Pragmatic Prospexion Scale**

*Madison E. Taylor, Victoria Tsao, Eirini Zoupou, Caroline L. Gibson, Jenna P. Weingarten, Gaby S. Coetzee, B.A., Daniel E. Cohen, Kirstyn C. Taylor, B.A., Ayelet M. Ruscio, Ph.D., University of Pennsylvania*

**(PS7-D74) Internet-based Cognitive Behavioral Interventions on Resilience and Psychological Well-being and Their Effects on Japanese University Students**

*Tomona Yahata, B.A.<sup>1</sup>, Yuji Sakano, Ph.D.<sup>2</sup>, 1. Health Sciences University of Hokkaido, 2. School of Psychological Science, Health Science University of Hokkaido*

**(PS7-D75) The Three Orientations of Compassion: Predictive Utility for Depression and Anxiety**

*Barbara Storch, B.S., B.A.<sup>1</sup>, Claire J. Hoogendoorn, Ph.D.<sup>2</sup>, Laura Reigada, Ph.D.<sup>3</sup>, 1. The Graduate Center and Brooklyn College, City University of New York, 2. Yeshiva University - Ferkauf Graduate School of Psychology, 3. City University of New York, Brooklyn College and the Graduate Center*

**(PS7-D76) The Influence of Hope and Grit on Psychological Outcomes Following Hurricane Harvey**

*Colleen A. Phillips, B.A., Matthew W. Gallagher, Ph.D., University of Houston*

**(PS7-D77) Cultivating Our Resilience (CORE): Preliminary Results of an Online Intervention for the Promotion of Resilience in European Students**

*Araceli Palma, M.A.<sup>1</sup>, Rocío Herrero, Ph.D.<sup>2</sup>, Rosa M. Baños, Ph.D.<sup>3</sup>, Azucena García-Palacios, Ph.D.<sup>4</sup>, Marvin Franke, M.A.<sup>5</sup>, Christian Moser, M.A.<sup>6</sup>, David Ebert, Ph.D.<sup>5</sup>, Dennis Goerlich, Ph.D.<sup>7</sup>, Michael Schaub, Ph.D.<sup>8</sup>, Thomas Berger, Ph.D.<sup>6</sup>, Corina Jacobi, Ph.D.<sup>9</sup>, Cristina Botella, Ph.D.<sup>1</sup>, 1. Jaume I University, 2. Jaume I University; CIBER Fisiopatología Obesidad y Nutrición (CIBEROBN), Instituto Carlos III, Spain.; Polibienestar Institute, Valencia, Spain, 3. Department of Personality, Evaluation and Psychological Treatment, University of Valencia; CIBER Physiopathology of Obesity and Nutrition (CIBEROBN), Instituto Carlos III, Madrid, Spain; Polibienestar Institute, University of Valencia, Valencia, España., 4. Universitat Jaume I; Instituto Salud Carlos III, 5. Friedrich-Alexander-Universität, 6. University of Bern, 7. Institut für Biometrie und Klinische Forschung, 8. Zurich University, 9. Technische Universität Dresden*

International Ballroom, International Level

Poster Session 8A

PS8

Key Words: *Self-Injury, Psychometrics, Translational Research*

**(PS8-A1) The Psychometric Properties of Norwegian Versions of the Deliberate Self-harm Inventory and the Inventory of Statements About Self-injury**

Johanna Vigfusdottir, <sup>1</sup>, Karl Yngvar Dale, Ph.D.<sup>2</sup>, Egil Jonsbu, M.D., Ph.D.<sup>3</sup>, E David Klonsky, Ph.D.<sup>4</sup>, Kim Gratz, Ph.D.<sup>5</sup>, Reidun Høidal, <sup>1</sup>, 1. More og Romsdal Health Trust, 2. Molde University College, 3. More og Romsdal Health Trust, NTNU, Norway, 4. University of British Columbia, 5. University of Toledo

**(PS8-A2) A Mediation Model of Cognitive Inflexibility, Suicidal Behavior, and Mindfulness Skills**

M. Troy Weathers, B.S., Bianca Vélez, B.A., Nicholas L. Salsman, ABPP, Ph.D., Xavier University

**(PS8-A3) Cognitive Effort Influences Decisions About Relief**

Peter J. Franz, B.S., M.A.<sup>1</sup>, Eun Jae Kim, <sup>1</sup>, Brianna Pastro, <sup>2</sup>, Matthew Nock, Ph.D.<sup>1</sup>, Evan Kleiman, Ph.D.<sup>3</sup>, 1. Harvard University, 2. Tufts University, 3. Rutgers University

**(PS8-A4) The Efficacy of Cognitive-behavioural Therapy For Suicide Prevention in Youth Hospitalized After Deliberate Self-harm**

Marissa E. Williams, M.S., Mark Sinyor, M.D., M.S., Rabia Zaheer, B.S., Homer Tien, M.D., M.S., Ayal Schaffer, M.D., Janet Ellis, M.D., Amy Cheung, M.D., M.S., Benjamin Goldstein, M.D., Ph.D., Rachell Mitchell, M.D., Steven Selchen, M.D., Alex Kiss, Ph.D., Sunnybrook Health Sciences Centre

**(PS8-A5) The Association of Childhood Trauma and Interpersonal Attribution With Suicide Risk in a Community Sample of Adults With Major Depressive Episodes**

Jessica A. Harper, B.A.<sup>1</sup>, Kylie Sligar, B.S.<sup>1</sup>, Laura Frazee, M.S.<sup>1</sup>, Marisa Toups, M.D.<sup>2</sup>, 1. UT Southwestern Medical Center, 2. Dell Medical School, The University of Texas at Austin

**(PS8-A6) Examining Dissociative Experiences in Young Adults with Suicide Ideation and Suicide Attempts**

Mikayla Pachkowski, B.A., Boaz Y. Saffer, M.A., David Klonsky, Ph.D., The University of British Columbia

**(PS8-A7) Relationships Between Non-suicidal Self-injury and Other Maladaptive Behaviors: Beyond Difficulties in Emotion Regulation**

Kristen M. Sorigi, B.S., Joey C. Cheung, B.S., Martha K. Fahlgren, M.A., Alexander A. Puhalla, M.A., Kristen Buckley, Zari Weaver, Michael McCloskey, Ph.D., Temple University

**(PS8-A8) PTSD From a Suicide Attempt: An Empirical Investigation Among Suicide Attempt Survivors**

*Ian H. Stanley, M.S.<sup>1</sup>, Melanie A. Hom, M.S.<sup>1</sup>, Joseph Boffa, M.S.<sup>1</sup>, Dese'Rae Stage, B.S.<sup>2</sup>, Thomas Joiner, Ph.D.<sup>1</sup>, 1. Florida State University, 2. Live Through This*

**(PS8-A9) Obesity and Suicide Behavior in Young Latina Adults: The Mediating Influences of Sleep Problems, Health Problems, and Dissatisfaction with Personal Appearance**

*Joseph D. Hovey, Ph.D., Liza Talavera-Garza, Ph.D., Glenn Gray, RN, Laura D. Seligman, Ph.D., Eric Escamilla, M.A., University of Texas Rio Grande Valley*

**(PS8-A10) Brief Cognitive-behavioral Therapy for Suicidal Inpatients**

*Gretchen Diefenbach, Ph.D.<sup>1</sup>, M. David Rudd, Ph.D.<sup>2</sup>, Lori F. Merling, Ph.D.<sup>3</sup>, Carolyn Davies, Ph.D.<sup>3</sup>, Benjamin W. Katz, B.A.<sup>4</sup>, David Tolin, Ph.D.<sup>1</sup>, 1. Institute of Living, 2. University of Memphis, 3. Anxiety Disorders Center, The Institute of Living, 4. University of New England*

**(PS8-A11) Common and Country-specific Characteristics Associated With Suicidality in the Arab Region**

*Sariah Daouk, M.A.<sup>1</sup>, Rania Awaad, M.D.<sup>2</sup>, Sara Maklad, M.D.<sup>2</sup>, Bilal Ahmed, B.S.<sup>3</sup>, Suzanne Barakat, M.D.<sup>4</sup>, Yan Leykin, Ph.D.<sup>1</sup>, 1. Palo Alto University, 2. Stanford University, 3. University of Toledo, 4. University of California San Francisco*

**(PS8-A12) Interpersonal Functions of Non-suicidal Self-injury and Their Relationship to Facial Emotion Recognition and Social Problem-solving**

*Emily Copps, M.A., Nicholas L. Salsman, ABPP, Ph.D., Xavier University*

**(PS8-A13) Ethnic Identity Protects Against Feelings of Entrapment on Suicide Ideation in African American Young Adults**

*David W. Hollingsworth, Ph.D.<sup>1</sup>, Lillian Polanco-Roman, Ph.D.<sup>2</sup>, 1. Fairfield University, 2. Columbia University*

**(PS8-A14) Discrimination Experiences Influence Capability for Suicide in African Americans**

*Jasmin R. Brooks, B.A., Soumia Cheref, M.A., Judy Hong, M.A., Ijeoma J. Madubata, M.A., Rheeda Walker, Ph.D., University of Houston*

**(PS8-A15) Co-rumination Predicts Non-suicidal Self-injury in Late Adolescence**

*Emily Scarpulla, B.A., Melissa Jankowski, M.A., Cynthia Erdley, Ph.D., University of Maine*

**(PS8-A16) Peer Socialization of Nonsuicidal Self-injury (NSSI): Moderators of the Association Between Peer Group NSSI and Future Self-injurious Behavior**

*Matthew G. Clayton, B.A., Mitchell Prinstein, Ph.D., University of North Carolina at Chapel Hill*

**(PS8-A17) The Relationships Between Alcohol Use, Perceived Burdensomeness, and Suicidal Ideation in College-aged Men and Women**

*Morganne A. Kraines, Ph.D.<sup>1</sup>, Cassandra P. Krug, M.S.<sup>2</sup>, Raymond Tucker, Ph.D.<sup>3</sup>, Lucas Kelberer, M.S.<sup>2</sup>, Tony T. Wells, Ph.D.<sup>2</sup>, 1. Alpert Medical School of Brown University, 2. Oklahoma State University, 3. Louisiana State University*

- (PS8-A18) Hostility and Suicidal Ideation: The Mediating Role of Interpersonal Risk Factors**  
*Brittany M. Mathes, M.S., Allysa D. Quick, B.S., Brad Schmidt, Ph.D., Florida State University*
- (PS8-A19) A Longitudinal Study of Psychological Factors as Mediators of the Relationship Between Insomnia Symptoms and Suicidal Ideation Among Young Adults**  
*Melanie A. Hom, M.S.<sup>1</sup>, Ian H. Stanley, M.S.<sup>1</sup>, Carol Chu, Ph.D.<sup>2</sup>, Michelle M. Sanabria, B.S.<sup>3</sup>, Kirsten Christensen, B.S.<sup>4</sup>, Evan A. Albury,<sup>1</sup> Megan L. Rogers, M.S.<sup>1</sup>, Thomas Joiner, Ph.D.<sup>1</sup>, 1. Florida State University, 2. Harvard University, 3. Stanford University, 4. McLean Hospital*
- (PS8-A20) Parsing the Influences of Depression and Insomnia on Suicide Ideation in Young Adults Using Longitudinal Data from South Texas**  
*Joseph D. Hovey, Ph.D., Grant Benham, Ph.D., Eric Escamilla, M.A., University of Texas Rio Grande Valley*
- (PS8-A21) Self-harm Behaviors and Their Intentions: A Cross-cultural Analysis**  
*Anna S. Freedland, B.A.<sup>1</sup>, Nancy H. Liu, Ph.D.<sup>2</sup>, Ricardo F. Muñoz, Ph.D.<sup>1</sup>, Yan Leykin, Ph.D.<sup>1</sup>, Suzanne Barakat, M.D.<sup>3</sup>, Monica Garza, Ph.D.<sup>4</sup>, 1. Palo Alto University, 2. University of California, Berkeley, 3. University of California San Francisco, 4. Legacy Community Health*
- (PS8-A22) The Relationship Between Capability for Suicide and Suicide Attempter Status**  
*Katherine G. Cunningham, Trystan H. Loustau, Kathryn P. Linthicum, B.A., Lauren Harris, B.A., Jessica Ribeiro, Ph.D., Florida State University*
- (PS8-A23) The Effect of Prior Suicidal Thoughts and Behaviors on Virtual Suicide Completion**  
*Kensie Funsch, B.S., Xieying Huang, M.S., Joe Franklin, Ph.D., Florida State University*
- (PS8-A24) PTSD Hyperarousal Symptoms Interact with Perceived Burdensomeness to Predict Suicidality**  
*Danielle M. Morabito, B.A.<sup>1</sup>, Carter E. Bedford, B.A.<sup>2</sup>, Joseph Boffa, M.S.<sup>1</sup>, Brad Schmidt, Ph.D.<sup>1</sup>, 1. Florida State University, 2. University of Utah*
- (PS8-A25) Comfortably Numb: Non-suicidal Self-injury While Under the Influence of Alcohol and Other Substances May Uniquely Contribute to Suicide Risk**  
*Jessica F. Sandler, B.A., Kenneth J.D. Allen, Ph.D., William C. Kelner, B.A., Alyson B. Randall, B.A., David J. Schillinger, B.S., Heather Schatten, Ph.D., Ivan Miller, Ph.D., Michael Arney, Ph.D., Butler Hospital & Brown University*

Poster Session 8B

PS8

Key Words: Anxiety, Exposure, Transdiagnostic

**(PS8-B26) Two Stimuli Are Better Than One: Increasing Variability in Ratings of Fear, Toleration, and Fear Expectancies During Exposure**

*Devin Petersen, M.A., Sarah J. Kertz, Ph.D., Southern Illinois University*

**(PS8-B27) Drinking for the Other You: Alcohol Consequences in Social Anxiety and Dissociation**

*Matthew Cook, B.A., Amie R. Newins, Ph.D., University of Central Florida*

**(PS8-B28) An Exploration of Continued Skill Use and Long-term Outcomes Following Treatment Among Adults With Heterogenous Anxiety Disorders**

*Maya Nauphal, B.A., Elizabeth Eustis, Ph.D., Todd Farchione, Ph.D., Boston University Center for Anxiety and Related Disorders*

**(PS8-B29) Tell Me yet Again It's Okay: Predicting Reassurance Seeking From Anxiety and Intolerance of Uncertainty**

*Allison Meyer, Ph.D.<sup>1</sup>, John Curry, Ph.D.<sup>2</sup>, 1. University of Colorado, School of Medicine, 2. Duke University*

**(PS8-B30) Mediating Effects of Self-efficacy and Extracurricular Activities in the Relation Between Anxiety and Experiential Avoidance Among College Students**

*Mary Kathryn M. Cancilliere, M.S., Maria C. DiFonte, M.A., Ciara James, M.S., Hayley Pomerantz, M.S., Bryana Killion, M.S., Ellen Flannery-Schroeder, ABPP, Ph.D., University of Rhode Island*

**(PS8-B31) Exploring the Mediating Effect of Self-esteem on the Relationship Between Bullying Victimization and Social Anxiety in College Students**

*Maria C. DiFonte, M.A., Ellen Flannery-Schroeder, ABPP, Ph.D., University of Rhode Island*

**(PS8-B32) The Role of Safety Behaviors in the Relationship Between Social Anxiety and Marijuana Use Problems**

*Nora E. Mueller, B.A., Katherine McDermott, BA, Jesse R. Cougle, Ph.D., Florida State University*

**(PS8-B33) Expectancy Bias Mediates the Relationship Between Self-efficacy and Symptoms of Anxiety and Depression**

*Alexandra L. Silverman, B.A., Gustav R. Sjobeck, B.A., Bethany A. Teachman, Ph.D., University of Virginia*

**(PS8-B34) What Sensitivities Matter in Dental Anxiety? Investigating Sensitivity to Anxiety, Pain, and Disgust**

*Sara Witcraft, M.A., Mary J. Schadeegg, M.A., Gina Q. Boullion, M.S., Megan M. Perry, B.A., Laura J. Dixon, Ph.D., University of Mississippi*

- (PS8-B35) The Effects of Cognitive Behavioural Therapy For Social Anxiety Disorder on Post-event Processing: A Longitudinal Analysis Using Post-session Measurement and Experience Sampling Methodology**  
*Danielle E. Katz, Ph.D.<sup>1</sup>, Stephanie E. Cassin, Ph.D.<sup>2</sup>, Rashmi Weerasinghe, B.S.<sup>1</sup>, Neil A. Rector, Ph.D.<sup>1</sup>, 1. Sunnybrook Health Sciences Centre, 2. Ryerson University*
- (PS8-B36) Fear of Positive Evaluation and Discomfort With over Inclusion: Implications for Social Anxiety**  
*Jason T. Grossman, B.S., Thomas Rodebaugh, Ph.D., Washington University in St. Louis*
- (PS8-B37) Fear of Speaking with Authority and Social Anxiety in White Individuals vs. People of Color**  
*Samantha Philip, B.S.<sup>1</sup>, Isabelle Oliva, B.A.<sup>1</sup>, Rebecca R. Suzuki, B.A.<sup>2</sup>, Meredith Ward, B.A.<sup>3</sup>, Caroline Gabriel, B.A.<sup>1</sup>, Rebecca Lubin, B.A.<sup>2</sup>, Emma R. Toner, B.A.<sup>3</sup>, Adam Gitterman, M.S.<sup>4</sup>, Naomi M. Simon, M.D.<sup>2</sup>, T.H. Eric Bui, M.D., Ph.D.<sup>3</sup>, Elizabeth Hoge, M.D.<sup>1</sup>, 1. Georgetown University Medical Center, 2. Anxiety and Complicated Grief Program, NYU Langone, 3. Massachusetts General Hospital, 4. MedStar Health Research Institute*
- (PS8-B38) Changes in Social Anxiety Following Treatment Predict Reductions in Loneliness During Follow-up Among Individuals with Social Anxiety Disorder**  
*Emily B. O'Day, M.A.<sup>1</sup>, Rachel M. Butler, M.A.<sup>1</sup>, Arielle Horenstein, M.A.<sup>1</sup>, Michaela B. Swee, M.A.<sup>1</sup>, Simona C. Kaplan, M.A.<sup>1</sup>, Amanda S. Morrison, Ph.D.<sup>2</sup>, Philippe R. Goldin, Ph.D.<sup>3</sup>, James Gross, Ph.D.<sup>4</sup>, Richard Heimberg, Ph.D.<sup>1</sup>, 1. Temple University, 2. California State University, East Bay, 3. University of California Davis, 4. Stanford University*
- (PS8-B39) Confirmatory Factor Analysis of the Self-compassion Scale in a Socially Anxious Sample**  
*Nancy Kocovski, Ph.D.<sup>1</sup>, Rebecca Blackie, Ph.D.<sup>1</sup>, Jan Fleming, M.D.<sup>2</sup>, 1. Wilfrid Laurier University, 2. The Mindfulness Clinic*
- (PS8-B40) Perceived Anxiety Control and Childhood Negative Interpersonal Experiences Predict Social Anxiety Symptoms in Hispanic Young Adults**  
*Miguel Leal, B.S., Michiyo Hirai, Ph.D., The University of Texas Rio Grande Valley*
- (PS8-B41) Examining Interpersonal and Intrapersonal Emotion Regulation, Social Anxiety, and Aggression Among College Students**  
*Megan M. Perry, B.A., Gina Q. Boullion, M.S., Mary J. Schadegg, M.A., Sara Witcraft, MA, Laura J. Dixon, Ph.D., University of Mississippi*
- (PS8-B42) Understanding Preference for Yoga or Cognitive Behavioral Therapy in Patients with Generalized Anxiety Disorder**  
*Kristin L. Szuhany, Ph.D.<sup>1</sup>, Rebecca Lubin, B.A.<sup>1</sup>, Mackenzie L. Brown, B.A.<sup>2</sup>, Julia Spandorfer, B.A.<sup>1</sup>, Rebecca R. Suzuki, B.A.<sup>3</sup>, Sat Bir S. Khalsa, Ph.D.<sup>4</sup>, Elizabeth Hoge, M.D.<sup>5</sup>, Susanne Hoepfner, Ph.D.<sup>6</sup>, T.H. Eric Bui, M.D., Ph.D.<sup>2</sup>, Stefan G. Hofmann, Ph.D.<sup>7</sup>, Naomi M. Simon, M.D.<sup>3</sup>, 1. NYU Langone Health, 2. Massachusetts General Hospital, 3. Anxiety and Complicated Grief Program, NYU Langone, 4. Brigham and Women's Hospital, 5. Georgetown University Medical Center, 6. Massachusetts General Hospital/Harvard Medical School, 7. Boston University Center for Anxiety and Related Disorders*

- (PS8-B43) Deficits in Probabilistic Learning by Positive and Negative Reinforcement in Generalized Anxiety Disorder**  
*Lucas S. LaFreniere, M.S., Michelle G. Newman, Ph.D., The Pennsylvania State University*
- (PS8-B44) Predicting Adult Onset of Social Anxiety Disorder Using Machine Learning Methods**  
*Grace N. Anderson, B.A., Anthony J. Rosellini, Ph.D., Boston University Center for Anxiety and Related Disorders*
- (PS8-B45) Emotion Dysregulation and Negative Urgency in Generalized Anxiety Disorder**  
*Kathleen E. Stewart, M.A.<sup>1</sup>, Bailee Malivoire, M.A.<sup>1</sup>, Melina Ovanessian, M.A.<sup>1</sup>, Naomi Koerner, Ph.D.<sup>1</sup>, Elizabeth Pauluk, Ph.D.<sup>2</sup>, 1. Ryerson University, 2. McMaster University*
- (PS8-B46) Evaluation of Global Measures of Improvement in the Unified Protocol**  
*Brittany Woods, M.A.<sup>1</sup>, Todd Farchione, Ph.D.<sup>2</sup>, Stephanie Jarvi Steele, Ph.D.<sup>2</sup>, Mengxing Wang, M.A.<sup>2</sup>, Anthony J. Rosellini, Ph.D.<sup>2</sup>, Shannon Sauer-Zavala, Ph.D.<sup>2</sup>, David Barlow, Ph.D.<sup>1</sup>, 1. Boston University, 2. Boston University Center for Anxiety and Related Disorders*
- (PS8-B47) Responses to Intimate Partner Rejection Among Individuals with Social Anxiety Disorder and Healthy Controls**  
*Ariella P. Lenton-Brym, M.A., Candice M. Monson, Ph.D., Martin M. Antony, Ph.D., Ryerson University*
- (PS8-B48) Avoidance Mediates the Relationship Between Individuals with Generalized Anxiety Disorder and Symptoms of Depression**  
*Alex H. Buhk, M.A., Jason C. Levine, Ph.D., Matthew T. Tull, Ph.D., University of Toledo*
- (PS8-B49) A Closer Look at the Efficacy of Cognitive-behavioral Therapy for Panic Disorder Using Ecological Momentary Assessment and a Symptom-level Approach**  
*Mackenzie L. Brown, B.A.<sup>1</sup>, Olivia M. Losiewicz, B.A.<sup>1</sup>, Nicole J. LeBlanc, M.A.<sup>1</sup>, Shelley L. Kind, M.S.<sup>2</sup>, Donald J. Robinaugh, Ph.D.<sup>1</sup>, Samantha N. Hellberg, B.A.<sup>3</sup>, Naomi M. Simon, M.D.<sup>4</sup>, Luana Marques, Ph.D.<sup>5</sup>, Amanda W. Baker, Ph.D.<sup>5</sup>, 1. Massachusetts General Hospital, 2. Suffolk University, 3. University of North Carolina at Chapel Hill, 4. Anxiety and Complicated Grief Program, NYU Langone, 5. Harvard Medical School*
- (PS8-B50) Is Social Anxiety Sensitivity Really Anxiety Sensitivity? A Confirmatory Factor Analytic Approach**  
*Karl Wissemann, B.A., Brad Schmidt, Ph.D., Florida State University*

Poster Session 8C

PS8

Key Words: Psychometrics

**(PS8-C51) Testing the Factor Structure of the Barkley Deficits in Executive Functioning Scale – Short Form**

*Kate Clauss, M.A., Joseph R. Bardeen, Ph.D., Auburn University*

**(PS8-C52) Development and Preliminary Validation of a Procedural Knowledge Measure to Assess Clinician CBT Use**

*Mary L. Phan, B.A.<sup>1</sup>, Emily Becker-Haimes, Ph.D.<sup>2</sup>, Rinad Beidas, Ph.D.<sup>2</sup>, 1. University of Pennsylvania School of Medicine, 2. University of Pennsylvania*

**(PS8-C53) Validation of a Behavioral Measure of Intolerance of Uncertainty: Reaching Beyond Self-report**

*Jessica R. Beadel, Ph.D.<sup>1</sup>, Emily M. O'Bryan, M.A.<sup>2</sup>, Bethany A. Teachman, Ph.D.<sup>3</sup>, Alison C. McLeish, Ph.D.<sup>4</sup>, 1. Aspire Behavioral Health, 2. Institute of Living - Anxiety Disorders Center, 3. University of Virginia, 4. University of Louisville*

**(PS8-C54) Predicting the Unpredictable: Critical Slowing down as a Warning Signal For Panic Attacks**

*Olivia M. Losiewicz, B.A.<sup>1</sup>, Mackenzie L. Brown, B.A.<sup>1</sup>, Emma R. Toner, B.A.<sup>1</sup>, Luana Marques, Ph.D.<sup>2</sup>, Amanda W. Baker, Ph.D.<sup>2</sup>, Donald J. Robinaugh, Ph.D.<sup>1</sup>, 1. Massachusetts General Hospital, 2. Harvard Medical School*

**(PS8-C55) Determining the Factor Structure of the Five-facet Mindfulness Questionnaire With and Without a Modified Observing Facet in a Sample of 9-1-1 Telecommunicators**

*Benjamin Laman-Maharg, B.A., Anthony Reffi, M.A., Michelle Lilly, Ph.D., Northern Illinois University*

**(PS8-C56) Clarifying the Optimal Structure of the Five Factor Mindfulness Questionnaire Among Two Large Clinical Samples**

*Joseph M. Diehl, B.A.<sup>1</sup>, Craig Rodriguez-Seijas, M.A.<sup>1</sup>, Mark Zimmerman, M.D.<sup>2</sup>, 1. Alpert Medical School of Brown University, 2. Rhode Island Hospital/Alpert Medical School of Brown University*

**(PS8-C57) Equating Treatment Effects from Self-report and Clinician-administered PTSD Measures via Common Persons Item Response Theory Calibration**

*Antonio A. Morgan-Lopez, Ph.D.<sup>1</sup>, Lissette M. Saavedra, Ph.D.<sup>1</sup>, Denise Hien, Ph.D.<sup>2</sup>, Therese Killeen, Ph.D.<sup>3</sup>, Sudie Back, Ph.D.<sup>3</sup>, Lesia M. Ruglass, Ph.D.<sup>2</sup>, Skye Fitzpatrick, Ph.D.<sup>2</sup>, Teresa Lopez-Castro, Ph.D.<sup>4</sup>, 1. RTI International, 2. Rutgers University, 3. Medical University of South Carolina, 4. City College of New York CUNY*

**(PS8-C58) The Utility of Node Centrality for Identifying Treatment Targets in Social Anxiety Disorder**

*Ian Shryock, B.S., Shaan McGhie, B.A., Nader Amir, Ph.D., San Diego State University*

POSTER SESSIONS

SATURDAY

**(PS8-C59) How Resilient Are Resilience Measures: A Psychometric Investigation of Popular Resilience Tests**

*Lauren Linford, B.S.<sup>1</sup>, Charlotte R. Esplin, B.S.<sup>2</sup>, Scott R. Braithwaite, Ph.D.<sup>2</sup>, Jared Warren, Ph.D.<sup>2</sup>, 1. Brigham Young University Clinical Psychology Program, 2. Brigham Young University*

**(PS8-C60) Virtual Simulators for the Training of Professional Skills and Competencies in Psychology**

*Everardo Mendoza-Barragán, B.A., Universidad Nacional Autonoma de Mexico*

**(PS8-C61) Usefulness and Utilization of Treatment Elements From the Transdiagnostic Sleep and Circadian Intervention For Adolescents With an Evening Circadian Preference**

*Nicole B. Gumport, M.A., Michael R. Dolsen, M.A., Allison Harvey, Ph.D., University of California, Berkeley*

**(PS8-C62) An Examination of Self- and Symptom-focused Rumination in Cognitive-behavioural Therapy for Insomnia**

*Parky H. Lau, B.A., Colleen Carney, Ph.D., Ryerson University*

**(PS8-C63) Anxiety Sensitivity and Personality: Predicting Objectively Measured Sleep Quality**

*Thomas J. Harrison, B.A.<sup>1</sup>, Bridget A. Hearon, Ph.D.<sup>2</sup>, 1. Saint Joseph's University, 2. Albright College*

**(PS8-C64) Examining Potential Links in the Relationship Between Sleep Disturbance, Depression, and Anxiety: The Roles of Cognitive Fusion, Distress Tolerance, and Anxiety Sensitivity**

*Caleigh Koppelman, Samantha N. Hellberg, B.A., Rachel Silver, Emma DeMartino, Jennifer Buchholz, M.A., Claire Stark, Neil Patel, Jonathan S. Abramowitz, Ph.D., University of North Carolina at Chapel Hill*

**(PS8-C65) Sleep Disturbance as a Potential Link in the Coherence of Depressive and Obsessive-compulsive Symptoms**

*Megan Butcher, Samantha N. Hellberg, B.A., Heidi Ojalehto, B.S., Callie Hucks, Olivia Griffith, Jennifer Buchholz, M.A., Jonathan S. Abramowitz, Ph.D., University of North Carolina at Chapel Hill*

**(PS8-C66) Brief Cognitive Behavioral Therapy for Insomnia (CBT-I) in Integrated Primary Care: A Retrospective Chart Review**

*Scott Smith, M.S.<sup>1</sup>, Amanda Perkins, Ph.D.<sup>2</sup>, 1. Mercer University College of Health Professions, Department of Clinical Psychology, 2. WellStar Medical Group Psychological Services*

**(PS8-C67) Insomnia and Anxiety Sensitivity: Associations in an Online Intervention Study**

*Dylan Tomsey, B.A., Brittany M. Mathes, M.S., Brad Schmidt, Ph.D., Florida State University*

**(PS8-C68) Examining the Role of Sleep Quality on Behavioral Stress Tolerance**

*Madison Istre, B.S., Celeste G. Manuel, B.S., Tyler Laurent, B.S., Jacob Simon, Ciara Snelling, B.S., Victoria Landry, Michael J. McDermott, Ph.D., University of Louisiana at Lafayette*

- (PS8-C69) **Experiential Avoidance, Sleep Quality, and Nightmare Disturbance Are Leading Mechanisms in Nightmare Experiences**  
*Olivia H. Tousignant, M.S.<sup>1</sup>, Daniel J. Glass, Ph.D.<sup>2</sup>, Gary D. Fireman, Ph.D.<sup>1</sup>, 1. Suffolk University, 2. Southfield Center for Development*

## International Ballroom, International Level

### Poster Session 8D

### PS8

Key Words: *School, Externalizing*

- (PS8-D70) **Preschool Teachers' Cognitions and Anger as Predictors of Dysfunctional Discipline**  
*Michael L. Costa, M.S., Tamara Del Vecchio, Ph.D., St. John's University*
- (PS8-D71) **Profiles of Parent- and Teacher-reported Peer Relations and Co-occurring Symptoms Among Low-income Urban Children**  
*Lindsay Myerberg, M.A., Deborah Drabick, Ph.D., Temple University*
- (PS8-D73) **The Relationship Between the Student Perceptions of Leadership Qualities and Constructs of Social Emotional Learning in a Middle School Sample of Underserved Youths**  
*Maria Xu, Shanyun Zheng, Angela W. Wang, B.A., Maurice Elias, Ph.D., Rutgers University*
- (PS8-D74) **A Person-centered Approach to Peer Aggression and Prosocial Behavior in Early Adolescence**  
*Sarah W. Hopkins, B.A., Amy Marks, Ph.D., Gary D. Fireman, Ph.D., Suffolk University*
- (PS8-D75) **The Youth Aware of Mental Health Program and Its Effect on School Climate**  
*Blake Martin, M.A.<sup>1</sup>, Jennifer L. Hughes, M.P.H., Ph.D.<sup>2</sup>, Luis Gutierrez, M.S.<sup>2</sup>, Adora Choquette, B.A.<sup>3</sup>, Madhukar H. Trivedi, M.D.<sup>4</sup>, 1. The University of Texas Southwestern Medical Center, 2. UT Southwestern Center for Depression Research and Clinical Care, 3. UT Southwestern Center for Depression and Clinical Care, 4. UT Southwestern Medical Center*
- (PS8-D76) **A Mindfulness Prevention Program in an Urban Elementary School: Does Home Practice Matter?**  
*Susan J. Doyle, M.S., Wesley Bullock, Ph.D., Sarah Francis, Ph.D., University of Toledo*
- (PS8-D77) **Peer- versus Self-identified Victims: Differences in Internalizing Problems**  
*Meredith J. Sourk, M.A.<sup>1</sup>, Ayla R. Mapes, M.A.<sup>1</sup>, James Craig, Ph.D.<sup>2</sup>, Reagan Broach,<sup>1</sup> Timothy A. Cavell, Ph.D.<sup>1</sup>, 1. The University of Arkansas, 2. Dartmouth-Hitchcock Medical Center*

- (PS8-D78) Common and Unique Components for Mental Health and Educational Outcome Improvement: A Systematic Review**  
*Eunjung Noh, B.A.<sup>1</sup>, Eric Daleiden, Ph.D.<sup>2</sup>, Bruce F. Chorpita, Ph.D.<sup>3</sup>, Chad Ebesutani, Ph.D.<sup>1</sup>, 1. Duksung Women's University, 2. PracticeWise, LLC, 3. University of California Los Angeles*
- (PS8-D79) An Examination of a Peer Contagion Effect on Endorsement of Emotion Regulation Strategies and Internalizing Behaviors in Children**  
*Alayna J. Watson, B.S., S. Taylor Younginer, B.S., Cara McClain, M.A., L. Christian Elledge, Ph.D., The University of Tennessee, Knoxville*
- (PS8-D80) Extending Mindfulness-based Interventions to Ethnic Minority Youth With Learning Disabilities**  
*Hannah C. Herc, M.S., Justin R. Leiter-McBeth, B.S., Sarah Herr, Kellyann Navarre, Wesley Bullock, Ph.D., Peter Mezo, Ph.D., University of Toledo*
- (PS8-D81) Predicting Self-perceived Competence in Caregivers of Older Adults**  
*Kelly A. Bergstrom, M.A., Ann Steffen, ABPP, Ph.D., University of Missouri, St. Louis*
- (PS8-D82) Therapist Fidelity to Two Psychotherapies for Late-life Depression: Time to Competence and Skill Drift**  
*Patrick Raue, Ph.D.<sup>1</sup>, Patricia A. Arean, Ph.D.<sup>1</sup>, Brenna Renn, Ph.D.<sup>2</sup>, George S. Alexopoulos, M.D.<sup>3</sup>, 1. University of Washington School of Medicine, 2. University of Washington, 3. Weill Cornell Medical College*
- (PS8-D83) The Relationship Between the Criticism and the Emotional Overinvolvement Subcategories of Expressed Emotion and Mental Health in Dementia Caregivers**  
*Olivia Altamirano, B.A., Amy Weisman de Mamani, Ph.D., University of Miami*
- (PS8-D84) Family Caregivers' Perceived Stress in Relation to Self-efficacy for Controlling Upsetting Thoughts**  
*Selmi Kallmi, B.A., Ann Steffen, ABPP, Ph.D., University of Missouri, St. Louis*
- (PS8-D85) A Pilot Randomized Controlled Trial of an Age-modified Healthy Weight Intervention (HWI) Program for Older Women With Eating Disorder Symptoms**  
*Megan E. Curtis, M.A., Sara Espinoza, M.D., Nicolas Musi, M.D., Jennifer Duan, B.A., Lisa Smith Kilpela, Ph.D., UT Health San Antonio*
- (PS8-D86) Age Related Differences in Intrusive Symptoms of Male Veterans Seeking Treatment for PTSD**  
*Nicholas Morcos, M.D., Minden B. Sexton, Ph.D., Mark Lyubkin, M.D., Erin Smith, Ph.D., Heather M. Cochran, Ph.D., Katherine Porter, Ph.D., Ann Arbor Veterans Healthcare System*
- (PS8-D87) Development and Validation of a Metric of Resilience in Informal Dementia Caregivers**  
*Nicholas T. James, M.S., Rachel Bassett, M.A., Daniel Paulson, Ph.D., University of Central Florida*
- (PS8-D88) Binge Eating Among Older Women: A Three-sample Comparison of Prevalence Rates**  
*Lisa S. Kilpela, Ph.D.<sup>1</sup>, Francesca Gomez, B.A.<sup>2</sup>, Keesha Middlemass, Ph.D.<sup>3</sup>, Carolyn B. Becker, Ph.D.<sup>2</sup>, 1. UT Health San Antonio, 2. Trinity University, 3. Howard University*

**(PS8-D89) Examination of Age and Gender Differences for Prolonged Grief Disorder in Multiple Studies of Bereaved Individuals**

*Jonathan Singer, M.A., Cheyenne Appleby, B.A., Tony Papa, Ph.D., University of Nevada, Reno*

**(PS8-D90) Prevalence and Incremental Validity of the DSM-5 Panic Attack Specifier Among Outpatients with Emotional Disorders**

*Esther S. Tung, M.A., Grace N. Anderson, B.A., Evdokiya E. Knyazhanskaya, Anthony J. Rosellini, Ph.D., Timothy A. Brown, Psy.D., Boston University Center for Anxiety and Related Disorders*

---

11:30 a.m. – 12:30 p.m.

---

**International Ballroom, International Level**

**Poster Session 9A**

**PS9**

Key Words: Alcohol, Emotion, Mood

**(PS9-A1) An Examination of the Effect of Alcohol-related Media Content on Positive Affect**

*Phillip May, B.A., Samuel R. Eshleman Latimer, B.A., Katherine E. Wenger, B.A., Megan Keller, M.A., Amanda Vincent, B.A., Susan Kenford, Ph.D., Xavier University*

**(PS9-A2) Moral Transgressions: Examining Shame and Guilt in the Context of Problem Alcohol Use**

*Kayla M. Ford, B.S., Lindsay S. Ham, Ph.D., Kelly Kennedy, B.A., Isabel Augur, B.S., Maria D. Folkerth, University of Arkansas*

**(PS9-A3) Motivational and Contingency Management Interventions on Intrinsic and Extrinsic Motivation to Exercise Among Treatment Seeking Veterans With Alcohol Use Disorder**

*Lindsey Poe, B.S.<sup>1</sup>, Catherine Baxley, M.S.<sup>1</sup>, Jeffrey Benware, ABPP, Ph.D.<sup>2</sup>, Patrick Lustman, Ph.D.<sup>3</sup>, Jeremiah Weinstock, Ph.D.<sup>1</sup>, 1. Saint Louis University, 2. VA St. Louis Healthcare System, 3. Washington University in St. Louis*

**(PS9-A4) An Investigation of the Relations Between the Balloon Analogue Risk Task and College Alcohol Use**

*Amanda Vincent, B.A., Katherine E. Wenger, B.A., Megan Keller, M.A., Phillip May, B.A., Samuel R. Eshleman Latimer, B.A., Susan Kenford, Ph.D., Xavier University*

**(PS9-A5) Energy Drink Consumption in Veterans with Substance Use Disorders**

*Sandra M. Yacoub, <sup>1</sup>, Benjamin J. Pfeifer, M.S.<sup>1</sup>, Joseph W. VanderVeen, Ph.D.<sup>2</sup>, Jamie J. Winters, Ph.D.<sup>2</sup>, 1. University of Michigan, 2. VA Ann Arbor, University of Michigan*

**(PS9-A6) An Examination of the Relation Between Reward Sensitivity and a Behavioral Measure of Risk Taking**

*Megan Keller, M.A., Katherine E. Wenger, B.A., Phillip May, B.A., Samuel R. Eshleman Latimer, B.A., Amanda Vincent, B.A., Susan Kenford, Ph.D., Xavier University*

**(PS9-A7) Alcohol-related Cognitive Preoccupation Predicts Increases in Coping-motivated Alcohol Use and Vice Versa: The Moderating Role of Depression Severity**

*Luke F. Heggeness, M.A.<sup>1</sup>, Christian Bean, B.S.<sup>1</sup>, Jennifer A. Cooks, M.A.<sup>1</sup>, David A. Kalmbach, Ph.D.<sup>2</sup>, Jeffrey A. Ciesla, Ph.D.<sup>1</sup>, 1. Kent State University, 2. Henry Ford Health System*

**(PS9-A8) Concurrent Shifts in Alcohol Use, Smoking, and Depression: An Mhealth Behavioral Activation and Smoking Cessation App Pilot**

*Melissa L. Gasser, B.A.<sup>1</sup>, Jonathan B. Bricker, Ph.D.<sup>2</sup>, Noreen L. Watson, Ph.D.<sup>2</sup>, Edit Serfozo, M.P.H.<sup>2</sup>, Laura MacPherson, Ph.D.<sup>3</sup>, Kristin E. Mull, Ph.D.<sup>2</sup>, Jaimee L. Heffner, Ph.D.<sup>2</sup>, 1. University of Washington, 2. Fred Hutchinson Cancer Research Center, 3. University of Maryland Greenebaum Comprehensive Cancer Center*

**(PS9-A9) Mindfulness and Marijuana: Examining How Trait-mindfulness and Marijuana Motives Predicts Marijuana Use Severity Among College Students**

*Emily Marks,<sup>1</sup> Zachary Getz, B.A.<sup>1</sup>, Norna Jules, B.A.<sup>2</sup>, Michael J. Gawrysiak, Ph.D.<sup>1</sup>, 1. West Chester University of Pennsylvania, 2. Delaware State University*

**(PS9-A10) Food Addiction May Influence Adherence to a Vegetarian Diet: Ambivalence as a Partial Mediator**

*Sydney Heiss, M.A., Lauren E. Blau, M.A., Julia M. Hormes, Ph.D., University at Albany, State University of New York*

**(PS9-A11) Do Risk Seeking, Experience Seeking, Negative Urgency and Positive Urgency Predict Cannabis Related Consequences via Use of Fewer Protective Behavioral Strategies?**

*Alexander Tyskiewicz, B.A., Jamie Parnes, M.S., Bradley T. Conner, Ph.D., Mark A. Prince, Ph.D., Colorado State University*

**(PS9-A12) Wake up and Smell the Coffee: Effects of Elaboration on Caffeine and Nicotine Cravings Among Polysubstance Users**

*Sarah L. Adut, B.A., Annika Goldman, B.S., Shelby Ortiz, M.A., Robert E. Fite, M.A., Joshua C. Magee, Ph.D., Miami University*

**(PS9-A13) Drinking Motives Mediate the Relation Between ADHD Symptoms and Alcohol-related Problems**

*Caitlin A. Falco, B.S.<sup>1</sup>, Alison Looby, Ph.D.<sup>1</sup>, Judah W. Serrano, M.A.<sup>1</sup>, John Vasko, MPS<sup>1</sup>, Lauren M. Zimmerman, B.A.<sup>1</sup>, Elizabeth Lefler, Ph.D.<sup>2</sup>, Will H. Canu, Ph.D.<sup>3</sup>, Cynthia Hartung, Ph.D.<sup>1</sup>, 1. University of Wyoming, 2. University of Northern Iowa, 3. Appalachian State University*

**(PS9-A14) Sexual Narcissism and Alcohol Use/problems Predict Risky Sexual Behaviors Among College Men**

*Autumn Rae Florimbio, M.A., Alisa Garner, M.A., Meagan J. Brem, M.A., Hannah Grigorian, B.A., Gloria Romero, M.S., Gregory Stuart, Ph.D., University of Tennessee, Knoxville*

**(PS9-A15) Protecting Oneself from Cannabis Consequences Improves Psychological Well-being**

*Kirstyn N. Smith-LeCavalier,<sup>1</sup> Theodore J. Fetterling, B.S.<sup>1</sup>, Mark A. Prince, Ph.D.<sup>1</sup>, Cross-Cultural Addictions Study Team,<sup>2</sup> 1. Colorado State University, 2. Center on Alcoholism, Substance Abuse, and Addictions, University of New Mexico*

- (PS9-A16) Continued Marijuana Use Is Predictive of Alcohol Use Disorder Persistence**  
*Linda Skalski, Ph.D., Paul Thurus, Ph.D., Justin Anker, Ph.D., Matt Kushner, Ph.D., University of Minnesota*
- (PS9-A17) Gender Differences in the Relationship Between Sexual Abuse and Hypersexuality**  
*Melissa N. Slavin, M.A.<sup>1</sup>, Shane Kraus, Ph.D.<sup>2</sup>, Gretchen Blyker, M.A.<sup>3</sup>, Beáta Böthe, Ph.D.<sup>4</sup>, Agnes Zsila, Ph.D.<sup>4</sup>, István Tóth-Király, Ph.D.<sup>4</sup>, Gábor Orosz, Ph.D.<sup>4</sup>, Zsolt Demetrovics, Ph.D.<sup>4</sup>, Marc Potenza, M.D., Ph.D.<sup>5</sup>, 1. University at Albany, 2. Edith Nourse Rogers Memorial Veterans Hospital, 3. University of Rhode Island, 4. Eötvös Loránd University, 5. Yale School of Medicine*
- (PS9-A18) The Predictive Validity of the Facets of Emotion Regulation**  
*Melanie F. Midkiff, M.S.<sup>1</sup>, Nicole Heath, Ph.D.<sup>2</sup>, James Gerhart, Ph.D.<sup>1</sup>, 1. Central Michigan University, 2. Rush University Medical Center*
- (PS9-A19) Mental Health Service Utilization by Race/Ethnicity in a Nationally Representative Sample from 2004 to 2016**  
*Ana E. Sheehan, B.A.<sup>1</sup>, Richard Liu, Ph.D.<sup>2</sup>, Rachel Walsh, B.S.<sup>2</sup>, Christina M. Sanzari, B.A.<sup>2</sup>, 1. Brown University, 2. Alpert Medical School of Brown University*
- (PS9-A20) A Brief School-based Intervention Reduces Depression and Anxiety Symptoms in Kenyan Adolescents: Findings from a Pilot Randomized Controlled Trial**  
*Katherine Venturo-Conerly,<sup>1</sup> Akash Wasil, B.A.<sup>1</sup>, Tom Osborn,<sup>1</sup> Jessica L. Schleider, Ph.D.<sup>2</sup>, John Weisz, Ph.D.<sup>1</sup>, 1. Harvard University, 2. Stony Brook University*
- (PS9-A21) Partner Strategies Used to Cope with Service Member/veterans' Drinking in Military Centric Alcohol Behavioral Couple Therapy**  
*Emily L. Starratt, B.S.<sup>1</sup>, Elizabeth Epstein, Ph.D.<sup>1</sup>, Cathryn Glanton Holzhauer, Ph.D.<sup>2</sup>, David Smelson, Psy.D.<sup>1</sup>, Barbara S. McCrady, Ph.D.<sup>3</sup>, Ayorkor Gaba, Psy.D.<sup>4</sup>, Rachel L. Rosen, B.S.<sup>4</sup>, 1. University of Massachusetts Medical School, 2. University of Massachusetts Medical School/VA Central Western Massachusetts, 3. Department of Psychology and Center on Alcoholism, Substance Abuse and Addictions (CASAA), University of New Mexico, 4. Rutgers University*
- (PS9-A22) Treatment Preferences for PTSD Influenced by Access to Relevant Treatment Information**  
*Laura Farrant, B.S., Esther Killius, B.S., Joshua Broman-Fulks, Ph.D., Sarah White, B.S., Natalie Sheets, M.A., Appalachian State University*
- (PS9-A23) Adolescent Gender and Age Differences in Responsiveness to Functional Family Therapy**  
*Christoffer Scavenius Sonne-Schmidt, Ph.D.<sup>1</sup>, Megan Granski, B.A.<sup>2</sup>, Malene Rudolf Lindenberg, B.A.<sup>3</sup>, Maria Michelle Vardanian, B.A.<sup>2</sup>, Anil Chacko, Ph.D.<sup>2</sup>, 1. VIVE - The National Research and Analysis Center for Welfare, 2. New York University, 3. Aalborg University*
- (PS9-A24) Mental Health Stigma and Perception for Clinicians and Undergraduates: A Delay Discounting Paradigm**  
*Taylor R. Rodriguez, M.S., Brian A. Bulla, M.A., Joye C. Anestis, Ph.D., University of Southern Mississippi*

**(PS9-A25) Who Is Re-enrolling? Predictors of Subsequent Youth Mental Health**

**Service Use**

*Kendal Reeder, B.S.<sup>1</sup>, Alayna L. Park, M.A.<sup>2</sup>, Bruce F. Chorpita, Ph.D.<sup>2</sup>, 1. University of California, San Diego, 2. University of California, Los Angeles*

**(PS9-A26) Gender Differentiates Change in Negative Behavior over Time in Response to a Brief Treatment Session**

*Margaret Webb, B.S., B.A.<sup>1</sup>, Lauren Micalizzi, Ph.D.<sup>2</sup>, 1. Alpert Medical School of Brown University, 2. Center for Alcohol and Addiction Studies, Brown University*

**International Ballroom, International Level**

**Poster Session 9B**

**PS9**

*Key Words: Emotion Regulation, Anxiety, Neuroscience*

**(PS9-B27) EEG Frontal Asymmetry Predicts Children's Later Anxiety Through Maternal Emotion Dysregulation**

*Natalee Price, B.S., Randi A. Phelps, M.A., Elizabeth Kiel, Ph.D., Miami University*

**(PS9-B28) Behavioral Inhibition and Child Anxiety: The Moderating Effects of Anxiety Sensitivity**

*Emily Roemhild, B.A., Emily A. Meadows, M.A., Sarah Francis, Ph.D., University of Toledo*

**(PS9-B29) The Development of the What I Do at Home Questionnaire – Adolescent Version**

*Shannon Manley, M.A., Sarah Francis, Ph.D., University of Toledo*

**(PS9-B30) Enhancing the Treatment of Selective Mutism (SM) in Young Children: The Impact of Parent Training**

*Reena Chabria, B.A., Rachel Merson, Psy.D., David Langer, Ph.D., Donna Pincus, Ph.D., Boston University Center for Anxiety and Related Disorders*

**(PS9-B31) Examining How Grit Mediates the Relationship Between Future Aspirations and Sports Anxiety Using a Community Sample of Female School-aged Volleyball Players**

*Clayton H. Allred, B.S., Mojisola Tiamiyu, Ph.D., Peter Mezo, Ph.D., Sarah Francis, Ph.D., University of Toledo*

**(PS9-B32) The Impact of Concurrent Child and Parent Anxiety Groups on Children's Primary Anxiety Disorder Diagnoses**

*Samantha A. Glickman, M.A., M.S.<sup>1</sup>, Kristene Hossepian, M.S.<sup>1</sup>, Elizabeth Reichert, Ph.D.<sup>2</sup>, 1. PGSP-Stanford Psy.D. Consortium, 2. Stanford University*

**(PS9-B33) Mindfulness-based Cognitive Behavioral Therapy for Latinx Youth**

*Susan M. Panichell-Mindel, Ph.D., Nicole Fleischer, M.S., Kelsey Dailey, M.A., Brooke Singer, M.A., Tiffany Araujo, M.A., Adam L. Zahn, M.S., Eguono Akpoduado, M.A., Philadelphia College of Osteopathic Medicine*

- (PS9-B34) Maternal Stress on Child Anxiety and Depression: The Impact of Maternal Intellectual/cultural Orientation**  
*Jerrica R. Guidry, M.A., Peter Castagna, M.A., Thompson Davis III, Ph.D., Louisiana State University*
- (PS9-B36) Error Monitoring and Its Relationship to Anxiety from Childhood to Adolescence**  
*Lauren E. Arnold, B.S.<sup>1</sup>, Christopher Sege, Ph.D.<sup>1</sup>, Casey Calhoun, Ph.D.<sup>1</sup>, Lisa McTeague, Ph.D.<sup>1</sup>, Greg Hajcak, Ph.D.<sup>2</sup>, Carla K. Danielson, Ph.D.<sup>3</sup>, 1. Medical University of South Carolina, 2. Florida State University, 3. MUSC*
- (PS9-B37) Shame, Guilt, and Embarrassment: Is Negative Affect a Mediator Between Peer Victimization and Children's Internalizing Symptoms?**  
*Ayla R. Mapes, M.A., Meredith J. Sourk, M.A., Timothy A. Cavell, Ph.D., The University of Arkansas*
- (PS9-B38) Parental Beliefs About Anxiety as a Mediator of Parental Overcontrol and Child Anxiety**  
*Sarah Francis, Ph.D., Shannon Manley, M.A., University of Toledo*
- (PS9-B39) Correspondence of the Childhood Anxiety Sensitivity Index with Anxiety and Depression in Children and Adolescents**  
*Sarah Francis, Ph.D., Shannon Manley, M.A., Susan J. Doyle, M.S., University of Toledo*
- (PS9-B40) Emotion Dysregulation Mediates Differential Treatment Response for Suicidal Adolescents Diagnosed with Anxiety**  
*Joanna L. Herres, Ph.D.<sup>1</sup>, Shirley Wang, B.A.<sup>2</sup>, Kiera M. James, M.S.<sup>3</sup>, Nadia Bounoua, B.S.<sup>4</sup>, 1. The College of New Jersey, 2. Harvard University, 3. Binghamton University, 4. University of Delaware*
- (PS9-B41) The Effect of PCIT-CALM on Child and Parent Anxiety and Parenting Behaviors**  
*Alana Gross, M.A., Jennifer Lent, M.A., Ilana Eisenberg, M.A., Caroline Mazzer, M.A., Katie Fogarty, M.A., Erin McLean, M.A., Hannah Walcoe, M.A., Lauren Webb, M.A., Phyllis S. Ohr, Ph.D., Hofstra University*
- (PS9-B42) Affect and Affect Regulation in Ambiguous Social Situations – Evidence for Altering the Cognitive-based Social Information Processing Model**  
*Jasmine R. Berry, M.A., Debora J. Bell, Ph.D., University of Missouri, Columbia*
- (PS9-B43) Where to Intervene?: Parent and Child Factors as Predictors of Future Child Social Anxiety**  
*Lauren Jones, B.A., Sydney M. Risley, M.A., Anne Kalomiris, M.A., Elizabeth Kiel, Ph.D., Miami University*
- (PS9-B44) Psychometric Properties of the Dot Probe Task Administered to Anxious Youth Outside of the Laboratory**  
*Ian Shryock, B.S.<sup>1</sup>, Nader Amir, Ph.D.<sup>1</sup>, Robin Weersing, Ph.D.<sup>2</sup>, Greg Clarke, Ph.D.<sup>3</sup>, Sara Gille, M.P.H.<sup>3</sup>, 1. San Diego State University, 2. SDSU/UCSD, 3. Kaiser Permanente*

**(PS9-B45) The Moderating Effects of Parent and Child Anxiety on the Association Between Physiological Regulation and Parental Accommodation**

*Lindsay R. Druskin, B.A.<sup>1</sup>, Kelly A. Smith, B.A.<sup>1</sup>, Danielle R. Novick, B.A.<sup>1</sup>, Matthew G. Barstead, Ph.D.<sup>1</sup>, Christina M. Danko, Ph.D.<sup>1</sup>, Rebekah Badders, M.A.<sup>1</sup>, Nicholas J. Wagner, Ph.D.<sup>2</sup>, Lea Dougherty, Ph.D.<sup>1</sup>, Andrea M. Chronis-Tuscano, Ph.D.<sup>1</sup>, Kenneth H. Rubin, Ph.D.<sup>1</sup>, 1. University of Maryland, College Park, 2. Boston University*

**(PS9-B46) The Effect of Age on the Relationship Between Anxiety Sensitivity and Social Anxiety**

*Paige N. Picou, B.A., Kimberly Ellison, M.S., Paige Adenuga, B.S., Thompson Davis III, Ph.D., Louisiana State University*

**(PS9-B47) Peer Relations as a Protective Factor for Internalizing Symptoms**

*Theresa R. Gladstone, B.A., Christopher A. Flessner, Ph.D., Kent State University*

**(PS9-B48) Examining the Relationship Between Behavioral and Emotional Functioning and Tic Severity in Children With Persistent Tic Disorders**

*Jordan Stiede, B.A.<sup>1</sup>, Brianna Wellen, B.S.<sup>2</sup>, Christopher Bauer, B.S.<sup>1</sup>, Michael Himle, Ph.D.<sup>2</sup>, Suzanne Mouton-Odum, Ph.D.<sup>3</sup>, Douglas Woods, Ph.D.<sup>1</sup>, 1. Marquette University, 2. University of Utah, 3. Psychology Houston, PC*

**(PS9-B49) Common Factors as Predictors of Treatment Response in Tourette Syndrome and Chronic Tic Disorders**

*Anna Schwartzberg, B.A.<sup>1</sup>, Hilary Weingarden, Ph.D.<sup>2</sup>, Alan L. Peterson, ABPP, Ph.D.<sup>3</sup>, Lawrence Scahill, Ph.D.<sup>4</sup>, John Walkup, M.D.<sup>5</sup>, Douglas Woods, Ph.D.<sup>6</sup>, John Piacentini, ABPP, Ph.D.<sup>7</sup>, Sabine Wilhelm, Ph.D.<sup>8</sup>, 1. Massachusetts General Hospital, 2. Massachusetts General Hospital/Harvard Medical School, 3. University of Texas Health Science Center at San Antonio, 4. Emory University School of Medicine, 5. Northwestern University Feinberg School of Medicine, 6. Marquette University, 7. UCLA School of Medicine, 8. Harvard Medical School; Massachusetts General Hospital*

**(PS9-B50) Supporting CBIT Implementation Through the Development of the Parent Accommodation of Tics Scale**

*Emily P. Wilton, B.A.<sup>1</sup>, Christopher A. Flessner, Ph.D.<sup>1</sup>, Katrina D. Hermetet-Lindsay, Ph.D.<sup>2</sup>, Lindsey Vater, Psy.D.<sup>3</sup>, 1. Kent State University, 2. Akron Children's Hospital; Northeast Ohio Medical University (NEOMED), 3. Nationwide Children's Hospital*

**(PS9-B51) The Transdiagnostic Treatment of Complex Comorbidity in Children with Tic Disorders**

*Claire Flatley, B.S.<sup>1</sup>, Brianna Wellen, B.S.<sup>1</sup>, Adam Lewin, Ph.D.<sup>2</sup>, Michael Himle, Ph.D.<sup>1</sup>, 1. University of Utah, 2. University of South Florida*

Poster Session 9C

PS9

Key Words: LGBTQ+, Sexuality, Intimate Partner Aggression

- (PS9-C52) Sexual Assertiveness as a Predictor of Sexual Consent Attitudes and Beliefs Among Lgbtq+/non-binary Young Adults  
John L. McKenna, M.S.<sup>1</sup>, Lizabeth Roemer, Ph.D.<sup>2</sup>, Michael Suvak, Ph.D.<sup>3</sup>, Susan Orsillo, Ph.D.<sup>3</sup>, 1. Suffolk University, Cambridge Health Alliance, 2. University of Massachusetts Boston, 3. Suffolk University
- (PS9-C53) Expectations for Marriage Differ by Sexual and Gender Identity Among Young Sexual and Gender Minorities Assigned Female at Birth

Department of Personality, Evaluation and Psychological Treatment, University of Valencia; Ciber Physiopathology of Obesity and Nutrition (Ciberobn), Instituto Carlos III, Madrid, Spain; Polibienestar Institute, University of Valencia, Valencia, España.

**(PS10-C51) The Impact of Abbreviated Dialectical Behavior Therapy (DBT-A) on the Evaluation of Weight and Shape Among Adolescents With Obesity in a Residential Weight-loss Camp**

Alicia Kauffman, M.S., Saint Louis University

**(PS10-C52) Feminist Behaviors as a Moderator of the Relationship Between Thin-ideal Internalization and Body Dissatisfaction**

Brooke L. Bennett, M.S.<sup>1</sup>, Allison F. Wagner, M.A.<sup>1</sup>, Kaitlin A. Hill, M.A.<sup>1</sup>, Jennifer Battles, M.S.<sup>2</sup>, Janet D. Latner, Ph.D.<sup>1</sup>, 1. University of Hawaii at Manoa, 2. Eastern Michigan University

**(PS10-C53) Evaluation of the Relationship Between Dietary Restraint and Intuitive Eating Moderated by Gender**

Jamie M. Smith, M.S.<sup>1</sup>, Kelsey N. Serier, M.S.<sup>1</sup>, Katherine Belon, Ph.D.<sup>2</sup>, Riley Sebastian, B.S.<sup>1</sup>, Jane Smith, Ph.D.<sup>1</sup>, 1. University of New Mexico, 2. New Mexico Veterans Affairs Health Care System

**(PS10-C54) Thin-fat Categorical Boundaries: An Underlying Mechanism in Body Image Disturbance?**

Diana Burychka, M.S.<sup>1</sup>, Marta Miragall, Ph.D.<sup>2</sup>, Sara Fonseca, M.S.<sup>3</sup>, Adrián Borrego, M.S.<sup>4</sup>, Roberto Llorens, Ph.D.<sup>5</sup>, Rosa M. Baños, Ph.D.<sup>6</sup>, 1. University of Valencia, 2. University of Valencia, Ciberobn and Polibienestar, 3. University of Valencia and Polibienestar, 4. Universitat Politècnica de València, 5. Universitat Politècnica de València and Neuroh, 6. Department of Personality, Evaluation and Psychological Treatment, University of Valencia; Ciber Physiopathology of Obesity and Nutrition (Ciberobn), Instituto Carlos III, Madrid, Spain; Polibienestar Institute, University of Valencia, Valencia, España.

**(PS10-C55) Relationships Between Parenting Styles on Self-efficacy and Eating Behavior**

Sarah Palmer, B.A., Anthony Goreczny, Ph.D., Joseph Wister, Ph.D., April Condemi, M.S., Chatham University

- (PS10-C56) A Dominance Analysis of the Impact of Motivations for Vegetarian Diet Adherence on Eating Disorder Symptomology: The Importance of Weight Loss as a Motivator**  
*Sydney Heiss, M.A., Christina Scharmer, M.A., Joseph M. Donahue, M.A., Drew Anderson, Ph.D., Julia M. Hormes, Ph.D., University at Albany, State University of New York*
- (PS10-C57) Beliefs and Attitudes Towards Food as Predictors of Eating Pathology in Adolescents**  
*Arielle Wolinsky, M.A.<sup>1</sup>, Julia M. Hormes, Ph.D.<sup>1</sup>, Charlotte Markey, Ph.D.<sup>2</sup>, 1. University at Albany, State University of New York, 2. Rutgers University*
- (PS10-C58) Efficacy of an Ict-based Cognitive-behavioral Intervention for Children With Obesity**  
*Emmanuel Castillo-Gómez, B.A.<sup>1</sup>, Georgina Cardenas-Lopez, Psy.D.<sup>2</sup>, Jaime M. González, Ph.D.<sup>1</sup>, Rosa M. Baños, Ph.D.<sup>3</sup>, Cristina Botella, Ph.D.<sup>4</sup>, Everardo Mendoza-Barragán, B.A.<sup>5</sup>, 1. Universidad Nacional Autónoma de México, 2. Universidad Nacional Autónoma de México, 3. Department of Personality, Evaluation and Psychological Treatment, University of Valencia; CIBER Physiopathology of Obesity and Nutrition (Ciberobn), Instituto Carlos III, Madrid, Spain; Polibienestar Institute, University of Valencia, Valencia, España., 4. Jaume I University, 5. Universidad Nacional Autónoma de México*
- (PS10-C59) Social Media Posting and Disordered Eating Behaviors in a Predominantly Hispanic/Latinx College Male Sample**  
*Robert Sagaribay, B.A., Diana Villegas, B.A., Jennifer De Alba, Luis Corona, Nallely Ramirez, Theodore V. Cooper, Ph.D., University of Texas at El Paso*
- (PS10-C60) Internalized Weight Bias and Eating Disturbances: The Mediating Role of Body Image Avoidance and Drive for Thinness**  
*Rachel D. Marshall, M.A., Brooke L. Bennett, M.S., Katrina Obleada, M.A., Janet D. Latner, Ph.D., University of Hawaii at Manoa*
- (PS10-C61) Association Between Eating Disorders and Social Anxiety Disorder in Young Men and Women**  
*Blanca Elizabeth Jiménez-Cruz, Ph.D., National Autonomous University of Mexico*
- (PS10-C62) Dysfunctional Beliefs Moderate the Association Between Personality Dysfunction and Eating Disorder Behaviors**  
*Wilson McDermut, Ph.D., Alexandra Allam, B.A., Casey Armata, M.A., Syeda Zahura, B.A., St. John's University*
- (PS10-C64) No Negative Nancys: The Relationship Between Subscales of Self-compassion and Body Satisfaction**  
*Margaux E. Blanchard, Rebecca Helfant, Do Yee Song, Sara Lin, None, Lauren A. Stutts, Ph.D., Davidson College*
- (PS10-C65) Weight Bias Reduction Among First-year Medical Students: A Randomized, Controlled Trial**  
*Hannah F. Fitterman-Harris, B.A., Jillon S. Vander Wal, Ph.D., Saint Louis University*

Poster Session 10D

PS10

Key Words: OCD (Obsessive Compulsive Disorder), Stigma

**(PS10-D66) An Examination of Continuum Beliefs Versus Biogenetic Beliefs in Reducing Stigma Toward Violent Intrusive Thoughts in OCD**

Jennifer Cole, M.S., Debbie M. Warman, Ph.D., University of Indianapolis

**(PS10-D67) Empirically Derived Subtypes of Obsessive-compulsive Disorder and Their Differential Associations With Diagnostic Comorbidity**

Grace N. Anderson, B.A., Evdokiya E. Knyazhanskaya, Esther S. Tung, M.A., Anthony J. Rosellini, Ph.D., Timothy A. Brown, Psy.D., Boston University Center for Anxiety and Related Disorders

**(PS10-D68) Feelings of Incompleteness Explain Symptoms of OCD and OCPD Beyond Harm Avoidance**

Sarah R. Lee, M.A., Johanna A. Younce, B.A., Kevin D. Wu, Ph.D., Northern Illinois University

**(PS10-D69) “Not Just Right Experiences” and Treatment Refractory Obsessive-compulsive Disorder in Treatment-seeking Youth**

Rachel A. Schwartz, M.A.<sup>1</sup>, Martin E. Franklin, Ph.D.<sup>2</sup>, 1. Department of Psychology, University of Pennsylvania, 2. Department of Psychiatry, Perelman School of Medicine at the University of Pennsylvania

**(PS10-D70) Mindfulness Meditation Utilizing a Consumer-grade EEG Device: The Relationship of OCD Symptoms and Beliefs**

Lance Hawley, Ph.D.<sup>1</sup>, Peggy Richter, M.D.<sup>1</sup>, Andreina DaSilva, M.A.<sup>1</sup>, Judith Laposa, Ph.D.<sup>2</sup>, Neil A. Rector, Ph.D.<sup>1</sup>, 1. Sunnysbrook Health Sciences Centre, 2. Centre for Addiction and Mental Health

**(PS10-D71) Not Just Right Experiences and Skin Picking**

Sarah A. Redden, B.A., Jesse R. Cougle, Ph.D., Florida State University

**(PS10-D72) Virtual Reality: A New Approach to Studying Hoarding Disorder**

Danielle A. Uy, B.S., Hanna McCabe Bennett, Ph.D., Todd Girard, Ph.D., Richard Lachman, Martin M. Antony, Ph.D., Ryerson University

**(PS10-D73) Engagement in Appearance-related Safety Behaviors as a Vulnerability Factor Across Disorders**

Anna Schwartzberg, B.A.<sup>1</sup>, Berta Summers, Ph.D.<sup>2</sup>, Jesse R. Cougle, Ph.D.<sup>3</sup>, 1. Massachusetts General Hospital, 2. Massachusetts General Hospital/Harvard Medical School, 3. Florida State University

**(PS10-D74) The Effects of Simulated Police Presence on Initial Perceptions and Emotional Responses of College Aged Males**

Leah Saulter, Psy.D., Kathleen J. Hart, Ph.D., Ross Robertson, B.S., Xavier University

**(PS10-D75) Surviving After Hurricane Matthew: The Effect of Personal and Community Resources on the Impact of Natural Disasters on Psychological Trauma and Resiliency**

*Brianna A. Baker, B.A., Duke University*

**(PS10-D77) Assessing Pre-diabetes Risk Among Individuals With Food Insecurity: Is There Risk and Is Self-reported Weight Accurate?**

*Maribel Plasencia, M.S.<sup>1</sup>, Francesca Gomez, B.A.<sup>2</sup>, Carolyn B. Becker, Ph.D.<sup>2</sup>, Keesha Middlemass, Ph.D.<sup>3</sup>, 1. Rutgers University, 2. Trinity University, 3. Howard University*

**(PS10-D78) Disgust and the Experience of Emetophobic Symptoms in Pregnancy**

*Alexandra Gilbert, B.S.<sup>1</sup>, Molly Wickenhauser, B.A.<sup>1</sup>, Danielle Maack, Ph.D.<sup>2</sup>, 1. University of Mississippi, 2. Ole Miss/Delta Autumn Consulting*

**(PS10-D79) Disgust and the Experience of Emetophobic Symptoms in Pregnancy**

*Alexandra Gilbert, B.S.<sup>1</sup>, Molly Wickenhauser, B.A.<sup>1</sup>, Danielle Maack, Ph.D.<sup>2</sup>, 1. University of Mississippi, 2. Ole Miss/Delta Autumn Consulting*

**(PS10-D80) Neighborhood, Peer, and Parental Influences on Minor and Major Substance Use of Latino and Black Adolescents**

*Marika Tsaturyan, B.A.<sup>1</sup>, Bryan Ross, B.A.<sup>1</sup>, Scott Plunkett, Ph.D.<sup>1</sup>, Andrew Behnke, Ph.D.<sup>2</sup>, 1. California State University, Northridge, 2. Texas State University*

**(PS10-D81) Assessing Stigma Towards Mental Illness Among College Students: Implications of Trait Mindfulness and Race on Self-reported Stigma**

*Rebecca Laconi, B.A.<sup>1</sup>, Daniel Loomis, B.A.<sup>1</sup>, Zachary Getz, B.A.<sup>1</sup>, Norna Jules, B.A.<sup>2</sup>, Michael J. Gawrysiak, Ph.D.<sup>1</sup>, 1. West Chester University of Pennsylvania, 2. Delaware State University*

**(PS10-D82) Trauma and HIV Among South African Women: The Role of Anxiety and Physical Symptomatology**

*Abigail Robbartz, B.S., Martha Ishiekwe, B.A., Sae-Jin Kim, B.A., Lisa Armistead, Ph.D., Georgia State University*

**(PS10-D83) The Social Context of HIV: Structural Barriers and HIV Health Outcomes Among Underserved PLWH in South Florida**

*Noelle A. Mendez, B.A.<sup>1</sup>, Audrey Harkness, Ph.D.<sup>1</sup>, Tiffany R. Glynn, M.S.<sup>1</sup>, Daniel J. Feaster, Ph.D.<sup>2</sup>, Deborah Jones, Ph.D.<sup>1</sup>, Sannisha Dale, Ph.D.<sup>1</sup>, Adam Carrico, Ph.D.<sup>2</sup>, Steven Safren, Ph.D.<sup>1</sup>, 1. University of Miami, 2. University of Miami Miller School of Medicine*

**(PS10-D84) Arrested and Out of Work: Examining Predictors of Employment Maintenance Among High-risk Young Men Within a Community Setting**

*Yesenia Aguilar Silvan, B.A.<sup>1</sup>, Anna D Bartuska, B.S., B.A.<sup>1</sup>, David E Zepeda, Ph.D.<sup>2</sup>, Derri L Shtasel, M.P.H., M.D.<sup>3</sup>, Luana Marques, Ph.D.<sup>4</sup>, Soo J Youn, Ph.D.<sup>3</sup>, 1. Massachusetts General Hospital, 2. Boston University School of Public Health, 3. Massachusetts General Hospital / Harvard Medical School, 4. Harvard Medical School*

International Ballroom, International Level

Poster Session 11A

PS11

Key Words: *Depression, Emotion Regulation, Cognitive Processes*

**(PS11-A1) Effects of a Brief Interpersonal Conflict Cognitive Reappraisal Intervention on Improvements in Emotion Regulation and Depression**

*Lindsey M. Rodriguez, Ph.D.<sup>1</sup>, Katherine Lee, M.S.<sup>2</sup>, James Onufrak, M.A.<sup>3</sup>, 1. University of South Florida, 2. University of New Hampshire, 3. University of South Florida St. Petersburg*

**(PS11-A2) Change in Obsessive-compulsive Symptoms Mediates Subsequent Change in Depressive Symptoms During Exposure and Response Prevention**

*Jesse McCann, B.S.<sup>1</sup>, Laurie Zandberg, Psy.D.<sup>1</sup>, Yinyin Zang, Ph.D.<sup>1</sup>, Carmen McLean, Ph.D.<sup>2</sup>, Rebecca Yeh, M.A.<sup>1</sup>, Helen Blair Simpson, M.D., Ph.D.<sup>3</sup>, Edna Foa, Ph.D.<sup>1</sup>, 1. University of Pennsylvania, 2. National Center for PTSD, 3. Columbia University*

**(PS11-A3) The Factor Structure of an Irrational and Rational Beliefs Scale: Implications for Rational Emotive Behavior Therapy**

*Joanne Raptis, B.A.<sup>1</sup>, Raymond DiGiuseppe, Ph.D.<sup>1</sup>, Bernard Gorman, ABPP, Ph.D.<sup>2</sup>, Natasha Kostek, M.A.<sup>1</sup>, Ashley Abbatangelo, M.A.<sup>1</sup>, 1. St. John's University, 2. Adelphi University*

**(PS11-A4) The Styles of Emotion Regulation Questionnaire: Measure Development**

*Samuel T. Murphy, B.S., Jennifer Cheavens, Ph.D., Daniel R. Strunk, Ph.D., The Ohio State University*

**(PS11-A5) Methods for Improving the Acceptability of Therapist-assisted Internet-based Cognitive Behavioral Therapy Among Black Americans**

*Donovan Ellis, B.S., Page L. Anderson, Ph.D., Georgia State University*

**(PS11-A6) Effect of Cognitive Restructuring Before Exposure: Implications for Inhibitory Learning**

*Kirstyn L. Krause, M.A., Martin M. Antony, Ph.D., Naomi Koerner, Ph.D., Ryerson University*

**(PS11-A7) Stage of Change Predicts Client, but Not Therapist, Alliance in Psychotherapy for IED**

*Martha K. Fahlgren, M.A., Alexander A. Puhalla, M.A., Joey C. Cheung, B.S., Kristen M. Sorgi, B.S., Kristen Buckley, Sarah Taylor, Michael McCloskey, Ph.D., Temple University*

**(PS11-A8) Rates of Successful Termination of CBT for Anxiety, Sleep, and Co-occurring Anxiety and Sleep Disorders in an Outpatient Sample**

*Ashley N. Howell, Ph.D., Nicole A. Short, M.S., Allison K. Wilkerson, Ph.D., Melissa E. Milanak, Ph.D., Alyssa A. Rheingold, Ph.D., Thomas W. Uhde, M.D., Medical University of South Carolina*

- (PS11-A10) Comparing the Adherence to Two Psychological Treatments and Formats in Public Mental Health Settings in Spain**  
*Óscar Peris-Baquero, <sup>1</sup>, Jorge Osmá, Ph.D.<sup>2</sup>, Carlos Suso-Ribera, Ph.D.<sup>3</sup>, Alba Quilez-Orden, Master student<sup>4</sup>, Cristina Acuses, Master student<sup>4</sup>, 1. Instituto de Investigación Sanitaria de Aragón, 2. Universidad de Zaragoza and Instituto de Investigación Sanitaria de Aragón, 3. Universitat Jaume I, 4. Universidad de Zaragoza*
- (PS11-A11) Cognitive Behavioral Therapy Engagement of Fathers With IPV and Substance Use**  
*Danielle M. Farrell, B.A.<sup>1</sup>, Maria Carlotta F. Gorio, M.S.<sup>1</sup>, Carla S. Stover, Ph.D.<sup>2</sup>, 1. Yale University School of Medicine, 2. Yale University*
- (PS11-A12) The Differential Effects of Cognitive Reappraisal and Mindfulness on Improving Mood**  
*Christina Menager, Ph.D., Rachel Ledbetter, B.A., Bethany McKnight, B.A., Makenzie L. Dunn, B.A., Washburn University*
- (PS11-A13) Hope Is a Transdiagnostic Mechanism of Change Across Anxiety Disorders and CBT Treatment Protocols**  
*Matthew W. Gallagher, Ph.D.<sup>1</sup>, Laura J. Long, M.A.<sup>1</sup>, Angela L. Richardson, M.A.<sup>1</sup>, Johann D'Souza, M.A.<sup>1</sup>, James Boswell, Ph.D.<sup>2</sup>, Todd Farchione, Ph.D.<sup>3</sup>, David Barlow, Ph.D.<sup>4</sup>, 1. University of Houston, 2. University at Albany, State University of New York, 3. Boston University Center for Anxiety and Related Disorders, 4. Boston University*
- (PS11-A14) Autism Symptoms Are Related to Hyperactivity and Social Skills but Do Not Predict PEERS® Treatment Outcome for Youth with ADHD**  
*Alana J. McVey, M.S., Hillary Schiltz, M.S., E. Michael Wefelmeyer, B.S., B.A., Alyson Gerdes, Ph.D., Marquette University*
- (PS11-A15) The Effect of Exposure Therapy and Behavioral Activation on Positive and Negative Affect**  
*Julian Ruiz, B.A.<sup>1</sup>, Amy Sewart, M.A.<sup>1</sup>, Thomas Ritz, Ph.D.<sup>2</sup>, Alicia Meuret, Ph.D.<sup>1</sup>, Michelle Craske, Ph.D.<sup>1</sup>, 1. University of California, Los Angeles, 2. Southern Methodist University*
- (PS11-A16) Mindful Emotion Awareness Facilitates Engagement With Exposure Exercises**  
*Andrew Crunner, M.A.<sup>1</sup>, Todd Farchione, Ph.D.<sup>1</sup>, Shannon Sauer-Zavala, Ph.D.<sup>1</sup>, David Barlow, Ph.D.<sup>2</sup>, 1. Boston University Center for Anxiety and Related Disorders, 2. Boston University*
- (PS11-A17) Critical Decision Points During Cognitive-behavioral Therapy and Light Therapy for Predicting Winter Depression Recurrence**  
*Jessica Perez, B.A.<sup>1</sup>, Kelly J. Rohan, Ph.D.<sup>1</sup>, Julia Camuso, B.S.<sup>1</sup>, Praise Iyiewuare, M.P.H.<sup>1</sup>, Michael J. DeSarno, M.S.<sup>2</sup>, Pamela M. Vacek, Ph.D.<sup>2</sup>, 1. University of Vermont, 2. University of Vermont College of Medicine*
- (PS11-A18) Family Peer Advocates: Strengthening Therapeutic Alliance Among High Need Families and Mental Health Providers**  
*Jesslyn M. Jamison, B.A.<sup>1</sup>, Sarah Kate Bearman, B.A., Ph.D.<sup>1</sup>, Erica Lee, Ph.D.<sup>2</sup>, 1. The University of Texas at Austin, 2. Harvard University*

- (PS11-A19) **Evaluating the Effectiveness of Cognitive Behavioral Therapy in Rural Appalachian Schools**  
*Arina M. Cotuna, B.S., Kurt D. Michael, Ph.D., Rebecca Schenk, B.S., John P. Jameson, Ph.D., Appalachian State University Department of Psychology*
- (PS11-A20) **Examination of Homework Compliance and Homework Quality in a Large Randomized Trial of Cognitive Behavioral Therapies for Emotional Disorders**  
*Laren R. Conklin, Ph.D.<sup>1</sup>, Andrew Curreri, M.A.<sup>2</sup>, Todd Farchione, Ph.D.<sup>2</sup>, David Barlow, Ph.D.<sup>3</sup>, 1. Ohio State University 2. Boston University Center for Anxiety and Related Disorders, 3. Boston University*
- (PS11-A21) **Results of an Online Counseling Intervention for Female Mexican Immigrant Victims of Domestic Violence in the United States**  
*Paola Barrón-Lara, B.A., Fabiola Reyes-Torres, M.A., Jorge Martínez-López, B.A., Georgina Cardenas-Lopez, Psy.D., Universidad Nacional Autónoma de México*
- (PS11-A22) **Borderline Personality Traits and Alcohol Use as Risk Factors for Compulsive Sexual Behavior Among College Students**  
*Meredith R. Denney, B.A., Meagan J. Brem, M.A., Gregory Stuart, Ph.D., The University of Tennessee, Knoxville*
- (PS11-A23) **Feeling Unsatisfied: The Effects of Sex, Emotion Dysregulation, and Other Personality Traits on Sexual Satisfaction**  
*Ryan Rahm-Knigge, M.S., Olivia Bolts, M.A., Bradley T. Conner, Ph.D., Colorado State University*
- (PS11-A24) **Exploring the Role of Avoidance in Male Sexual Dysfunction**  
*Kyle R. Stephenson, Ph.D., Mackenzie Stueve, Whitney Widrig, Camryn Pickworth, Ross Enlow, Willamette University*
- (PS11-A25) **What Is the Relationship Between Religiosity, Self-perceived Problematic Pornography Use, and Depression over Time?**  
*Meghan Maddock, B.S., Kaitlin Steele, B.S., Scott R. Braithwaite, Ph.D., Brigham Young University*

## International Ballroom, International Level

### Poster Session 11B

## PS11

Key Words: Worry, Anxiety, Depression

- (PS11-B26) **Disengagement Training for the Treatment of Pathological Worry**  
*Katherine McDermott, B.A., Jesse R. Cougle, Ph.D., Florida State University*
- (PS11-B27) **Psychological Flexibility Moderates the Relation of Difficulties in Emotion Regulation and Worry Symptoms**  
*Lucas D. Baker, B.A.<sup>1</sup>, Jennifer L. Kuo, M.A.<sup>1</sup>, Emily A. Kalantar, B.A.<sup>1</sup>, Rachel C. Bock, B.S.<sup>1</sup>, Christopher R. Berghoff, Ph.D.<sup>1</sup>, Kim Gratz, Ph.D.<sup>2</sup>, Matthew T. Tull, Ph.D.<sup>2</sup>, 1. University of South Dakota, 2. University of Toledo*

**(PS11-B28) Gender-matching of Therapist and Patient Influence Emotion and Cognitive Word Use in Panic-focused Psychodynamic Psychotherapy and Cognitive Behavioral Therapy for Panic Disorder**

*Serena Z. Chen, <sup>1</sup>, Michael Moore, Ph.D.<sup>1</sup>, Zeynep Sahin, M.A.<sup>1</sup>, Dianne L. Chambless, Ph.D.<sup>2</sup>, Barbara Milrod, M.D.<sup>3</sup>, Jacques P. Barber, Ph.D.<sup>4</sup>, 1. Adelphi University, 2. University of Pennsylvania, 3. Department of Psychiatry, Weill Cornell Medical College, 4. Derner School of Psychology, Adelphi University*

**(PS11-B29) Comparing Symptom Aggregation in Patients Diagnosed With Generalized Anxiety Disorder and Social Anxiety Disorder**

*Rebecca R. Suzuki, B.A.<sup>1</sup>, Bryana Schantz, B.A.<sup>2</sup>, Meredith Ward, B.A.<sup>3</sup>, Emma R. Toner, B.A.<sup>3</sup>, Samantha Philip, B.S.<sup>4</sup>, Caroline Gabriel, B.A.<sup>4</sup>, Samrachana Adhikari, Ph.D.<sup>2</sup>, Adam Gitterman, M.S.<sup>5</sup>, Matteo Malgaroli, Ph.D.<sup>2</sup>, T.H. Eric Bui, M.D., Ph.D.<sup>3</sup>, Elizabeth Hoge, M.D.<sup>4</sup>, Naomi M. Simon, M.D.<sup>1</sup>, 1. Anxiety and Complicated Grief Program, NYU Langone, 2. NYU School of Medicine, 3. Massachusetts General Hospital, 4. Georgetown University Medical Center, 5. MedStar Health Research Institute*

**(PS11-B30) A Comparison of Treatment Preferences for Panic Symptomology With and Without Relevant Treatment Information**

*Sarah White, B.S., Joshua Broman-Fulks, Ph.D., Elijah Richardson, B.A., Appalachian State University*

**(PS11-B31) Predictors of Cognitive Behavioral Therapy Dropout in Transdiagnostic Anxiety Populations**

*Belinda Chen, B.A., Bitu Mesri, Ph.D., Michelle Craske, Ph.D., University of California, Los Angeles*

**(PS11-B32) New Aversive Indecisiveness and Positive Beliefs About Decision Making Scales Are Differentially Predictive of Risks For and Symptoms of Anxiety and Depression**

*Sean A. Lauderdale, Ph.D., Logen Ashford, Texas A&M-Commerce*

**(PS11-B33) Psychometric Properties of the Contrast Avoidance Questionnaires**

*Evan J. White, M.S., Kristen E. Frosio, M.S., Danielle E. Deros, B.S., Kaitlyn M. Nagel, B.A., Jake Kraft, M.S., Danielle Taylor, M.S., DeMond M. Grant, Ph.D., Oklahoma State University*

**(PS11-B34) The Relationship Between Helicopter Parenting and the Psychological Well-being of Emerging Adults**

*Caroline Cole, B.S., Caitlyn Loucas, B.A., Nicole Caporino, Ph.D., Kathleen Gunther, Ph.D., American University*

**(PS11-B35) The Relationship Between Trait Mindfulness and Affective Symptoms: A Meta-analysis of the Five Facet Mindfulness Questionnaire (FFMQ)**

*Angelina F. Gomez, M.A.<sup>1</sup>, Joseph K. Carpenter, M.A.<sup>2</sup>, Kristina Conroy, B.A.<sup>1</sup>, Laura C. Curren, M.A.<sup>1</sup>, Stefan G. Hofmann, Ph.D.<sup>1</sup>, 1. Boston University Center for Anxiety and Related Disorders, 2. Boston University*

**(PS11-B36) Associations Between Race-related Stress and Symptoms of Anxiety, Depression, and Stress in Non-african American Students**

*Kathleen E. Murphy, B.S., Mary Fernandes, B.S., Erin Tone, Ph.D., Georgia State University*

- (PS11-B37) The Effect of Attentional Control and Fear-learning on Error-monitoring**  
*Danielle Taylor, M.S., Evan J. White, M.S., Kaitlyn M. Nagel, B.A., Jacob D. Kraft, B.A., Kristen E. Frosio, M.S., Danielle E. Deros, B.S., DeMond M. Grant, Ph.D., Oklahoma State University*
- (PS11-B38) Anxiety Sensitivity, Not Resilience, Mediates the Relationship Between Family History of Suicide and Anxiety Disorders**  
*Julia Spandorfer, B.A.<sup>1</sup>, Samrachana Adhikari, Ph.D.<sup>2</sup>, Kristin L. Szuhany, Ph.D.<sup>1</sup>, Peter Na, M.D.<sup>2</sup>, Matteo Malgaroli, Ph.D.<sup>2</sup>, Susanne Hoepfner, Ph.D.<sup>3</sup>, Rebecca R. Suzuki, B.A.<sup>4</sup>, Rebecca Lubin, B.A.<sup>1</sup>, Rachel Eakley, <sup>2</sup>, Naomi M. Simon, M.D.<sup>4</sup>, 1. NYU Langone Health, 2. NYU School of Medicine, 3. Massachusetts General Hospital/Harvard Medical School, 4. Anxiety and Complicated Grief Program, NYU Langone*
- (PS11-B39) Examining Latent Profiles of Anxiety During Exposure Sessions to Predict Symptom Reduction**  
*Shaan McGhie, B.A., Sadia Najmi, Ph.D., Nader Amir, Ph.D., San Diego State University*
- (PS11-B40) Rejected or Accepted: How Social Anxiety and Visual Field Position Relate With Anxiety and Perceived Rejection When Viewing Emotional Faces**  
*Nathan M. Hager, B.A., Matt Judah, Ph.D., Katherina Nako, B.S., Korena Klimczak, Old Dominion University*
- (PS11-B41) Difficulties in Emotion Regulation Mediate the Relationship Between Sleep Disturbance and a Measure of Depression, Anxiety, and Stress**  
*Samantha M. Nagy, M.S., Scott Pickett, Ph.D., Florida State University*
- (PS11-B42) A Preliminary Examination of the Role of Nocturnal Panic Attacks in Suicidality**  
*Nicole S. Smith, B.S.<sup>1</sup>, Rachel Martin, B.A.<sup>1</sup>, Brad Schmidt, Ph.D.<sup>2</sup>, Daniel Capron, Ph.D.<sup>1</sup>, 1. University of Southern Mississippi, 2. Florida State University*
- (PS11-B43) Integrating Blended Learning Modules to Improve Undergraduate Clinical Students' Quantitative Competence, Statistics Anxiety, and Implicit Theories of Quantitative Skills**  
*Lauren A. Stutts, Ph.D.<sup>1</sup>, William D. Ellison, Ph.D.<sup>2</sup>, Laura E. Knouse, Ph.D.<sup>3</sup>, Laura E. Sockol, Ph.D.<sup>1</sup>, Sundi Richard, B.S.<sup>1</sup>, 1. Davidson College, 2. Trinity University, 3. University of Richmond*
- (PS11-B44) Preliminary Outcomes for an Online Parent-training Course with Live Supervision for Practitioners**  
*Camilo Ortiz, Ph.D.<sup>1</sup>, Hilary B. Vidair, Ph.D.<sup>2</sup>, Mary Acri, Ph.D.<sup>3</sup>, Anil Chacko, Ph.D.<sup>4</sup>, Kenneth Kobak, Ph.D.<sup>5</sup>, Alyson Caldari, M.A.<sup>2</sup>, Kayla D. Sanchez, B.A.<sup>6</sup>, 1. Ortiz, 2. LIU Post, 3. McSilver Institute, 4. New York University, 5. Center for Telepsychology, 6. Long Island University*
- (PS11-B45) Volunteer-delivery of Behavioral Activation in Senior Centers: A Case Series**  
*Patrick Raue, Ph.D.<sup>1</sup>, Alexis A. Dawson, B.A.<sup>2</sup>, 1. University of Washington School of Medicine, 2. University of Washington, Seattle*
- (PS11-B46) Paraprofessionals' Awareness and Utilization of Evidence-based Practices For Students With Autism Spectrum Disorder**  
*Jordan Albright, M.S., Laura Beaudet, Emily Gerhart, Sarah Munro, Angela Scarpa, Ph.D., Virginia Polytechnic Institute and State University*

**(PS11-B47) Results from a One-day Training on Evidence-based Behavior Management With Early Childhood Education Providers**

*Katherine Hess, B.A., Dominique Egger, B.A., Juliana Alba, B.S., M.A., Sarah Kate Bearman, B.A., Ph.D., The University of Texas at Austin*

**(PS11-B48) A Rough Day Makes for a Happy Hour: Job Strain, Alcohol Use, and Stress Reactivity Among Ethnic Minority Adults**

*Juan C. Hernandez, B.A., Jack Waddell, B.A., Kimberly Yu, B.A., Tara Ohrt, M.A., Marisol Perez, Ph.D., Arizona State University*

**International Ballroom, International Level**

**Poster Session 11C**

**PS11**

Key Words: Stress, Child, Adolescents

**(PS11-C49) Anxiety and Depressive Symptoms During the Transition to Adolescence: Differential Links to Acute HPA Stress Responses**

*Abigail Findley, B.A.<sup>1</sup>, Jason Bendezu, Ph.D.<sup>1</sup>, Ashley N. Howell, Ph.D.<sup>1</sup>, Christopher Sege, Ph.D.<sup>1</sup>, Kathleen Crum, Ph.D.<sup>1</sup>, Zachary Adams, Ph.D.<sup>2</sup>, Casey Calhoun, Ph.D.<sup>1</sup>, Carla K. Danielson, Ph.D.<sup>3</sup>, 1. Medical University of South Carolina, 2. Indiana University School of Medicine, 3. MUSC*

**(PS11-C50) Adolescent Psychosocial Stress Sensitivity: A Latent Profile Analysis**

*Erin E. Curley, B.A.<sup>1</sup>, Lyn Y. Abramson, Ph.D.<sup>2</sup>, Lauren Alloy, Ph.D.<sup>1</sup>, 1. Temple University, 2. University of Wisconsin, Madison*

**(PS11-C51) Cognitive Reappraisal and Expressive Suppression Within Families: Unique Effects on Adolescents' Depression**

*Tannaz Mirhosseini, B.A., Anna Olczyk, B.A., Ilya Yaroslavsky, Ph.D., Cleveland State University*

**(PS11-C52) The Conceptualization of the Positive Cognitive Triad and Associations With Depressive Symptoms in Adolescents**

*Caroline M. Pittard, Ph.D.<sup>1</sup>, Patrick Pössel,<sup>2</sup> Jill L. Adelson, Ph.D.<sup>3</sup>, Jeanie Sheffield, Ph.D.<sup>4</sup>, Michael G. Sawyer, Ph.D.<sup>5</sup>, Susan G. Spence, Ph.D.<sup>6</sup>, 1. Children's Mercy Hospital, 2. University of Louisville, 3. Duke University, 4. The University of Queensland, 5. School of Medicine, University of Adelaide, Research and Evaluation Unit, Women's and Children's Health Network, 6. Griffith University*

**(PS11-C54) Profiles of Psychological Functioning in High-risk Adolescents: Using Latent Variable Mixture Modeling to Create Tailored Treatment in an Intensive Outpatient Setting**

*Sarah E. Barnes, Ph.D., Amber W. Childs, Ph.D., Yale University School of Medicine*

**(PS11-C55) Increased Marijuana Use Among Adolescents With a Diagnosis of Depression**

Gabriela Aisenberg, B.S.<sup>1</sup>, Lauren Micalizzi, Ph.D.<sup>2</sup>, Jennifer Wolff, PhD<sup>3</sup>, Anthony Spirito, Ph.D.<sup>4</sup>, 1. Department of Psychiatry and Human Behavior, Brown University, 2. Center for Alcohol and Addiction Studies, Brown University, 3. Alpert Medical School of Brown University, 4. Brown University

**(PS11-C56) The Impact of Life Stress and Social Support on Depression in College Students: Differential Relationships in Males and Females**

Laura Nelson Darling, M.A.<sup>1</sup>, Alicia R. Fenley, M.A.<sup>1</sup>, Erika S. Trent, B.S., <sup>2</sup>, Lindsay E. Holly, Ph.D.<sup>1</sup>, David Langer, Ph.D.<sup>1</sup>, 1. Child Center for Anxiety and Related Disorders, Boston University, 2. University of Houston

**(PS11-C57) Sympathetic Nervous System Activity Predicts Decreased Negative Affect in Lab and in Daily Life**

Anna Olczyk, B.A., Tannaz Mirhosseini, B.A., Ilya Yaroslavsky, Ph.D., Cleveland State University

**(PS11-C58) Changes in Neural Response to Unpredictable Aversive Events: An Indicator of Risk for Depression in Children and Adolescents?**

Abigail Findley, B.A.<sup>1</sup>, Christopher Sege, Ph.D.<sup>1</sup>, Jason Bendezu, Ph.D.<sup>1</sup>, Casey Calhoun, Ph.D.<sup>1</sup>, Lisa McTeague, Ph.D.<sup>1</sup>, Greg Hajcak, Ph.D.<sup>2</sup>, Carla K. Danielson, Ph.D.<sup>3</sup>, 1. Medical University of South Carolina, 2. Florida State University, 3. MUSC

**(PS11-C59) Children's Empathic Sensitivity Is Associated with Low Internalizing Problems Except in Children with Excessive Interpersonal Guilt**

Erin Tully, Ph.D., Arden Cooper, B.S., Jackson Gray, M.A., Kyrsten Buote, B.A., Georgia State University

**(PS11-C60) High Self-blame for Mother's Happiness and Low Self-blame for Mother's Sadness Are Associated with Healthy Psychological Functioning in Children**

Erin Tully, Ph.D., Erin McDonald, B.A., Alyssa Ames-Sikora, M.A., Jackson Gray, M.A., Georgia State University

**(PS11-C61) The Interplay Between Gender, Cultural Group, and Control Beliefs as Predictors of Depression Among Early Adolescents**

Averill F. Obee, B.A., Nataliya Turchmanovych, Ysatis Nunez, B.S., Antonio Polo, Ph.D., DePaul University

**(PS11-C62) Association Between Interpersonal Problem Content and Duration of Problem Talk in Young Adult Friendships**

Helen J. Day, Ph.D.<sup>1</sup>, Cynthia Erdley, Ph.D.<sup>2</sup>, 1. Center for Cognitive and Dialectical Behavior Therapy, 2. University of Maine

**(PS11-C63) Incremental Contribution of the Family Environment to the Prospective Prediction of Children's Psychopathology Over and Above Parental Depression**

Bridget Nestor, M.S.<sup>1</sup>, Susanna Sutherland, M.S.<sup>1</sup>, Elizabeth McCauley, Ph.D.<sup>2</sup>, Guy Dimond, Ph.D.<sup>3</sup>, Kelly Schloedt, Ph.D.<sup>2</sup>, Judy Garber, Ph.D.<sup>1</sup>, 1. Vanderbilt University, 2. University of Washington, 3. Drexel University

**(PS11-C64) Growth Trajectories of Anxiety and Depression Symptoms for Youth at Risk for Maltreatment**

Damian M. Elson, B.A., Miguel Villodas, Ph.D., San Diego State University

- (PS11-C65) Examining the Reward Positivity, a Neural Marker of Reward Processing, as an Indicator of Depression Risk in Children and Adolescents**  
*Hannah Sebald, B.A.<sup>1</sup>, Christopher Sege, Ph.D.<sup>1</sup>, Jason Bendezu, Ph.D.<sup>1</sup>, Kathleen Crum, Ph.D.<sup>1</sup>, Casey Calhoun, Ph.D.<sup>1</sup>, Lisa McTeague, Ph.D.<sup>1</sup>, Greg Hajcak, Ph.D.<sup>2</sup>, Carla K. Danielson, Ph.D.<sup>3</sup>, 1. Medical University of South Carolina, 2. Florida State University, 3. MUSC*
- (PS11-C66) Parenting Behaviors and Youth Internalizing Symptoms: Racial/Ethnic Differences Among Youth Offspring of Depressed Parents**  
*Merissa Kado, B.A.<sup>1</sup>, Geri Zerr, Ph.D.<sup>1</sup>, Judy Garber, Ph.D.<sup>2</sup>, Bruce Compas, Ph.D.<sup>2</sup>, V. Robin Weersing, Ph.D.<sup>3</sup>, 1. San Diego State University, 2. Vanderbilt University, 3. SDSU-UC San Diego Joint Doctoral Program in Clinical Psychology*
- (PS11-C67) Confirmatory Factor Analyses of the Body Appreciation Scale-2, Body Image-acceptance and Action Questionnaire, and Functionality Appreciation Scale Among Sexual Minorities**  
*Zachary A. Soulliard, M.A., Jillon S. Vander Wal, Ph.D., Saint Louis University*
- (PS11-C68) Psychological Functioning for LGBTQ Individuals During the Current Presidential Administration**  
*Lex Pulice-Farrow, M.A., Kirsten A. Gonzalez, Ph.D., The University of Tennessee, Knoxville*
- (PS11-C69) The Influence of Social Support and Bullying Subtypes on Depressive Symptomatology Among Sexual and Gender Minority Adolescents**  
*Ilayna K. Mehrtens, M.A., Kasia S. Plessy, M.A., Mary Lou Kelley, Ph.D., Louisiana State University*
- (PS11-C70) Ethical Considerations for Conducting Research with Sexual and Gender Minority Youth: Adolescent Perspectives on Waivers of Parental Consent for Research**  
*Ilayna K. Mehrtens, M.A., Kasia S. Plessy, M.A., Mary Lou Kelley, Ph.D., Louisiana State University*
- (PS11-C71) Examining the Social Reaction Questionnaire in LGBTQ Individuals With Interpersonal Trauma**  
*Ashley M. Hosey, B.S., M.A., David T. Solomon, Ph.D., Elizabeth Combs, M.A., Western Carolina University*
- (PS11-C72) Descriptive Statistics on LGBTQ Participants in Full-course Adherent DBT**  
*Dana Campagna, M.A., <sup>1</sup>, Robert M. Montgomery, <sup>2</sup>, Marget Thomas, Psy.D.<sup>1</sup>, Max Stivers, B.A.<sup>3</sup>, Kate A. Cohen, B.A.<sup>3</sup>, Sandra M. Chen, B.A.<sup>3</sup>, Lynn M. McFarr, Ph.D.<sup>1</sup>, 1. CBT California, 2. CSU Northridge, 3. Pepperdine University Graduate School of Education and Psychology*

Poster Session 11D

PS11

Key Words: Trauma, Cognitive Processes

- (PS11-D73) **Cognition-mood Symptoms in Trauma Exposed Undergraduates: The Role of Negative Disclosure Expectancy and Trait Expressivity**  
*Layla M. Elmi, B.S., Adam J. Ripley, M.S., Ryan M. Kozina, M.S., Shira M. Kern, M.A., Joshua D. Clapp, Ph.D., University of Wyoming*
- (PS11-D74) **The Trauma Model of Dissociation: Does Perceived Social Support Moderate the Relationship Between Intimate Partner Violence and Dissociation?**  
*Ulysses C. Savage, B.A.<sup>1</sup>, Thomas S. Dodson, M.S.<sup>1</sup>, Rimsha Majeed, B.S.<sup>1</sup>, Bre'Anna Free, B.A.<sup>1</sup>, Alexandra J. Lipinski, M.S.<sup>2</sup>, Rebecca Zakarian, B.A.<sup>1</sup>, J. Gayle Beck, Ph.D.<sup>1</sup>, 1. University of Memphis, 2. The University of Memphis*
- (PS11-D75) **Trauma-related Negative Cognitions as Predictors of Treatment Response to Prolonged Exposure Therapy**  
*Shari Liebllich, B.S., Kevin Narine, BA, Wenting Mu, Ph.D., Edna Foa, Ph.D., Lily Brown, Ph.D., University of Pennsylvania*
- (PS11-D76) **Through the Looking Glass: Posttraumatic Social Support from the Perspective of the Support Provider**  
*Katherine van Stolk-Cooke, B.A., Matthew Price, Ph.D., University of Vermont*
- (PS11-D77) **Consolidating Care and Facilitating Recovery: Preliminary Clinical Effectiveness Data from a Concurrent PTSD and Mtbi Intensive Outpatient Program**  
*Kelsey R. Sprang, Psy.D., Katie A. Ragsdale, Ph.D., Anastacia Nichols, Psy.D., Suzanne Penna, ABPP, Ph.D., Sheila Rauch, Ph.D., Barbara Rothbaum, Ph.D., Emory University School of Medicine*
- (PS11-D78) **Is the Relationship Between PTSD Symptoms and Health Related Quality of Life Mediated by Ruminative Thought Style?**  
*Sophie Haven, B.A., Steven E. Bruce, Ph.D., University of Missouri-St. Louis*
- (PS11-D79) **Investigating the Role of Social Support as a Moderator in the Association of Intimate Partner Violence and Depression**  
*Bre'Anna Free, B.A.<sup>1</sup>, Ulysses C. Savage, B.A.<sup>1</sup>, Thomas S. Dodson, M.S.<sup>1</sup>, Alexandra J. Lipinski, M.S.<sup>2</sup>, Rebecca Zakarian, B.A.<sup>1</sup>, Rimsha Majeed, B.S.<sup>1</sup>, J. Gayle Beck, Ph.D.<sup>1</sup>, 1. University of Memphis, 2. The University of Memphis*
- (PS11-D80) **Role of Negative Cognitions in PTSD and Depression**  
*Rimsha Majeed, B.S., Kristin Turner, Alexandra J. Lipinski, M.S., Thomas S. Dodson, M.S., Ulysses C. Savage, B.A., Bre'Anna Free, B.A., Rebecca Zakarian, B.A., J. Gayle Beck, Ph.D., University of Memphis*
- (PS11-D81) **Understanding Heart Rate Reactivity to Trauma Cues in PTSD**  
*Allison A. Campbell, M.A., Blair Wisco, Ph.D., University of North Carolina at Greensboro*

- (PS11-D82) Coping Is Not Enough: The Indirect Effect of Financial Stress on Mental Health Though Coping**  
*Ellen H. Steele, M.A., Erica Szkody, M.S., Cliff McKinney, Ph.D., Mississippi State University*
- (PS11-D83) The Relationship Between Perfectionism and Posttraumatic Stress in Veterans**  
*Sidonia E. Compton, M.S., Stacy L. Parkin, Ph.D., Michele N. Carroll, Psy.D., C. Laurel Franklin, Ph.D., Amanda Raines, Ph.D., Southeast Louisiana Veterans Health Care System*
- (PS11-D84) Sexual Victimization in Childhood and Current PTSD Symptoms Impact on Dissociative Experiences**  
*Nicole M. Christ, M.A.<sup>1</sup>, Emily A. Meadows, M.A.<sup>1</sup>, Ruby Charak, Ph.D.<sup>2</sup>, Jon Elhai, Ph.D.<sup>1</sup>, 1. University of Toledo, 2. The University of Texas Rio Grande Valley*
- (PS11-D85) Profiles of Impairment: Trauma Specific Patterns in the Interpersonal Circumplex**  
*Joshua D. Clapp, Ph.D., Layla M. Elmi, B.S., Ryan M. Kozina, M.S., Shira M. Kern, M.A., Adam J. Ripley, M.S., Kenneth McClure, B.S., University of Wyoming*
- (PS11-D86) Distress and Specificity in DSM-5 Posttraumatic Stress Disorder: Quadripartite Analysis in Trauma-exposed Undergraduates**  
*Joshua D. Clapp, Ph.D., Ryan M. Kozina, M.S., Layla M. Elmi, B.S., Adam J. Ripley, M.S., Shira M. Kern, M.A., University of Wyoming*
- (PS11-D87) The Intersection of Race, Biological Sex, Sexual Identity, and PTSD Symptom Severity**  
*Caitlyn N. Carey, B.S., Holly A. Proenza, Andalusia A. Hinojos, Manal Fasih, Nathan T. Kearns, M.S., Heidemarie Blumenthal, University of North Texas*
- (PS11-D89) An Accelerated, Weekend-based, Treatment Program for Veterans and Service Members with Posttraumatic Stress Disorder**  
*Elizabeth Goetter, Ph.D.<sup>1</sup>, Kaloyan Tanev, M.D.<sup>1</sup>, Edward Wright, Ph.D., ABPP<sup>1</sup>, Simon Lejeune, M.D.<sup>2</sup>, Allyson M. Blackburn, B.A.<sup>2</sup>, Thomas Spencer, M.D.<sup>1</sup>, 1. Massachusetts General Hospital/Harvard Medical School, 2. Massachusetts General Hospital*
- (PS11-D90) Compassionately Responding to Anger: Associations Between Self-compassion, Posttraumatic Stress Symptomology, and Trauma-related Anger**  
*John Donahue, Psy.D., Katie Callahan, B.A., Shane Stori, B.A., Dina Ismailova, B.A., Joshua Humphreys, B.A., University of Baltimore*
- (PS11-D91) Public Employee Perceptions of Trauma-informed Care Implementation**  
*Alyssa Zampogna, Shyler Abbey, Danielle Mann, B.A., Wilson J. Brown, Ph.D., Penn State Erie, The Behrend College*
- (PS11-D92) Betrayal Trauma, Social Problem Solving, and Suicidal Ideation**  
*Holly Gerber, B.A., Drexel University*

**(PS11-D93) Putting the Patient Back in Clinical Significance: Using Item Response Theory in Estimating Clinically Significant Change in Treatment for PTSD and Suds**

*Lisette M. Saavedra, Ph.D.<sup>1</sup>, Antonio A. Morgan-Lopez, Ph.D.<sup>1</sup>, Denise Hien, Ph.D.<sup>2</sup>, Therese Killeen, Ph.D.<sup>3</sup>, Skye Fitzpatrick, Ph.D.<sup>2</sup>, Lesia M. Ruglass, Ph.D.<sup>2</sup>, Sudie Back, Ph.D.<sup>3</sup>, Teresa Lopez-Castro, Ph.D.<sup>4</sup>, Sara Cass, B.A.<sup>2</sup>, 1. RTI International, 2. Rutgers University, 3. Medical University of South Carolina, 4. City College of New York (CUNY)*

**(PS11-D94) The Role of Worry and Intolerance of Uncertainty in PTSD Symptom Improvement in Veterans**

*Laura Zambrano-Vazquez, Ph.D.<sup>1</sup>, Adam P. McGuire, Ph.D.<sup>1</sup>, Emily Belleau, Ph.D.<sup>2</sup>, Heidi La Bash, Ph.D.<sup>3</sup>, Sonya Wanklyn, Ph.D.<sup>4</sup>, Kathryn Hahn, Ph.D.<sup>5</sup>, Kevin Connolly, Ph.D.<sup>6</sup>, 1. VISN 17 Center of Excellence for Research on Returning War Veterans, 2. McLean Hospital/Harvard Medical School, 3. National Center for PTSD, 4. Centre for Addiction and Mental Health, 5. Middle Tennessee Psychology, 6. Tennessee Valley Healthcare System*

**(PS11-D95) Validation of a Sexual Assault Script for Use in Laboratory-based, Trauma-related Research and Clinical Practice**

*Teah-Marie R. Bynion, M.A., Danielle E. Baker, M.A., Riley Gournay, Madeleine S. Smith, B.A., Matthew Feldner, Ph.D., University of Arkansas*

**(PS11-D96) What's in a Name? an Examination of PTSD Symptoms in Acknowledged and Unacknowledged Survivors of Rape**

*Alexandra J. Lipinski, M.S., Rebecca Zakarian, B.A., Thomas S. Dodson, M.S., Bre'Anna Free, B.A., Rimsha Majeed, B.S., Ulysses C. Savage, B.A., J. Gayle Beck, Ph.D., University of Memphis*

**(PS11-D97) Investigating Posttraumatic Stress Disorder Symptom Clusters Over the Course of Treatment**

*Stephanie Jeffers, B.A., Amber Jarnecke, Ph.D., Sudie Back, Ph.D., Therese Killeen, Ph.D., Medical University of South Carolina*

**(PS11-D98) Impact of Exposure to Counterstereotypic Causality of Obesity on Beliefs About Weight Controllability and Obesity Bias**

*Sara Lin, None, Lauren A. Stutts, Ph.D., Davidson College*

---

4:00 p.m. – 5:00 p.m.

---

**International Ballroom, International Level**

**Poster Session 12A**

**PS12**

Key Words: *Depression, Stigma, Student Issues*

**(PS12-A1) Depression and Depression-related Stigma Among Medical Students**

*Alesia Jones, Ph.D.<sup>1</sup>, Kristen Sterns, M.D.<sup>2</sup>, Jennifer Kang, M.D.<sup>2</sup>, 1. University of Illinois College of Medicine at Rockford, 2. University of Illinois*

**(PS12-A2) Determining Optimal Clusters of Pupillometry Data**

*Rochelle Stewart, B.A., Mary E. McNamara, B.A., Kean J. Hsu, Ph.D., Christopher Beevers, Ph.D., University of Texas at Austin*

**(PS12-A3) Familial Interactions, Emotion Dysregulation, and Mental Health of Latino University Students**

*Carlos Corvera, B.A., Clare Wilkes, Michael Kay, Scott Plunkett, Ph.D., California State University, Northridge*

**(PS12-A4) Perceived Helpfulness of Rumination Predicts Tendency to Ruminate**

*Alisson N. Lass, B.S., Amanda Collins, B.S., Ashlynn McCain, E. Samuel Winer, Ph.D., Mississippi State University*

**(PS12-A5) How Awe, Love, and Gratitude Relate to Depressive Symptoms Through Social Connection**

*Meghan S. Goyer, M.A.<sup>1</sup>, Laura G. McKee, Ph.D.<sup>1</sup>, Jena Michel, B.A.<sup>1</sup>, Sara Algae, Ph.D.<sup>2</sup>, 1. Georgia State University, 2. University of North Carolina at Chapel Hill*

**(PS12-A6) Self-compassion Explains the Association Between Shame and Depression in Young Adults**

*Jena Michel, B.A., Laura G. McKee, Ph.D., Meghan S. Goyer, M.A., Georgia State University*

**(PS12-A7) Increased Engagement in an Automated Text Messaging System Predicts Attendance of Cognitive Behavioral Therapy for Depression**

*Caroline Figueroa, Ph.D., Adrian Aguilera, Ph.D., Rosa Hernandez-Ramos, B.A., Patricia Avila, B.A., University of California, Berkeley*

**(PS12-A8) Prediction of Depression Using Data Across Units of Analysis: A Machine-learning Approach to Diagnostic Classification**

*Mary E. McNamara, B.A., Jason Shumake, Ph.D., Rochelle Stewart, B.A., Jocelyn Labrada, B.A., Christopher Beevers, Ph.D., University of Texas at Austin*

**(PS12-A9) Rel-eye-ability: The Psychometrics of Pupillometry Across Diagnostic Groupings**

*Jocelyn Labrada, B.A., Mary E. McNamara, B.A., Rochelle Stewart, B.A., Kean J. Hsu, Ph.D., Ph.D.<sup>1</sup>, Christopher Beevers, Ph.D., University of Texas at Austin*

**(PS12-A10) The Association Between Stressful Life Events and Coping in Parents With a History of Depression**

*Pauline Goger, M.A.<sup>1</sup>, Karen Schwartz, M.S.<sup>1</sup>, V. Robin Weersing, Ph.D.<sup>1</sup>, Judy Garber, Ph.D.<sup>2</sup>, Bruce Compas, Ph.D.<sup>2</sup>, 1. SDSU-UC San Diego Joint Doctoral Program in Clinical Psychology, 2. Vanderbilt University*

**(PS12-A11) Relations Among Depression, Suppressive Emotion-regulation Strategies and Recognition of Emotional Facial Expressions**

*Alora A. Rando, M.S., Sarah T. Wieman, B.A., Shelley L. Kind, M.S., Gabrielle I. Liverant, Ph.D., Suffolk University*

**(PS12-A12) With Friends Like These: An Exploration of Interpersonal Emotion Regulation Strategies**

*Joseph A. Fulton, B.A., Jessica Balderas, M.A., University of Kansas*

- (PS12-A13) Examining Race/Ethnicity as a Moderator to the Relationship Between Depressive Symptoms and Counseling Service Use**  
*Daniel H. Saravia, Patricia Orozco, Isabel Lopez, B.A., Crystal L. Venegas, B.A., Jonathan Martinez, Ph.D., California State University, Northridge*
- (PS12-A14) Women's Sexual Satisfaction in the Context of Midlife Relationships: Examining an Ecological Model**  
*Kat Arenella, M.A., Ann Steffen, ABPP, Ph.D., University of Missouri, St. Louis*
- (PS12-A15) Antenatal Psychological Interventions for Depression and Anxiety in Latina and Black Women in the United States: A Systematic Review**  
*Carolyn Ponting, M.A., Nicole E. Mahrer, Ph.D., Hannah Zelcer, B.A., Chris Dunkel Schetter, Ph.D., Denise A. Chavira, Ph.D., University of California, Los Angeles*
- (PS12-A16) Twenty Years of Women's Representation at the Annual Meetings of the Association for Behavioral & Cognitive Therapies**  
*Emily S. Redler, Maria Rojas, Isabella K. Pallotto, B.S., Laura E. Sockol, Ph.D., Davidson College*
- (PS12-A17) Factors Predicting Premature Dropout from Psychotherapy in Postpartum Women**  
*Abby Bugbee, M.A., Randy Fingerhut, Ph.D., Gabrielle Massi, M.A., Molly Norman, M.A., La Salle University*
- (PS12-A18) Social Anxiety and Sexual Victimization: The Roles of Assertiveness, Gender, and Race**  
*Samantha Berg, Amie R. Newins, Ph.D., University of Central Florida*
- (PS12-A19) Perinatal Suicidality and Perceived Discrimination Among African American Women**  
*Samiram Saghafi, M.A., Randy Fingerhut, Ph.D., La Salle University*
- (PS12-A20) Anxiety and Depression in Women Using Opioids During Pregnancy**  
*Samantha K. Noose, B.A.<sup>1</sup>, Stephanie B. Kors, M.A.<sup>1</sup>, Andrea M. Gorronzona, B.A.<sup>1</sup>, Gretchen Kurdziel-Adams, M.A.<sup>1</sup>, Kimberly B. Fortner, M.D.<sup>2</sup>, Craig V. Towers, M.D.<sup>2</sup>, Jenny Macfie, Ph.D.<sup>1</sup>, 1. University of Tennessee, Knoxville, 2. University of Tennessee Medical Center*
- (PS12-A21) Exploring the Current State of Perinatal Mood and Anxiety Disorder Management Implementation**  
*Ajeng J. Puspitasari, Ph.D., Tayler J. Lamoureux, LICSW, Hannah Betcher, M.D., Emily Johnson, Other, Katherine Moore, M.D., Elise Weber, Mayo Clinic*

Poster Session 12B

PS12

Key Words: PTSD (Posttraumatic Stress Disorder), Trauma, Longitudinal

(PS12-B22) Factors Differentiating Maternal Posttraumatic Stress Trajectories

Following a Natural Disaster: Coping, Social Support, and Family Functioning

Jennifer Piscitello, M.A., Mary Lou Kelley, Ph.D., Louisiana State University

(PS12-B23) The STRONG STAR Training Initiative: Preliminary Client Outcomes by Population Type of a Community-based PTSD EBP Training Program

Robert Kaya, B.A.<sup>1</sup>, Wyatt R. Evans, Ph.D.<sup>2</sup>, Casey Straud, Psy.D.<sup>2</sup>, Jeremy Karp, B.A.<sup>2</sup>, Brooke Fina, LCSW, BCD<sup>1</sup>, Katherine Dondanville, PsyD, ABPP<sup>1</sup>, Arthur Marsden, B.S.<sup>1</sup>, Mariya Zaturenskaya, Ph.D.<sup>2</sup>, 1. UT Health San Antonio, 2. University of Texas Health Science Center at San Antonio

(PS12-B24) Intraindividual Dynamics of Shame and Arousal in Survivors of Sexual Assault: A Preliminary Examination

Esther S. Howe, B.A.<sup>1</sup>, Jonathan W. Reeves, M.A.<sup>2</sup>, Aaron Fisher, Ph.D.<sup>1</sup>, 1. University of California, Berkeley, 2. University of California at Berkeley

(PS12-B25) Anxious Adult Attachment with PTSD and Depression: Do Negative Attitudes About Using Social Support Play a Role?

Thomas S. Dodson, M.S., L. Taylor Cox, B.A., Rebecca Zakarian, B.A., Rimsha Majeed, B.S., Ulysses C. Savage, B.A., Bre'Anna Free, B.A., Alexandra J. Lipinski, M.S., J. Gayle Beck, Ph.D.<sup>1</sup>, University of Memphis

(PS12-B26) Differences in Non-overlapping Groups of Psychiatric Outpatients With MDD, PTSD, and Comorbid MDD/PTSD

Reina J. Kiefer, B.A.<sup>1</sup>, Justine S. Thompson, B.S.<sup>1</sup>, Mark Zimmerman, M.D.<sup>2</sup>, 1. Rhode Island Hospital & Brown University, 2. Rhode Island Hospital/Alpert Medical School of Brown University

(PS12-B27) Role Flexibility as an Independent Predictor of Complicated Grief

Tom Buqo, M.A., Kayla DeFazio, M.A., Anissa Johnson, Erin Ward-Ciesielski, Ph.D., Hofstra University

(PS12-B28) How the Interpersonal Theory of Suicide and State Shame Relate to Negative Reactions to Sexual Assault Disclosure and Psychological Distress

Lindsey Chesus, M.A., Christina Hassija, Ph.D., California State University, San Bernardino

(PS12-B29) Are Reductions in PTSD Symptoms Associated With Functional Improvement? Evaluation of an Exposure-based Group Trauma Treatment for Incarcerated Women

Lauren E. Hurd, M.A.<sup>1</sup>, Danielle E. Baker, M.A.<sup>1</sup>, Kaitlyn D. Chamberlain, B.A.<sup>1</sup>, Morgan A. Hill, M.A.<sup>2</sup>, Ana Bridges, Ph.D.<sup>3</sup>, 1. University of Arkansas, 2. University of Arkansas, Department of Psychological Science, 3. University of Arkansas, Fayetteville

- (PS12-B30) The Relationship Between Post-traumatic Stress Disorder, Family Support, Combat Experience, and Post-battle Experience**  
*Kiana M. PerezJimenez, B.A.<sup>1</sup>, Ashley Batts Allen, Ph.D.<sup>2</sup>, Brian T. Smith, Ph.D.<sup>2</sup>, 1. Western Carolina University, 2. University of North Carolina at Pembroke*
- (PS12-B31) The Relation Between Pain and Posttrauma Symptom Severity: Conditional Effects of Anxiety Sensitivity and Biological Sex**  
*Kenneth McClure, B.S., Shira M. Kern, M.A., Ryan M. Kozina, M.S., Adam J. Ripley, M.S., Layla M. Elmi, B.S., Joshua D. Clapp, Ph.D., University of Wyoming*
- (PS12-B32) Using Latent Semantic Analysis to Evaluate the Coherence of Trauma Narratives: Do Changes in Coherence Predict Expressive Writing Paradigm Outcomes?**  
*Gabriella C. Scalzo, B.S., M.S., Virginia Commonwealth University*
- (PS12-B33) The Role of Anxiety Sensitivity in the Relationship Between Gender and PTSD Symptoms**  
*Saankari A. Challa, M.A.<sup>1</sup>, Steven E. Bruce, Ph.D.<sup>2</sup>, 1. University of Missouri St. Louis, 2. University of Missouri-St. Louis*
- (PS12-B34) The Comparative Influence of Hope and Trait Resilience on Mental Health in the Aftermath of Hurricane Harvey**  
*Laura J. Long, M.A.<sup>1</sup>, Steven L. Bistricky, Ph.D.<sup>2</sup>, Colleen A. Phillips, B.A.<sup>1</sup>, Johann D'Souza, M.A.<sup>1</sup>, Angela L. Richardson, M.A.<sup>1</sup>, Betty S. Lai, Ph.D.<sup>3</sup>, Heather Kanenberg, Ph.D.<sup>2</sup>, Sara R. Elkins, Ph.D.<sup>2</sup>, Kristina Harper, Ph.D.<sup>2</sup>, Mary Short, Ph.D.<sup>2</sup>, 1. University of Houston, 2. University of Houston, Clear Lake, 3. Boston College*
- (PS12-B35) The Role of Acculturation in the Relation Between Intimate Partner Violence and Substance Misuse**  
*Miranda E. Reyes, M.A.<sup>1</sup>, Nicole H. Weiss, Ph.D.<sup>1</sup>, Suzanne C. Swan, Ph.D.<sup>2</sup>, Tami P. Sullivan, Ph.D.<sup>3</sup>, 1. University of Rhode Island, 2. University of South Carolina, 3. Yale University School of Medicine*
- (PS12-B36) Victim Services and Community Response to Mass Violence Incidents in the United States: A Systematic Literature Review**  
*Angela Moreland, Ph.D., Faraday Davies, M.S., Benjamin Saunders, Ph.D., Dean Kilpatrick, Ph.D., Medical University of South Carolina*
- (PS12-B37) Neo-five Factor Personality Traits as Predictors of Treatment Response to an Internet-based CBT Treatment For Adjustment Disorders**  
*Soledad Quero, Ph.D., Sonia Mor, M.S., Jorge Grimaldos, M.S., Cintia Tur, M.S., Iryna Rachyla, Ph.D., M. Carmen Ortiz, B.S., UJaumel*
- (PS12-B38) Developing a Preliminary Functional Model of Anger in Emotional Disorders Using Qualitative Data**  
*Clair Cassiello-Robbins, M.A.<sup>1</sup>, Dana Bruck-Segal, M.A.<sup>2</sup>, Leslie Brody, Ph.D.<sup>2</sup>, Shannon Sauer-Zavala, Ph.D.<sup>1</sup>, David Barlow, Ph.D.<sup>2</sup>, 1. Boston University Center for Anxiety and Related Disorders, 2. Boston University*
- (PS12-B39) Identifying Intervention Targets for Oppositional Defiant Disorder Symptoms in College Students**  
*Oliver G. Johnston, M.S., Jessica A. Barber, B.S., Olivia J. Derella, M.S., Jeffrey D. Burke, Ph.D., University of Connecticut*

**(PS12-B40) An Aggressive Reaction to Sound: The Interactive Effects of Anxiety Sensitivity and Misophonia on Facets of Aggression**

Mary J. Schadeegg, M.A., Sara Witcraft, M.A., Megan M. Perry, B.A., Gina Q. Boullion, M.S., Laura J. Dixon, Ph.D., University of Mississippi

**(PS12-B41) The Moderating Effect of Anger on the Long-term Effect of Depression on Social Support**

Diana Cox, B.S., Laura H. Taouk, B.S., Kathleen Gunthert, Ph.D., American University

**(PS12-B42) The Effect of Childhood Victimization and Anger on Suicidal Behavior Among a Predominantly Hispanic Sample of Emerging Adults**

Claire F. Hsieh, B.S., Oscar Trujillo, B.S., Jorge I. Cantu, M.A., Ruby Charak, Ph.D., The University of Texas Rio Grande Valley

**International Ballroom, International Level**

**Poster Session 12C**

**PS12**

Key Words: *Professional Issues, School, Community-Based*

**(PS12-C43) Factors Related to Professional Burnout in a Sample of School-based Mental Health Providers**

Wendy Chu, B.A.<sup>1</sup>, Karen Guan, Ph.D.<sup>1</sup>, Kimberly D. Becker, Ph.D.<sup>2</sup>, Bruce F. Chorpita, Ph.D.<sup>1</sup>, 1. University of California, Los Angeles, 2. University of South Carolina

**(PS12-C44) Local Aggregate Data: Identifying Patterns of Youth Treatment Progress as a Function of Practice Element Endorsement in Children's Public Mental Health**

Puanani J. Hee, Ph.D.<sup>1</sup>, Tristan J. Maesaka, B.A.<sup>2</sup>, Trina Orimoto, Ph.D.<sup>3</sup>, David S. Jackson, Ph.D.<sup>4</sup>, Charles Mueller, Ph.D.<sup>2</sup>, 1. State of Hawai'i, Department of Health, Child & Adolescent Mental Health Division, 2. University of Hawai'i at Manoa, 3. Child and Adolescent Mental Health Division, Department of Health Hawaii, 4. State of Hawai'i Child and Adolescent Mental Health Division

**(PS12-C45) Neurocognitive Predictors of Treatment Response in Adult Obsessive-compulsive Disorder**

Julianna Capobianco, B.A.<sup>1</sup>, Eric A. Storch, Ph.D.<sup>2</sup>, Adam Lewin, Ph.D.<sup>3</sup>, 1. USF Rothman Center for Pediatric Neuropsychiatry, 2. Baylor College of Medicine, 3. University of South Florida

**(PS12-C46) The Relationship Between Patient Symptom Severity and Quality of Life, Depressive Symptomology, and Worry in a Naturalistic Sample**

Hannah Smilansky, B.S.<sup>1</sup>, Clare Beatty, B.A.<sup>2</sup>, Susanne Hoepfner, Ph.D.<sup>2</sup>, Aisha Usmani, Ph.D.<sup>2</sup>, Sabine Wilhelm, Ph.D.<sup>2</sup>, 1. Massachusetts General Hospital, 2. Massachusetts General Hospital/Harvard Medical School

**(PS12-C47) The Impact of Cognitive Bias Modification on Primary Obsession Belief**

Jorge Arciniegas, B.A., Lauren Hahn, B.A., Camren Bento, Stephan Siwiec, M.S., Han Joo Lee, Ph.D., University of Wisconsin, Milwaukee

- (PS12-C48) Anxiogenic Parenting Behaviors in Obsessive-compulsive and Generalized Anxiety Symptoms**  
*Emily P. Wilton, B.A., Christopher A. Flessner, Ph.D., Theresa R. Gladstone, B.A., Anna K. Luke, M.A., Kent State University*
- (PS12-C49) Cognitive Bias Modification for Interpretation Bias in an Intensive/residential Treatment Program for Obsessive Compulsive Related Disorders (OCDs)**  
*Martha J. Falkenstein, Ph.D.<sup>1</sup>, Sriramya Pothuri, B.A.<sup>1</sup>, Kara Kelley, B.A.<sup>2</sup>, Alexandra Hernandez-Vallant, B.S.<sup>3</sup>, Jason Krompinger, Ph.D.<sup>4</sup>, Christian A. Webb, Ph.D.<sup>5</sup>, Courtney Beard, Ph.D.<sup>1</sup>, 1. McLean Hospital/Harvard Medical School, 2. McLean Hospital, 3. University of New Mexico, 4. McLean Hospital OCD Institute/Harvard Medical School, 5. Harvard Medical School/McLean Hospital*
- (PS12-C50) Evaluating the Role of the Approach Avoidance Training on Action Tendencies in Individuals With Skin Picking Disorder**  
*Abel S. Mathew, M.S., Han Joo Lee, Ph.D., University of Wisconsin, Milwaukee*
- (PS12-C51) Prediction of Urges to Skin Pick Using Gaze Approach Indices**  
*Abel S. Mathew, M.S., Han Joo Lee, Ph.D., University of Wisconsin, Milwaukee*
- (PS12-C52) Evaluating the Utility of the Social Concerns Scale for Body Focused Repetitive Behaviors**  
*Abel S. Mathew, M.S., Ashleigh Harvey, M.S., Taylor Davine, M.S., Han Joo Lee, Ph.D., University of Wisconsin, Milwaukee*
- (PS12-C53) The Relationship Between Self-disclosure and Interpersonal Functioning in Individuals with Trichotillomania**  
*Meghan k. Flannery, B.A.<sup>1</sup>, Martha J. Falkenstein, Ph.D.<sup>2</sup>, David Haaga, Ph.D.<sup>1</sup>, 1. American University, 2. McLean Hospital/Harvard Medical School*
- (PS12-C54) Distress Tolerance as a Transdiagnostic Factor Among Body-focused Repetitive Behaviors**  
*Alex D. Martin, B.S., Jesse R. Cougle, Ph.D., Florida State University*
- (PS12-C55) Excessive Guilt and Guilt Sensitivity Differentially Augment the Cognitive-behavioral Model of Obsessive-compulsive Symptoms Across Symptom Dimensions**  
*Neil Patel, Samantha N. Hellberg, B.A., Megan Lanier, Callie Hucks, Caleigh Koppelman, Chris Lung, Jennifer Buchholz, M.A., Jonathan S. Abramowitz, Ph.D., University of North Carolina at Chapel Hill*
- (PS12-C56) Examining the Mediating Roles of Guilt and Cognitive Fusion in the Link Between Obsessive-compulsive Symptom Dimensions and Depressive Symptoms**  
*Sydney Ehinger, Samantha N. Hellberg, B.A., Emma DeMartino, Olivia Griffith, Jennifer Buchholz, M.A., Jonathan S. Abramowitz, Ph.D., University of North Carolina at Chapel Hill*
- (PS12-C57) Differences in Thought-action Fusion Between the Political Left and Right**  
*Kelsey J. Evey, B.S.<sup>1</sup>, Joshua C. Magee, Ph.D.<sup>2</sup>, Shari Steinman, Ph.D.<sup>1</sup>, Robert E. Fite, M.A.<sup>2</sup>, James Gonzales, M.S.<sup>2</sup>, 1. West Virginia University, 2. Miami University*

- (PS12-C58) Does Habituation Make a Difference? Examining Exposure Performance Indices in Individuals with OCD**  
*Abigail Szkutak, Noah C. Berman, Ph.D.<sup>1</sup>, Sabine Wilhelm, Ph.D.<sup>2</sup>, 1. College of the Holy Cross, 2. Harvard Medical School/Massachusetts General Hospital*
- (PS12-C59) Cognitive Functioning in Trichotillomania Across the Lifespan**  
*Theresa R. Gladstone, B.A.<sup>1</sup>, Emily P. Wilton, B.A.<sup>1</sup>, Anna K. Luke, M.A.<sup>1</sup>, Christopher A. Flessner, Ph.D.<sup>1</sup>, Jon E. Grant, M.D.<sup>2</sup>, 1. Kent State University, 2. University of Chicago*
- (PS12-C60) The Role of Disgust Sensitivity and Propensity in Political Obsessions**  
*Laurny Garner, B.A.<sup>1</sup>, Dean McKay, Ph.D.<sup>1</sup>, Lindsay Hoyt, Ph.D.<sup>1</sup>, Carolyn Pepper, Ph.D.<sup>2</sup>, Jacob Shane, Ph.D.<sup>3</sup>, Katharine Hunsdon Zeiders, Ph.D.<sup>4</sup>, Eric A. Storch, Ph.D.<sup>5</sup>, 1. Fordham University, 2. University of Wyoming, 3. Brooklyn College, 4. University of Arizona, 5. Baylor College of Medicine*
- (PS12-C61) Exploring Potential Mediators Between Racial/Ethnic Identity and Obsessive-compulsive Contamination Concerns**  
*Johanna A. Younce, B.A., Sarah R. Lee, M.A., Kevin D. Wu, Ph.D., Northern Illinois University*
- (PS12-C62) Exploring Change in Functioning and Quality of Life After Exposure and Response Prevention for Obsessive Compulsive Disorder: Comparison of Randomized Control Trial and Naturalistic Treatment Outcomes**  
*Gina Belli, B.A., Shari Lieblch, B.S., Jeremy Tyler, Psy.D., Yinyin Zang, Ph.D., Edna Foa, Ph.D., University of Pennsylvania*
- (PS12-C63) Psychometric Examination of Multiple Obsessive-Compulsive Measures Across Racial Groups**  
*Samuel R. Cares, MSW, Katie H. Mangen, B.S., Kevin D. Wu, Ph.D., Northern Illinois University*
- (PS12-C64) Conscientiousness and Behavioral Approach Task Performance: Differences Across High and Low Levels of Contamination Concerns**  
*Katie H. Mangen, B.S., Samuel R. Cares, MSW, Sara Conley, M.A., Kevin D. Wu, Ph.D., Northern Illinois University*
- (PS12-C65) Clinical Divergence in Body Dysmorphic Disorder and Muscle Dysmorphia: Illuminating Key Differences in Severity and Symptomology**  
*William R. Grunewald, B.S.<sup>1</sup>, Aaron J. Blashill, Ph.D.<sup>1</sup>, Angela Fang, Ph.D.<sup>2</sup>, Eliza J. Davidson, B.S.<sup>3</sup>, Sabine Wilhelm, Ph.D.<sup>4</sup>, 1. San Diego State University, 2. Massachusetts General Hospital/Harvard Medical School, 3. San Diego State University/ UC San Diego Joint Doctoral Program in Clinical Psychology, 4. Harvard Medical School/Massachusetts General Hospital*
- (PS12-C66) Development and Validation of a Repetitive Negative Thinking Response Scale for the Treatment of Obsessive-compulsive Disorder**  
*Kara Kelley, B.A.<sup>1</sup>, Jacob Nota, Ph.D.<sup>2</sup>, Nathaniel Van Kirk, Ph.D.<sup>2</sup>, Martha J. Falkenstein, Ph.D.<sup>2</sup>, Sriramya Potluri, B.A.<sup>2</sup>, Jason Krompinger, Ph.D.<sup>3</sup>, 1. McLean Hospital, 2. McLean Hospital/Harvard Medical School, 3. McLean Hospital OCD Institute/Harvard Medical School*

**(PS12-C67) The Role of Social Support in Maintaining Treatment Gains for Obsessive-compulsive Disorder**

Kara Kelley, B.A.<sup>1</sup>, Sriramya Potluri, B.A.<sup>2</sup>, Martha J. Falkenstein, Ph.D.<sup>2</sup>, Jason Krompinger, Ph.D.<sup>3</sup>, 1. McLean Hospital, 2. McLean Hospital/Harvard Medical School, 3. McLean Hospital OCD Institute/Harvard Medical School

**(PS12-C68) Short- and Long-term Treatment Gains Following IRT for Severe Ocrds: Role of Symptom Subtypes**

Sriramya Potluri, B.A.<sup>1</sup>, Nathaniel Van Kirk, Ph.D.<sup>1</sup>, Kara Kelley, B.A.<sup>2</sup>, Martha J. Falkenstein, Ph.D.<sup>1</sup>, Jacob Nota, Ph.D.<sup>1</sup>, Elias Jason, Ph.D.<sup>1</sup>, Jason Krompinger, Ph.D.<sup>3</sup>, 1. McLean Hospital/Harvard Medical School, 2. McLean Hospital, 3. McLean Hospital OCD Institute/Harvard Medical School

**(PS12-C69) Social Perceptions of Black Versus White Women With Trichotillomania**

Jennifer R. Alexander, M.S., Simon Howard, Ph.D., Kalen Kennedy, B.S., Douglas Woods, Ph.D., Marquette University

**International Ballroom, International Level**

**Poster Session 12D**

**PS12**

Key Words: *Community-Based, Comorbidity, Implementation*

**(PS12-D70) Diagnoses Across Multiple Problem Areas Predicts Increased Treatment Focus Diffusion in Child Mental Health Care**

Kalyn L. Holmes, B.S.<sup>1</sup>, Daniel Wilkie, M.A.<sup>1</sup>, David S. Jackson, Ph.D.<sup>2</sup>, Leeyannah Armaine Santos, <sup>1</sup>, Charles Mueller, Ph.D.<sup>1</sup>, 1. University of Hawai'i at Manoa, 2. State of Hawai'i Child and Adolescent Mental Health Division

**(PS12-D71) The Role of Impulsivity in Binge Eating and High-fat Food Intake in Young Adults**

Tamara Escrivá-Martínez, Ph.D.<sup>1</sup>, Marta Rodríguez-Arias, M.S.<sup>2</sup>, Rosa M. Baños, Ph.D.<sup>3</sup>, 1. Faculty of Psychology, University of Valencia, 2. Faculty of Psychology, Universitat de València, 3. Department of Personality, Evaluation and Psychological Treatment, University of Valencia; Ciber Physiopathology of Obesity and Nutrition (Ciberobn), Instituto Carlos III, Madrid, Spain; Polibienestar Institute, University of Valencia, Valencia, España.

**(PS12-D72) Validation of a Cognitive-behavioral Case Formulation: Implications for Treatment**

Casey Thornton, M.A., Sarah J. David, M.A., Kaley A. Roberts, B.A., Gregory H. Mumma, Ph.D., Texas Tech University

**(PS12-D73) Prevalence and Correlates of Concussion in the Adolescent Brain Cognitive Development Study**

Steven Dufour, B.A.<sup>1</sup>, Rachel S. Adams, M.P.H., Ph.D.<sup>2</sup>, Antonio N. Puente, Ph.D.<sup>3</sup>, Mikela Murphy, B.A.<sup>1</sup>, Joshua C. Gray, Ph.D.<sup>1</sup>, 1. Uniformed Services University of the Health Sciences, 2. Brandeis University, 3. George Washington University School of Medicine and Health Sciences

**(PS12-D74) Examining Non-PTSD Anxiety Symptom Outcomes for DBT Outpatients in a Private Practice**

Sandra M. Chen, B.A.<sup>1</sup>, Robert M. Montgomery, <sup>2</sup>, Marget Thomas, Psy.D.<sup>3</sup>, Kate A. Cohen, B.A.<sup>1</sup>, Max Stivers, B.A.<sup>1</sup>, Aly DiRocco, M.A.<sup>4</sup>, Hollie G. Granato, Ph.D.<sup>3</sup>, Lindsey Thornburg, B.A.<sup>3</sup>, Lynn M. McFarr, Ph.D.<sup>3</sup>, 1. Pepperdine University Graduate School of Education and Psychology, 2. CSU Northridge, 3. CBT California, 4. California School of Professional Psychology, Los Angeles

**(PS12-D75) Mindfulness Practice and Stress Following Mindfulness-based Stress Reduction: Examining Within-person and Between-person Associations With Latent Curve Modeling**

Andrew S. McClintock, Ph.D., University of Wisconsin, Madison

**(PS12-D76) Nonjudging and Nonreactivity Facets of Mindfulness Mediate Treatment Outcomes in DBT**

Robert M. Montgomery, <sup>1</sup>, Hollie G. Granato, Ph.D.<sup>2</sup>, Aly DiRocco, M.A.<sup>3</sup>, Marget Thomas, Psy.D.<sup>2</sup>, Max Stivers, B.A.<sup>4</sup>, Kate A. Cohen, B.A.<sup>4</sup>, Sandra M. Chen, B.A.<sup>4</sup>, Lindsey Thornburg, B.A.<sup>2</sup>, Lucy Wall, <sup>2</sup>, Lynn M. McFarr, Ph.D.<sup>2</sup>, 1. CSU Northridge, 2. CBT California, 3. California School of Professional Psychology, Los Angeles, 4. Pepperdine University Graduate School of Education and Psychology

**(PS12-D77) Mechanisms of Change in ACT: Clarifying Specific Dimensions of Psychological Flexibility Linked to ACT Treatment Effects With the Mindflex Assessment System**

Jenna A. Macri, Ronald D. Rogge, Ph.D., Brooke A. Dubler, Ph.D., Jaci Rolffs, M.A., University of Rochester

**(PS12-D78) A Randomized Controlled Trial of Mindfulness-based Stress Reduction Versus Acceptance and Commitment Therapy Bibliotherapy For College Student Mental Health**

Carter H. Davis, B.A., Woolee An, M.S., Michael Twohig, Ph.D., Michael E. Levin, Ph.D., Utah State University

**(PS12-D79) Acceptance and Commitment Therapy as a Trans-diagnostic Approach to Treatment for Psychological Distress: A Concurrent Multiple Baseline Design Across Participants**

Samuel D. Spencer, M.A., Akihiko Masuda, Ph.D., University of Hawai'i at Manoa

**(PS12-D80) Effects of Mindfulness-based Stress Reduction on Affect Dynamics in Daily Life**

Shian-Ling Keng, Ph.D.<sup>1</sup>, Elysia Li Yan Tan, M.A.<sup>2</sup>, Eddie Mun Wai Tong, Ph.D.<sup>3</sup>, Richard Ebstein, Ph.D.<sup>3</sup>, 1. Yale-NUS College, 2. Ministry of Social and Family Development, 3. National University of Singapore

**(PS12-D81) The Unified Model of Mindful Flexibility: A Multistage Process Model For Understanding Change in Treatment That Bridges the Mindfulness and ACT Literatures**

Ronald D. Rogge, Ph.D., Jennifer S. Daks, M.A., University of Rochester

**(PS12-D82) Does Between-session Mindfulness Practice Predict Smoking Cessation and Psychosocial Outcomes?**

Cherell Cottrell-Daniels, M.P.H., Claire Adams Spears, Ph.D., Georgia State University

**(PS12-D84) Mindfulness and Regulatory Choice Flexibility**

*Anthony Reffi, M.A., Benjamin Laman-Maharg, B.A., Holly Orcutt, Ph.D., Northern Illinois University*

**(PS12-D85) Mindfulness and Its Role in Understanding the Relation of Child Maltreatment and Intimate Partner Violence to Depressive and Posttraumatic Stress Symptoms**

*Chelsea Pearsall, M.S., Michele Cascardi, Ph.D., Megan Chesin, Ph.D., Victoria Navarro, B.A., William Paterson University*

**(PS12-D86) Demographic Predictors of Receptivity to a Brief Mindfulness-based Workshop for Fostering Purpose and Perspective-taking, Immediately Post-workshop and at One-month Follow-up**

*Keryn Kleiman, B.A., Jennifer Block-Lerner, Ph.D., Donald Marks, Psy.D., Chana Kaufman, B.A., Cristin Pontillo, M.A., Kean University*

**(PS12-D87) The Association of Dose, and Prior Meditation Experience, With Depressive Symptom Change Among Participants in an 8-week Mindfulness-based Intervention**

*Victoria Wee, B.A., Elizabeth M. Waldron, M.S., Lynette Lartey, M.P.H., Inger Burnett-Zeigler, Ph.D., Northwestern University Feinberg School of Medicine*

**(PS12-D88) Resting Heart Rate Variability and Mindfulness**

*Justin R. Leiter-McBeth, B.S., Kelsey Pritchard, M.A., Kelsey Fairchild, B.S., Hannah C. Herc, M.S., Peter Mezo, Ph.D., University of Toledo*

**(PS12-D89) Which to Choose? Comparing Two Self-report Measures of Mindful Eating**

*Jennifer Battles, M.S., Stephanie Lin, B.A., Jennifer DeMent, Tamara Loverich, Ph.D., Eastern Michigan University*

**(PS12-D90) A Transdiagnostic Prevention Program For At-risk College Students: Preliminary Effects on Subsyndromal Psychotic Symptoms, Social Functioning and Resilience Factors**

*Wisteria Deng, B.A.<sup>1</sup>, Anne Burke, Ph.D.<sup>1</sup>, Benjamin Shapero, Ph.D.<sup>2</sup>, Logan Leathem, B.S., B.A.<sup>3</sup>, Maren Nyer, Ph.D.<sup>1</sup>, Andrea Pelletier-Baldelli, Ph.D.<sup>4</sup>, Leah Namey, M.P.H.<sup>1</sup>, Carrie Landa, Ph.D.<sup>5</sup>, Corinne Cather, Ph.D.<sup>1</sup>, Daphne Holt, M.D., Ph.D.<sup>1</sup>, 1. Massachusetts General Hospital, 2. National Institute of Mental Health, 3. University of California, Los Angeles, 4. University of North Carolina at Chapel Hill, 5. Boston University*

**(PS12-D91) A Multidimensional Factor Structure Best Explains the Hexaflex Model**

*Amanda B. Chamberlain, B.A., Bryant M. Stone, B.S., Bruce E. Clark, B.A., Chad E. Drake, Ph.D., Southern Illinois University*

**(PS12-D92) Putting Oneself in the Body of Others: A Pilot Study on the Efficacy of an Embodied Virtual Reality System to Generate Self-compassion**

*Ausiàs Cebolla, Ph.D.<sup>1</sup>, Rocio Herrero, Ph.D.<sup>2</sup>, Marta Miragall, Ph.D.<sup>3</sup>, Sara Ventura, M.A.<sup>4</sup>, Miguel Bellosta, Ph.D.<sup>5</sup>, Roberto Llorens, Ph.D.<sup>6</sup>, Rosa M. Baños, Ph.D.<sup>7</sup>, 1. University of Valencia and Ciberobn, 2. Jaume I University; Ciber Fisiopatología Obesidad y Nutrición (Ciberobn), Instituto Carlos III, Spain.; Polibienestar Institute, Valencia, Spain, 3. University of Valencia, Ciberobn and Polibienestar, 4. University of Valencia; Polibienestar Institute, Valencia, Spain, 5. University of Valencia, 6. Universitat Politècnica de València and Neurorh, 7. Department of Personality, Evaluation and Psychological Treatment, University of Valencia; Ciber Physiopathology of Obesity and Nutrition (Ciberobn), Instituto Carlos III, Madrid, Spain; Polibienestar Institute, University of Valencia, Valencia, España.*

**(PS12-D93) Values-enhanced Exposure Therapy for the Treatment of Social Anxiety in Emerging Adulthood**

*Rebecca L. Schneider, M.A.<sup>1</sup>, Joanna J. Arch, Ph.D.<sup>2</sup>, 1. Stanford Children's Hospital / Children's Health Council, 2. University of Colorado, Boulder*

# Sunday Poster Sessions

9:30 a.m. – 10:30 a.m.

## International Ballroom, International Level

### Poster Session 13A

### PS13

Key Words: *Families, Anxiety, Depression*

**(PS13-A1) Family Belonging and Internalizing Symptoms Among Youth Involved With the Juvenile Justice System**

*Katie J. Stone, M.A.<sup>1</sup>, Paula J. Fite, Ph.D.<sup>2</sup>, Jonathan Poquiz, M.A.<sup>1</sup>, Casey A. Pederson, M.A.<sup>1</sup>, 1. Clinical Child Psychology Program, University of Kansas, 2. University of Kansas*

**(PS13-A2) Comparing Police Officers' Endorsement of Rape Myth Attitudes and Beliefs About Police Response to Sexual Assault**

*Jessica Duncan, M.A., Emma Lathan, M.S., Kathryn McGill, M.A., Jennifer Langhinrichsen-Rohling, Ph.D., Tres Stefurak, Ph.D., University of South Alabama*

**(PS13-A3) Affiliate Stigma and Empowerment Among Family Members of Individuals with Chronic Psychiatric Conditions**

*Sharon M. Sowell, M.S., Tammy D. Barry, Ph.D., Aurora H. Brinkman, B.A., Gabriela A. Plascencia, Washington State University*

**(PS13-A4) The Mindful Family: A Qualitative Investigation of the Benefits and Challenges of Family Mindfulness Practices**

*Barry M. Wagner, Ph.D., Marcie Goeke-Morey, Ph.D., Bridget Lynn, B.A., Andrew Connors, M.A., The Catholic University of America*

**(PS13-A5) Maternal Warmth and Synchrony of Facial Displays of Affect During Mother-child Interactions**

*Claire Foster, M.S.<sup>1</sup>, Kiera M. James, M.S.<sup>1</sup>, Anastacia Kudinova, Ph.D.<sup>2</sup>, Mary L. Woody, Ph.D.<sup>3</sup>, Cope Feuer, M.A.<sup>1</sup>, Brandon Gibb, Ph.D.<sup>1</sup>, 1. Binghamton University, 2. Alpert Medical School of Brown University, 3. University of Pittsburgh*

**(PS13-A6) Optimism in Middle Childhood: Links with Security in P-C Relationships and Parenting Strategies**

*Christina M. Kiernan, M.A., Laura E. Brumariu, Ph.D., Adelphi University*

**(PS13-A7) Associations Among Maternal Perceptions of Children's Interpretation**

**Bias and Anxious Parenting Behaviors**

Megan Baumgardner, M.A.<sup>1</sup>, Kristy Benoit Allen, Ph.D.<sup>1</sup>, Thomas Ollendick, Ph.D.<sup>2</sup>, 1. The University of Tennessee, Knoxville, 2. Virginia Polytechnic Institute and State University

**(PS13-A8) Testing Measurement Invariance in the Alabama Parenting Questionnaire: Implications for Culturally Inclusive Parenting Research**

Anne Shaffer, Ph.D.<sup>1</sup>, Violeta Rodriguez, M.S.<sup>1</sup>, Oliver Lindhiem, Ph.D.<sup>2</sup>, 1. University of Georgia, 2. University of Pittsburgh School of Medicine

**(PS13-A9) Parent-child Interaction Therapy Enhanced With Emotion Regulation Training for Dysregulated Parents**

Stephanie Rohrig, Ph.D.<sup>1</sup>, Caroline Mazzer, M.A.<sup>2</sup>, Erin McLean, M.A.<sup>2</sup>, Lauren Webb, M.A.<sup>2</sup>, Hannah Walcoe, M.A.<sup>2</sup>, Jennifer Lent, M.A.<sup>2</sup>, Katie Fogarty, M.A.<sup>2</sup>, Phyllis S. Ohr, Ph.D.<sup>2</sup>, 1. Weill Cornell Medical College, 2. Hofstra University

**(PS13-A10) Examining the Non-linear Relationship Between Parental Age and Child Psychopathology**

Paige N. Picou, B.A., Peter Castagna, M.A., Paige Adenuga, B.S., Kimberly Ellison, M.S., Thompson Davis III, Ph.D., Louisiana State University

**(PS13-A11) Primary Prevention in the College Classroom: Changes in College Students' Opinions on Parenting**

Carey B. Dowling, Ph.D., University of Mississippi

**(PS13-A12) The Impact of Custodial Grandparenting on Emerging Adult Children in Behavioral Problems and Well-being**

Ellen H. Steele, M.A.<sup>1</sup>, Eunbea Kim, Erica Szkody, M.S., Cliff McKinney, Ph.D., Mississippi State University

**(PS13-A13) Moral Vitalism as a Mediator of the Relationship Between Religiosity and Moral Thought-action Fusion**

Robert E. Fite, M.A.<sup>1</sup>, Lauren N. Forrest, M.A.<sup>1</sup>, Gregory Berlin, M.S.<sup>2</sup>, James Gonzales, M.S.<sup>1</sup>, Joshua C. Magee, Ph.D.<sup>1</sup>, 1. Miami University, 2. University of Wisconsin, Milwaukee

**(PS13-A14) Extrinsic Religiosity Moderates the Relationship Between Diagnosis and Mental Illness Stigma**

Annalee Johnson-kwochka, M.S.<sup>1</sup>, Laura Stull, Ph.D.<sup>2</sup>, Kyle Minor, Ph.D.<sup>1</sup>, Leslie Ashburn-Nardo, Ph.D.<sup>1</sup>, Michelle Salyers, Ph.D.<sup>1</sup>, 1. Indiana University-Purdue University Indianapolis, 2. Anderson University

Poster Session 13B

PS13

Key Words: *Fear, Experiential Avoidance*

(PS13-B15) **Psychological Flexibility as a Moderator of the Negative Impact of Fears on Quality of Life**  
*Danae Papageorgiou, B.S., M.S., Maria Karekla, Ph.D., Maria Orphanidou, B.S., M.S., University of Cyprus*

(PS13-B16) **Measuring the Effectiveness of a CBM-I Online Intervention for Social Anxiety in Daily Life**  
*Katharine E. Daniel, B.A., Alexander Daros, Ph.D., Miranda L. Beltzer, M.A., Mehdi O. Boukhechba, Ph.D., Laura Barnes, PhD, Bethany A. Teachman, PhD, University of Virginia*

(PS13-B17) **Neural Indices of Attention: The Effect of Viewing Style and Image Type**  
*Kaitlyn M. Nagel, B.A., Danielle Taylor, M.S., Jacob D. Kraft, B.A., Evan J. White, M.S., Danielle E. Deros, B.S., Kristen E. Frosio, M.S., DeMond M. Grant, Ph.D., Oklahoma State University*

(PS13-B18) **Domain-specific Self-compassion in the Realm of Social Anxiety**  
*Leah Brassard, B.A., Nancy Kocovski, Ph.D., Wilfrid Laurier University*

(PS13-B19) **An Examination of the Trajectory of Health-related Worries from Pregnancy to Postpartum: Is There a Connection?**  
*Kristi D. Wright, Ph.D., Andreea Tamaian, M.A., Sarah J. Reiser, M.A., Hilary A. Power, B.S., Bridget Klest, Ph.D., University of Regina*

(PS13-B20) **Trial-level Bias Scores Improve Reliability of the Facial Dot Probe Task Among People With Social Anxiety Disorder**  
*Anthony Molloy, M.A., Page L. Anderson, Ph.D., Georgia State University*

(PS13-B21) **Daily Emotion-regulation Profiles of Trait Distress Tolerance**  
*Christopher Conway, Ph.D.<sup>1</sup>, Maria Larrazabal, M.S.<sup>1</sup>, Kristin Naragon-Gainey, Ph.D.<sup>2</sup>, 1. College of William & Mary, 2. University at Buffalo, The State University of New York*

(PS13-B22) **Effect of Intranasal Oxytocin on Modulating Attentional Bias in Body Dysmorphic Disorder**  
*Clare Beatty, B.A.<sup>1</sup>, Susanne Hoeppepner, Ph.D.<sup>1</sup>, Hannah Smilansky, B.S.<sup>2</sup>, Elizabeth Austen Lawson, M.D.<sup>2</sup>, Sabine Wilhelm, Ph.D.<sup>3</sup>, Angela Fang, Ph.D.<sup>1</sup>, 1. Massachusetts General Hospital/Harvard Medical School, 2. Massachusetts General Hospital, 3. Harvard Medical School/ Massachusetts General Hospital*

(PS13-B23) **Behavioral Correlates of Maladaptive Self-focused Processing in Individuals with Body Dysmorphic Disorder and Social Anxiety Disorder**  
*Clare Beatty, B.A., Sabine Wilhelm, Ph.D., Dara S. Manoach, Ph.D., Angela Fang, Ph.D., Massachusetts General Hospital/Harvard Medical School*

- (PS13-B24) Self-compassion and Its Impact on Positive Thinking in Individuals With Elevated Social Anxiety**  
*Lindsey E. Feltis, B.A., Leah Parent, B.A., Rebecca Blackie, Ph.D., Nancy Kocovski, Ph.D., Wilfrid Laurier University*
- (PS13-B25) The Association Between Suicide Ideation and Interpersonal Trauma Exposure Among Anxious Patients**  
*Kevin Narine, B.A., Lily Brown, Ph.D., University of Pennsylvania*
- (PS13-B26) Social Anxiety and Loneliness: The Indirect Effect of Emotion Regulation Difficulties**  
*Gina Q. Boullion, M.S., Megan M. Perry, B.A., Sara Witcraft, MA, Mary J. Schadegg, M.A., Laura J. Dixon, Ph.D., University of Mississippi*
- (PS13-B27) Associations Between Pupillary Response Patterns to Emotional Faces of Varied Intensity and Self-reported Social Anxiety**  
*Mary Fernandes, B.S.<sup>1</sup>, Erin Tone, Ph.D.<sup>1</sup>, Greg J. Siegle, Ph.D.<sup>2</sup>, 1. Georgia State University, 2. University of Pittsburgh, School of Medicine*
- (PS13-B28) Social Interaction Anxiety Mediates the Relationship Between Individuals With Generalized Anxiety Disorder and Ratings of Comfort During a Discussion of Emotional Events**  
*Amy L. Capparelli, M.A., Alex H. Buhk, M.A., Pallavi Babu, B.A., Jason C. Levine, Ph.D., University of Toledo*
- (PS13-B29) Mental Threat Rehearsal Increases Fear Generalization**  
*Eva Van Dis, M.S., Muriel A. Hagnaars, Ph.D., Iris M. Engelhard, Ph.D., Utrecht University*
- (PS13-B30) A Network Approach to Negative Metacognitions and Beliefs of Uncontrollability in Relation to Quality of Life, Insomnia, and Depressive Symptoms in a Mixed GAD Sample**  
*Megan A. Pinaire, B.S.<sup>1</sup>, Abigail L. Barthel, M.A.<sup>2</sup>, Joshua Curtiss, M.A.<sup>2</sup>, T.H. Eric Bui, M.D., Ph.D.<sup>3</sup>, Naomi M. Simon, M.D.<sup>4</sup>, Stefan G. Hofmann, Ph.D.<sup>2</sup>, 1. Boston University, 2. Boston University Center for Anxiety and Related Disorders, 3. Massachusetts General Hospital, 4. Anxiety and Complicated Grief Program, NYU Langone*
- (PS13-B31) Examining the Mediating and Moderating Roles of Distress Tolerance in the Relationship Between Anxiety, Depression, and Cognitive-behavioral Coping Styles**  
*Megan Butcher, Samantha N. Hellberg, B.A., Lia Follet, Heidi Ojalehto, B.S., Jennifer Buchholz, M.A., Jonathan S. Abramowitz, Ph.D., University of North Carolina at Chapel Hill*
- (PS13-B32) Attentional Distractors as Contributors to Blunted Error-related Negativity Response in Social Anxiety Disorder**  
*Danielle E. Deros, B.S., Kaitlyn M. Nagel, B.A., Kristen E. Frosio, M.S., Danielle Taylor, M.S., Jacob D. Kraft, B.A., Evan J. White, M.S., DeMond M. Grant, Ph.D., Oklahoma State University*
- (PS13-B33) Applying Mindset Theory to Phobic Fears of Four Different Stimuli**  
*Anna E. Snyder, B.A., David P. Valentiner, Ph.D., Northern Illinois University*

- (PS13-B34) Baseline State Worry Levels Predict Decreased Hpa-axis Sensitivity During Acute Stress**  
*Kristen E. Frosio, M.S., Jacob D. Kraft, B.A., Danielle Taylor, M.S., Danielle E. Deros, B.S., Kaitlyn M. Nagel, B.A., Evan J. White, M.S., DeMond M. Grant, Ph.D., Oklahoma State University*
- (PS13-B35) Does a Manipulation of Shyness Mindset Lead to Lower Levels of Post-event Processing?**  
*Sebastian Szollos, B.A., David P. Valentiner, Ph.D., Northern Illinois University*
- (PS13-B36) A Survival Analysis of Reliable Change and Remission in CBT for Anxiety Disorders**  
*Liya T. Mammo, B.A.<sup>1</sup>, Carolyn Davies, Ph.D.<sup>1</sup>, Hannah Levy, Ph.D.<sup>2</sup>, Kimberly Stevens, Ph.D.<sup>1</sup>, Blaise Worden, Ph.D.<sup>1</sup>, Gretchen Diefenbach, Ph.D.<sup>3</sup>, Benjamin W. Katz, B.A.<sup>4</sup>, David Tolin, Ph.D.<sup>3</sup>, 1. Anxiety Disorders Center, The Institute of Living, 2. Hartford Hospital, 3. Institute of Living, 4. University of New England*
- (PS13-B37) Shock Level Tolerance in Relation to Panic Disorder Diagnosis and Gender**  
*Caroline Gabriel, B.A.<sup>1</sup>, Samantha Philip, B.S.<sup>1</sup>, Elizabeth Hoge, M.D.<sup>1</sup>, Isabelle Oliva, B.A.<sup>1</sup>, Christian Grillon, Ph.D.<sup>2</sup>, Tiffany Lago, M.D.<sup>3</sup>, 1. Georgetown University Medical Center, 2. National Institute of Mental Health, Section on Neurobiology of Fear and Anxiety, 3. National Institute of Mental Health*
- (PS13-B38) Anhedonia Is Independently Associated With Somatic Symptoms in Individuals With a Primary Anxiety Disorder**  
*Meredith Ward, B.A.<sup>1</sup>, T.H. Eric Bui, M.D., Ph.D.<sup>1</sup>, Samantha Philip, B.S.<sup>2</sup>, Caroline Gabriel, B.A.<sup>2</sup>, Emma R. Toner, B.A.<sup>1</sup>, Adam Gitterman, M.S.<sup>3</sup>, Rebecca R. Suzuki, B.A.<sup>4</sup>, Rebecca Lubin, B.A.<sup>5</sup>, Naomi M. Simon, M.D.<sup>4</sup>, Elizabeth Hoge, M.D.<sup>2</sup>, 1. Massachusetts General Hospital, 2. Georgetown University Medical Center, 3. MedStar Health Research Institute, 4. Anxiety and Complicated Grief Program, NYU Langone, 5. NYU Langone Health*
- (PS13-B39) Reward Impairment in Social Anxiety Disorder and Its Relationship to Depressive Symptoms**  
*Sarah C. Dolan, B.A.<sup>1</sup>, Dan Dillon, Ph.D.<sup>2</sup>, Mei-Chen Hu, Ph.D.<sup>3</sup>, Amit Lazarov, Ph.D.<sup>1</sup>, Franklin Schneier, M.D.<sup>1</sup>, 1. New York State Psychiatric Institute/Columbia University Medical Center, 2. McLean Hospital/Harvard Medical School, 3. Columbia University Medical Center*

Poster Session 13C

PS13

Key Words: *Couples / Close Relationships, LGBTQ+, Depression*

**(PS13-C40) Cross-sectional and Longitudinal Associations Between Relationship Discord and Depressive Symptoms in Sexual Minority Individuals**

Anna L. Gilmour, B.A.<sup>1</sup>, Mark A. Whisman, Ph.D.<sup>1</sup>, Ashley K. Randall, Ph.D.<sup>2</sup>, 1. University of Colorado Boulder, 2. Arizona State University

**(PS13-C41) Honey, You Have My Attention: Intra-individual and Cross-partner Associations Between the Four Subscales of Interpersonal Mindfulness and Positive and Negative Relationship Quality**

Katherine A. Lenger, M.A.<sup>1</sup>, Cameron L. Gordon, Ph.D.<sup>2</sup>, Robyn Sessler, B.A.<sup>2</sup>, 1. University of Tennessee, Knoxville, 2. Middle Tennessee State University

**(PS13-C42) Trajectories of Sexual Satisfaction During and After Couple Therapy for Relationship Distress**

Karen Rothman, M.S.<sup>1</sup>, Larisa Cicila, Ph.D.<sup>2</sup>, Meghan McGinn, Ph.D.<sup>3</sup>, S. Gabe Hatch, B.S.<sup>1</sup>, Andrew Christensen, Ph.D.<sup>4</sup>, Brian Doss, Ph.D.<sup>1</sup>, 1. University of Miami, 2. San Diego State University, 3. VA Puget Sound Health Care System, 4. University of California, Los Angeles

**(PS13-C43) Predictors of Daily Capitalization Attempts in Expectant Couples**

Yunying (Annie) Le, M.S., Steffany Fredman, Ph.D., Mark Feinberg, Ph.D., The Pennsylvania State University

**(PS13-C44) Developing an Instrumental Support Inventory for Spouses**

Ryan P. Egan, M.A., David A. Smith, Ph.D., University of Notre Dame

**(PS13-C45) Self-reported Emotion Regulation Difficulties and Vocally Encoded Emotion Regulation Among Trauma-exposed Couples**

Melanie S. Fischer, Ph.D.<sup>1</sup>, Steffany Fredman, Ph.D.<sup>2</sup>, Donald H. Baucom, Ph.D.<sup>3</sup>, Emily Taverna, B.S.<sup>4</sup>, Yunying Le, M.S.<sup>4</sup>, Sy-Miin Chow, Ph.D.<sup>4</sup>, Amy Marshall, Ph.D.<sup>4</sup>, 1. Institute of Medical Psychology, University Hospital Heidelberg, Germany, 2. Pennsylvania State University, 3. University of North Carolina at Chapel Hill, 4. The Pennsylvania State University

**(PS13-C46) Vocally-expressed Emotional Arousal in Treatment-seeking Couples: A Comparison of Patterns in Same-sex and Different-sex Couples**

Danielle Weber, M.A.<sup>1</sup>, Kimberly Z. Pentel, M.A.<sup>1</sup>, Donald H. Baucom, Ph.D.<sup>1</sup>, Alexandra K. Wojda, B.A.<sup>1</sup>, Brian R. Baucom, Ph.D.<sup>2</sup>, Andrew Christensen, Ph.D.<sup>3</sup>, 1. University of North Carolina at Chapel Hill, 2. University of Utah, 3. University of California, Los Angeles

**(PS13-C47) Have You Thanked Your Partner Today? Failure to Express Gratitude in Relationships as a Longitudinal Mediator of the Links Between Relationship Awareness and Relationship Satisfaction**

Jennifer S. Daks, M.A., Madeline B. Gartenberg, B.A., Ronald D. Rogge, Ph.D., University of Rochester

**(PS13-C48) Communication Patterns and Problem-Solving Tactics of Couples With Discrepant Relationship Satisfaction**

Alexandra K. Wojda, B.A.<sup>1</sup>, Richard Heyman, Ph.D.<sup>2</sup>, Donald H. Baucom, Ph.D.<sup>1</sup>, Amy Smith Slep, Ph.D.<sup>2</sup>, 1. University of North Carolina at Chapel Hill, 2. New York University

**(PS13-C49) Predictors of Perceived Partner Accommodation of Mental Health Symptoms**

CJ Fleming, Ph.D., Emma Muscari, B.A., Elon University

**(PS13-C50) Is Gratitude Helping Your Relationship? Examining Relationship Gratitude as a Longitudinal Mediator of the Links Between Relationship Awareness and Positive Relationship Functioning**

Madeline B. Gartenberg, B.A., Jennifer S. Daks, M.A., Ronald D. Rogge, Ph.D., University of Rochester

**(PS13-C51) Is One's Mindfulness Relevant to His or Her Spouse?: Cross-partner Associations Between Mindfulness and Relationship Quality**

Robyn Sessler, B.A.<sup>1</sup>, Cameron L. Gordon, Ph.D.<sup>1</sup>, Katherine A. Lenger, M.A.<sup>2</sup>, 1. Middle Tennessee State University, 2. University of Tennessee, Knoxville

**(PS13-C52) Relationship Status, Positive and Negative Elements of Relationship Quality, and Social Anxiety**

Grace E. Merritt, Mark A. Whisman, Ph.D., University of Colorado, Boulder

**(PS13-C53) Predicting Premature Dropout in Veterans' Couple Therapy Using Steps Toward Relationship Dissolution**

Grace McKee, M.A.<sup>1</sup>, Julian Libet, Ph.D.<sup>2</sup>, Karen H. Petty, Ph.D.<sup>3</sup>, Jenna B. Teves, Ph.D.<sup>2</sup>, Alice B. Huang, B.A.<sup>2</sup>, Kimberley Stanton, Ph.D.<sup>2</sup>, 1. Southern Methodist University, 2. Ralph H. Johnson VA Medical Center, 3. Couples and Family Clinic, Ralph H. Johnson VA Medical Center; Medical University of South Carolina

**(PS13-C54) The Moderating Effect of Trait Forgiveness on the Relationships Between Dating Abuse and Attitudes Towards Intimate Violence**

Madeline S. Herman, M.A., Kayla Scamaldo, M.A., Elizabeth Goncy, Ph.D., Cleveland State University

**(PS13-C55) A 5-year Study of DBT in a Partial Hospital Program Examining: Depression, Anxiety, Hopelessness, and Suffering**

John Lothes, II, <sup>1</sup>, Kirk Mochrie, M.A.<sup>2</sup>, Kristina Cassidy Murphy, M.A.<sup>3</sup>, Eric Guendner, M.A.<sup>1</sup>, Jane St. John, M.A.<sup>3</sup>, Rebecca Harrell<sup>2</sup>, Carlie Carter, B.A.<sup>4</sup>, 1. University of North Carolina Wilmington, 2. East Carolina University, 3. Delta Behavioral Health, 4. UNCW

**(PS13-C56) Applying the Biosocial Theory of DBT to a Partial Hospital Program: When Is the Best Time to Orient Clients to the Model?**

John Lothes, II, <sup>1</sup>, Jane StJohn, M.A.<sup>2</sup>, Kristina Cassidy Murphy, M.A.<sup>2</sup>, Eric Guendner, M.A.<sup>1</sup>, Kirk Mochrie, M.A.<sup>3</sup>, 1. University of North Carolina, Wilmington, 2. Delta Behavioral Health, 3. East Carolina University

**(PS13-C57) Routine Outcome Monitoring and Treatment Delivery in an**

**Interprofessional Mental Health Care Setting**

Meghan Vinograd, M.A., Kate Wolitzky-Taylor, Ph.D., Eliza Congdon, Ph.D., Inna Arnaudova, Ph.D., Nelson B. Freimer, M.D., Michelle Craske, Ph.D., University of California, Los Angeles

**(PS13-C58) Development of and Initial Outcomes From an Intensive Outpatient**

**Program For Anxiety-related School Avoidance**

Ilana Seager van Dyk, M.A.<sup>1</sup>, Elizabeth Vickery, Ph.D.<sup>2</sup>, 1. The Ohio State University, 2. Nationwide Children's Hospital

**(PS13-C59) Development and Preliminary Feasibility of a Residential Treatment**

**Program For Adults with Serious Mental Illness**

Ajeng J. Puspitasari, Ph.D.<sup>1</sup>, Saraphia Magill, <sup>1</sup>, Kendra Anderson, <sup>1</sup>, Tayler J. L'amoureux, LICSW<sup>1</sup>, Maria Santos, Ph.D.<sup>2</sup>, Elise Weber, 1. Mayo Clinic, 2. California State University, San Bernadino

**International Ballroom, International Level**

**Poster Session 13D**

**PS13**

Key Words: Suicide, Emotion, Technology / Mobile Health

**(PS13-D60) Real-time Negative Emotion Dynamics During Inpatient Treatment for Suicidal Thoughts and Behaviors**

Azure Reid-Russell, B.S.<sup>1</sup>, Daniel Coppersmith, B.A.<sup>1</sup>, Evan Kleiman, Ph.D.<sup>2</sup>, Kate Bentley, Ph.D.<sup>3</sup>, Alexander Millner, Ph.D.<sup>1</sup>, Rebecca Fortgang, Ph.D.<sup>1</sup>, Jeffery Huffman, M.D.<sup>4</sup>, Matthew Nock, Ph.D.<sup>1</sup>, 1. Harvard University, 2. Rutgers University, 3. Harvard Medical School, 4. Massachusetts General Hospital

**(PS13-D61) NSSI Functions and the Three Factor Model of Borderline Personality Disorder: Is Emotional Reactivity a Mediator?**

Isabella H. Shattenkirk, N/A, B.A.<sup>1</sup>, Gracie Jenkins, B.A.<sup>2</sup>, Caroline S. Holman, M.A.<sup>3</sup>, Hae Joon Kim, B.A.<sup>1</sup>, Margaret Andover, Ph.D.<sup>1</sup>, 1. Fordham University, 2. Bradley Hospital, Warren Alpert Medical School at Brown University, 3. Warren Alpert Medical School at Brown University

**(PS13-D62) The Mediating Role of Guilt on the Relationship Between Complicated Grief and Suicidality Among Peer Suicide-bereaved College Students**

Gabriella M. Zeller, B.A., Carolyn Pepper, Ph.D., Lara E. Glenn, Kandice Perry, M.S., Alejandra Reyna, M.S., University of Wyoming

**(PS13-D63) Sleep Problems and Short-term Risk of Suicidal Thoughts: A Real-time Monitoring Study**

Erin Kilbury, M.A.<sup>1</sup>, Hye In S. Lee, B.S.<sup>1</sup>, Shirley Wang, B.A.<sup>1</sup>, Daniel Coppersmith, B.A.<sup>1</sup>, Evan Kleiman, Ph.D.<sup>2</sup>, Kate Bentley, Ph.D.<sup>3</sup>, Alexander Millner, Ph.D.<sup>1</sup>, Rebecca Fortgang, Ph.D.<sup>1</sup>, Jeffery Huffman, M.D.<sup>4</sup>, Matthew Nock, Ph.D.<sup>1</sup>, 1. Harvard University, 2. Rutgers University, 3. Harvard Medical School, 4. Massachusetts General Hospital

- (PS13-D64) Mexican Identity and Its Association With Suicidal Behavior Among Mexican-descent Emerging Adults**  
*Oscar Trujillo, B.S.<sup>1</sup>, Claire F. Hsieh, B.S.<sup>1</sup>, Lillianne Villarreal, B.S.<sup>1</sup>, Nichole Christ, M.A.<sup>2</sup>, Ruby Charak, Ph.D.<sup>1</sup>, University of Texas Rio Grande Valley, 2. University of Toledo*
- (PS13-D65) American Cultural Connection Associated With Higher Risk of Suicide in Justice Involved Youth**
