ABCT 2021
55th Annual Convention

November 16–21

Championing CBT: Promoting Cognitive and Behavioral Practice and Science in the Context of Public Health, Social Justice, Policy, Research, Practice, and Training
Association for Behavioral and Cognitive Therapies

Board of Directors

President .................................................. David F. Tolin, Ph.D.
President-Elect ............................................. Laura Seligman, Ph.D.
Past President .............................................. Martin M. Antony, Ph.D.
Secretary-Treasurer ...................................... Sandra Pimentel, Ph.D.
Representative-at-Large (2021) ........................ Shireen Rizvi, Ph.D.
Representative-at-Large (2022) ......................... Amie E. Grills, Ph.D.
Representative-at-Large (2023) ......................... Carolyn B. Becker, Ph.D.

Coordinators and Committee Chairs

Convention and Education Issues Committees ................ Katharina Kircanski, Ph.D.
Continuing Education Committee .......................... Lily Brown, Ph.D.
Institutes Committee .................................... Samantha Farris, Ph.D.
Workshops Committee ................................... Christina Boisseau, Ph.D.
AMASS Committee ...................................... Brian Baucom, Ph.D.
Research and Professional Seminar Series ............. Cole Hoecom, Ph.D.
Local Arrangements Committee ......................... Amanda Rainey, Ph.D.
Sponsorship Committee .................................. Patrick McGrath, Ph.D.
Program Committee, 2021 ............................... Gregory Chasson, Ph.D.
Associate Program Chair, 2021 ......................... Elizabeth C. Katz, Ph.D.
Program Committee, 2022 ............................... Rosaura Orenco-Aguayo, Ph.D.
Associate Program Chair, 2022 ......................... Emily Kroska, Ph.D.

Membership Issues Committees ............................ Kathleen Gunthert, Ph.D.
Special Interest Groups Committee .................. Broderick Sawyer, Ph.D.
Membership Committee ................................ Rebecca Skolnick, Ph.D.
Committee on Student Members ...................... Shannon Blakey, Ph.D.
Committee on Leadership and Elections ............ Patricia DiBartolo, Ph.D.
Committee on Clinical Directory and Referral Issues Daniella Cavenagh, Ph.D.
Social Networking Media Committee ............... Shari Steinman, Ph.D.
Fellows Committee ..................................... Linda Sobell, Ph.D.

Academic and Professional Issues Committees .......... Nathaniel Herr, Ph.D.
Committee on International Associates ............... Lata McGinn, Ph.D.
Committee on Academic Training & Education Standards Monnica Williams, Ph.D.
Committee on Awards and Recognition ............... Sara Elkins, Ph.D.
Committee on Research Facilitation ................... Shannon Sauer-Zavala, Ph.D.
Committee on Self-Help Book Recommendations.... Christopher Berghoff, Ph.D.

Publications Committee ............................... Michelle Newman, Ph.D.
Committee on Public Education & Media Dissemination Emily Bilek, Ed.D.
Committee on Dissemination, Implementation, and Stakeholder Engagement .... Erum Nadeem, Ph.D.
Editor, Behavior Therapy ................................ Denise Sloan, Ph.D.
Editor, the Behavior Therapist ......................... Richard LeBeau, Ph.D.
Editor, Cognitive and Behavioral Practice .......... Nikolaos Kazantzis, Ph.D.
Editor, Web ............................................ Laura Payne, Ph.D.

Well, in hindsight, we were overly optimistic. Admittedly, our original ABCT convention welcome message has not aged well. The ABCT Board has decided to shift the hybrid convention in November to a fully virtual format to maximize the health and safety of its members. This is a disappointing—albeit understandable—decision for many members and the Board. Unfortunately, we’ll have to wait a bit longer before we can meet up at Café Du Monde or Preservation Hall. But, as they say in NOLA, “Laissez les bon temps roulez!!” So even though we can’t be there in person, you can always get into the NOLA Spirit and support their local economy by sipping Café Du Monde coffee, eating beignets and savoring pecan pralines in the comfort of your own home while enjoying the rich convention program in your pajama pants.

Unchanged from the hybrid convention format, the theme of the 55th annual ABCT convention in New Orleans is “Championing CBT: Promoting Cognitive and Behavioral Practice and Science in the Context of Public Health, Social Justice, Policy, Research, Practice, and Training.” To highlight aspects of the theme, we are pleased to welcome three esteemed speakers and an invited panel for the convention. First, past ABCT president (1988-89) and Director of the World Food Policy Center, Dr. Kelly Brownell from Duke University’s Sanford School of Public Policy will highlight the policy and research component of the convention theme. Second, Canada Research Chair for Mental Health Disparities at the University of Ottawa’s School of Psychology, Dr. Monnica Williams, will target the social justice aspect of the convention theme by highlighting ways to reduce racism in cognitive-behavioral interventions and training. Third, the Senior Director of Practice Transformation and Quality for the American Psychological Association (APA), Dr. Lynn Bufka, will provide insights on the APA practice and policy elements of the convention theme. Last, the three addresses will be complemented by an invited panel sponsored by ABCT’s Adopting Neurocognitive Methods for the Clinic Think Tank and the Neurocognitive Therapies and Translational Research SIG, chaired by Dr. Angela Fang, and moderated by Dr. Judy Illes. Among other objectives, the panel aims to (1) “describe historical and ongoing barriers that have limited the application of neuroscience techniques to study mental health disparities in minoritized populations,” and (2) “develop an up-to-date conceptualization of how translational neuroscience could serve minoritized stakeholders from bench to bedside.” Rounding out the scientific program is an address on the nature and
treatment of emotion dysregulation in social anxiety from last year’s recipient of the ABCT Lifetime Achievement Award, past ABCT president (2001-02) Dr. Richard Heimberg.

Completing the scientific program for the convention was a considerable challenge, in large part because of the substantial number of high-quality submissions. There is clearly no shortage of innovative and impactful work being done in our field. Indeed, it has been a tremendous privilege to learn about all of the creative and significant projects being carried out. Alas, not all submissions could be accepted into the program given resource limitations. Our decisions for the program were guided by the peer review process, fit with the convention theme, and balance of various topics and their representation. For example, no doubt because of the timing of the submission process, we received such a large pool of COVID-related submissions that we could have assembled an entire second convention just on this topic alone. We balanced the need for COVID programming with the need for including non-COVID content. Additionally, continuing the trend from previous ABCT conventions—and in line with ongoing societal shifts pertaining to social justice and ABCT’s growing effort to enhance diversity, inclusion, and equity—the scientific program for this year is replete with content intended to facilitate this critical dialogue and action.

We feel honored to serve as your Program Chairs for the 2021 convention. Many thanks to current President Dr. David Tolin and the ABCT Board of Directors for giving us this opportunity. ABCT Central Office staff, especially Mary Jane Eimer and Stephen Crane, have been indispensable throughout this process; we literally could not have done this without you—thank you! Thanks to Grayson Highfield for her assistance with administrative support. We also extend our appreciation to past Program Chairs for the wisdom and resources (Drs. Shannon Wiltsey Stirman, Dan Cheron, Alyssa Ward, Kiara Timpano, Jordana Muroff, and Katharina Kircanski). Dr. Katharina Kircanski gets an extra note of appreciation because of her [often thankless] role as the ABCT Coordinator of Convention and Education Issues, or, in other words, the glue that binds the entirety of the convention each year. We would also like to acknowledge the many Chairs and participants of the Convention and Education Issues Committee for the insights, meeting laughs, and hard work shaping this convention: Drs. Brian Baucom (AMASS), Christina Boisseau (Workshops), Samantha Farris (Institutes), Cole Hooley (Research & Professional Development), Tajal Jakatdar (Master Clinician Seminars), Amanda Raines (Local Arrangements Chair), Patrick McGrath (Sponsorship), Rosaura Orengo-Aguayo (2022 Program Chair), and Emily Kroska (2022 Associate Program Chair). Special thanks to Shireen Rizvi, our Board Liaison. Last, but certainly not least, we extend our deepest thanks to the hundreds of Program Committee members who served as scientific reviewers for the convention, with an extra thanks to those who stepped up as super reviewers. The scientific program was shaped by your critical contribution.

We’re excited to see everyone at the virtual convention and look forward to meeting in person in New York City in 2022.
All ABCT members are encouraged to attend this meeting. Learn about the Association’s progress on our Strategic Intent, our 2021 accomplishments, and our priorities for 2022. Meet the newest members to the ABCT governance and help thank your colleagues who have contributed so much to ABCT’s success over the past year.

Hoarding: Chasing a New Diagnosis Through Brain, Body, and Behavior

David F. Tolin, Ph.D., ABPP, Director, Anxiety Disorders Center, The Institute of Living, Yale University School of Medicine

Participants earn 1 CE credit

Hoarding disorder (HD) is a relatively new diagnosis in DSM-5. Characterized by excessive clutter and difficulty discarding objects, this condition is both common and potentially debilitating. Cognitive-behavioral therapy has been demonstrated to be efficacious, but most patients remain clinically symptomatic after treatment. I suggest that current CBT faces an “efficacy ceiling” due to our currently fragmented understanding of the disorder. I will discuss a body of research aimed at increasing our understanding of central and peripheral nervous system correlates of HD and will describe how those correlates are reflected in behavior. We will also examine current research on neural moderators and mediators of CBT treatment. The ultimate aim of this research is to develop a working model of HD that will inform specific, targeted intervention efforts. To this end, we will review novel interventions that might more specifically target dysfunctional brain mechanisms and provide greater symptom relief.

Continuing Education at ABCT

ABCT is proud to offer you opportunities to learn from proven educators. Here is an efficient and effective way to hone your clinical skills, learn the results of the latest research, and earn continuing education credits as well.

Continuing Education is offered for a fee of $99. Access the Cadmium survey magnet from the virtual convention website left navigation menu. Once you log in, you will be able to take the required quiz, complete the session evaluation forms, take the convention overall evaluation, manage your continuing education credits, and print your session certificate.

Ticketed sessions require an additional payment beyond the general registration fee. For ticketed events, attendees must complete an individual evaluation form and a session quiz. Attendees must remain in the virtual session for the entire period in order to receive CE credit and for the live sessions, enter the code APA, NBCC, or CAMFT in the chat box.

Psychology

ABCT is approved by the American Psychological Association to sponsor continuing education for psychologists. ABCT maintains responsibility for this program and its content. Attendance at each continuing education session in its entirety is required to receive CE credit. No partial credit is awarded; late arrival or early departure will preclude awarding of CE credit. For ticketed events and general sessions, attendees must complete an individual evaluation form and a quiz with a passing score of 7/10. Attendees may take the quiz a maximum of 2 times.

Social Work

ABCT will not be offering continuing education credits for the National Association of Social Workers (NASW) for both the live convention sessions and the on-demand sessions.

Counseling

ABCT is an NBCC-Approved Continuing Education Provider (ACEPTM) and may offer NBCC-approved clock hours for events that meet NBCC requirements. The ACEP is solely responsible for all aspects of the program.

Marriage & Family Therapy

ABCT is recognized as a California Association of Marriage and Family Therapists (CAMFT)-approved Continuing Education Provider (#133136). The ABCT Annual Convention meets the qualifications for 28 hours of continuing education credit for LMFTs, LCSWs, LPCCs, and/or LEPs as required by the California Board of Behavioral Sciences.
Registration

To receive member registration fees, members must renew for 2022 before completing their registration process or to join as a New Member of ABCT.

Attention registrants outside North America: ABCT is a member of the World Confederation of Cognitive and Behavioral Therapies. WCCBT members can register at the ABCT member rates! If your membership organization is a member of the World Confederation of Cognitive and Behavioral Therapies and you are not an American or Canadian, you are eligible.

Registration for all PRE-Convention Sessions (AMASS, Clinical Intervention Seminars, Institutes) requires an additional fee. Most preconvention sessions will take place on Tuesday, November 16, or Wednesday, November 17.

General Registration

The general registration fee entitles the registrant to attend all events on November 18–22 except for ticketed sessions. There are additional ticketed events on Tuesday, November 16, and Wednesday, November 17. Your canceled check is your receipt. Email confirmation notices will be generated automatically for online registrations and will be sent via email the same day you register. Email confirmation will be sent within 1 week for faxed and mailed registrations. If you do not receive an email confirmation in the time specified, please call the ABCT central office, (212) 647-1890, or email Tonya Childers at tchilders@abct.org.

All presenters (except for the first two presenters of ticketed CE sessions) must pay the general registration fee. Leaders of ticketed session will receive information regarding their registration procedure from the ABCT Central Office.

Admission to all ticketed sessions is by confirmation only. Ticketed sessions are sold on a first-come, first-served basis. Participants are strongly urged to register by Monday, November 15.

Please note: NO PURCHASE ORDERS WILL BE ACCEPTED.

To register, please choose one format:

Registering On-Line

The quickest method is to register on-line (go to abct.org and click on the convention banner on the home page or go to www.abct.org/-convention/registration). Use this method for immediate feedback on which ticketed sessions you will be attending. To receive members’ discounted rates, your ABCT dues must be up to date. If your membership has lapsed, use this opportunity to renew.

To get member rates at this conference, your ABCT dues must be paid through October 31, 2022. The ABCT membership year is November 1, 2021–October 31, 2022. To renew, go to abct.org.

**REGISTER ONLINE: [https://www.abct.org/2021-convention/registration/](https://www.abct.org/2021-convention/registration/)**
Registering by Fax

You may fax your completed registration form, along with credit card information and your signature, to (212) 647-1865. If you choose this method, please DO NOT send a follow-up hard copy. This will cause double payment.

Registering by Mail

All preregistrations that are paid by check must be mailed to ABCT, 305 Seventh Avenue, 16th Floor, New York, NY, 10001.

Refund Policy

There are no refunds for the 2021 ABCT virtual convention.

Payment Policy

All fees must be paid in U.S. currency on a U.S. bank. Any bank fees charged to the Association will be passed along to the attendee. Please make checks payable to ABCT.
Learning doesn't need to stop at the Convention! ABCT is proud to provide webinars for psychologists and other mental health professionals. Our webinars can be attended live or viewed online at your convenience. Visit our website (abct.org) to view live, recorded, or archived webinars. CE opportunities are available for many! E-mail Dakota at DMcPherson@abct.org for more information.

Please join us! Accessing the benefits of your membership with ABCT has never been easier with the reimagined abct.org

Your annual ABCT membership gives you the most from your dues dollars for all stages of your career. Members receive more than just the lowest registration rates at the 2021 Virtual Convention:

• Stay connected and updated with your colleagues and the latest developments in mental health research through the brand new ABCT Forums, the ABCT membership directory, and our online resources. Join one of 40+ SIGs, “like” us on Facebook, and follow us on Twitter! Share photos on our Instagram account and sign up for the convention app.

• Participate in our Find-a-CBT-Therapist online referral network at www.findcbt.org. It continues to be our most frequently visited web page. To expand your listing and include your practice particulars, pay just $50 more per year.

• FREE on-line access to all issues of the Behavior Therapist, featuring articles and reviews of research and clinical import, and our outstanding journals Cognitive and Behavioral Practice (4 times per year/impact factor: 2.946) and Behavior Therapy (6 issues per year; the Institute for Scientific Information now ranks us 13th out of 121 clinical psychology journals, with an impact factor of 4.183).

• Expand your skill sets and earn CE with our growing list of webinars—attend live sessions or view online at your convenience. Planning for 2022 sessions is under way! Let us know what you’d like to see by responding to the survey right after our November virtual convention. And keep in mind that the 2021 ABCT convention will be available on-line for several months after the convention, giving you another opportunity to earn ce credits.

• Refer to our website for a growing list of resources on Coping with COVID-19; Resources to Combat Racism; Information on Opioids and the Opioid Crisis; Information on Seasonal Depression and more.

• Enrich the training growth of others by participating in our Mentorship Directory, where students in graduate programs can learn from your experiences as a mentor.

• Participate in the new ABCT Forums, connecting you to like-minded professionals around the globe! ABCT members can share job/internship opportunities, seek or provide clinical referrals to other members, get advice from colleagues on challenging client issues.

• Our on-line Job Bank connects job seekers with the best employment opportunities in CBT. Reasonable rates for employer listings.

• Access our growing library of syllabi and other teaching tools for the latest techniques and principles among CBT teaching resources.
Recognition

• Be recognized as a role model who has had a positive impact on colleagues, students, and community by encouraging participation and membership within ABCT
• Help your students and colleagues understand more about ABCT and supporting your professional home
• Be the local resource of association knowledge and be “in-the-know”

Student Ambassador Program

• Be the first to know upcoming deadlines for convention submissions and the student award programs
• Build your cv by being active in your professional organization
• Build your own professional network

Interested? Contact Dan Hoffman, Ph.D., at dhoffman7@northwell.edu

Rewards

• Be listed as an Ambassador on our website and listed in tBT
• Give back to your professional home

Join a growing group of members and convention attendees who support the association by renewing their memberships, attending annual conventions, and providing related information. The time commitment is small, no more than 30 minutes per month.

It’s easy to become an ABCT ambassador

http://www.abct.org/membership/abct-ambassador-and-student-ambassador-programs
Call for Continuing Education Ticketed Sessions

56th Annual Convention • November 17–20, 2022 | NYC

Submissions will be accepted through the online submission portal, which will open after January 1, 2022. Submit a 250-word abstract and a CV for each presenter. For submission requirements and information on the CE session selection process, please visit www.abct.org and click on “Convention and Continuing Education.”

Workshops & Mini Workshops | Workshops cover concerns of the practitioner/educator/researcher. Workshops are 3 hours long, are generally limited to 60 attendees, and are scheduled for Friday and Saturday. Please limit to no more than 4 presenters. Mini Workshops address direct clinical care or training at a broad introductory level. They are 90 minutes long and are scheduled throughout the convention. Please limit to no more than 4 presenters. When submitting for Workshops or Mini Workshop, please indicate whether you would like to be considered for the other format as well.

► For more information or to answer any questions before you submit your abstract, contact the Workshop Committee Chair, workshops@abct.org

Institutes | Institutes, designed for clinical practitioners, are 5 hours or 7 hours long, are generally limited to 40 attendees, and are scheduled for Thursday. Please limit to no more than 4 presenters.

► For more information or to answer any questions before you submit your abstract, contact the Institute Committee Chair, institutes@abct.org

Master Clinician Seminars | Master Clinician Seminars are opportunities to hear the most skilled clinicians explain their methods and show taped demonstrations of client sessions. They are 2 hours long, are limited to 40 attendees, and are scheduled Friday through Sunday. Please limit to no more than 2 presenters.

► For more information or to answer any questions before you submit your abstract, contact the Master Clinician Seminar Committee Chair, masterclinicianseminars@abct.org

Research and Professional Development | Presentations focus on “how to” develop one’s own career and/or conduct research, rather than on broad-based research issues (e.g., a methodological or design issue, grantsmanship, manuscript review) and/or professional development topics (e.g., evidence-based supervision approaches, establishing a private practice, academic productivity, publishing for the general public). Submissions will be of specific preferred length (60, 90, or 120 minutes) and format (panel discussion or more hands-on participation by the audience). Please limit to no more than 4 presenters, and be sure to indicate preferred presentation length and format.

► For more information or to answer any questions before you submit your abstract, contact the Research and Professional Development Chair, researchanddevelopmentseminars@abct.org

Submission deadline: February 7, 2022 3:00 a.m. EST
The ABCT Annual Convention is designed for practitioners, students, scholars, and scientists. All of the ABCT members involved in making the convention have as their central goals the provision of opportunities to meet the needs of the diverse audiences interested in the behavioral and cognitive therapies. Attendees have varying disciplines, varying levels of experience, varying theoretical orientations, as well as special clinical concerns. Just as important are the opportunities to meet people with similar interests for social as well as professional networking.

Some presentations will offer the chance to see and hear what is new and exciting in behavioral and cognitive work from our dynamic and vibrant presenters. Other presentations will address the clinical-scientific issues of how we develop empirical support for our work.

General Sessions and Ticketed Events

**GENERAL SESSIONS**

**Symposia:** Presentations of data, usually investigating efficacy of treatment protocol or particular research. Symposia are either 60 minutes or 90 minutes in length. They have one or two chairs, one discussant, and between three and five papers.

**Panel Discussions and Clinical Round Tables:** Discussions (sometimes debates) by informed individuals on an important topic. These are organized by a moderator and have between three and six panelists who bring differing experience and attitudes to the subject matter.

**Membership Panel Discussions:** Organized by representatives of the Membership and Student Membership Committees, these events generally have a particular emphasis on training or career development.

**Special Sessions:** Designed to provide useful information regarding professional, rather than scientific, issues. For more than 25 years our Internship Overview and Postdoctoral Overview have been helping people find their educational paths.

**Research and Professional Development (RPD):** Presentations explicitly focused on broad-based research issues (e.g., a methodological or design issue, grantsmanship, manuscript review) and/or professional development topics (e.g., evidence-based supervision approaches, establishing a private practice, academic productivity, publishing for the general public).

**Mini Workshops:** Mini Workshops address direct clinical care or training at a broad, introductory level. They are 90 minutes in length and occur throughout the meeting.

**Spotlight Research:** This format provides a forum to debut new findings considered to be groundbreaking or innovative for the field. A limited number of extended-format sessions consisting of a 45-minute research presentation and a 15-minute question-and-answer period allows for more in-depth presentation.
Clinical Grand Rounds: Master-level clinicians give simulated live demonstrations of therapy. Clients may be portrayed by graduate students studying with the presenter and specializing in the problem area to be treated.

Poster Sessions: One-on-one discussions between researchers, who display graphic representations of the results of their studies, and interested attendees. Because of the variety of interests and research areas of the ABCT attendees, between 1,200 and 1,500 posters are presented each year.

Special Interest Group Meetings: Nearly 40 SIGs meet each year to renew relationships, accomplish business (such as electing officers), acknowledge excellence through the awards program, and often offer presentations. SIG talks are not peer-reviewed by the Association, nor are they eligible for CE credit.

• TICKETED EVENTS  These listings—located throughout the program book—include a level of experience to guide attendees and offer CE credit.

Workshops: Covering concerns of the practitioner/educator/researcher, Workshops are an anchor of the Convention. These sessions are 3 hours long and are generally limited to 60 attendees.

Master Clinician Seminars: The most skilled clinicians explain their methods and show video demonstrations of client sessions. Offered throughout the Convention, these seminars are 2 hours long and are generally limited to 40 attendees.

Advanced Methodology and Statistics Seminars: Designed to enhance researchers’ abilities, these are 4 hours long and limited to 40 attendees.

Institutes: Leaders and topics for Institutes are taken from previous ABCT Workshop and Master Clinician Seminar presentations in which a longer format is beneficial. They are offered as 7-hour or 5-hour sessions on Thursday, and are generally limited to 40 attendees.

Clinical Intervention Training: One-day event emphasizing the “how-to” of clinical intervention. The extended length allows for exceptional interaction. Participants attending a full-day session can earn 7 continuing education credits.
Career/Lifetime Achievement
Patricia A. Resick, Ph.D., ABPP, Duke Medical

Outstanding Training Program
Judith S. Beck, Ph.D., Beck Institute for Cognitive Behavior Therapy

Outstanding Contribution by an Individual for Research Activities
Timothy A. Brown, Psy.D., Boston University

Welcome to the 55th Annual ABCT Convention

Promoting Cognitive and Behavioral Practice and Science in the Context of Public Health, Social Justice, Policy, Research, Practice, and Training

David F. Tolin, Ph.D., President
Gregory S. Chasson, Ph.D., Program Chair
Elizabeth C. Katz, Ph.D., Associate Program Chair

Descriptions follow of a few hundred events to be presented November 16–21, 2021. There are sessions on a large array of topic areas and all familiarity levels. If this is your first ABCT Convention, join Gregory S. Chasson and Elizabeth C. Katz, ABCT’s Program Chairs, at 6:15 p.m. on Wednesday, November 17, to learn how to navigate the virtual platform and make the most of the virtual convention experience this year. Whether you are a new member, first-time convention attendee, or just want to learn how to navigate the convention, all are welcome. Discover the electronic evaluation forms, CE certificates, attendee quizzes, and the credit tracking system. Discover networking opportunities, gain insights into the convention electronic program and how to plan your itinerary.
Community-based Participatory Research in Psychology: An Overview of Emerging Best Practices, Challenges, and Ethical Considerations

12:00 p.m. – 4:00 p.m.
Earn 4 continuing education credits

Patricia Rodriguez Espinosa, Stanford University School of Medicine
Eleanor F. Gil-Kashiwabara, Luminosa Psychological Services

All level of familiarity with the material
Primary Category: Research Methods and Statistics
Key Words: Research Methods, Underserved Populations, Community Identified Problems

Over the past few decades, psychologists have increasingly embraced the concepts of patient centered care and community involvement in both research and practice. One application of a more community-driven and patient-centered approach is community-based participatory research (CBPR), an innovative research paradigm that combines knowledge and action to improve community health and reduce health inequities. CBPR provides a framework to equitably involve community members, researchers and other partners in the research process, recognizing and maximizing the importance of their diverse contributions. CBPR can enhance the practice of psychology by providing an inclusive and differentiated framework that allows for more holistic, flexible, patient-centered, transformative and pragmatic approaches to clinical and community practice as well as to research design, implementation, analysis, interpretation and dissemination. That said, CBPR is often un-
derutilized in mainstream psychology. In this workshop, we introduce CBPR to a general psychology audience and show applications in research and practice. Specifically, we will: a) review some historical highlights of CBPR, b) define its key principles, c) differentiate it from traditional, researcher-centered practice, and d) highlight evidence-based partnering practices shown to improve both partnership dynamics and outcomes. Participants will also have time to brainstorm their own proposal development or a research idea and develop an initial outline of a project that integrates CBPR principles and practices. We will also emphasize important ethical and practical considerations specific to the practice of CBPR in psychology. We believe that CBPR offers a useful framework for building bridges between social justice, research, and practice. This workshop aims at increasing participants’ knowledge of CBPR, potential applications relevant to their area of work, known best practices, tools for addressing ethical considerations and provide attendees with additional resources to pursue more in-depth knowledge and increase chances of future utilization. Outline: 1. Definition of CBPR and discussion of strengths compared to traditional research frameworks 2. Brief overview of historical developments of CBPR 3. Overview of CBPR core principles with examples of applications 4. Differentiation between CBPR and traditional research approaches 5. Interactive exercise applying CBPR principles and emerging best practices to participants’ own research, teaching, or practice 6. Discussion of key ethical considerations and other challenges in this work Long-term goals: • Enhance understanding of CBPR core values and principles. • Apply CBPR principles and practices in your own research, teaching and practice, including written development of a CBPR project outline.

At the end of the session, the learner will be able to:
• Define historical highlights of CBPR
• List 2-3 key principles of CBPR
• Differentiate CBPR from traditional, researcher-centered practice
• Apply CBPR principles and practices in your own research, teaching and practice, including written development of a CBPR project outline
• List and discuss at least 2 ethical and other challenges related to implementation of CBPR projects

ABCT Student Membership Committee 2021 Convention Panel

**Moderator:** Shannon M. Blakey, Ph.D., Durham VA Health Care System/VA Mid-Atlantic Mental Illness Research, Education & Clinical Center (MIRECC)

**Panelists:** Donte Bernard, Ph.D., Medical University of South Carolina
Sarah Campbell, Ph.D., VA Puget Sound Health Care System – Seattle
Angela Fang, Ph.D., University of Washington
Antonio Polo, Ph.D., DePaul University

**Primary Category:** Professional/interprofessional issues

**Key Words:** Professional Development, Student Issues

Agencies like the Ford Foundation, National Institutes of Health (NIH), National Science Foundation (NSF), and U.S. Department of Veterans Affairs (VA) strive to attract, develop, and retain talented mental health scientists through the administration of research training grants. To this end, agencies invest in promising predoctoral, postdoctoral, and early career scientists by awarding grants to not only support the execution of an important research project, but also the awardee’s professional advancement. Such training grants are highly competitive, however, and not all eligible candidates are equipped or empowered to submit a successful application.

This panel, sponsored by the ABCT Student Membership Committee, will provide students and postgraduate trainees insight into the purpose, advantages, and challenges of predoctoral and early career training grants. Panelists include recipients of select student grants (NSF and Ford Foundation awards), postdoctoral training grants (NIH T32 and VA Mental Illness Research and Treatment fellowships), and early career research training grants (NIH K and VA Career Development Awards). The panel additionally includes an established faculty member who regularly reviews and mentors predoctoral training grant applications. Panelists will highlight the specific advantages of various training grants, describe their experiences drafting/evaluating training grant applications, offer recommendations for making the most of training grant, and share other “lessons learned” during their predoctoral and early career research development. There will be ample opportunity for attendee participation in addition to moderated Q&A.

You will learn:
- Explain the purpose and professional development value of predoctoral and early career training grants.
- Define the eligibility and application requirements for various predoctoral and early career training grants.
- Describe what applicant- and application-related factors strengthen the competitiveness of a predoctoral and early career training grant candidate.
Virtual reality (VR) has unique benefits in treating anxiety. VR is increasingly affordable, available, intuitive, and evidence-based. Clients are actively searching for therapists who offer VR therapy (VRT). Attendees will see examples of VR scenarios and products and will learn how VR can be used for various therapeutic purposes, including VR exposure therapy. Benefits, risks, and research support will be reviewed. Attendees will learn the strengths and limitations of VR exposure compared to imaginal exposure and in vivo exposure. The timing and uses of VR will be discussed in the context of an overall model of anxiety disorders and their treatment.

Outline:
- What VR is and what equipment is needed.
- Key research findings supporting the use of VR in psychotherapy.
- Clinical applications of VR.
- Advantages and disadvantages of in virtuo exposure compared with imaginal exposure or in vivo exposure.
- Risks when using VR for exposure therapy.
- Choosing the most appropriate VR product(s) for attendees’ practices.

Long-term goals:
- Assess whether to add VR as a clinical tool his/her/their practice.
- Select the appropriate VR product(s) for his/her/their practice.

You will learn:
• Describe two uses of virtual reality (VR) in psychotherapy.
• List two research findings supporting the use of VR in psychotherapy.
• Name one advantage of VR exposure over imaginal exposure.
• Explain two advantages of VR exposure over in vivo exposure.
• Identify two risks of using VR for exposure therapy.

Recommended Readings:

Institute 6

Motivational Interviewing in Diverse Healthcare Settings

Daniel W. McNeil, Ph.D., West Virginia University
Trevor A A. Hart, Ph.D., CPsych, Ryerson University

Moderate level of familiarity with the material

Primary Category: Health Psychology / Behavioral Medicine - Adult

Key Words: Motivational Interviewing, Health Psychology, Treatment

This institute involves development of intermediate skills in Motivational Interviewing (MI) and applying MI in diverse health care contexts (e.g., substance use clinics, sexual behavior problem programs, community-based settings, hospital settings with medical patients). This training is designed for helping professionals and students who are interested in learning additional MI skills to increase patients’ motivation to make changes in cognitive, emotional, and behavioral functioning, and to engage in promoting healthy behaviors. The training is provided by experienced trainers in MI, including one who is a member of the Motivational Interviewing Network of Trainers (MINT). Participants will learn and practice methods to assist patients regarding the promotion of healthy lifestyle behaviors (e.g., diet and exercise, medication adherence, tobacco cessation, oral health promotion). This session will review the conceptual model for understanding MI, identify the key principles and processes of MI, provide an operational definition of “MI spirit,” and describe the evidence base for the use of MI for promoting health behaviors. Using demonstrations and role-play, the application of specific techniques to increase patient motivation (and respond to resistance) will be covered. Eliciting, identifying, and responding to health-related “change talk” (in contrast to “sustain talk” and avoidance) will be demonstrated and practiced. The training will include experiential components in which participants work in dyads and small groups, and with the trainers, to practice skills in a comfortable, interactive, safe, and supportive learning environment. Integrating MI in primary care and other health care settings will be addressed, including how to utilize brief interventions.
Outline:
• Description of the MI model and methods applied to diverse health care settings
• View examples of MI with various patient groups and types of problems
• Practice MI core skills in an interactive, supportive, and growth-oriented atmosphere
• Consolidation of existing MI skills and stepwise development of them for use with and for a diversity of patients and settings

You will learn:
• Describe the MI model and the evidence base for the use of MI in health behavior change with patients in diverse health care settings.
• Demonstrate the 5 core MI skills.
• Explain MI “spirit” and the four key MI processes.
• Apply specific MI interventions to increase patient motivation for healthy behavior change, including brief interventions.
• Utilize MI in primary care and other health care settings in working with adult, adolescent, and older adult patients.

Long-term goals:
• Participants will articulate a deeper understanding of MI and its application in diverse health care settings.
• Participants will evidence greater confidence in using MI with a diverse clientele and in diverse health care settings.

Earn 5 continuing education credits

Institute 4

Trauma-informed Mindfulness: Integrating Mindfulness-based Practices into Psychotherapy with Traumatized Clients

Terri L. Messman, Ph.D., Miami University
Noga Zerubavel, Ph.D., Duke University Medical Center

Basic level of familiarity with the material

Primary Category: Trauma and Stressor Related Disorder and Disasters
Key Words: Mindfulness, Trauma, Abuse / Maltreatment

This training will provide participants with an understanding of how to integrate mindfulness into psychotherapy with trauma survivors safely and effectively. Trauma occurs as a result of violence, abuse, neglect, loss, disaster, war, and other emotionally harmful experiences, and the impact often endures long past the event through a variety of sequelae. Traumatized individuals vacillate between experiences of hyperarousal, emotional reactivity, and intrusive imagery, and hypoarousal, dissociation, and numbing of emotions. Mindfulness can provide clients with specific techniques for enhancing self-awareness, emotion regulation, distress tolerance, and attentional control, while also cultivating qualities of acceptance, compassion, and cognitive flexibility. Meditation and other mindfulness practices can promote optimal arousal and provide traumatized clients emotion regulation strategies. Evidence-based mindfulness interventions, such as Mindfulness-Based Cognitive Therapy (MBCT), are widespread. However, mindfulness practices can trigger traumatic memories or physiological arousal in some trauma survivors. Emerging evidence suggests mindfulness exercises may need to be modified for traumatized clients. Trauma-sensitive mindfulness interventions titrate the client’s arousal to maintain a window of tolerance, which facilitates psychotherapy and general well-being. In this training, Dr. Messman and Dr. Zerubavel will provide guidance on how to integrate mindfulness-based practices into psychotherapy with traumatized clients. Participants will learn to teach mindfulness as a way to reduce traumatic sequelae and improve emotion regulation. Discussion will emphasize both formal meditative practices and informal mindfulness practice. The training will involve learning through various methods, including lecture, experiential practice of guided mindfulness meditation, and small group work. No prior knowledge of mindfulness is assumed.

Outline:
Setting the Frame
• Practicing self-care during this training
• Practicing self-awareness
• Practicing responsiveness, with discernment between self-care and avoidance
• Beginner’s mind
• Experiential processes to attend to during this training
• Emphasis on experiencing
• Resourcing
• Pacing
• Responsiveness
• Mindfulness practices & clinician experience
• Ethical responsibility to engage in self-assessment of competence

**Mindfulness Foundations**
• What is mindfulness?
• Formal & informal mindfulness practice
• Integration into psychotherapy
• Therapist mindfulness
• Mindfulness-informed psychotherapy
• Mindfulness-based psychotherapy

**Trauma Foundations**
• What is trauma?
• Trauma is not defined by PTSD
• Types of traumatic events and DSM 5: Trauma-Related Distress
• Developmental and complex trauma
• Minority Stress: Oppression & racism as trauma
• Denial of Trauma
• Individual level
• Societal level (e.g., DARVO)
• Psychological Adaptation
• Trauma-related problematic beliefs & shattered assumptions
• TRASC (altered consciousness)
• Psychophysiology 101: Trauma & dysregulation
• Psychophysiological arousal & window of tolerance
• Evolutionary motivational process & emotion regulation
• Fight, flight, fawn, & freeze
• Polyvagal Theory

**Mechanisms of Mindfulness in Support of Trauma Therapy**
• Attention
• Nonjudgmental awareness
• Cognitive flexibility
• Radical acceptance
• Self-compassion
• Embodiment and Body Awareness

**Integrating Trauma-Informed Mindfulness Techniques into Practice**
• Psychoeducation about the functions of emotions
• Grounding activities
• Attention-focused practices
• Acceptance-based practices

**Actions to Reduce Adverse Outcomes**
• The trauma-sensitive provider
• Collaboration
• Understanding
• Power dynamics and offering
• Distinguish adverse from expected reactions
• Interoceptive awareness and trauma in the body
• Recognizing overwhelm
• Strategies for addressing overwhelm

You will learn:
• Describe three ways that mindfulness practice can benefit the treatment of trauma-related mental health issues.
• Identify two mindfulness techniques that foster body awareness and explain how they can contribute to emotion regulation and self-awareness in trauma-survivors.
• Describe one mechanism that explains how traumatic experience dysregulates physiological arousal and how mindfulness practices foster physiological regulation.
• Identify three signs of client overwhelm and describe three responsive strategies you would offer to modify mindfulness practices in order to reduce dysregulation.
• Utilize the three levels of inquiry following any mindfulness practice in order to facilitate processing, generalizing, and consolidating.

Long-term Goals:
• Identify three signs of client overwhelm and describe strategies to modify mindfulness practices and reduce dysregulation that is tailored to your practice.
• Identify and describe three types of mindfulness practice, including specific mindfulness exercises, to fit meet your client’s needs and integrate into your treatment conceptualization.

Earn 4 continuing education credits

Clinical Intervention Training 2 – (Part I)

Culturally Responsive, Anti-racist Cognitive Behavioral Therapeutic Practice: Awareness, Knowledge, and Skills

Jessica LoPresti, Ph.D., Suffolk University
Tahirah Abdullah, Ph.D., University of Massachusetts Boston

All levels of familiarity with the material

Primary Category: Treatment-CBT
Key Words: CBT, Evidence-Based Practice, Race

While racial diversity grows in the U.S., stark disparities in access to quality, effective mental healthcare grow in tandem, debilitating people and communities of color (Cook et al., 2017; Creedon & Cook, 2016). Even after surmounting barriers to accessing mental healthcare, people of color frequently experience negative outcomes related to mental health treatment experiences. Research has suggested several reasons for the decreased likelihood of receiving quality, effective mental health services for people of color, including lack of culturally responsive mental healthcare (American Psychiatric Association, 2017). Further, racism has been and continues to be pervasive in U.S. society, contributing to increased racism-related stress, psychological distress, anxiety, depression, and trauma symptoms (Abdullah et al., in press; Brown et al. 2000; Hwang & Goto, 2008; Pieterse et al., 2010; Whitbeck et al., 2002). Cognitive behavioral therapy has long been considered a gold standard, evidence-based best practice for the treatment of many psychological challenges (David et al., 2018). Therefore, it is imperative that CBT clinicians are antiracist in their work and workplaces and are trained in the provision of culturally responsive CBT. This workshop will present some background knowledge and foundational skills for being an antiracist therapist and implementing culturally responsive cognitive behavioral interventions.

Outline:
• Awareness and knowledge needed for culturally-responsive, anti-racist CBT
• Defining racism at the individual, interpersonal, and institutional and systemic levels
• Foundational understanding of racism and mental healthcare, cultural humility, and anti-racist mental health care
• Awareness of the practices related to the mental health care process that could contribute to marginalization and self-reflection related to how these may occur in one’s own workplace or therapy practice
• Understanding one’s own positionality as it relates to power and privilege in the context of the therapist role, one’s other identities, and the client’s identities
• Knowledge of the assumptions of cognitive-behavioral therapies and ways that these assumptions could contribute to marginalization if applied inappropriately

• Skills needed for culturally-responsive, anti-racist CBT
  • Development of skills related to culturally-responsive and anti-racist mental health care, including the policies and procedures in the therapy office and the process in the therapy room
  • Appropriate application of CBT in the context of racism-related stress
  • Specific skills to enhance, frame, and contextualize psychoeducation, cognitive restructuring, exposure, acceptance, and other cognitive-behavioral interventions
  • Develop individual plan for engaging in the continued learning and self-reflection needed to be a culturally-responsive/humble and anti-racist therapist.

You will learn:
• Consider and describe positionality as it relates to engaging in anti-racist CBT.
• Identify and describe how racism-related stressors impact the development, course, and treatment of people of color experiencing psychological distress.
• Increase awareness and understanding of ways CBT’s assumptions may further marginalize clients of color when applied to experiences of racism.
• Describe, understand, and develop skills related to providing anti-racist, culturally responsive CBT.

Long-term Goal:
• Develop a plan with accountability for how you will work towards a more anti-racist therapy practice

Organization and Executive Function Skills Interventions for Children and Adolescents with ADHD

Margaret H. Sibley, Ph.D., University of Washington School of Medicine
Richard Gallagher, Ph.D., New York University School of Medicine

Basic to Moderate level of familiarity with the material
Primary Category: ADHD - Child
Key Words: ADHD, Evidence-Based Practice

Two efficacious psychosocial interventions are available for treating the challenging difficulties that youth with attention-deficit/hyperactivity disorder (ADHD) have in managing home and school demands. One is for children and their parents (Organization Skills Training, OST; Abikoff et al., 2013) and one is for teens and their parents (Supporting Teens’ Autonomy Daily, STAND; Sibley et al., 2016). Participants will learn how deficits in organizational skills and executive functioning hinder school productivity, school performance, and contribute to documented conflicts in family relationships and emotional distress in children and adolescents. Instruction is given on the details of the two interventions and how to implement components of the interventions. Special therapeutic techniques are incorporated, including motivational interviewing and how to view skill deficits as problems to manage, rather than defining personal character flaws. Participants learn how to deliver the interventions in clinical settings and how to select youth for whom the interventions are most appropriate.
Outline:
• Setting the Agenda
• Executive Function and Organizational Skills Issues – ADHD in general and pre-teen children
• Executive Function and Developmental Considerations for Treatment in teens
• Empirical Support and Foundation of Organizational Skills Training
• Organizational Skills Training Overview
• Organizational Skills Training - Detailed Session Review and Practice/Demonstration
• OST Implementation Questions
• STAND
• Conclusion and Questions

Long-term goals:
• Conduct manualized, empirically tested treatments to improve organization, time management, planning, and executive functions skills, which are proven to have positive effects on family functioning and academic productivity and performance.
• Utilize best practices to promote youth skill application outside of session, including engaging the parent in contingency management to promote skill practice.

You will learn:
• Identify three common organization, time management, and planning deficits in children and adolescents with ADHD and list how they impact home and family.
• Know how to conduct a systematic evaluation for identifying up to four organizational, time management, planning, and executive function deficits through the use of questionnaires or functional interviews.
• Identify the key components of the Organization Skills Training treatment.
• Identify the key components of the Supporting Teens’ Autonomy Daily Program.
• Integrate motivational techniques into treatment to engage parents and youth.

Culturally Responsive, Anti-racist Cognitive Behavioral Therapeutic Practice: Awareness, Knowledge, and Skills

Wednesday, 12:30 p.m. – 4:30 p.m.
Earn 3 continuing education credits (Participants must take part I and II)

Jessica LoPresti, Ph.D., Suffolk University
Tahirah Abdullah, Ph.D., University of Massachusetts Boston

All levels of familiarity with the material

Primary Category: Treatment-CBT
Key Words: CBT, Evidence-Based Practice, Race

While racial diversity grows in the U.S., stark disparities in access to quality, effective mental healthcare grow in tandem, debilitating people and communities of color (Cook et al., 2017; Creedon & Cook, 2016). Even after surmounting barriers to accessing mental healthcare, people of color frequently experience negative outcomes related to mental health treatment experiences. Research has suggested several reasons for the decreased likelihood of receiving quality, effective mental health services for people of color, including lack of culturally responsive mental healthcare (American Psychiatric Association, 2017). Further, racism has been and continues to be pervasive in U.S. society, contributing to increased racism-related stress, psychological distress, anxiety, depression, and trauma symptoms (Abdullah et al., in press; Brown et al. 2000; Hwang & Goto, 2008; Pieterse et al., 2010; Whitbeck et al., 2002). Cognitive behavioral therapy has long been considered a gold standard, evidence-based best practice for the treatment of many psychological challenges (David et al., 2018). Therefore, it is imperative that CBT clinicians are antiracist in their work and workplaces and are trained in the provision of culturally responsive CBT. This workshop will present some background knowledge and foundational skills for being an antiracist therapist and implementing culturally responsive cognitive behavioral interventions.

Outline:
• Awareness and knowledge needed for culturally-responsive, anti-racist CBT
• Defining racism at the individual, interpersonal, and institutional and systemic levels
• Foundational understanding of racism and mental health care, cultural humility, and anti-racist mental health care
• Awareness of the practices related to the mental health care process that could contribute to marginalization and self-reflection related to how these may occur in one’s own workplace or therapy practice
Understanding one’s own positionality as it relates to power and privilege in the context of the therapist role, one’s other identities, and the client’s identities

Knowledge of the assumptions of cognitive-behavioral therapies and ways that these assumptions could contribute to marginalization if applied inappropriately

Skills needed for culturally-responsive, anti-racist CBT
- Development of skills related to culturally-responsive and anti-racist mental health care, including the policies and procedures in the therapy office and the process in the therapy room
- Appropriate application of CBT in the context of racism-related stress
- Specific skills to enhance, frame, and contextualize psychoeducation, cognitive restructuring, exposure, acceptance, and other cognitive-behavioral interventions
- Develop individual plan for engaging in the continued learning and self-reflection needed to be a culturally-responsive/humble and anti-racist therapist.

You will learn:
- Consider and describe positionality as it relates to engaging in anti-racist CBT.
- Identify and describe how racism-related stressors impact the development, course, and treatment of people of color experiencing psychological distress.
- Increase awareness and understanding of ways CBT’s assumptions may further marginalize clients of color when applied to experiences of racism.
- Describe, understand, and develop skills related to providing anti-racist, culturally responsive CBT.

Long-term Goal:
- Develop a plan with accountability for how you will work towards a more anti-racist therapy practice

In 2017, New Zealand (NZ) initiated a pilot study to explore the impact of integrating behavioral health care into primary care to improve behavioral health access and outcomes for all NZ citizens. In the pilot study and in a National Demonstration project that followed it, all staff recruited to work as Health Improvement Practitioners (HIPs) were trained to work in the Primary Care Behavioral Health Model (PCBH; Robinson & Reiter, 2016) and to use Focused Acceptance and Commitment Therapy (Focused ACT) (Robinson, 2020) to inform assessment and intervention development. A review of 29 studies found that the PCBH model offers an effective population health approach to behavioral health service delivery and that it is associated with positive patient and implementation outcomes. Focused ACT is a brief intervention approach that developed in parallel with ACT. In this institute, Robinson and Strosahl introduce key components of the PCBH model and the Focused ACT approach and describe procedures used in training NZ HIPs.

Findings of the NZ experiment included improved access and clinical outcomes for patients, including Maori and Pacific Islanders—a giant step toward realization of health equity. Other findings included improved patient and physician satisfaction and a trend toward lower rates of prescribing antidepressants. The NZ Ministry of Health made a policy decision to expand HIP services in 2019, with a goal of making HIP services available to all citizens. Participants will view a role-play demonstration of a Focused ACT visit and review handouts that support rapid development of foundational skills. Participants will also be invited to think through issues related to scaling up HIP services, training HIP trainers, and developing a national registry of HIP outcomes. The institute will conclude with small
group work centering on participant plans to use PCBH and Focused ACT strategies in their practice and to identify actions they might take to promote transformation in their communities based on the New Zealand integrated care experiment.

You will learn:
- Describe the PCBH model using the GATHER acronym.
- List areas of assessment typically included in the Focused ACT approach.
- Define the intended outcome of every Focused ACT visit.
- List the components of a Focused ACT follow-up visit.
- Describe what happens when a HIP receives a “warm handover”.

Long-term goals:
This institute offers you the opportunity to learn about cutting-edge dissemination of behavior change interventions that:
- Address both medical and psychological health
- Improve patient or client access to health care
- Improve patient engagement.
- Empower greater equity in use of and benefit from behavioral health services.

**Recommended Readings:**
Over the last two decades, parent- and family-based approaches to treat early childhood anxiety have garnered increasing evidence (e.g., Carpenter et al., 2014). One such promising intervention is the CALM Program (Puliafico et al., 2013), which is an adaptation of Parent Child Interaction Therapy (PCIT) to treat anxiety in children ages 3–8. In the CALM Program, caregivers learn skills to more effectively guide and reinforce their child in approaching anxiety-provoking situations and to extinguish avoidance patterns via selective attention, modeling and effective instruction given in caregiver-only “teach” sessions. During “coach” sessions, caregivers receive live, in-session coaching in the application of these skills while leading their child through graded exposure exercises. As in standard PCIT, therapists conduct live coaching unobtrusively, often from behind a one-way mirror, which facilitates generalization to other settings. Coaching sessions continue until caregivers exhibit skill mastery and exposure goals are consistently met. A recently completed RCT evaluating a telehealth format of the CALM Program (i.e., iCALM) demonstrated initial efficacy in reducing early anxiety problems and associated family impairment, particularly among families presenting with high levels of baseline accommodation (Comer et al., 2021). Such support has been particularly encouraging in the context of the COVID-19 pandemic and the sharp rise in telehealth service utilization. This session is intended to familiarize attendees with the CALM Program and to teach specific skills associated with the treatment. The rationale for applying PCIT-based treatment principles to treating early child anxiety will be reviewed. A session-by-session description of the treatment will be provided. Key treatment components will be demonstrated and role-played, including live bug-in-the-ear parent coaching of child exposures. The presenters will also review strategies for effectively applying the CALM Program over telehealth using the iCalm intervention.

Outline:

- Rationale for treating early childhood anxiety with PCIT
- Developmental considerations that influence treatment modality and structure
- Brief review of PCIT for early childhood disorders
• Review of existing research supporting parent-based interventions for early childhood anxiety
• Review of existing research supporting the CALM Program and iCALM for early childhood anxiety
  • Overview of the CALM Program treatment approach
• Review of behavioral approaches emphasized throughout CALM Program treatment (e.g., selective attention, parent modeling, graded exposure)
• Discussion of the role of caregivers in treatment
• Rationale for the use of live in-session coaching of skills
• Review of assessments used to assess child anxiety and treatment progress
  • Session-by-session description of the CALM Program
• Teaching caregivers CDI skills and providing anxiety psychoeducation
• Coaching caregivers in use of CDI skills
• Role-play demonstrating use of CDI skills to shape child approach behavior
• Teaching DADS skills to caregivers
• Coaching caregivers in use of DADS skills during exposures with children
• Role-play/video demonstrating use of DADS skills
  • Applying the CALM Program to telehealth using iCALM
• Rationale for use of iCALM treatment approach
• Treatment modifications when providing iCALM via telehealth
• Video demonstrating iCALM intervention
• Audience Question & Answer

You will learn:
• Discuss the rationale for adapting PCIT to the treatment of anxiety in young children.
• Describe the role of parental attention in maintaining anxiety symptoms in young children.
• Identify 3 developmentally appropriate treatment strategies when working with young children with anxiety disorders.
• Explain the 4 steps of the DADS sequence of behaviors used to promote approach behavior.
• Identify 2 factors to help determine if the iCALM telehealth format should be considered.

Long-term goals:
• Demonstrate how to use selective attention to shape a child’s approach and avoidance behavior.
• Coach caregivers in leading their children in exposure-based interventions.

Earn 5 continuing education credits

Institute 3

Treating Transdiagnostic Sleep and Circadian Problems in Clinical Practice: Basics & Beyond

Allison G. Harvey, Ph.D., University of California Berkeley
Emma Agnew, LCSW, LCSW, University of California, Berkeley
Marlen Diaz, B.A., University of California, Berkeley

Basic level of familiarity with the material
Primary Category: Transdiagnostic
Key Words: CBT, Sleep, Transdiagnostic

Sleep and circadian problems are among the most prevalent problems. They undermine our emotional functioning, our health, and our cognition, and they contribute to behavioral problems such as risk taking and substance use. Much research on sleep and circadian problems has been disorder-focused—treating a specific sleep problem (e.g., insomnia) in a specific diagnostic group (e.g., depression). However, real-life sleep and circadian problems are not so neatly categorized. Insomnia often overlaps with hypersomnia, delayed sleep phase and irregular sleep-wake schedules. This core observation was one of the factors that motivated the development of the Transdiagnostic Sleep and Circadian Intervention (TranS-C). The goal of TranS-C is to provide a treatment approach for a variety of sleep problems comorbid with a variety of psychological and physical disorders, and that can be used confidently by a variety of mental health professionals. TranS-C draws from and combines CBT-I with elements from three existing evidence-based treatments: Interpersonal and Social Rhythm Therapy, chronotherapy, and Motivational Enhancement (Miller & Rollnick, 2012). TranS-C is a modular approach to reversing and maintaining psychosocial, behavioral, and cognitive processes via four cross-cutting modules, four core modules, and seven optional modules. The four cross-cutting modules are: case formulation; education; behavior change and motivation; goal setting. The four core modules are: establishing regular sleep-wake times, including learning a wind-down and wake-up routine; improving daytime functioning; correcting unhelpful sleep-related beliefs; and maintenance of behavior change. The optional modules are: improving sleep efficiency; reducing time in bed; dealing with delayed or advanced phase; reducing sleep-related worry/vigilance; promoting compliance with CPAP/exposure therapy for claustrophobic reactions to CPAP; negotiating sleep in a complicated environment and reducing nightmares.

Outline:
• Assessment
• Sleep and circadian functioning across the lifespan
• Rationale for TranS-C and evidence base.
• Crossing cutting modules
  • case formulation
  • education
  • behavior change and motivation
  • goal setting
• Core modules
  • establishing regular sleep-wake times including learning a wind-down and wake-up routine
  • improving daytime functioning
  • correcting unhelpful sleep-related beliefs
  • maintenance of behavior change
• Brief overview of the Optional Modules fuller description of two commonly used optional modules:
  • improving sleep efficiency
  • reducing sleep-related worry/vigilance
• Adapting TranS-C for various people and contexts

You will learn:
• Gain understanding of the key aspects of the biology, psychology and social context of the sleeper.
• Acquire skills to assess sleep and circadian functioning.
• Acquire skills in completing a case conceptualization.
• Acquire skills in delivering the core modules of TranS-C.
• Gain understanding on how to adapt CBT-I for teens and comorbid cases, particularly people diagnosed with a mood disorder.

Special Session - Orientation to the Virtual Convention

Gregory S. Chasson, Ph.D., Illinois Institute of Technology
Elizabeth C. Katz, Ph.D., Towson University

Join Gregory Chasson and Elizabeth Katz, ABCT’s Program Chair and Associate Program Chair at 6:15 pm to learn how to navigate the virtual platform and make the most of the virtual convention experience this year. Whether you are a new member, first-time convention attendee, or just want to learn how to navigate our virtual convention, all are welcome. Take full advantage of earning continuing education credits. Discover the new electronic evaluation forms, CE certificates, attendee quizzes, and the credit tracking system. Enjoy networking opportunities, gain insights into the convention electronic program and learn how to plan your itinerary. Keep in mind that we begin each day with an invited address. Plan to stay connected to ABCT throughout the year via our website, Facebook page, Twitter, Instagram, Special Interest Groups, and other networking opportunities. Next up, ABCT President David Tolin welcomes you to ABCT’s virtual convention and presents his Presidential Address, “Hoarding: Chasing a New Diagnosis Through Brain, Body, and Behavior”
Wednesday, 7:15 p.m. – 8:30 p.m.

Earn 1 continuing education credit

Presidential Address

Hoarding: Chasing a New Diagnosis Through Brain, Body, and Behavior

David F. Tolin, Ph.D., ABPP, Anxiety Disorders Center, Institute of Living
Adjunct Professor of Psychiatry, Yale University School of Medicine
2021 President, Association for Behavioral and Cognitive Therapies

Dr. Tolin is the Founder and Director of the Anxiety Disorders Center at the Institute of Living, and an Adjunct Professor of Psychiatry at Yale University School of Medicine. He is the President of the Association for Behavioral and Cognitive Therapies and the Past-President of the Clinical Psychology Division of the American Psychological Association. His research is funded by the National Institutes of Health. He received the Award for Lifetime Contribution to Psychology from the Connecticut Psychological Association. Dr. Tolin is the author of over 200 scientific journal articles, as well as several books including Doing CBT: A Comprehensive Guide to Working with Behaviors, Thoughts, and Emotions, and Buried in Treasures: Help for Compulsive Acquiring, Saving, and Hoarding. Dr. Tolin has been featured on the reality TV series Hoarders and The OCD Project and has been a recurrent guest on The Oprah Winfrey Show and The Dr. Oz Show.

Hoarding disorder (HD) is a relatively new diagnosis in DSM-5. Characterized by excessive clutter and difficulty discarding objects, this condition is both common and potentially debilitating. Cognitive-behavioral therapy has been demonstrated to be efficacious, but most patients remain clinically symptomatic after treatment. I suggest that
current CBT faces an “efficacy ceiling” due to our currently fragmented understanding of the disorder. I will discuss a body of research aimed at increasing our understanding of central and peripheral nervous system correlates of HD and will describe how those correlates are reflected in behavior. We will also examine current research on neural moderators and mediators of CBT treatment. The ultimate aim of this research is to develop a working model of HD that will inform specific, targeted intervention efforts. To this end, we will review novel interventions that might more specifically target dysfunctional brain mechanisms and provide greater symptom relief.

Outline:
• 1. Review of HD symptoms and prevalence
• 2. Efficacy and limitations of CBT for HD
• 3. Understanding poor insight through blunted responding
• 4. Understanding decision-making deficits through central and peripheral hyperactivation
• 5. Discussion of novel interventions targeting biological dysfunction

You will learn:
• Review the efficacy and limitations of CBT for HD.
• Discuss how HD is associated with abnormalities of peripheral physiology.
• Describe the neural correlates of HD and its treatment.

Long-Term Goal
• Discuss an emerging biopsychosocial model of HD.

Clinical Round Table 1

Moving Towards Culturally Informed and Anti-oppressive, Trauma-focused Care

Moderators: Samantha N. Hellberg, B.A., University of North Carolina at Chapel Hill
Casey D. Calhoun, Ph.D., Department of Psychiatry, University of North Carolina at Chapel Hill

Panelists: Molly Cevasco, Ph.D., Seattle Children’s Hospital
Isha W. Metzger, Ph.D., University of Georgia
Kimberly E. Dean, Ph.D., Massachusetts General Hospital; Harvard Medical School
Jillian Shipherd, Ph.D., Veterans Health Administration Central Office; National Center for PTSD Women’s Health Sciences Division at VA Boston Healthcare System; Boston University
Rosaura Orengo-Aguayo, Ph.D., Medical University of South Carolina

Primary Category: Trauma and Stressor Related Disorders and Disasters

Key Words: Trauma, Underserved Populations, Evidence-Based Practice

Individuals from historically disadvantaged and marginalized groups are disproportionately exposed to trauma and stress and are thus at greater risk of posttraumatic stress (PTS) and stress-related mental health conditions. Despite the clear need for trauma-informed interventions that accommodate experiences of oppression, disadvantage, and mistreatment, sparse literature exists to guide clinicians in adapting trauma-focused care to better meet the needs of diverse clients. The use of culturally informed assessments of trauma and PTS are critical for addressing structural oppression and clinician biases that could result in misdiagnosis, insufficient conceptualization of risk and resiliency factors, and ineffective treatment planning. Such approaches would align with public health initiatives centered on reducing the toll of historical and current oppression and trauma on minority mental and physical health. Expert panelists will share research evidence and anecdotal accounts relevant to the provision of culturally informed and anti-oppressive care for patients who have experienced cultural oppression or mistreatment. PTS and stressor-related disorders will be explored, with an emphasis on cultural factors to consider in assessment, case conceptualization, diagnostic formulations, and treatment planning. Panelists will share information about how oppression contributes to trauma-related psychopathology and ways clinicians can adapt CBT-based trauma interventions to improve outcomes for patients holding identities linked with oppression (e.g., race/ethnicity, sexual orientation,
gender, ability). Panelists will also highlight key research gaps and crucial next steps in optimizing trauma-focused care for oppressed individuals. A handout of resources will be provided to support continued learning.

10:30 a.m. – 12:00 p.m.

Earn 1.5 continuing education credits

Clinical Round Table 3

Using Technology to Improve Access, Engagement, Research, and Outcomes with Cognitive Behavioral Therapy

**Moderators:** J. Ryan Fuller, Ph.D., My Best Practice
Jacqueline B. Persons, Ph.D., Oakland Cognitive Behavior Therapy Center

**Panelists:**
Lindsay A. Bornheimer, Ph.D., University of Michigan
Douglas W. Woods, Ph.D., Marquette University
Nicole A. Stadnick, Ph.D., University of California San Diego
Alex R. Dopp, Ph.D., RAND
Andrea K. Graham, Ph.D., Northwestern University Feinberg School of Medicine

Primary Category: Technology
Key Words: Technology / Mobile Health, CBT, Treatment

Despite advances in evidence-based therapies and technology, many continue to suffer with behavioral health issues. A number of barriers limit access to EBP, and many people are unresponsive to treatment. The COVID-19 pandemic has exacerbated some of these issues, especially for many minorities.

Seven panelists will describe and discuss the way they use existing technologies and have developed new ones to overcome some of the hurdles of access and to improve clinical care.

Jacqueline B. Persons will describe web-based tools and other technology she uses as part of her practice infrastructure, which she has designed to support data collection for both clinical and research purposes.

Lindsay Bornheimer will describe the utility and scalability of an innovative technology-assisted and simulation-based CBT skill evaluation program, developed by SIMmersion, to disseminate evidence-based care.

Doug Woods will describe how www.tichelper.com, an online self-help website for families of children with tics, can increase the accessibility of behavior therapy. He will also describe how wearable technologies can be integrated with traditional behavioral interventions.

J. Ryan Fuller will explain how evidence-based practices can be integrated into a web-based electronic-health record (My Best Practice) to improve clinical outcomes, enhance client engagement, and reach underserved populations.
Nicole Stadnick will share her work on how electronic health record platforms and other digital mental health technologies can expand access to care and reduce disparities to that access for underserved communities.

Alex Dopp will describe how to optimize the use of video-conferencing technology to deliver psychological services, as well as the application of implementation science and human-centered design strategies to increase the use of video-conferencing by mental health professionals.

Andrea Graham will discuss the best methods to design, test, and implement digital mental health interventions, with a particular focus on their integration in health care settings.

10:30 a.m. – 12:00 p.m.

Earn 1.5 continuing education credits

Clinical Round Table 2

CBT & ACT for the People: Adapting Group Treatments for a True Clinical Population

Moderators: Lynn M. McFarr, Ph.D., Harbor-University of California, Los Angeles Medical Center
Anne Marie Albano, ABPP, Ph.D., Modern Minds

Panelists: Zachary Blumkin, Psy.D., Columbia University Medical Center
Erica Gottlieb, Ph.D., Columbia University Medical Center
Elizabeth Ellman, Psy.D., Columbia University Medical Center
Jared O’Garro-Moore, Ph.D., Columbia University Medical Center
Constance Abruzzese, Ph.D., Columbia University Medical Center

Primary Category: Treatment - CBT

Key Words: CBT, ACT (Acceptance & Commitment Therapy), Group Therapy

Cognitive Behavioral Therapy (CBT) and Acceptance and Commitment Therapy (ACT) have demonstrated strong empirical support for treatment of anxiety and depression (Forman et al., 2007; Hofmann & Smits, 2008; Zettle, 2015). However, these interventions are primarily conducted in individual, in-person settings, increasing costs and reducing accessibility compared to telehealth group therapy. There is concrete evidence that group approaches are efficacious for anxiety (Norton & Barrera, 2012) and depression (Thimm & Antonssen, 2014). Nevertheless, a significant limitation of the current research is the diagnostic homogeneity of its participants (Norton & Barrera, 2012).

In order to reach larger populations, our field must continue to create, evaluate, and promote the most effective therapeutic groups designed for patients with significant comorbidities. To enhance the impact of cognitive and behavior therapies across populations and systems, this panel will discuss the effectiveness and efficacy of telehealth CBT and 3rd wave groups modernized (utilizing an inhibitory learning model) for individ-
uals with multiple diagnoses and symptom presentations; including, but not limited to, personality disorders and substance use disorders.

The panelists have successfully developed and implemented these groups at an Intensive Outpatient Program for an acute patient population with comorbid diagnoses. Outcome data, which will be presented, demonstrate a statistically significant reduction in self-reported symptoms over a two-month period in both CBT and ACT groups. The panelists will discuss how these groups target symptoms of anxiety and depression; including the most effective mechanisms of change. The panelists will also address effective clinician strategies for challenging clinical moments in addition to telehealth adaptations created during the COVID-19 pandemic. Existing research on barriers to group-based CBT and 3rd wave interventions will also be reviewed. Finally, implications for future research and practice will be discussed.

10:30 a.m. – 12:00 p.m.

Earn 1.5 continuing education credits

Panel Discussion 1

Training and Implementation of CBT for Psychosis in Clinical Services to Improve Equity and Quality of Care for Veterans

Moderator: Yuliana Gallegos Rodríguez, Ph.D., VA San Diego Healthcare System; University of California, San Diego

Panelists: Colin J. Carey, Ph.D., VA San Diego Healthcare System; University of California, San Diego
Samantha J. Reznik, Ph.D., VA San Diego Healthcare System/University of California, San Diego
Yulia Landa, M.S., Psy.D., Icahn School of Medicine at Mount Sinai; Veteran’s Affairs VISN 2 Mental Illness Research Education and Clinical Center (MIRECC)
Joseph Deluca, Ph.D., Icahn School of Medicine at Mount Sinai; Veteran’s Affairs VISN 2 Mental Illness Research Education and Clinical Center (MIRECC)
Shirley M. Glynn, Ph.D., UCLA

Primary Category: Schizophrenia / Psychotic Disorders
Key Words: Psychosis / Psychotic Disorders, CBT, Implementation

Individuals living with a serious mental illness (SMI) often lack access to evidence-based treatments. Although there is substantial evidence that Cognitive Behavior Therapy for Psychosis (CBTp) can improve outcomes for individuals with SMI, many clinical settings serving this population do not provide or have training in this modality. However, a new postdoctoral specialty in SMI has recently been approved by the American Psychological Association, so developing effective trainings in evidence-based treatments for SMI, such as CBTp, as well as presenting advances in the practice of CBTp, has become especially timely. Panelists were chosen to discuss their efforts toward training and implementation of CBTp in VA clinical settings from local to national levels. Initial discussion
will focus on the research supporting CBTp and the potential benefits of its implementation for individuals with SMI. Next, panelists will describe several CBTp training and implementation projects, including developing a novel CBTp group for ethnic/minority Veterans, delivering culturally adapted CBTp, training and implementation projects at two large VAs, and pilot-testing a training package as part of the development of a national VA CBTp training program. After describing the projects, panelists will describe their experiences with systemic and clinician-cited barriers to training and implementation, including time, funding, and established practices. Second, they will describe creative solutions to such barriers, emphasizing the importance of multidisciplinary partnership and sustainability. Informally, this diverse panel, consisting of early career professionals and established leaders in the field, will discuss the research-practice gap in CBTp and future directions for reducing this gap at each career stage. Finally, panelists will end with a call to action for CBTp implementation and training on local and national levels.

10:30 a.m. – 12:00 p.m.

Earn 1.5 continuing education credits

Symposium 3

Moving Beyond the Therapy Room to Examine Internal and External Influences in Tourette Syndrome

Chair: Brianna Wellen, M.S., The University of Utah
Discussant: Michael B. Himle, Ph.D., The University of Utah

Basic to Moderate level of familiarity with the material
Primary Category: Tic and Impulse Control Disorders
Key Words: Tic Disorders, Tourette Syndrome

Symposium 7

Cultivating Religiosity and Spirituality (R/S): Spiritual Bypass and External Locus of Control as Barriers to Better Mental Health

Chair: Salman S. Ahmad, M.S., University of Miami
Discussant: Stevan L. Nielsen, Ph.D., Brigham Young University

All level of familiarity with the material
Primary Category: Spirituality and Religion
Key Words: Spirituality and Religion, Coping, College Students

Spiritual Bypass: Context, Measurement, and New Horizons
Jesse Fox, Ph.D., Stetson University

The Relationship of Spiritual Bypass to an External Locus of Control and Scrupulosity in Muslims Living in the United States: A Follow-up Study
Salman S. Ahmad, M.S., University of Miami
Merranda McLaughlin, B.A., University of Miami
Amy Weisman de Mamani, Ph.D., University of Miami

Religious Coping and Free Will Perceptions as Predictors of Expressed Emotion (EE) in Caregivers of Individuals with Dementia
Amy Weisman de Mamani, Ph.D., University of Miami

Cultivating Sacred Moments: Evaluating a Pilot Program to Foster Psychospiritual Wellbeing
Serena Wong, M.A., Bowling Green State University
Kenneth Pargament, Ph.D., Bowling Green State University
Symposium 9

Anxiety in Children with Autism Spectrum Disorder: Enhancing Treatment Effects by Targeting Neural and Behavioral Mechanisms

Chair: Denis Sukhodolsky, Ph.D., Yale University School of Medicine
Discussant: Matthew D. Lerner, Ph.D., Stony Brook University

Moderate level of familiarity with the material
Primary Category: Autism Spectrum and Developmental Disorders
Key Words: Autism Spectrum Disorders, Translational Research, Emotion Regulation

Six-month Follow-up of Standard-practice CBT and Adapted CBT for Anxiety in Youth with Autism: A Multisite Randomized Clinical Trial
Jeffrey Wood, Ph.D., University of California, Los Angeles
Philip C. Kendall, ABPP, ABPP, Ph.D., Temple University
Karen Wood, Ph.D., University of California, Los Angeles
Connor Kerns, Ph.D., University of British Columbia
Brent Small, Ph.D., University of South Florida School of Aging Studies
Adam Lewin, Ph.D., ABPP, University of South Florida
Eric A. A. Storch, Ph.D., Baylor College of Medicine

The Contributions of ADHD to the Severity and Functional Impact of Anxiety in Autistic Children
Elise Ng-Cordell, B.A., The University of British Columbia
Eric A. A. Storch, Ph.D., Baylor College of Medicine
Philip C. Kendall, ABPP, ABPP, Ph.D., Temple University
Jeffrey Wood, Ph.D., University of California, Los Angeles
Connor Kerns, Ph.D., University of British Columbia

Aggressive Behavior Is Associated with Reduced Social Adaptive Functioning in Children with Autism and Anxiety
Carla Kalvin, Ph.D., Yale University School of Medicine
Rebecca Jordan, B.A., Yale Child Study Center
Sonia Rowley, B.A., Yale Child Study Center
Karim Ibrahim, Psy.D., Yale University School of Medicine, Child Study Center
Denis Sukhodolsky, Ph.D., Yale University School of Medicine
Atypical Neural Mechanisms of Emotion Regulation in Children with ASD and Co-occurring Anxiety Disorders
Denis Sukhodolsky, Ph.D., Yale University School of Medicine
Carla Kalvin, Ph.D., Yale University School of Medicine
Rebecca Jordan, B.A., Yale Child Study Center
Karim Ibrahim, Psy.D., Yale University School of Medicine, Child Study Center
Wan-Ling Tseng, Ph.D., Yale Child Study Center

Amygdala-prefrontal Connectivity in Children with Autism Spectrum Disorder and Co-occurring Anxiety and Disruptive Behavior
Karim Ibrahim, Psy.D., Yale University School of Medicine, Child Study Center
Sonia Rowley, B.A., Yale Child Study Center
Rebecca Jordan, B.A., Yale Child Study Center
Gregory McCarthy, Ph.D., Yale University, Department of Psychology
Denis Sukhodolsky, Ph.D., Yale University School of Medicine
Symposium 6

CBT in Context: Exploring the Role of Social and Environmental Contextual Factors in the Course and Outcome of Youth Depression Treatment and Prevention

Chair: Rachel A. Vaughn-Coaxum, Ph.D., University of Pittsburgh School of Medicine
Discussant: Laura G. McKee, Ph.D., Ph.D., University of Georgia

Basic to Moderate level of familiarity with the material
Primary Category: Child / Adolescent - Depression
Key Words: Depression, CBT, Child

Sleep and Social Media as Contextual Factors to Consider in Treatment for Adolescents with Depression and Suicidality
Jessica Hamilton, Ph.D., Rutgers University
Candice Biernesser, Ph.D., University of Pittsburgh
Rachel A. Vaughn-Coaxum, Ph.D., University of Pittsburgh School of Medicine
Giovanna Porta, M.S., University of Pittsburgh
Edward Hamilton, University of Pittsburgh
Kelsey Johnson, LPC, University of Pittsburgh
Dara Sakolsky, M.D., University of Pittsburgh
Kimberly Poling, LCSW, University of Pittsburgh
David Brent, M.D., University of Pittsburgh
Peter Franzen, Ph.D., University of Pittsburgh
Tina Goldstein, Ph.D., University of Pittsburgh

Social Support and Parental Conflict as Predictors of Response to Group Cognitive Behavior Therapy for Adolescent Depression
Lisa Venanzi, M.Ed., Vanderbilt University
Autumn Kujawa, Ph.D., Vanderbilt University

The Influence of Childhood Adversity on Youth Depression Outcomes: Secondary Analysis of a Randomized Controlled Effectiveness Trial Comparing CBT to Usual Care
Rachel A. Vaughn-Coaxum, Ph.D., University of Pittsburgh School of Medicine
John R. R. Weisz, Ph.D., ABPP, Harvard University
Predictors of Response to a Family Group-based Cognitive Behavioral Preventive Intervention in an Ethnically Diverse Sample of Children of Depressed Mothers

Ariela J. Kaiser, M.A., University of Illinois at Chicago
Bruce Compas, Ph.D., Vanderbilt University
Alison Calentino, B.A., University of Illinois at Chicago
Katie L. Burkhouse, Ph.D., University of Illinois at Chicago

Behaviorally Enhancing Adolescents’ Mood in Schools (BEAM-S): Contextual Factors at Play in Preventing Depression in Teens with ADHD During COVID-19

Karen Schwartz, Ph.D., University of Maryland
Sha Raye Horn, MPS, University of Maryland, College Park
Andrea M. Chronis-Tuscano, Ph.D., University of Maryland
Patricia Triece, B.A., University of Maryland, College Park
Michael C. Meinzer, Ph.D., University of Illinois at Chicago

12:15 p.m. – 1:45 p.m.

Earn 1.5 continuing education credits

Symposium 11

Mind-body Interventions for Emotional and Behavioral Disorders

Chair: Stefan G. Hofmann, Ph.D., Boston University
Discussant: Stefan G. Hofmann, Ph.D., Boston University

All level of familiarity with the material

Primary Category: Treatment - Mindfulness & Acceptance
Key Words: Mindfulness, Clinical Trial, Randomized Controlled Trial

Kundalini Yoga as Treatment for Generalized Anxiety Disorder

Danielle M. Moskow, M.A., Boston University
Stefan G. Hofmann, Ph.D., Boston University
Naomi Simon, M.D., NYU Langone Health, New York University School of Medicine
David Rosenfield, Ph.D., Southern Methodist University
Susanne S. Hoepner, Ph.D., M.Ap.Stat., Massachusetts General Hospital
Elizabeth Hoge, M.D., Georgetown University Medical Center
Eric Bui, MD, Ph.D., Massachusetts General Hospital/Harvard Medical School
Sat Bir Khalsa, Ph.D., Brigham and Women’s Hospital, Harvard Medical School
Comparison of a Mindfulness-based Intervention and Cognitive Behaviour Therapy for Social Anxiety Disorder
Diana Koszycki, Ph.D., University of Ottawa
Jacques Bradwejn, M.D., FRCPC, University of Ottawa
Eva Guérin, Ph.D., Department of National Defence, Government of Canada
Julia DiMillo, Ph.D., University of Ottawa

Yoga May Aid Smoking Cessation Efforts
Beth C. Bock, Ph.D., Alpert Medical School of Brown University
Herpreet Thind, Ph.D., University of Massachusetts
Rochelle Rosen, Ph.D., Brown University School of Public Health
Shira Dunsiger, Ph.D., Brown University

Impact of Digitally Delivered Online Mindfulness-based Cognitive Therapy on Suicidal Ideation
Joseph Levy, B.A., University of Colorado Boulder
Sona Dimidjian, Ph.D., University of Colorado Boulder
Julia Kaufman, B.A., University of Colorado Boulder
Robert Gallop, Ph.D., West Chester University

Peter de Jong, Ph.D., University of Groningen
Brian Ostafin, Ph.D., University of Groningen
Symposium 19

Innovations in Service Delivery to Promote Health Equity for Children with ADHD

**Chairs:** Jennifer A. Mautone, ABPP, Ph.D., Children’s Hospital of Philadelphia/Perelman School of Medicine at University of Pennsylvania  
Thomas J. Power, ABPP, Ph.D., Children’s Hospital of Philadelphia, Perelman School of Medicine at University of Pennsylvania

**Discussant:** Heather A. Jones, Ph.D., Virginia Commonwealth University

Moderate level of familiarity with the material
Primary Category: ADHD - Child
Key Words: ADHD, Community-Based, Treatment

Revising the Community-based Implementation Model for STAND: An Evidence-based Behavior Therapy for Adolescent ADHD
Margaret H. Sibley, Ph.D., University of Washington School of Medicine  
Leonard Bickman, Ph.D., Florida International University  
Paulo Graziano, Ph.D., Florida International University  
Mercedes Ortiz, B.A., Seattle Children’s Hospital  
Alexandria Rios-Davis, B.A., Florida International University  
Courtney A. Zulauf-McCurdy, Ph.D., University of Washington School of Medicine

Promoting Equity in Implementation of an Organizational Skills Intervention in Diverse Schools
Phyllicia F. Fleming, Ph.D., Children’s Hospital of Philadelphia  
Theresa Egan, Ph.D., Children’s Hospital of Philadelphia  
Cristin Montalbano, Ph.D., New Jersey Coalition for Inclusive Education, Children’s Hospital of Philadelphia  
Howard Abikoff, Ph.D., Hassenfeld Children’s Hospital at New York University Langone  
Richard Gallagher, Ph.D., New York University School of Medicine

Jennifer A. Mautone, ABPP, Ph.D., Children’s Hospital of Philadelphia/Perelman School of Medicine at University of Pennsylvania  
Jenelle Nissley-Tsiopinis, Ph.D., Children’s Hospital of Philadelphia
Leveraging Workforces and Service Delivery Platforms to Expand Access to Evidence-based Parent Training for ADHD
Anil Chacko, Ph.D., New York University

Supporting Behavioral Parent Training Engagement in Urban Pediatric Primary Care Settings
Alex Holdaway, Ph.D., Children’s Hospital of Philadelphia
Billie Schwartz, Ph.D., Children’s Hospital of Philadelphia
Bridget Poznanski, M.S., Children’s Hospital of Philadelphia
Thomas J. Power, ABPP, Ph.D., Children’s Hospital of Philadelphia, Perelman School of Medicine at University of Pennsylvania
Jennifer A. Mautone, ABPP, Ph.D., Children’s Hospital of Philadelphia/Perelman School of Medicine at University of Pennsylvania

12:15 p.m. – 1:45 p.m.

Earn 1.5 continuing education credits

Symposium 12
Recent Developments in Studying Fear and Avoidance Learning as Mechanisms for Understanding and Treating Anxiety Disorders

Chair: Tomer Shechner, Ph.D., University of Haifa
Discussant: Tomer Shechner, Ph.D., University of Haifa

All level of familiarity with the material
Primary Category: Adult Anxiety
Key Words: Fear, Anxiety, Adolescents

Avoidance Learning from a Developmental Perspective
Zohar Klein, B.A., M.A., University of Haifa
Gil Shner, School of Psychological Sciences, University of Haifa
Smadar Berger, B.A., University of Haifa
Bram Vervliet, Ph.D., Ku Leuven
Tomer Shechner, Ph.D., University of Haifa
Development of Safety Cue Learning and Alterations in Pediatric Anxiety Disorders
Dylan Gee, Ph.D., Yale University
Anita Harrewijn, Ph.D., National Institute of Mental Health (NIMH)
Kitt Elizabeth, B.S., National Institute of Mental Health (NIMH)
Rany Abend, Ph.D., National Institute of Mental Health (NIMH)

Paola Odriozola, Ph.D., Yale University
Anderson Winkler, Ph.D., Yale University
Ellen Leibenluft, Ph.D., National Institute of Mental Health (NIMH)
Daniel Pine, Ph.D., National Institute of Mental Health (NIMH)

Low-cost and Costly Avoidance in Anxiety Disorders
Andre Pittig, Ph.D., Wurzburg University
Juliane M. Boschet, M.Sc., University of Wuerzburg
Valentina Glück, M.Sc., University of Wuerzburg
Kristina Schneider, M.A., University of Wuerzburg

Heightened Threat Reactivity to Safe Stimuli Predict Longitudinal Increases in GAD and SAD Symptoms over the First Year of College
Christopher Hunt, B.A., M.A., University of Minnesota
Shmuel Lissek, Ph.D., University of Minnesota

12:15 p.m. – 1:45 p.m.
Earn 1.5 continuing education credits

Symposium 18
Leveraging Human Support for the Dissemination of Cognitive-behavioral Skills Through Technology-delivered Interventions

Chair: Maya Hareli, B.A., Loyola University Chicago
Discussant: Emily G. Lattie, Ph.D., Northwestern University

All level of familiarity with the material
Primary Category: Technology
Key Words: Technology / Mobile Health, Dissemination, Implementation

A Preliminary Measure of the Supportive Accountability Model for Coached Digital Interventions
Jonah Meyerhoff, Ph.D., Northwestern University Feinberg School of Medicine
Shefali Haldar, Ph.D., Northwestern University
Lessons Learned: Providing Supportive Accountability to Individuals Enrolled in an Online Anxiety Intervention
Alexandra Werntz, Ph.D., University of Virginia & UMass Boston
Alexandra L. Silverman, M.A., University of Virginia
Henry Behan, M.A., University of Virginia
Miranda L. Beltzer, M.A., University of Virginia
Mehdi Boukhechba, Ph.D., University of Virginia
Laura Barnes, Ph.D., University of Virginia
Bethany A. Teachman, Ph.D., University of Virginia

Implementation of Peer Supportive Accountability in a Randomized Controlled Trial of a Mindfulness App for Depressed College Students
Carol Hundert, M.A., Loyola University Chicago
Rebecca Silton, Ph.D., Loyola University Chicago
Colleen Conley, Ph.D., Loyola University Chicago

Challenges and Recommendations from Piloting a Supportive Accountability-based Technology-delivered Intervention (TDI) for Adult Mentor-youth Mentee Dyads
Vincent Donofrio, B.S., Fordham University
Maya Hareli, B.A., Loyola University Chicago
Jeremy Astesano, B.A., University of Massachusetts Boston
Alexandra Werntz, Ph.D., University of Virginia & UMass Boston
Elizabeth Raposa, Ph.D., Fordham University
Colleen Conley, Ph.D., Loyola University Chicago
Jean Rhodes, Ph.D., University of Massachusetts Boston
Symposium 15

Addressing Social Determinants of Health in Cognitive and Behavioral Treatments for Trauma Survivors

**Chair:** Joah Williams, Ph.D., University of Missouri-Kansas City

**Discussant:** Alyssa A. Rheingold, Ph.D., Medical University of South Carolina

Basic to Moderate level of familiarity with the material

Primary Category: Trauma and Stressor Related Disorders and Disasters

Key Words: Trauma, Treatment/ Program Design, Early Intervention

Responsive Individualized Support and Early Intervention for Nonfatal Shooting Victims: A Hospital-based, Stepped-care Program

Joah Williams, Ph.D., University of Missouri-Kansas City
Madeleine Hardt, M.A., University of Missouri - Kansas City
Aisling V. Henschel, M.S., University of Missouri-Kansas City
Rosemary Friend, RN, BSN, Truman Medical Centers
Jennifer Schrag, LSCSW, LCSW, Truman Medical Centers
Michael Moncure, M.D., Truman Medical Centers

Targeting Skills for Psychological Recovery: Patient Endorsed Psychosocial and Health-related Needs After Gunshot Wound

Madeleine Hardt, M.A., University of Missouri - Kansas City
Aisling V. Henschel, M.S., University of Missouri-Kansas City
Joah Williams, Ph.D., University of Missouri-Kansas City

Implementing Behavioral Activation and Therapeutic Exposure (BA-TE) via Home-based Telehealth in an Urban Treatment-seeking Sample

Aisling V. Henschel, M.S., University of Missouri-Kansas City
Madeleine Hardt, M.A., University of Missouri - Kansas City
Jennifer Osborne, Ph.D., Truman Medical Center
Joah Williams, Ph.D., University of Missouri-Kansas City

The Community Outreach Program-esperanza (COPE): Contextualizing Social Determinants of Health in a Community Outreach Program for Trauma-exposed Populations

Meg M. Wallace, Medical University of South Carolina
Rosaura Orengo-Aguayo, Ph.D., Medical University of South Carolina
Alyssa A. Rheingold, Ph.D., Medical University of South Carolina
Michael A. de Arellano, Ph.D., Medical University of South Carolina
Enhancing Community Response for Disaster-affected Youth and Families Using the ECHO Training Model

Erin Hambrick, Ph.D., University of Missouri, Kansas City
Joah Williams, Ph.D., University of Missouri, Kansas City
Eve-Lynn Nelson, Ph.D., University of Kansas Medical Center
Madeleine Hardt, M.A., University of Missouri, Kansas City
Jen Collins, M.A., University of Missouri, Kansas City
Leni Swails, Ph.D., University of Kansas Medical Center
Sklyar Bellinger, Ph.D., University of Kansas Medical Center
Alice Zhang, Ph.D., University of Kansas Medical Center
Ashley Fowler, Ph.D., University of Kansas Medical Center
Melissa Maras, Ph.D., University of Missouri
Kristi Gagnon, B.A., University of Kansas Medical Center
Robert Stiles, MPH, University of Kansas Medical Center

12:15 p.m. – 1:45 p.m.

Earn 1.5 continuing education credits

Symposium 14

What Happens After People Leave Treatment? Examining Transdiagnostic Illness Trajectories and Transitions During Critical Periods

Chairs: Rowan A. Hunt, B.A., University of Louisville, Department of Psychological & Brain Sciences
Shirley B. Wang, M.A., Harvard University
Discussant: Matthew K. Nock, Ph.D., Harvard University

Basic to Moderate level of familiarity with the material
Primary Category: Transdiagnostic
Key Words: Relapse, Recovery, Change Process / Mechanisms

Using Real-time Monitoring of Emotion Regulation Skills During Mealtimes to Understand Illness Trajectories in Eating Disorders
Rowan A. Hunt, B.A., University of Louisville, Department of Psychological & Brain Sciences
Ani Keshishian, B.A., University of Louisville
Stephanie Fan, B.A., University of Louisville
Cheri A. A. Levinson, Ph.D., University of Louisville, Department of Psychological & Brain Sciences
Idiographic Prediction of Suicidal Thoughts After Discharge from Psychiatric Hospitalization
Shirley B. Wang, M.A., Harvard University
Ruben van Genugten, A.M., Harvard University
Maha Al-Suwaidi, B.A., Harvard University
Kate H Bentley, Ph.D., Department of Psychiatry, Massachusetts General Hospital
Dylan DeMarco, B.A., Harvard University
Walter Dempsey, Ph.D., University of Michigan
Rebecca G Fortgang, Ph.D., Harvard University
Erin Kilbury, M.A., Harvard University
Evan M M. Kleiman, Ph.D., Rutgers University
Hye-In Lee, B.S., Harvard University
Alexander Millner, Ph.D., Franciscan Children’s
Jordyn R. Ricard, B.A., Harvard University
Kelly Zuromski, Ph.D., Harvard University
Matthew K. Nock, Ph.D., Harvard University

The Addictions Neuroclinical Assessment Negative Emotionality Domain Among Treatment-seekers with Alcohol Use Disorder: Implications for Precision Medicine
Victoria R. Votaw, M.S., University of New Mexico
Elena Stein, M.S., University of New Mexico
Katie Witkiewitz, Ph.D., University of New Mexico

Emotion Regulation Processes in Adolescents Following Psychiatric Hospitalization
Alexandra Bettis, Ph.D., Vanderbilt University Medical Center
Taylor Burke, Ph.D., Rhode Island Hospital/Alpert Medical School of Brown University
Jaqueline Nesi, Ph.D., Brown University
Richard Liu, Ph.D., Brown University
12:15 p.m. – 1:45 p.m.

Earn 1.5 continuing education credits

Symposium 20

Designing Personalized Cognitive-behavioral Treatments for Youth: Approaches to Guide Clinical Decision Making Across Various Stages of Intervention

**Chairs:** Natalie Hong, M.S., Florida International University
Lesley A. Norris, M.A., Temple University

**Discussant:** Jill Ehrenreich-May, Ph.D., University of Miami

Basic to Moderate level of familiarity with the material

Primary Category: Program / Treatment Design

Key Words: Clinical Decision Making, Treatment, Psychotherapy Outcome

Leveraging Early Treatment Progress Data to Detect Risk of Ultimate PCIT Nonresponse
Natalie Hong, M.S., Florida International University
Adela Timmons, Ph.D., Florida International University
Timothy Hayes, Ph.D., Florida International University
Kristina Conroy, M.S., Florida International University
Daniel Bagner, Ph.D., Florida International University
Jonathan S. Comer, Ph.D., Florida International University

Person-centered Profiles Among Treatment-seeking Children and Adolescents with Anxiety Disorders
Lesley A. Norris, M.A., Temple University
Thomas Olino, Ph.D., ABPP, Temple University
Philip C. Kendall, ABPP, ABPP, Ph.D., Temple University

Using Empirically-derived Profiles and Measurement-based Care to Guide Transdiagnostic Treatment Personalization
Sarah M. Kennedy, Ph.D., University of Colorado School of Medicine
Niza Tonarely, M.S., University of Miami
Elizabeth Halliday, B.A., University of Miami

Leveraging Sequential Multiple Assignment Randomized Trials (SMARTs) to Empirically Guide Clinical Decision-making
Matthew W. Southward, Ph.D., University of Kentucky
Shannon Sauer-Zavala, Ph.D., University of Kentucky
Earn 1.5 continuing education credits

Symposium 13

Military Couple Health Across the Deployment Cycle

Chair: Christina Balderrama-Durbin, Ph.D., Binghamton University
Discussant: David S. Riggs, Ph.D., Uniformed Services University of the health sciences

All level of familiarity with the material

Primary Category: Couples / Close Relationships
Key Words: Couples / Close Relationships, Military, Risk / Vulnerability Factors

Predicting Marital Health from Adverse Childhood Experiences Among United States Air Force Active Duty Personnel
Jeffrey A. Cigrang, ABPP, Ph.D., Wright State University School of Professional Psychology
Christina Balderrama-Durbin, Ph.D., Binghamton University
Douglas Snyder, Ph.D., Texas A&M University
Aleja Parsons, Ph.D., New York University
Kelsey Lorko, Psy.M., Wright State University
Avantika Gupta, B.A., Wright State University
Amy Smith-Slep, Ph.D., New York University
Richard Heyman, Ph.D., New York University
Danielle Mitnick, Ph.D., New York University
Kati Wijdenes, Ph.D., 48 Medical Group
Courtney Yahle, Psy.M., Wright State University
The Link Between Individual Health, Relationship Health and Suicide Risk Among United States Air Force Active Duty Personnel
Aleja Parsons, Ph.D., New York University
Aleja Parsons, Ph.D., New York University
Amy Slep, Ph.D., NYU
Sangwon Kim, Ph.D., NYU
Kelsey Lorko, Psy.M., Wright State University
Avantika Gupta, B.A., Wright State University
Danielle Mitnick, Ph.D., New York University
Christina Balderrama-Durbin, Ph.D., Binghamton University
Jeffrey A. Cigrang, ABPP, Ph.D., Wright State University School of Professional Psychology
Richard Heyman, Ph.D., New York University
Douglas Snyder, Ph.D., Texas A&M University
Courtney Yahle, Psy.M., Wright State University

Trajectories of Relational Turbulence and Affectionate Communication Across the Post-deployment Transition
Lynne M. Knobloch-Fedders, Ph.D., Marquette University
Leanne Knobloch, Ph.D., University of Illinois
Jeremy Yorgason, Ph.D., Brigham Young University
Erin Wehrman, Ph.D., Missouri State University
J. Kale Monk, Ph.D., University of Missouri

Psychological and Relationship Distress in Military Partners: Associations with Service Members’ PTSD, Deployment Stress and Military Life Stress
Sissi Ribeiro, M.A., George Mason University
Keith Renshaw, Ph.D., George Mason University
Elizabeth Allen, Ph.D., University of Colorado Denver

Changes in Parenting over the Course of Deployment for National Guard Parents: Predictors and Implications
Christopher Erbes, ABPP, Ph.D., Minneapolis VAMC/CCDOR/University of MN
Christopher Erbes, ABPP, Ph.D., Minneapolis VAMC/CCDOR/University of MN
Jessica Hill, M.A., University of Minnesota
Melissa Polusny, Ph.D. LP, Minneapolis VA/University of Minnesota
Earn 1.5 continuing education credits

Symposium 17

Not Just a Young Girl’s Struggle: Body Image and Eating Disorders in Midlife and Older Women

**Chairs:** Lisa S. Kilpela, Ph.D., UT Health San Antonio Barshop Institute for Longevity and Aging Studies
Kerstin K. Blomquist, Ph.D., Furman University

**Discussant:** Pamela Keel, Ph.D., Florida State University

Basic to Moderate level of familiarity with the material

**Primary Category:** Eating Disorders

**Key Words:** Body Image, Eating, Aging

A 30-year Longitudinal Study of Body Weight, Dieting, and Eating Pathology Across Women and Men from Late Adolescence to Later Mid-life

*Tiffany A. Brown, Ph.D.*, University of California, San Diego, Eating Disorders Center for Treatment & Research

*K. Jean Forney, Ph.D.*, Ohio University

*Kelly Klein, Ph.D.*, VA Boston Healthcare System, Brockton Division; Harvard Medical School

*Charlotte Grillot, M.A., M.S.*, Florida State University

*Pamela Keel, Ph.D.*, Florida State University

A Network Investigation of Body Image and Eating Disorder Symptoms During Midlife and Young Adulthood

*Jessica Baker, Ph.D.*, University of North Carolina at Chapel Hill

*Ziqian Xu*, University of North Carolina At Chapel Hill

*Susan Girdler, Ph.D.*, University of North Carolina At Chapel Hill

Aging-related Factors Associated with Binge Eating Among Older Women

*Lisa S. Kilpela, Ph.D.*, UT Health San Antonio Barshop Institute for Longevity and Aging Studies

*Victoria Marshall, B.A.*, UT Health San Antonio Barshop Institute for Longevity and Aging Studies

*Robina Sandhu, M.P.H.*, University of Texas Health Science Center at San Antonio

*Pamela Keel, Ph.D.*, Florida State University

*Andrea LaCroix, D. Phil., M.P.H.*, University of California San Diego

*Sara Espinoza, M.D.*, UT Health San Antonio Barshop Institute for Longevity and Aging Studies

*Nicolas Musi, M.D.*, UT Health San Antonio Barshop Institute for Longevity and Aging Studies
Dissemination of a Dissonance-based Body Image Promotion Program in Church Settings: A Preliminary Controlled Pilot Study with Adult Women
Kerstin K. Blomquist, Ph.D., Furman University
Katherine Hirsch, M.H.K., Department of Kinesiology, University of Windsor
Elizabeth Lomas, B.A., Vanderbilt University
Kathryn Montgomery, Furman University
Carolyn Becker, Ph.D., Trinity University

12:15 p.m. – 1:45 p.m.

Earn 1.5 continuing education credits

Symposium 16

Looking Beyond the End of Treatment: Examining Maintenance and Predictors of Maintenance Following Treatment with the Unified Protocol

Chair: Elizabeth H. Eustis, Ph.D., Boston University
Discussant: Todd Farchione, Ph.D., Boston University

Basic to Moderate level of familiarity with the material
Primary Category: Treatment - CBT
Key Words: Transdiagnostic, Anxiety

The Unified Protocol for Transdiagnostic Treatment of Emotional Disorders Compared with Single-disorder Protocols for Anxiety Disorders: 12-month Follow-up
Elizabeth H. Eustis, Ph.D., Boston University
Matthew Gallagher, Ph.D., University of Houston
Julianne Wilner Tirpak, M.A., Boston University
Maya Nauphal, M.A., Center for Anxiety and Related Disorders, Boston University
Todd Farchione, Ph.D., Boston University
David H. Barlow, ABPP, Ph.D., Center for Anxiety and Related Disorders, Boston University

Efficacy of the Unified Protocol in Group Format in Public Health Settings in Spain: Preliminary Results at 12-months Follow-up
Jorge Osma, Ph.D., Universidad de Zaragoza
Óscar Peris-Baquero, M.S., Universidad de Zaragoza
Alba Quilez-Orden, M.S., Universidad de Zaragoza
María Vicenta Navarro-Haro, Ph.D., Universidad de Zaragoza
Carlos Suso-Ribera, Ph.D., Universitat Jaume I
Laura Martínez-García, M.S., Universidad de Zaragoza
Long-term Effects of an Internet-based Transdiagnostic Protocol for the Regulation of Positive and Negative Affect in Emotional Disorders
Amanda Diaz-Garcia, Ph.D., Universidad de Zaragoza
Alberto Gonzalez-Robles, Ph.D., Universidad de Zaragoza
Azucena Garcia-Palacios, Ph.D., Universitat Jaume I
Diana Castilla, Ph.D., Universidad de Valencia
Cristina Botella, Ph.D., Universitat Jaume I

Adapting the Unified Protocol to an Online Setting: Results on Efficacy and Follow-up
Carmen Schaeuffele, M.A., Freie Universitaet Berlin
Christine Knaevelsrud, Prof., Freie Universitaet Berlin
Babette Renneberg, Prof., Freie Universitaet Berlin
Johanna Boettcher, Prof., Psychologische Hochschule Berlin

Predicting Long-term Outcomes Following CBT in Adults with Anxiety Disorders: The Role of Homework Practice and the Working Alliance
Maya Nauphal, M.A., Center for Anxiety and Related Disorders, Boston University
Elizabeth H. Eustis, Ph.D., Boston University
Andrew Curreri, M.A., Center for Anxiety and Related Disorders, Boston University
Todd Farchione, Ph.D., Boston University
David H. Barlow, ABPP, Ph.D., Center for Anxiety and Related Disorders, Boston University
Despite being a major focal point of research over the past 50 years, rates of suicide have continued to rise and our ability to predict suicide remains only slightly better than chance (Franklin et al., 2017). This poor predictive ability may be due, in part, to an overreliance on self-reports, which are limited in two major ways (Glenn et al., 2017). First, due to the stigma and potential loss of autonomy associated with suicide, individuals at greatest risk may be motivated to intentionally deceive healthcare providers (e.g., to avoid involuntary admission to psychiatric hospital; Busch et al., 2003). Second, even when intending to be fully transparent and honest, individuals may lack the ability to accurately assess their own suicide risk, either due to a lack of awareness or to the transient nature of suicidal ideation (i.e., they are genuinely absent at the time of assessment but return later on). Accordingly there is a pressing need to identify methods of suicide risk assessment that do not rely exclusively on self-report.

The panel will discuss their research investigating various indirect/non-obvious predictors of suicide risk across a range of settings affiliated with the Brown Medical School (e.g., adolescent and adult psychiatric hospitals & the Veterans Affairs hospital system). Panelists will begin by providing a brief overview of their background, research, and setting. Initial discussions will focus on how they got interested in/why they value indirect/non-obvious predictors of suicide risk. Next, panelists will share their experiences implementing indirect methodology (e.g., eye tracking, speech analysis, neuro-imaging, social media use, sleep patterns, & digital phenotyping) in greater detail. We will discuss the pros and cons of various methodologies used, challenges and lessons learned, as well as how these indirect methods are used in conjunction with other risk assessment/prediction methods. Finally, panelists will discuss future directions and clinical implications of this research before opening up to questions from the audience.
Clinical Round Table 4

Approaching the Conversation of Race and Diversity in the Therapy Room: What to Say and How to Say It

Moderators: Hollie Granato, Ph.D., UCLA
Jamie Schumpf, Psy.D., Yeshiva University - Ferkauf Graduate School of Psychology

Panelists: Mudita Bahadur, Ph.D., Private Practice
Lizbeth Gaona, Ph.D., LCSW, California Baptist University
Lisa Bolden, M.A., Psy.D., University of California, Los Angeles School of Medicine

Primary Category: Culture / Ethnicity / Race
Key Words: Race, Competence, Culture

Discussions of race, power, privilege, and discrimination can be difficult, both in and out of the therapy room. Therapists might find themselves unsure about how and when to broach the topics with a client. This process can be hindered by both lack of knowledge how to do this and/or hesitation and avoidance on the part of the therapist. This can hold true, even when the therapist and client are from similar socio-demographic backgrounds. This Round Table will feature CBT therapists and trainers discussing real world experiences and sharing specific, usable strategies and techniques. The Round Table is composed of therapists of diverse identities who practice and train in various settings, including public mental health, community mental health agencies, private practice, and other underserved settings. The panelists will discuss the successes and challenges of approaching race and diversity in the therapy room, supervision, and training. Panelists will discuss broaching, repairs, and incorporating key cross-cultural conceptual frameworks as considerations in individualized treatment conceptualization and group treatment models. Principles of cross-cultural competence in the training and supervision of therapists will be discussed. Furthermore, there will be discussions about self-work, self-practice, and self-care, such as recognizing implicit biases and microaggressions. This Clinical Round Table is intended for therapists, trainers, allies, and administrators.

This Clinical Round Table is sponsored by the Diversity Action Committee of the Academy of Cognitive and Behavioral Therapies. All speakers are active members of this Committee.
Symposium 27

Sexual Assault Among College Students: From Risk Factors to Post-assault Outcomes

**Chairs:** Laura C. Wilson, Ph.D., University of Mary Washington
Amie R. Newins, Ph.D., University of Central Florida

**Discussant:** Patricia A. Resick, Ph.D., ABPP, Ph.D., Duke University Medical Center

Basic to Moderate level of familiarity with the material
Primary Category: Trauma and Stressor Related Disorders and Disasters
Key Words: Trauma, College Students

The Impact of Victim-blaming and Locus of Control on Sexual Assault Survivors
Laura C. Wilson, Ph.D., University of Mary Washington
Sierra Horton, B.S., University of Mary Washington
Abigail Farley, B.S., Virginia Commonwealth University

Gender Differences in Sexual Assault Disclosure
Amie R. Newins, Ph.D., University of Central Florida
Laura C. Wilson, Ph.D., University of Mary Washington

Substance Use, Risky Sex, and Peer Interactions Predict Sexual Assault Among College Women: An Ecological Momentary Assessment (EMA) Study
Elizabeth A. Yeater, Ph.D., University of New Mexico
Katie Witkiewitz, Ph.D., University of New Mexico
Maria Testa, Ph.D., University at Buffalo
Angela Bryan, Ph.D., University of Colorado Boulder

Clarifying the Association Between Alcohol-involved Sexual Assault and Distress: Distinguishing Individual from Situational Differences in Revictimized College Students
Anna E. Jaffe, Ph.D., University of Nebraska-Lincoln
Shaina Kumar, M.A., University of Nebraska-Lincoln
Jessica Blayney, Ph.D., University of Washington
Madison Edwards, B.A., University of Nebraska-Lincoln
David DiLillo, Ph.D., University of Nebraska-Lincoln
Symposium 29

Here a Fear, There a Fear, Everywhere an Eating Disorder Fear: Heterogeneity and Treatment of Eating Disorder Fears

Chair: Mackenzie L. Brown, B.A., University of Louisville
Discussant: Cheri A. A. Levinson, Ph.D., University of Louisville, Department of Psychological & Brain Sciences

Core Eating Disorder Fears: An Examination of Prevalence Rates and Differences in Eating Disorder Fears Across Eating Disorder Diagnoses
Mackenzie L. Brown, B.A., University of Louisville
Cheri A. A. Levinson, Ph.D., University of Louisville, Department of Psychological & Brain Sciences

Feared Foods and Frightening Bodies: An Examination of Cue-specific Fear Reactivity in Treatment-seeking Women with Eating Disorders
Lisa M. Anderson, Ph.D., University of Minnesota Medical School
Carol Peterson, Ph.D., University of Minnesota Medical School
Scott Crow, M.D., University Minnesota Medical School

The Influence of Differential Fear Components on Cognitive Behavioral Treatment Outcomes for Eating Disorders in a Residential Sample
Nicholas Farrell, Ph.D., Rogers Behavioral Health
Brittni Marshall, M.S., Rogers Memorial Hospital
Maxine Cimperman, M.S., Rogers Memorial Hospital
Brad Smith, M.D., Rogers Memorial Hospital

Outcomes of Children and Adolescents with Avoidant/restrictive Food Intake Disorder (ARFID) Six Months Following an Exposure-based Partial Hospitalization Program
Jamal H. Essayli, Ph.D., Penn State College of Medicine
Susan Lane-Loney, Ph.D., Penn State College of Medicine
Symposium 31

Recent Advances in Decision-making as a Factor in Hoarding Disorder Symptoms

Chairs: Michael G. Wheaton, Ph.D., Barnard College
       Kiara R. Timpano, Ph.D., University of Miami

Discussant: Randy O. Frost, Ph.D., Smith College

Moderate to Advanced level of familiarity with the material
Primary Category: Obsessive Compulsive and Related Disorders
Key Words: Hoarding, Cognitive Vulnerability, OCD (Obsessive Compulsive Disorder)

Maximizing Decision-making Style and Hoarding Disorder Symptoms
Michael G. Wheaton, Ph.D., Barnard College
Kimberly Topilow, PsyD, Yeshiva University

A Neuroeconomic Perspective on Inter-temporal Decision-making Deficits in Hoarding
Kiara R. Timpano, Ph.D., University of Miami
Caitlin A. Stamatis, M.S., New York-Presbyterian Hospital/Weill Cornell Medical College
Ashley Shaw, Ph.D., Florida International University
Jennifer Britton, Ph.D., University of Miami

Attention to Reward: The Case for Hoarding Disorder
Melissa M. Norberg, Ph.D., Centre for Emotional Health, Macquarie University

Investigating Empathy and Prosocial Responding in Hoarding
Wenting Chen, UNSW Sydney
Skye McDonald, BSc (Hons), MSc (Clinical Neuropsychology), Ph.D., University of New South Wales, Sydney
Travis Wearne, BPsych(Hons), MClinNeuro, Ph.D., University of New South Wales, Sydney
Jessica Grisham, B.A., Ph.D., University of New South Wales, Sydney
Symposium 21

The Kids Are Not Alright: The Emergence and Treatment of Sexual and Gender Minority Mental Health Disparities in Children and Adolescents

Chairs: Ilana Seager van Dyk, Ph.D., Yale School of Public Health
       Kirsty A. Clark, M.P.H., Ph.D., Yale School of Public Health

Discussant: Michael E. Newcomb, Ph.D., Northwestern University

All level of familiarity with the material
Primary Category: LGBTQ+
Key Words: LGBTQ+, Longitudinal, Risk / Vulnerability Factors

The Emergence of Internalizing Psychopathology in Childhood and Adolescence: The Role of Sexual Orientation and Informant
Ilana Seager van Dyk, Ph.D., Yale School of Public Health
Mary A. Fristad, Ph.D., Nationwide Children’s Hospital Big Lots Behavioral Health Services
L. Eugene Arnold, M.D., M.Ed., The Ohio State University Wexner Medical Center
Robert L. Findling, M.D., MBA, Virginia Commonwealth University

Research & Professional Development 1

Assembling a Dream Team: Innovative Approaches to Improving Quality, Access, and Impact of Mentorship in Clinical Psychology

Panelists:
   Kathryn A. Coniglio, M.S., Rutgers, The State University of New Jersey
   Shirley B. Wang, M.A., Harvard University
   Bethany A. Teachman, Ph.D., University of Virginia
   Ann F. Haynos, Ph.D., University of Minnesota

Basic to Moderate level of familiarity with the material
Primary Category: Professional / Interprofessional Issues
Key Words: Career Development, Education and Training, Professional Development

Mentorship is a critically important element in academic career development, yet the nature and availability of mentorship varies considerably by career stage. Further, even for individuals whose career stage affords more formalized, built-in mentorship (i.e., during graduate school), mentors are often expected to meet all the needs of their mentee, which
can reduce the overall utility of the mentorship as a result. Finally, given the inequities and marked lack of diversity in the behavioral sciences, novel mentorship approaches are needed to recruit and retain traditionally underrepresented individuals. This panel will describe existing nontraditional mentorship models in the field of clinical psychology that have the potentially to significantly expand the reach and impact of mentorship within the field. The panel will begin with brief didactic presentations: Ms. Coniglio and Dr. Haynos will describe the structure and initial outcomes of a vertical peer mentorship program that has been successfully implemented with promising outcomes within the eating disorders field. Ms. Wang will discuss her participation in this vertical peer mentorship program and will additionally detail an approach recently employed by Harvard University to mentor historically underrepresented and marginalized individuals as they apply to early career milestones in psychology. Dr. Teachman will share insights about novel strategies for mentoring PhD students in a university psychology department setting and will discuss an initiative from University of Virginia to actively recruit individuals from minoritized backgrounds to graduate programs in psychology. Next, Ms. Coniglio (moderator) will lead a discussion between panelists and the audience about innovative and impactful strategies for addressing the limitations of traditional mentorship approaches and how others can implement similar programs in other institutions and organizations. The overarching goal of this panel will be to advance the field’s conceptualization of how, to whom, and by whom mentorship should be delivered in order to expand opportunities for professional development and decrease mentorship inequities.

You will learn:
• Understand how to set up non-traditional or expansive mentorship programs in other labs, departments, or professional societies to which they belong.
• Describe the utility of nontraditional mentorship models.
• Explain how pre-graduate school mentorship programs for underrepresented individuals can help promote diversity and inclusion within clinical psychology.

Panel Discussion 3

Family Involvement in the Treatment of Youth Opioid Use Disorders

**Moderator:** Michael A. Southam-Gerow, Ph.D., Virginia Commonwealth University

**Panelists:**
- Craig Henderson, PhD, Sam Houston State University
- Aaron Hogue, Ph.D., Partnership to End Addiction
- Sara Becker, Ph.D., Brown University School of Public Health
- Marc Fishman, M.D., Maryland Treatment Centers
- Kevin Wenzel, PhD, Maryland Treatment Centers
- Nicole P. Porter, M.A., Partnership to End Addiction

Primary Category: Addictive Behaviors

Key Words: Addictive Behaviors, Families, Treatment

In recent years, transition-age youth have experienced unprecedented levels of substance-related consequences in general and opioid-related consequences in particular. According to the latest national data, about 6.4 million youth under the age of 26 meet diagnostic criteria for a substance use disorder (SUD) and over 300,000 youth meet criteria for an opioid use disorder (OUD). Improving the quality of treatment and recovery support services for transition-age youth (ages 15-26) with SUD remains an urgent national health priority. Both empirical and developmental research indicate that families are powerful resources for enhancing treatment and recovery success among youth with SUD. Yet, families are not routinely targeted or systematically included in clinical practice. The Family Involvement in Recovery Support and Treatment (FIRST) Research Network is a NIDA-funded multidisciplinary collaborative (Grant # R24 DA051946) dedicated to promoting family integration in treatment and recovery support services for youth with SUD. The proposed panel comprises members of the FIRST Research Network steering committee and will focus discussion on five pertinent contemporary topics faced by clinical researchers and practitioners serving youth with SUD and OUD: (1) evidence-based intervention; (2) telehealth innovations necessitated by the COVID-19 pandemic; (3) family-decision making around medications for OUD; (4) family involvement in primary care; and (5) leveraging recovery support services to support a recovery maintenance plan. Presenters will be Aaron Hogue, PI of the FIRST Research Network and Vice-President, Partnership to End Addiction; Sara Becker, Brown University, Northeast ATTC; Marc Fishman and Kevin Wenzel, Mountain Manor Treatment Center; and Craig Henderson, Sam Houston State University. The panel will be moderated by Michael Southam-Gerow, Chair, FIRST Research Network National Advisory Board.
Symposium 34

Relationship Health and COVID-19: Identifying and Reducing Maladaptive Relationship Behaviors Across Diverse and Underserved Populations During a Public Health Emergency

Clinical Round Table 6

Adapting Interventions for Individuals with Intellectual Disability: Considerations and Challenges

Moderator: Jonathan Weiss, Ph.D., York University

Panelists: Caitlin M. Conner, Ph.D., University of Pittsburgh School of Medicine
Audrey Blakeley-Smith, Ph.D., University of Colorado School of Medicine
Andrew Jahoda, Ph.D., University of Glasgow
Kelly Vinquist, Ph.D., University of Iowa

Primary Category: Autism Spectrum and Developmental Disorders

Key Words: Developmental Disabilities, Comorbidity, Evidence-Based Practice

Individuals with Intellectual Disability (ID) comprise 1-2% of the population. Estimates of co-occurring mental health conditions are between 30-40% for adults and children and adolescents. Despite a higher prevalence of mental health conditions such as depression and anxiety disorders, individuals with ID lack access to psychotherapies to manage and treat these conditions. Instead, reliance upon polypharmacy is prevalent, which can result in unwanted side effects. Furthermore, little research on psychotropic medication focuses on ID specifically, so little is known about effectiveness of medication in this group. Families voice dissatisfaction with an overreliance on medication and reduced psychotherapy treatment options.

A significant barrier for psychotherapeutic treatment for those with ID is limited evidence-based, manualized interventions available to community clinicians, further reducing treatment access solely to “specialized” providers. Yet a growing body of evidence suggests that adapting evidence-based treatments can be effective for those with ID and can result in increased access to much needed care.

The primary goal of this clinical roundtable is to discuss psychotherapy adaptations for ID as well as challenges to adaptations for diverse psychotherapies for a range of ages (children and adults). Panelists have developed and researched the following: behavioral activation for adults with ID (AJ), CBT for anxiety with teens with both ID and autism (ABS), DBT for adults with ID (KV), and mindfulness for teens/young adults with ID and autism (CC). Panelists will discuss how they address factors such as varying verbal ability, developmental considerations between youth and adults, the role of parent/caregivers in treatments, treatment duration and frequency, differences between individuals with ID versus ID and autism, and use of homework. The panelists will also turn to discuss how those adaptations can be accomplished outside of research settings. Inclusivity of individuals with ID in mental health care is needed to address the lack of access to mental health services that many individuals with ID and co-occurring psychiatric diagnoses experience and to reduce the marginalization of this underserved population.

Clinical Round Table 7

Expanding Access to Care for Youth with ASD: Supervision and Treatment Considerations for the “non-asd Expert” CBT Provider

**Moderator:** Rebecca Sachs, ABPP, Ph.D., CBT Spectrum

**Panelists:** Anne Marie Albano, ABPP, Ph.D., Modern Minds
Dena Gassner, MSW, Adelphi University
Matthew D. Lerner, Ph.D., Stony Brook University
Lauren Moskowitz, Ph.D., St. John’s University
Sandra Pimentel, Ph.D., Montefiore Medical Center/
Albert Einstein College of Medicine
Tamara Rosen, Ph.D., JFK Partners, Section of Developmental Pediatrics

Primary Category: Autism Spectrum and Developmental Disorders

Key Words: Autism Spectrum Disorders, Underserved Populations, Adolescents

One in 54 children are identified with autism spectrum disorder (ASD), cutting across all racial, ethnic, and socioeconomic groups. Children and teens with ASD are more likely to develop co-occurring psychiatric conditions but are less likely to have access to evidence-based first line treatments for these conditions. The COVID-19 pandemic has amplified mental health concerns and simultaneous challenges to accessing care, especially for those with ASD. While autistic youth are increasingly seeking out treatment in multiple settings, there is a knowledge and confidence gap amongst providers when working with this population. Misguided beliefs that treating autistic youth fall out of the bounds of competency can result in those with ASD being inappropriately turned away by providers and training clinics with qualified and affordable CBT therapists. We will address knowledge gaps and anxieties experienced by students and early clinicians, as well as experienced CBT supervisors. Roleplay of specific cases, including those encountered this year during the Covid-19 pandemic, will illustrate how core CBT interventions with some modifications can be applied to this group. We will demonstrate how case conceptualization integrating CBT within a behavior analytic framework and incorporating common thinking differences characteristic of ASD can aid in the treatment and supervision of these cases. Roleplays will show how treatment of some comorbidities can be addressed in therapy. One panelist, with both professional expertise and the experience of being autistic, will reflect on roleplays connecting her experience with CBT to the above concepts. Panelists, CBT experts from both ASD and non-ASD backgrounds, will discuss how to address training/supervision issues of those working with ASD patients in various settings. Panelists will discuss how all CBT practitioners at every level of training and career development can capitalize on CBT expertise to treat those with ASD better than previously believed. We will also provide resources so attendees leave more confident in treating this group, able to leverage treatment skills they already possess and more willing to accept clients with ASD into their practice settings and expand access to evidence-based care.
Symposium 42

The Role of Repetitive Thinking in Depression Within the Autistic Community

Chair: Katherine O. Gotham, Ph.D., Rowan University
Discussant: Greg J. Siegle, Ph.D., University of Pittsburgh School of Medicine

Basic to Moderate level of familiarity with the material

Beyond the Day Job: Championing CBT with Meaningful Side Projects

Moderators: Ilyse Dobrow DiMarco, Ph.D., North Jersey Center for Anxiety and Stress Management
Amelia Aldao, Ph.D., Together CBT

Panelists: Ilyse Dobrow DiMarco, Ph.D., North Jersey Center for Anxiety and Stress Management
Amelia Aldao, Ph.D., Together CBT
Jelena Kecmanovic, Ph.D., Arlington/DC Behavior Therapy Institute
Stephanie Zerwas, Ph.D., Zerwas
Kathryn H. Gordon, Ph.D., Sanford Health

Key Words: Dissemination, Professional Development, Professional Issues

Treatment dissemination has long been a challenge for champions of CBT: how can we get our effective strategies into the hands of more people (especially recently, with the increased need for mental health services)? Some clinicians and researchers have attempted to address this issue by pursuing less traditional side projects in addition to their main “day job” responsibilities. Such side projects confer two key benefits: they allow us to add variety to our workdays by pursuing opportunities that are values-consistent; and they enable us to promote CBT among significantly larger and more diverse populations, including those who don’t often have access to evidence-based care. It can however be difficult to know how to go about pursuing such “side gigs,” as graduate programs typically only prepare students for pursuing traditional full-time roles. In this panel, professionals with CBT “side gigs” will discuss their career trajectories and offer guidance for those looking to pursue similar paths. Questions for the panelists will be solicited ahead of time and in real time on ABCT’s social media platforms, which will allow panelists to tailor the discussion to the specific needs of the audience. Panelists include a consultant for mental health start-ups (Dr. Amelia Aldao); a popular press writer and blogger (Dr. Ilyse Dobrow DiMarco); a podcaster (Dr. Kathryn Gordon); a Washington Post contributor (Dr. Jelena Kecmanovic); and the founder of Project Parachute, an organization that provides free therapy for frontline workers (Dr. Stephanie Zerwas). We will discuss: 1) how “side gigs” can help you champion CBT in novel ways; 2) how you can identify your strengths and the side project(s) that best fits them; 3) concrete steps you can take to pursue a number of different types of side projects; and 4) the pros and cons of adding a “side gig” to an already full workload.

**What Does It Mean to Dress “professionally” as a Therapist?**

**Panelists:** Jennifer C. Veilleux, Ph.D., University of Arkansas

Rebecca A. Schwartz-Mette, Ph.D., University of Maine

Basic to Moderate level of familiarity with the material

Primary Category: Professional / Interprofessional Issues

Key Words: Professional Issues, Training / Training Directors

Dressing “professionally” is a component of most clinic handbooks or organization guidelines. But what does it truly mean to dress “professionally” as a therapist, when our jobs do not technically require any specialized uniform? With the recognition that professionalism is a foundational competency in our field, the time has come for us to carefully articulate how authenticity, identity and professionalism intersect when considering our dress codes. This workshop will highlight some of the issues that are implicitly embedded into perceptions of professional appearance, including reviewing work from related fields (medicine, teaching, nursing, business, sports) suggesting that perceptions of competence based on appearance are often rooted in systemic biases toward marginalized groups (including women). We will also model strategies for having difficult conversations within programs and clinics around dress codes, and use experiential strategies to facilitate self-reflection in the service of helping attendees understand their attitudes about professional appearance and competence. Finally, we will focus on helping trainers (program faculty, supervisors, etc.) broach conversations with trainees and with clients about professionalism expectations around professional dress. The time has come for psychology as a field to
understand how we define professional dress considering that many clinics and graduate training programs are struggling with how to attend to issues of equity and inclusion in a practical manner. This workshop is geared primarily toward training faculty, clinic directors, supervisors and administrators (i.e., those in positions of power over front-line clinicians), but front-line clinicians are also welcome. This workshop will focus on strategies for initiating conversations around professional dress within programs and organizations, and strategies for helping clinicians discussing authentic dress decisions with clients. Experiential methods of learning will be emphasized.

You will learn:
- Critically examine traditional ideals of professionalism in clinical psychology.
- Explore how one-dimensional conceptualizations of professional appearance may further marginalize underrepresented groups.
- Actively construct concrete ideas for revising policy and training with regard to professionalism.

Panel Discussion 6

Working with Minoritized Veterans: The Intersection of Military Culture with Racial, Ethnic, Sexual, and Gender Identity

Moderator: Alexandra M. King, M.S., Rutgers University

Panelists: Juliette McClendon, Ph.D., Boston University School of Medicine
Jessica Stern, Ph.D., New York University Langone Health
Colleen A. Sloan, Ph.D., VA Boston HCS & Boston University School of Medicine
Maurice Endsley, Jr., Ph.D., US Department of Veterans Affairs

Primary Category: Military and Veterans Psychology
Key Words: Veterans, Culture, LGBTQ+

Millions of US Veterans have minoritized identities. Racial and ethnic minorities account for 23.7% of all Veterans and 59% of those enrolled in the Veterans Health Administration. Additionally, it is estimated that 2 million Veterans are women and 1 million Veterans are sexual minorities; and twice as many transgender and gender-diverse people are Veterans (15%) than in the general population (8%). Research demonstrates that attending to the intersection of clients’ identities is critical to providing effective services, yet little attention has been paid to treating individuals at the intersection of minoritized identity and military identity. Veterans may have had negative experiences as minorities in the military and/or being military members in minoritized communities. On the other hand, Veterans may also have had positive experiences with these intersecting identities and hold deep pride in them. As mental health providers, it is our responsibility to acknowledge Veterans as members of multiple cultures and communities as well as individuals with their own personal relationships to their identities. This panel aims to discuss common difficulties that Veterans from racial, ethnic, sexual, and gender minorities may face in treatment and how to provide care with cultural humility to prevent (and repair for) these difficulties. Panelists were chosen for their expertise in caring for such Veterans. Dr. Juliette McClendon, PhD will discuss the impact of racial stress and trauma on the mental health of Veterans of Color. Dr. Jessica Stern, PhD will share her perspective from working with Veterans and military families experiencing substance use disorders with a particular focus on substance use disparities and associated treatment implications across sociodemographics. Dr. Colleen Sloan, PhD will share from experience as a clinician working within a women’s trauma recovery clinic, as LGBT Veteran Care Coordinator, and director of an interdisciplinary transgender and gender diverse health team. Dr. Maurice Endsley, PhD will discuss approaches for addressing race-based stress/trauma in psychotherapy. The panel will discuss important practical considerations for working effectively and supportively with Veterans with minoritized identities.
Panel Discussion 5

Climate Change, Mental Health and Evidence-based Practice

**Moderator:** Katherine Crowe, Ph.D., Home for Anxiety, Repetitive Behaviors, OCD, and Related Disorders (HARBOR)

**Panelists:**
- R. Eric Lewandowski, Ph.D., New York University Langone Health
- Dean McKay, ABPP, Ph.D., Fordham University
- Jura Augustinavicius, Ph.D., Johns Hopkins Bloomberg School of Public Health
- Sarah Lowe, Ph.D., Yale School of Public Health
- Sarah Schwartz, Ph.D., Suffolk University
- Lena Verdelli, Ph.D., Teachers College, Columbia University

**Primary Category:** Global Mental Health

**Key Words:** Public Health, Vulnerable Populations, Evidence-Based Practice

Emerging evidence indicates that climate change has significant mental health impacts, though this area has received relatively little scientific attention. As climate change is expected to intensify, there is a critical need to understand the related mental health impacts and to identify optimal strategies for supporting mental health in affected groups, including the role of CBT practitioners. This panel will detail the direct and indirect mental health effects of climate change, highlighting challenges of construct definition and measurement as well as limitations of current nosology for characterizing these impacts. Panelists will review evidence on interventions that hold promise for supporting mental health in the context of climate change, including a synthesis and application of CBT approaches to address these circumstances which range from acute weather-related disasters to chronic climate change events and climate change anxiety. The panel will then review considerations and approaches for equitable engagement and partnership with affected communities and vulnerable populations in collaborative efforts to address mental health needs, including collective action and advocacy, attending in particular to concerns of environmental justice. Finally, the panel will present future directions for research and clinical engagement for CBT scientists and practitioners.
Symposium 56

Eye Tracking Without the Eyes: A Mouse-based Measure of Attentional Bias Inspired by the COVID-19 Pandemic

Successful Mentorship for Women and Underrepresented Groups

Moderators: Larissa A. McGarrity, Ph.D., University of Utah School of Medicine
Lane L. Ritchie, Ph.D., VA Greater Los Angeles Healthcare System

Panelists: David A. Haaga, Ph.D., American University
Khiela J. Holmes, Ph.D., Shalom Wellness Services, LLC
Ricardo F. Munoz, Ph.D., Palo Alto University
Bethany A. Teachman, Ph.D., University of Virginia

Primary Category: Women’s Issues

Key Words: Women’s Issues, Career Development, Education and Training

The inspiration for this proposed panel is the recent controversy surrounding an article published in Nature in November 2020 and then subsequently retracted: https://www.nature.com/articles/s41467-020-19723-8. This article investigated scientific mentor relationships and found worse productivity outcomes for mentees who were supervised by female mentors, as well as for mentors who supervised female mentees. The authors discussed implications for programs in which mentees are intentionally matched with mentors based on shared identity. The controversy surrounding this paper has focused on methodology, definitions of mentor relationships, and interpretation of the findings. This article—and its retraction—has sparked broader conversations around optimizing mentor relationships, including those pairings in which mentor and mentee share identity characteristics and those pairings in which they differ (based on gender but also based on racial/ethnic, socioeconomic, and other dimensions of diversity). Panelists are experienced and recognized mentors in the field. The panel will include discussion about reactions to this article and the subsequent controversy and retraction. The panel will focus on how to interpret research on mentorship for women and individuals from underrepresented groups, factors influencing productivity of mentees, and experiences with successful mentoring relationships characterized by shared and divergent identities and experiences.

Invited Address 1

Harnessing Research for Social and Policy Change: Thinking Differently About Impact

10:30 a.m. – 11:30 a.m.
Earn 1 continuing education credit

Kelly Brownell, Ph.D., Professor of Psychology and Neuroscience, Director of the World Food Policy Center, Duke University

Kelly Brownell is Robert L. Flowers Professor of Public Policy, Professor of Psychology and Neuroscience, and Director of the World Food Policy Center at Duke University. From 2013-2018 he served as Dean of the Sanford School of Public Policy at Duke. Prior to joining the faculty at Duke, Brownell was at Yale University where he was the James Rowland Angell Professor of Psychology, Professor of Epidemiology and Public Health, and Director of the Rudd Center for Food Policy and Obesity. While at Yale he served as Chair of the Department of Psychology and as Head of Silliman College. Brownell was elected to membership in the National Academy of Medicine (formerly the Institute of Medicine) in 2006 and that same year Time magazine listed Kelly Brownell among “The World’s 100 Most Influential People” in its special Time 100 issue featuring those “...whose power, talent or moral example is transforming the world.” He has received numerous awards and honors for his work, including the Lifetime Achievement Award from the...

Basic level of familiarity with the material
Primary Category: Public Policy
Key Words: Impact, Policy
American Psychological Association, Graduate Mentoring Award from Yale, the James McKeen Cattell Award from the New York Academy of Sciences, the Distinguished Alumni Award from Purdue University, the Lifetime Achievement Award from Rutgers University, and the Distinguished Scientific Award for the Applications of Psychology from the American Psychological Association. Dr. Brownell has published 15 books and more than 350 scientific articles and chapters. He has served as President of several national organizations including AABT now known as ABCT from 1988-1989 and has advised the White House, members of congress, governors, state attorneys general, world health and nutrition organizations, and media leaders on issues of nutrition, obesity, and public policy.

People in research careers hope their work has impact on the world, yet models of training and criteria for career advancement can impede this ambition. This is especially true given how the academic community conceptualizes inward-looking definitions and measures of impact that do not account for what the world might view as a more sensible definition – whether lives improve, problems get prevented, and social and policy changes occur. This traditional academic approach leads to programmatic research, which produces useful but typically incremental information. A “strategic science” model might be considered as a companion to programmatic research and might broaden how the field conceptualizes impact. The model involves the identification of change agents, designing research to address strategic gaps in information, and communication of the research back to the change agents. A model for harnessing science to create social and policy change will be presented with a number of concrete examples.

Outline:
- How the academic world defines impact.
- The limiting nature of this definition.
- A conceptual model of strategic science.
- Relationship of strategic to programmatic science.
- Examples of strategic science to create social and policy change.
- Is this legitimate work for scientists?

You will learn:
- Present a model for conceptualizing research impact.
- Provide concrete examples of the use of the conceptual model in research settings.
- Discuss how the model can apply in traditional research settings.

Long Term Goal:
- Recognition that there are alternatives to traditional ways of conceptualizing research impact

Traditional Workshop 1

ACT for Life: Using Acceptance and Commitment Therapy to Prevent Suicide and Build Meaningful Lives

Sean M. Barnes, Ph.D., Rocky Mountain MIRECC
Lauren M. Borges, Ph.D., Rocky Mountain MIRECC
Nazanin H. Bahraini, Ph.D., Rocky Mountain MIRECC
Robyn D. Walser, Ph.D., National Center for PTSD

All level of familiarity with the material

Primary Category: Suicide and Self-Injury

Key Words: ACT (Acceptance & Commitment Therapy), Suicide, Recovery

Suicide is a leading cause of death, and competency in suicide risk assessment and prevention is a vital component of clinical practice. Yet responding to suicide risk can be a tremendous source of stress and place therapists at odds with their clients. Acceptance and Commitment Therapy (ACT) provides a powerful and balanced approach to suicide prevention by promoting life in addition to preventing suicidal behavior. The workshop will begin with a concise review of the literature on ACT and suicide. Then participants will learn to apply key components of ACT for Life, a brief empirically-based intervention developed via a formative evaluation with ACT and suicide prevention experts (Barnes et al., 2021). Case examples and experiential exercises will be used to build skills for working effectively and compassionately with clients at risk of suicide, while still maintaining best practices for suicide prevention. We will identify therapist challenges to working with clients considering suicide and discuss methods for overcoming these barriers. Participants will learn how to maintain an ACT therapeutic stance when conducting suicide risk assessment, practice emphasizing function over form when identifying drivers of suicidal thoughts and behaviors and create an ACT-consistent safety plan. We will demonstrate how to join with clients in acknowledging and accepting the pain that leads them to desire death, while still empowering them to engage in values-consistent behavior, building a meaningful life of their choosing. This workshop will not include a comprehensive introduction to ACT and is recommended for attendees with at least some previous ACT training and experience.

Outline:
- Challenges of working with clients considering suicide
- Phenomenon of suicide from a contextual behavioral perspective
- Brief review of empirical support for using ACT to prevent suicide
• Introduction to ACT for Life protocol
• Functional suicide risk assessment
• Undermining the control agenda and turning toward values-based living
• Engaging mindfulness processes with clients thinking of suicide
• Engaging behavior change processes with clients thinking of suicide
• ACT-consistent safety planning
• Discussion and questions

You will learn:
• Conceptualize suicidal behavior from a contextual behavioral perspective.
• Describe one tool for assessing the function of suicidal behavior.
• Identify at least two strategies for using ACT to reduce suicide risk.
• Help clients create ACT-consistent safety plans.

Advanced Training in Trauma Focused Cognitive Behavioral Therapy: Applications to Developmental Disabilities

Peter J. D’Amico, ABPP, Ph.D., Northwell Health Long Island Jewish Medical Center
Daniel Hoover, ABPP, Ph.D., Center for Child and Family Traumatic Stress, Kennedy Krieger Institute

Moderate level of familiarity with the material
Primary Category: Autism Spectrum and Developmental Disorders
Key Words: Autism Spectrum Disorders, Trauma, Treatment

Neurodiverse youth are exposed to maltreatment, bullying, abuse, potentially traumatizing medical and restraint procedures, and other adverse childhood experiences at approximately be 2-3 times that of their neurotypical peers. Despite this prevalence, neurodiverse youth are an underserved and poorly understood group among mental health clinicians and those who treat traumatic stress, in part due to being underrepresented in both the treatment literature and in graduate training programs. However, clinicians have implemented Trauma-Focused Cognitive Behavior Therapy (TF-CBT) with them. For over two decades, many children with trauma related symptoms have been effectively treated due to model’s flexibility and applicability to both single and complex trauma, as well as cultural backgrounds. The efficacy of TF-CBT has been demonstrated in almost two dozen randomized controlled trials and across the developmental spectrum for many types of trauma and settings. Significant progress has been made in adapting TF-CBT to meet the needs of youth and caregivers with significant limitations in cognitive, language, and other executive functions. The growing evidence base in the literature about the effectiveness of CBT for anxiety in (high-functioning) autism spectrum disorders is used as a guide for adapting EBT’s for a wider range of neurodiversity. Our presenters, who include a certified TF-CBT trainer, and a director of a trauma clinic serving neurodiverse youth, will describe the problems of bias and diagnostic overshadowing, in the assessment of trauma in neurodiverse youth. An initial focus is the importance of child self-report, and the current state of the literature in this area. A formal model is presented based on a “matrix” implementing TF-CBT modules, using performance and self-report measures, while accounting for youths’ and caregivers’ a) verbal comprehension; b) visual-spatial skills; c) sensory differences; d) motivation for treatment; and e) ability to generalize skills learned in therapy. Recommendations for treatment structure, process, and supplemental
resources from neurodiversity literature will be provided, to apply TFCBT flexibly within fidelity. The steps and approach will be illustrated by clinical case examples.

Outline:
- Scope of the Problem
- Assessment and diagnosis with IDD + Trauma
- Trauma Response & Neurodiversity
- Results of TF-CBT Therapist Survey
- Treatment considerations tailoring TF-CBT to children and families with IDD
- Applications of Adaptations to PRACTICE Modules

You will learn:
- Determine the appropriateness of TF-CBT for my clients based on evidence-based assessments of both ASD and PTSD.
- Explain the need to adapt standard assessment and TF-CBT techniques to the special needs of youth with developmental disabilities who have been traumatized.
- Flexibly tailor TFCBT PRACTICE modules while keeping fidelity, taking into account developmental needs.
- Describe variations of trauma narration modified for youth with ASD.

Long-term Goal:
- To identify and implement best fit accommodation strategies when tailoring TF-CBT for youth with Intellectual and Developmental Disabilities

Earn 2 continuing education credits

Master Clinician 1

Within Six Feet: Treating Childhood Anxiety Disorders During the COVID Pandemic

Deborah Roth Ledley, Ph.D., Children’s and Adult Center for OCD and Anxiety

Basic to Moderate level of familiarity with the material
Primary Category: Child / Adolescent - Anxiety
Key Words: Anxiety, Parenting, CBT

The COVID-19 pandemic has kept families home for over a year, preventing children from regularly attending school, spending time with friends, and pursuing extracurricular interests. Although we have all become accustomed to staying 6 feet apart from others when out in the world, parents have expressed frustration with the forced closeness that the pandemic has wrought. In fact, many parents have said that when their families are at home, their children are always within 6 feet of them! Limited research suggests that the COVID pandemic has had “a devastating impact on many young people with a history of mental health needs” (Young Minds Survey, 2021). Although we do not yet have research on the long-term impact of the pandemic on anxious youth, clinical experience suggests that factors related to the pandemic are increasing parental accommodation of anxiety while limiting opportunities for skill-building and independence. As these interesting effects are unfolding before our eyes, clinicians have had to learn to effectively implement exposures when parents and children rarely have time apart. In this seminar, attendees will learn how to effectively implement cognitive behavioral strategies for anxiety disorders during the COVID pandemic, with special attention paid to creatively using telehealth. How can we treat separation anxiety when children are not going to school, friends’ houses, or activities? How can we work on sleep difficulties when parents are already so overtaxed by the stress of the past year? What are the best ways to treat social anxiety when parents and siblings might be our only “real life” companions? We will consider how to balance the comfort and protection children need right now during this prolonged time of stress without engaging in undue family accommodation that can maintain anxiety-disordered behaviors. Furthermore, attention will be paid to how to use CBT strategies to help children transition back to “normal life” as pandemic restrictions are lifted. During this presentation, we will also consider how to attend to parental needs given that stress levels during the pandemic have been particular high for parents of children under the age of 18.

Outline:
The COVID-19 pandemic has kept families home for over a year, preventing children from regularly attending school, spending time with friends, and pursuing extracurricular interests.

Clinical experience suggests that the forced familial closeness wrought by the pandemic might be increasing parental accommodation of anxiety (Lebowitz, 2019) while concurrently limiting opportunities for skill-building and independence.

- Attendees will learn how to effectively implement cognitive behavioral strategies for anxiety disorders during the COVID pandemic, with special attention paid to creatively using telehealth.
- Attention will be also be paid to how to use CBT strategies to help children transition back to “normal life” as pandemic restrictions are lifted and how to take what we have learned from our experiences with telehealth into the future of anxiety disorder treatment for anxious youth.

Long-term goals:
- Use cognitive-behavioral strategies to address “re-entry anxiety” as the world emerges from the pandemic.
- Creatively use a blend of in-person and telehealth sessions as the world emerges from the pandemic to best address anxiety in youth.

You will learn:
- Understand how the COVID-19 pandemic has impacted the presentation of anxiety disorders in youth and their families.
- Conceptualize cases of anxiety disorders in youth during the COVID pandemic, taking into account the effects of stay-at-home orders and inability to participate in school, social activities, and extracurricular activities.
- Implement cognitive-behavioral strategies to address separation anxiety, social anxiety, sleep issues, and other anxiety disorders during the COVID pandemic.
- Recognize the crucial role of family accommodation in the maintenance and treatment of anxiety disorders, particularly during stay-at-home orders.
- Creatively use telehealth platforms to engage children and families in treatment for anxiety disorders.

Special Session: - Internship Training Site Overview

Crystal S. Lim, Ph.D., University of Mississippi Medical Center

The Internship Training Site Overview is designed to help graduate students learn about the internship application and selection process, including what to look for when applying to or selecting an internship, how to prepare for internship interviews, and how to find a good internship “fit.” The program will consist of two parts. The first 90 minutes will feature a panel discussion by behaviorally oriented internship directors from American and Canadian institutions. These presenters will address both the training director and the student perspectives of the application process, including the criteria used to assess applicants and suggestions for successful virtual interviewing. Questions from the audience will be accepted at the end of the segment. The second section will consist of informal meetings between internship site representatives and prospective internship applicants. If you are a student and are either just beginning to learn about internships and the application process or are in the process of applying for internship now, we encourage you to attend. Internship sites that would like to be represented at this event should contact Dakota McPherson at the ABCT Central Office: dmcpherson@abct.org.

Earn 2 continuing education credits

Master Clinician 6

Everything Old Is New Again: The Role of Worksheets in Growing (and Measuring) CBT Competence

Torrey A. Creed, Ph.D., University of Pennsylvania

Basic to Moderate level of familiarity with the material

Primary Category: Treatment - CBT

Key Words: Competence, Treatment, Implementation

Consider the CBT worksheet — a simple clinical tool that some clinicians may brush aside in efforts to ensure that therapy is engaging, skill-based, and tailored to an individual’s
goals and challenges. These client-focused goals are central to high-quality CBT, and use of CBT worksheets may facilitate, rather than hinder, the clinician and client’s success. In this Master Clinician Seminar, Dr. Creed reintroduces CBT worksheets with a three-fold purpose. First, worksheets are framed as a direct clinical tool to help clients scaffold their learning of CBT strategies so that they can ultimately use them fluidly and naturally (i.e., without a worksheet). Discussion will include how to engage clients in this process, how to integrate worksheets in telehealth, and how to support clients in transitioning to a paperless version of skill use. Second, a parallel process is described for training and supervising new CBT therapists, as clinicians rely on CBT worksheets to build their own growing competence and confidence. Finally, Dr. Creed will present a method for rating completed CBT worksheets to evaluate clinician competence, based on preliminary findings from an ongoing NIMH-funded R01 research study (Stirman, PI, Creed, Co-I).

Outline:
- (Re)-introduction of worksheets as tools to teach skills to clients and support growing clinician skills
- Providing a rationale for clients to build engagement with worksheets
- Scaffold client skills
- Cuing steps in an intervention strategy
- Worksheets as a support during distress
- Using worksheets to examine clinician fidelity

You will learn:
- Demonstrate 2 strategies for engaging clients in the use of CBT worksheets to help them integrate CBT skills into their daily lives.
- Identify at least 1 way in which the use of CBT worksheets can scaffold news clinicians in building their confidence and CBT skills.
- Describe 1 strategy for leveraging CBT worksheets to evaluate clinician competence.
- Identify 2 ways in which integrating worksheets into their practice can enhance their professional growth.

Long-term goals:
- Employ at least one strategy to integrate worksheets into their CBT clinical practice.
- Teach trainees how to build their own CBT skills through the use of worksheets in their clinical practice.

**Lifetime Achievement Award Address: Social Anxiety Disorder: The Role of Emotion (Dys) Regulation in Its Nature and Treatment**

11:45 a.m. – 12:45 p.m.

Earn 1 continuing education credit

**Richard G. Heimberg, Ph.D., Thaddeus L. Bolton Professor Emeritus, Department of Psychology, Temple University**

**Rick Heimberg** received his Ph.D. from Florida State University in 1977. He was, until his recent retirement, Thaddeus L. Bolton Professor of Psychology at Temple University, where he also directed the Adult Anxiety Clinic of Temple. For the past four decades, he has been one of the world’s most prominent researchers in the study of the nature and treatment of social anxiety disorder and his Managing Social Anxiety program (coauthored with Debra Hope and Cynthia Turk) is a one of the leading approaches to its treatment. Dr. Heimberg has also made contributions to the study of generalized anxiety disorder and anxiety about going to the dentist. Together with his several collaborators, postdoctoral fellows, and doctoral students at Temple University and the University at Albany, SUNY, he has published 14 books and nearly 500 articles and chapters on these topics. His work has been cited more than 60,000 times. His research accomplishments have been recognized by Lifetime Achievement Awards from the Academy of Cognitive and Behavioral Therapies and the Philadelphia Behavior Therapy Association, as well as awards from the American Society for Group Work and Temple and Florida State...
Universities. He also received the Jerilyn Ross Clinician Advocate Award from the Anxiety and Depression Association of America.

Dr. Heimberg first came to the ABCT convention in 1976, and he has been an involved member ever since. Among numerous other posts, he has served as President, Representative-at-Large, Chair of the Continuing Education Committee, Workshop Coordinator, and as Editor of *Behavior Therapy* (for which he received ABCT’s Outstanding Service Award). He also served as President of the Society for a Science of Clinical Psychology (SSCP). He was the first recipient of ABCT’s Outstanding Mentor Award, and he has received similar awards from the Society of Clinical Psychology, SSCP, and the American Psychological Association of Graduate Students for his commitment to the education and training of doctoral students in clinical psychology.

Primary Category: Adult Anxiety, Treatment – CBT, Treatment – Mindfulness & Acceptance

Key Words: Adult, CBT, Mindfulness, Social Anxiety

Social anxiety disorder (SAD) is highly prevalent and associated with significant impairment. It is, by definition, associated with an excess of anxiety, but it is also associated with other difficulties in the regulation of emotion, which have received much less attention. Primarily using data from two randomized controlled trials evaluating Cognitive Behavioral Therapy for the treatment of SAD (one versus Waiting List and the other versus Mindfulness-Based Stress Reduction and Waiting List), I will describe the relationships of several emotion variables, including cognitive reappraisal, expressive suppression, emotion theory, empathy, and anger to SAD and its treatment.

Outline:
- Acknowledgements and disclosures
- Definition of social anxiety disorder (SAD), prevalence, impairment, comorbidity
- SAD and anger
- Anger and anger suppression in SAD
- Latent anger profiles in patients with SAD
- Emotion regulation
- Gross’s Process Model
- Emotion Regulation Interview
- First randomized controlled trial – CBT vs waiting list
- CBT efficacy
- Role of cognitive reappraisal self-efficacy
- Weekly changes in emotion regulation and social anxiety
- Second randomized controlled trial – CBT vs MBSR vs WL
- CBT/MBSR efficacy
- Similarities and differences in outcome
- Role of cognitive reappraisal self-efficacy and frequency
- Weekly changes in cognitive reappraisal, mindfulness, and acceptance
- Entity vs incremental theory of emotion in SAD
- Decrease in entity beliefs predicts reduction of social anxiety in CBT
- Deficits in positive affective empathy in SAD
- Increases in positive affective empathy in CBT, but not MBSR/WL
- Changes in positive affective empathy mediated improvements in social anxiety in CBT
- SAD treatment and anger redux
- Anger suppression and expression moderate effects of CBT vs MBSR
- CBT greater efficacy at higher levels of anger suppression (post-treatment) and anger expression (follow-up)
• Effects of CBT on neural dynamics of cognitive reappraisal of negative self-beliefs (First RCT)
• Task description – react vs reappraise
• Emotion ratings
• Change in BOLD response in DMPFC and left DLPFC in CBT but not WL
• Regions implicated in cognitive control of emotion/downregulating negative emotion
• DMPFC – increased early response in CBT group after treatment (enhanced ability to access and implement appraisal strategies?)

You will learn:
• Define social anxiety disorder and describe its prevalence and associated impairment.
• Describe patterns of emotion dysregulation (cognitive reappraisal, expressive suppression, entity theory of emotion) demonstrated by individuals with social anxiety disorder.
• Describe the potential role of emotion (dys)regulation in the outcome of cognitive-behavioral treatment for social anxiety disorder.

Clinical Round Table 8

How to Apply Dialectical Behavior Therapy (DBT) When Working with Minoritized People

Moderator: Cindy J. Chang, Psy.M., Rutgers, The State University of New Jersey

Panelists: Colleen A. Sloan, Ph.D., VA Boston HCS & Boston University School of Medicine
Kelci C. Flowers, Ph.D., Atlanta VA Health Care System
Alexandra Canetti, M.D., Columbia University Medical Center
Jeffrey M. Cohen, Psy.D., Columbia University
Vinushini Arunagiri, Ph.D., McLean Hospital

Primary Category: Treatment - CBT

Key Words: DBT (Dialectical Behavior Therapy), Underserved Populations, Oppression

Racial, ethnic, sexual, and gender minority people are disproportionately affected by discrimination, marginalization, and oppression. These stressors make minoritized individuals, especially those with intersecting identities, more susceptible to negative mental health outcomes. Dialectical Behavior Therapy (DBT) is an evidence-based treatment for
emotion dysregulation, which acknowledges the negative impact of an invalidating environment. Given this framework, DBT lends itself well toward working with individuals who have experienced invalidation due to a group identity (e.g., racism, heterosexism, transphobia). As the APA ethical Guidelines Principal D states, all persons have a right to equal quality in the services being provided by psychologists, making it an ethical obligation to adapt treatments to meet the unique features of minority mental health. With growing attention towards anti-racism, equity and inclusion, recent work on tailoring DBT to queer, transgender, and BIPOC clients arrives at a timely moment and is essential to providing effective, fair treatment to minoritized populations.

This clinical roundtable focuses on implementing standard DBT (i.e., individual psychotherapy, skills training group, consultation team, and phone coaching) in a culturally sensitive way with minoritized populations, including those at the intersection of multiple marginalized identities. Panelists will discuss ways to infuse anti-racism and social justice into their practice of DBT to enhance treatment outcomes. First, the presenters will discuss how to integrate minority stress theories with the biosocial model of emotion dysregulation for clinical work with these communities. Then, they will discuss ways to tailor DBT strategies and skills (e.g., chain analysis, validation) toward addressing experiences of racism, heterosexism, and transphobia. The presenters will draw upon clinical examples from all modes of DBT treatment to discuss common therapist therapy-interfering stigmatizing behavior. The session will conclude with questions from the audience. Overall, this clinical roundtable will contribute to discussion about promoting cognitive and behavioral practice, specifically DBT, in the context of social justice.
Mini Workshop 2

Flexible Applications of CBT for Emerging Adults in Crisis: Lessons Learned from a Multimodal Approach to Outreach, Training, and Treatment for Emerging Adults During COVID-19

Andrea B. Temkin, Psy.D., Weill Cornell Medicine
Shannon M. Bennett, Ph.D., Weill Cornell Medical School
Lauren Hoffman, Psy.D., Columbia University College of Physicians and Surgeons
Anne Marie Albano, ABPP, Ph.D., Modern Minds

Basic to Moderate level of familiarity with the material

Primary Category: Treatment - CBT

Key Words: Anxiety, CBT, Technology / Mobile Health

Rates of reported anxiety and depression in emerging adults (EAs; ages 18-25) nearly doubled from 2008 to 2018 (Goodwin et al., 2020) and have significantly worsened during COVID-19. A recent national survey shows 6 to 10 fold increases in depression, anxiety, and thoughts of self-harm in youth during the pandemic (Perlis et al., 2020), with significant challenges for EAs across nearly all domains of functioning, stalling progress toward key developmental milestones, and necessitate a reimagining of traditional care delivery models to best meet the emotional needs of youth. Consequently, these challenges have pushed the psychological community to adapt and amplify efforts to intervene, providing lessons for novel models of intervention. This mini workshop will outline the significant impact of COVID-related stress on EAs and provide information on how core developmental milestones (e.g., independence, self-care, relationships) are being stalled by the pandemic and related socioeconomic and educational problems. We will discuss how to flexibly apply and optimize the use of CBT strategies to mitigate the growing mental health needs of EAs by expanding outreach and care through a multimodal approach that leverages technology. Specifically, we will discuss increasing access to CBT-through interactive webinars for emerging adults, parents, and providers, and train-the-trainer models of dissemination for mental health professionals in higher education. Participants will also learn concrete strategies for adapting individual and group therapy, including clinical modifications and creative approaches to telehealth treatment, and ways to incorporate existing apps and websites to facilitate an integrated focus on mental and physical health while connecting to peers and communities. Ultimately, the aims of this workshop are to review the amplified mental health challenges experienced by EAs as a result of COVID-19, and to teach participants ways to apply and scale core CBT strategies to meet this elevated need through outreach, training, and treatment.
You will learn:

- Explain the impact of pandemic related stressors on mental health for emerging adults and its unique impact on developmental milestones.
- Use technology to increase access to CBT strategies for young adults and their families.
- Describe ways to improve dissemination of CBT through community outreach and train-the-trAINER efforts.

11:45 a.m. – 1:15 p.m.

Earn 1.5 continuing education credits

Symposium 63

Provider Attitudes Toward Rapid Telemental Health Implementation During the COVID-19 Pandemic: Lessons Learned and Paths Forward

Chairs: Jessica M. Lipschitz, Ph.D., Brigham and Women’s Hospital / Harvard Medical School
        Samantha L. Connolly, Ph.D., VA Boston Healthcare System / Harvard Medical School

Discussant: Stephen M. Schueller, Ph.D., University of California, Irvine

Virtual
Mini Workshop 1
A Clinician’s Guide to Sexual Assault Disclosure
Amie R. Newins, Ph.D., University of Central Florida
Laura C. Wilson, Ph.D., University of Mary Washington

Basic to Moderate level of familiarity with the material
Primary Category: Trauma and Stressor Related Disorder and Disasters
Key Words: Violence / Sexual Assault, PTSD (Posttraumatic Stress Disorder)

Sexual assault is a worldwide public health concern, as it occurs to people of all genders at alarming rates and results in serious physical and mental health sequelae. The reactions survivors receive from formal and informal supports can significantly influence survivors’ recovery. Given the prevalence of sexual assault, all providers need to be prepared to handle disclosures of sexual assault from clients. In this mini-workshop, the presenters will provide guidance on how to interact with survivors of sexual assault, which is defined as sexual contact or penetration without the explicit consent of the victim. This presentation will begin with a brief overview of the research on sexual assault labels and sexual assault disclosure. Then, the presenters will provide recommendations for assessing...
history of sexual assault in mental health settings. Finally, guidance on how to approach labels and disclosure issues during cognitive-behavioral therapy will be provided. We will also highlight that there are particular populations (e.g., racial, sexual minorities) and settings (e.g., military, higher education) that require particular considerations when discussing sexual violence, and we provide recommendations for providers in those settings. Case examples will be used to help illustrate specific recommendations for working with survivors of sexual assault. Overall, professionals have an instrumental role in facilitating survivor recovery, and this presentation will provide information about best practices for providing services in an affirming manner.

You will learn:
• Describe the research literature regarding sexual assault labels and disclosure.
• Identify assessment measures for history of sexual assault.
• Explain how clinician language may affect sexual assault disclosure.
• Describe how clinician language during treatment may influence survivor outcomes.
• Identify best practices regarding language when implementing CBT with survivors of sexual assault.

Panel Discussion 8

If Not Now, When?: Trainee and Supervisor Experiences Providing Treatment for Suicidal Populations

Moderators: Katharine Bailey, Psy.M., Rutgers University - GSAPP
Maria C. Alba, Psy.M., Rutgers University - GSAPP

Panelists:
Shireen L. Rizvi, ABPP, Ph.D., Rutgers, The State University of New Jersey
David A. Jobes, Ph.D., Catholic University of America
Marjan G. Holloway, Ph.D., Uniformed Services University of the Health Sciences
Mariam Gregorian, Ph.D., American University
Matthew Thompson, M.S., Uniformed Services University of the Health Sciences

Primary Category: Workforce Development / Training / Supervision
Key Words: Suicide, Competence, Training / Training Directors

Despite decades of research on risk factors and prevention, rates of suicide in the US have risen over the past two decades¹. Suicide risk is often encountered in clinical settings and can be anxiety-provoking for mental health practitioners including psychologists-in-training. One study estimated that 40% of trainees will treat someone who attempts suicide (29.1%) or dies by suicide (11.3%) over the course of their training². Yet, graduate students typically receive little formal training on applying CBT principles and evidence-based methods to effectively mitigate suicide risk³. Furthermore, APA guidelines require accredited psychology programs to make training “sequential, cumulative, and graded in complexity,” which suggests that students should not work with high-risk individuals until later in their training. Given that graduate school is the primary opportunity to receive clinical training under high levels of supervision, panelists will assert that students should receive more training and direct experience applying CBT with suicidal individuals. Evidence-based approaches to establish student training competencies and meet the immediate and long-term needs of high risk individuals will be discussed.
Panelists were chosen to discuss their research, share clinical expertise, and highlight the challenges and benefits of students working with suicidal clients early in their training. Drs. Shireen Rizvi, David Jobes, and Marjan Holloway will present on their experiences of training and supervising students using specific approaches of expertise (i.e. Dialectical Behavior Therapy, Collaborative Assessment and Management of Suicidality (CAMS) framework, and CBT for suicide prevention with military personnel, respectively). Student panelists will discuss their training experiences directly treating clients experiencing chronic suicidality under the supervision of the licensed panelists.

Panel Discussion 12

Masters-level Clinical Training as an Avenue to Championing CBT: Opportunities Rewards, and Challenges

MODERATORS: Georganna R. Sedlar, Ph.D., University of Washington School of Medicine
Matthew Capriotti, Ph.D., San Jose State University

PANELISTS: Georganna R. Sedlar, Ph.D., University of Washington School of Medicine
Matthew Capriotti, Ph.D., San Jose State University
Stacy S. Forcino, Ph.D., California State University, San Bernardino
Bita Ghafoori, Ph.D., California State University Long Beach (CSULB)
Caleb W. Lack, Ph.D., University of Central Oklahoma
Maria M. Santos, Ph.D., California State University San Bernardino

Primary Category: Workforce Development / Training / Supervision

Key Words: Training / Training Directors, Education and Training

As the vast majority of direct psychological services are provided by graduates of Masters’ level training programs (MLP), they provide a landscape in which to cultivate and promote cognitive behavioral intervention skills. MLPs also offer a valuable opportunity to produce CBT practitioners who can expand the reach and use of CBT, and thereby have a significant positive impact on psychological outcomes for the public. Yet, to date there has been limited attention to such programs within ABCT and similar professional associations. This year’s convention theme provides a fitting backdrop to highlight the impact that MLPs can play in widening the implementation of CBT worldwide.
This panel discussion is assembled to highlight the key role that MLPs play in promoting the use of CBT. Panelists will be composed of faculty from various Masters’ level programs and will share their current efforts towards developing student competencies in CBT principles and interventions. The discussion will include successes and unique obstacles faced at their respective programs and strategies for overcoming such obstacles. Attention to diversity, equity and inclusion in these efforts will be highlighted. This panel discussion will culminate in an overview of future goals and objectives for MLPs both within and outside of ABCT. This panel discussion should be of interest to anyone involved in or interested in MLP training, e.g., faculty in MLPs, training directors, clinical supervisors of Masters-level clinicians, Masters-level practitioners, current MLP graduate students, undergraduate students interested in pursuing MLPs, or others who want to learn more about this often overlooked opportunity to “champion CBT” enhance and expand CBT delivery.

Panel Discussion 10

The Perfect Storm: Experiences of Racism, Political Strife, and Public Health Stressors During the COVID-19 Pandemic in Asian American and Pacific Islander Communities

**Moderator:** Janie J. Hong, Ph.D., Stanford University School of Medicine and Redwood Center for CBT and Research

**Panelists:** Vaishali V. Raval, Ph.D., Miami University
Adriana Miu, Ph.D., University of Texas Southwestern Medical Center
Lorraine U. Alire, B.S., M.A., University of Massachusetts Boston
Charles Liu, Ph.D., Wheaton College
Anu Asnaani, Ph.D., University of Utah

**Primary Category:** Culture / Ethnicity / Race

**Key Words:** Asian Americans, Public Health, Oppression

Racism against Asian American and Pacific Islander (AAPI) communities has always been present but often invisible and unheard. The COVID-19 public health crisis has further exacerbated these racialized ethnic disparities. The uncertainty, social isolation, health anxiety, and abrupt changes to our daily routines have created a significant mental health burden. For AAPIs, this has been further compounded by an alarming and ongoing increase in racism. For example, in the two weeks following the community spread of the virus in the United States in 2020, over 1100 reports of hate crimes towards Asian Americans were documented (Asian Pacific Policy and Planning Council, 2021). Furthermore, there is an additional strain on mental health providers from AAPI communities due to a greater pull for their resources from communities that are struggling with these issues and their own concurrent race-based stress. Finally, an overarching atmosphere of xenophobia,
racism, and intolerance has made navigating one’s own self-care and prioritizing one’s mental health an even more uphill task.

This panel aims to provide a spotlight on AAPI communities and their distinct experiences of racism and sociopolitical stressors in the time of the pandemic, from community member, researcher, and mental health provider perspectives. The panelists represent a variety of AAPI backgrounds themselves and work with individuals across AAPI communities. Speakers conduct work related to the development and dissemination of racially and ethnoculturally responsive evidence-based treatments specifically in these communities, assessments and interventions directly related to the impacts of COVID-19, political strife, and AAPI race-based discrimination, and examinations into the impacts of these ongoing societal stressors on the well-being of mental health professionals of color over the course of the pandemic.

Panel Discussion 11

Bridging the Gap Between Research and Practice: Improving Implementation of EBI Through the Use of Transdiagnostic and Principles-based Interventions

MODERATORS: Michael Friedman, PsyM, Rutgers University
Melissa Pedroza, PsyM, Rutgers University, The State University of New Jersey

PANELISTS: Sarah Kate Bearman, Ph.D., The University of Texas at Austin
Brian C. Chu, Ph.D., Rutgers University, The State University of New Jersey
Jill Ehrenreich-May, Ph.D., University of Miami
Melanie Harned, Ph.D., VA Puget Sound Health Care System and University of Washington

Primary Category: Dissemination & Implementation Science
Key Words: Dissemination, Implementation, Transdiagnostic

Challenges related to acceptability, training, and flexibility contribute to the underutilization of evidence-based interventions (EBI) and the ongoing gap between research and practice. Existing research highlights how transdiagnostic and principles-based interventions can address these issues and improve the implementation of EBI. An alternative approach to traditional single-disorder protocols, transdiagnostic and principles-based interventions reduce the amount of time and effort required for adequate training while allowing clinicians to flexibly and creatively treat the complex presentations commonly found in clinical settings. Panelists will present their research and expertise on the dissemination and implementation of transdiagnostic and principles-based interventions. Dr. Sarah Kate Bearman will discuss the dissemination and implementation of principles-based interventions that target causal and maintenance factors of more than one disorder as well as modular approaches to comorbid presentations. Dr. Brian Chu will describe the implementation of transdiagnostic interventions that flexibly target common underlying
etiological and maintaining mechanisms of diverse presenting problems in youth. Dr. Jill Ehrenreich-May will explore unified treatments that flexibly address higher order factors shared among internalizing disorders and the implementation of these protocols in community mental health settings. Dr. Todd Farchione will consider the development of the Unified Protocol and its utility in addressing barriers to dissemination and implementation of EBI. Dr. Melanie Harned will present on stage-based transdiagnostic treatments used to improve the implementation of EBI as well as increase adherence and quality outcomes in the treatment of comorbid presentations. These experts will discuss the effectiveness and application of transdiagnostic and principles-based interventions and consider implications for guiding future research, training, and clinical practice. They will also identify ways in which these interventions can ease implementation barriers, improve training of and access to Cognitive-Behavioral Therapy in public health settings, and begin to close the research-practice gap.

Panel Discussion 9

Advocating for and Supporting Emerging Adults with Autism: needs, Challenges, Clinical Considerations, and Approaches

**Moderator:** Susan W. White, ABPP, Ph.D., University of Alabama

**Panelists:**
- Ashleigh Hillier, Ph.D., University of Massachusetts, Lowell
- Laura G. Klinger, Ph.D., University of North Carolina at Chapel Hill
- Brenna Maddox, Ph.D., University of North Carolina at Chapel Hill
- Cara Pugliese, Ph.D., Children’s National Hospital, George Washington University
- Carol Schall, Ph.D., Virginia Commonwealth University

**Primary Category:** Autism Spectrum and Developmental Disorders

**Key Words:** Autism Spectrum Disorders, Adult, Community-Based

The Interagency Autism Coordinating Committee, a coordinating body for ASD services research convened by the US Department of Health and Human Services, identified the need for developing services to support the transition to adulthood as its first objective within the domain of lifespan research (Interagency Autism Coordinating Committee, 2016). Approximately 1 in 54 youth have a diagnosis of autism spectrum disorder (ASD) based on CDC estimates (Maenner et al., 2020). This means that upwards of 70,000 teens with ASD enter adulthood every year (Shattuck et al., 2012), and there will be more than a half-million more adults with ASD each decade, leading some to refer to the rise in this segment of the population as the ‘autism tsunami’. Considering this in the context that just 2% of all ASD-related research focuses on transition and adult outcomes (U.S. Department of Health and Human Services, 2017), the inadequacies of our current supports, and resulting strain on service delivery systems, will become even more problematic. We need
research-supported programming to address barriers that inhibit healthy adult transitions and improve outcomes for emerging adults with ASD - a growing, high-needs population. Collectively, our goal is to facilitate the implementation of research-supported approaches to serving emerging adults with ASD. Panelists represent diverse viewpoints and research expertise, although all work with this population clinically. We will review extant research on the needs and challenges faced by this population, and describe some of the evidence-based approaches and programs currently being used to facilitate postsecondary education, competitive integrated employment, support independent living, and improve quality of life. In this panel discussion, we describe empirically supported school-based services, mental health supports, and treatment strategies based in cognitive-behavioral therapy, mindfulness, and family systems approaches.

1:00 p.m. – 2:00 p.m.

Special Session - Internship Meet & Greet

Crystal S. Lim, Ph.D., University of Mississippi Medical Center

For description please see “Internship Training Site Overview” at 11:30 a.m.
Clinical Grand Round 1

**How to Develop and Optimize Anti-racism Efforts in Research and Clinical Settings: Live Demonstration**

**Chair:** Kevin O. Narine, B.A., William James College, Graduate Education in Psychology

**Panelists:** Lauren P. Wadsworth, Ph.D., Genesee Valley Psychology Colleen A. Sloan, Ph.D., VA Boston HCS & Boston University School of Medicine Stephanie Pinder-Amaker, Ph.D., McLean Hospital/ Harvard Med School Amber Calloway, Ph.D., Center for Anxiety and Behavior Therapy Jessica LoPresti, Ph.D., Suffolk University

Primary Category: Workforce Development / Training / Supervision

Key Words: Race, Ethnicity, Education and Training

In response to recent tragedies, the American Psychological Association has classified racism as a “pandemic.” Racism exists in many forms and advances the harmful notion that the white race is superior to non-white people on an individual, institutional, and systemic level. Racism is associated with trauma, anxiety, and mood-related disorders, and poor physical health (Kirkinis et al., 2018; Paradies, 2006; Williams, 2003). Racism has persisted over time in institutional processes, including clinical practice and research in mental health disciplines (Fernando, 2017). These factors are related to inadequate training on addressing racism and taking a practical approach to eliminating racism in research and clinical settings (Cénat, 2020).

Anti-racism focuses on actionable strategies to reduce and prevent racism embedded in workplace settings. Thus, anti-racism promotes a paradigm shift to address the challenges of Black, Indigenous, and other People of Color (BIPOC) professionals, trainees, and staff in clinical and research settings. Furthermore, BIPOC colleagues often express the need for allies to spearhead anti-racism in their workplace (Paulraj, 2016). Thus, it is essential to take a collaborative anti-racist approach to identify racism-related concerns, address isolated and chronic racism-related experiences, and establish and sustain an inclusive, diverse, and equitable workplace.

This clinical grand round focuses on implementing effective anti-racism in clinical and research settings. Researchers/clinicians will teach and demonstrate anti-racism skills that can enhance safety and satisfaction in the workplace. The session will begin with an overview of racism and anti-racism, including a discussion on 1) how to have conversations about racism/anti-racism, 2) how to initiate and engage in anti-racism, 3) effective allyship, and 4) considerations for intersectional anti-racism. The session will include live roleplay demonstrations of typical situations of racism and appropriate/responsive actions. Presenters will also conduct a roleplay on initiating and sustaining anti-racism efforts in the absence of a racist event or related negative experiences. The session will conclude with questions from the audience.
You will learn:
• Describe racism and anti-racism
• Discuss potential advantages of using an anti-racist approach
• Provide a framework for culturally sensitive and responsive strategies to address racism in clinical and research settings
• Identify strategies to initiate and sustain actionable strategies on anti-racism
• Apply effective allyship in clinical and research settings

1:30 p.m. – 3:00 p.m.

Earn 1.5 continuing education credits

Panel Discussion 14

The Founding and Vision of a New International Consortium to Advance Research on Exposure Therapy

MODERATORS: Jasper Smits, Ph.D., The University of Texas at Austin
Kiara R. Timpano, Ph.D., University of Miami

PANELISTS: Joanna J. Arch, Ph.D., University of Colorado Boulder
Jonathan S. Abramowitz, Ph.D., University of North Carolina at Chapel Hill
Jonathan D. Huppert, Ph.D., The Hebrew University of Jerusalem
Jurgen Margraf, Ph.D., Ruhr University-Bochum

Primary Category: Treatment - CBT
Key Words: Exposure, Treatment, Transdiagnostic

Exposure therapy remains one of the most effective treatments for fear-based disorders and has recently been leveraged to treat additional forms of psychopathology. Research to improve the outcomes, delivery, and mechanistic understanding of exposure therapy remains vital for advancing this form of therapy. Research efforts to date, however, have generally remained limited to individual laboratories, hampering efforts to conduct large-scale, well-powered studies that generalize across diverse sites. To advance research on exposure therapy, over the past year we have established an international research consortium toward the goal of conducting large-scale, multi-site studies on novel outcomes, delivery, and mechanisms of exposure therapy. To date, the consortium consists of >10 sites spanning the North America, Europe, and Australia. On the panel, we will present on the founding of this consortium, its goals and vision, and its structure and organization. Panelist will discuss the sort of clinical studies that have been difficult to run as single-site trials, and underscore the type of clinical science that can be pursued in a consortium framework. Next, we will share obstacles and facilitators to its formation and maintenance. Finally, we will present the consortium’s first multi-site project - a study on the large-scale group delivery of exposure therapy for individuals with high anxiety sensitivity. Discussion will include the consortium’s innovative approach to constructing a “study in a box” for standardization and dissemination across diverse sites, initial findings from piloting and initially collecting data on this study, and lessons learned thus far. Informally, we will discuss our individual and collective motivations for investing in the consortium and our visions for the future. We will also discuss how to become involved in
the consortium. Panelists were chosen on the basis of their experience in the founding of the consortium and designing and executing its first multi-site study, as well as on the basis of their experience collaborating internationally within the consortium.

1:30 p.m. – 3:00 p.m.

Earn 1.5 continuing education credits

Panel Discussion 13

Multicultural Considerations for Integrating Positive Psychology and Strengths-based Approaches into Mental Health Treatment

**Moderator:** Adam P. McGuire, Ph.D., VISN 17 Center of Excellence for Research on Returning War Veterans

**Panelists:** Katherine A. Lenger, Ph.D., Alpert Medical School of Brown University  
Marianna Graziosi, M.A., Hofstra University  
Chardée Galán, Ph.D., University of Southern California  
Broderick Sawyer, Ph.D., Genesee Valley Psychology  
Sarah W. Whitton, Ph.D., University of Cincinnati  
Cameron L. Gordon, Ph.D., Vancouver Island University

**Primary Category:** Positive Psychology

**Key Words:** Culture, Underserved Populations, Treatment Development

Interest in the field of positive psychology has grown since its inception, which includes increased attempts to integrate core positive principles into psychotherapy and amplify strengths-based approaches within mental health care. However, these efforts are in the nascent stage and to date, it’s unclear whether novel strengths-based approaches adequately account for multicultural considerations. Further, it’s unclear what efforts are being made, if any, to ensure these approaches are appropriately tailored and disseminated to marginalized communities.

The purpose of this panel is to discuss necessary multicultural considerations for positive psychology integration and strengths-based approaches as it relates to 1) treatment research and development, and 2) the implementation and dissemination of these approaches to underserved communities. The discussion will feature a diverse panel with experience using or studying strengths-based approaches in a wide range of multicultural domains including income (Katherine Lenger), race (Broderick Sawyer, Chardée Galán), and sexual orientation (Sarah Whitton), along with expertise in applying positive psychology to clinical challenges, broadly (Cameron Gordon, Marianna Graziosi). This panel also features diversity in career stages including a graduate student, postdoctoral fellow, assistant professor, full professors, and a professional consultant; thus, offering unique perspectives about how panelists have encountered and attempted to address this topic across different career stages.

First, we will present a case study that highlights the importance of multicultural considerations in positive psychology-based treatment development. We will then discuss how positive constructs (e.g., gratitude, elevation, hope) and strengths-based approaches
(e.g., values identification, mindfulness, compassion) could differentially map onto various domains of diversity and marginalization. Last, we will discuss efforts to balance broad inclusivity versus tailored idiographic approaches to implementing and disseminating these techniques.

Is There a Yellow Brick Road?: Lessons Learned from Mid-career Women in Academic Medicine

M O D E R A T O R : Victoria E. Cosgrove, Ph.D., Stanford University School of Medicine
P A N E L I S T S : Victoria E. Cosgrove, Ph.D., Stanford University School of Medicine
Amy E. West, Ph.D., Children’s Hospital Los Angeles/University of Southern California
Louisa G. Sylvia, Ph.D., Massachusetts General Hospital
Caryn R.R. Rodgers, Ph.D., Albert Einstein College of Medicine
Lori Eisner, Ph.D., Needham Psychotherapy Associates, LLC

Primary Category: Professional/ Interprofessional Issues
Key Words: Career Development, Professional Issues, Women’s Issues

Women constitute 30% of biomedical researchers worldwide. Underrepresentation is in part due to discrimination and stereotyping. Faculty members routinely rate male candidates as more competent and hirable than females. Individual factors, including childbearing, child rearing, and external pressure to nurture rather than achieve career
success undeniably affect advancement of female faculty across academic lines. Mid-career female academics regularly leave academia for more attractive careers in industry or other paths. Barriers include subtle and non-subtle gender discrimination in the workplace; gender-based pay gaps; coping with gender bias; balancing family and work in the career building years; managing the burden of work and family “mental load,” etc. The protracted impact of the pandemic has further aggravated impediments for many females. Four times as many women as men dropped out of the labor force in September, 2020 (i.e., 865,000 women v. 216,000 men) to assume caretaking responsibilities, amounting to $64.5 billion per year in lost wages and economic activity. The NIH has largely taken the approach of addressing advancement gaps via policy changes (i.e., reducing mean age of first-time R01s favoring young investigators) with hope to accelerate their independence, although little success has been realized. These initiatives are in direct conflict with a disproportionate increase in delayed childbearing nationally and the inverse relationship between academic advancement and childrearing. Past or present, Drs. Cosgrove, Eisner, Rodgers, Sylvia, and West all have pursued academic careers while simultaneously serving in other personally demanding life roles. The aims of this Panel Discussion will be to (1) increase awareness about the underrepresentation of women in biomedical science, with a specific emphasis on inclusion of women scientists in biopsychosocial clinical research; (2) understand personal and professional challenges that often influence a woman’s decision to pursue a career in biopsychosocial clinical research; and (3) brainstorm successful strategies to increase the representation of women on a local and national level.

Cheri A. A. Levinson, Ph.D., University of Louisville, Department of Psychological & Brain Sciences

While it is increasingly recognized that Anxiety disorders and OCD are more prevalent in youth with Autism (ASD) than the general population, these individuals are often unable to access Cognitive Behavior Treatment (CBT) for Anxiety/OCD. Many clinicians and trainees want to use CBT tools to address mental health problems in ASD youth but may incorrectly believe ASD is inherently different and that they cannot effectively treat or supervise trainees working with this population. Our workshop is designed to bridge this knowledge and confidence gap. Intended audience is those with basic knowledge of ASD and some direct clinical experience with Anxiety/OCD. With an emphasis on supervision, we will explore advanced topics such as navigating diagnosis and psychoeducation of these co-morbidities, developing case conceptualizations that integrate ASD core challenges/differences with anxiety+OCD symptomology, and applying CBT strategies within a behavior analytic framework. Research suggests CBT is efficacious in reducing anxiety/OCD symptoms in ASD youth (Wood et al., 2020; Ung et al., 2015), yet its use in community settings is limited (Reaven et al., 2014). Youth with ASD are significantly more at risk of not receiving needed therapy, in part because they struggle to find providers with the requisite skills (Chiri & Warfield, 2012). Further, autistics receive care from multiple systems. These service systems, however, typically operate in a siloed fashion, distinguishing care for core symptoms: ASD symptoms in DD services and MH conditions in MH services. Research suggests symptoms are difficult to disentangle and should be conceptualized collectively, requiring cross-fertilization between DD and MH services for provider training and treatment of individuals (Brookman-Frazee et al., 2018). Our goal is to empower more clinicians to treat and train individuals to treat this underserved population. Through case vignettes, roleplay and audience participation we aim to help CBT practitioners feel equipped to treat anxiety/OCD in ASD youth. This workshop will foster a new mindset, moving participants away from an idea that “the one ASD therapist or supervisor” should be responsible for providing/supervising all ASD-related treatment.

Mini Workshop 3

One in Fifty-four: Supervision Considerations for Utilizing CBT in Cases Involving Autism and Co-morbid Anxiety and OCD

Rebecca Sachs, ABPP, Ph.D., CBT Spectrum
Lauren Moskowitz, Ph.D., St. John’s University

Basic to Moderate level of familiarity with the material
Primary Category: Autism Spectrum and Developmental Disorders

You will learn:
• Help therapists/trainees in centers that do not specialize in ASD to more confidently work with ASD patients and advocate to include ALL trainees as therapists for cases involving ASD+ anxiety/OCD.
• Understand and convey importance of diagnostic clarification when ASD is suspected, and how to navigate steps to diagnosis and psychoeducation for ASD+anxiety/OCD.
• Formulate and teach how to develop case conceptualizations that integrate ASD core challenges/characteristics with comorbid anxiety and/or OCD symptomatology.
• Integrate principles and procedures from cognitive behavioral therapy (CBT) within a behavior analytic framework when developing and implementing of treatment plans.
• Provide supervision in adapting and applying behavioral and cognitive interventions (e.g. exposure, differential reinforcement of behavior, family reinforcement, cognitive restructuring) to treat ASD and Anxiety/OCD.

While it is increasingly recognized that Anxiety disorders and OCD are more prevalent in youth with Autism (ASD) than the general population, these individuals are often unable to access Cognitive Behavior Treatment (CBT) for Anxiety/OCD. Many clinicians and trainees want to use CBT tools to address mental health problems in ASD youth but may incorrectly believe ASD is inherently different and that they cannot effectively treat...

ABCT Membership Committee Convention Panel: Work-life “balance” in Clinical Practice: Tips, Challenges, and Ways to Live Life to the Fullest

Chair: Rebecca Skolnick, Ph.D., Licensed Clinical Psychologist, Co-founder, Mindwell NYC
Panelists: Regine Galanti, Ph.D., Long Island Behavioral Psychology
Janie J. Hong, Ph.D., Stanford University School of Medicine and Redwood Center for CBT and Research
Mitchell L. Schare, ABPP, Ph.D., Hofstra University
Nehal P. Vadhan, Ph.D., Northwell Health Zucker Hillside Hospital

Key Words: Professional Development, Cognitive-Behavioral Career, Private Practice

Becoming a clinician takes years of hard work, school, and training. This can be very rewarding and intellectually stimulating. However, mental health clinicians spend so much time working and thinking about work that it can be challenging to take breaks, go on vacation, start a family, raise children, and find time to explore outside interests and hobbies. Furthermore, spending a great deal of time working can lead to burn out, which can in turn make it even harder to be present with friends and family outside of work. Panelists will discuss challenges and practical tips on how to “balance” clinical work and life in order to make the most of both and live life to the fullest. The panelists have varying degrees of experience in developing and maintaining private practices as well as supervis-
Providing Care for the Unvaccinated: Psychological Approaches to Address Anger and Frustration

Sponsored by APA

Brad J. Bushman, Ph.D., Professor of Communication and Psychology, The Ohio State University
Deborah R. Glasofer, Ph.D., Associate Professor of Clinical Medical Psychology (in Psychiatry) at the Columbia University Irving Medical Center (CUMIC), Clinical psychologist at the Columbia Center for Eating Disorders at the New York State Psychiatric Institute
J. Kim Penberthy, Ph.D., ABPP, Chester F. Carlson Professor of Psychiatry and Neurobehavioral Sciences, University of Virginia School of Medicine

Basic to moderate level of familiarity
Anger, Professional/ Interprofessional Issues, Treatment – CBT
Key Words: Anger / Irritability, Coping, Stress

Healthcare workers are increasingly facing stressors in their environments that they may be ill-equipped to handle. Such ongoing stress can negatively impact mood states and functioning, increasing frustration and anger in providers. In this Master Clinician series, we discuss the unprecedented stressors impacting healthcare workers and the negative impact of chronic stress from the ongoing pandemic, including providing care for the unvaccinated. We will present the stress continuum concept including the five human needs in times of stress. This continuum provides a way to conceptualize stress behaviors and describe the additional roles of bias, discrimination, and other system/ environmental issues in stress vulnerability. We will then describe and demonstrate specific effective strategies to help promote resilience and wellbeing that grow out of these needs, including anger management skills and how to use these with teams and in the workplace. Finally, we present examples of successful application of techniques, including results of implementation and lessons learned in healthcare institutions.

• Dr. Penberthy:
• Introduction to the current state of stress in healthcare, including information about levels of stress pre and post COVID and the impacts of such.
• Check-in with participants on their current level of stress
• Present and discuss the stress continuum and its background and application, including the concept of 5 human needs during times of stress.
• Present and discuss strategies for addressing these 5 human needs, with some practice of 4-square breathing, etc.

• Dr. Bushman:
  • Present and discuss the scientific research that debunks ineffective strategies for managing angry feelings.
  • Present and discuss the scientific research that supports effective strategies for managing angry feelings.

• Dr. Glasofer:
  • Present and discuss additional strategies for addressing the needs of healthcare teams and institutions along with examples of implementation.
  • Describe themes encountered at different stages of the ongoing pandemic.
  • Discuss how to apply evidence-based psychotherapeutic interventions in a peer-support model, highlighting how cognitive strategies and professional values clarification can be applied to the unique stressors associated with being a healthcare worker during COVID-19.
  • Invite participant reflection on strategies they used (1) to cope with unhelpful thoughts during the pandemic and (2) to maintain connection to their professional values.

Long-term Goals:
• Describe and disseminate knowledge about the stress continuum and the impact of stressors on mood and behavior in yourself, others, the workplace, and teams.
• Describe, implement, and disseminate effective strategies for addressing stress and stress behaviors, specifically focusing on addressing the five human needs during times of stress and reducing frustration and anger.

You will learn:
• Describe the stress continuum, impact of chronic stress, types of stressors, and the five human needs in times of stress and effective strategies to address these needs.
• Describe and demonstrate specific effective strategies that grow out of addressing these needs that help promote resilience and reduce frustration and anger.
• Discuss examples of successful application of techniques, including results of implementation and lessons learned in other institutions and health systems.

Family Based Interpersonal Psychotherapy (FB-IPT) for Preadolescent Depression

Laura J. Dietz, Ph.D., University of Pittsburgh

Basic to Moderate level of familiarity with the material

Primary Category: Child / Adolescent - Depression

Key Words: Child, Depression, Evidence-Based Practice

Family Based Interpersonal Psychotherapy (FB-IPT) for Depressed Preadolescents is a primary intervention to reduce the burden of early-onset depressive disorders in children between the ages of 8-12 years, with a secondary focus on preventing or delaying depression recurrence in adolescence for this high-risk group. FB-IPT directly addresses two domains of interpersonal impairment associated with preadolescents’ depressive symptoms: parent-child conflict and peer impairment. FB-IPT focuses on improving communication and problem solving skills in the parent-child relationship, the primary context for children’s social and emotional development to improve the quality of the parent-child relationship and to buffer depressed preadolescents from the effects of peer stress, as well as to rehearse effective interpersonal behavior with peers. Adapted from IPT-A, FB-IPT includes several developmental modifications for 8-12 year-olds: 1) increased parental involvement and structured dyadic sessions, with individual meetings with parents and parent-child sessions for teaching and role-playing communication and problem solving skills, 2) an expanded Limited Sick Role, to shape parental expectations for depressed preadolescents’ performance across contexts and provide parenting strategies for decreasing conflict, and 3) an increased focus on comorbid social anxiety, to decrease depressed preadolescents’ interpersonal avoidance and to enhance their communication and interpersonal problem solving skills with peers. As in adult and adolescent protocols, FB-IPT structures treatment around an identified “problem areas” temporally associated with the onset of depressive symptoms (loss, disputes, transitions, and interpersonal deficits) and structures treatment into 3 phases. To date, FB-IPT is one of the few psychosocial interventions for depression in preadolescent children that has demonstrated superior outcomes when compared to an active comparison treatment condition. As such, FB-IPT has promise as an efficacious intervention with readily measurable targets and mechanisms of action.

Outline

Background/ Rationale for FB-IPT for Depressed Preadolescents Overview of FB-IPT/ Developmental Modifications to IPT-A • Initial Phase of FB-IPT – a) Preadolescent Interpersonal Inventory Mood Thermometer & Closeness Circle b) Initial Phase of FB-IPT – Expanded Limited Sick Role (LSR) and Parent Tips Role play of Expanded LSR and Introducing Parent Tips c) Presentation of Family Based Problem Areas and Formulation • Break, Questions
BREAKOUT 1: Small groups practice of Expanded LSR with Parent • Middle Phase of FB-IPT – Overview and Problem Area Strategies for Preadolescents and Parents Middle Phase Techniques (Tween Tips) a) Depression Circle (Communication Analysis) b) Suggesting Solutions / Interpersonal Problem Solving (Decision Analysis) c) Experiments for Decreasing Interpersonal Avoidance Role Play Middle Phase Session with Problem Area (Disputes/ Transition)

BREAKOUT 2: Small groups practice of Depression Circle/ Communication Analysis with Preteen and Parent- • Termination Phase of FB-IPT • Discussion Long-term Goal: • Improve general clinical efficacy when working with depressed preadolescents who likely have a parent(s) with a history of depression.

You will learn:
- Describe the theoretical framework and 3 developmental adaptations in Family Based Interpersonal Psychotherapy (FB-IPT) for Depressed Preadolescents.
- Explain the differences in structuring individual and dyadic meetings with preadolescents and parents in all three phases of FB-IPT.
- Identify the 4 Tween and Parent Tips introduced when delivering FB-IPT to preadolescents and parents.
- Demonstrate effective use of key clinical techniques in FB-IPT with role-plays and case examples.
- Integrate strategies specific to FB-IPT into psychotherapy for depressed preadolescents and their parents.

Special Session: - Postdoctural Paths for Professional Development

Jessica Lohnberg, Ph.D., Clinical Psychologist, Behavioral Medicine Program, Acting Director of Postdoctural Training, Psychology Service, VA Palo Alto Health Care System

Shona N. Vas, Ph.D., ABPP, Associate Professor; Director CBT Program & Psychology Training, The University of Chicago

Debra Kaysen, ABPP, Ph.D., Professor, Stanford University

Panelists will address important issues for interns and others considering applying to a postdoctoral residency training program and those who are interested in postdoctoral research funding. Topics to be addressed include: what applicants should look for in a postdoctoral training program; the differences between research and clinical postdoctoral training, including how training is funded; the advantages or disadvantages of following a postdoctoral path in terms of professional development; how best to find and select a program that fits the applicant’s needs; the impact of APA accreditation in the postdoctoral arena; what training sites are looking for in evaluating applications; tips on how to prepare for the interview; and how postdoctoral offers are made and the process of accepting an offer. There will be time for questions from the audience during the panel presentation. After the panel, prospective postdoctoral applicants will be able to meet with representatives from postdoctoral programs. Postdoctoral sites that would like to be represented in this event should contact Dakota McPherson at the ABCT Central Office:dmcpherson@abct.org.
Panel Discussion 18

Seeking Diversity, Equity and Inclusion: Perspectives and Concerns of ABCT’s Minority Special Interest Groups

**Moderator:** Janie J. Hong, Ph.D., Stanford University School of Medicine and Redwood Center for CBT and Research

**Panelists:** Janie J. Hong, Ph.D., Stanford University School of Medicine and Redwood Center for CBT and Research
Ashleigh Coser, Ph.D., Cherokee Nation of OK
Jeffrey M. Cohen, Psy.D., Columbia University
Alexandria N. Miller, M.S., Suffolk University
Juventino Hernandez Rodriguez, Ph.D., The University of Texas Rio Grande Valley
Destiny Printz Pereira, M.S., University of Connecticut

Primary Category: Oppression and Resilience Minority Health

Key Words: Underserved Populations, Culture, LGBTQ+

Within the ABCT, there are six special interest groups (SIGs) focused on minority mental health and research. They are the Sexual and Gender Minority SIG, Oppression and Resilience: Minority Mental Health SIG, Native American Issues in Behavior Therapy and Research SIG, Black Americans in Research and Behavior Therapy SIG, Latinx SIG, and Asian American Issues in Behavior Therapy and Research SIG. These SIGs offer a professional space of inclusion for those who identify with the needs of their respective minority groups and/or minority health concerns. They provide space to promote the research and work of their members. They provide space for members to connect within a larger group.

Aligned with the conference theme of situating cognitive behavioral practice and science in the context of social justice and ABCT’s recent Equity, Inclusion, and Access report, the current leaders of the six SIGs will come together from their separate spaces to have an open conversation about 1) noticeable and persistent gaps in diversity, equity, and inclusion; 2) solutions to bridge these gaps; and 3) increasing inclusion within ABCT. The SIG leaders represent the collective voice of their members and aim to have their perspectives heard. In this panel, the SIG leaders will discuss the unique and shared concerns of their members and will tackle tough questions related to intersectionality and identity, allyship, marginalization and burnout, and diversity representation as well as their experiences of racism, heterosexism, and transphobia within ABCT. They will also share past and current efforts to raise awareness of diversity issues and advocate for the needs of their members and represented groups. Throughout the session, the panelists will focus on operationalizing issues raised and specifying clear, concrete steps and solutions for the problems identified. Audience members will be encouraged to ask questions and contribute to the discussion.
Special Session - Postdoctoral Meet and Greet

Please see description under “Postdoctoral Paths for Professional Development” at 2:15 p.m.

Earn 1.5 continuing education credits

Panel Discussion 20

Preparing Future Psychologists: Centering the Experience of Underrepresented Groups in Graduate and Undergraduate Clinical Training Opportunities

**Moderator:** CJ Fleming, Ph.D., Elon University

**Panelists:**
- CJ Fleming, Ph.D., Elon University
- Patti A. Timmons, Fritz, Ph.D., University of Windsor
- Tamara Del Vecchio, Ph.D., St. John’s University
- Shelby B. Scott, Ph.D., University of Texas at San Antonio
- Miguel T. Villodas, Ph.D., San Diego State University
- Aleja Parsons, Ph.D., New York University

Primary Category: Culture / Ethnicity / Race

Key Words: Training / Training Directors, Underserved Populations, Supervision

In 2017, the APA published an updated set of multicultural guidelines to “reconsider diversity and multicultural practice within professional psychology at a different period in time.” The need to reevaluate our practices and to increase training and expertise in diversity has never been higher as we have so clearly seen the critical role that both the science and practice of psychology have to play in advancing social justice. One major entry point for this work is through our training opportunities for undergraduate and graduate psychology students. This panel will address the purposeful inclusion of multicultural theories, cultural humility, and discussions of privilege, power, and intersectionality in clinical training opportunities. The panel is composed of diverse scholars in terms of racial and ethnic identity, gender, and sexual orientation.

CJ Fleming will moderate the panel and will speak on her experience supervising undergraduate internships in the mental health field, with a focus on access and curricular issues. Tamara Del Vecchio will speak from her experience as a department chair and former director of clinical training to discuss incorporating diversity issues throughout the graduate curriculum. Patti Timmons Fritz will discuss her experience supervising an undergraduate practicum that addresses the interplay between culture and well-being as students work with recent immigrants, youth with developmental disabilities, and marginalized youth. Aleja Parsons will speak from her experience teaching graduate level courses on power, privilege, and oppression and her work supporting African-American families,
as well as her experience as a past trainee in advocating for more inclusive training culture and supervision. Shelby Scott will address clinical and supervisory considerations for working with LGBTQ+ populations, addressing power dynamics between supervisors and trainees, and how to integrate multicultural theories into clinical work with underrepresented groups. Miguel Villodas will discuss his experience in developing practicum experiences for beginning graduate students that address multiculturalism and developing a sense of cultural humility rather than cultural competence.

Panel Discussion 17

Spreading the Word: How Graduate Students Can Leverage Social Media for #scicomm and Professional Development

**Moderator:** Stephanie Y. Wells, Ph.D., Durham VA Health Care System

**Panelists:**
- Gabriella T. Ponzini, M.S., West Virginia University
- Karen T. Tang, B.A., Dalhousie University
- Eve A. Rosenfeld, M.A., Stony Brook University
- Renaissance School of Medicine
- Margaret Crane, M.A., Temple University
- Perri Tutenel, B.S., Dalhousie University
- Kathryn A. Coniglio, M.S., Rutgers University

**Primary Category:** Workforce Development / Training / Supervision

**Key Words:** Career Development, Dissemination, Student Issues

Social media use has increased 10-fold in the last decade, and millions of lay and professional users attend to these platforms daily. With both colleagues and community members available at the click of a button, graduate students have a unique opportunity for social engagement, professional development, and information dissemination through social media platforms. This panel will feature a cohort of graduate students from across the United States and Canada to share their experiences, expertise, and discuss strategies for clinical trainees to effectively use social media. Panelists will specifically discuss how fellow graduate students can leverage social media to benefit their professional careers, connect with peers, and disseminate psychological science to the general public. Initial discussions will focus on the panelists’ personal experiences with social media, including ways that panelists have used their social media presence to disseminate their research and connect with collaborators or other professionals. Next, panelists will make suggestions for curating a social media presence, effectively utilizing hashtags (#CBTWorks), following relevant accounts, and generating content that enhances science communication and stimulates evidence-based discussions about psychological science. Although this panel will focus on using Twitter, panelists also will review ways other social media platforms (e.g., Instagram, TikTok, Clubhouse, and Facebook) can be used for professional development and science communication. The panel will also discuss ethical considerations for clinical trainees, graduate student advocacy efforts outside of clinical psychology (e.g.,
#BLM, #GREExit), and the increased importance of social media during and after the COVID-19 pandemic.

3:15 p.m. – 4:45 p.m.

Earn 1.5 continuing education credits

Panel Discussion 22

Promoting Health and Wellness Among Psychology Graduate Students: Considerations and Paths Forward

**Moderator:** Natalie Hong, M.S., Florida International University

**Panelists:**
- Mary Fernandes, M.A., Georgia State University
- Molly Bowdring, B.S., M.S., University of Pittsburgh and VA Palo Alto Health Care System
- Jacqueline O. Moses, M.S., University of California, San Francisco
- Nabil H. El-Ghoroury, Ph.D., California Association of Marriage and Family Therapists

Primary Category: Workforce Development / Training / Supervision

Key Words: Professional Development, Education and Training, Professional Issues

Graduate students experience concerning levels of stress, anxiety, depression, sleep difficulties, and poor life satisfaction (El-Ghoroury et al., 2012; Evans et al., 2018; The Graduate Assembly, 2014; Levecque et al., 2017). Psychology graduate students are no exception, perhaps unsurprisingly given the multiple demanding professional roles they hold—e.g., researcher, teacher, student, clinician, professional service member. Moreover, these roles are often accompanied by evaluative stress, challenging advisor-advisee relations, financial hardship, and limited organizational value placed on self-care practices (Bamonti et al., 2014; Campoli & Cummings, 2019; Myers et al., 2012; Richardson et al., 2020; Rummell, 2015; Zahniser et al., 2017). These challenges are further exacerbated by the dual pandemics of COVID-19 and systemic racism (American Psychological Association, 2020; Chirikov et al., 2020; Clark & Hurd, 2020; Galán et al., 2020). If we expect psychology trainees to succeed professionally, it is imperative that their personal wellness is supported in myriad ways (e.g., individual interactions, program or departmental initiatives, federal advocacy). This panel includes a diverse group of individuals whose perspectives reflect both their lived experiences and professional efforts focused on psychology graduate student wellness. Specifically, the panel includes a past Executive Director of the American Psychological Association of Graduate Students (APAGS) and the current APAGS chair, as well as advanced clinical psychology doctoral students involved in a) founding a psychology department graduate student health and wellness committee, b) initiating and summarizing results from a survey of trainee wellness initiatives across Psychological Clinical Science Accreditation System (PCSAS) Programs, c) federal advocacy to strengthen support (e.g., financial relief) for psychology trainees during COVID-19, and d) developing calls to action addressing systemic racism in clinical science programs. This discussion will highlight lessons learned from past experiences, as well as recommended strategies for continued efforts to assess and address barriers to wellness among psychology trainees across various settings.
Panel Discussion 16

Technology-based Interventions for Black, Indigenous, and People of Color (BIPOC): A Strategy to Reduce Disparities and Promote Mental Health Equity

**MODERATOR:** Giovanni Ramos, M.A., University of California Los Angeles

**PANELISTS:**
- Adrian Aguilera, Ph.D., UC Berkeley
- Jonathan S. Comer, Ph.D., Florida International University
- Tatiana M. Davidson, Ph.D., Medical University of South Carolina
- Armando A. Pina, Ph.D., Arizona State University
- Jessica L. Schleider, Ph.D., Stony Brook University
- Stephen M. Schueller, Ph.D., University of California, Irvine

Primary Category: Technology

Key Words: Technology / Mobile Health, Underserved Populations, Culture

In the United States, Black, Indigenous, and people of color (BIPOC) present with similar, and in some instances, higher prevalence rates of mental health disorders than their non-Latinx White (NLW) counterparts (Vilsaint et al., 2019). Nevertheless, compared to NLWs, BIPOC are less likely to seek or receive care even after accounting for socioeconomic status and disorder severity (Cook, McGuire, & Miranda, 2007; Dobalian & Rivers, 2008). Although no single approach will address all disparities in care, the use of technology to provide mental health interventions represents a paradigmatic shift in service delivery that could reduce unmet mental health need (Ramos & Chavira, 2019; Schueller, Hunter, Figueroa, & Aguilera, 2019). The feasibility of employing technology to disseminate psychological services is supported by the widespread ownership of technological devices and use of the internet in BIPOC households (Pew Research Center, 2018; U.S. Census Bureau, 2018). To date, there is a significant lack of BIPOC representation in research examining the efficacy of technology-based interventions (Ramos & Chavira, 2019).

Aligned with this year’s theme of promoting CBT in the context of public health and social justice, this panel seeks to 1) review the current evidence supporting the feasibility and effectiveness of technology-based approaches with BIPOC samples; 2) share implementation experiences in BIPOC communities, including commonly encountered barriers and strategies to overcome them; and 3) discuss the need (or lack thereof) to culturally adapt technology-based interventions for BIPOC. Discussants bring extensive expertise in the use of a wide range of technological supports and treatments with BIPOC, such as text-based CBT interventions (Aguilera), parent training via videoconference (Comer), web-based interventions for PTSD and depression (Davidson), adaptive digital exposure-based interventions for anxiety (Piña), single-session interventions via virtual reality and online platforms (Schleider), as well as design, evaluation, and implementation of app-based in-
Panelists will also provide actionable strategies to promote the use and sustainability of these approaches in everyday clinicians’ work

Panel Discussion 19

Parent Training for Children with Autism and Disruptive Behavior: Adaptations and Innovations to Enhance Dissemination, Training, and Access to Care

MODERATOR: Elisabeth H. Sheridan, Ph.D., Drexel University/A.J. Drexel Autism Institute

PANELISTS: Andrea T. Wieckowski, Ph.D., A.J. Drexel Autism Institute
Stewart Pisecco, Ph.D., Attend Behavior, Inc.
Eric M. Butter, Ph.D., Nationwide Children’s Hospital;
The Ohio State University College of Medicine
Cy Nadler, Ph.D., Children’s Mercy Kansas City
Teresa Burrell, Ph.D., Emory University School of Medicine
Karen Elizabeth Bearss, Ph.D., University of Washington, Seattle

Primary Category: Autism Spectrum and Developmental Disorders
Key Words: Parent Training, Autism Spectrum Disorders, Externalizing

Serving the growing number of children diagnosed with Autism Spectrum Disorder (ASD) is a rising challenge for community-based behavioral health providers. One scalable approach to addressing this need is through community implementation of parent training (PT) programs, which are empirically supported, time-limited, and cost-effective. Manualized interventions can provide a structured approach for community clinicians who have less training in treating children with ASD. The RUBI PT program (Bearss et al., 2015) is a manualized PT program for children with ASD and disruptive behavior that can increase access to care through community implementation. The goal of this panel is to review principles of PT for children with ASD and disruptive behavior and to discuss novel approaches to dissemination and training. Specifically, the panelists will review methods to increase access to high quality care by building capacity to deliver parent training, including expanding intervention modalities (telehealth, group formats) and service access points (schools, digital health technologies) that effectively extend reach to providers. In addition, panelists will discuss systems that improve dissemination efforts, such as the use of Project ECHO (Extension for Community Healthcare Outcomes) to facilitate training of interdisciplinary behavioral health providers to improve clinicians’ comfort and knowledge. Through this panel discussion, we hope to highlight how PT can address the unmet needs in the community and advance dissemination in order to increase access to care for individuals with ASD and their families.

Mini Workshop 6

Deliberate Practice for Cognitive-behavioral Therapy: Training Methods to Enhance Acquisition of CBT Skills

James F. Boswell, Ph.D., University at Albany, State University of New York
Tony Rousmaniere, Psy.D., University of Washington, Seattle

Basic level of familiarity with the material
Primary Category: Workforce Development / Training / Supervision
Key Words: Education and Training, Supervision

Psychotherapists credit effective supervision as the single most important contributor to their professional development (Orlinsky & Rønnestad, 2005), and experienced therapists continue to seek supervision and consultation even when they are no longer required to do so (Lichtenberg, et al., 2014). However, as currently practiced, effective supervision is not necessarily common. For example, supervisees report that a large proportion of their supervisors are ineffective and occasionally harmful (Ellis et al., 2014), and the success of supervision, as evidenced by improved client outcomes, is yet to be convincingly established (Watkins, 2011). In fact, Rousmaniere et al. (2016) found that supervision accounted for less than 1% of the variance in treatment outcomes in one large clinic. Addressing this gap, this workshop aims to improve the effectiveness of CBT supervision and clinical training via a model for using deliberate practice to enhance trainee’s acquisition of core CBT skills. Deliberate practice proffers that the quality of practice is just as important as the quantity—expert-level performance is primarily the result of expert-level practice. Backed by decades of research on a wide range of other professions—from sports to math, medicine, and the arts—deliberate practice may help CBT clinicians achieve higher levels of skill mastery. More specifically, deliberate practice is a highly structured, intentional activity with the specific goal of improving performance through behavioral rehearsal and graded stimuli, combined with immediate feedback (e.g., Rousmaniere, 2016, 2018). As noted, the present workshop centers on deliberate practice exercises to enhance development of CBT skills. These exercises address the two major domains of psychotherapy skills: interpersonal (with the client) and intrapersonal (within the therapist). The exercises are appropriate for supervision, graduate coursework, and career-long professional development. The model is intended to be used throughout psychologists’ career-span, from beginning trainee to experienced clinicians (Goodyear & Rousmaniere, 2017).

You will learn:
- Describe the research support for, and basic principles of, implementing deliberate practice in CBT.
- Apply deliberate practice principles in the CBT training and supervision process.
• Demonstrate flexible application of CBT-focused deliberate practice that meets the needs of the individual trainee.

**Mini Workshop 5**

**Culturally Responsive CBT for Later-life Depression**

Ann M. Steffen, ABPP, Ph.D., University of Missouri-St. Louis

Moderate level of familiarity with the material

Primary Category: Adult Depression

Key Words: Underserved Populations, Aging, Depression, Cognitive Therapy, Behavioral Activation

Depression is the second leading cause of disability in the US. Specific subgroups of middle-aged and older adults are at risk but underserved due to the national workforce shortage of behavioral health providers trained in aging. Middle-aged and older adults are also impacted by a number of family stressors that increase risk for depression, including being primary caretakers for a spouse, grandchildren or disabled adult children. This workshop trains clinicians to identify and respond to age-related challenges in depression assessment and intervention, using culturally responsive cognitive behavioral strategies of change. This approach includes common modifications to CBT that have been demonstrated to be effective with culturally diverse middle-aged and older adults. Further, training will address ways to use printed aids provided at the workshop to help with communication, structuring sessions and maintaining focus - all critical to effective and professionally rewarding treatment with this complex population.

**Outline:**

- Features of Later-Life Depression across diverse populations
- Culturally responsive modifications of CBT for later-life depression
- Professional Development Resources
- Q&A

You will learn:
• Demonstrate an understanding of the attitude, knowledge and skill competencies for evidence-based assessment of depression in older adults.
• Identify key considerations in the application of culturally-responsive CBT for later-life depression.
• Explain the relevance of behavioral activation as a culturally-responsive change strategy.
• Describe and implement at least one evidence-based modification of behavioral activation with middle-aged and older adults.

Clinical Round Table 9

Is It Working? Routine Outcome Monitoring in Practice, Supervision and Training

MODERATOR: Julie L. Ryan, Ph.D., William James College, Boston Child Study Center

PANELISTS: Julie L. Ryan, Ph.D., William James College, Boston Child Study Center
Ilana Luft-Barrett, Ph.D., Saint Louis Children’s Hospital, Washington University School of Medicine
Jennifer Malatras, Ph.D., University at Albany, State University of New York
Lyndsey Moran, Ph.D., Boston Child Study Center

Primary Category: Treatment - CBT
Key Words: Evidence-Based Practice, Assessment, Clinical Decision Making

One of the critical ways CBT can be differentiated from other mental health practices and theoretical orientations is the use of evidence-based assessment and routine outcome monitoring (ROM). Evidence-based interventions are established for a wide range of psychological problems, however not all patients respond to treatment equally. In clinical practice, ROM helps address the question, “Do we have evidence that our evidence-based intervention is working for this patient at this time?”

Promoting ROM as a CBT priority in the training of future researchers and practitioners is critical to dissemination and application of evidence-based practice. Research shows ROM decreases risk of patient deterioration and enhances treatment effect sizes. In line with this year’s conference theme this clinical round table aims to promote ROM implementation in different settings and reduce barriers to ROM utilization. The presenters are involved in direct patient care and training at Boston Child Study Center, St. Louis Children’s Hospital, University at Albany, SUNY, and William James College. Discussion will include how ROM is being used in practice settings, including inpatient and outpatient pediatric psychology, large outpatient group practice and clinical training settings. Presenters will also share approaches to assessment (e.g., medical indicators as ROM for treatment adherence), implications of ROM for CBT with historically marginalized populations, use of technology in ROM administration, and data related to ROM implementation. This round table offers a unique opportunity to share challenges faced in ROM implementation and suggestions for overcoming barriers to successful implementation, benefitting clinicians looking to increase ROM adherence, as well as clinical training faculty and supervisors.
Mini Workshop 7

Evidence-based Strategies to Increase Substance Use Treatment Engagement with Limited Resources

Adam Rubenis, Psy.D., Turning Point, Eastern Health, Victoria, Australia
Shalini Arunogiri, M.D., Ph.D., Turning Point; Monash University
Jennifer A. Nation, Psy.D., LaTrobe University
Elizabeth Katz, Ph.D., Towson University

Basic level of familiarity with the material
Primary Category: Addictive Behaviors
Key Words: Addictive Behaviors, Treatment, Early Intervention

A range of psychosocial interventions are highly effective for treating substance use disorders. However, therapeutic outcomes are often compromised by clients terminating treatment early. Despite the importance of keeping clients in treatment, there is a lack of literature specifically addressing the available evidence-based approaches to treatment retention. There is evidence that Contingency Management (CM) and Motivational Interviewing (MI) improve retention. However, the cost of CM and extensive training and fidelity monitoring required for MI reduces the feasibility of widespread implementation of these interventions. Low cost interventions requiring minimal training represent an opportunity to improve retention with negligible clinician and organizational burden. As such, this workshop will cover a toolbox of simple, time-efficient, inexpensive and evidence-based approaches to treatment engagement and retention that can feasibly be implemented in a busy community treatment program. The workshop will begin with a brief overview of the evidence-base supporting brief, early engagement and retention strategies, primarily focused on pre-treatment strategies (e.g., Role Induction); strategies designed to enhance ease of access to services; between-session prompts and reminders (e.g., SMS text messages); and combined approaches. Attendees will then be trained in the use of a checklist developed by the authors and co-designed with clinicians. This checklist includes specific strategies that have the most empirical support, integrating findings from the addiction literature and the ‘common factors’ model of psychotherapy engagement/outcomes. A strength of this checklist is that it includes a menu of strategies that can be used to enhance treatment retention and engagement while allowing for flexibility in how and when those strategies are implemented. In addition, clinician input into the development of the checklist was sought to ensure its feasibility for use by busy clinicians in community-based treatment clinics. By the end of the workshop, attendees will have begun to develop ideas about how they might integrate the checklist into their own practices.
You will learn:
• At the end of the session, the learner will be able to describe the evidence base for an array of early engagement and retention strategies.
• List the specific early engagement and retention strategies that have empirical support.
• Apply specific strategies for enhancing retention and engagement through the use of an early engagement/retention strategy checklist.
• Describe how they can make use of the checklist in their own practice.

5:00 p.m. – 6:30 p.m.

Earn 1.5 continuing education credits

Mini Workshop 8

A Transdiagnostic Approach to Caregiver Intervention Using the Unified Protocols for Children and Adolescents

Sarah M. Kennedy, Ph.D., University of Colorado School of Medicine
Jill Ehrenreich-May, Ph.D., University of Miami

In contrast to treatments for externalizing concerns, treatments for youth anxiety and depression have traditionally focused on youth-directed interventions, with caregivers playing more of a supportive role in treatment. However, newer approaches have increasingly recognized the importance and impact of intervening with caregivers more directly, in tandem with or even in lieu of intervening with youth (e.g., Lebowitz et al., 2020). Transdiagnostic interventions, such as the Unified Protocols for Transdiagnostic Treatment of Emotional Disorders in Children and Adolescents (UPC/A; Ehrenreich-May et al., 2018), address core dysfunctions maintaining emotional disorders in youth through a unified treatment approach. These core dysfunctions include a set of “emotional caregiver behaviors,” or transdiagnostic, caregiver-level risk and maintaining factors such as...
criticism, inconsistency, overprotection/accommodation, and modeling of maladaptive emotional behaviors. The UP-C and UP-A include interventions that teach caregivers to recognize, monitor, and replace these less helpful behaviors with “opposite caregiver behaviors,” framed as opposite actions to emotional caregiver behaviors. In this workshop, we will introduce participants to the transdiagnostic approach to addressing emotional caregiver behaviors in the UP-C and UP-A. After discussing the rationale for a transdiagnostic approach to intervention for caregivers of youth with emotional disorders, presenters will review each of the four emotional caregiver behaviors and their opposite caregiver behaviors, as well as differences in intervention delivery for children versus adolescents. We will provide an overview of how these caregiver-directed interventions can be adapted to address the role of parenting in maintaining different diagnoses or symptom clusters (e.g., anxiety, depression, irritability) and diverse populations of youth, and we will discuss their use as both a stand-alone intervention and as an adjunctive intervention to youth-focused treatment. The workshop will include video demonstration, live role-play and will briefly review evidence supporting the impact of UP-C and UP-A caregiver interventions on child- and parent-level outcomes.

You will learn:

• Describe the rationale and evidence for a transdiagnostic approach to intervening with caregivers of youth with emotional disorders.

• Explain the four emotional caregiver behaviors targeted in the UP-C and UP-A and describe intervention strategies that encourage caregivers to “act opposite” to these emotional caregiver behaviors.

• Apply UP-C and UP-A caregiver-directed interventions to caregivers of youth with differing emotional disorder presentations, as well as diverse populations, and as stand-alone and adjunctive interventions.

Panel Discussion 23

Prioritizing Underserved and Marginalized Communities in the Design of Digital Mental Health Interventions

**M**ODERATOR: Ashley A. Knapp, M.A., Ph.D., Northwestern University Feinberg School of Medicine

**P**ANELISTS: Heather Davis, Ph.D., University of Chicago Medicine Jennifer Duffecy, Ph.D., University of Illinois - Chicago Ashley A. Knapp, M.A., Ph.D., Northwestern University Feinberg School of Medicine Emily G. Lattie, Ph.D., Northwestern University Terika McCall, M.P.H., Ph.D., Yale University School of Medicine Kofoworola Williams, M.P.H., Ph.D., Northeastern University

Primary Category: Technology

Key Words: Technology / Mobile Health, Vulnerable Populations, Underserved Populations

There is incredible public health potential for developing digital mental health (MH) tools. Such tools can be easily integrated into people’s lives, emphasizing its potential to extend reach, maximize impact, and overcome health inequities. However, underserved and marginalized populations are not well represented in the digital MH research to date, and thus, many digital MH tools have not been designed to meet the needs of individuals who could benefit most from increased access to MH care. Additionally, underserved and marginalized populations experience unique barriers to accessing and benefitting from digital MH tools, ranging from inconsistent access to internet to limited health and technological literacy. It is clear that the potential of digital MH tools and services has not yet been fully realized. To increase access and equity, it is critical that we partner with underserved communities to understand what access barriers exist, work with those communities to overcome these barriers and co-create digital MH tools that meet their needs.

Panelists will discuss subpopulations in the US who face access barriers from a social demographic lens as well as from an individual lens. Panelists will also discuss ways in which they partner with communities in the design and evaluation of digital MH tools. Work on centering and elevating the voices of young Black men, Black women, older adults with comorbid mental and physical health conditions, and medical students in designing digital MH tools will be presented. We will explore vulnerable populations, including people experiencing food insecurity, and discuss how researchers can engage with them to identify appropriate methods for their needs. Panelists will bring in their perspectives from partnering with organizations who serve vulnerable populations (e.g., local jails and public libraries’ teen services) and support underserved communities (e.g., organization that focuses on uplifting Black women) to design and evaluate digital MH tools tailored to meet the needs of these communities.
Earn 1.5 continuing education credits

Panel Discussion 24

Promoting Cognitive-behavioral Therapy (CBT) Principles and Interdisciplinary Collaboration Through Multidisciplinary Learning & Supervisory Experiences

**Moderator:** Kristin S. Vickers, ABPP, Ph.D., Mayo Clinic

**Panelists:** Elle Brennan, Ph.D., Mayo Clinic
Olivia E. Bogucki, Ph.D., Mayo Clinic
Jarrod M. Leffler, ABPP, Ph.D., Mayo Clinic
Craig N. Sawchuk, ABPP, Ph.D., Mayo Clinic
Eleshia J. Morrison, ABPP, Ph.D., Mayo Clinic

Primary Category: Workforce Development / Training / Supervision

Key Words: Education and Training, Supervision, CBT

Clinical psychologists in academic medical settings are increasingly involved in training as interdisciplinary collaboration between medical and behavioral health disciplines has become the norm. Attention to the benefits of multidisciplinary learning has burgeoned, particularly in the context of promoting patient care through cognitive-behavioral interventions. Accordingly, this panel aims to describe and discuss advances in psychology-driven programmatic approaches to multidisciplinary CBT learning within a large academic medical center that: 1) incorporate psychologist-driven educational programs into the required coursework for medical students and psychiatric residents (e.g., didactics, role play); 2) integrate psychology and psychiatry postdoctoral fellows in collaborative learning efforts (e.g., case discussion, team huddles); and 3) facilitate supervision and teaching for psychology fellows working with psychiatry residents and fellows (e.g., co-therapy, umbrella supervision). These efforts serve dual functions of promoting CBT practices and perspectives in emerging medical professionals and facilitating structured training opportunities to encourage the professional development of psychology fellows’ competencies in pedagogic and supervisory skills. Panelists were selected based on their expertise in programmatic development and implementation. Procedures and data from several programs that align within the aforementioned approaches will be discussed, including a simulation education Cross-Cultural Communication workshop to practice cultural humility skills in the delivery of patient care for psychiatry/psychology trainees; an Integrated Case Presentation Seminar where psychiatry/psychology trainees present and discuss challenging clinical cases; a simulation education Pain & Opioid Workshop for medical students to promote biopsychosocial pain assessment and treatment planning; and a monthly CBT Seminar presented to psychiatry residents which focuses on the theory, principles, and practice of CBT. The creation and expansion of a pilot “near peer” supervision program with psychology fellows providing umbrella supervision to psychiatry residents and fellows will also be detailed.

Special Interest Group Poster Exposition

View nearly 300 posters in the gallery and listen to the individual recordings. Some posters have QR codes imbedded with more information. Each SIG selects poster presentations submitted by their members on their topic or population. SIG posters feature young researchers doing the most up-to-the-minute studies. Browse the virtual website for a complete listing of title and authors.

Award Ceremony

Congratulations to the 2021 ABCT Award Recipients

Career/Lifetime Achievement
Patricia A. Resick, Ph.D., ABPP, Duke Medical

Outstanding Training Program
Judith S. Beck, Ph.D., Beck Institute for Cognitive Behavior Therapy

Outstanding Contribution by an Individual for Research Activities
Timothy A. Brown, Psy.D., Boston University

Francis Cecil Sumner Excellence Award
Isha Walwina Metzger, Ph.D., Georgia State University

Anne Marie Albano Early Career Award for the Integration of Science and Practice
Christian A. Webb, Ph.D., Harvard Medical School

The Michael J. Kozak Critical Inquiry and Analytical Thinking Award
Craig Rodriguez-Seijas, Ph.D., University of Michigan

Outstanding Service to ABCT
Shannon M. Blakey, Ph.D., Durham VA Health Care System

Distinguished Friend to Behavior Therapy
Bivian “Sonny” Lee III, Founder and Executive Director of Son of a Saint, New Orleans, LA
Virginia A. Roswell Student Dissertation Award
Katherine Musacchio Schafer, M.Ed., M.S., Florida State University

Leonard Krasner Student Dissertation Award
Chelsea F. Dale, M.S., Florida International University

2021 Student Research Grant
Quyen A. Do, University of Texas at San Antonio

Honorable Mention: Kathryn Coniglio, M.S., Rutgers University

2021 President’s New Researcher Award
Jonathan P. Stange, Ph.D., University of Southern California

Student Travel Award
Nur Hani Zainal, The Pennsylvania State University
“A Randomized Controlled Trial of a 14-Day Mindfulness Ecological Momentary Intervention for Generalized Anxiety Disorder”

Cindy Chang, Psy.D., Rutgers University
Feeling Like Burden: Perceived Burdensomeness Mediates the Associations Between Bisexual-Specific Minority Stressors and Suicidal Ideation”

Elsie Ramos Award
Rachel Butler, M.A., Temple University
“Imaginal Exposure for Disordered Eating Related Fears: A Pilot Randomized Controlled Trial”

Saturday, November 20

Invited Address 2:

Civil Courage for Racial Justice: A Behavioral Prescription for Change

10:30 a.m. – 11:30 a.m.
Earn 1 continuing education credit

Monnica T. Williams, ABPP, Ph.D., Canada Research Chair in Mental Health Disparities, Associate Professor, Clinical Psychology Program, School of Psychology, University of Ottawa

Primary Category: Culture/Ethnicity/Race
Key Words: Race, Professional Issues, Adult Anxiety

Dr. Monnica T. Williams is a board-certified licensed clinical psychologist and Associate Professor at the University of Ottawa, in the School of Psychology, where she is the Canada Research Chair in Mental Health Disparities. She is also the Clinical Director of the Behavioral Wellness Clinic in Connecticut, where she provides supervision and training to clinicians for empirically-supported treatments. Prior to her move to Canada, Dr. Williams was on the faculty of the University of Pennsylvania Medical School (2007-2011), the University of Louisville in Psychological and Brain Sciences (2011-2016), where she served as the Director of the Center for Mental Health Disparities, and the University of Connecticut (2016-2019) where she had appointments in both Psychological Science and Psychiatry. Dr. Williams’ research focuses on BIPOC mental health, culture, and psychopathology, and she has published over 100 scientific articles on these topics. Current projects include the assessment of race-based trauma, unacceptable thoughts in OCD, improving cultural competence in the delivery of mental health care services, and
interventions to reduce racism. This includes her work as a PI in a multisite study of MDMA-assisted psychotherapy for PTSD for people of color. She also gives diversity trainings nationally for clinical psychology programs, scientific conferences, and community organizations. She has served as the African American SIG leader for Association of Behavioral and Cognitive Therapies (ABCT), and currently is Chair of their Academic Training & Education Standards Committee (ATES). She serves as an Associate Editor of Behavior Therapy. She also serves on the editorial board of Cognitive Behaviour Therapy, Canadian Psychology, International Journal of Mental Health, Journal of Psychedelic Studies, and the Journal of Obsessive Compulsive and Related Disorders. She is a member of the Scientific Advisory Board of the International OCD Foundation and co-founded their Diversity Council. Her work has been featured in several major media outlets, including NPR, CBS, Huffington Post, and the New York Times.

In racialized societies, race divides people, prioritizes some groups over others, and directly impacts opportunities and outcomes in life. Racial problems cannot be corrected merely by good wishes of individuals – purposeful actions and interventions are required. To create equitable systems, civil courage is vital. Civil courage differs from other forms of courage, as it is directed at social change. People who demonstrate civil courage are aware of the negative consequences and social costs but choose to persist based on a moral imperative. After defining allyship and providing contemporary and historical examples of civil courage, this presentation explains the difficulties and impediments inherent in implementing racial justice. Dr. Williams will describe exercises based on cognitive and behavioral approaches to help individuals increase their awareness and ability to demonstrate racial justice allyship in alignment with valued behaviors. She explains how these approaches can be utilized, how they can help individuals grow, why they can be difficult, and how psychologists might make use of them.

Outline:
- Overview of race and racial justice
- The importance of civil courage
- The problem of in-group solidarity
- The assumption of a just society validates its rules
- The behavioral prescription for change
- Identifying avoidance and taking risks in the services of social justice values

You will learn:
- Define allyship in the context of racial justice
- Describe civil courage and why it is an important in psychology
- Describe CBT-based techniques for developing civil courage in oneself and fostering it in others

Long Term Goals:
- Identify key areas for personal growth around racial justice.
- Develop an anti-racist approach in personal and professional life.
- Become a better ally to people of color in the service of social justice values.

Traditional Workshop 6

**How to Apply Dialectical Behavior Therapy When Treating Emotion Dysregulation Complicated by Sexual and Gender Minority Stress**

Colleen A. Sloan, Ph.D., VA Boston HCS & Boston University School of Medicine
Jeffrey M. Cohen, Psy.D., Columbia University

Basic to Moderate level of familiarity with the material
Primary Category: LGBTQ+

Key Words: DBT (Dialectical Behavior Therapy), LGBTQ+, Stigma

Dialectical Behavior Therapy (DBT) is an evidence-based treatment for emotion dysregulation. DBT conceptualizes emotion dysregulation as a reasonable outcome of a transactional process between biological temperament and an invalidating environment. Additionally, it has been proposed that individuals with little biological vulnerability may experience emotional and behavioral dysregulation in the context of chronic and pervasive invalidation. Sexual and gender minority (SGM) people may experience chronic invalidation of their identities in the form of societal stigma, discrimination, marginalization, and other oppressive social forces. These examples of invalidation contribute to well-documented mental health disparities for SGM people including elevated rates of suicide, substance use, and depression, indicative of emotional and behavioral dysregulation. While many mental health professionals are motivated to use interventions like DBT to treat these problems, many less are adequately prepared to comprehensively treat emotional and behavioral dysregulation impacted by minority stress in SGM people. With this in mind, disparities for this marginalized group will persist and the impact and outcomes of evidence-based practice, particularly DBT, will be limited. This workshop is designed to provide some basic knowledge regarding mental health problems and minority stress in SGM populations along with strategies to conceptualize and intervene in these problems, utilizing DBT and minority stress (Meyer, 2003) frameworks. Attention to intersecting identities (e.g., Black transgender women) will be integrated throughout this workshop. Presenters will demonstrate how to effectively apply DBT strategies and teach DBT skills to address presenting problems and symptoms of SGM clients. The workshop aims to develop and/or enhance application of basic DBT strategies and tools to the needs of a marginalized community. Specific application of DBT skills from each skills module will also be included. Case vignettes, experiential exercises and role-plays, will be embedded throughout this workshop. The broader implications as they relate to public health and social justice will be integrated throughout this workshop.
Outline:

- DBT is a treatment option when working with sexual and gender minority (SGM) people who evidence emotional and behavioral dysregulation.
- SGM people may experience chronic and pervasive invalidation of their identities and experiences in the form of stigma, discrimination, and oppression.
- SGM may be more likely than non SGM people to experience and evidence emotional and behavioral dysregulation patterns as a reasonable response to chronic invalidation. Mental health professionals may be motivated to help SGM clients improve their lives but may not be adequately prepared to comprehensively treat emotional and behavioral dysregulation.
- Gaps in mental health treatment options will persist.
- Mental health disparities for SGM people will continue.
- DBT can be tailored to address the unique needs of marginalized people, particularly SGM people.
- DBT can be integrated minority stress frameworks.
- DBT skills training can be adapted to attend to minority stress.
- Cultural humility can be incorporated into the provision of DBT when working with marginalized people.
- This workshop will demonstrate application of DBT skills training and individual psychotherapy tools when treating SGM individuals.

Long-term Goals:

- Learners will be able to describe how to integrate biosocial formulation of emotion dysregulation with minority stress frameworks to more effectively conceptualize presenting problem for SGM clients.
- Learners will utilize affirming case formulations to tailor DBT skills training and strategies to treat clinical distress when working with SGM clients.

You will learn:

- Articulate case conceptualizations of emotional and behavioral dysregulation using an integration of dialectical behavior therapy and SGM stress frameworks.
- Utilize at least two specific DBT strategies and skills (e.g., chain analysis) to address emotion dysregulation in SGM individuals.
- Apply at least three validation strategies to address clinical distress in SGM individuals.
- Demonstrate cultural humility and affirmation when conducting effective DBT skills training when treating SGM individuals.
- Apply change-based strategies in DBT to promote social justice for SGM communities.

Recommended Readings:

The negative consequences of interpersonal trauma (e.g., physical abuse) take a disproportionate toll on Black youth due to the compounding stress of experiencing unique race related stressors both directly (e.g., microaggressions) and vicariously (e.g., witnessing police brutality in the media). Children’s Advocacy Centers (CACs) are part of the acute response after a concern for trauma to provide community-based services to children and families to help prevent and treat negative sequelae. However, these organizations do not systematically consider racial stress and trauma in their intakes, assessment, or treatments. Trauma-Focused Cognitive Behavioral Therapy (TF-CBT) is an efficacious evidence-based trauma treatment for youth who experienced trauma. To increase their utility in responding to and treating interpersonal trauma, both CACs and TF-CBT, should integrate and address cultural factors (e.g., system mistrust) that are likely to influence Black families’ willingness to engage in treatment for trauma. In addition, Black youth rely on particular assets and strengths in their families and communities to reduce negative mental and behavioral health outcomes from interpersonal and race-related stressors. For instance, racial socialization is the protective process of transmitting cultural behaviors, attitudes, and values to prepare youth to cope with racial stressors, and is associated with positive outcomes including increased resilience, coping abilities, and decreased problem behaviors and anxiety in Black youth. This workshop will provide an overview of the impact of interpersonal and racial stress and trauma on mental health and behavioral outcomes for Black youth. This workshop will also present qualitative research on organizational barriers and facilitators to service utilization and engagement for ethnic minority caregivers referred for treatment at CACs. Last, a focus of this workshop will be on providing participants an overview of groundbreaking research, applied strategies, and resources for utilizing racial socialization and other cultural considerations to deliver TF-CBT in a culturally affirming and validating manner for Black youth and families who are healing from interpersonal and racial trauma.

Outline:
• Interpersonal and Racial Trauma: Statistics and Outcomes
• Resilience through Racial Socialization and Racial Identity
• Results from Community Based Participatory Research at Children’s Advocacy Center’s
• Trauma Focused Cognitive-Behavior Therapy • Putting it all together: PRAC-TICE in Response to Interpersonal and Racial Stressors
• Psychoeducation
• Relaxation
• Affect Identification and Emotion Regulation
• Cognitive Restructuring
• Trauma Narrative
• In-Vivo Exposure
• Conjoint Parent-Child Sessions
• Enhancing Safety • Resource Sharing • Q&A

Long-term Goal:
• Contribute to multidisciplinary teams to make culturally informed decisions pertaining to client engagement, assessment, and treatment.

You will learn:
• Identify ways that interpersonal and racial stress and trauma impact Black youth development.
• Describe research on barriers and facilitators to trauma treatment utilization for ethnic minority youth and families.
• Discuss the protective role of racial socialization on behavioral and mental health outcomes for Black youth.
• Demonstrate the ability to utilize 2-3 strategies towards integrating racial socialization as a culturally specific cognitive-behavioral treatment strategy for Black clients.

Mini Workshop 9

Got a Client Afraid of Puke?: This Workshop Is for You!

David Yusko, Psy.D., Center for Anxiety & Behavior Therapy
Dara Lovitz

Basic to Moderate level of familiarity with the material
Primary Category: Adult Anxiety
Key Words: Phobias, Exposure, Anxiety

More than 387 million people in the world suffer from emetophobia. 195 million more than those who suffer from the fear of flying. 118 million more than those who fear spiders. Emetophobia is the most common disorder that no one talks about. The workshop will first differentiate emetophobia from other disorders like obsessive compulsive disorder, generalized anxiety disorder, and illness anxiety disorder. The main focus of the workshop will be on the theoretical underpinnings of exposure therapy and how to effectively describe, implement, and utilize this powerful technique to ameliorate the often-debilitating symptoms associated with this phobia. A description of the four core components of exposure therapy will be included: in vivo exposure, imaginal exposure, processing of the exposure experiences, and safety behavior elimination. The successful implementation of these four components of exposure therapy provide an effective treatment plan that explains how the phobia is maintained, how it can be treated, and how those treatment gains can be maintained. Case examples will be discussed in order to better demonstrate the implementation of these treatment components. Additionally, the personal experience of a person who has lived with emetophobia her whole life will describe the impact of this phobia on her life, how she chose an exposure therapist to treat her fear, and what it took for her to overcome her chronic and disabling fear of vomit. Questions from the participants and discussion of their patients will be encouraged.

You will learn:
• How to distinguish emetophobia from other disorders with similar characteristics.
• How to implement exposure therapy effectively for each individual client.
• What it is like to live with emetophobia and go through exposure therapy.

Panel Discussion 26

Towards a More Inclusive Clinical Science: How to Fight for Systemic Changes to Increase the Impact of Behavioral and Cognitive Therapies

Moderator: Allura L. Ralston, M.A., University of Nebraska-Lincoln
Panelists: Allura L. Ralston, M.A., University of Nebraska-Lincoln
Todd J. Caze, II, II, Ph.D., UTSW/Children’s Health
Andrew’s Institute
Broderick Sawyer, Ph.D., Genesee Valley Psychology
Sarah A. Hayes-Skelton, Ph.D., University of Massachusetts Boston

Primary Category: Professional/ Interprofessional Issues
Key Words: Career Development, Education and Training, Professional Development

The importance of social justice, advocacy, and activism have become of central focus within the United States in the past year. The sociocultural impacts of COVID-19, the Black Lives Matter Movement, and threats to women’s’ and LGBT rights have emphasized the necessity of equitable opportunities for traditionally marginalized communities. Several professional organizations have emphasized the importance of advocacy in the past decade. Despite this, training programs provide few formal opportunities for training about advocacy. This lack of training often leaves trainees and early career professionals unsure of how to engage in advocacy within clinical, research, institutional, and community contexts. Calls from professional organizations in support of advocacy and for recruiting and retaining professionals from underrepresented backgrounds necessitates engaging in advocacy within institutional contexts. Without consideration of advocacy in various contexts, mental health professionals are likely missing critical opportunities for increasing dissemination of, access to, and engagement in CBTs. Consistent with the convention theme, championing CBT, the goal of this panel is to discuss how individuals at various stages of training and early career can utilize advocacy as a tool for improving the impact of clinical psychological science by a) increasing recruitment and retention of trainees and professionals from underrepresented groups and b) increasing dissemination of and engagement in treatment interventions with clients from underrepresented groups. Panelists have extensive advocacy experience across various stages of their training and careers (graduate training, internship, post-doc, early career, mentorship), with a wide range of communities (e.g., SGM, racial/ethnic minorities, athletes, underrepresented students), and in diverse settings (e.g., universities, academic medical centers, professional organizations). Discussion will include: a description of the importance of engaging in advocacy, panelists’ experiences with advocacy at different stages of career, barriers to engaging in advocacy, methods to overcome these barriers, and ways to find and provide support for advocacy work.
Earn 1.5 continuing education credits

Symposium 77

From Minority Stress to Minority Strengths: The Role of Identity Pride, Community, and Social Support on LGBTQ+ Mental Health

Chairs: Cindy J. Chang, Psy.M, Rutgers, State University of New Jersey

John Curry, Ph.D., Duke University

Using Wearable Movement Data Captured in Daily Life and Deep Learning to Predict Deterioration in Anxiety Disorders Across 17-18 Years
Nicholas C. Jacobson, Ph.D., Dartmouth College
Economic inequality continues to grow rapidly in the United States. Approximately 93.6 million individuals in the U.S. currently live in households that fall below twice the poverty line (U.S. Census Bureau, 2020), with countless more experiencing economic strain as a result of the COVID-19 pandemic. Thus, a substantial portion of individuals, couples, and families currently live among the lowest rungs of the socioeconomic ladder, facing conditions that increase their exposure to chronic stress and a range of poor health outcomes (e.g., depression, anxiety). Importantly, these statistics represent a clarion call to the field of couple therapy to determine the best ways of supporting relationship health among low-income couples. Given the central role that close relationships play in our lives and the increasing number of partners suffering from financial difficulties and relationship strain, couple therapists need to take appropriate steps toward addressing the needs of low-income couples at the levels of intervention and treatment dissemination. As such, this clinical roundtable brings together a panel of experts on culturally-sensitive couple therapy (including low income) and relationship science to discuss how to meet these needs. Consistent with the conference theme, this widely-experienced panel will (a) discuss the unique challenges of couples who have struggled with low-income for many years and/or for the first time in their relationship, (b) address the ways in which these difficulties interact with other aspects of a couple’s identity (e.g., race/ethnicity), and (c) identify ways of adapting current interventions to help low-income couples address treatment barriers and bolster relationship resilience. This timely discussion will also aim to highlight necessary policy changes that would support the overall quality of life of low-income couples. Ultimately, the panel will strive toward providing a multifaceted clinical framework for working with one of the largest underserved groups in this country.

Clinical Round Table 11
Increasing Access to Evidence-based Treatments for Underserved and Diverse Populations: creative, Innovative, Real-world Solutions

Moderators: Janie J. Hong, Ph.D., Stanford University School of Medicine and Redwood Center for CBT and Research
Quyen A. Do, M.Ed., University of Texas at San Antonio

Panelists: Adrian Aguilera, Ph.D., UC Berkeley
Tara Mehta, Ph.D., University of Illinois at Chicago
Kevin O. Narine, B.A., William James College, Graduate Education in Psychology
Nadine A. Chang, Ph.D., Gracie Square Hospital

Primary Category: Culture / Ethnicity / Race
Key Words: Culture, Treatment, Vulnerable Populations

As the need for mental health services has risen, existing disparities in treatment access for ethnic minority, underserved, and other diverse populations have become more pronounced. This roundtable will showcase innovative solutions addressing treatment barriers and features a discussion of solutions and future directions in improving care access. Dr. Aguilera will share the development and testing of mobile phone and text messaging interventions for underserved and Spanish speaking populations. Dr. Mehta will
discuss her work focused on developing mental health service models designed to support underserved children and families in urban settings in collaboration with community partners. These service models leverage natural resources (teachers, staff) in settings critical to children (school, after-school) and engage paraprofessionals to promote culturally responsive services. Kevin Narine will describe a national implementation project that offers free, confidential, culturally responsive peer support for LGBTQ+ South Asians. Dr. Chang will present a pilot program utilizing iPad technology to meet the treatment needs of culturally diverse, non-English speaking patients at an Asian inpatient psychiatric program. Dr. Hong will highlight her work with neurodiverse (e.g., those with an autism spectrum disorder) and culturally diverse individuals, and how she uses chat messaging, video clips, and other clinical strategies to improve learning among those who are more nonverbal and struggle to engage in standard psychotherapy contexts. Quyen Do will serve as a moderator and facilitate the discussion by describing her research on within-group care access disparities, experiences of discrimination within the healthcare system, and health outcomes in Asian American women.

Invited Panel:

Toward an Intersectional Model of Translational Neuroscience: Engaging Marginalized Community Partners to Adopt Neuroscience in Psychology Clinics

Sponsored by: ABCT’s Neurocognitive Methods for the Clinic Think Tank and the Neurocognitive Therapies/Translational Research Special Interest Group

Chair: Angela Fang, Ph.D., University of Washington
Moderator: Judy Illes, Ph.D., University of British Columbia

Riana Anderson, Ph.D., University of Michigan
Sierra Carter, Ph.D., Georgia State University
Kristen Eckstrand, M.D., Ph.D., University of Pittsburgh
Kean Hsu, Ph.D., University of California, Los Angeles
Ryan J. Jacoby, Ph.D., Massachusetts General Hospital
Shawn Jones, Ph.D., Virginia Commonwealth University
Maria Kryza-Lacombe, M.A., San Diego State University/University of California, San Diego, Joint Doctoral Program in Clinical Psychology
Andrew D. Peckham, Ph.D., McLean Hospital/Harvard Medical School
Greg J. Siegle, Ph.D., University of Pittsburgh School of Medicine
Mary L. Woody, Ph.D., University of Pittsburgh
Mariann Weierich, Ph.D., University of Nevada, Reno
Lucina Uddin, Ph.D., University of Miami

Key Words: Neurocognitive therapies, Neuroscience, Translational Research

The COVID-19 pandemic and Black Lives Matter movement together have brought our collective attention to widespread disparities in the access, provision, and outcomes of healthcare services, as well as the lack of research participant and workforce representation and inclusivity of minoritized populations within clinical psychological science. Clinical translational neuroscience is an emerging field that is at even greater risk of excluding the voices of minoritized researchers, clinicians, and patients, given that it requires the integration of two disciplines (clinical psychology and neuroscience) that each often lack appropriate representation and inclusivity of Black, Indigenous, People of Color (BIPOC) and additionally marginalized voices. At the same time, this interdisciplinary field is also well-positioned to question basic assumptions about emotions, cognitions, behavior, and brain development due to strong cross-fertilization between different scientific disciplines.
In line with this year’s conference theme, in this invited panel, we aim to assess the basic assumptions and practices of relevant stakeholders in choosing to adopt or not adopt neuroscientific principles into clinical practice, through an intersectional framework.

Outline:
- Ethical considerations related to bringing neuroscience to psychology clinics
  - Integrate the scholarship and lived experience of marginalized scholars and clinicians to identify additional nuances in understanding how, why, for whom and for whom not to translate neuroscience to psychology clinics
  - Provide updated data on racial disparities in the biomedical and academic workforce and patient populations not represented in existing studies, as well as the impact of racism on driving those disparities.
- Barriers to adoption of neuroscience in psychology clinics from a critical lens
  - Define neuroscience and provide example neuroscientific research that can be integrated into psychology clinics
  - Identify barriers to building trust between relevant stakeholders in the adoption of neuroscientific principles into psychology clinics, including knowledge gaps about (1) the effects of interlocking systems of oppression on different intersectionalities and consequences for seeking treatment, and (2) the biomedical ethics of integrating neuroscience in clinical care settings.
  - Examine the role of racism in perpetuating myths about biological measures, driving racial disparities in health outcomes, and systematically oppressing disadvantaged groups through coercion and exploitation in research both historically and in the present
- Frameworks to understand how translational neuroscience could better serve minoritized population
  - Discuss previous efforts to translate scientific principles into the community by discussing relevant psychological theories and frameworks related to dissemination, implementation, bioethics, minority stress, and intersectionality that may be applicable to the neuroscience-psychology translational gap.
  - Actionable solutions to bridge the translational gap
    - Learn from clinician scientists who conduct research on behavioral interventions, mental health disparities, and neuroscience on how to maximize the broader impact of their science.
    - Evaluate potential solutions toward improved clinical and research practices by developing sustainable and meaningful community partnerships to enhance BIPOC representation within research and within the workforce/training programs.

Goals:
- Showcase the work of BIPOC scholars, as well as scholars who hold additional minoritized identities, in the areas of mental health disparities/behavioral interventions and neuroscience.
- Examine the role of racism in perpetuating myths about biological measures, driving racial disparities in health outcomes, and systematically oppressing disadvantaged groups through coercion and exploitation in research both historically and in the present.
- Identify barriers to building trust between relevant stakeholders in the adoption of neuroscientific principles into psychology clinics, including knowledge gaps about (1) the effects of interlocking systems of oppression on different intersectionalities and consequences for seeking treatment, and (2) the biomedical ethics of integrating neuroscience in clinical care settings.
• Evaluate potential solutions toward improved clinical and research practices by developing sustainable and meaningful community partnerships to enhance BIPOC representation within research and within the workforce/training programs.

You will learn:
• Describe historical and ongoing barriers that have limited the application of neuroscientific techniques to study mental health disparities in minoritized populations.
• Develop an up-to-date conceptualization of how translational neuroscience could serve minoritized stakeholders from bench to bedside.
• Uplift the work and voices of BIPOC and additionally marginalized scholars and clinicians
• Engage with community partners to understand and heal potential distrust of (neuro)scientists and clinical trials in local communities.

Panel Discussion 27

Copecolumbia: Rapid Development and Deployment of an Evidence-based Program of Support for Health Care Workers During COVID-19

MODERATOR: Deborah R. Glasofer, Ph.D., NY State Psychiatric Institute/Columbia

PANELISTS: Colleen C. Cullen, Psy.D., Columbia University Medical Center
Patrice K. Malone, M.D., Ph.D., Columbia University Medical Center
Laurel Mayer, M.D., Columbia University/New York State Psychiatric Institute
Claude A. Mellins, Ph.D., Columbia University/New York State Psychiatric Institute
Erin K. Engle, Psy.D., Columbia University Medical Center

Primary Category: Program / Treatment Design

Key Words: Treatment/ Program Design, Health Care System, Treatment Development

An unprecedented international public health crisis, COVID-19 overwhelmed medical centers and psychologically affected health care workers (HCW). Although the emotional toll of epidemics and risk for HCW burnout are well documented, HCW wellbeing during prolonged, potentially lethal crises like COVID-19 required novel evidence-based paradigms. Responding quickly to the NYC pandemic surge, psychologists and psychiatrists in the Department of Psychiatry at Columbia University Irving Medical Center developed CopeColumbia, an innovative peer support program designed to boost HCW’s emotional wellbeing and professional resilience, and prevent adverse mental health dis-
tress in an easily accessible, non-stigmatized manner. Grounded in evidence-based CBT and ACT practice, CopeColumbia offered peer support groups, individual sessions, and interactive town halls. An interdisciplinary team created a Facilitator’s Guide and an online platform to disseminate vetted, psychoeducational resources and serve as a referral resource. In this panel discussion, we will (1) share our experience of this collaboration, (2) provide an overview of the resources created (e.g., Facilitator’s Guide, online platform), (3) describe the application of evidence-based strategies to address pandemic-related stressors, (4) review program feedback data, (5) summarize the main themes raised by HCWs as the pandemic unfolded, and (6) highlight ways in which our team responded to the important themes of racial and social injustice reawakening in the national consciousness. We will identify anticipated challenges to HCW and support staff wellbeing as the pandemic continues to evolve (e.g., emergence of variants, vaccine availability and hesitancy), and share ways in which CopeColumbia envisions its future. We will share lessons learned, including the benefits of this model for the prevention of acute HCW distress and burnout, the continuous need for wellbeing programs and effective linkages to mental health services to sustain our workforce and provide optimal care, the benefit of multidisciplinary teams supporting a diverse corps of HCW, and the need for organizational support, leadership, and advocacy to sustain programs like CopeColumbia.

Spotlight Research 1

Championing CBT with a Research Framework for Investigating the Cost-effectiveness and Cost-benefit of Different Delivery Systems for CBTs

Basic to Moderate level of familiarity with the material

Primary Category: Dissemination & Implementation Science

Key Words: Clinical Utility, Implementation, Technology / Mobile Health

Research on CBT and related therapies (e.g., DBT, ACT) continues to improve the effectiveness of new techniques for treatment and prevention of psychological problems and enhancement of human potential. However, most research on these cognitive-behavioral therapies (CBTs) uses a remarkably limited set of delivery systems, often limited to one-on-one or small group formats. Holding the delivery system relatively constant is understandable while comparing effectiveness of different therapies. However, continuing to limit the generalizability of research findings to a few resource-intensive delivery systems risks perpetuating financial and racial inequities in access to CBTs.

Whether via computer screen or clinical office, our most-used and most-researched delivery systems are centuries old. They require much provider time, client time, and other limited resources to help those who need our help the most and can afford it the least.

In this Research Spotlight, we assemble methods and findings in a framework to guide research on the wide variety of delivery systems for CBTs that promise to be more cost-effective and cost-beneficial, from apps to self-guided interventions using well-tested
manuals, online resources, and apps, to single-sessions therapies, to stepped-care systems with multi-level provider hierarchies.

The last delivery system can minimize costs via a network of paraprofessionals managed by MA and MSW providers, each supervised by PhD or PsyD experts. Continuous monitoring of client progress and rapid deployment of just-in-time interventions can use data from apps on client devices.

We propose a program of research that would establish the costs, cost-effectiveness, benefits, and cost-benefit of CBTs when provided by these different delivery systems for clients with varying needs and resources. We then combine the relatively rare findings of actual cost-effectiveness and cost-benefit analyses of different delivery systems for CBTs and other therapies with estimates of the likely costs of those delivery systems.

By minimizing the necessary provider and client costs of delivering effective CBTs, we hope to help many more people than we currently can, at much lower costs than we currently require of our clients and ourselves.

You will learn:
• Describe 3 delivery systems for CBT that promise high fidelity with low cost
• Explain a major difference between research measures of cost and cost-effectiveness
• Explain a major difference between cost-effectiveness and cost-benefit comparisons
• Design a study to compare cost-effectiveness or cost-benefit of alternative delivery systems for CBT
• Explain how research on delivery system cost-effectiveness could reduce inequities in treatment accessibility

Mini Workshop 12

Integrating the Menstrual Cycle into Assessment and Treatment: A Practical Overview

Jessica R. Peters, Ph.D., Alpert Medical School of Brown University
Tory Eisenlohr-Moul, Ph.D., University of Illinois at Chicago
Katja Schmalenberger, M.A., Heidelberg University

Basic to Moderate level of familiarity with the material
Primary Category: Women’s Issues
Key Words: Women’s Health, Assessment, Evidence-Based Practice

While the majority of female/assigned female at birth individuals do not experience significant menstrual cycle effects on their mood, approximately 5% experience intense and debilitating changes (i.e., premenstrual dysphoric disorder, PMDD) and at least 50% of those with mood disorders and other forms of psychopathology experience cycle-based worsening of their symptoms (i.e., premenstrual exacerbation, PME). These cyclical disorders are not caused by hormonal abnormalities, but rather by abnormal neural sensitivity to normal hormone changes. Accordingly, it is imperative that clinicians understand how to assess and treat menstrual cycle-related effects on mood and psychopathology. Our workshop, led by two licensed clinical psychologists and an advanced trainee with expertise in conducting assessments and treatment with this population, will cover the following topics:

Psychoeducation: We will provide an overview of the menstrual cycle, including how changes in hormones can affect mood and behavior, including the difference between PMDD and PME and variant effects of the cycle on symptoms (e.g., periovulatory effects). Participants will learn how to provide psychoeducation and a broad range of resources to clients.

Assessment: Participants will be taught how to validly assess menstrual cycle effects, including reviewing the rationale behind prospective assessment and how to measure daily DSM-5 PMDD symptoms over two cycles. We will present available tools for easy tracking and calculation of clinically significant cycle effects.

Interdisciplinary Treatment Collaboration: Participants will be introduced to strategies for establishing relationships and collaborating with other types of treatment providers (e.g., psychiatry, gynecology) who specialize in pharmacological, medical, and surgical treatments of evidence-based treatment of PMDD/PME. Skills Training: Introduce CBT strategies for management of PMDD/PME, how to integrate this knowledge into existing therapy approaches like DBT. Topics include how to utilize increased awareness of symptom flux and applying specific distress tolerance and interpersonal skills. The session will conclude with Q&A about the menstrual cycle and PMDD/PME.
You will learn:
• Describe the basic mechanisms of how the menstrual cycle can affect mood and behavior.
• Provide psychoeducation and a wide range of resources about the menstrual cycle to clients.
• Assess the effects of the menstrual cycle on symptoms using validated, prospective methods and accurately diagnose clients with PMDD or PME.
• Collaborate effectively with other types of treatment providers in providing care for management of menstrual cycle effects.
• Adapt CBT approaches for management of menstrual cycle-based exacerbation of symptoms.

1:30 p.m. – 3:00 p.m.

Earn 1.5 continuing education credits

Mini Workshop 10

Implementing Cognitive-behavioral Therapy for Adults and College Students with ADHD

Mary V. Solanto, Ph.D., Zucker School of Medicine at Hofstra/Northwell

Moderate level of familiarity with the material
Primary Category: ADHD - Adult
Key Words: ADHD, Cognitive Therapy, College Students

Executive dysfunction is a major cause of educational and occupational impairment in adults with ADHD. Cognitive-Behavioral Therapy (CBT) has been shown to be efficacious in remediating executive dysfunction in randomized clinical trials in adult ADHD in both group and individual modalities. This workshop will review the foundations, treatment parameters, and specific components of a well-validated CBT intervention (Solanto et al, Amer J of Psychiatry, 2010) as it is being implemented in adults with ADHD and, more recently, tailored to the needs of college students with ADHD. Specific CBT intervention methods include: (1) Effective use of daily planners and organizers; (2) Contingent self-reinforcement; (3) “Chunking” of complex tasks into manageable parts; (4)
Minimization of external distractors, (5) Use of a matrix to differentiate “urgent” from “important” tasks; (6) Flow-charting of goals and sub-components; (7) Visualization of long-term rewards and consequences (8) “Cognitive reframing” to target dysfunctional “automatic thoughts” that engender anxiety and depression, which are more prevalent in ADHD. Various “mantras” that encompass adaptive cognitive self-instructions are repeated strategically throughout the program in order that they may be internalized as guides to behavior. Generalization and maintenance of gains are fostered by weekly “home exercises” which are structured opportunities to practice the new cognitive and behavioral habits outside the session. New modules (mindfulness, sleep) that have been added to the core program, and guidelines for adapting the group program for individual therapy will also be reviewed. College students with ADHD have higher rates of course failures and incompletes and lower GPAs, and are less likely to graduate than their non-ADHD peers. The workshop will include description and discussion of modifications of the adult CBT program as it has been tailored to the contexts, cues, and consequences experienced by college students with ADHD. The results of a pilot study of this intervention with college students in the Netherlands will be presented.

You will learn:

- Describe the principles upon which CBT for executive dysfunction in ADHD is based.
- Describe the specific therapeutic components of CBT for executive dysfunction in adults/college students.
- Describe the evidence-base for the efficacy of CBT for Executive dysfunction in Adults.
- Describe the rationale for a cognitive-behavioral intervention to address executive dysfunction in college students with ADHD.
- Describe modifications of group CBT for individual psychotherapy with adults with ADHD.

**Recommended Readings:**

Mini Workshop 11

Improving Treatment for Hoarding Disorder

Gail Steketee, Ph.D., MSW, Boston University
Randy O. Frost, Ph.D., Smith College

Moderate to Advanced level of familiarity with the material
Primary Category: Obsessive Compulsive and Related Disorders
Key Words: Hoarding, Treatment, CBT

This mini-workshop will provide a brief review of hoarding symptoms, including excessive acquisition, difficulty organizing, and clutter in the home, as well as concurrent problems such as health and mental health comorbidity, limited insight, family conflict and safety in the home. Methods for cross-disciplinary assessment for practitioners in mental health and social service sectors will be provided. We will describe the CBT model of hoarding and how it links to treatment components. Empirically tested CBT interventions for hoarding disorder include motivation enhancement, psychoeducation, skills training for sorting and organizing objects, behavioral practice for non-acquiring and discarding, as well as cognitive strategies to alter beliefs about and attachment to about possessions. We will consider newer strategies that may improve outcomes and require further testing in outcome trials.

You will learn:
• Recognize the features and concurrent problems associated with a diagnosis of hoarding disorder.
• Utilize cross disciplinary tools to assess hoarding severity and associated features.
• Identify CBT strategies that reduce acquisition, improve organizing skills, and reduce clutter, as well as additional methods to enhance gains.

Master Clinician 7

Treating OCD in Children and Adolescents: A Cognitive-behavioral Approach

Martin E. Franklin, Ph.D., Rogers Behavioral Health

Basic to Moderate level of familiarity with the material
Primary Category: Obsessive Compulsive and Related Disorders
Key Words: ERP (Exposure and Response Prevention), Child, Adolescents

In the last 25 years, the evidence base for cognitive behavioral therapy involving exposure plus response prevention for treating youth with OCD has grown substantially. Treatment typically involves in vivo and imaginal exposure to situations and thoughts that provoke obsessional anxiety, along with response prevention, which is aimed at reducing and ultimately eliminating compulsions and other more passive forms of avoidance. Randomized controlled trials conducted around the world now support the efficacy of exposure-based interventions, and effectiveness trials have since provided evidence that robust and durable outcomes can be achieved outside the academic medical contexts in which these treatments were developed and validated. These advances notwithstanding, response to treatment is still neither universal nor complete, and subspecialty expertise in OCD and related disorders remains difficult to find in many, if not most, clinical settings. This seminar will focus on common issues that arise in providing CBT for children and adolescents, and clinical strategies to address these challenges will be presented. Psychiatric comorbidity, family accommodation, motivational readiness, and other challenges to within- and between-session protocol adherence will be addressed in turn, and ample time will be made available for discussion of clinical cases in which optimal outcomes are proving difficult to achieve.

Outline:
• Welcome and speaker introduction
• Review of the efficacy and effectiveness literature on CBT, pharmacotherapy, and their combination for pediatric OCD
• Discussion of moderators and mediators of outcome, and their implications for clinical practice Clinical management of:
  • Psychiatric comorbidity
  • Motivational issues
  • Family accommodation
Clinical case examples of common and less common presentations
Solicitation of audience case examples Moderated Q&A Where to get additional information on this topic

Long-term goals:
- To master the presentation of the treatment rationale to patients and their families who are considering a course of CBT for pediatric OCD.
- To develop clinical facility with the core techniques of CBT for pediatric OCD, including in vivo exposure imaginal exposure, response prevention, and the management of family accommodation.

You will learn:
- List at least five of the seminal trials examining the efficacy and effectiveness of CBT, pharmacotherapy, and their combination in the treatment of pediatric OCD.
- Identify the four core CBT techniques for children and adolescents with OCD, including in vivo exposure, imaginal exposure, response prevention, and motivational interviewing.
- Identify three techniques used in the clinical management of common problems encountered in CBT for youth with OCD and their families, including the clinical management of psychiatric comorbidity, procedures to address family accommodation, and pharmacotherapy augmentation strategies.

**OCD and Comorbidity: When Does Treatment Need to Be Modified Because of Other Problems and How Do You Do It?**

Jonathan B. Grayson, Ph.D., University of Southern California

Moderate to Advanced level of familiarity with the material

Primary Category: Obsessive Compulsive and Related Disorders

Key Words: OCD (Obsessive Compulsive Disorder), Comorbidity, Tic Disorders

Designing a treatment of exposure and response prevention is relatively simple, but obtaining compliance is an art. For many sufferers, complying with treatment feels impossible. There are a number of different factors that can impede treatment, including failure to properly identify the feared consequences of exposure, issues of denial/acceptance, and comorbid merged problems (when OCD and non-OCD problems share the same feared consequences). Not all comorbid issues require a modification of exposure and response prevention for OCD. This presentation will explain when and how these issues can interfere with treatment and how to modify treatment when necessary.

- **Introduction**
  - Forms of Treatment Resistance
    - Poor readiness
    - Focus upon the wrong feared consequences
    - Merged cases
      - Definition of merge: A problem is considered merged when the feared consequences (FCs) of their OCD problems overlap with the FCs of other issues, problems or diagnoses.
    - Merged and Co-Morbidity
      - Deciding when and how to treat co-morbid issues.
      - Unmerged or Simple OCD
      - Merged OCD
  - The Model
    - Adapting the model to the patient’s problems
      - Feared consequences (FC) - the avoidance/compulsion “fixes”
      - Will be idiosyncratic to individual and as it relates to OCD will be driven by intolerance of uncertainty.
      - Further elaboration of FC’s and uses of ACT and CT and different paths of treatment resistance
    - Merged OCD
A more complicated and thorough case conceptualization resulting from the interplay of merged issues

2 Case examples to illustrate the difference between merged and unmerged problems.
- Ex. # 1 - Unmerged: OCD and Borderline Personality Disorder (BPD)
- Ex # 2 - Merged: OCD and Borderline Personality Disorder
- Ramifications of how this modifies therapy.

Case Examples: PTSD & OCD: Unmerged and Merged
- Both women suffered from sexual trauma and both came to treatment with PTSD and OCD.

Summary
- These cases are important for two reasons. The first is the one that appeals to us and many other clinicians B sufferers who come to us are individuals, there problems may be complex, so that cookie-cutter approaches won’t work.
- The second is that we aren’t presenting a new cookie cutter.
  - Not every patient is going to need or will benefit from simultaneously attacking treating all problems simultaneously
  - For OCD, however, it is our opinion that E+RP will probably always be a part, but when it is done is the question.
  - Resistance has many forms, we’ve just focused on one.

You will learn:
- Identify roadblocks to E&RP treatment of OCD.
- Describe how comorbid non-OCD issues can interfere with treatment.
- Create the initial steps for attacking treatment roadblocks.
- Differentiate merged vs unmerged OCD.
- Modify an ERP program for merged OCD presentation.

**Recommended Readings:**
Upgrading Our Toolkit for Assessment and Treatment of Mood Problems and Bipolar Disorder

**Presenters:** Eric A. Youngstrom, Ph.D., Professor/Executive Director, UNC Chapel Hill/Helping Give Away Psychological Science

**Co-Authors:** Caroline G. Vincent, B.S., Undergraduate Research Assistant, HGAPS and University of North Carolina at Chapel Hill

Joshua Langfus, M.A., Graduate Student, Department of Psychology & Neuroscience, University of North Carolina at Chapel Hill

Moderate level of familiarity with the material

Primary Category: Bipolar Disorders

Key Words: Assessment, Bipolar Disorders, Implementation

Mood problems are common and can be debilitating or dangerous. They are one of the main issues we work with clinically. Yet they can have many different causes and supporting factors, and benefit from different treatments. Fortunately, there has been a surge of evidence about the validity of carefully diagnosed mood disorders, and better understanding of how sleep and other factors may be pieces of the puzzle. This workshop discusses key assessment and therapy issues, including: how bipolar and other mood disorders manifest clinically, similarities and differences in youths versus adults, how to use self-report and other-report measures to aid case formulation and treatment, and ideas about well-supported specific treatment strategies. The workshop blends lecture, case presentations, and links to a wealth of free assessments and information, as well as question-and-answer interactions. Often challenging conventional wisdom, the workshop presents new evidence that can be applied immediately in practice.

You will learn:

- Describe the use of evidence-based assessment methods that aid in differential diagnosis and measuring treatment response.
- Find free, easy to use tools to aid case formulation and measured treatment progress.
- Explain how to integrate a conceptual model for working within systems-of-care into your practice with cases dealing with mood problems.
- Explain how many points of change would be a sign of improvement or worsening on short, free scales to track progress.
- Use TRIP Database to quickly gauge the support for different psychological and non-psychological (e.g., yoga, CBD oil...) options.

2:00 p.m. – 5:00 p.m.

Traditional Workshop 9

What to Do When Therapy Isn’t Working: A Transdiagnostic Model for Assessing Progress, Changing Course, and Improving Outcomes in the Treatment of Anxiety and Its Related Problems

Rochelle I. Frank, Ph.D., University of California, Berkeley & The Wright Institute
Joan Davidson, Ph.D., San Francisco Bay Area Center for Cognitive Therapy

Basic to Moderate level of familiarity with the material
Primary Category: Adult Anxiety
Key Words: Anxiety, Treatment, Transdiagnostic

Therapists often feel “stuck” when trying to figure out why their anxious patient’s presenting problems are not resolving. This can be a demoralizing experience for both clinician and client. In this workshop, we offer an in-depth look at ten pivotal explanations that will help therapists more accurately assess actual and perceived treatment failure, and guide them in modifying therapy to facilitate achievement of client goals and improve outcomes. Transdiagnostic case formulation sheds light on what might be driv-
ing patients’ problems, and on possibilities for resolving treatment impasses. Using the presenters’ roadmap (Frank & Davidson, 2014) specifying a methodology for categorizing and identifying transdiagnostic mechanisms (TDMs), and targeting them in individualized treatment plans, participants will learn to reassess and modify their case formulations when patients seem to not be improving. For example, the TDMs originally identified may not be correct, and new hypotheses about clients’ underlying vulnerabilities and coping responses may need to be explored. Alternatively, clients may struggle with motivation and willingness to change—especially if they must modify or relinquish long-held and valued coping behaviors in order to get better. Case conceptualization models also are useful in helping therapists consider potential problems when treatment appears to not be working. Specifically, and perhaps most importantly, how is progress being measured, and is it appropriate to both the client and the difficulties for which they are seeking therapy? Also, are there family or cultural considerations that potentially impede—or could improve—therapeutic gains? Similarly, the client may have specific concerns they have not yet revealed due to feelings of shame which, undetected and unaddressed, could negatively impact treatment outcomes. Ruptures in the therapeutic alliance, as well as the therapist’s own TDM-driven limitations (e.g., perfectionistic strivings that convey pressure or are perceived as judgmental by the client) also can result in premature termination or treatment failure. Video demonstrations and group discussion will augment didactic instruction to illustrate both identification and resolution of these problems.

Outline:
• Audience survey re: experiences of treatment failure
• Overview of 10 pivotal reasons why clients are not, or may not appear to be, improving
• Overview of transdiagnostic formulation model to guide investigation and resolution of potential reasons for actual and perceived lack of client progress
• Illustrate how to use the transdiagnostic model when identifying and revising conceptualizations about what’s not working in therapy
• Illustrate how to use components of general case conceptualization models to further explicate and resolve potential obstacles to progress
• Address discrepancies between therapist and client perceptions of treatment progress
• Wrap-up and review

Long Term Goals:
• Discuss 2 possible problems in the therapeutic alliance to consider that might be interfering with patients’ progress.
• Assess their TDMs that might be negatively impacting clients’ motivation, engagement in, and response to treatment.

You will learn:
• Identify 5 core components of the TDM case formulation model to reconsider when a patient does not appear to be making progress in treatment.
• Identify 3 problems when setting treatment goals that might be interfering with patients’ progress.
• Identify 5 progress monitoring problems to consider when a patient does not appear to be making progress in treatment.

Parent mental health is often not addressed in evidence-based interventions for children with disruptive behavior disorders, such as Attention-Deficit/Hyperactivity Disorder (ADHD). Many evidence-based programs for children with ADHD rely on parents to implement treatment. This can be particularly difficult for parents who struggle with their own depression, executive functioning deficits, emotion dysregulation, or other mental health symptoms. Parent mental health impacts the trajectory of children with ADHD and ADHD treatment outcomes, pointing to the importance of providing parents with their own skills so they can better support their child with ADHD. This workshop will present on a flexible parenting program that integrates cognitive, behavioral, and emotion-focused intervention components. Supporting Caregivers of Children with ADHD incorporates a focus on parent mental health within a behavioral parenting intervention. Presenters will utilize case examples, interactive role plays, and video to engage clinicians in learning skills to intervene with children with ADHD and their parents. The presenters will discuss approaches to target parent factors within behavioral parent training to increase treatment engagement and improve treatment outcomes.

Outline:
- Rationale for addressing parent mental health in Behavioral Parent Training
- Considerations that influence child developmental trajectory and treatment outcome
- Brief review of the Transactional Model of ADHD in Families

Christina Danko, Ph.D., University of Maryland, College Park
Andrea M. Chronis-Tuscano, Ph.D., University of Maryland

Moderate level of familiarity with the material
Primary Category: Parenting / Families
Key Words: ADHD, Parent Training, Evidence-Based Practice
• Review of existing research pertaining to Supporting Caregivers of Children with ADHD: An Integrated Parenting Program
• Overview of the Integrated Parenting Program
• Overview of program content
• Discussion of session structure
• Considerations when using the manual
• Description of selected modules from the Integrated Parenting Program
• Module 2: Special Time and Pleasant Activities
• Practice activity and discussion
• Module 3: Maintaining a Consistent Schedule and Time Management
• Case example
• Module 4: Praise and Positive Thinking
• Video and Role play: Using positive thinking to support effective parenting
• Module 5: Ignoring and Relaxation
• Module 6: Time Out and Privilege Removal
• Role play: Addressing caregiver cognitions and coping skills
• Module 8: Working Effectively with the Schools and Assertiveness
• Module 9: Emotion Coaching
• Video, Practice activity and discussion
• Case example
• Audience Question & Answer

Long-term Goal:
Use CBT strategies to collaboratively address parent mental health concerns that are impacting behavioral parent training with a client’s caregiver.

You will learn:
• Describe 3 reasons why integrating a focus on parent mental health yields optimal benefit of parenting interventions for children with ADHD.
• List principles of cognitive-behavioral therapy and organizational skills training that should be used in behavioral parent training, using a flexible and idiographic approach.
• Use 2 CBT components, such as behavioral activation and cognitive restructuring, with parents to address parent mental health symptoms and support effective parenting.
• Use 3 organizational skills training strategies with parents to support their ability to implement behavioral parent training skills.

Annual Meeting of Members

All ABCT members are encouraged to attend this meeting. Learn about the Association’s progress on our Strategic Intent, our 2021 accomplishments, and our priorities for 2022.

Meet the newest members to the ABCT governance and help thank your colleagues who have contributed so much to ABCT’s success over the past year.

Mini Workshop 14
Mindfulness Techniques for Distress Reduction and Emotion Regulation

Lynn C. Waelde, Ph.D., Palo Alto University
Sarah M. DeLuca, Ph.D., Kaiser Permanente, San Rafael, CA

A variety of techniques are incorporated into CBT for distress reduction, including grounding, safe space imagery, breath-focused attention, and letting go. Although often collectively referred to as mindfulness practices, these techniques reflect diverse strategies for distress reduction and emotion regulation. This workshop will address these four different techniques and examine the evidence for their short- and long-term effects as emotion regulation strategies. Participants will actively engage in this workshop (in recorded or live format) by rating four recorded actor-portrayed clinical vignettes of these techniques according to their perceived immediate effects on distraction, distress, and experiential engagement and long-term effects on self-monitoring, mindfulness, and experiential avoidance. The role of each of these techniques will be discussed with reference to their implementation in CBT and mindfulness-based interventions for the development of flexible emotional regulation skills.
You will learn:
• Identify four different distress reduction techniques and their relations to mindfulness practice.
• Discuss the impact of different forms of distress reduction on distraction, distress, experiential engagement, self-monitoring, and experiential avoidance.
• Describe how to flexibly implement different forms of distress reduction in CBT.

3:15 p.m. – 4:45 p.m.

Mini Workshop 15

Movement, Speed and Flow: A Live, Annotated Demonstration of Dialectical and Stylistic Strategies in Adolescent DBT

Ashley Maliken, Ph.D., University of California San Francisco
Maggie Gorraiz, Ph.D., McClean Hospital & Harvard Medical School
Alison Yaeger, Psy.D., McLean Hospital
Esme A L. Shaller, Ph.D., University of California San Francisco

Moderate level of familiarity with the material
Primary Category: Suicide and Self-Injury
Key Words: Suicide, Adolescents, Treatment

Mental health treatment with multi-problem adolescents requires both adherent execution of evidence-based treatment and delivery of that treatment in a way that is acceptable to the teen – if teens do not engage with treatment, the treatment cannot work. Dialectical behavior therapy (DBT), an efficacious and effective treatment originally designed for the treatment of suicidal and self-injurious behavior in adults (e.g., Linehan et al., 2015), elegantly synthesizes these two goals. First, there is a growing body of literature demonstrating its effectiveness with chronically suicidal and self-harming adolescents (e.g., McCauley et al., 2018), a population for whom to date there are no other evidence-based treatments. Second, adherent delivery of DBT requires the use of specific skills and strategies that represent a departure from how clinicians raised in standard CBT or other therapies were trained. The dialectical strategies and stylistic strategies reflect what the lim-
ited research has told us is important when working with youth – that having a therapist who is nonjudgmental, collaborative and authentic is crucial to alliance and subsequent engagement in treatment (Thompson et al., 2007; Creed & Kendall, 2005). While DBT is a well-known empirically-supported treatment, the nuances of implementation can be difficult for novices to recognize and master, especially in the context of working with adolescents with severe emotion dysregulation, a population that can feel intimidating even to seasoned DBT clinicians. This mini workshop will incorporate three components: didactic teaching, a live role play of an adolescent DBT session, and facilitated discussion with an opportunity for audience questions. During the role play, we will label the different strategies being used by the clinician as they occur in real-time. Having given similar (and very well attended) DBT demonstrations at ABCT in 2018 and 2019, we found students and experienced clinicians alike appear hungry for demonstrations that provide context and clear learning goals. By framing ahead of time and annotating throughout, we hope to deepen the experience of the workshop participant so that they leave confident they could begin to use the dialectical and stylistic strategies immediately.

You will learn:
• Name the 8 DBT dialectical strategies.
• Name the 11 DBT stylistic strategies.
• Accurately identify irreverent strategies used during the role play.

3:15 p.m. – 4:45 p.m.

Earn 1.5 continuing education credits

Mini Workshop 13

Intensive Exposure-based Therapy in Acute Care Settings for Children and Adolescents

Rachel L. Goldman, Ph.D., Weill Cornell Medicine
Abby Bailin, Ph.D., Weill Cornell Medicine
Avital Falk, Ph.D., Weill Cornell Medicine
Jessica Simberlund, M.D., New York-Presbyterian/Weill Cornell Medicine

Basic to Moderate level of familiarity with the material
Primary Category: Child / Adolescent - Anxiety
Key Words: Exposure, Child, Anxiety

Acute care settings, including Partial Hospitalization Programs (PHPs) and inpatient units, often lack specialized, evidence-based psychotherapeutic interventions such as exposure-based therapy. The absence of such interventions may limit the effectiveness of these higher levels of care for youths with anxiety disorders exhibiting significantly impairing symptoms. There is growing evidence that suggests that intensive exposure-based treatment reduces barriers to care and improves treatment outcomes in shorter duration compared to traditional once weekly services. Therefore, adapting an intensive exposure-based approach within an insurance-based acute care setting offers a promising opportunity to increase access to evidence-based services at no additional cost to meet acute care needs for youth with anxiety disorders. This workshop will illustrate how to implement intensive exposure-based services in acute care settings. It will demonstrate the use of intensive cognitive behavioral therapy (CBT) with exposure and Exposure and Response Prevention (ERP) for youth with moderate to severe anxiety disorders. Special focus will be paid to youth-focused and parent-focused interventions delivered in person and in a virtual format. We will provide opportunities for experiential learning with in-vivo modeling and role-plays (e.g., developing a fear hierarchy, implementing ERP in an intensive and group format) to support participant learning. To illustrate this model, we will present case examples and clinical outcomes from the Pediatric OCD, Anxiety, and Tic disorders (POCAT) Program’s OCD treatment track within the insurance-based adolescent PHP at NewYork-Presbyterian Hospital/Weill Cornell Medicine. By implementing CBT and exposure therapy in ways that depart from traditional weekly therapy sessions, the intensive model in acute care settings allows youth and families to benefit from a greater reduction in impairing symptoms over the course of a few weeks. This approach has the potential to be transformative in addressing the significant limitations that patients with anxiety disorders face.

You will learn:
• Develop an intensive exposure-based treatment plan for an acute care setting.
• Develop a fear hierarchy appropriate within an acute care setting.
• Implement exposure therapy for youth with moderate to severe anxiety disorders.
• Identify adjunctive cognitive-behavioral strategies (e.g., mindfulness, cognitive restructuring) to support treatment for youth with anxiety disorders in an acute care setting.
• Identify evidence-based practices within an intensive exposure-based model.

Moving from Awareness to Action: Building an Intentionally Anti-racist Clinical Training Program in an Academic Medical Center

**Moderator:** Courtney A. Smith, Ph.D., University of Louisville School of Medicine

**Panelists:** Kristie V. Schultz, Ph.D., University of Louisville School of Medicine
Jennifer F. Le, M.D., University of Louisville School of Medicine
Kelly E. Slaughter, M.S., University of Louisville School of Medicine

Primary Category: Culture / Ethnicity / Race

Key Words: Training / Training Directors, Instructional models, Race

In response to racial trauma and the cultural climate in Louisville, Kentucky, the University of Louisville has made a commitment to become a “premier anti-racist metropolitan research university,” to include building intentionally anti-racist curriculums across disciplines. While many national organizations are encouraging the further integration of diversity training and awareness into education and clinical practice, psychologists and psychiatrists are left without a blueprint for accomplishing this very complex, yet ethically imperative, task. At the University of Louisville School of Medicine, we are uniquely positioned within the Department of Pediatrics to provide collaborative, integrated training to psychology interns and psychiatry fellows within the Division of Child and Adolescent Psychiatry and Psychology, creating a rich environment for bidirectional learning. With contributions from divisional leadership, psychology and psychiatry training directors, and a current psychology trainee, initial discussions will focus on emerging training curriculums used within our university and state, as well as importance for inclusion of both faculty and trainees. Next, we will engage in a more in-depth discussion of didactic and experiential learning for trainees through the lens of cultural humility, including providing evidence-based care to diverse populations and applying Cognitive Behavioral Therapy to address internalized racism and prejudice reduction with
patients and families. We will then discuss additional learning opportunities, such as in-vivo experiences, small group processing, and engagement with community partners. Finally, we will discuss barriers to implementation and opportunities for others to incorporate anti-racist curriculums into their own academic environments.

Panel Discussion 30

Towards Creating an Inclusive, Equitable, and Culturally Responsive Clinical Environment for Doctoral Trainees of Color

Moderator: Alexandria N. Miller, M.S., Suffolk University
Panelists: Jessica LoPresti, Ph.D., Suffolk University
Jennifer Martinez, Ph.D., Northwestern University
Feinberg School of Medicine
Christian N. Adames, M.A., Columbia University
Lauren Toben, Ph.D., Miami University
Jamilah R. George, M.S., University of Connecticut
Anu Asnaani, Ph.D., University of Utah

Primary Category: Student Issues
Key Words: Student Issues, Supervision, Training / Training Directors

Students from underrepresented racial and ethnic minority groups (URM) are enrolling in doctoral programs at increasing rates, yet their average time to completion of doctoral degree requirements is longer, and attrition higher, than their White peers. Exposure to racial stressors and microaggressions in predominately White doctoral programs can reduce URM students’ sense of belonging, impair psychosocial functioning, and interfere with academic performance (Miller & Orsillo, 2020; Clark et al., 2012). Unfortunately, clinical training sites are not immune from these types of racial stressors; graduate students of color often report microaggressions and racism perpetrated by supervisors, team members, and clients. Systemic changes are needed to correct injustices and provide access and opportunity to students of color.
This panel brings together graduate students, faculty, and clinical supervisors to share personal and professional experiences, and to brainstorm ways to address the inequities faced by URM students within psychology training sites. Based on audience questions and comments, panelists will share practical suggestions for how psychology programs and clinical training sites can move forward.

Panelists will (1) share their experiences in clinical supervisory relationships with, or as, students of color, (2) explore a supervisor’s role in creating a safe, welcoming environment and interrupting racism within the clinical site, and (3) provide practical suggestions about how psychology graduate programs can be more involved in assessing and monitoring clinical training sites to ensure URM students can thrive.

Questions and comments will be solicited from the audience to foster a collaborative approach to navigating these barriers.

5:00 p.m. – 6:30 p.m.

Panel Discussion 29

Stepping out on Your Own and into the Community: Launching a Community-engaged Research Program

**Moderator:** Blanche Wright, M.A., University of California Los Angeles

**Panelists:** Miya Barnett, Ph.D., University of California Santa Barbara

Kelsie H. Okamura, Ph.D., Hawaii Pacific University

Maya M. Boustani, Ph.D., Loma Linda University

Davienne Lakind, Ph.D., Mercer University

Alayna Park, Ph.D., Palo Alto University

Primary Category: Dissemination & Implementation Science

Key Words: Community-Based, Implementation, Professional Development

One of the greatest challenges facing the mental health field is the gap between clinical science and practice. Community-academic partnerships offer a valuable avenue for bridging this gap and enhancing the accessibility, effectiveness, and sustainability of evidence-based psychotherapy practices (EBPs) in the community. Yet, it can be difficult for students, early-career professionals, or researchers transitioning into community-engaged research to figure out where to start. Additionally, navigating the time-intensive process of building an community-academic partnership in a system that rewards research productivity can prove challenging. The goal of this panel is to provide a forum for discussion on launching a career as a community-engaged researcher. Panelists will: (1) share their experiences initiating partnerships with various community stakeholders while developing independent research programs; (2) present examples of their community-engaged research, including their collaborative process of identifying and refining ideas; and (3) discuss lessons they have learned conducting community-engaged research, as well as strategies for cultivating mutually beneficial community-academic partnerships. Panelists bring experience partnering with a variety of organizations and stakeholders including: government agencies, community- and school-based mental health agencies, juvenile drug courts, community health workers, schools, afterschool programs, public libraries, and community centers. Their community-academic partnerships have sought to enhance access to behavioral health resources for historically underserved youth and families, widely
disseminate EBPs, evaluate and improve the quality of existing mental health services, and increase organizational capacity to meet the mental health needs of local communities. Directly aligned with the convention theme of promoting cognitive behavioral science and practice, attendees will gain ideas and considerations for building a productive and impactful program of community-engaged research.

Panel Discussion 31

How to Translate Mental Health Research into Policy: A Discussion with International Policy Advocates

MODERATOR: Margaret Crane, M.A., Department of Psychology, Temple University

PANELISTS: Lynn F. Bufka, Ph.D., American Psychological Association
Matthew Sanders, Ph.D., School of Psychology, The University of Queensland
Roz Shafran, Ph.D., University College London, Great Ormond Street Institute of Child Health
Sarah Walker, Ph.D., Department of Psychiatry and Behavioral Science, University of Washington School of Medicine
Casey Trupin, Raikes Foundation
Jonathan Purtle, D.Phil., Department of Health Management & Policy, Dornsife School of Public Health

Primary Category: Dissemination & Implementation Science

Key Words: Public Policy, Dissemination, Implementation

Despite advancements in dissemination and implementation science, few youth receive evidence-based treatments in community settings. Policy that promotes evidence-based treatments and mental health funding more broadly can help improve youth mental health services. Unfortunately, evidence about mental health treatments often does not weigh heavily in policy-making processes, especially in legislative branches of government. Dissemination research investigates strategies to increase the distribution of evidence-based information to the public, including policy makers. However, it is unclear whether dissemination research is relevant to stakeholders involved in policy advocacy. Our panel will bring together five experts involved in policy advocacy: Sarah Walker (Washington state policy), Casey Trupin (Washington state and American national policy through philanthropy), Lynn Bufka (American national policy through the American Psychological Association), Matthew Sanders (Australian national policy through the Parent and Family Research Alliance), and Roz Shafran (Improving Access to Psychological Therapies in the United Kingdom). These experts are involved in state and national policy through universities, professional groups, and foundations. Jonathan Purtle (Drexel University) also will provide insights about dissemination strategies for policymakers from a research perspective. We will discuss what information policy advocates want to receive
about evidence-based interventions, how they would prefer to have that information presented, and other reflections about how research can be more applicable to policymakers. Further, we will review strategies that researchers and practitioners can use when engaging with policymakers. By bringing together perspectives from individuals involved with policy making, we hope to increase the relevance of dissemination and clinical research for policy advocates.

Mini Workshop 18

Screens, School, and Suicidality: Borrowing Strategies from Acute Care Settings to Help Parents of Anxious Teens Avoid Landmines

Arielle Claire V. Linsky, Ph.D., Weill Cornell Medicine
Paul Sullivan, Ph.D., New York University Langone Medical Center/Bellevue Hospital Center
Stephanie N. Rohrig, Ph.D., Weill Cornell Medicine/NewYork-Presbyterian Hospital
Angela W. Chiu, Ph.D., Weill Cornell Medicine / New York Presbyterian Hospital

Moderate level of familiarity with the material
Primary Category: Child / Adolescent - Anxiety
Key Words: Parent Training, Anxiety, Suicide

We know how to treat youth anxiety and related disorders in the best of circumstances: evidence-based treatments using cognitive behavioral interventions in family-based formats abound. Yet, many clinicians can feel lost when circumstances change. Few treatment protocols offer explicit guidance for providers to navigate issues such as the onset of physical aggression, defiance, suicidality and other safety concerns that frequently emerge, particularly when limits are set around school and screen time, and often derail treatment. In other words, how do we support families of teens when crises arise, when
the house is, metaphorically, on fire, and the standard treatment does not suffice? In this mini-workshop, four clinicians experienced in implementing EBTs for anxiety aim to answer this question. Drawing from our collective expertise building parenting programming in inpatient and partial hospital programs, we will present frequently implemented parenting strategies for crisis management. Aligned with the conference theme, we aim to leverage cognitive-behavioral therapy tools from acute care settings to address increases in symptom acuity and prevent the need for higher levels of care. Specifically, we will introduce attendees to four key strategies: 1. The 6-Point Safety Plan, adapted from the SAFETY program (Asarnow, Berk, Hughes, & Anderson, 2015), fosters communication between family members around how to manage suicidality risk. 2. The Escalation Curve, inspired by literature illustrating the relationship between parental emotion dysregulation and poor treatment outcomes (i.e. Maliken & Katz, 2013) and derived from Parent Management Training principles, coaches parents to effectively ride the wave when their teen’s emotions and behavior escalates. 3. Empathize and Encourage helps parents to decrease parental accommodation, increase teen’s self-esteem, and encourage positive action. 4. Parent Coping addresses a parent’s tendency to resort to more avoidant forms of coping (Craig et al., 2020) during a crisis by outlining a plan to refuel and recharge. Attendees will have the opportunity to practice each of these strategies and to discuss implementation approaches relevant to their treatment setting.

You will learn:
• Develop collaborative safety plans to foster communication between parents and teens about suicidal risk using the 6-Point Safety Plan.
• Support parents in managing their adolescent’s emotional and behavioral escalations using the Escalation Curve tool.
• Teach parents to validate and model confidence in their teen using the Empathize and Encourage strategies.
• Provide guidance and specific strategies for parents to increase their coping skills using the Parent Coping strategy.

Spotlight Research 2

Early Phases of the Acceptance Based Coping (ABaCo) Skills Program: A Community Health Worker-delivered Intervention for Hispanic/latinx Patients with Type 2 Diabetes

Primary Category: Health Psychology / Behavioral Medicine - Adult
Key Words: Underserved Populations, ACT (Acceptance & Commitment Therapy), Implementation

Rates of type 2 diabetes (T2DM) are disproportionately high among Hispanic/Latinx people in the U.S. (ADA, 2016) and access to appropriate healthcare is challenging (Cusi & Ocampo, 2012). Research suggests participation in low-intensity versions of Acceptance and Commitment Therapy (ACT) is associated with improved diabetes self-management and biomarkers (e.g., Gregg et al., 2007), but ACT is most often delivered by specialists, further compounding accessibility barriers. However, an established method for expanding care to underserved populations is task-shifting, whereby non-specialists deliver evidence-based interventions (Barnett et al., 2018). Community health workers (also known as promotores; CHW/Ps) can expand the reach of brief behavioral interventions such as ACT while addressing social determinants of health, potentially advancing health equity.

Following Replicating Effective Programs, a structured, evidence-based strategy for intervention tailoring (Kilbourne et al., 2007), our study is developing a scalable CHW/P-delivered Acceptance Based Coping (ABaCo) skills program to improve glycemic control and quality of life for Hispanic/Latinx patients with T2DM. For 7 months, we have partnered with a virtual CHW/P Translational Advisory Board in culturally/contextually tailoring the ABaCo program, and are about to interview patients in our target population. Be-
ta-testing of the ABaCo program will begin in 2 months, providing preliminary data by November.

We will present an overview of early study phases, including collaborative adaptations in tailoring brief ACT interventions (i.e., Focused ACT) so that it is feasible and acceptable for delivery by CHW/Ps. We will also review preliminary data, lessons learned, and next steps in this telephone-based, task-shifted intervention. This line of research could bridge a critical care gap and provide access to an evidence-based and culturally appropriate T2DM intervention, thus helping address a major health disparity in Hispanic/Latinx communities.

You will learn:
- Discuss the health disparity of type 2 diabetes in Hispanic/Latinx communities in the US
- Explain how task-shifting can increase dissemination of evidence-based psychological interventions
- Identify components of the Acceptance Based Coping (ABaCo) skills program
- Identify primary steps involved in Replicating Effective Programs (REP), a structured, evidence-based strategy for intervention tailoring
- Discuss potential benefits of task-shifting ACT for underserved communities

Panel Discussion 34

One Community at a Time: Trainee-led Activism That Harnesses Evidence-based Approaches in Partnering with Community Organizations for Positive Social Change

Moderator: Laura G. McKee, Ph.D., University of Georgia

Panelists:
- Nada M. Goodrum, Ph.D., Medical University of South Carolina
- Meghan S. Goyer, M.A., Georgia State University
- April Highlander, M.A., University of North Carolina at Chapel Hill
- Sarah E. Moran, B.A., Georgia State University
- Jacqueline O. Moses, M.S., University of California, San Francisco
- Ifrah Sheikh, M.S., Georgia State University

Primary Category: Dissemination & Implementation Science
Key Words: Community-Based, Student Issues, Underserved Populations

Student activism is almost as old as the university, itself, and has changed the course of social, political, environmental, educational, and economic history. Despite APA’s unfortunate history of prioritizing neutrality over social justice (Payton, 1984), student trainees in psychology have worked in and outside the institution via identity-based activism, advocating for decolonized classrooms and against racial injustice. Likewise, student members of ABCT in training programs across the country have been harnessing evidence-based training in research and practice to partner with communities for social change. This panel highlights the work of 6 trainee psychologist-activists, the partnerships they have brokered and the initiatives led across contexts. Panelists will: 1) discuss principles of community psychology woven into clinical training that forge partnerships, 2) provide evidence-based strategies for engaging in social justice work, 3) share successes and challenges of leading initiatives with community partners, 4) consider the overlap of personal, political and psychological landscapes, and 4) discuss next steps in trainee activism. Nada Goodrum describes partnering with a church community to provide psychoeducation, connect church members with evidence-based mental health services, and provide assistance for counseling-related expenses. Meghan Goyer discusses partnering with urban neighborhood units to reduce stigma around mental health in African American communities. April Highlander shares her work collaborating with faculty and administration to diversify psychology and increase representation. Sarah Moran reviews her approach to assessing school-based social/emotional outcomes for children experiencing homelessness via comprehensive research review, stakeholder interviews, and logic models. Jacqueline Moses describes her work supporting youth workforce to infuse mental health tools into everyday routines in juvenile detention facilities and afterschool programs. Ifrah Sheikh discusses her research efforts and involvement with the Muslim Mental Health Initiative.
of Atlanta, a community organization that uses dialogue, education, research, and training to increase access to mental health care.

Khashayar Farhadi Langroudi, Psy.D., American Psychological Association
Panel Discussion 32

Bringing Evidence-based Practices to the Community: An Implementation Science Approach

**Moderator:** Erica A. Mitchell, Ph.D., The University of Tennessee, Knoxville

**Panelists:**
- Kristina Gordon, Ph.D., University of Tennessee, Knoxville
- Timothy A. Cavell, Ph.D., University of Arkansas
- Erika Lawrence, Ph.D., The Family Institute at Northwestern University
- Michael A. Southam-Gerow, Ph.D., Virginia Commonwealth University

Primary Category: Dissemination & Implementation Science

Key Words: Implementation, Community-Based, Evidence-Based Practice

Implementation science aims to translate evidence-based practices developed in controlled settings, such as a university laboratory, into real-world settings, such as a community agency (Aldridge et al., 2016). This model allows researchers to adapt evidence-based practices to better meet the needs of specific populations and promotes social justice by making effective programs more accessible to marginalized groups. The proposed panel brings together family researchers and implementation science experts to discuss their experiences using implementation science principles to disseminate evidence-based practices to create meaningful change across diverse communities. Initially, members of the panel will describe the principles of implementation science. Next, members of the panel will describe their own research using the principles of implementation science, highlighting both the shared and unique aspects of their work. Dr. Timothy Cavell will present on utilizing a community-based participatory research framework to promote the involvement of low-income parents in connecting their children with mentors in the community. Dr. Kristina Coop Gordon will present on the application of implementation science principles to strengthen university-church partnerships to deliver evidence-based relationship education programs to underserved couples in the community. Dr. Erika Lawrence will present on the application of implementation/effectiveness hybrid models to reduce intimate partner violence in Department of Corrections settings. Dr. Michael Southam-Gerow will present the mental health services ecological model, which contends that interventions should be developed in consideration of diverse stakeholders, including individual, family, and system levels. Dr. Southam-Gerow will describe how existing behavioral health interventions for children and families with unmet need can be designed, modified, or adapted with these levels in mind. Members of the panel will also reflect on the difficulties that they have experienced with translating evidence-based practices into community settings and the lessons that they have learned through their research.
Panel Discussion 35

Money Makes the World Go Round: Creating and Implementing Equitable Policies Within Your CBT Practice

**Moderator:** Alexandria N. Miller, M.S., Suffolk University

**Panelists:** Jeffrey M. Cohen, Psy.D., Columbia University  
Kevin Chapman, Ph.D., The Kentucky Center for Anxiety and Related Disorders  
Lauren P. Wadsworth, Ph.D., Genesee Valley Psychology  
Monica Shah, Psy.D., Center for Anxiety  
Colleen C. Cullen, Psy.D., Columbia University Medical Center

*Primary Category: Culture / Ethnicity / Race*

*Key Words: CBT, Professional Issues, Therapeutic Relationship*

Managed care reimbursements for mental health services in the US may not be high enough for a clinician to earn a livable wage; a recent analysis of reimbursement rates found psychological services are reimbursed at just $0.83 for every $1 primary care services are reimbursed (Melek et al., 2017). Clinicians who do participate in managed care plans report obtaining payment from insurance companies to be difficult and time consuming (e.g., Gasquoine, 2010, NAMI, 2016). Given these realities, many mental health providers do not participate.

One in four patients don’t have an in-network mental health provider (NAMI, 2016) and patients often try low-cost, non-evidence-based therapies before turning to costlier, evidence-based interventions (Lawrence, 2020). As a result, many who receive mental health care end up paying out of pocket for evidence-based treatments. A fee-for-service model means those who can afford the fees often come from higher Socio-Economic Status (SES), privileged statuses. Thus, BIPOC clinicians offering evidence-based treatments are likely to provide care to highly privileged clients. Highly privileged clients (e.g., White, high SES) can bring challenges to the therapeutic relationship, especially for clinicians with minoritized identities. What happens when a client makes racist, heterosexist, or transphobic remarks in therapy? How much autonomy do clinicians have to terminate with clients who make these comments? What policies could a clinic have in place to address clients who make derogatory remarks about people with minoritized identities?

Additionally, some clinics designate clients as a “Very Important Person” (VIP) based on specific identities (i.e., celebrity status, politically powerful; Davies, 2016). VIP status implies that person should be treated preferentially (i.e., skip the waitlist, receive more attention/care). If some clients receive preferential care, how does this impact the care of less privileged clients within a clinic? What policies and procedures can a clinic with “VIP” patients put in place to ensure all patients receive equitable care?

Panelists will focus on how capitalist society creates systems within our field that are inequitable and how they can be adapted through a social justice lens.

Research & Professional Development 3

Developing an Evidence-based Specialization and Private Practice: Practical Tools and Insights into Building and Growing a Private Practice from Masters’ Level Clinicians

**Panelists:**
- Loren E. Prado, Center for Dialectical and Cognitive Behavioral Therapies
- Sarah Nadeau, MFT, Private Practice & San Jose State University
- Kelly Turner, LCSW, Tampa Bay DBT Counseling Center

Basic to Moderate level of familiarity with the material

Primary Category: Professional / Interprofessional Issues

Key Words: Professional Development, Evidence-Based Practice, Implementation

The primary goal of this Research and Professional Development seminar is to help licensed clinicians establish, develop, and maintain a successful private practice by discussing the challenges and steps required for running an adherent, evidence-based practice. This workshop is designed to help those who aspire to open a private practice as well as those who are currently in private practice and may want to refine and grow their business. In a Masters’ program in graduate school, instruction is broad and students rarely work to develop a specialty; that work is done after graduation. Realistically, graduation is not the end, but the first step, of training. There is not a blueprint for how to develop a specialty; graduates who wish to pursue private practice in evidence-based care must seek relevant post-graduate training and certification, seek supervision within their specialty, and learn to run and manage a business. It can be difficult to find resources or know what questions to ask to get started. The workshop is designed to be very engaging, with a combination of teaching, personal reflection, hands-on collaborative assignments, and discussion. Attendees will explore their own vision and plan for opening or developing their private practice. Presenters will discuss different models of pursuing an evidence-based private practice career and share lessons learned along the way. Three Master’s level clinicians who own different types of private practices and with different roads to developing their specialties and practices will facilitate this workshop. Each panelist brings a depth of knowledge from diverse frames of experience, including research, single and multi-member practices, app development, and teaching as well as a variety of specialties.

You will learn:
- Identify their own practice values and develop or refine the scope and mission for their practice.
• Learn practical steps for creating both development and adherence plans for their evidence-based private practices.
• Learn insights from current private practice owners on maintaining a healthy team and managing things we did not study in school, like hiring and firing, marketing, and managing a business.
• Develop an action plan for further growth of each participant’s own private practice.

6:45 p.m. – 8:15 p.m.

Earn 1.5 continuing education credits

Panel Discussion 33

Developing Culturally Inclusive Digital Tools in Partnership with Stakeholders to Promote Emotional Well-being in Children and Youth

Moderators: Angela W. Chiu, Ph.D., Weill Cornell Medicine / New York Presbyterian Hospital
Jennifer Kaminski, Ph.D., Centers for Disease Control and Prevention

Panelists: Angela W. Chiu, Ph.D., Weill Cornell Medicine / New York Presbyterian Hospital
Ricardo F. Munoz, Ph.D., Palo Alto University
Nicole F. Kahn, Ph.D., Seattle Children’s Hospital
Kimberly Hoagwood, Ph.D., New York University School of Medicine
Sonya Mathies Dinizulu, Ph.D., University of Chicago Medicine

Primary Category: System Stakeholder Issues
Key Words: Stress, Stakeholder Relevant, Public Health

The impacts of COVID-19 are broad and include increased anxiety, stress and depression in the general population. Children and adolescents, though typically resilient to everyday stressors, are especially vulnerable to anxiety and depression during this crisis. In addition to the impact on the broader population of children and youth, pandemic-related stress could trigger the onset of anxiety and depression for those who are at elevated risk. Thus, the disproportionate impact of COVID-19 on Black, Latinx, and American Indian communities is likely to exacerbate existing mental health disparities in children and youth from these communities.

The National Academies of Sciences, Engineering, and Medicine (NASEM), with funding from the CDC, convened an expert panel to develop a suite of free tools focused on building cognitive behavioral skills for coping with anxiety, stress and depressive symptoms among children and youth. Drawing from the evidence base on treatments for youth, the experts developed graphic-novel style educational materials and web-based micro-learnings centered on therapeutic strategies. These tools, available in English and
Spanish, teach belly breathing, mindfulness, increasing pleasant activities, and navigating negative thinking traps.

Although the COVID-19 pandemic was the key motivator behind this project, the group of experts took care to create evergreen tools. The materials depict stories that children and youth may cope with every day, such as transitioning to a new school or feeling lonely.

The panel – including members from the team of experts and representatives from the CDC and NASEM – will describe how the project was conceived and how the cooperation of academic scientists, practicing clinical psychologists, stakeholders, and family advocates resulted in the creation of products that are grounded in the evidence base, inclusive and representative of today’s children and youth. Panelists will discuss the decision-making process with respect to use of gender-neutral language, identity and cultural representation in the materials, adaptation for Spanish speakers, and dissemination to a wide audience. Panelists will discuss how future projects can learn from these lessons.

Covid Crises and CBT: Mobilizing Cognitive Behavioral Interventions to Meet the Psychological Needs of Hospital Patients, Staff, and Health Workers During COVID-19

Moderator: Andrea B. Temkin, Psy.D., Weill Cornell Medicine
Panelists: Shannon M. Bennett, Ph.D., Weill Cornell Medicine
JoAnn Difede, Ph.D., Weill Cornell Medicine
Corinne Catarozoli, Ph.D., Weill Cornell Medicine
Victoria M. Wilkins, Ph.D., Weill Cornell Medicine/New York-Presbyterian Hospital
Abhishek Jaywant, Ph.D., Weill Cornell Medicine
Dora Kanellopoulos, Ph.D., Weill Cornell Medicine

Primary Category: Treatment - CBT
Key Words: CBT, Treatment/Program Design, Health Care System

The COVID-19 pandemic created huge global challenges, including sickness and loss of life, disruptions to school, work, and home life, and an overwhelming sense of uncertainty about the future. The impact of the pandemic has been disproportionately worse for socioeconomically disadvantaged populations, for whom additional stressors (e.g., limited access to health care, food and housing insecurity) have compounded already negative outcomes. The weight of these realities has had a devastating impact on mental health. Grief, stress, and lack of social support are felt by many. Patients recovering from COVID must cope with the aftermath of isolating hospital stays, medical interventions, and long-term health implications. Health care workers are battling the emotional consequences of caring for a surge of sick patients without adequate resources. Mental health clinicians are feeling burnt out trying to manage the growing psychological needs of the public. The aim of this clinical round table is to explore how one large New-York based hospital system responded to the heightened needs of its community during the COVID crisis. Specifically, panelists will outline the cognitive behaviorally-based programs that were rapidly enacted to mitigate the mental health consequences of the pandemic for hospital patients, staff, faculty. Panelists will also discuss specific strategies used to meet the needs of the mental health clinicians delivering psychological care. Among the programs discussed will be two free virtual crisis helplines. The first offers brief psychological first aid for frontline workers while the second provides short-term support and skill building for youth and their families who are receiving hospital care. Presenters will also introduce a model for a psychiatry liaison program that supported medical staff on their units, building social support and community throughout the crisis. Panelists will further discuss a number of COVID rehab programs created to help patients manage the neurocognitive and emotional effects of COVID-19. Discussion will focus on ways CBT helped meet public health needs, as well as patient and provider experiences, and lessons learned from this trying time. Some outcome data from these programs will also be shared.
Symposium 108

Cognitive Behavioral Couple Focused Interventions to Prevent Suicide

Chair: Feea Leifker, M.P.H., Ph.D., University of Utah
Discussant: Brian R. Baucom, Ph.D., University of Utah

Basic to Moderate level of familiarity with the material
Primary Category: Suicide and Self-Injury
Key Words: Couples / Close Relationships, Suicide, Treatment Development

Development and Evaluation of Treatment for Relationships and Safety Together (TR&ST), a Novel Couple-based Suicide Intervention for Veteran Couples
Chandra E. Khalifian, Ph.D., VA San Diego Healthcare System/University of California, San Diego

Special Session

Saturday Night Virtual Party

While we can’t be together in person during this year’s annual convention, we can relive past years’ fun!

Registered convention attendees will be sent an email invitation to our Saturday night virtual party scheduled for November 20th from 8:30-10:30 PM EST. The event will be hosted through Remo and will include music, the slideshow, and most importantly an opportunity to connect socially in small groups with fellow convention attendees. Be sure to check out this tutorial on registering and joining live events through Remo. We hope to see you there!
Sunday, November 21

Translating Psychological Science for Public Action: Lessons, Assumptions and Moving Forward

10:30 a.m. – 11:30 a.m.
Earn 1 continuing education credit

Lynn F. Bufka, Ph.D., Senior Director, Practice Transformation and Quality, American Psychological Association

Lynn F. Bufka, Ph.D., is Senior Director, Practice Transformation and Quality, at the American Psychological Association. The Practice Transformation and Quality Department focuses on the development and implementation of programs and policies related to supporting and expanding opportunities for professional psychology. Current areas of emphasis are evidence-based practice, clinical practice guideline development and defining the direction of the future of psychology education and practice. Dr. Bufka is an advocate for science to support practice and practice-based evidence to inform research and policy. Dr. Bufka frequently serves as a media spokesperson for APA on these topics as well as clinical topics, stress, telepsychology and other policy matters relevant to professional practice. Prior to coming to APA, she was affiliated with Boston University and the Center for Anxiety and Related Disorders (CARD) (1996-2002), serving as Associate
Director of the doctoral clinical training program and Director of Practica Training at CARD. Additionally, Dr. Bufka is a Maryland licensed psychologist and continues to provide treatment and clinical consultation on a limited basis. Dr. Bufka received her PhD in psychology from Boston University. She is a Fellow of APA’s Division 12 (Society of Clinical Psychology) and a Fellow of the Association for Behavioral and Cognitive Therapies.

Primary Category: Improved Use of Research Evidence, Health Care System/ Public Policy, Dissemination and Implementation Science

Key Words: Dissemination, Public Policy, Evidence-Based Practice

Many of us started graduate school with a desire to ‘do good’ and a fascination for our discipline and the science. Upon graduation, we often follow one of two paths- we deliver great services or we develop an area of research. Both paths are important- society needs talented providers of behavioral health services and at the same time, many pressing questions can be addressed by psychological science. Yet, too often, our science is used primarily within psychology and never makes it out of our circles. Societal challenges could be significantly informed by psychological science yet a disconnect exists between what the science can tell us and the decisions that are made. We need to find and create opportunities to engage and educate the public and decision makers. To be successful in this domain, several key communication lessons need to be applied. Additionally, assumptions need to be questioned in order to identify missing knowledge and appropriately address pressing societal problems. Finally, clear priorities can help us to focus our message and effectively address significant societal challenges.

Long Term Goals:
• Attendees will understand the critical need to clearly communicate and present the science undergirding their practice and research in order to advance quality, equity, and access.
• Attendees will take up the mantle of speaking to public audiences from a scientific base regarding their areas of expertise.

Outline:
• Importance of owning our expertise and effectively communicating it.
  • Little ‘e’ expert relative to big ‘E’ Expert
  • Caution and nuance pitted against pressing needs
• Outline several significant societal issues whose solutions will benefit from psychological knowledge.
  • Primary anchor: Behavioral health problems and population health
• Present several communication lessons and relevance to this audience.
  • Language use
  • Audience needs and expectations
  • Policy makers in politicized discourse
• Describe gaps in research and assumptions that need to be questioned to truly address matters of quality, equity, and access.
  • Needs regarding different populations
  • Transparency and rigor in research
  • Challenges in fitting current research into current healthcare system problems
  • Little research on length of treatment session, for instance

You will learn:
• Summarize several strategies to effectively communicate science to the public.
• Describe two assumptions that interfere with science effectively being used to address societal challenges.
• Explain how knowledge of psychological science can advance quality, equity, and access in behavioral health services.

The New Normal: Coping with Uncertainty and Mitigating Anxiety in an Age of “unprecedented” Local, National, and Global Challenges and Crises

Rochelle I. Frank, Ph.D., University of California, Berkeley & The Wright Institute
Joan Davidson, Ph.D., San Francisco Bay Area Center for Cognitive Therapy

Basic level of familiarity with the material
Primary Category: Adult Anxiety
Key Words: Anxiety, Change Process / Mechanisms, Global Mental Health

Daily reports of unprecedented events that reduce our sense of predictability and safety in the world continue, with no protocol to navigate such challenging times. Pandemic-related stressors such as social distancing and isolation and the overwhelming uncertainty of daily life yielded a surge of mental health problems across the globe (Smith, Twohy, & Smith, 2020). The pandemic also has highlighted disparities in healthcare systems for people of color, thereby placing them at heightened risk for physical and emotional problems (Fortuna et al., 2020). Environmental disasters repeatedly set new records and threaten lives, homes, and businesses, while political events and racial injustices spark national polarization and social unrest. As the crises persist, with staggering loss of life, so do uncertainties about health, finances, work, education, and childcare. Coping with such uncertain times includes decreasing catastrophic thinking, creating daily routines, and utilizing technology to decrease social isolation. Identifying vulnerabilities (e.g., negative problem orientation, intolerance of uncertainty, distress intolerance) can shed light on clients’ response to stressors and guide clinicians in helping clients cope with pervasive uncertainty (Frank & McKay, 2020). This workshop will demonstrate how to identify individual differences in coping by assessing the psychological processes driving and maintaining those patterns, and how to help clients improve their ability to deal with global challenges in living. Individualized formulations (e.g., help with organization and time management for clients with executive functioning deficits struggling to work from home and oversee children’s remote learning; implement cognitive restructuring and behavioral experiments for clients with a negative problem orientation who believe they’re incapable of solving current challenges) will guide treatment, including how to help people of color cope with disparities in healthcare delivery, social injustices, and race-related trauma. Clinicians’ own vulnerabilities will be addressed to improve how we cope with unrelenting crises and uncertainties to stay emotionally resilient and effective with clients.
You will learn:
• Identify key psychological processes driving crisis-related anxiety, depression, post-traumatic stress, and related functional difficulties.
• Identify problematic coping and implement effective strategies to reduce client-specific vulnerabilities and increase emotional resilience.
• Improve coping with real-life stressors for people of color and other clients facing high-risk situations.
• Implement self-care strategies to reduce vulnerabilities and improve clinicians’ coping and therapeutic effectiveness.

Panel Discussion 36
Maximizing the Societal Value of CBT: How Economic Evaluations Can Improve the Implementation and Dissemination of Cognitive and Behavioral Therapies

Moderators: Corinne N. Kacmarek, M.A., American University
Akash Wasil, M.A., University of Pennsylvania

Panelists: Zuleyha Cidav, Ph.D., University of Pennsylvania
Alex R. Dopp, Ph.D., RAND
Alessandro S. De Nadai, Ph.D., Texas State University
Brian T. Yates, Ph.D., American University

Primary Category: Dissemination & Implementation Science
Key Words: Service Delivery, Dissemination, Implementation

Although cognitive behavioral therapies (CBTs) are gold-standard treatments for a variety of mental health problems, the dissemination of CBTs has been limited. One major barrier is the cost of CBTs: providers and patients cite resource constraints as a major barrier to providing and accessing CBTs. Delivery systems, including the vehicle (e.g., internet, trained provider) and setting (e.g., school, outpatient clinic), can affect the cost and dissemination of CBTs. Additional research on the costs, effectiveness, and implementation of scalable CBT delivery systems is needed to guide the optimal investment of limited resources. Economic evaluations of CBT interventions, which address cost- and
resource-related implementation needs, can be useful in identifying and disseminating high-value treatments. This panel aims to describe a variety of economic evaluation methods, highlight findings from economic evaluations of diverse CBT delivery systems, and illustrate how economic evaluations can improve the implementation and dissemination of CBT interventions.

Panelists were chosen to present their diverse experiences using economic evaluation methods in pursuit of a shared goal: to inform the implementation of evidence-based CBTs that produce the greatest benefits to clients using the fewest resources. Initial discussions will define various evaluation inputs such as costs and resources, as well as outcomes, such as monetary benefits and cost-effectiveness. Next, panelists will share examples of economic evaluations for weight-loss, alcohol use disorder, youth behavior problems, traumatic stress, and school-based interventions. Panelists will highlight the consequences of excluding costs from CBT research: such treatments will remain inaccessible to many of the patients and systems that could most benefit from them. Panelists will also provide recommendations for how to develop the capacity to conduct economic evaluations in CBT research through training opportunities, community partnerships, and transdisciplinary team science. Within these conversations, panelists will describe common pitfalls that occur when conducting economic evaluations, along with lessons learned.

Clinical Round Table 16

Challenges and Opportunities in Promoting Cognitive Behavioral Therapies for Social Anxiety Disorder

**Moderator:** Daniel Chazin, Ph.D., Center for Anxiety, OCD, and Cognitive Behavioral Therapy & National Social Anxiety Center Philadelphia Clinic

**Panelists:**
- David M. Clark, D. Phil., University of Oxford
- Richard G. Heimberg, Ph.D., Temple University
- Torrey A. Creed, Ph.D., University of Pennsylvania
- Stefan G. Hofmann, Ph.D., Boston University
- Anu Asnaani, Ph.D., University of Utah

Primary Category: Adult Anxiety

Key Words: Social Anxiety, CBT, Implementation

The last decade has seen significant advancements in knowledge about social anxiety disorder (SAD) and exposure-based cognitive-behavioral therapies. These therapies are now widely recognized as the gold-standard SAD treatments. Yet multiple CBT approaches have proven efficacious for SAD, and they vary in their treatment targets, structure, and methods. Moreover, some uncertainty and differences of opinion still surround important questions, including how best to apply these treatments when working with diverse populations and how to promote their use within healthcare systems.

This clinical roundtable will offer the unique opportunity to hear from preeminent experts in social anxiety and implementation as they discuss the nuances of existing treatment approaches and key advancements in the field. Discussion will begin by considering lingering questions regarding appropriate treatment targets and strategies. Panelists will offer their perspectives regarding issues such as the proper use and objectives of exposures or behavioral experiments (and relevance of hierarchies, SUDS ratings, habituation, and fearful predictions to this work); “social mishap” or “decatastrophizing” experiments; how and when to use cognitive restructuring; and treatment innovations relating to goal-setting, safety behaviors, attention training, video feedback, core beliefs, and work with families. They will also address various challenges in this work and multicultural considerations in working with minority and marginalized group members (including BIPOC and LGBTQ patients). Finally, panelists will discuss challenges related to training and promoting use of these treatments in public health and private practice settings.

Specifically, the panelists and moderator include: the three developers of the leading evidence-based treatments for social anxiety (Drs. Heimberg, Clark, and Hofmann), a community-based researcher examining social anxiety outcomes in diverse populations (Dr. Asnaani), an implementation science expert who has also trained and worked in a public mental health setting (Dr. Creed), and an anxiety treatment specialist on the board of a national organization that promotes evidence-based therapies for social anxiety (Dr. Chazin).

Recovery-oriented Cognitive Therapy as a Game Changer for Municipal and State Forensic Systems: Lessons Learned and Future Directions

**Moderator:** Paul M. Grant, Ph.D., Beck Institute

**Panelists:**
- Shelby Arnold, Ph.D., Beck Institute
- Joe Keifer, Psy.D., Beck Institute
- Christy Giallella, Ph.D., Philadelphia Department of Behavioral Health and Intellectual disAbility Services (DBHIDS)
- Chris von Zuben, Ph.D., Philadelphia Department of Behavioral Health and Intellectual disAbility Services (DBHIDS)
- James Beacher, Psy.D., New York Office of Mental Health
- Stella Keitel, Psy.D., New York Office of Mental Health

Primary Category: Schizophrenia / Psychotic Disorders

Key Words: Schizophrenia, Criminal Justice, Recovery

Forensic mental health settings encounter challenges trying to incorporate recovery-oriented treatment principles, a mandate for care since The President’s New Freedom Commission on Mental Health (2005) report. This panel discussion will present Recovery-Oriented Cognitive Therapy (CT-R) as an approach that improves care by operationalizing recovery principles in forensic settings. Guided by Dr. Aaron T. Beck’s cognitive model, CT-R is an evidence-based practice that provides concrete, actionable steps to promote recovery, and resiliency. It has been successfully implemented along the continuum of care for forensically-involved individuals, improving transitions, continuity of care, and empowerment for individuals and staff. This panel will include an originator of the approach (Dr. Grant), experts in its implementation into forensic systems (Drs. Arnold and Keifer), as well as partners in Philadelphia (Drs. Giallella and von Zuben) and New York (Drs. Beacher and Keitel) who have experienced success implementing CT-R in forensic settings.

CT-R originator will moderate and provide a brief overview of the CT-R model, its utility in forensic settings, and the importance of cognitive formulation to both understand challenges and develop ways individuals can flourish and take steps towards a desired life. The two CT-R experts will discuss forensically-minded implementation strategies, and how these fit with prevailing forensic practices while addressing risk. Panelists will describe CT-R practice in a variety of contexts: from forensic assessment and continuity in community reentry to navigating challenges (e.g., aggression, determination of incompetent to proceed, NGRI) in a secure forensic hospital. The discussion will focus on success experiences ~ increased engagement, connection, and empowerment and lessons learned. Speakers will also share insight on large implementation projects, and sustainability within forensic systems. Audience members will leave the panel with rich examples...
of how a recovery-oriented cognitive-behavioral approach can be disseminated within settings that have been traditionally seen as more challenging, and an appreciation for how CT-R can provide a more equitable and destigmatizing approach to care.

Panel Discussion 38

Looking Forward to Liberation: Creating Inclusive Environments for Diverse Professionals

MODERATOR: Alexandria N. Miller, M.S., Suffolk University

PANELISTS: Alexandria N. Miller, M.S., Suffolk University
Broderick Sawyer, Ph.D., Genesee Valley Psychology
Taryn A. Myers, Ph.D., Virginia Wesleyan University
Charlie A. Davidson, Ph.D., Atlanta Center for Cognitive Therapy; Emory University
Ilana Seager van Dyk, Ph.D., Yale School of Public Health
Darlene M. Davis, Ph.D., Parents Zone, LLC

Primary Category: Program / Treatment Design
Key Words: Health Care System, Professional Issues

The pandemic has exacerbated preexisting systemic inequities, particularly racial, socioeconomic, and mental health disparities inherent in our predominantly white field of psychology. From the widely publicized videos of murders of unarmed Black people in 2020 to the drastic rise of Anti-Asian racialized violence and hate, discussions about the mistreatment of Black, Indigenous, and People of Color (BIPOC) individuals are back in the spotlight. As a result, organizations have taken a renewed interest in ensuring that their policies and procedures encourage diversity, equity and inclusion for their marginalized members who face these disparities daily. Although adaptations to organizational policies are widely discussed, the implementation of these policies is often impeded by obstacles.
In line with the convention’s theme, this panel brings together SIG leaders whose goal is to improve the psychological well-being of members of their SIGs who hold marginalized identities through responsive, evidence-based mental healthcare and equity. Those on this panel encompass a breadth of intersectionally marginalized and privileged identities. On the same journey of cultural responsiveness and advocacy, panelists will share their expertise about making these changes within their membership-driven organizations and challenges inherent in effective activism for social justice.

Panelists will (1) share their experiences leading and making sustainable changes within their SIGs, (2) discuss challenges they faced when making those changes and which made the biggest impact on their membership, (3) discuss what changes are still needed to be made within ABCT to continue to create safe, equitable spaces, and 4) model and discuss the meaning of coalition building, affinity, and allyship to advocate for collective systemic change for their SIG members and the communities they represent in our privileged, predominantly white, cis, and hetero field of psychology.

Questions and comments will be solicited from the audience to foster a collaborative approach to navigating these barriers.

**Mini Workshop 20**

**Treating Existential & Spiritual Struggles with CBT**

David H. Rosmarin, ABPP, Ph.D., Harvard Medical School

In addition to increasing prevalence and severity of mental disorders worldwide (Winkler et al., 2020), the events of the past two years have raised significant societal concerns regarding equity, fairness, and the trustworthiness of cherished social institutions. These weighty matters, as well as the widespread and tragic loss of life, have naturally raised existential and spiritual questions for many individuals (Bentzen, 2020). Cognitive Behavioral Therapy (CBT) has historically shied away from spiritual matters, leaving most of its practitioners without core competencies to address this important aspect of diversity clinical practice (Green et al., 2013). This workshop will address how to identify, conceptualize, and help patients who are experiencing existential and spiritual struggles, using a CBT framework. Attendees will learn how to inquire about this area of life, how to validate and respond to existential concerns when raised by patients, and how to help patients access spiritual resources such as gratitude, acceptance of uncertainty, and meaning-making, in the context of evidence-based care.
You will learn:
• Describe how existential and spiritual struggles can impact symptoms and treatment.
• Competently inquire/assess for existential and spiritual struggles in the context of CBT.
• Help patients address existential and spiritual struggles in treatment.

**Research & Professional Development 5**

**Practice-based Research Methods Bootcamp: Learn How to Conduct and Publish Research in a Private Practice Setting**

**Panelists:** Scott H. Waltman, ABPP, Psy.D., Center for Dialectical and Cognitive Behavior Therapies
John Lothes, II, University of North Carolina Wilmington
Kirk D. Mochrie, Ph.D., Triangle Area Psychology (TAP) Clinic

Basic to Moderate level of familiarity with the material
Primary Category: Research Methods and Statistics

Key Words: Research Methods, Professional Development, Stakeholder Relevant

Are you interested in conducting research in your practice-based setting, but are unsure how to get started? Recently ABCT started a new special interest group (SIG) focused on research in clinical practice settings, and a few members of that SIG are running a bootcamp to help get you started. This mini workshop will be applied and experiential. Ideally, participants would come with a research area of interest in mind. We will be actively discussing your research ideas and applying a framework for conducting research in practice-based settings. We will be actively workshopping and problem-solving ways in which you can begin to take your research ideas into actual practice by collecting and analyzing clinical data. In addition, clinical outcome data collection will be discussed including preferred measures within the public domain to help answer your important research questions. This mini workshop will comprise active participation and small group work if the pandemic situation allows for this. Practice-based research (PBR) is ideally suited for inves-
tigating real-world practice including: (1) identifying and clarifying barriers and problems in routine clinical practice, (2) testing program and treatment improvement initiatives, and (3) Program evaluation including evaluating process, adherence, competence, and clinical effectiveness of evidence-based psychotherapies when delivered in real-world clinical settings. Practice-based or naturalistic research can be conducted with or without the collaboration of academic researchers, with corresponding pros and cons. This mini-workshop is designed for the semi-reluctant practice-based researchers who are working without the aid of academic researchers and is intended to be a kickstart to your project. Our aim is to help you create a research plan, so you can join us in our practice-based research revolution. Joining our new SIG will allow for continued consultation, support, and learning.

You will learn:
- Describe a general research methodology.
- Select a specific research question.
- Analyze clinic needs to identify research questions to improve clinical practice and overall functioning of clinical programs (e.g., groups, individual therapy, etc.).
- Identify outcome measures that can be incorporated into routine clinical practice.
- Seek consultation for ongoing support with your practice-based research project.

Symposium 127

Identifying Strengths for Better Health: Resilience Factors in Borderline Personality Disorder and Non-suicidal Self-injury

Chair: Matthew W. Southward, Ph.D., University of Kentucky
Discussant: E David Klonsky, Ph.D., University of British Columbia

Basic to Moderate level of familiarity with the material
Primary Category: Personality Disorders
Key Words: Resilience, Borderline Personality Disorder, Self-Injury

Getting a Good Night’s Sleep to Promote Resilience Against Suicidal and Non-suicidal Self-injury Urges in Borderline Personality Disorder: An Experimental Study

**Family CONNECT: A Family-based Approach to Linking Youth on Probation to Treatment**
Corianna E. Sichel, Ph.D., Columbia University/New York State Psychiatric Institute
Katherine Elkington, Ph.D., Columbia University
Family Feud: A Clinician’s Guide to Navigating Challenging Family Dynamics and Awkward Conversations in Youth-focused Treatment

MODERATOR: Andrea B. Temkin, Psy.D., Weill Cornell Medicine

PANELISTS:
Shannon M. Bennett, Ph.D., Weill Cornell Medical School
Anthony Puliafico, Ph.D., Columbia University Irving Medical Center
Samuel Fasulo, Ph.D., New York University School of Medicine

Primary Category: Parenting / Families

Key Words: Parenting, Clinical Decision Making, Treatment

Cognitive behavioral treatments for youth and young adults often call for clinicians to work with parents and caregivers in the family system. Beyond needing to help parents build skills to help their struggling child, a large portion of working with families involves understanding how to navigate a minefield of interpersonal dynamics that exists between parent and child, different caregivers, and with the clinician. The aim of this clinical grand rounds is to explore how to translate evidence-based strategies outside of the manual and into the room with real families in order to best serve youth in need of care. Experts in cognitive-behavioral therapy, dialectical behavior therapy, parent management training, and acceptance and commitment therapy will present on their strategies to approaching child and parent work. The presentation will include discussions around topics such as when and how to focus on using traditional behavioral strategies vs. centering on communications and family relationships, managing confidentiality for adolescent and young adult patients, and how best to address problematic parent behavior and increase parent buy-in in treatment. Role-plays will allow audience members to see how clinicians from different backgrounds handle the same clinical situations. Presenters will aim to highlight the best that these different theoretical frameworks have to offer in treating youth and their parents, and audience members will leave armed with new ideas and increased confidence around how to help the families they work with.
Clinical Round Table 13

How Does CBT Translate to Real-world Settings? A Discussion on Implementing CBT Online, in Community Mental Health Clinics, and in Prison

MODERATOR: Louisa G. Sylvia, Ph.D., Massachusetts General Hospital

PANELISTS: Douglas Katz, Ph.D., Dauten Family Center for Bipolar Treatment Innovation, Massachusetts General Hospital
Aaron Katz, Ph.D., Eliot Community Health Services
Lauren Weinstock, Ph.D., Alpert Medical School of Brown University

Primary Category: Technology
Key Words: CBT, Depression

The World Health Organization estimated that depression accounts for 40% of disability worldwide (WHO Report, 2001). This is due to a number of factors, but one important one is the lack of access to evidence-based treatments for depression. For example, only about 40% of patients with mood or anxiety disorders receive any treatment and data suggest that psychotherapies proven to be effective for depression are still not practiced widely in community settings (Goisman et al., 1999; Wang et al., 2002). Moreover, practicing psychologists in the United States reported using variety of approaches with only 4% stating that they used one model exclusively; however, 69% of respondents (N=2281) reported using cognitive behavioral therapy (CBT) at least part-time or in combination with other therapies (https://www.psychotherapynetworker.org/). This clinical round table will discuss implementation challenges and solutions of in-person CBT in the community as well as the prison and jail settings as well as offered remotely online to offer guidance on dissemination of CBT across settings. Specifically, Dr. Sylvia will moderate the discussion as well as share her extensive experience with disseminating CBT via asynchronous online programming. Dr. Doug Katz will describe the work of the MGH Dauten Family Center for Bipolar Treatment Innovations to create a comprehensive stepped care approach to increase access to CBT and other evidence-based treatments for depression. Dr. Weinstock will share her experience conducting CBT in a setting that often receives very minimal mental health care, or in prisons and jails. Dr. Aaron Katz, who serves as the Vice President of Behavioral Health Services for a large community mental health, will discuss implementing CBT in an urban setting that is socioeconomically and ethnically diverse. Together, these experts will highlight the challenges of implementing CBT in real-world settings as well as lead a discussion with the audience on solutions to implementing CBT, including adaptions and modifications to the treatment and its training, to generate new ideas to further promote and disseminate CBT.
Mini Workshop 21

Using a Standardized Supervisee Framework for Experiential Training in Competent Clinical Supervision

Jennifer C. Veilleux, Ph.D., University of Arkansas
Rebecca A. Schwartz-Mette, Ph.D., University of Maine
Samantha Gregus, Ph.D., Wichita State University

Moderate level of familiarity with the material
Primary Category: Workforce Development / Training / Supervision

You will learn:
• Articulate knowledge about the standardized supervisee framework and how it can be used for supervision training.
• Increase proficiency in delivering feedback to supervisor trainees learning to provide competent supervision.
• Problem solve implementation of the standardized supervisee framework within varying training facilities.
• Understand strategies for training clinicians to serve as mock therapists using the standardized supervisee framework.
• Articulate competent levels of performance within all four standardized supervisee scenarios.
Symposium 131

Understanding Links Between Trauma, PTSD, and OCD: From Conceptualization to Treatment

**Chairs:** Heidi J. Ojalehto, B.S., University of North Carolina at Chapel Hill
Jonathan S. Abramowitz, Ph.D., University of North Carolina at Chapel Hill

**Discussant:** Jesse Cougle, Ph.D., Florida State University

Moderate level of familiarity with the material
Primary Category: Obsessive Compulsive and Related Disorders

**Key Words:** OCD (Obsessive Compulsive Disorder), Trauma, PTSD (Posttraumatic Stress Disorder)

Does Stressful or Traumatic Life Events Thematically Related to Obsessive-compulsive and Related Disorders Predict Their Related Disorder?
Leonardo F. Fontenelle, M.D., Ph.D., Institute of Psychiatry of the Federal University of Rio de Janeiro & D’Or Institute for Research and Education (IDOR)
Louise Destrée, Hons, Monash University
Mary-Ellen Brierley, Hons, Monash University
Emma Thompson, Hons, Monash University

Panel Discussion 39

Now Streaming: Disseminating CBT Through Public-facing Platforms

**Moderators:** Tommy Chou, Ph.D., Alpert Medical School of Brown University
Xin Zhao, M.S., Florida International University

**Panelists:** Tommy Chou, Ph.D., Alpert Medical School of Brown University
Riana Anderson, Ph.D., University of Michigan
Maya M. Boustani, Ph.D., Loma Linda University
Anne S. Morrow, Ph.D., South Florida Integrative Medicine
Eric A. Youngstrom, Ph.D., University of North Carolina at Chapel Hill/Helping Give Away Psychological Science

**Primary Category:** Dissemination & Implementation Science

**Key Words:** Career Development, Dissemination, Stakeholder Relevant

Despite decades of treatment efficacy and effectiveness research, epidemiological data point to escalating unmet mental illness burden, low service utilization, and persistent disparities that highlight need for increasing public access to cognitive and behavioral science and practice. Direct-to-consumer communication about of evidence-based mental health tools may help to facilitate science-informed decision-making by providers, policymakers and the public. Effective communication may promote media attention, public health initiatives, funding opportunities, and legislative changes of particular importance to communities where historic and ongoing racism within public systems have limited access to mental health information, resources and care. However, there are few opportunities to practice dissemination in graduate training programs, and public-facing platforms have become increasingly complex. Panelists, representing diverse identities and career stages, have utilized various platforms to disseminate CBT kernels and content. Chou designed and published an emotion-enhanced children’s book to promote socioemotional learning, synthesizing scientific evidence with community partners’ insights. Morrow hosts the Queen Behavior Change podcast to inform the public about science-based psychological assessment and treatment. Anderson co-founded Our Mental Health Minute, a YouTube series to reduce mental health stigma and support Black communities. Boustani has contributed to policy briefs distributed to 7,000 state and national legislators via research2policy.org. Youngstrom co-founded Helping Give Away Psychological Science, a student-based non-profit organization that builds and revises Wiki pages on mental health with scientific content. Panelists will share their journey leveraging public-facing platforms and provide insights towards (1) developing digestible content for publishers, policymakers, and community stakeholders; (2) assessing and improving public engagement; and (3) relevant professional development for investigators at different stages in their careers.
Panel Discussion 40

Working Effectively with Criminal Legal System Partners to Conduct Research and Implement CBT and Other Empirically-supported Treatments

**Moderator:** Mandy Owens, Ph.D., University of Washington
**Panelists:** Jeffrey Gepner, SCORE Jail
Elizabeth L. Jeglic, Ph.D., John Jay College
Kelly E. Moore, Ph.D., East Tennessee State University
Catalina Ordorica, University of California, San Francisco
Brittany A. Soto, Psy.D., South Carolina Department of Corrections
Lauren Weinstock, Ph.D., Alpert Medical School of Brown University

Primary Category: Criminal Justice / Forensics

Key Words: Forensic Psychology, Community-Based, Evidence-Based Practice

The United States has been in a mass incarceration crisis for decades, a crisis that incurs substantial costs to individuals, families, and communities. More than ever there is a need to work effectively with law enforcement, jails, prisons, and juvenile justice partners to study and implement policy and empirically-supported treatments (ESTs). There are existing models for collaborating with community partners, including Community-Based Participatory Research. However, there are additional nuances to working with criminal legal partners and supervising trainees in these settings. This panel addresses this issue and is comprised of individuals with a range of experiences working with criminal legal partners. We will share our experiences with: a) conducting research on CBT and other ESTs in jails, prisons, and community supervision settings; b) training police officers and corrections staff in CBT and other ESTs; c) working with criminal legal partners and policy makers to implement ESTs; and d) supervising trainees working in corrections settings. A Lieutenant from a Washington jail also will share how he works with academic partners and policy makers to provide ESTs for people with substance use and other mental health disorders at his facility. Discussions will include barriers working across academic and criminal legal settings, such as navigating political difficulties and gaining access to jails and prisons. Finally, panelists will share strategies we have learned, including evidence-based dissemination and implementation science frameworks best suited for these settings. We will explore how we collaborate with partners to create research, clinical, and educational materials appropriate for corrections staff, policy makers, trainees, and scientific and public audiences. This panel provides a roadmap for how psychologists can promote CBT and other ESTs in the criminal legal system to improve public health.

Research & Professional Development 07

Using Media as a Tool for Social Good: Disseminating Cognitive Behavioral Science and Practice Online with a Social Justice Lens

Panelists: Ilana Seager van Dyk, Ph.D., Yale School of Public Health
Kevin Chapman, Ph.D., The Kentucky Center for Anxiety and Related Disorders
Juliette McClendon, Ph.D., Boston University School of Medicine
Jessica L. Schleider, Ph.D., Stony Brook University
Jeffrey M. Cohen, Psy.D., Columbia University
Broderick Sawyer, Ph.D., Genesee Valley Psychology

All level of familiarity with the material

Primary Category: Professional / Interprofessional Issues
Key Words: Professional Issues, Professional Development, Dissemination

The COVID-19 pandemic and Black Lives Matter protests have highlighted the immense systemic inequities endemic to healthcare systems across the country. As members of these systems, it is imperative that mental health providers actively adopt anti-racist and anti-stigma practices in order to reduce healthcare inequities. Amidst these two era-defining movements, a growing community of researchers, clinicians, and advocates are not only making mental health services more accessible by migrating to online platforms, but also are tackling various forms of stigma (e.g., racism, mental health, anti-LGBT) that impede access to and use of these services. Such media appearances/posts employ empirically supported strategies such as psychoeducation to normalize and inform the public about mental health symptoms and evidence based care, thereby empowering individuals to seek out the care they may need. In this session, organized by ABCT’s Public Education and Media Dissemination Committee, we hope to arm attendees with the communication tools they need to contribute to this dissemination and anti-stigma effort. This panel discussion will feature expert clinicians and researchers who have extensive experience using a wide range of media platforms (from Twitter to television interviews) to communicate with the broader public about cognitive behavioral science and practice using a social justice lens. The panel will share wisdom about communicating effectively across various media environments, while maintaining the standards and ethics of evidence-based research and practice. The panelists will highlight ways to intentionally use media platforms to advance social justice and anti-stigma messages and consider questions about when to use one’s own voice vs. amplifying others’. The panel will also discuss effective strategies for talking about highly politicized topics.
You will learn:
• Describe how the media dissemination of cognitive behavioral practice can go hand-in-hand with social justice and anti-stigma efforts.
• Identify at least one goal for their own media efforts related to CBT dissemination and social justice.
• Describe at least three characteristics of effective communication in media.

**Mini Workshop 22**

**Yo Graduate Students!! Yeah, You over There. Come Learn How to Actually Apply What You Just Learned: Helping Your Anxious Patients Without Being Totally Anxious While Doing It**

Patrick B. McGrath, Ph.D., NOCD

Moderate level of familiarity with the material

**Primary Category:** Workforce Development / Training / Supervision

**Key Words:** Career Development, Dissemination, Anxiety

OK, so you are getting ready to go out there in the world and start seeing patients. 1. Congrats. 2. Feeling ready? Wishing that you had some tips from someone who has been there and who is willing to share with you some real simple and straightforward ways to disseminating everything you know in clear, concise, and understandable language? Well, come to this talk and steal all my stuff! From simple charts, diagrams, examples and stories, you will learn ways to explain CBT and ERP to patients in such a way that they will not only get it, they will be motivated to use it.

You will learn:
• Identify simple ways to explain to anxious patients how to identify Safety Seeking Behaviors.
• Motivate patients to push themselves to try ERP and face their fears while actually looking forward to the process.
• Utilize simple stories and lessons to effectively explain the basics of CBT and ERP.

**Clinical Round Table 15**

**Group Telehealth CBT and DBT Treatments for Adolescents: Benefits, Challenges, and Special Considerations for Implementation**

**Moderators:** Laura Cyran, M.S., Cognitive & Behavioral Consultants  
Lata K. McGinn, Ph.D., Yeshiva University/Cognitive & Behavioral Consultants

**Panelists:** Magdalena Buczek, Psy.D., Cognitive & Behavioral Consultants  
Tali Wigod, Psy.D., Cognitive Behavioral Consultants  
Anthony Puliafico, Ph.D., Columbia University Irving Medical Center  
Sandra Pimentel, Ph.D., Montefiore Medical Center/Albert Einstein College of Medicine  
Jill Ehrenreich-May, Ph.D., University of Miami

**Primary Category:** Treatment - CBT  
**Key Words:** Adolescents, Group Therapy, Implementation

Telehealth interventions have gained attention in recent years because of their potential to increase access to evidence-based treatments. Over the past year, the focus on telehealth has intensified as mental health providers adapted quickly to continue providing high quality treatment to the community during the COVID-19 pandemic. Emerging evidence suggests that outcomes from group-based teletherapy are comparable to those from face-to-face therapy (Gentry et al., 2019); however, this treatment modality is still developing and methods to successfully modify cognitive and behavioral treatments for teletherapy are still relatively unexplored. Providing group-based virtual treatment for adolescents in particular has come with unique benefits, challenges, and considerations. While adolescents tend to have a facility for the virtual format, bringing them together for group treatment virtually can present challenges. Logging in from electronic devices can bring distraction, the ability to turn off the screen or leave the room, privacy concerns, and opportunities for anxious avoidance. The purpose of this clinical roundtable is to facilitate a discussion with clinical experts who will share their experiences, strategies, lessons learned, and future directions in providing group-based virtual treatments for adolescents. Five expert clinicians representing diverse clinical settings will come together to discuss
these issues across a wide range of adolescent presentations. Panelists bring expertise in providing intensive group teletherapy for OCD, daily comprehensive treatment for severe anxiety, DBT multifamily skills groups, and dedicated group treatments for social anxiety, depression, and school refusal. Special attention will be paid to adapting specific aspects of cognitive and behavioral therapy, such as exposures and response prevention, to telehealth given the limitations and potential benefits of videoconferencing. Recognizing that virtual treatment may become an essential component of our mental health practices going forward, we believe that collaborating in this process is critical as we continue to adapt to meet the needs of our patients.

**Primary Category:** Dissemination & Implementation Science

**Key Words:** Dissemination, Professional Development, Professional Issues

Traditional publishing and copyright have evolved to protect the rights of the owners of the property. For academics, the peer review and publication process usually has involved signing copyright over to the publisher, who then charges others for access to the work. This has become a major problem as publishers charge high rates (with huge profit margins) while library funding is declining. The charges are often prohibitive for practitioners, let alone the public. This contributes to the science-practice gap as the results are trapped behind a paywall. We can do better. Creative Commons (CC) licensing was invented to make it easier to share things while retaining strengths of copyright. Copyright defines ownership. Licensing specifies what people who are not the owner are allowed to do. CC makes it easy to titrate permissions and label things so that all parties know what is permitted. This leverages the distribution power of social networks. When we see a cool figure, fact, or quote on social media, are we allowed to use it in our work? If it had a CC license, we would know immediately what would be copacetic. When we want to share, using a CC license maximizes the uptake. CC also lets us use the material on Wikipedia, Wikiversity, and Wikidata, which are vital components of the online information system. By the end of this session, participants will know how to apply Creative Commons to their own work, understand how to combine this with their own social media, and have expo-
sure to ways that all of this is connecting to Wiki to increase the accessibility of psychology to the local and global community.

You will learn:

- Put a Creative Commons license on files that you intend to share.
- Use pre-prints and diamond open access to leverage peer-reviewed work (no publication fee, no access fee).
- Better understand the different Wiki projects and how they can improve public awareness of CBT and psychology as a resource.
- Become a more sophisticated and efficient user of Google searches.
- Gain familiarity with how to edit or make suggestions to improve Wikipedia and Wiki tools.

Panel Discussion 42

Representation Matters: Diversity, Equity, and Inclusion in ADHD Research and Practice

MODERATOR: Phylicia F. Fleming, Ph.D., Children’s Hospital of Philadelphia

PANELISTS: Heather A. Jones, Ph.D., Virginia Commonwealth University
Yamalis Diaz, Ph.D., NYU School of Medicine
Amori Y. Mikami, Ph.D., University of British Columbia

Primary Category: Culture / Ethnicity / Race
Key Words: Culture, ADHD, Professional Issues

Representation of minoritized people within the field of psychology has been historically low. In 2019, 83% of psychologists in the U.S. workforce were White, 4% were Asian, 7% were Hispanic, 3% were Black/African-American and 2% were multiracial or from other racial/ethnic groups (APA, 2020). Despite nominal increases in the number of racial/ethnic minorities working in the field and earning psychology doctorates, these numbers continue to be less diverse than the larger US population. This panel aims to highlight effective strategies for promoting diversity, equity, and inclusion by exploring the lived experiences of individuals working within the field of ADHD research and practice. Panelist will interweave their personal experiences with relevant research to describe and address the unique challenges diverse individuals have in entering and navigating the field of ADHD research and practice. Using ADHD research and practice as a framework, panelist will discuss factors contributing to the underrepresentation of minoritized people working in clinical child psychology and the ways in which it impacts research development and patient care. Each panelist will tell their career story and discuss the ways in which their specific identities have informed these stories. Additionally, panelist will describe the mechanisms they employ to promote diversity, equity, and inclusion in their current research and/or practice. Strategies to help increase diversity, equity, and inclusion in ADHD work and behavioral health more broadly will also be discussed.
Earn 1.5 continuing education credits

Panel Discussion 43

How to Discuss and Promote CBT with Different Constituencies: Lessons Learned from Engaging with the Medical Staff, Parents, and the General Public

**Moderator:** Jelena Kecmanovic, Ph.D., Arlington/DC Behavior Therapy Institute

**Panelists:**
- Anne Marie Albano, ABPP, Ph.D., Modern Minds
- Sandra Pimentel, Ph.D., Montefiore Medical Center/Albert Einstein College of Medicine
- Deborah Roth Ledley, Ph.D., Children’s and Adult Center for OCD and Anxiety
- Jill Stoddard, Ph.D., The Center for Stress and Anxiety Management
- Ilyse Dobrow DiMarco, Ph.D., North Jersey Center for Anxiety and Stress Management
- Amelia Aldao, Ph.D., Together CBT

Primary Category: Professional/ Interprofessional Issues

Key Words: Stakeholder Relevant, CBT, Community-Based

In spite of the recognition of the science-practice gap in Cognitive Behavioral Therapy (CBT) dating back to the 1980s, our field is still struggling with dissemination and broad acceptance. CBT has amassed an impressive empirical base for its many methods over the last four decades, but our public image has lagged behind. A way to ameliorate this problem is to cross-pollinate accumulated knowledge that comes from different contexts in which CBT professionals communicate with non-professionals, spreading the CBT message.

This panel will bring together CBT practitioners and scholars who write for and speak to the general public, those in administrative positions in medical settings, and those who routinely communicate with parents of children with psychological problems. We will illuminate the best practices for talking about CBT so that non-CBT experts are likely to listen, understand, and accept.

Panel members:
- Dr. Anne Marie Albano, the founder of Columbia University Clinic for Anxiety and Related Disorders and Clinical Director of Youth Anxiety Center at New York Presbyterian Hospital, the author of “You and your anxious child” and other books, and a TED speaker
- Dr. Sandra Pimentel, Chief of Child and Adolescent Psychology at Montefiore Medical Center/Albert Einstein College of Medicine and Director of Anxiety and Mood Program at their Child Outpatient Psychiatry Division
- Dr. Deborah Roth Ledley, a psychologist at the Children’s Center for OCD and Anxiety, the author of “Becoming a calm mom,” co-author of “The Worry workbook for kids” and other books
• Dr. Jill Stoddard, founding director of The Center for Stress and Anxiety Management, the author of “Be Mighty,” a TEDx speaker, and co-host of the “Therapists off the clock” podcast
• Dr. Ilyse Dobrow DiMarco, founding director of North Jersey Center for Anxiety and Stress Management, popular press writer and blogger, and the author of an upcoming book, “Mom Brain”
• Dr. Amelia Aldao, founder of Together CBT, consultant for mental health start-ups and a regular presenter on NPR and webinars for the general public
• Dr. Jelena Kecmanovic, founding director of the Arlington/DC Behavior Therapy Institute, Washington Post contributor, popular press writer, and presenter to corporate and nonprofit audiences

Earn 1.5 continuing education credits

Panel Discussion 41

What Are We Missing? Carving a Path Forward to Improve Health Disparities That Impact Cognitive-behavioral Approaches to Research and Treatment for Eating Disorders

Moderators: Sasha Gorrell, Ph.D., University of California, San Francisco
Kathryn M. Huryk, Ph.D., University of California, San Francisco

Panelists: Carolyn Becker, Ph.D., Trinity University
Natasha L. Burke, Ph.D., Fordham University
Amy H. Egbert, Ph.D., The Miriam Hospital/Alpert Medical School of Brown University
Neha J. Goel, M.S., Virginia Commonwealth University
Colleen Stiles-Shields, Ph.D., Rush University Medical Center

Primary Category: Eating Disorders

Key Words: Eating, Underserved Populations, Evidence-Based Practice

Eating disorders (ED) are pernicious illnesses with significant morbidity and mortality, considerable distress and impairment, and high costs. Increasing interest has been devoted to improving understandings of ED, specifically in efforts to improve cognitive-behavioral treatment outcomes. However, two critical perspectives have largely been missing from this discourse: (1) the intersectionality of minoritized identities (e.g., sexual orientation, race, ethnicity, socioeconomic status) and weight stigma that contribute to significant eating and weight-related health disparities; and (2) a solution-focused approach.

Thanks to the advocacy of many, our awareness of the numerous obstacles that thwart equity and inclusion is heightened, along with greater desire to learn how our collective efforts might best be channeled to optimize change. To move forward with effective actions that promote and uphold optimal equity and inclusion, we must engage in discussion both regarding “what has worked,” but also critically examine how future efforts can
be made to engage diverse and representative stakeholders to promote inclusive practices from conception through dissemination and implementation. This panel, focused on “missing factors” in the ED field, is a critical step to informing the future of our research and cognitive-behavioral treatment approaches.

We have gathered five panelists with distinguished backgrounds in research, practice, and advocacy, all of whom have unique insight related to increasing equity and diversity in their respective milieus. Each will speak to positive changes both evidenced, and still needed, in their collective experience. Topics of the panel will include recent work that has shown benefit from the use of inclusive approaches and methodologies in improving reach and outcomes for more individuals. Panelists will also explore ways in which barriers to equity and inclusion have been overcome, allowing for cultural shifts in promoting marginalized groups both within the ED field and beyond. In addition to generating viable solutions, the panel aims to provide researchers and clinicians alike with suggestions for how to “bring it home,” carving a path forward in promoting equity on a local level.

Mini Workshop 23

Youth Opioid Recovery Support (YORS) Intervention: Combining Family Involvement, Assertive Outreach, Home Delivery of Medications, and Contingency Management for Young Adults with Opioid Use Disorder

Kevin Wenzel, Ph.D., Maryland Treatment Centers
Marc Fishman, M.D., Maryland Treatment Centers

Moderate to Advanced level of familiarity with the material
Primary Category: Addictive Behaviors
Key Words: Substance Abuse, Families, Recovery

The proposed session will begin by briefly discussing the great need for improved CBT based treatments for opioid use disorder (OUD) in young adults, who are disproportionately affected by the current opioid epidemic in the USA. We will introduce the Youth Opioid Recovery Support (YORS) approach as one such intervention. YORS combines the following behavioral strategies: 1) family involvement, 2) assertive outreach, 3) home delivery of injectable opioid relapse prevention medications, and 4) contingency management for medication adherence to enhance treatment adherence and prevent relapse to opioids in young adults with OUD. We will summarize existing research support for YORS before shifting to the main focus of the mini-workshop which will cover concrete
guidelines, suggested interventions, and practical considerations that would be particularly relevant to psychotherapists or prescribers treating opioid use disorder in youth. YORS utilizes behavioral strategies to reduce barriers to care such as assertively reaching out to patients and families rather than passively waiting for young adults to reach out for help; home delivered and observed administration of injectable medications for OUD; behavioral treatment agreements between the young adult, family member, and treatment team; family and parent coaching on applying the principles of operant conditioning and other relevant skills, and contingency management incentives for medication adherence. We will discuss practical implementation of these strategies supported by actual case examples encountered by our clinical team. We will provide patient facing handouts/worksheets for young adults and their families and printed materials for practitioners. We will also address barriers to YORS implementation such as ethical concerns relevant to patient confidentiality. Our experience is that involving and empowering families is fully compatible with patient-centered care, respecting confidentiality, and improving self-efficacy. The overall goal of this session is to aid clinicians who are treating OUD in young adults and considering additional behavioral strategies to improve retention and prevent relapse for this challenging to treat disorder.

You will learn:
- Describe rationale for YORS strategies in treating opioid use disorder in young adults.
- Identify and anticipate challenges and barriers to implementing YORS strategies in treating opioid use disorder in young adults.
- Implement some YORS strategies into routine clinical practice for treating opioid use disorder in young adults.

Lucy Finkelstein-Fox, M.S., C. Andres Bedoya, Ph.D., Nzwakie Mosery, Abigail P. Bhler, B.A., Lynn Matthews, M.P.H., M.D., Jennifer A. Smit, Ph.D., Christina Psaros, Ph.D., 1. Massachusetts General Hospital/Harvard Medical School, 2. University of Alabama at Birmingham, 3. University of the Witwatersrand

Predictors of Anxiety and Depression Treatment Response in a Primary Care Integrated Behavioral Health Program: Different for Anxiety and Depression?
Sydney Kelpin, Ph.D., Olivia E. Bogucki, Ph.D., Julia R. Craner, ABPP, Ph.D., Anne L. Roche, M.A., Craig N. Sawchuk, ABPP, Ph.D., 1. Mayo Clinic, 2. Mary Free Bed Rehabilitation Hospital

The Impact of Video Telehealth on Utilization of Evidence-based Psychotherapy Among Rural Veterans
Anthony H. Ecker, Ph.D., Julianna Hogan, Ph.D., Jan Lindsay, Ph.D., Baylor College of Medicine
(PS1-B46) Associations Between Perceived Discrimination and Suicidal Ideation and Behavior in Youth  
Arielle T. Pearlman, B.A., Natasha Schvey, Ph.D., Mikela A. Murphy, B.A., Nia Johnson, B.S., David A. Klein, M.P.H., M.D., Joshua C. Gray, Ph.D., Uniformed Services University of the Health Sciences

(PS1-B47) The Associations Between Social Media and Cultural Risk and Protective Factors in Latinx College Students  
Marcos Lerma, B.S., Carlos Portillo Jr., B.S., Kevin Sandoval Medina, Joshua Torres, B.S., Ana Carreon, Theodore V. Cooper, Ph.D., The University of Texas at El Paso

(PS1-B48) Creating Positive, Negative, and Neutral God Concept Primes and Their Impact on Scrupulosity Relevant Tasks and Symptoms  
Kelsey Evey, M.S., Shari A. Steinman, Ph.D., West Virginia University

(PS1-B49) Does Negative Emotion Differentiation Protect Against Inflexible Avoidance of Valued Goal Pursuit? A Daily Diary Study  
Bradley A. Brown, B.S., Jessica A. Birg, M.A., Michelle Hua, B.A., Fallon R. Goodman, Ph.D., University of South Florida

(PS1-B50) Motivation Decreases over Time for Adolescents with and Without Attention-deficit/hyperactivity Disorder: Associations with Academic Outcomes  
Zoe R. Smith, Ph.D.¹, Cathrin D. Green, M.S.², Caroline N. Casick, M.S.², Stephen P. Becker, Ph.D.³, Joshua Langberg, Ph.D.⁴, 1. Loyola University Chicago, 2. Virginia Commonwealth University, 3. Cincinnati Children’s Hospital Medical Center

Poster Session 1C

Key Words: Borderline Personality Disorder, LGBTQ+, Stress

(PS1-C51) The Relationship Between Minority Stress Exposures and Borderline Personality Disorder Symptoms: The Mediating Role of Distress Tolerance  
Dominic M. Denning, B.A.¹, Rory Newlands, Ph.D.², Lorraine Benuto, Ph.D.², 1. University of California San Diego, 2. University of Nevada-Reno

(PS1-C52) Social Distancing Measures During COVID-19 and Mental Health  
Tamara R. Oppliger, M.A., Michele Carter, Ph.D., Elijah R. Murphy, M.A., American University

(PS1-C53) Depression Symptoms Mediate the Relation of COVID-19 Stress and Quality of Life: A Conditional Process Analysis Across Levels of Rumination  
Rachel C. Bock, M.A., Emily A. Kalantar, M.A., Lucas D. Baker, M.A., Jennifer L. Kuo, M.A., Christopher R. Berghoff, Ph.D., University of South Dakota

(PS1-C54) Which Components of Working Memory Are Involved in Math Performance in Children with and Without ADHD?  
Fatou Gaye, B.S., Nicole B. Groves, M.S., Elizabeth SM Chan, M.A., M.S., Alissa M. Cole, B.S., Michael J. Kofler, Ph.D., Florida State University

(PS1-C55) Beliefs About Emotion Malleability and the Causes of Depression Influence Perceptions of Depression Among Individuals with Depressive Symptoms  
Lauren E. Simpson, B.A.¹, Elizabeth T. Kneeland, Ph.D.², 1. University of Nebraska-Lincoln, 2. Amherst College
(PS1-C56) Posttraumatic Stress Symptoms Are a Risk Factor for Police Officer Suicidal Ideation
Lucas D. Baker, M.A., Rachel C. Bock, M.A., Jennifer L. Kuo, M.A., Emily A. Kalantar, M.A., Christopher R. Berghoff, Ph.D., University of South Dakota

(PS1-C57) How Are Adult ADHD Symptoms Dynamically Interrelated with Symptoms of Distress: A Case Study
Kaley A. Roberts, M.A., Texas Tech University

(PS1-C58) Experiences of Discrimination and Substance Use Behaviors in College Students
Sage R. Feltus, B.A., Ariadne Lyon, M.A., Nadine R. Mastrolo, Ph.D., Binghamton University

(PS1-C59) Direct and Interactive Effects of Personality and Changes in Relationships on Anxiety and Depression During the COVID-19 Pandemic
Christina S. Galiano, M.A.1, Alexandra M. Andrea, M.A.1, Grace N. Anderson, B.A.2, Timothy A. Brown, Psy.D.1, Anthony J. Rosellini, Ph.D.1, 1. Boston University, 2. Fordham University

(PS1-C60) Nonsuicidal Self-injury Disorder, Borderline Personality Disorder, and Lifetime History of Suicide Attempts Among Male and Female Veterans with Mental Health Disorders

(PS1-C61) An Exploration of Sexual Assault, Sexual Minority Stigma, and Psychopathology
Emily J. Mellen, M.A., Mark L. Hatzenbuehler, Ph.D., Harvard University

(PS1-C62) PTSD Symptom Severity as a Predictor of Barriers to Mental Health Treatment Among Students in Healthcare Fields
Anna C. Barbano, B.S.1, Tara L. Spitzn, M.A.1, Malakiah D. Davis,1 Lori Deshetler, Ph.D.1, April Gardner 2, Kathleen Mitchell,1 Kim L. Gratz, Ph.D.1, Matthew T. Tull, Ph.D.1, 1. University of Toledo, 2. University of Toledo Medical Center

(PS1-C63) Patients’ Judgments of the Importance of Treatment-induced Reductions in Symptoms of Depression: The Role of Specific Symptoms, Magnitudes of Change, and Post-treatment Levels
Thomas Kim, M.A., Colin Xu, M.A., Robert J. DeRubeis, Ph.D., University of Pennsylvania

(PS1-C65) A Systematic Review of Mindfulness-based Interventions in Low-income Schools
Shira Segal, M.A., Shruti Vyas, M.A., Ryerson University

(PS1-C66) Understanding the Association Between Household Income and Relationship Behaviors During the COVID-19 Pandemic
Alexandra K. Wojda, M.A., Emily A. Carrino, B.A., Danielle M. Weber, M.A., Donald H. Baucom, Ph.D., University of North Carolina at Chapel Hill
(PS1-C67) Adverse Childhood Experiences and Symptoms of Posttraumatic Stress: The Moderating Role of Strong Black Woman/superwoman Schema
Jared L. Fisse1, Tamara Nelson, M.P.H., Ph.D.2, 1. Bentley University, 2. Rutgers University

(PS1-C68) Treatment Dropout from an Intensive Augmented DBT Program for Emerging Adults: A Qualitative Analysis

(PS1-C69) Improving Depression Screening Rates in Primary Care Adolescent Patients: Five-year Results from a Quality Improvement Initiative
Ayla R. Mapes, M.A., Meredith J. Scafe, M.S., MSW, Linda E. Guzman, M.A., Ana J. Bridges, Ph.D., University of Arkansas

(PS1-C70) Can Emerging Adults’ Dating Psychological Aggression Be Explained by Family-of-origin Psychological Aggression, Emotion Dysregulation, and Drinking?
Deepali Dhruve, B.S., M.S., Arazais D. Oliveros, Ph.D., Mississippi State University

(PS1-C71) Mindfulness-based Approaches to Peer Victimization, Peer Aggression and the Cycle of Bullying for Youth and Schools
Sarah W. Hopkins, M.S.1, G. Alice Woolverton, M.S.1, Abigail M. Stark, Ph.D.2, Amy K. Marks, Ph.D.1, Gary D. Fireman, Ph.D.1, 1. Suffolk University, 2. McLean Hospital/Harvard Medical School

(PS1-C72) Reconstructing Reality: Counterfactual Thinking Is Associated with Core Features of Prolonged Grief Disorder
Alexa Skolnik, B.A.1, Emma Toner, B.A.2, Nicole J. LeBlanc, Ph.D.3, Naomi M. Simon, M.D.4, Donald J. Robinaugh, Ph.D.3, 1. Massachusetts General Hospital, 2. University of Virginia, 3. Massachusetts General Hospital/Harvard Medical School, 4. NYU Grossman School of Medicine

(PS1-C73) The “Masked” Burnout: Male Clinicians’ Masculine Norm Adherence and Burnout Symptoms
Tristan P. Patterson, M.S.1, Craig A. Warlick, Ph.D.2, Nicole Farmer, Ph.D.2, Abby Armstrong, M.S.2, Rachel Laurence, M.S.2, Mary Parker Raley 2, Niusha Karki 2, Aaron Van Gorp, Ph.D.4, 1. University of Kansas, 2. University of Southern Mississippi, 3. Southern Arizona VA Health Care System, 4. University of Missouri

(PS1-C74) Thinking Less of Yourself Because of Your Emotions: Development and Validation of the Self-invalidation Due to Emotion Scale (SIDES)
Regina E. Schreiber, B.S., Jennifer C. Veilleux, Ph.D., University of Arkansas

(PS1-C75) Theta Oscillation in Children Predicts Less Anxiety and Depression 12 to 14 Months Later During COVID-19 Pandemic Lockdown
Gil Shner, B.A., Zohar Klein, B.A., M.A., Shaked Rosenblum, B.A., Tomer Shechner, Ph.D., University of Haifa
Poster Session 1D

Key Words: Eating, Cognitive Processes, Risk / Vulnerability Factors

(PS1-D76) Exploring the Interactions of Thinness/restriction Expectancies and Eating to Manage Negative Affect on Disordered Eating Behaviors
Cody Staples, M.A., Madeline Palermo, M.S., Allison Cunning, M.A., Diana Rancourt, Ph.D., University of South Florida

(PS1-D77) Examining Weekly Relationships Between Eating Disorder and Obsessive-compulsive Symptoms
Shruti S. Kinkel-Ram, B.S.1, William Grunewald, M.A.2, Shelby Ortiz, M.A.1, April R. Smith, Ph.D.1, Joshua Magee, Ph.D.1, 1. Miami University, 2. Auburn University

(PS1-D78) The Importance of Classroom Context in Behavior Change for Youth with EBD
Sara Franklin-Gillette, B.A., Other1, George J. DuPaul, Ph.D.1, Qiong Fu, Ph.D.1, Julie B. Fogt, Other2, 1. Lehigh University, 2. Centennial School of Lehigh University

(PS1-D79) Children with Sexual Behavior Problems: Ties to Child Maltreatment, Family Functioning, and Service Use
Claudia Campbell, B.A., Rachel Wamser, Ph.D., University of Missouri St. Louis

(PS1-D80) Family Check-in: An Assessment, Feedback, and Referral Service for Families with Young Children

(PS1-D81) Assessing the Need for Family Planning Education in a Low-income Help-seeking Sample for Relationship Distress

(PS1-D82) LGBTQ Status Is Associated with Substance Use Above and Beyond Transdiagnostic Mechanisms of Psychopathology
Leo Miller, B.S., Stephen A. Semcho, M.A., Matthew W. Southward, Ph.D., Shannon Sauer-Zavala, Ph.D., University of Kentucky

(PS1-D83) A Measurement Invariance Analysis of the SCOPI Across Four Racial Groups
Johanna A. Younce, M.A.1, Jessica R. Winder, M.A.1, Katherine P. Mangen, M.A.1, Samuel R. Cares, M.A., MSW1, Thomas A. Fergus, Ph.D.2, Kevin Wu, Ph.D.1, 1. Northern Illinois University, 2. Baylor University

(PS1-D84) Worry Across Four Racial Groups: A Measurement Invariance Analysis
Jessica R. Winder, M.A.1, Samuel R. Cares, M.A., MSW1, Johanna A. Younce, M.A.1, Katherine P. Mangen, M.A.1, Thomas A. Fergus, Ph.D.2, Kevin Wu, Ph.D.1, 1. Northern Illinois University, 2. Baylor University
(PS1-D85) Identifying Correlates of Anxiety in Autism Spectrum Disorder Using a Transdiagnostic Symptom Model
Tamara Rosen, Ph.D.,1 Craig Rodriguez-Seijas, Ph.D.,2 Kenneth Gadow, Ph.D.,1 Matthew D. Lerner, Ph.D.,3 1. University of Colorado School of Medicine, JFK Partners, 2. University of Michigan, 3. Stony Brook University

(PS1-D86) Harsh Parenting and Later Anxiety: Interactions Between Parasympathetic and Sympathetic Nervous System
Li Shen Chong, M.A., Kate L. Senich, B.S., Elana Gordis, Ph.D., University at Albany, State University of New York

(PS1-D87) Do Gut Reactions Matter? How Individuals with and Without Gastrointestinal Symptoms Respond to Emotional Stimuli
Sara M. Witcraft, M.A., Logan K. Niehaus, McCall A. Schruff, Laura J. Dixon, Ph.D., University of Mississippi

(PS1-D88) Do Mindfulness and Acceptance Based Treatment Skills Moderate the Relationship Between Body Dissatisfaction and Eating Behaviors?: Findings from an Ecological Momentary Assessment Study
Claire M. Trainor, B.A., Paakhi Srivastava, Ph.D., Adam Payne-Reichert, B.S., Adrienne S. Juanascio, Ph.D., Stephanie M. Manasse, Ph.D., Drexel University, WELL Center

(PS1-D89) The Relationship Between Trait Impulsivity, State Negative Affect, and Eating Behavior in Young Adults with Loss-of-control Eating: A Multi-method Experimental Study

(PS1-D90) Trajectories of Psychological Functioning in International Students During the COVID-19 Pandemic
Jeffrey M. Pavlacic, M.A.1, Marcela C. Weber, M.A.1, Victoria A. Torres, M.A.1, Erin M. Buchanan, Ph.D.2, Stefan E. Schulenberg, Ph.D.3, 1. University of Mississippi, 2. Harrisburg University of Science and Technology

(PS1-D91) Child Anxiety at Bedtime and Sleep Quality Serially Mediate the Relationship Between Bedtime Routines and Parenting Stress
Kristy L. Larsen, M.A., Lauren Short, B.S., Sara Jordan, Ph.D., University of Southern Mississippi

(PS1-D92) What We Measure When We Measure Depression: Severity, Frequency, and Change

(PS1-D94) Facilitators and Barriers to Evidence-based Professional Practice in Schools
Lindsay G. Flegge, Ph.D., LCSW, Mary Free Bed Rehabilitation Hospital

(PS1-D95) Emotional Dysregulation Mediates the Association Between Attachment and Prosocial Behavior in Middle Childhood
Sohayla Elhusseini, B.A., Kyle Rawn, B.S., Peggy Keller, Ph.D., University of Kentucky
(PS1-D96) A Meta-analytic Review Comparing Types of Eating Disorder Treatment Programs for Adolescents and Young Adults
Abigail L. Blum, B.A.¹, Alexandra C. Kirsch, Ph.D.², Margaret Meagher, B.A.³, Alexander Karl, B.S.⁴, Colleen Conley, Ph.D.⁴, 1. Northwestern University, 2. NorthShore University Health System, 3. University of California San Diego, 4. Loyola University Chicago

(PS1-D97) Brief Intervention for Caregivers During the COVID-19 Pandemic
Rinatte L. Gruen, B.A.¹, David Lindenbach, Ph.D.², Gina Dimitropoulos, Ph.D., MSW², Jill Ehrenreich-May, Ph.D.³, 1. University of Miami, 2. University of Calgary

(PS1-D98) The Mediating Role of Mindfulness in Associations Between Intolerance of Uncertainty and Perinatal Mental Health During COVID-19
Marissa D. Sbrilli, M.S., University of Illinois at Urbana-Champaign

(PS1-D99) Examining the Effects of COVID-19 Infection on Mental Health in a Sample of Young Adults
Olivia Dick, B.S., Chloe Benningfield, B.S., Emma Mills, B.S., Kelsey Woodward, M.S., Sarah E. Cotney, B.S., Matt J. Woodward, PhD, Western Kentucky University

(PS1-D100) Individualistic Growth After Coming out as a Gender Minority in Regard to Stigma Consciousness
Megan Moomaw, B.A., Western Carolina University

1:00 p.m. – 3:00 p.m.

POSTER SESSION 2

Poster Session 2A

Key Words: LGBTQ+, Stigma, Women’s Health

(PS2-A1) Evaluating the Relative Predictive Power of General Sexual Minority Stress and Bi-specific Stress on Relationship Quality and Mental Health Outcomes Among Bi+ Women
Lisa M. Godfrey, M.A., Sarah W. Whitton, Ph.D., University of Cincinnati

(PS2-A2) Self-efficacy as a Predictor Outcome in the Resilience Builder Program®
Joanne P. Lim, B.S.¹, Hannah M. Thomas, B.A.¹, Mary K. Alvord, Ph.D.², Brendan Rich, Ph.D.¹, 1. The Catholic University of America, 2. Alvord, Baker & Associates, LLC

(PS2-A5) Structural Transphobia and the Availability of Gender-affirming Mental Health Providers
Nathan L. Hollinsaid, B.S.¹, Ibtihal Aboussad ¹, Annabelle Lim¹, Maggi A. Price, Ph.D.², 1. Harvard University, 2. Boston College

(PS2-A6) Peer Disapproval Protects Against Illicit Use of Prescription Stimulants Among Fraternity/sorority Members
Justin Mendonca, B.S., Kevin J. Armstrong, Ph.D., Mississippi State University
(PS2-A7) County-level Prevalence Estimates of ADHD Among Children Ages 5-17 in the United States: Overlay of Race/ethnicity and SES Distributions
Kate Flory, Ph.D., Alexis Federico, B.S., Anja Zgodic, M.S., Jan M. Eberth, Ph.D., Jessica Bradshaw, Ph.D., Alexander McLain, Ph.D., University of South Carolina

(PS2-A8) The Effectiveness and Acceptability of Culturally Adapted Digital Mental Health Interventions Among Racial and Ethnic Minorities: A Systematic Review
Donovan Ellis, M.A., Page Anderson, ABPP, Ph.D., Georgia State University

(PS2-A9) The OCI-12: A Syndromally Valid Modification of the Obsessive-compulsive Inventory-revised
Tanya A. Herrera, B.A.¹, Amitai Abramovitch, Ph.D.¹, Jonathan S. Abramowitz, Ph.D.², Dean McKay, ABPP, Ph.D.³, 1. Texas State University, 2. University of North Carolina at Chapel Hill, 3. Fordham University

(PS2-A10) Assisting Healthcare Workers Whose Mental Health Has Been Negatively Impacted During the COVID19 Pandemic
Judith Laposa, Ph.D.¹, Stephanie Carter², Natalie Quick, M.S.², Vanessa A. Saldanha³, Adele Efendov, Ph.D.², karen E. Fournier, MSW, Jenna Hitchcox¹, Jasmine Ahmadinia, B.S.², Helena Roche, RN², Lakshmi N. Ravindran, M.D.⁵, Vicky Stergiopoulou, M.D.⁵, 1. Centre for Addiction and Mental Health, University of Toronto, 2. Centre for Addiction and Mental Health, 3. Centre for Addiction and Mental Health (CAMH), 4. Centre for Addiction and Mental Health (CAMH), 5. University of Toronto

(PS2-A11) Microaggressions Experienced by Black Undergraduates Across the United States: Risk and Resilience
Allegra S. Anderson, M.S.¹, Shannon E. Grogans, B.A.², Jazmine E. Wedlock, B.A.², Kathryn A. DeYoung, M.A.², Alexander J. Shackman, Ph.D.², 1. Vanderbilt University, 2. University of Maryland

Elena Cannova, B.S.¹, Irene Tung, Ph.D.¹, Johnny Berona, Jr., Ph.D.², Alison Hipwell, Ph.D., Psy.D.¹, Kate Keenan, Ph.D.³, 1. University of Pittsburgh, 2. University of Chicago Medicine

(PS2-A13) Alcohol and Cannabis Cross Motives, Class Analysis, and Substance Use Among Concurrent Users
Jordan Gette, M.A., Tre D. Gissandaner, M.A., Andrew Littlefield, Ph.D., Texas Tech University

(PS2-A14) Using Network Analysis to Examine the Interrelation of COVID-19 Concerns and Mental Health Symptoms in Parents and Children
Hannah Grassie, B.A.¹, Jonathan S. Comer, Ph.D.², Angela Evans, Ph.D.³, Tara Peris, Ph.D.⁴, Donna B. Pinus, Ph.D.⁵, Ashley R. Karlovich, B.A.¹, Hanan Salem, B.A.², Estefany Saenz-Clarke, M.S.¹, Jill Ehrenreich-May, Ph.D.¹, Lindsay Malloy, Ph.D.⁶, 1. University of Miami, 2. Florida International University, 3. Brock University, 4. University of California, Los Angeles, 5. Boston University, 6. Ontario Tech University

(PS2-A15) Training and Supervision Increase the Frequency with Which Therapists Attend to Social Risk Factors in Therapy
Clara Johnson, B.A.¹, Julie K. Nguyen, B.S.¹, Lucy Liu¹, Devin N. Kennedy¹, Hoang Le¹, Lucy Berliner, LICSW², Shannon Dorsey, Ph.D.¹, 1. University of Washington, Seattle, 2. University of Washington School of Medicine
(PS2-A16) Problem Gambling and Heavy Smoking Is Associated with Decoupling Between the HPG and HPA Axes
Stephanie E. Wemm, Ph.D.1, Cathryn G. Glanton Holzhauer, Ph.D.2, Luke Harrison, B.A.1, Verica Milićovec, Ph.D.1, Zhimin T. Cao, M.D., Ph.D.3, Edelgard Wulfert, Ph.D.4, 1. Yale School of Medicine, 2. Center for Motivation and Change, 3. Upstate Medical University, 4. SUNY Albany

(PS2-A17) Severity Benchmarks and Contemporary Clinical Norms for the Obsessive-compulsive Inventory-revised (OCI-R)
Sara Wilkerson, B.A.1, Mia Weed, B.A.1, Amitai Abramovitch, Ph.D.2, Jonathan S. Abramovitch, Ph.D.1, Brad C. Riemann, Ph.D.4, Dean McKay, ABPP, Ph.D.1, 1. Fordham University, 2. Texas State University, 3. University of North Carolina at Chapel Hill, 4. Rogers Memorial Hospital

(PS2-A18) Contraindications in Therapy: Impact on Youth Engagement in School-based Mental Health Services
Hyun Seon Park, B.S.1, Kendal Reeder, B.S.1, Kimberly D. Becker, Ph.D.2, Bruce F. Chorpita, B.A., M.A., Ph.D.1, 1. University of California, Los Angeles, 2. University of South Carolina

(PS2-A19) Parental Acculturation Moderates Cognitive Behavioral Therapy Outcome in a Hispanic/Latino Sample of Youth with Anxiety Disorders
Guadalupe C. Patriarca, B.A.1, Jeremy W. Pettit, Ph.D.1, Yasmin Rey, Ph.D.1, Carlos E. Yeguez, M.S.1, Carla E. Marin, Ph.D.2, Wendy K. Silverman, Ph.D.1, 1. Florida International University, 2. Yale University School of Medicine, 3. Yale University

(PS2-A20) PTSD Treatment Session Attendance and Positive Affect Relate to Fractional Anisotropy in the Fornix Stria Terminalis
Sophie Haven, M.A.1, Robert Graziano, Ph.D.2, Wilson J. Brown, Ph.D.3, Steven E. Bruce, Ph.D.1, 1. University of Missouri St. Louis, 2. Durham VA, 3. Penn State Erie, The Behrend College

(PS2-A21) Alcohol to Down-regulate Negative and Positive Emotions: Extending Our Understanding of the Functional Role of Alcohol in Relation to Posttraumatic Stress Disorder
Nicole H. Weiss, Ph.D., Svetlana Goncharenko, M.A., Alexa M. Raudales, B.A., Shannon R. Forkus, M.A., Emmanuel D. Thomas, M.A., Reina Kiefer, B.A., University of Rhode Island

(PS2-A22) Is State-level Anti-black Cultural Racism Associated with Black Youth’s Mental Health?
Nathan L. Hollinsaid, B.S.1, John R. Weisz, Ph.D.1, Mark L. Hatzenbuehler, Ph.D.1, Sarah McKetta, M.P.H., M.S.2, Maggi A. Price, Ph.D.2, 1.Harvard University, 2. Department of Epidemiology, Mailman School of Public Health, Columbia University, 3. Boston College

(PS2-A23) Insomnia, Social Vigilance, and Cardiovascular Health Correlates in Nurses
Samantha M. Nagy, M.S.1, Riley M. O’Neill, B.S.1, Daniel J. Taylor, Ph.D.1, John Ruiz, Ph.D.1, Jesse Dietch, Ph.D.2, Danica Slavish, Ph.D.3, Brett Messman, B.A.3, Camilo Ruggero, Ph.D.3, Kimberly Kelly, Ph.D.3, 1. University of Arizona, 2. Oregon State University, 3. The University of North Texas
(PS2-A24) Community Mental Health Clinicians’ Perspectives on Consultation Following CBT Training

Julie K. Nguyen, B.S., Rashed AlRasheed, M.S., Phuong (Ailee) Vu, Yasmin C. Garfias, Lucy Berliner, LICSW, Shannon Dorsey, Ph.D., 1. University of Washington, Seattle, 2. University of Washington School of Medicine

(PS2-A25) Associations Between Insomnia and Psychosocial, Mental, and Physical Health Correlates in Nurses

Samantha M. Nagy, M.S., Riley M. O’Neill, B.S., Daniel J. Taylor, Ph.D., John Ruiz, Ph.D., Jesse Dietrich, Ph.D., Danica Slavish, Ph.D., Brett Messman, B.A., Camilo Ruggiero, Ph.D., Kimberly Kelly, Ph.D., 1. University of Arizona, 2. Oregon State University, 3. The University of North Texas

Poster Session 2B

Key Words: Clinical Utility, Measurement, Therapeutic Relationship

(PS2-B26) Ratings of Dimensional Traits in Clinical Practice: Comparing Therapist and Client Perspectives

Caroline E. Balling, B.S., Doug B. Samuel, Ph.D., Sean Lane, Ph.D., Purdue University

(PS2-B27) Characterizing Eating Disorder Specific Interoceptive Concerns Among Individuals with Anorexia Nervosa, Bulimia Nervosa, and Other-specified Feeding and Eating Disorder

Claire E. Cusack, B.A., Cheri A. Levinson, Ph.D., University of Louisville

(PS2-B28) An Investigation of Interpretation Bias and Perceived Parental Psychological Control on Anxiety Across Development

Anni Subar, B.A., Emily Jones, B.A., Avery Stackle, B.A., Timothy Sweeny, Ph.D., Michelle Rozenman, Ph.D., University of Denver

(PS2-B29) Identity, Social Pressure, and Body Image in the Development of Disordered Eating Behaviors Among Pre-professional Adolescent Ballet Dancers

Yuri-Grace B. Ohashi, B.A., Shirley B. Wang, M.A., Rebecca Singleton, Ph.D., Matthew K. Nock, Ph.D., Harvard University

(PS2-B30) Changes in Pediatric Primary Care Providers’ Use of Stimulant Diversion Prevention Strategies: Results from a Cluster-randomized Controlled Trial

Elizabeth A. McGuier, Ph.D., David J. Kolko, ABPP, Ph.D., Heather M. Joseph, Heidi Kipp, LPC, Rachel Lindstrom, Ph.D., Sarah Pedersen, Ph.D., Geetha Subramaniam, M.D., Brooke Molina, Ph.D., 1. University of Pittsburgh School of Medicine, 2. University of Pittsburgh, 3. National Institute of Drug Abuse

(PS2-B31) The Role of Friends’ Prosocial and Delinquent Behavior in Urban Middle School Students’ Substance Use and Delinquent Behavior

Kelly E. O’Connor, M.S., Albert D. Farrell, Ph.D., Virginia Commonwealth University

(PS2-B32) High Vagal Tone as a Potential Transdiagnostic Mechanism of Resilience to Stress During the COVID-19 Pandemic

Eli S. Susman, B.A., David G. Weissman, Ph.D., Katie A. McLaughlin, Ph.D., 1. University of California, Berkeley, 2. Harvard University
(PS2-B33) A Longitudinal Study on the Relation Between School Bullying and Children’s Internalizing Symptoms: The Moderating Role of Social Status
Ishan Vengurlekar, Cydnee J. Mathis, Meredith J. Scafe, M.S., MSW, Jake C. Steggerda, M.A., Timothy A. Cavell, Ph.D., University of Arkansas

(PS2-B34) Improvements in Hedonic Hunger During Behavioral Weight Loss
Nicole T. Crane, B.A.¹, Michael R. Lowe, Ph.D.¹, Amy Gorin, Ph.D.², Meghan L. Butryn, Ph.D.¹, ¹. Drexel University, 2. University of Connecticut

(PS2-B35) Timing of Violence Exposure and Changes in Temperament from Childhood to Adolescence
Lindsey P. Battaglia, B.A.¹, Irene Tung, Ph.D.¹, Kate Keenan, Ph.D.², Alison Hipwell, Ph.D., Psy.D.¹, ¹. University of Pittsburgh, 2. University of Chicago

(PS2-B36) Does CBT-I Target Fear and Avoidance of Fatigue? A Longitudinal Examination
Nicole E. Carmona, M.A., Alison E. Carney, B.A., Colleen E. Carney, Ph.D., Ryerson University

(PS2-B37) Perceived Helpfulness of Previous Therapy as a Predictor of Client Attrition in a Psychology Training Clinic
Danielle Dunn, M.A., Danielle T. (Keenan-Miller), Ph.D., University of California, Los Angeles

(PS2-B38) A Comparison of Interactions Among Children, Parents, and Therapists in Cognitive Behavior Therapy for Children and Adolescents with Anxiety Disorders in Australia and Japan
Shin-ichi Ishikawa, Ph.D.¹, Mia Romano, Ph.D.², Jennifer Hudson, Ph.D.³, ¹. Doshisha University, 2. Macquarie University, 3. Black Dog Institute

(PS2-B39) Human Support, Engagement, and Online Depression Prevention for Youth
Julia Rogers, M.S., Eduardo L. Bunge, Ph.D., Palo Alto University

(PS2-B40) Predictors of the Perceived Efficacy and Use of COVID-19 Risk-reduction Behaviors During the COVID-19 Epidemic
Michele L. Hiserodt, M.A., E. Marie Parsons, Ph.D., Rebecca E. Lubin, M.A., Michael W. Otto, Ph.D., Boston University

(PS2-B41) Predicting Peer Processes Among Multiple Profiles of Low-income, Urban Youth with Conduct Problems
Valerie Everett, B.A., Rafaela J. Jakubovic, M.A., Faylyn Kalchthaler, None, Deborah A. Drabick, Ph.D., Temple University

(PS2-B42) Clinician Perspectives on Integrating Mobile Technology into Prolonged Exposure Therapy for PTSD
Delisa G. Brown, Ph.D.¹, Amber M. Jarnecke, Ph.D.¹, Tanya C. Saraiya, Ph.D.¹, Elizabeth J. Santa Ana, Ph.D.¹, Ron Acienro, Ph.D.², Sudie E. Back, Ph.D.¹, ¹. Medical University of South Carolina, 2. University of Texas

(PS2-B43) Gastric Interception Predicts Weight Loss in a Behavioral Weight Loss Program
Sophie R. Abber, B.A.¹, Shannon R. Smith¹, Stephanie M. Manasse, Ph.D.², Evan Forman, Ph.D.¹, ¹. Drexel University, 2. WELL Center, Drexel University
The Relation Between Identity Congruence in Therapy Relationship and Perceived Cultural Competency in a Black American Sample
Molly Sawdy, B.A.¹, Shannon Hughley, M.A.², Linsey R. Mathew, B.A.¹, Tahirah Abdullah, Ph.D.², Jessica LoPresti, Ph.D.¹, 1. Suffolk University, 2. University of Massachusetts Boston

Understanding the Associations Between Childhood Trauma, Dampening, and Perceptions of Social Support in a Psychiatric Sample
Erin E. Beckham, B.A.¹, Andrew D. Peckham, Ph.D.², Emily M. Bowers, B.S.¹, Throstur Bjorgvinsson, ABPP, Ph.D.², Courtney Beard, Ph.D.², 1. McLean Hospital, 2. McLean Hospital/Harvard Medical School

Effects of Early Social Skills Training on Expressive Language in Toddlers with Autism Spectrum Disorder
Michelle Grazioli, B.S.¹, Peter Vietze, Ph.D.¹, Sadaf Khawar, M.A.¹, Ghowash Irshad, M.A.¹, Amelia Yanchik, M.A.¹, Leah Esther Lax, Ph.D.², Chana Tilson, M.S.¹, 1. Montclair State University, 2. CARES, 3. Hand in Hand Early Childhood Center

Perceived Racial Discrimination and Suicidal Ideation Among Black Young Adults: The Mediating Role of Social Anxiety
Nina I. Glover, B.A., Julia D. Buckner, Ph.D., Louisiana State University

Reduced Social Contact During the COVID-19 Pandemic: Do Relationships with Substance Use, Eating Pathology and Food and Alcohol Disturbance Remain Significant After Accounting for Negative Emotions?
Sarah A. Horvath, M.S., Gabriella Pucci, B.S., Jenny Jo, M.S., Emma Harris, B.A., K. Jean J. Forney, Ph.D., Ohio University

Evan Rooney, B.A.¹, Madeline Pruett, B.A.¹, Regan Stewart, Ph.D.², Rosaura Oreno-Aguayo, Ph.D.², Sujith Ramachandran, Ph.D.¹, John Young, Ph.D.¹, 1. University of Mississippi, 2. Medical University of South Carolina

Are Mental Health Disorders Publicly Stigmatized Across Ethnic Groups? Insights into Stigma and the White-latinx Population
Jordan C. Alvarez, B.A.¹, Monica Abdul-Chani, M.A.², Sarah O’Kelley, Ph.D.², 1. Auburn University, 2. The University of Alabama at Birmingham

Poster Session 2C

Key Words: Spirituality and Religion, Evidence-Based Practice, Therapeutic Relationship

Trusting the Evidence: Preferences for Religiosity Matching in Psychotherapy
Matan S. Levine-Janach, B.A., Laurie Heatherington, Ph.D., Williams College

Understanding Factors Associated with Intent to Receive the COVID-19 Vaccine
Cory Knight, M.S.¹, Mary Short, Ph.D.¹, Ryan J. Marek, Ph.D.², Isabelle S. Kusters, M.P.H., Ph.D.¹, 1. University of Houston, Clear Lake, 2. Sam Houston State University
(PS2-C53) Sibling Relationships and ADHD: Reducing Aggression Through an Interpersonal Skills Intervention
Eliana Rosenthal, M.Ed.¹, Sara Franklin-Gillette, B.A.¹, Mark Feinberg, Ph.D.², 1. Lehigh University, 2. Penn State University

(PS2-C54) Protocol for Improving Cultural Sensitivity to Assess and Modify Interpretation Bias in Diverse Populations
Kevin O. Narine, B.A.¹, Yasaman Salon², Erin E. Beckham, B.A.², Courtney Beard, Ph.D.³, 1. William James College, 2. McLean Hospital, 3. McLean Hospital/Harvard Medical School

(PS2-C55) Do People with Opioid Use Disorder and Posttraumatic Stress Disorder Benefit from Adding Behavior Therapy to Buprenorphine?
Alexandra R. Chase, B.S.¹, R. Kathryn R. McHugh, Ph.D.², Blake T. Hilton, Psy.D.², Margaret L. Griffin, Ph.D.², Roger D. Weiss, M.D.², 1. McLean Hospital, 2. Harvard Medical School

(PS2-C56) Bystander Intervention Behavior in a Sample of High-risk College Men
Cayla M. O’Hair, B.A.¹, Haley Kolp, M.S.², Lindsay Orchowski, Ph.D.³, Christine A. Gidycz, Ph.D.⁴, Ryan C. Shorey, Ph.D.², 1. University of Wisconsin- Milwaukee, 2. University of Wisconsin - Milwaukee, 3. Rhode Island Hospital/Alpert Medical School of Brown University, 4. Ohio University

(PS2-C57) Pandemic-specific Reasons for Drinking Among College Students
Jennifer L. Shipley, M.P.H.¹, Douglas J. Glenn, B.A.², Abby L. Braiman, Ph.D.¹, Cathy Lau-Barraco, Ph.D.¹, 1. Old Dominion University, 2. Virginia Consortium Program in Clinical Psychology

(PS2-C58) Mental Health Services for All: Factors Influencing Perceived Need for Mental Health Services Among Low-income Adults During the COVID-19 Pandemic

(PS2-C59) Trait Mindfulness and Mind-body Health in College Students: Do Gender, Race, and Ethnicity Matter?
Emma E. McBride, M.A., Gabrielle R. Chin, M.A., Hana H. Lee, B.A., Jeffrey M. Greeson, Ph.D., Rowan University

(PS2-C60) Preliminary Effectiveness for an Intervention Combining Mindfulness Training with Cognitive Behavior Therapy for Reducing Opioid Misuse and Suicide Attempt
Megan Chesin, Ph.D.¹, Barbara Stanley, Ph.D.², Anna Kline, Ph.D.³, Miriam Latorre, Psy.D.⁴, Lauren St.Hill, LCSW⁴, Rachael Miller, LCSW⁴, Arlene King, Ph.D.⁴, Dianna Boschulte, Ph.D.⁴, Kailyn Rodriguez, B.A.⁴, Alejandro Interian, Ph.D.⁴, 1. William Paterson University, 2. Department of Psychiatry, Columbia University College of Physicians and Surgeons and New York State Psychiatric Institute, 3. Department of Psychiatry, Robert Wood Johnson Medical School, Rutgers, The State University of New Jersey, 4. Veterans Affairs New Jersey Healthcare System
(PS2-C61) Impact of Sexual Assault on Comorbid Disturbed Eating and Drinking Behaviors in College Students
Maria E. Meinerding, M.S., Lindsey Thomas, B.S., Lindsey Poe, M.S., Jeremiah Weinstock, Ph.D., Saint Louis University

(PS2-C62) Perceived Interpersonal Support and Loneliness Among Socially Anxious College Students
Megan M. Perry, M.A., Tracy Protti, M.S., Laura J. Dixon, Ph.D., University of Mississippi

(PS2-C63) Liquid Courage? Affective Forecasts and Alcohol Use in Social Anxiety
Amelia Dev, B.A., Daniel E. Bradford, Ph.D., Kiara R. Timpano, Ph.D., University of Miami

(PS2-C64) A History of Early Childhood Trauma Predicts Non-prescription Opioid Use Among College Students: The Mediation Effects of a Desire to Dissociate
Breanne Sande-Martin, M.A.¹, Dennis McChargue, Ph.D.¹, Antover Tulio, Ph.D.², Alicia Klanecky Earl, Ph.D.³, Bernice Landoy, Ph.D.⁴, 1. University of Nebraska-Lincoln, 2. Texas Tech University, 3. Creighton University, 4. University of the Philippines

(PS2-C65) Black Young Adults Mental Health: Unique Impacts of COVID-19, Political Activism in BLM, and Perceived Microaggressions on Depression Risk in 2021
Lindsey B. Stone, Ph.D., Danielle Docka-Filipek, Ph.D., Christopher Newport University

(PS2-C66) Using Spreading Activation to Understand Repetitive Negative Thinking
Aidan J. Flynn, M.S.¹, Evelyn Behar, Ph.D.², Janette E. Herbers, Ph.D.¹, Sara A. Kurko, B.S.¹, Irene P. Kan, D. Phil.¹, 1. Villanova University, 2. Hunter College, City University of New York

(PS2-C67) An Examination of Supervisor Level Predictors on Therapist Stress
Kaitlyn Pham, None¹, Meredith Boyd, B.A., M.A.², Kimberly D. Becker, Ph.D.³, Bruce F. Chorpita, B.A., M.A., Ph.D.², 1. UCLA, 2. University of California Los Angeles, 3. University of South Carolina

(PS2-C68) Does Race Moderate the Relationship Between Negative Affect and Borderline Personality Disorder Features?
Kassidie S. Harmon, B.S.¹, Briana N. Brownlow, M.A.¹, Jennifer S. Cheavens, Ph.D.², 1. The Ohio State University, 2. Ohio State University

(PS2-C69) Neural Correlates of Change in Threat-related Attentional Functioning in Youth with Anxiety Disorders Undergoing Psychological Treatment
Ajitha Mallidi, B.A.¹, Simone P. Haller, Ph.D.¹, Julia Linke, Ph.D.¹, Anita Harrewijn, Ph.D.¹, David Pagliaccio, Ph.D.², Lauren White, Ph.D.³, Hannah Grassie, B.A.⁴, Emily Jones, B.A.¹, Krystal Lewis, Ph.D.¹, Erin Berman, Ph.D.¹, Katharina Kircanski, Ph.D.¹, Melissa A. Brotman, Ph.D.¹, 1. National Institute of Mental Health, 2. New York State Psychiatric Institute, 3. Children’s Hospital of Philadelphia, 4. University of Miami

(PS2-C70) Examining Measurement Invariance of the Adult Hope Scale Across Race/ethnicity and Gender
Matthew W. Gallagher, Ph.D., University of Houston

(PS2-C71) Motivation for Perpetration of Cyber Partner Abuse Among Emerging Adults
Penny A. Leisring, Ph.D., Clorinda E. Vélez, Ph.D., Quinnipiac University
(PS2-C72) Mental Health Court Judges’ Perception of PTSD
Reem AlRabiah, B.A.¹, Dominic Sisti, Ph.D.², Lily A. Brown, Ph.D.¹, Mélanie Terrasse, Ph.D.³, ¹. Perelman School of Medicine at the University of Pennsylvania, ². University of Pennsylvania, ³. Scattergood Ethics Program for Applied Ethics of Behavioral Healthcare

(PS2-C73) Adaptive and Maladaptive Cognitive Emotion Regulation and Intimate Partner Violence Among Conflict-prone Couples with Alcohol Use Disorder
Meagan J. Brem, Ph.D.¹, Jasara N. Hogan, Ph.D.¹, Jessica L. Brower, MA¹, Elizabeth J. Santa Ana, Ph.D.¹, Julianne C. Flanagan, Ph.D.², ¹. Medical University of South Carolina, 2. Medical University of South Carolina; Ralph H. Johnson VAMC

(PS2-C74) Exploring the Role of Social Interaction Anxiety in the Relation Between Generalized Anxiety Disorder and Depression Symptom Severity
Alex H. Buhk, M.A., Pallavi V. Babu, M.A., Rachel A. Bond, B.A., Jason C. Levine, Ph.D., University of Toledo

(PS2-C75) Contextual Predictors of the Perceived Impact of ADHD in College Students with ADHD
Cathrin D. Green, M.S.¹, Caroline N. Cusick, M.S.¹, Joshua Langberg, Ph.D.¹, Arthur D. Anastopoulos, Ph.D.², ¹. Virginia Commonwealth University, 2. Association for Behavioral and Cognitive Therapies

Poster Session 2D

Key Words: Mindfulness, College Students, Prevention

(PS2-D76) Promoting Mindfulness, Mental Health, and Self-compassion in the Time of COVID-19: Feasibility and Efficacy of an Online Mindfulness-based Stress Reduction Randomized Trial Among College Students
Helen Z. MacDonald, Ph.D., Tracy Neville, Emmanuel College

(PS2-D77) Barriers to Bystander Interventions for Sexual Assault: Impact of Personal History of Sexual Victimization
Tara L. Cornelius, Ph.D.¹, Tylor Kistler, B.A.¹, Olivia Ours, B.S.², Gregory Stuart, Ph.D.³, ¹. Grand Valley State University, 2. Indiana University, 3. University of Tennessee, Knoxville

(PS2-D79) Revising the Inventory of Legal Knowledge to Improve Detection of Honest Responders with Neurological Impairment
Kathleen J. Hart, ABPP, Ph.D.¹, Rachel Wolen, M.A.¹, Phillip May, M.A.¹, Michael B. Gaskell, Psy.D.², ¹. Xavier University, 2. St. Elizabeth Hospital

(PS2-D80) Examining Affective Instability and Difficulties with Emotion Regulation in Misophonia: Implications for Treatment of This New Condition
Rachel E. Guetta, B.A.¹, Jacqueline Trumbull, B.A.¹, Clair Cassiello-Robbins, Ph.D.¹, Deepika Anand, Ph.D.¹, M. Zachary Rosenthal, Ph.D.², ¹. Duke University, 2. Duke University Medical Center
(PS2-D81) Child Behavioral Problems on Caregiver Strain: A Moderated Moderation Model of Caregiver Resourcefulness and Emotional Health
Katey Hayes, B.S., M.S., Kimberly Zlomke, Ph.D., Hayes Rossetti, M.S., University of South Alabama

(PS2-D82) A Pilot Study of a Virtual Emotion-focused Prevention Workshop for High School Students
Maya Nauphal, M.A.1, Nicole D. Cardona, M.A.2, Lauren S. Woodard, B.A.1, Saige R. Fong, 1, Elizabeth H. Eustis, Ph.D., 1. Center for Anxiety and Related Disorders, Boston University, 2. Boston University

(PS2-D83) Brain-behavioral Associations During Approach-avoidance Conflict Decision-making in Relation to Generalized Anxiety Disorder (GAD)
Timothy J. McDermott, M.A.1, Namik Kirlic, Ph.D.1, Ryan Smith, Ph.D.1, Elisabeth Akeman, M.S.1, Jessica Santiago, M.S.1, James Touthang, B.S.1, Mallory J. Cannon, B.A.1, Ashley N. Clausen, Ph.D.2, Michelle G. Craske, Ph.D.1, James L. Abelson, M.D., Ph.D.4, Jerzy Bodurka, Ph.D.1, Martin P. Paulus, M.D.1, Robin L. Aupperle, Ph.D.1, 1. Laureate Institute for Brain Research, 2. Kansas City VA Medical Center, 3. University of California, Los Angeles, 4. University of Michigan

(PS2-D84) The Effect of Neighborhood Resources on Children’s Socioemotional Development: A Mediating Role of Family Income
Rebecca Mirhashem, BS, Daneele Thorpe, M.A., Kristin Bernard, Ph.D., Stony Brook University

(PS2-D85) Prospective Effects of Threat Overestimation on COVID-19 Fear and Safety Behavior Use: does Intolerance of Uncertainty Matter?
Sarah C. Jessup, B.S., Kelly A. Knowles, M.A., Bunmi Olatunji, Ph.D., Vanderbilt University

(PS2-D86) A Person-centered Approach to Investigating Child Maltreatment and Emotion Regulation Patterns in Emerging Adulthood
Jennifer M. Warmingham, M.A.1, Erinn B. Duprey, Ph.D.2, Elizabeth Handley, Ph.D.1, Fred A. Rogosch, Ph.D.1, Dante Cicchetti, Ph.D.3, 1. Mt Hope Family Center, University of Rochester, 2. University of Rochester School of Medicine, 3. Institute of Child Development, University of Minnesota

(PS2-D87) Predicting Anxiety and Depression During the COVID-19 Pandemic: A Machine Learning Study
Brooklynn Bailey, B.A., Daniel R. Strunk, Ph.D., The Ohio State University

(PS2-D88) Clinical Utility of the “limited Prosocial Emotions” Specifier in a High-risk Preschool Sample
Pevitr S. Bansal, M.S., Michelle M. Martel, Ph.D., Patrick K. Goh, M.A., Ashley G. Eng, M.A., Anjeli Elkins, M.S., Melina Thaxton, B.A., University of Kentucky

(PS2-D89) How Coping Activities Ameliorate the Negative Impact of Lack of Technical Resources on Teen’s Mental Health During COVID-19
Nasreen J. Hidmi, M.S., Odette Manresa, M.S., Sarah A. Hartmann, B.A., Matthew T. Sutherland, Ph.D., Elisa Trucco, Ph.D., Florida International University
(PS2-D90) The Impact of Training Doctoral Students in Cbt-based Treatments for Substance Use
Cody M. Dillon-Owens, BS, Jennifer Langhinrichsen-Rohling, Ph.D., Victoria Scott, Ph.D., Aria R. Ruggiero, M.A., Margaret Gigler, M.A., Amy Peterman, Ph.D., University of North Carolina, Charlotte

(PS2-D91) Anxiety Sensitivity, Panic, Distress Tolerance and Alcohol Use Problems: A Moderated Mediation

(PS2-D92) An Exploratory Study of Parent and Youth Treatment Planning Preferences
Jennifer S. Schild, B.S., David A. Langer, ABPP, Ph.D., Suffolk University

(PS2-D93) Burnout During COVID: Implications for Consultation, Supervision, and Transition to Teletherapy Among Mental Health Care Providers
Hollie Granato, Ph.D.,1, Amanda K. Gilmore, Ph.D., Sarah Evers, M.P.H., 1. University of California, Los Angeles, 2. Georgia State University

(PS2-D94) Examination of Coping as a Moderator of the Relation Between COVID-19 Related Worry and Depression, Anxiety, and Stress Symptomatology
Grace N. Martin, Danielle L. Hoyt, M.A., Teresa Leyro, Ph.D., Samantha G. Farris, Ph.D., Rutgers University

(PS2-D95) Concordance Between Objective and Subjective Attentional Control: The Moderating Influence of Social Anxiety

(PS2-D96) Influence of Distress Tolerance and Emotional Clarity on State Anxiety Following a Distressing Task
William J. Tanguy, Anu Asnaani, Ph.D., Kiran Kaur, M.S., University of Utah

(PS2-D97) Perceived Stress Trajectories During the Transition to College: Are International Students and Students of Color at Elevated Risk?
Camila C. Mira, Violet Terwilliger, Arianna E. Ahulevsko, Nicole Kelso, M.A., Steven M. Brunwasser, Ph.D., Rowan University

(PS2-D98) The Role of Emotional Carryover Effects in Emotional Responding to New Life Events

(PS2-D99) Comparing Facets of Self-compassion in the Context of Social Judgement
Nancy Kocovski, Ph.D., Mila Popovic, Wilfrid Laurier University

(PS2-D100) The Roles of Alcohol Use and Sleep Quality on the Relationship Between Fear of Missing out and Intimate Partner Violence
POSTER SESSION 3

Poster Session 3A

Key Words: Anorexia, Bulimia

(PS3-A1) Interoceptive Sensitivity Among Individuals with Eating Disorders: How Do Specific Interoceptive Concerns Relate to Eating Disorder Symptoms?
Claire E. Cusack, B.A., Cheri A. Levinson, Ph.D., Irina Vanzhula, M.S., University of Louisville

(PS3-A2) Anorexia Nervosa and Atypical Anorexia Nervosa Do Not Significantly Differ in Dimensions of Perfectionism
Brenna M. Williams, M.S., Ani C. Keshishian, B.A., Cheri A. Levinson, Ph.D., University of Louisville

(PS3-A3) Emotional Reactivity and Regulation: Implications for Heart Rate Variability During an Experimental Worry and Relaxation Induction
Michal E. Clayton, B.A., Megan E. Renna, Ph.D., Phillip E. Spaeth, B.A., Douglas S. Mennin, Ph.D., 1. Teachers College, Columbia University, 2. University of Southern Mississippi

(PS3-A4) Toward Greater Precision in Measuring Evidence Use in Children’s Mental Health Treatment
Kendal Reeder, B.S., Meredith Boyd, B.A., M.A., Kimberly D. Becker, Ph.D., Bruce F. Chorpita, B.A., M.A., Ph.D., 1. University of California, Los Angeles, 2. University of South Carolina

(PS3-A5) Perceived Risk, Attitudes, and Intention: College Student Perceptions of the COVID-19 Vaccine
Danielle L. Terry, Ph.D., ABPP, Christopher P. Terry, Ph.D., Patricia Hui, M.D., 1. Guthrie Family Medicine, 2. Elmira College

(PS3-A6) Transdiagnostic Intervention for Sleep and Circadian Dysfunction in Serious Mental Illness Treated in a Community Mental Health Setting: Patient-centered Outcomes
Catherine A. Callaway, B.A., Nicole B. Gumport, M.A., Allison G. Harvey, Ph.D., University of California, Berkeley

(PS3-A8) Imaginal Exposure for Disordered Eating Related Fears: A Pilot Randomized Controlled Trial
Rachel Butler, M.A., Richard G. Heimberg, Ph.D., Temple University

(PS3-A9) Intensive Eating Disorder Treatment Progress Monitoring: Testing a Novel Tool for Measurement Invariance
Bethany A. Harris, B.A., James F. Boswell, Ph.D., Hallie M. Estep-Huynh, Ph.D., Heather Thompson-Brenner, Ph.D., 1. University at Albany, State University of New York, 2. Alpert Medical School of Brown University, 3. The Renfrew Center
(PS3-A10) Fear of Weight Gain Is Associated with Maladaptive, but Not Adaptive, Exercise in Binge-spectrum Eating Disorders
Elizabeth W. Lampe, M.S., Olivia B. Wons, B.S., Adam Payne-Reichert, B.S., Adrienne S. Juarascio, Ph.D., Stephanie M. Manasse, Ph.D., Drexel University WELL Center

(PS3-A11) Body Checking and Body Exposure in Men
Daniel G. DeBonis, D. Catherine U. College, Ph.D., Conor O’Dea, Ph.D., Union College

(PS3-A12) Beyond Focused and Automatic: Principal Components Analysis to Derive Functional Phenotypes in Body-focused Repetitive Behaviors
Kimi A. Skokin, B.S.¹, Benjamin W. Bellet, M.S.¹, Ívar Snorrason, Ph.D.², ¹. Harvard University, 2. Massachusetts General Hospital

(PS3-A13) Food Insecurity in Bariatric Patients: Associations with Eating Disorder Pathology and Weight Stigma
Aria D. Gastón-Panthaki, B.A., Ana Serrano, B.A., Narmin virani, Carolyn Becker, Ph.D., Trinity University

(PS3-A14) The Association Between Parental Hoarding and Adult Children’s Psychosocial Functioning
Caitlyn A. Nix, B.A., Mary E. Dozier, Ph.D., Mississippi State University

(PS3-A15) Interaction with Firearm Relevant Instagram Content Is Associated with Acquired Capability for Suicide
Emma Unruh-Dawes, M.S., Tony T. Wells, Ph.D., Oklahoma State University

(PS3-A16) Black Transgender and Gender Diverse Adolescents’ Experiences of Gender-related Stressors and Depressive Symptomatology
Brianna A. Ladd, B.A.¹, Anne J. Maheux, M.S.¹, Savannah R. Roberts, B.S.¹, Brian C. Thoma, Ph.D.², Rachel H. Salk, Ph.D.², Sophia Choukas-Bradley, Ph.D.¹, 1. University of Delaware, 2. University of Pittsburgh School of Medicine

(PS3-A17) Reassurance-seeking and Checking in Obsessive-compulsive Symptoms
Katherine P. Mangen, M.A., Fiona C. Ball, B.S., Kevin Wu, Ph.D., Northern Illinois University

(PS3-A18) Mental Health Trajectory and Resilience Factors of College Students Through the COVID-19 Pandemic
Elisabeth Akeman, M.S., Namik Kirlic, Ph.D., Kelly T. Cosgrove, M.A., Timothy J. McDermott, M.A., Danielle C. DeVille, M.A., Evan J. White, Ph.D., Mallory J. Cannon, B.A., Robin L. Aupperle, Ph.D., Laureate Institute for Brain Research

(PS3-A19) Self-care Practices and Perceived Stress Among Psychology Graduate Students: A Replication and COVID-19 Addendum

(PS3-A20) Impact of Stress and Parenting on RSA Trajectories in Early Adolescence
Benjamin D. Johnson, M.S., Kenneth Safley, B.S., China R. Bolden, M.S., Ellie Lisitsa, M.S., Amy H. Mezulis, Ph.D., Seattle Pacific University

(PS3-A21) Exploring Associations Between Exercise Motives and Behaviors and Cognitive and Behavioral Flexibility
McKenzie Miller, M.A., Christina M. Sanzari, B.A., Courtney E. Breiner, M.A., Julia M. Hormes, Ph.D., University at Albany, State University of New York
(PS3-A22) Disseminating Evidence-based Behavioral Health Practices to Early Childcare Providers on Chicago’s West Side
Emily Wolodiger, Ph.D., Caitlin Otwell, LPC, Deanna Doss, MSW, Michelle Greene, Ph.D., Christina Iyengar, M.P.H., Ph.D., Diamond Phillips, B.S., Ashlee Taylor, MSW, Allison Wainer, Ph.D., Rush University Medical Center

(PS3-A23) Lgbq/tgnb-affirmative Stances in Clinical and Counseling Psychology Training Programs: Views from Graduate Students
Zachary A. Soulliard, Ph.D.¹, Hannah F. Fitterman-Harris, M.S.², Katherine Zane, Ph.D.³, Honore M. Hughes, Ph.D.², 1. Yale School of Public Health, 2. Saint Louis University, 3. OhioHealth, Physician Group

(PS3-A24) Comparing Help-seeking Attitudes, Stigma, and Intentions Between Parents with and Without Prior Service Use: An Investigation of Measurement Invariance
Spencer K. Choy, M.A., Holly R. Turner, M.A., Tristan J. Maesaka, M.A., Brad Nakamura, Ph.D., University of Hawai‘i at Manoa

Shiba M. Esfand, B.A.¹, Alicia R. Fenley, M.A.¹, Laura J. Nelson Darling, M.A.¹, Caroline Nelson, B.A.¹, Emily Nickson, B.S.², Bruce F. Chorpita, B.A., M.A., Ph.D.³, David A. Langer, ABPP, Ph.D.⁴, 1. Boston University Center for Anxiety and Related Disorders, 2. Boston College, 3. University of California Los Angeles, 4. Suffolk University

Poster Session 3B

Key Words: Autism Spectrum Disorders, Technology / Mobile Health

(PS3-B26) Combining a Virtual Reality Intervention with CBT Strategies to Improve Police Interaction Skills in Autistic Individuals
Meredith Cola, B.A.¹, Alison Russell, B.A.², Ashley Zitter, M.A.³, Kimberly Tena, B.A.², Manisha Udhnani, M.A.⁴, Lucero Cordero, B.A.², Rita Solórzano, M.A.⁵, Sinan Turnacioglu, M.D.⁶, Vijay Ravindran, B.S.⁶, Judith Miller, Ph.D.², Joseph McCleery, Ph.D.⁶, Julia Parish-Morris, Ph.D.², 1. La Salle University, 2. Children’s Hospital of Philadelphia, 3. Drexel University, 4. The Ohio State University, 5. Floreo Inc., 6. Saint Joseph’s University

(PS3-B27) Distress Tolerance Predicts Alcohol Use Motives and Severity in Samples from Four Continents
Grace N. Anderson, B.A.¹, Adrian J. Bravo, Ph.D.², Christopher C. Conway, Ph.D.¹, 1. Fordham University, 2. College of William & Mary

(PS3-B28) Exploring covid-19-related Anxiety in an Acute Psychiatric Population
Emily M. Bowers, B.S.¹, Melanie A. Hom, Ph.D.¹, Throstur Bjorgvinsson, ABPP, Ph.D.², Courtney Beard, Ph.D.², 1. McLean Hospital, 2. McLean Hospital/Harvard Medical School

(PS3-B29) How Has Digital Technology Been Used to Improve Physical Activity and Diet in People with Schizophrenia?: A Scoping Review
Melanie W. Fischer, M.A., M.S., Kyle Minor, Ph.D., Jesse C. Stewart, Ph.D., Michelle Salyers, Ph.D., Indiana University-Purdue University Indianapolis
(PS3-B30) Relationships Among PTSD Symptom Clusters, Anhedonia, and Reward Responsivity
Sarah T. Wieman, M.S.1, Kayla A. Lord, M.S.1, Jessica S. Fields, B.A.1, Alora A. Rando, M.S.1, Rebecca K. Browne, M.S.1, Kimberly A. Arditte Hall, Ph.D.2, Helen Z. MacDonald, Ph.D3, Gabrielle I. Liverant, Ph.D.1, 1. Suffolk University, 2. Framingham State University, 3. Emmanuel College

(PS3-B31) Feeling Hollow: Examining the Emotional Correlates of Chronic Emptiness in Borderline Personality Disorder
Lindsay Fulham, M.A., Skye Fitzpatrick, Ph.D., York University

(PS3-B32) Does Race Matter? Exploring the Moderating Role of Race in the Association Between Personality Pathology and Arrests
Briana N. Brownlow, M.A.1, Kassidie S. Harmon, B.S.1, Jennifer S. Cheavens, Ph.D.1, Emil F. Coccaro, M.D.2, 1. The Ohio State University, 2. The Ohio State University Wexner Medical Center

(PS3-B33) Parental Barriers in Seeking Mental Health Services for Attention Deficit Hyperactivity Disorder in Children: Systematic Review
Amani Kappi, B.S., M.S., RN1, Michelle M. Martel, Ph.D.2, 1. University of Kentucky, College of Nursing, 2. University of Kentucky

(PS3-B34) Relationship Quality During COVID-19: Role of COVID Stressors and Communication
Laura N. Martin, B.A., Keith D. Renshaw, Ph.D., Sissi Ribeiro, M.A., Sarah A. Giff, M.A., George Mason University

(PS3-B35) Negative Urgency Moderates the Association Between Compulsive Sexual Behaviors and Nonconsensual Sexts Among Men in Residential Treatment for Substance Use Disorders

(PS3-B36) Improvements in Aversive Reactions to Negative Emotions Are Associated with Increased Quality of Life in the Unified Protocol
Sohayla Elhusseini, B.A., Lauren Cravens, Matthew W. Southward, Ph.D., Shannon Sauer-Zavala, Ph.D., University of Kentucky

(PS3-B37) A Mixed Methods Study of Lay Counselors’ Perspectives Delivering a Brief Depression Intervention in the United States
Grace S. Woodard, B.S.1, Amanda Mraz, B.A.2, Brenna N. Renn, Ph.D.2, 1. University of Miami, 2. University of Nevada, Las Vegas

(PS3-B38) Racism, Gender Role Conflict, and Depression in College Men of Color: A Longitudinal Test of the Racist-gender Stress Model
Thomas Le, M.S., Derek Iwamoto, Ph.D., University of Maryland, College Park

(PS3-B39) Impact of a T-fcbbt-focused Learning Collaborative on Supervision Quantity and Quality and Differential Effects on Therapists’ General and Protocol-specific Adherence
Christina C. Strauch, B.S., M.S.1, Samuel O. Peer, Ph.D.1, Rochelle F. Hanson, Ph.D.2, 1. Idaho State University, 2. Medical University of South Carolina
(PS3-B40) Negative Religious Coping and Suicidal Ideation Among Minorities with Schizophrenia
Genesis M. Saenz, Daisy Lopez, M.S., Amy Weisman de Mamani, Ph.D., University of Miami

(PS3-B41) Anxiety Sensitivity as a Treatment Target for Anger Problems: Findings from a Randomized Controlled Trial
Justine S. Thompson, B.S., Norman B. Schmidt, Ph.D., Florida State University

(PS3-B42) The Relative Importance of Self-concept and Disruptive Behavior as Predictors of Depressive Symptoms in Youth with and Without ASD
Emma Wilkinson, B.A.¹, Melissa Rinaldi, Ph.D.², Kristin V. Christodulu, Ph.D.¹, 1. University at Albany, State University of New York, 2. Center for Autism and Related Disabilities/University at Albany

(PS3-B43) Centering the Healthcare Experiences of Asian Women in the U.S
Quyen A. Do, M.Ed.¹, Joyce Yang, Ph.D.², Karie A. Gaska, Ph.D., MSW³, Shelby B. Scott, Ph.D.¹, 1. University of Texas at San Antonio, 2. University of San Francisco, 3. Ross University School of Medicine

(PS3-B44) The Transition to Telehealth-based CBT for Youth Anxiety During the COVID-19 Pandemic
Alyssa M. Farley, Ph.D.¹, Donna B. Pincus, Ph.D.¹, Rachel Merson, Psy.D.², Kristine Lee, M.A.², 1. Boston University, 2. Boston University Center for Anxiety and Related Disorders

(PS3-B45) Multi-level Profiles of Conduct Problems Among Low-income Urban Youth
Rafaella J. Jakubovic, M.A., Valerie Everett, B.A., Faylyn Kalchthaler, Deborah A. Drabick, Ph.D., Temple University

(PS3-B46) Impact of a Peer-based Intervention for ADHD on Socioemotional Concerns
Thu B. Nguyen, M.A.¹, Shivani Bathla, B.S.¹, Sara R. Elkins, Ph.D.¹, David Curtis, Ph.D.², 1. University of Houston, Clear Lake, 2. University of Texas Dell Medical School

(PS3-B47) The Relation Between Exposure to Aces and ADHD Symptoms Among Young Adults in College: Perceived Social Support as a Moderator
Abigail B. de Arellano, B.A.¹, Elizabeth A. Bodalski¹, Cynthia M. Hartung, Ph.D.², Michael C. Meinzer, Ph.D.³, Kate Flory, Ph.D.¹, 1. University of South Carolina, 2. University of Wyoming, 3. University of Illinois at Chicago

(PS3-B48) Caregiver Symptomatology as a Potential Mechanism for the Effect of Caregiver Trauma Exposure on Child Symptoms
Rebecca L. Skahan¹, Hillary H. Bush, Ph.D.², Sarah A. Gray, Ph.D.³, Abbey S. Eisenhower, Ph.D.⁴, Alice S. Carter,Ph.D.⁴, Nicholas D. Mian, Ph.D.¹, 1. University of New Hampshire, 2. Independent Practice, 3. Tulane University, 4. University of Massachusetts, Boston

(PS3-B49) The Association Between Coping Skill Utilization and Loneliness During the COVID-19 Pandemic
Clara Law, M.A., Gina M. Belli, B.A., Christina L. Boissee, Ph.D., Northwestern University Feinberg School of Medicine
(PS3-B50) Emotional Flooding as a Mediator of the Link Between Posttraumatic Stress and Intimate Partner Violence in Early Parenthood
Debra Torok, M.S., Pauline Song-Choi, M.S., Fanie Collardeau, M.S., Erica M. Woodin, Ph.D., University of Victoria

**Poster Session 3C**

Key Words: Women’s Health, Clinical Utility

(PS3-C52) The Effects of Cannabidiol Isolate on Menstrual-related Symptoms
Morgan L. Ferretti, B.S.¹, Maeve C. Register¹, Taylor B. Stanley, M.A.², Jessica G. Irons, Ph.D.¹, 1. James Madison University, 2. Auburn University

(PS3-C53) Trajectories and Adverse Outcomes of Intimate Partner Violence During the COVID-19 Pandemic
Anna C. Barbano, B.S., Kim L. Gratz, Ph.D., Matthew T. Tull, Ph.D., University of Toledo

(PS3-C54) Anxiety Sensitivity and Body Vigilance Prospectively Predict Health Anxiety
Brad Sievers, B.S., Anne L. Kleinsasser, M.A., Thomas A. Fergus, Ph.D., Baylor University

(PS3-C55) Does Being with Others or Alone in the Experience of Uncertainty Influence How People Higher and Lower in the Propensity to Worry React to Uncertainty?
Kathleen E. Stewart, M.A., Julia Spaniol, Ph.D., Naomi Koerner, Ph.D., Ryerson University

(PS3-C56) Psychological Predictors of COVID-19 Related Anxiety

(PS3-C57) Beyond Positive Affect: Discrete Positive Emotions Differentiate Social Anxiety Disorder from Major Depression
Angela A. Chin¹, Alison Sweet, B.S.², Charles T. Taylor, Ph.D.², 1. UCSD and VA San Diego Center for Stress and Mental Health, 2. University of California, San Diego

(PS3-C58) Closing the Service Gap: Key Considerations in Students’ Plans to Practice as Mental Health Providers in Underserved Areas of Georgia
Amanda E. Halliburton, Ph.D.¹, Michele B. Hill, Ph.D.¹, Nicholas D. Mian, Ph.D.², Veronica McClanahan¹, 1. University of North Georgia, 2. University of New Hampshire

(PS3-C59) Correlates of Youth Suicide Risk: Assessing Social Determinants of Health in Los Angeles
Victoria Liu, Belinda Chen, B.A., Anna Lau, Ph.D., University of California, Los Angeles

(PS3-C60) Latent Class Analysis of Drinking Game Participants
Dennis Hoyer, M.S., Christopher J. Correia, Ph.D., Auburn University

(PS3-C61) Linguistic Analysis of Health Anxiety During the COVID-19 Pandemic
Alexandra D. Peterson, B.S., Mindy M. Kibbey, M.S., Samantha G. Farris, Ph.D., Rutgers, The State University of New Jersey
(PS3-C62) The Impact of Stressful Life Events on Distress Intolerance and Working Memory Capacity in Low-income Youth
Nadine R. Taghian, B.S.1, E. Marie Parsons, Ph.D.1, Rebecca E. Lubin, M.A.1, Eugenia I. Gorlin, Ph.D.2, Michael W. Otto, Ph.D.1, Stacey Doan, Ph.D.3, 1. Boston University, 2. Yeshiva University, Ferkauf Graduate School of Psychology, 3. Claremont McKenna College

(PS3-C63) The Effects of Pre-deployment Single and Co-morbid PTSD, MDD, and GAD on Post-deployment Prevalence Rates, Symptom Severity, and Symptom Presentation in Army Personnel
Michelle K. Jeffers, M.A., Danielle Dgheim, M.A., Ziqiang Lin, Ph.D., Carole Siegel, Ph.D., Charles Marmar, M.D., New York University School of Medicine

(PS3-C64) Emotional Reactivity in Adolescence Is Related to Less Amygdalar Differentiation Between Negative and Neutral Stimuli
Jeremy Rudoler, B.A., Leah D. Church, B.A., Nadia Bounoua, M.A., Kaleigh Wieand, B.S., Jeffrey A. Spielberg, Ph.D., University of Delaware

(PS3-C65) Can Values-based Interventions Lead to Exposure Therapy Engagement in Individuals with Airplane Phobia?
Danae Papageorgiou, B.S., M.S., Maria Karekla, Ph.D., University of Cyprus

(PS3-C66) Examining the Efficacy of Text-message Reminders to Employ Protective Behavioral Strategies to Reduce Alcohol Use and Consequences Among College Students
Lauren Zimmerman, M.S., Nicholas R. Livingston, B.S., Caitlin A. Falco, B.S., Cody Akin, None, Samuel Benton, Alison Looby, Ph.D., University of Wyoming

(PS3-C67) The Interactive Effects of BDNF Polymorphisms and PTSD on Neurocognitive Functioning in U.S. Military Veterans: Results from the National Health and Resilience in Veterans Study
Colton S. Rippey, B.S.1, Thomas G. Adams, Ph.D.1, Robert H. Pietrzak, M.P.H., Ph.D.2, 1. University of Kentucky, 2. Yale University School of Medicine

(PS3-C68) Improving Measurement of In-session Language: Comparison of the Motivational Interviewing Skill Code to Adapted Measures Integrating Behavioral Economics

(PS3-C69) The Effect of Therapist Modeling on Treatment Acceptability and Effectiveness in Exposure Therapy
Jesse Silberstein, M.S., Camilo Ortiz, Ph.D., Long Island University

(PS3-C70) Real-time Fluctuations in Basic Psychological Needs Satisfaction and Frustration
Impact of Heart-focused Anxiety, Coronary Artery Disease Risk Factors, and Sex on Healthcare Utilization in Non-cardiac Chest Pain

Eleanor B. Steffens, MPH, MA<sup>1</sup>, Kamila S. White, Ph.D.<sup>1</sup>, Ernest V. Gervino<sup>2</sup>, 1. University of Missouri, St. Louis, 2. Harvard Medical School, Beth Israel Deaconess Medical Center

**Poster Session 3D**

**Key Words:** Anxiety, Cognitive Processes, Cognitive Schemas / Beliefs

Positive and Negative Metacognitive Beliefs Potentiate the Effect of Anxiety Sensitivity on Anxiety

Julia Y. Gorday, B.S., Joseph R. Bardeen, Ph.D., Auburn University

The Role of Social Comparisons in the Relationship Between Multidimensional Perfectionism and Social Anxiety: An Indirect Effects Model

Exploring Identity as a Cannabis User in a Sample of College Student Cannabis Users

Positive Schizotypy and Pattern Recognition

David W. Rose, III, M.S., Dennis R. Combs, Ph.D., University of Texas, Tyler

The Role of Failure in Paranoia: An Experimental Study

Dennis R. Combs, Ph.D., David W. Rose, III, M.S., Anwesha Maitra, M.S., Eric Stocks, Ph.D., University of Texas at Tyler

Exploring Protective Behavioral Strategies for Hallucinogen Use

Fiona Low, B.A., Brianna R. Altman, M.A., Maha N. Mian, M.A., Mitch Earleywine, Ph.D., University at Albany, State University of New York

Can a Computerized Interpretation Bias Training Reduce Anxious Behaviors Among Mothers of Clinically Anxious Youth?: Preliminary Findings

Erika S. Trent, M.A., Elizabeth M. Raines, M.A., Haley E. Conroy, B.A., Karina Silva, B.A., Andres G. Viana, ABPP, Ph.D., University of Houston

Sports Betting in the U.S.: Exploring the Demographic, Mental Health, and Gambling Behavior Differences Between Those Who Do and Do Not Bet on Sports

Tori Horn, M.A., James Whelan, Ph.D., Abby McPhail, M.A., M.S., Andrew W. Meyers, Ph.D., University of Memphis

How Do Depression and Social Anxiety Co-occur in Daily Life?

Ruba Rum, M.S., Gabriella Silva, B.S., Jessica A. Birg, M.A., Ashly Cobos, Sumeyye Erdem, None, Fallon R. Goodman, Ph.D., University of South Florida
(PS3-D81) Barriers and Motivators for Ecological Momentary Assessment Engagement Among College Students
Allison K. Ruork, Ph.D., John K. Kellerman, B.A., Qingqing Yin, M.S., Joanne S. Kim, B.A., Evan M. Kleiman, Ph.D., Shireen L. Riggi, ABPP, Ph.D., Rutgers, The State University of New Jersey

(PS3-D82) Psychometric Properties of the Short Scale Anxiety Sensitivity Index in Chronic Respiratory Disease Samples
Heather L. Clark, M.S., Laura J. Dixon, Ph.D., Aaron Lee, Ph.D., University of Mississippi

(PS3-D83) Social Anxiety in Clinical and Nonclinical Hair-pulling
Meghan K. Flannery, M.A.1, Martha Falkenstein, Ph.D.2, David A. Haaga, Ph.D.1, 1. American University, 2. McLean Hospital/Harvard Medical School

(PS3-D84) Are Brief Behavioral Parenting Group Interventions Effective in Rural Communities? A Descriptive Pilot Study in Central Appalachia
Dane Hilton, Ph.D.1, Chantel Weisenmuller, Ph.D.2, Scott A. Fields, Ph.D.2, Jessica L. Luzier, ABPP, Ph.D.2, Beth B. Emrick, M.D.2, 1. Roanoke College, 2. West Virginia University School of Medicine, Charleston

(PS3-D85) Do Parenting Practices Moderate the Relationship Between Anxiety and Peer Relations?
Emily P. Wilton, M.A., Theresa R. Gladstone, B.A., Ashley A. Lahoud, B.A., Sydney D. Biscarri Clark, B.S., Christopher A. Flessner, Ph.D., Kent State University

(PS3-D86) The Effects of ADHD and Anxiety by Way of Regulatory Coping on Parenting Stress
Anna Olczyk, M.A., Paul J. Rosen, Ph.D., University of Louisville

(PS3-D87) Academic Functioning in Children with and Without SCT: Examining Differences Across Parent and Teacher Ratings, Standardized Achievement Scores, School Observations, and Report Card Grades
Chaya Fershtman, B.A.1, Stephen P. Becker, Ph.D.1, Leanne Tamm, Ph.D.1, Jeffery N. Epstein, Ph.D.1, Kiley Yeaman, B.A.1, Kandace W. Mosling, B.A.3, Allison Zoromski, Ph.D.3, Aaron Vaughn, Ph.D.1, 1. Cincinnati Children’s Hospital Medical Center, 2. University of Cincinnati

(PS3-D89) Cognitive Predictors of Depressive Symptoms: Cognitive Reactivity, Mood Reactivity, and Dysfunctional Attitudes
Jessica Perez Perez, M.A., Kelly J. Rohan, Ph.D., University of Vermont

(PS3-D90) The Role of Emotion Regulation Difficulties in Predicting Depression and Anxiety in a College-student Sample
Morgan L. Ferretti, B.S.1, Taylor B. Stanley, M.A.2, Amber M. Henslee, Ph.D.3, Jessica G. Irons, Ph.D.1, 1. James Madison University, 2. Auburn University, 3. Missouri University of Science and Technology

(PS3-D91) Interoceptive Awareness as a Protective Factor in the Relationship Between Anxiety and Depression Symptoms and the Frequency of Psychotic-like Experiences
Hannah C. Herc, M.A., Noelle Warfford, B.S., Grayling F. Keune, Kaylynn Frantz, Peter G. Mezo, Ph.D., University of Toledo
(PS3-D92) Effects of Sexual Orientation on Outcomes of Spiritually Integrated Cognitive Behavioral Psychotherapy
Sage Mauri, Poorvi Keshava, M.A., David H. Rosmarin, ABPP, Ph.D., Mia Drury, B.A., Eleanor Schuttenberg, B.S., Alana M. Johnston, B.S., Harvard Medical School

(PS3-D93) Coping Strategies of Emerging Adults During the COVID-19 Pandemic: A Factor Analysis
Ayelet Hochman, BA1, Miranda Levy, M.A.1, Andrea Bergman, Ph.D.1, Elissa J. Brown, Ph.D.2, 1. St. John’s University, 2. St. John’s University, Child HELP Partnership

6:00 p.m. – 8:00 p.m.

POSTER SESSION 4

Poster Session 4A

Key Words: LGBTQ+, Sexuality, Intimate Partner Aggression

(PS4-A1) Differences in Dimensions of LGBTQ+ Identity and Social Support Between Victims and Non-victims of Identity Abuse
Thomas E. Schlechter, B.A.1, Emily A. Munoz, M.A.1, Gloria Romero, B.S., M.S.2, Gregory Stuart, Ph.D.2, Ryan C. Shorey, Ph.D.1, 1. University of Wisconsin, Milwaukee, 2. The University of Tennessee, Knoxville

(PS4-A2) The Moderating Role of Sexual Minority Status in the Relations of Distress Intolerance and Self-disgust to Suicide Risk
Adam J. Mann, M.S., Andrew Kurtz, Matthew T. Tull, Ph.D., Kim L. Gratz, Ph.D., University of Toledo

(PS4-A4) Interpretations of Perpetrator Alcohol Use in Rape Myth Acceptance
Stephanie Rowland, B.A.1, Alyyna G. Summit, M.A.2, Nora E. Noel, Ph.D.1, 1. University of North Carolina, Wilmington, 2. Indiana University

(PS4-A5) Cognitive Behavioral Therapy for Insomnia (CBT-I) in an Interdisciplinary Pain Rehabilitation Program (IPRP)
Julia R. Craner, ABPP, Ph.D.1, Rachel Gabelman, Ph.D.2, Lindsay G. Flegge, Ph.D., LCSW3, 1. Mary Free Bed Rehabilitation Hospital, 2. Chalmers P. Wylie Veterans Administration Ambulatory Care Center, 3. Mary Free Bed Rehabilitation Hospital

(PS4-A6) Community Mental Health Clinicians’ Perspectives on Transitioning to Telehealth Due to COVID-19
Rashed AlRasheed, M.S.1, Julie K. Nguyen, B.S.1, Grace S. Woodard, B.S.2, Alayna Daniels, B.S., B.A.1, Niya J. Park, B.S., B.A.1, Lucy Berliner, LICSW3, Shannon Dorsey, Ph.D.1, 1. University of Washington, Seattle, 2. University of Miami, 3. University of Washington School of Medicine
(PS4-A7) Graded Exposure Treatment (GET) for Pediatric Chronic Pain and Its Effect on Parent-child Dyads: The Pain Is Relative
Hannah Toyama, M.S.¹, Laura E. Simons, Ph.D.², Matthew J. Cordova, Ph.D.¹, Hilit Kletter, Ph.D.², Robert D. Friedberg, ABPP, Ph.D.³, 1. Palo Alto University, 2. Stanford University School of Medicine, 3. Center for the Study and Treatment of Anxious Youth at PAU

(PS4-A8) Episodic and Chronic Stress Among LGBTQ+ Adolescents: Disentangling the Effects of Interpersonal vs. Non-interpersonal Stressors
Katharine K. Chang, B.A., Lisa R. Starr, Ph.D., University of Rochester

(PS4-A9) Characterizing Alcohol-related Disordered Eating in Adults with Clinically Significant Binge Eating
Megan Wilkinson, B.S., Alexandra L. Pitts, Adrienne S. Juarascio, Ph.D., Drexel University

(PS4-A10) Negative Life Events and Suicide Risk in Adolescents: A Real-time Monitoring Study During the High-risk Post-hospitalization Period
Erika C. Esposito, M.A.¹, Evan M. Kleiman, Ph.D.², Emily C. Han¹, Jaclyn C. Kearns, M.A.², Linda J. Alpert-Gillis, Ph.D.³, Elizabeth Handley, Ph.D.⁴, Catherine Glenn, Ph.D.⁵, 1. University of Rochester, 2. Rutgers, The State University of New Jersey, 3. University of Rochester School of Medicine, 4. Mt. Hope Family Center, University of Rochester, 5. Old Dominion University

(PS4-A11) State Attachment in Adults with Anxiety and Prolonged Grief
Emily Zhang, MD¹, Bryana Schantz, M.A.¹, Emma L. Jennings, B.S.², Alan Chen, M.S.¹, Kristin L. Szuhany, Ph.D.³, Donald J. Robinaugh, Ph.D.⁴, Naomi M. Simon, M.D.¹, 1. New York University Grossman School of Medicine, 2. New York University Langone Medical Center, 3. New York University School of Medicine, 4. Massachusetts General Hospital/Harvard Medical School

(PS4-A12) Screen Time During the COVID-19 Pandemic: Implications for Pre-adolescent Sleep Functioning

(PS4-A13) Motives and Barriers to Participation in a DBT-based Video Intervention with College Students
Madison E. Taylor, B.A., Linda Oshin, Ph.D., April L. Yeager, B.A., Evan M. Kleiman, Ph.D., Shireen L. Ritzi, ABPP, Ph.D., Rutgers, The State University of New Jersey

(PS4-A14) The Role of Staff Burnout, Secondary Traumatic Stress, and Compassion Satisfaction on Criminal Record Stigma
Shania L. Siebert, M.S., Kelly E. Moore, Ph.D., East Tennessee State University

(PS4-A15) Factors of Psychosocial Resilience in Youth with Inflammatory Bowel Disease
Jacob Tempchin, B.A.¹, Barbara Storch, M.A.², Laura C. Reigada, Ph.D.³, 1. Mount Sinai Health System, 2. City University of New York Graduate Center and Brooklyn College, 3. Brooklyn College
(PS4-A16) The Effect of Estradiol Administration on Fear Extinction Memory Retrieval as Dependent on the Magnitude of Conditioned Fear Response
Dylan B. Miller, B.A.¹, Gabriella E. Hamlett, M.A.², Madeleine M. Rassaby, B.A.³, Naomi M. Simon, M.D.³, Edna B. Foa, Ph.D.², Mohammed R. Milad, Ph.D.¹, 1. New York University School of Medicine, 2. Perelman School of Medicine at the University of Pennsylvania, 3. New York University Grossman School of Medicine

(PS4-A17) Integrating Telehealth Services for Opioid Replacement Patients at a Local Pain Clinic
Diana Tinsley, M.A., Jeffrey M. Pavlacic, M.A., Madeline Pruett, B.A., John Young, Ph.D., University of Mississippi

(PS4-A18) Gender Identity Outness, Gender-based Bullying, and Substance Use Among Transgender and Nonbinary Youth
Roberto Renteria, M.A.¹, Brian Feinstein, Ph.D.², Christina Dyar, Ph.D.³, Ryan J. Watson, Ph.D.⁴, 1. Arizona State University, 2. Rosalind Franklin University of Medicine and Science, 3. Northwestern University Feinberg School of Medicine, 4. University of Connecticut

(PS4-A19) Co-location Services in Puerto Rico: Facilitators, Barriers, and Recommendations for the Future
Aubrey R. Dueweke, Ph.D.¹, Andel V. Nicasio, Ph.D.², Rosaura Orengo-Aguayo, Ph.D.³, 1. East Tennessee State University, 2. Albizu University, 3. Medical University of South Carolina

(PS4-A20) Student Clients’ Presenting Problems: What Are They? Is Race a Factor?
Chayna J. Davis, Ph.D., Michael D. Pullmann, Ph.D., Eric Bruns, Ph.D., Elizabeth McCauley, Ph.D., University of Washington School of Medicine

(PS4-A21) Application of a Quality Improvement Process to Evaluate Self-directed Therapy for Patients on a Waitlist in an Outpatient Anxiety Disorders Specialty Clinic
David F. Bradley, Ph.D.¹, Lauren Languido, Ph.D.¹, Terence H. Ching, M.S.¹, Robert E. Brady, Ph.D.², 1. University of Connecticut, Dartmouth-Hitchcock Medical Center, 2. Geisel School of Medicine at Dartmouth

(PS4-A22) The Role of Self-compassion in the Relationship Between Childhood Emotional Maltreatment and Social Anxiety Severity
Caroline H. Armstrong, B.A.¹, Mihiyrie Mete, Ph.D.², Emma L. Jennings, B.S.¹, Ilana Ander, B.A.⁴, Amanda W. Baker, Ph.D.⁴, Eric Bui, M.D., Ph.D.⁴, Naomi M. Simon, M.D.⁵, Elizabeth Hoge, M.D.¹, 1. Georgetown University Medical Center, 2. MedStar Health Research Institute, 3. New York University Langone Medical Center, 4. Massachusetts General Hospital, 5. New York University Grossman School of Medicine

(PS4-A23) Reactivity to Specific Emotions Differentially Predicts Risk for Suicidal Thoughts and Behaviors
Elizabeth C. Hoelscher, B.A.¹, Caroline M. Johnson, B.A.², Catarina L. Carosa, B.A.², Hannah R. Kral, B.A.², Melanie L. Bozcaz, Ph.D.³, Christopher D. Hughes, Ph.D.¹, Michael F. Armey, Ph.D.¹, 1. Warren Alpert Medical School, Brown University, 2. Butler Hospital 3. Brown University & Providence VA Medical Center
(PS4-A24) Racial Differences in Youth Reporting on Depressive Symptoms and Negative Self-cognitions and Self-statements
Paige F. Adenuga, B.S., Paige N. Picou, B.S., Thompson E. Davis, III, Ph.D., Louisiana State University

(PS4-A25) Expanding a Cultural Resilience Model to Understand Predictors of Quality of Life for Black Women
Candace A. Koman, M.A., Michele Carter, Ph.D., American University

Poster Session 4B

Key Words: Eating, Adolescents, Measurement

(PS4-B26) Evaluating the Psychometric Properties of the Fear of Food Measure Among Adolescents in Treatment for an Eating Disorder
Samantha P. Spoor, B.S.¹, Irina Vanzhula, M.S.¹, Sarah E. Ernst, B.S.¹, Nicholas Farrell, Ph.D.², Jamal H. Essayli, Ph.D.³, Cheri A. Levinson, Ph.D.², 1. University of Louisville, 2. Rogers Behavioral Health, 3. Penn State College of Medicine

(PS4-B27) Does Knowing Better Mean Eating Better? Nutrition Literacy and Food Choices in a Cohort of Undergraduates
Ruth S. Shach, M.P.H., M.S., Jillson S. Vander Wal, Ph.D., Saint Louis University

(PS4-B28) The Role of Cognitive Processes in Differentiating Premenstrual Dysphoric Disorder
Mansi H. Mehta, Ph.D.¹, Jeffrey A. Ciesla, Ph.D.², 1. Emory University School of Medicine, 2. Kent State University

(PS4-B29) Shame, Guilt, and Pride Moderate the Relationship Between Social Appearance Anxiety and Eating Disorder Symptoms
Luis E. Sandoval-Araujo, B.A., Cheri A. Levinson, Ph.D., University of Louisville

(PS4-B30) Biomarker-driven, Technology-enhanced Prolonged Exposure Therapy for PTSD
Hayley Feigl, M.A.¹, Tanya C. Saraiya, Ph.D.¹, Bethany Wangelin, Ph.D.¹, Ron Acierno, Ph.D.², Amber M. Jarnecke, Ph.D.¹, Delisa G. Brown, Ph.D.¹, Stacey Sellers, M.S.¹, Sudie E. Back, Ph.D.¹, 1. Medical University of South Carolina, 2. University of Texas

(PS4-B31) Are Minority Stress Experiences Risk Factors for Poor Physical Health Among Sexual and Gender Minorities Assigned Female at Birth?
Emily Devlin, B.A., Sarah W. Whitton, Ph.D., University of Cincinnati

(PS4-B32) Behavior Therapy and Social Skills Training Enhances Precursors of Language in Children with ASD
Peter Vietze, Ph.D.¹, Amelia Yanchik, M.A.¹, Sadaf Khawar, M.A.¹, Chana Tilson, M.S.², Ghouash Irshad, M.A.¹, Michelle Graziooli, B.S.¹, Leah Esther Lax, Ph.D.³, 1. Montclair State University, 2. Hand in Hand Early Childhood Center, 3. CARES
(PS4-B33) Impact of Diverse Virtual Health Agents on Alcohol Users Engaged in a Motivational Interviewing Intervention: Qualitative Analysis of Semi-structured Interviews
James P. Hodgins, M.A.¹, Jaynish Hazari, M.P.H., M.A.¹, Diane G. Marin, M.A.¹, Maya M. Boustani, Ph.D.¹, Christine Lisetti, Ph.D.², 1. Loma Linda University, 2. Florida International University

(PS4-B34) Investigating the Contribution of Emotion Dysregulation in Skin Picking Among Adults with Skin Disease
Mary J. Schadegg, M.A., Whitney Shepherd, Laura J. Dixon, Ph.D., University of Mississippi

(PS4-B35) Cross-cultural Psychometric Properties of the Tic Accommodation and Reactions Scale – Parent Report (TARS-PR) and Parent Tic Questionnaire (PTQ)
Jordan T. Stiede, M.S.¹, Douglas W. Woods, Ph.D.¹, Seonaid M. Anderson, Ph.D.¹, Valsamma Eappen, Ph.D.², Ella Gev, Ph.D.³, Robyn Latimer, B.A.⁴, Aud Bredesen, M.A.⁵, 1. Marquette University, 2. University of New South Wales, 3. Schneider Children Hospital, 4. Torrens University of Australia, 5. Oslo University

(PS4-B37) The Feasibility and Acceptability of a Brief Behavioral Parent Training Group Delivered Through Telehealth
Jacob Holzman, Ph.D.¹, Erica L. Gleason, M.A.², Jillian Talley, M.A.², 1. University of Colorado Anschutz Medical Campus, 2. University of Denver

(PS4-B38) The Role of Trust in the Association Between Constructive Communication and Relationship Power in South African Heterosexual Relationships: Implications for HIV Interventions

(PS4-B39) An Analysis of Autism Spectrum Disorder, Diagnosis, Severity, and Behavior Treatment in the US and Across States
Mary A. Conner, M.A.¹, Dustin E. Sarver, Ph.D.², Dustin Brown, Ph.D.³, 1. Jackson State University, University of Mississippi Medical Center, 2. University of Mississippi Medical Center, 3. Mississippi State University

(PS4-B40) Natural Language Processing Theme Analysis of Trauma Reactions in Situational Appraised Meaning Narratives
Marin M. Kautz, M.A., Lauren B. Alloy, Ph.D., Temple University

(PS4-B41) Transgender Victimization and Suicidality/self-harm: The Role of Emotion Regulation
Francesca Kassing, Ph.D.¹, Aaron Mahajan, B.S.², Cameron Mosley, Ph.D.³, Lara M. Stepleman, M.D.⁴, Christopher F. Drescher, Ph.D.⁴, 1. The University of Nevada, Reno, 2. Medical College of Georgia, 3. Anxiety Specialists of Atlanta, 4. Augusta University
A Longitudinal Study of Relationship Dissolution in Female Same-gender Couples
Bryanna Garibay, Queen A. Do, M.Ed., Kayla Knopp, Ph.D., Shelby B. Scott, Ph.D., University of Texas at San Antonio, 2. VA San Diego Healthcare System/University of California, San Diego

Moderation Effects of Social Interaction Anxiety on Trichotillomania Severity and Disability
Allison F. Coyne, B.A., Meghan K. Flannery, M.A., Martha Falkenstein, Ph.D., David A. Haaga, Ph.D., 1. American University, 2. McLean Hospital/Harvard Medical School

Clinical Characteristics of Conduct Disorder in Youth with Bipolar Disorder
Diana Woodward, B.A., Timothy Wilens, M.D., Amy Yule, M.D., Daria Taubin, B.A., Colin Burke, M.D., 1. Massachusetts General Hospital, 2. Boston Medical Center

Overvaluation of Shape and Weight (Not BMI) Associated with Depressive Symptoms and Binge Eating Symptoms Pre- and Post-bariatric Surgery
Eliza L. Gordon, M.P.H., Ph.D., Larissa A. McGarrity, Ph.D., Anna R. Ibele, M.D., Alexandra L. Terrill, Ph.D., Timothy W. Smith, Ph.D., 1. University of Utah, 2. University of Utah School of Medicine

Can I Get Help Too? Understanding the Needs of the LGBTQAI+ Community and Domestic Violence
Melanie D. Hetzel-Riggin, Ph.D., Francesca M. Giardina, B.A., Elias M. Manjerovic, B.S., Kaylee Larson, B.S., Jacob Huellen

The Relationships Between Stress Mindset and Specific Coping Strategies During the COVID-19 Pandemic
Annika Hogan, B.A., Kathleen C. Gunthert, Ph.D., Caitlyn Loucas, M.A., Laura H. Tao &k, B.S., American University

The Impact of Parental Stress on the Relation Between Observed Parental Control and Negativity
Erinn J. Victory, B.A., Lindsay R. Druskin, B.A., Robin Han, M.S., Christopher K. Owen, B.S., Jane R. Kuhlhoff, Ph.D., Cheryl B. McNeil, Ph.D., 1. West Virginia University, 2. University of New South Wales Sydney

Reciprocal Effects of Sleep Quality and Depressive Symptoms in the Wake of COVID-19
Robert J. Zhou, B.A., Brooklynn Bailey, B.A., Daniel R. Strunk, Ph.D., The Ohio State University

Poster Session 4C

Key Words: Technology / Mobile Health, College Students, Psychotherapy Process

Usage of and Attitudes Toward Teletherapy in a College Sample During COVID-19
Nigel M. Jaffe, Stephanie Jarvi Steele, Ph.D., Williams College
(PS4-C52) Why Worry About It? Clinicians’ Acceptance, Preference, and Use of Imaginal Exposure and Other Techniques to Treat Generalized Anxiety
Marina E. Ross, Psy.D., Hilary B. Vidair, Ph.D., Nathan Fordsham, M.S., AHRC New York City, 2. Long Island University, Post, 3. Long Island University

(PS4-C53) Emetophobic and Depressive Symptoms: Could Emotion Dysregulation Play a Role?
Alexandra Gilbert, M.A., Jennifer A. Petell, M.A., Danielle Maack, Ph.D., 1. University of Mississippi, 2. University of Mississippi and Delta Autumn Consulting

(PS4-C54) Pain Anxiety and Fear of Cancer Recurrence Among Adult Cancer Survivors
Jennifer L. Kuo, M.A., Emily A. Kalantar, M.A., Rachel C. Bock, M.A., Lucas D. Baker, M.A., Christopher R. Berghoff, Ph.D., University of South Dakota

(PS4-C55) Associations Between Trauma Type and Obsessive-compulsive Symptom Dimensions

(PS4-C56) SAGE: Continued Assessment of Treatment Outcomes for an Intensive Augmented DBT Program for Emerging Adults and Families

(PS4-C57) Age, Cognitive Control/flexibility, and Self-injurious Behavior
Dana B. Borkum, M.A., William James College

(PS4-C58) Virtual Health Agents on Engaging Alcohol Users Through a Motivational Interviewing Intervention: Agent Acceptability
Diane G. Marin, M.A., Jaynish Hażari, M.P.H., M.A., James P. Hodgins, M.A., Maya M. Boustani, Ph.D., Christine Lisetti, Ph.D., 1. Loma Linda University, 2. Florida International University

(PS4-C59) Social Regulation of the Neural Threat Response Predicts Subsequent Markers of Physical Health
Jingrun Lin, B.A., Nauder Namaky, Ph.D., Meghan A. Costello, Ph.D., James A. Coan, Ph.D., Joseph P. Allen, Ph.D., University of Virginia

(PS4-C60) The Role of Avoidant Coping in the Relationship Between Sleep Disturbance and Emotional and Physical Well-being During COVID-19
Katharine E. Musella, M.A., Hayley Pomerantz, M.S., Elaine Ruiz, M.A., Maria C. DiFonte, M.A., Rebecca Michel, B.S., Ellen C. Flannery-Schroeder, ABPP, Ph.D., University of Rhode Island
(PS4-C61) Working Memory and Arousal in College Students with and Without Attention-deficit/hyperactivity Disorder (ADHD)
John Vasko, M.S., Adam Conner, B.S., Judah W. Serrano, M.S., Tamara M. Abu-Ramadan, M.A., Joel Nigg, Ph.D., Cynthia M. Hartung, Ph.D., 1. University of Wyoming, 2. Oregon Health & Science University

(PS4-C62) Sleep Disorder Symptoms Amongst Women of Reproductive Age: What Is Normal?

(PS4-C63) Engagement in a Fully Remote Trial of a Guided Self-help Transdiagnostic Cognitive-behavioral Therapy (CBT) Intervention
Jacqueline Howard, B.A., Allison Peipert, B.S., Robinson De Jesus-Romero, M.S., John F. Buss, B.S., Lorenzo Lorenzo-Luaces, Ph.D., Indiana University, Bloomington

(PS4-C64) Burning the Candle at Both Ends: Predictors of Parenting Burnout During the COVID-19 Pandemic
Alexandra N. Piedra, M.A., Amy Przeworski, Ph.D., Chelsea Cooper, M.S., Case Western Reserve University

(PS4-C65) Factors That Contribute to the Relationship Between Borderline Personality Disorder Pathology and Reward Responsiveness
Kayla M. Scamaldo, M.A., Matthew T. Tull, Ph.D., Kim L. Gratz, Ph.D., University of Toledo

(PS4-C66) Evaluating the Competency of Measures of Clinical Competency
Mark Terjesen, Ph.D., Rebecca Stock, B.A., St. John’s University

(PS4-C67) Development and Initial Test of an Identity Disturbance Skills Module for BPD
Madison M. Guter, M.A., Alice I. Cohen, B.A., Nathaniel R. Herr, Ph.D., American University

(PS4-C68) To Include or Not to Include?: Clinician Perspectives on Including Parents and Youth in Planning Treatment
Jennifer S. Schild, B.S., Regina Musicaro, M.S., Alora A. Rando, M.S., David A. Langer, ABPP, Ph.D., Suffolk University

(PS4-C69) Examining Online Disclosures of and Peer Responses to Suicide Risk: A Qualitative Analysis of Data from a Military Social Media Platform
Daniel Kessler, M.A., Kelly Zuromski, Ph.D., Matthew K. Nock, Ph.D., Harvard University

(PS4-C70) Validation of the Motivational Inventory Underlying Substance Use Engagement (MI-USE)
Rickie L. Miglin, M.A., Leah D. Church, B.A., Nadia Bounoua, M.A., Naomi Sadeh, Ph.D., University of Delaware

(PS4-C71) Oppositional Defiant Disorder, Irritability, and Internalizing Symptoms in College Students
Leonard A. Doerfler, Ph.D., Alexandra M. Burgess, Ph.D., Jeanine Skorinko, Ph.D., 1. Worcester State University, 2. Worcester Polytechnic Institute
(PS4-C72) Examining the Longitudinal Associations Between Parent Attentional Control and Child ADHD Symptoms in the Context of the COVID-19 Pandemic
Kelsey R. Eackles, B.S., Darcey M. Allan, Ph.D., Nicholas P. Allan, Ph.D., Brandon Koscinski, M.A., Catherine Accorso, M.A., Julie S. Owens, Ph.D., Frances A. Wymbs, Ph.D., Ohio University

(PS4-C73) Differences in Harassment Experienced by Cigarette and E-cigarette Users Under a Campus Smoking Ban
Delaney Dunn, M.S., Susanna V. Lopez, M.S., Emily Warner, B.A., Thad Leffingwell, Ph.D., Oklahoma State University

(PS4-C74) Does Health Anxiety Moderate the Relationship Between Health Self-efficacy and Health Behavior Adherence?
Bailey R. Pascuzzi, B.S.1, Staci Grant, M.A.1, Lauren Palmer, B.A.1, Harleen K. Sandhu, M.P.H., M.D.1, Steven L. Bistricky, Ph.D.1, Sara R. Elkins, Ph.D.1, Ryan J. Marek, Ph.D.2, Beth Auslander, M.S., Ph.D.3, 1. University of Houston, Clear Lake, 2. Sam Houston State University, 3. Teen Health Center

(PS4-C75) Does Family Functioning Moderate the Association Between Features of Hopelessness and Suicidal Ideation in Adolescents?
Zareen H. Mir, B.A., Katherine M. Tezanos, M.S., Christine Cha, Ph.D., Teachers College, Columbia University

**Poster Session 4D**

Key Words: ACT (Acceptance & Commitment Therapy), Community-Based, Veterans

(PS4-D76) Engaging Rural/minority Women Veterans Through Va-community Partnerships and 1-day Acceptance and Commitment Therapy Workshops: A Pilot Study
Derrecka M. Boykin, Ph.D.1, Alicia Mark, M.A.1, Aisha Calderon, MSW 2, Ken Woods, B.S.3, Merlyn M. Rodrigues, M.A.2, Tracey L. Smith, Ph.D.2, Lilian Dindo, Ph.D.2, 1. Michael E. DeBakey VA Medical Center, 2. Baylor College of Medicine, 3. VA South Central MIRECC

(PS4-D77) Problematic Smartphone, Experiential Avoidance, and Anxiety
Julia Y. Gorday, B.S., Joseph R. Bardeen, Ph.D., Auburn University

(PS4-D78) Parental Accommodation Mediates the Association Between Child Irritability and CBT Outcome for Anxiety Disorders in Children

(PS4-D79) Developing a Bilingual Training Program in an Academic Medical Setting
Hannah L. Jones, Ph.D., Meena Khowaja, Ph.D., Ashley Marchante-Hoffman, Ph.D., Cheyenne Hughes Reid, Ph.D., Nemours A.I. DuPont Hospital for Children
(PS4-D80) Changes in Negative Affect and the Preliminary Development of Affect Profiles in Adults with Anxiety Disorders Following Cognitive Behavioral Therapy
Saige R. Fong, Maya Nauphal, M.A., Elizabeth H. Eustis, Ph.D., Todd J. Farchione, Ph.D., David H. Barlow, ABPP, Ph.D., Boston University Center for Anxiety and Related Disorders

(PS4-D81) A Comparison of Approaches to Assess Social Influence on College Drinking: Non-specific Norms versus Specific Social Networks
Abby L. Braitman, Ph.D., Megan Strowger, M.S., Jennifer L. Shipley, M.P.H., Jordan A. Ortman, Old Dominion University

(PS4-D82) Social Impairment in ADHD and ASD: The Role of Emotion Regulation Difficulties
Emma Jaisle, B.S., Nicole B. Groves, M.S., Katie Black, B.S., Michael J. Kofler, Ph.D., Florida State University

(PS4-D83) Dissemination of CBT Training Through an International Mentorship Model
Cheryl Smerling, M.S., Nina Abrahambigio, B.S., Subasri Ashok, B.S., Sidney Perelman, B.S., Angelique Romulus, M.S., Eva L. Feindler, Ph.D., Long Island University

(PS4-D84) Daily Associations Between Drinking Intentions, Actual Consumption, and Drinking Consequences
Emily K. Junkin, B.A.1, Ryan K. Collier2, Cathy Law-Barraco, Ph.D.2, 1. The Virginia Consortium Program in Clinical Psychology, 2. Old Dominion University

(PS4-D85) Individual Differences in the Emotional Impact of COVID-19 on Disinhibited Behaviors

(PS4-D86) The Role of Positive Life Events in Protecting Against Mood and Anxiety Disorders
Julia S. Yarrington, M.A.1, Allison Metts, M.A.1, Richard E. Zinbarg, Ph.D.2, Robin Nusslock, Ph.D.2, Constance Hammen, Ph.D.1, Nicholas Kelley, Ph.D.3, Susan Bookheimer, Ph.D.1, Michelle G. Craske, Ph.D.1, 1. University of California Los Angeles, 2. Northwestern University, 3. University of South Hampton

(PS4-D87) Co-occurring Behavioral Symptoms and Peer Rejection in Youth with ASD: A Mediation by Peer Conflict
Rachel G. McDonald, M.S.1, Nardin Yacoub, M.S.1, Eden Fowler-Benton, B.A.1, Matthew D. Lerner, Ph.D.2, Erin Kang, Ph.D.1, 1. Montclair State University, 2. Stony Brook University

(PS4-D88) COVID-19 on Campus: Risk Perceptions and Efficacy Beliefs as Predictors of Undergraduates' Anxiety
Ann F. Bernhardt, None, Laura E. Sockol, Ph.D., Davidson College

(PS4-D89) Socializing After Rejection: An Experience-sampling Investigation of Daily Social Experiences
Gabriella Silva, B.S., Justine Brennan, B.A., Tiago Ferreira, B.S., Fallon R. Goodman, Ph.D., University of South Florida
(PS4-D90) The Online Social Circle: A Pilot Case Series Examining Cognitive-behavioral Group Therapy via Telehealth for Socially Anxious Adolescents
Anne Fraiman, M.A.1, Arielle Snow, M.A.1, Julia Weisman, M.A.1, Janice Lu, B.A.1, Phyllis S. Ohr, Ph.D.1, Anne Marie Albano, ABPP, Ph.D.2, 1. Hofstra University, 2. Columbia University Medical Center

(PS4-D91) Utilizing Measurement-based Care to Evaluate Treatment Outcomes for Low-income Patients in a Rural Community Clinic
Delaney M. Keller, B.S., Katherine M. Murray, Olivia M. Shaw, Alyssa J. Gatto, M.S., Hayoung Ko, M.A., Sydney B. Jones, B.S., Lee D. Cooper, Ph.D., Virginia Polytechnic Institute and State University

(PS4-D92) Substance Use Outcomes from the Child/adolescent Anxiety Multimodal Extended Long-term Study (CAMELS)
Jonathan C. Rabner, M.A., Thomas M. Olino, Ph.D., Philip C. Kendall, ABPP, Ph.D., Temple University

(PS4-D93) Long-term Risk Factors for Anxiety Disorder Emergence in Offspring of Anxious Parents
Isaac C. Smith, Ph.D.1, Golda S. Ginsburg, Ph.D.2, 1. University of Connecticut Health Center, 2. University of Connecticut

(PS4-D94) Trait Disinhibition, Boldness, and Meanness as Risk and Protective Factors to Later Antisocial Personality and ADHD Problems for Youth with ADHD Symptoms: A Triarchic Psychopathy Model Approach
Elizabeth SM Chan, M.A., M.S.1, Emily R. Perkins, M.S.1, Bridget M. Bertoldi, M.S.1, Kelsey Lowman, B.A.1, Catherine Tueblad, Ph.D.2, Laura A. Baker, Ph.D.2, Christopher J. Patrick, Ph.D.1, 1. Florida State University, 2. University of Southern California

(PS4-D95) COVID-19 Stress and Interpretation Bias
Allison B. Duncan, B.A., Stephanie G. Holmes, None, Sean J. Walulik, Cynthia L. Dulaney, Ph.D., Xavier University

(PS4-D96) The Influence of Sexual Assault History and Acute Intoxication on Sexual Assault Risk Detection: A Laboratory Test of Alcohol Myopia Theory Among College Women
Alexander Melkonian, Ph.D.1, Lindsay S. Ham, Ph.D.2, Alita Mobley, M.A.2, 1. Ralph H. Johnson VAMC, 2. University of Arkansas

(PS4-D97) Passing as Non-autistic in Autism Spectrum Disorder: A Systematic Review
Erin J. Libsack, M.A.1, Elliot G. Keenan, B.A.2, Caroline E. Freden, B.S.1, Julianne Mirmina, B.A.1, Nathaniel Iskhakov, B.A.1, Darsiya Krishnathasan1, Matthew D. Lerner, Ph.D.1, 1. Stony Brook University, 2. University of California, Los Angeles

(PS4-D98) The Effects of Single-session Mindfulness with recorded Scripts on Evoked Anger: a Randomized Controlled Trial
Haruka Wachi, M.A., Sei Ogawa, PhD, Airi Katsu, M.A., Nagoya City University Graduate School of Humanities and Social Sciences
(PS4-D99) Anxiety Sensitivity and Cannabis Use Motives Among Trauma-exposed Young Adult Cannabis Users
Nicole A. Short, Ph.D.\(^1\), Mariah K. Evans, B.A.\(^2\), Alexa M. Raudales, B.A.\(^3\), Mary O. Shapiro, Ph.D.\(^4\), Nicole H. Weiss, Ph.D.\(^3\), Norman B. Schmidt, Ph.D.\(^5\), 1. University of North Carolina at Chapel Hill, 2. Duke University Medical Center, 3. University of Rhode Island, 4. Southeast Louisiana Veterans Health Care System, 5. Florida State University
Friday, November 19, 2021

11:30 a.m. – 1:30 p.m.

POSTER SESSION 5

Poster Session 5A

Key Words: Anxiety, Depression, Race

(PS5-A1) Coping with COVID-19: Predictors and Protectors of Anxiety and Depression During the Pandemic
Nicolette D. Carnahan, M.A., Michele Carter, Ph.D., Tracy Sbrocco, Ph.D., 1. American University, 2. Uniformed Services University

(PS5-A2) Shutting down During Shutdown? Predictors of Depression and Anxiety in Working Adults During the Early COVID-19 Pandemic
CJ Fleming, Ph.D., Elon University

(PS5-A3) Investigating Sensation Seeking as a Predictor of False Identification Attainment and Associated Risks Among a College Student Sample
Madeline G. Foster, B.S., Megan G. Weishaar, M.S., Mark A. Prince, Ph.D., Bradley T. Conner, Ph.D., Colorado State University

(PS5-A4) Predicting Anxiety and Panic Symptomology: The Incremental Validity of CBT and ACT Processes
Christian A. Hall, M.A., Joshua J. Broman-Fulks, Ph.D., 1. Western Michigan University, 2. Appalachian State University

(PS5-A5) Weekly Within-person Increases in Neuroticism Are Associated with Session-to-session Increases in Anxiety, but Not Depressive, Symptoms in the Unified Protocol
Nicole Stumpp, B.S., Matthew W. Southward, Ph.D., Shannon Sauer-Zavala, Ph.D., University of Kentucky

(PS5-A6) Impact of covid-19 on Community Health Workers: Qualitative Analysis of Semi-structured Interviews
Diane G. Marin, M.A., Dina Bashoura, B.A., Hannah Jutzy, M.A., Maya M. Boustani, Ph.D., Loma Linda University

(PS5-A7) Examining the Daily Effects of Drug Use on Suicidal Ideation in a Dialectical Behavior Therapy Partial Hospital Program
Matison W. McCool, M.A., Nora E. Noel, Ph.D., University of North Carolina Wilmington
(PS5-A8) The Moderating Role of Anxiety Sensitivity on Change in Denial Coping Predicting COVID-19 Fear in College Students  
Anni M. Hasratian, M.A., Maria Izaguirre, None, Alicia E. Meuret, Ph.D., Thomas Ritz, Ph.D., Southern Methodist University

(PS5-A9) Item Content Analysis of Self-report Measures of Anxiety  
Eric Lee, Ph.D., Andy Wall, B.S., Myles Arendtson, B.A., Southern Illinois University

(PS5-A10) Correlates of Cannabis Product Choice in College Students  
Nicholas R. Livingston, B.S., Caitlin A. Falco, B.S., Lauren Zimmerman, M.S., Alison Looby, Ph.D., University of Wyoming

(PS5-A11) Mindfulness Skills, Emotion Dysregulation, and Coping Motives for Alcohol Use in an Analogue PTSD Sample  

(PS5-A12) Positive Interpretation Bias Protects Against the Development of Social Anxiety  
Christian A. Bean, M.A., Jonas Everaert, Ph.D., Jeffrey A. Ciesla, Ph.D., 1. Kent State University, 2. Ghent University

(PS5-A13) Does Cognitive Fusion Show up Similarly Across Two Behavioral Health Samples? Psychometric Properties and Invariance of the Greek–Cognitive Fusion Questionnaire (G-CFQ)  
Marianna Zacharia, M.S., Myria Ioannou, Ph.D., Artemis Theofanous, M.A., Vasilis S. Vasiliou, Ph.D., Maria Karekla, Ph.D., 1. University of Cyprus, 2. Private Practice, 3. University College Cork (UCC), School of Applied Psychology

(PS5-A14) Cognitive and Somatic Symptoms of Depression Differentially Relate to Inflammatory Diet and Inflammatory Biomarkers  

(PS5-A15) ADHD, Internet Gaming Disorder, and Alcohol Use in College Men and Women  
Helena F. Alacha, M.A., The University of Louisville

(PS5-A16) The Moderating Roles of Family of Origin Violence and Depression on Intimate Partner Violence-linked Drug Use  
Mary C. Jensen, Alisa R. Garner, M.A., Gregory Stuart, Ph.D., University of Tennessee, Knoxville

(PS5-A17) Towards Specifying Motives as Treatment Targets to Reduce Non-suicidal Self-injury (NSSI) and Alcohol Use in College Students: conformity Is Negatively Associated with NSSI in Students Who Drink  
Megan Chesin, Ph.D., Elisheva Adler, M.A., Megan Sedita, B.A., Tyler Kennedy, M.A., William Paterson University
(PS5-A18) Representation of Individuals with Comorbidities in Tourette Syndrome: A 20-year Systematic Review
Isaac P. Seneca, B.A.1, Brianna Sadighian, B.A., None1, Ogo Obi, B.A., M.A.1, Kianna Vargas, None1, Morgan Pangburn, B.S.2, Kendall White1, Benjamin J. Nash1, Anchal Malhotra1, Matthew Capriotti, Ph.D.1, Kenneth Phelps, Ph.D.1. 1. San Jose State University, 2. Arizona State University, 3. University of South Carolina

(PS5-A19) Understanding Patient Preferences in a Virtual Cognitive Behavioral Therapy Clinic
Sara E. Brown, B.S.1, Sara Mei, B.S.1, Harris E. Bajwa, B.A.1, Jacqueline R. Bullis, Ph.D.2, Scott L. Rauch, M.D.2, Courtney Beard, Ph.D.2. 1. McLean Hospital, 2. McLean Hospital/ Harvard Medical School

(PS5-A20) Effect of Values Clarification on Subjective Units of Distress Before, During, and After Acute Lab Stressor
Rachel A. Bond, B.A., Pallavi V. Babu, M.A., Alex H. Buhk, M.A., Jason C. Levine, Ph.D., University of Toledo

(PS5-A21) The Temporal and Contemporaneous Dynamics of Mood and Behavior

(PS5-A22) The Effect of the COVID-19 Pandemic on Telemental Health Practice
Demi Zhu, B.S.1, Samantha Paige, M.P.H., Ph.D.2, Henry Slone, B.S.1, Arianna Gutierrez, B.S.1, Caroline Lutzky, B.S.1, Hannah D. Hedriana, B.S., B.A.1, Janelle F. Barrera, M.P.H.1, Triton Ong, Ph.D.2, Brian E. Bunnell, Ph.D.1, 1. University of South Florida, 2. Doxy. me, 3. University of San Francisco Morsani College of Medicine

(PS5-A23) Does Decentering Mediate the Relationship Between Mindfulness and Stress and Anxiety?
Hana H. Lee, B.A., Jeffrey M. Greeson, Ph.D., Rowan University

(PS5-A24) Evaluating the Acceptability and Efficacy of a Brief Virtual Dialectical Behavioral Therapy Skills Group for College Students
Anjali T. Jain, M.A., Aaron M. Luebbe, Ph.D., April R. Smith, Ph.D., Vaishali V. Raval, Ph.D., Miami University

Poster Session 5B

Key Words: PTSD (Posttraumatic Stress Disorder), Technology / Mobile Health, College Students

(PS5-B25) The Association Between Smartphone Addiction and PTSD Is Mediated by Negative Posttraumatic Cognitions
Sarah E. Cotney, B.S., Makayla Collins, B.S., Kelsey Woodward, M.S., Jenni B. Teeters, Ph.D., Matt J. Woodward, Ph.D., Western Kentucky University
(PS5-B26) Feasibility of Hybrid Group-self-directed Training in Self-compassion for Emotion Regulation and Sleep

(PS5-B28) A Comparison of Administration Modalities of the Sentence Task
Samuel R. Cares, M.A., MSW, Katherine P. Mangen, M.A., Kevin Wu, Ph.D., Northern Illinois University

(PS5-B29) Treatment Effects of a Pilot Dialectical Behavior Therapy Skills Training Group in a Singaporean Psychiatric Outpatient Sample
Michelle Y. Tan, PsyM¹, Rie Kubota, Ph.D.², Joelle Lim, M.A.², Mavis Y. Seow, M.A., M.S.², 1. Institute of Mental Health, Singapore; James Cook University, Singapore, 2. Institute of Mental Health, Singapore

(PS5-B30) Interacting with a Friend Following a Trauma Film Clip Is Associated with Greater Reductions in Post-exposure Anxiety
Matt J. Woodward, Ph.D.¹, Joshua D. Clapp, Ph.D.², Sarah E. Cotney, B.S.¹, Olivia Dick, B.S.¹, Gayle Beck, Ph.D.³, 1. Western Kentucky University, 2. University of Wyoming, 3. University of Memphis

(PS5-B31) Partner Pronoun Use Predicts Negative Affect and Perceived Partner Support Following Acute Stress Induction in Romantic Relationships
Kaitlyn McCarthy, B.A.¹, Christina Balderrama-Durbin, Ph.D.², 1. Eastern Michigan University, 2. Binghamton University

(PS5-B32) A Case Study of “self-triggering” in a Veteran with Combat-related PTSD
Regina Musicaro, M.S.¹, Benjamin W. Bellet, M.S.², Richard J. McNally, Ph.D.², 1. Suffolk University, 2. Harvard University

(PS5-B33) Examining Religious Coping as a Moderator Between Physical and Sexual Abuse and PTSD Symptoms in Women Who Have Experienced Intimate Partner Violence
Mya E. Bowen, B.A., Samuel J. Brackens, Bre’Anna L. Free, M.S., Rimsha Majeed, M.S., Rebecca J. Zakarian, M.S., Gayle Beck, Ph.D., University of Memphis

(PS5-B34) Stigma and Its Impacts Among Chronic Pain Patients Treated with Opioids: A Systematic Literature Review
Anderson B. Rowan, Ph.D., Anna T. Magnante, B.A., M.A., Lindsay Solfelt, M.A., Regent University

(PS5-B35) Understanding Sexual Assault Disclosure in the LGBTQ+ Community
Briana K. Horrock, Caitlin M. Pinciotti, Ph.D., Rogers Behavioral Health

(PS5-B36) Applying the Uses and Gratifications Theory to Identify Motivational Factors Behind Young Adult’s Participation in Viral Social Media Challenges on Tiktok
Grace E. Falgoust, B.A., Emma L. Winterland, Alden Parker, B.S., Heidi Zinzow, Ph.D., Kapil Chalil Madathil, Ph.D., Clemson University

(PS5-B37) Meaning in Life as a Protective Factor Against the Effects of Loneliness on Suicidal Ideation: A Longitudinal Analysis
Bradley A. Brown, B.S., Gabriella Silva, B.S., Fadia Fakhre, Kimberly Davis, B.A., Fallon R. Goodman, Ph.D., University of South Florida
(PS5-B38) Informing a Population-level Intervention to Improve the Sleep of Airmen
Jordan M. Ellis, Ph.D.1, La Toya N. Brown, Psy.D.1, Alyssa V. Joiner, M.A., Ph.D.1, Jason Ruggieri, Ph.D.2, Marc A. Patience, Ph.D.1, John Blue Star, Ph.D.1, Gerald W. Talcott, ABPP, Ph.D.3, 1. United States Air Force 2. United States Air Force, Biomedical Sciences Corps, 3. University of Virginia

(PS5-B39) Building Stronger Allies: Efficacy of a Brief Web-based Intervention Targeting Interpersonal Risk Factors for Suicide Among Active-duty Military
Danielle M. Morabito, M.S., Norman B. Schmidt, Ph.D., Florida State University

(PS5-B40) Shame, Suicidal Ideation and Non-suicidal Self-injury: The Mediating Role of Anger
Jessica V. Weatherford, PsyM, Allison K. Ruark, Ph.D., Linda Oshin, Ph.D., Melanie R. Rosen, M.A., Madison E. Taylor, B.A., Shireen L. Rizvi, ABPP, Ph.D., Rutgers University

(PS5-B41) Functional Impairment of Children and Adolescents Seeking Treatment at a Hospital-based Outpatient Clinic Serving Military Families
William M. Folberth, Psy.D.1, Danielle Bayer, B.A.1, Kevin Hardiman, B.S.2, Kristin L. Szuhany, Ph.D.1, 1. New York University School of Medicine, 2. Yeshiva University, Ferkauf Graduate School of Psychology

(PS5-B42) Inpatient Hospitalization for Suicidality: Serious Mental Illness Diagnoses and the Intersection of Race and Rurality
Shayla R. Moniz, B.S., John Paul Jameson, Ph.D., Adam Hege, Ph.D., Appalachian State University

(PS5-B43) Rumination and Non-suicidal Self-injury: A Meta-analytic Review

(PS5-B44) Problem Solving Approaches of Individuals Experiencing Suicidal Ideation and Behavior
Abby A. Mandel, Ph.D., Catharine Krush, M.S., Stephanie Salmento, Mataya Skraba, B.S., Lizzy Tovar-Martinez, Jaesen Evangelista, The Catholic University of America

(PS5-B45) The Multifinality of Traumatic Brain Injury: Suicide Risk Associated with Symptom Clusters
Keyne C. Law, Ph.D.1, Janelle Y. Wee, M.S.1, Katherine L. O’Connell, M.S.1, Nicole L. Moreira, M.A.1, Olivia C. Preston, M.A.2, Megan L. Rogers, Ph.D.3, Joye Anestis, Ph.D.4, 1. Seattle Pacific University, 2. University of Southern Mississippi, 3. Mount Sinai Beth Israel, 4. Rutgers, The State University of New Jersey

(PS5-B46) Suicide Attempt Rates in Asian Countries: A Case of Cultural Discrepancies
Euncie Magat, M.S.1, Shaune-Ru Wang, B.A.1, Ricardo F. Munoz, Ph.D.1, Nancy H. Liu, Ph.D.2, Yan Leykin, Ph.D.1, 1. Palo Alto University, 2. University of California, Berkeley

(PS5-B47) Suicide Bereavement as a Potentially Morally Injurious Experience
Gabriella M. Zeller, M.S., Carolyn Pepper, Ph.D., Kandice Perry, M.S., Lara Glenn, M.S., Rachael Dumas, B.A., University of Wyoming

(PS5-B48) Examining Risk and Protective Factors Among Increasingly Suicidal Adolescents in the Community
Emily A. Mueller, B.A., Ki Eun Shin, Ph.D., Christine Cha, Ph.D., Teachers College, Columbia University
(PS5-B49) The Effect of Social Rejection on Executive Control and Cognitive Reappraisal for Non-suicidal Self-injury
Alyssa L. Conigliaro, M.A., Madison Fitzpatrick, B.A., Emily Barkley-Levenson, Ph.D., Hofstra University

Poster Session 5C

Key Words: Mindfulness, Evidence-Based Practice, School

(PS5-C50) Assessing School-based Mindfulness Interventions with Evidence-based Guidelines

(PS5-C51) Identifying Central Symptoms Among Disgust Sensitivity, Shame, Guilt, Food Avoidance, Body Mass Index, and Eating Disorder Symptoms
Sarah E. Ernst, B.S., Samantha P. Spoor, B.S., Irina Vanzhula, M.S., Cheri A. Levinson, Ph.D., Christina Ralph-Nearman, M.S., Ph.D., University of Louisville

(PS5-C52) Childhood Gender Nonconformity Has an Indirect Association with BPD Features Through Invalidation for Sexual Minority Men but Not Women: A Moderated Mediation Model
Logan M. Wahl, B.A., Jennifer S. Cheavens, Ph.D., Daniel S. Brunette, B.A., The Ohio State University

(PS5-C53) Getting Down to Business: An Examination of Occupational Outcomes in Cognitive Behavioral Therapy for Depression
Iony D. Ezawa, Ph.D.1, Graham C. Bartels, B.S.2, Daniel R. Strunk, Ph.D.2, 1. Vanderbilt University, 2. The Ohio State University

(PS5-C54) Relationships Between Risky Behaviors, Capability for Suicide, and Suicidal Ideation
Logan M. Smith, B.S., Tony T. Wells, Ph.D., Oklahoma State University

(PS5-C55) Call 911! How Different Demographics May Influence Who Calls for Help During Suicidal Crisis
Katherine L. O’Connell, M.S., Samantha Jacobson, M.S., Andrew Ton, B.A., Keyne C. Law, Ph.D., Seattle Pacific University

(PS5-C56) Systemic Factors Predict Self-efficacy for Suicide-related Intervention Among Rural and Urban School Mental Health Providers
Rebekah Smith, M.A.1, John Paul Jameson, Ph.D.2, Kurt D. Michael, Ph.D.2, Jamie L. Yarbrough, Ph.D.2, Brittaney Foster, B.S.2, 1. Etheridge Psychology, 2. Appalachian State University
(PS5-C57) Personal Gun Ownership by School-based Clinicians Does Not Predict Differential Attitudes Toward or Willingness to Use Means Reduction Strategies in Managing Suicide Risk
John Paul Jameson, Ph.D., Shayla R. Moniz, B.S., Kelsey B. Charbeneau, Kurt D. Michael, Ph.D., Appalachian State University

(PS5-C58) How Does Internet Delivered Dialectical Behavior Therapy Skills Training Reduce Suicide Risk? Examining the Granularity of Suicidal Ideation
Joseph H. Rameer, Chelsey R. Wilks, Ph.D., University of Missouri, St. Louis

(PS5-C59) Associations Between Social Media Use and Symptoms of Depression, Anxiety, and Loneliness in a Nationally Representative Sample of Adolescents
Jacqueline Howard, B.A., Holly M. Thompson, Tennisha Riley, Ph.D., Robinson De Jesús-Romero, M.S., Lorenzo Lorenzo-Luaces, Ph.D., Lauren A. Rutter, Ph.D., Indiana University Bloomington

(PS5-C60) Internalized Identity Illegitimacy Mediates the Link Between Antibisexual Stigma and Risk for Sexual Assault in Young Adult Bisexual Women
Selime R. Salim, M.A., Seth M. Wilensky, B.A., Terri L. Messman, Ph.D., Miami University

(PS5-C61) Supporting Local Wellbeing Through University-church Partnerships
Matthew D. McCall, B.S., Erica A. Mitchell, Ph.D., Zahra Amer, B.A., Michaela J. DiPillo, B.A., Kristina Gordon, Ph.D., University of Tennessee, Knoxville

(PS5-C62) Object and Other Interconnectedness in Veterans with Hoarding Disorder

(PS5-C63) Viewing Death as an Escape from Pain Differentiates Between Those with and Without Suicidal Thoughts and Behaviors
Jayla Melvin, Logan M. Smith, B.S., Emma Unruh-Dawes, M.S., Tony T. Wells, Ph.D., Oklahoma State University

(PS5-C64) Self-harm Behaviors Before and During the COVID-19 Pandemic
Hillary Kingman, M.S.1, Ricardo F. Munoz, Ph.D.1, Nancy H. Liu, Ph.D.2, Suzanne Barakat, M.D.3, Yan Leykin, Ph.D.1, 1. Palo Alto University, 2. University of California, Berkeley, 3. University of California San Francisco

(PS5-C65) Adolescents Girls’ Close Friendship Dynamics as Prospective Predictors of Self-injurious Thoughts and Behaviors

(PS5-C66) The Moderating Effect of Pain Attitudes on Somatization and Acquired Capability for Suicide in an Asian American Sample
Janelle Y. Wee, M.S., Yu-Chin Lin, M.S., Jingyan Gu, B.A., Keyne C. Lau, Ph.D., Seattle Pacific University
(PS5-C67) Skill Acquisition in Parent Child Interaction Therapy Enhanced Teach Group for Fathers  
Julia Weisman, M.A., Jamie Scharoff, M.A., Janice Lu, B.A., Vanessa Y. Ng, M.A., M.S., Phyllis S. Ohr, Ph.D., Hofstra University  

(PS5-C68) The Impact of COVID-19 on Dating Among College Students  
Destyn Jones, B.A., Ashley Williams, B.A., M.A., Susan L. Kenford, B.A., M.A., Ph.D., Xavier University  

(PS5-C69) Finding a Different Vantage Point: Examining the Impact of Cognitive Distancing from Intrusive Thoughts  
Sarah L. Adut, M.A., Kelechi P. Uzoegwu, B.S., Joshua C. Magee, Ph.D., Miami University  

(PS5-C70) Structural Barriers and the Indirect Effect of Depression on HIV-related Health Outcomes  
Noelle A. Mendez, M.S., Steven A. Safren, Ph.D., University of Miami  

(PS5-C71) Excessive Reassurance Seeking, Marital Satisfaction, and Depressive Symptoms: Comparing the Interpersonal and Marital Discord Models of Depression  
Bailey A. Steele, B.A., Mark A. Whisman, Ph.D., University of Colorado, Boulder  

(PS5-C72) Suicidal Thoughts and Behaviors in Young Children: Cognitive, Behavioral, and Affective Risk Factors  
Anjali Gottipaty, B.A.¹, Claudia Paszek, B.A.¹, Lydia Lin, B.A.², Richard Liu, Ph.D.³, Sarah Martin, Ph.D.⁴, Anthony Spirito, Ph.D.¹, John Boekamp, Ph.D.², 1. Brown University and Butler Hospital, 2. Brown University, 3. Harvard University, 4. Simmons College  

(PS5-C73) Trauma and HIV: An Examination of Trauma-focused Interventions for Sexual Minority Men with Histories of Childhood Sexual Abuse  
Neil D. Schwartz, B.S.¹, Victoria Navarro, M.A.², Dianne Gaviria, M.S.¹, 1. Nova Southeastern University, 2. William Paterson University  

(PS5-C74) Using Early Childhood Adversity for Short-term Prediction of Suicidal Behavior  
Jordyn R. Ricard, B.A., Franckie Castro-Ramirez, M.A., Matthew K. Nock, Ph.D., Harvard University  

Poster Session 5D  

Key Words: Stigma, Parent Training, Culture  

(PS5-D75) Cultural Variation in Parental Attitudes Towards Child Mental Health Services  
Kaylena R. Mann, Kaylen Sanchez, B.A., Jordyn Buabeng, Catherine Perez, B.A., Sarah Cabrera, Argero Zerr, Ph.D., California State University, Channel Islands  

(PS5-D76) Shame, Alcohol Intoxication, and Deliberate Self-harm in Men and Women  
Lissa N. Mandell, B.S.¹, Michael S. McCloskey, Ph.D.², Jennifer R. Fanning, Ph.D.³, Michael R. Nadorff, Ph.D.¹, Mitchell E. Berman, Ph.D.¹, 1. Mississippi State University, 2. Temple University, 3. McLean Hospital, Harvard Medical School
(PS5-D77) Examining the Indirect Effect of Parental Beliefs About Offspring Anxiety in the Association Between Parental Anxiety and Parenting Behaviors
Hannah P. Friedman, M.A., Maxwell J. Luber, B.A., Sarah A. Bilsky, Ph.D., University of Mississippi

(PS5-D78) Lean on Me: Social Support and Mental Health in the Transition to College
Margaret A. Azu, B.A., Elizabeth T. Kneeland, Ph.D., Amherst College

(PS5-D79) Deliberate Practice to Improve Behavioral Parent Training Skills Among Clinical Trainees
Olivia A. Walsh, BS, Gabrielle Gottschall, B.A., Mark Terjesen, Ph.D., St. John’s University

(PS5-D80) Comparing Mental Health and Self-care Practices of Professional Psychology Program Students and Alumni Based on Sexual Orientation

(PS5-D81) Parent and Teen Perspectives on Communication About Substance Use, Mental Health, and Social Networking Site Use: Implications for Parent-based Interventions
Dana M. Litt, Ph.D., Melissa A. Lewis, Ph.D., University of North Texas Health Science Center

(PS5-D82) Investigating the Impact of the COVID-19 Pandemic on Symptom Presentation and Treatment Efficacy of a Suicide Prevention Program for Adolescents
Ellen M. Andrews, B.A., Jessica King, Ph.D., Rebecca J. Wildman, B.A., Alexandra Moorehead, B.S., Beth D. Kennard, ABPP, Psy.D., University of Texas Southwestern Medical Center/Children’s Health – Children’s Medical Center

(PS5-D83) Rejection Sensitivity and Hoarding Symptoms
Nicole Mejia, Kevin Merideth, M.S., Karly Pyles, Mary E. Dozier, Ph.D., Mississippi State University

(PS5-D84) Is Hoarding a Problem with Relatedness?: Hoarding and Self-determination Theory
Mary E. Dozier, Ph.D., Ben Porter, Ph.D., Mississippi State University

(PS5-D85) Women Objectifying Women: How Power Predicts the Objectification of Others
Sarah E. Attaway, B.A., Diana Rancourt, Ph.D., University of South Florida

(PS5-D86) Personal Control Explanatory Style Relates to Increased Emotion Regulation and Resilience Following a Brief Resiliency Training
Alicia Klanecky Earl, Ph.D., Thomas L. Budesheim, Ph.D., Erin Budesheim, B.S., Matt Steranka, B.S., Creighton University, 1. Creighton University, 2. University of Illinois Urbana-Champaign

(PS5-D87) Terminating Fat Talk While Preserving Friendship: What Works Best?
Isabel F. Anderson, Denise M. Martz, Ph.D., Doris G. Bazzini, Ph.D., Appalachian State University
(PS5-D88) Predictors of Impairment and Self-concept in Children and Adolescents with Persistent Tic Disorder

(PS5-D89) A Critical Review of the Use of Acceptance and Commitment Therapy to Treat Adult Obsessive-compulsive Disorder
Kelsey Evey, M.S., Shari A. Steinman, Ph.D., West Virginia University

(PS5-D90) An Evaluation of State and Trait Associations Between Suicide and Executive Functioning Among Preadolescents: A Nationally Representative Study
Rachel F. Walsh, B.S., Ana E. Sheehan, B.A., Alexandra Bettis, Ph.D., Richard Liu, Ph.D., 1. Temple University, 2. University of Delaware, 3. Vanderbilt University Medical Center, 4. Massachusetts General Hospital

(PS5-D91) Balancing a Clinical Psychology Doctoral Program and Motherhood: Considerations and Recommendations for Doctoral Programs and Clinical Training Sites

(PS5-D92) Differential Role of Affect Management Skills in Moderating the Session-by-session Association Between Dietary Restriction and Binge Eating During Behavior Treatments for Bulimia Nervosa
Paakhi Srivastava, Ph.D., Adrienne S. Juarascio, Ph.D., Drexel University

(PS5-D93) Does Skill Utilization During Cognitive Behavior Therapy for Bulimia Nervosa Predict Outcomes?
Paakhi Srivastava, Ph.D., Olivia Clancy, B.S., Adrienne S. Juarascio, Ph.D., Drexel University

(PS5-D94) A Qualitative Analysis of Barriers and Adaptations to Ongoing Sustainability of DBT in Schools: Implications for Future Research

(PS5-D95) Implementing Research Ethics Training in a Psychology and Neuroscience Research Experience for Undergraduates Program
Faigy Mandelbaum, M.A., Arielle Hershkovich, B.A., Jennifer Drake, Ph.D., Laura Rabin, Ph.D., 1. Hofstra University, 2. Montclair State University, 3. City University of New York, Brooklyn College

(PS5-D96) Measurement-based Care with Youth in a Community Clinic: Patterns of Compliance and Effectiveness
Sydney B. Jones, B.S., Alyssa J. Gatto, M.S., Hayoung Ko, M.A., Lee D. Cooper, Ph.D., Delaney M. Keller, B.S., Virginia Polytechnic Institute and State University
Friday Poster Sessions

1:45 p.m. – 3:45 p.m.

POSTER SESSION 6

Poster Session 6A

Key Words: Suicide, Prevention, School

(PS6-A1) A Preliminary Evaluation of Counseling on Access to Lethal Means (CALM) Training in a Sample of School-based Clinicians
John Paul Jameson, Ph.D., Kurt D. Michael, Ph.D., Courtney P. Whitaker, B.S., Brittany Foster, B.S., Appalachian State University

(PS6-A2) Exploring Difficulties in Emotion Regulation as a Mediator Between Resilience and Symptom Severity in Patients with Depression and Anxiety
Joseph Diehl, B.A.¹, Moria J. Smoski, Ph.D.¹, Mark Zimmerman, M.D.², 1. Duke University, 2. Warren Alpert Medical School of Brown University

(PS6-A3) Friendship Conflict and Expressive Flexibility Predict Depression in Late Adolescents
Jenna B. Marzougui, B.A.¹, Molly E. Hale, M.S.², Sarah Baldwin¹, Janice L. Zeman, Ph.D.¹, 1. College of William and Mary, 2. University of Georgia

(PS6-A4) Mental Health of Women in Emerging Adulthood: An Assessment of in Person and Technological Sexual Assault
Denise M. Martz, Ph.D., Emma A. Albertino, Twila Wingrove, Ph.D., Appalachian State University

(PS6-A5) Initial Validity Evidence for the Menstrual-related Symptoms Questionnaire in a U.S. College Student Sample
Morgan L. Ferretti, B.S.¹, Taylor B. Stanley, M.A.², Jessica G. Irons, Ph.D.¹, 1. James Madison University, 2. Auburn University
(PS6-A6) Working Together: An Exploration of Adolescent Alliance in Family Therapy
Madeline Little, B.A.1, Lila Breynesteyn, B.A.2, Nicole P. Porter, M.A.2, Alexandra MacLean, M.A.2, Molly Bobek, LCSW2, Aaron Hogue, Ph.D.2, 1. Fordham University, 2. Partnership to End Addiction

(PS6-A7) Trait Mindfulness as a Moderator Between Adverse Childhood Experiences and Mental Health Outcomes
Katherine Ranton, B.S., M.S., Stephen Fox, B.S., M.A., Samantha Harrison, Kristin Montalvo, M.A., Jeewa Babu, M.A., Gerald Strait, Ph.D., Julia Strait, Ph.D., Valerie Morgan, Ph.D., University of Houston, Clear Lake

(PS6-A8) Psychometric Properties of the Short Health Anxiety Inventory: Factor Structure and Criterion Validity During an Acute Health Risk
Kara L. Buda, M.A., David L. Yap, M.A., Evelyn Behar, Ph.D., Hunter College, City University of New York

(PS6-A9) Emotion Expressivity in Toddlers with ASD: Observation and Parent Report

(PS6-A10) Shared Traumatic Reality: A Qualitative Study of Clinician Experiences Providing Mental Health Treatment During COVID-19
Rachel A. Van Boxtel, B.S.1, Samantha L. Connolly, Ph.D., Julia R. Potter, B.A.1, Jessica M. Lipschitz, Ph.D.1, 1. Brigham and Women’s Hospital / Harvard Medical School, 2. VA Boston Healthcare System / Harvard Medical School

(PS6-A11) Barriers and Facilitators to Assessment of Suicidal Thoughts in Ecological Momentary Assessment Among Undergraduate Students
Joanne S. Kim, B.A., Allison K. Ruork, Ph.D., Shireen L. Rizvi, ABPP, Ph.D., Evan M. Kleiman, Ph.D., Rutgers, The State University of New Jersey

(PS6-A12) Intolerance of Uncertainty During Unprecedented Times: Testing the Moderating Effect of COVID-19 Concerns and Impact on Longitudinal Changes in Contamination Fears

(PS6-A13) Revisiting Motives for College Student Alcohol Use
Samuel Davis, M.S., Bradley T. Conner, Ph.D., Mark A. Prince, Ph.D., Colorado State University

(PS6-A14) A Preliminary Study Evaluating the Effects of Trigger Warnings on Sensitive, Survey-based Research Participation
Rebeka Howardson, M.Sc. Student1, Kathryn M. Bell, Ph.D.1, Tara L. Cornelius, Ph.D.2, 1. Acadia University, 2. Grand Valley State University

(PS6-A15) The Continued Benefit of Distress Tolerance During the COVID-19 Pandemic
Odette Manresa, M.S., Sarah A. Hartmann, B.A., Nasreen J. Hidmi, M.S., Matthew T. Sutherland, Ph.D., Elisa Trucco, Ph.D., Florida International University
(PS6-A16) Heated Yoga for Depression: Predictors of Class Attendance in a Randomized Controlled Trial
Emily K. Tan, B.A., Michael Pittman, B.A., Megha Nagaswami, B.A., David Mischoulon, M.D., Ph.D., Maren B. Nyer, Ph.D., Massachusetts General Hospital

(PS6-A17) Psychological Correlates of Animal Abuse and Intimate Partner Violence: An Intersectional Analysis
Kathleen D. Wilson, M.A., Patti A. Timmons Fritz, Ph.D., University of Windsor

(PS6-A18) The Interaction of Anxiety Sensitivity and Sleep Disturbances in Relation to Adolescent Symptoms of Panic Disorder
Emily K. Olson, Maxwell J. Luber, B.A., Hannah P. Friedman, M.A., Sarah A. Bilsky, Ph.D., University of Mississippi

(PS6-A19) The Role of External Weight Bias Through Internalization on Body Shame, Obligatory Exercise, and Eating Disorder Symptoms Across Racial/ethnic Groups
Allison Cunning, M.A.1, Cody Staples, M.A.1, Diana Rancourt, Ph.D.1, Rachel F. Rodgers, Ph.D.2, 1. University of South Florida, 2. Northeastern University

(PS6-A20) Effects of Trauma on Spirituality/religion and Outcomes of Spiritually-integrated Cognitive Behavioral Therapy
Alana M. Johnston, B.S., Eleanor Schuttenberg, B.S., Mia Drury, B.A., David H. Rosmarin, ABPP, Ph.D., Harvard Medical School

(PS6-A21) Maternal Depression, Partner Violence, and Child Developmental Delays in a Child Welfare Sample

(PS6-A22) Effects of Adolescent Motivation and Personality on Adherence and Success in a Voluntary Residential Bootcamp Program
Lydia Sigurdson, B.A.1, Nora E. Charles, Ph.D.1, Christopher T. Barry, Ph.D.2, 1. University of Southern Mississippi, 2. Washington State University

(PS6-A24) An Investigation of Alcohol and Substance Use Patterns During the COVID-19 Pandemic
Amanda J. Vincent, M.A., Katherine E. Wenger, M.A., Susan L. Kenford, B.A., M.A., Ph.D., Xavier University

(PS6-A25) History of Traumatic Events and Demographic Features of Functional Gastrointestinal Distress Symptom Severity
Jillian B. Berfield, B.A., Steven E. Bruce, Ph.D., University of Missouri, St. Louis

**Poster Session 6B**

Key Words: Risky Behaviors, Abuse / Maltreatment, Substance Abuse

(PS6-B26) Effects of a Brief Distress Tolerance Intervention on Cannabis Craving and the Late Positive Potential
Thomas J. Preston, B.S., Richard Macatee, Ph.D., Auburn University
(PS6-B27) Examining Interrelationships of Syndemic Problems Among People with HIV in South Africa: A Network Analysis
Jasper S. Lee, M.S., Lena S. Andersen, Ph.D., 1, Amelia M. Stanton, Ph.D., 2, Sierra Bainter, Ph.D., 1, Jessica F. Magidson, Ph.D., 4, Ashraf Kagee, M.P.H., Ph.D., 3, Norik Kirakosian, B.S., 6, John Jaska, Ph.D., 7, Conall O’Cleirigh, Ph.D., 3, Steven A. Safren, Ph.D., 1, 1. University of Miami, 2. University of Copenhagen, 3. Massachusetts General Hospital/Harvard Medical School, 4. University of Maryland, College Park, 5. Stellenbosch University, 6. Massachusetts General Hospital, 7. University of Cape Town

(PS6-B28) A Multi-method Examination of Sluggish Cognitive Tempo in Relation to Sleep and Circadian Function in Adolescents with and Without ADHD
Kiley Yeaman, B.A., 1, Chaya Fershtman, B.A., 1, Joseph Fredrick, M.A., 1, Xiaoqian Yu, Ph.D., 1, Joshua Langberg, Ph.D., 2, Stephen P. Becker, Ph.D., 1, 1. Cincinnati Children’s Hospital Medical Center, 2. Virginia Commonwealth University

(PS6-B29) COVID-19 Stress and the Health of Black Americans in the Rural South
Olutosin Adesogan, B.S., 1, Justin Lavner, Ph.D., 1, Sierra Carter, Ph.D., 2, Steven R. Beach, Ph.D., 1, 1. University of Georgia, 2. Georgia State University

(PS6-B30) Becoming a Therapist: The Lived Experience of Psychiatry Residents Learning CBT
Kenneth Phelps, Ph.D., 1, Jewel Harvey, M.D., 2, Ashley Jones, M.D., 1, 1. University of South Carolina, 2. Prisma Health, University of South Carolina

(PS6-B31) The Effect of Internet Addiction and Telehealth on Anxiety Treatment Outcomes
Molly Friedel, B.S., 1, Jiaqi Zhou, M.A., 1, Benjamin D. Johnides, Ph.D., 2, Alexandra P. Bishop, B.A., 1, Ethan Chee, B.S., 1, David H. Rosmarin, ABPP, Ph.D., 3, 1. Center for Anxiety, Brooklyn, NewYork, 3. Harvard Medical School

(PS6-B32) Associations Between Momentary Internalized Sexual and Gender Minority Stress and Affect in the Daily Lives of Sexual Minority Women
Emily Panza, Ph.D., 1, Gabriela López, Ph.D., 2, 1. Warren Alpert Medical School of Brown University, 2. Brown University

(PS6-B33) Validating the Addictions Neuroclinical Assessment Among a Diverse Sample of Drinkers
Elena Stein, M.S., 1, Eric Claus, Ph.D., 2, Katie Witkiewitz, Ph.D., 1, 1. University of New Mexico, 2. The Mind Research Network

(PS6-B34) The Relationship Between Caregiver Factors and Child Mental Health Symptoms Following Child Sexual Abuse
Gina C. May, B.A., Katie Meidlinger, M.A., Akemi E. Mii, M.A., Kelsey McCoy, M.A., Emily A. Sonnen, M.A., T. Zachary Huit, M.A., Hannah M. Coffey, M.A., Mary Fran Flood, Ph.D., MSW, David Hansen, Ph.D., University of Nebraska, Lincoln

(PS6-B35) Families Need Help Too: Exploring the Needs of Families After Child Suicide Attempts
Sara Kimble, B.S., Leila Sachner, B.A., Carey Sevier, B.S., M.S., Kelly V. Klein, B.S., Luciana G. Payne, Ph.D., Alan E. Fruzzetti, Ph.D., Cynthia Kaplan, Ph.D., McLean Hospital/ Harvard Medical School
(PS6-B36) The Role of Race/ethnicity and Gender in College Student Preferences for Therapists and Therapy

(PS6-B37) Racial Discrimination Moderates the Association Between Alcohol Consumption and Alcohol-related Consequences Among First Nation Youth
Tessa Nalven, M.A., Melissa R. Schick, M.A., Michael Crawford, M.A., Nichea Spillane, Ph.D., University of Rhode Island

(PS6-B38) Relationship Between Caregiver Hopefulness and Youth Mental Health Problems and Functioning in a Large Community Mental Health Sample Within a Youth System of Care
Andrea C. Ng, B.A., Tommie M. Laba, M.A., Brad Nakamura, Ph.D., University of Hawai’i at Manoa

(PS6-B39) The Impact of Discrimination on General and Covid-related Stress
Linda Oshin, Ph.D., John K. Kellerman, B.A., Joanne S. Kim, B.A., Qingqing Yin, M.S., Annmarie Wacha-Montes, Psy.D., Shireen L. Rizvi, ABPP, Ph.D., Evan M. Kleiman, Ph.D., Rutgers, The State University of New Jersey

(PS6-B40) Outness, Social Support, and Mental Health Among Sexual Minority College Students

(PS6-B41) Comparing Video-based versus In-person Psychotherapy for Depression: A Meta-analysis of Efficacy and Attrition Risk
Annaleis K. Giovanetti, M.A.1, Stephanie E. Punt, M.A.1, Eve-Lynn Nelson, Ph.D.2, Stephen S. Ilardi, Ph.D.1, 1. University of Kansas, 2. University of Kansas Medical Center

(PS6-B42) Changes in Therapist-reported Competence with Trauma-focused Cognitive-behavioral Therapy During a Community-based Learning Collaborative
Megan O. Bird, B.S.1, Samuel O. Peer, Ph.D.1, Rochelle F. Hanson, Ph.D.2, 1. Idaho State University, 2. Medical University of South Carolina

(PS6-B43) Integrating Clinical and Biological Science During the COVID-19 Pandemic: An Empirical Investigation in Early Adolescence
Ellen Jopling, M.A., Katerina Rnic, Ph.D., Alison Tracy, M.A., Joelle LeMoult, Ph.D., The University of British Columbia

(PS6-B44) Examining Preliminary Outcomes for a Virtual Partial Hospital Program for Eating Disorders
Taylor Gardner, B.A., Melanie Smith, Ph.D., Annaika Khoday, B.S., Gayle Brooks, Ph.D., Heather Thompson-Brenner, Ph.D., The Renfrew Center

(PS6-B45) Core Beliefs About Parenting, Autonomy, Relatedness & Competence in Drug Treatment Court Parents
Christian N. Sanders, B.S., B.A., Sally MacKain, Ph.D., University of North Carolina Wilmington
(PS6-B46) Secondary Benefits of School Nurse-delivered CBT for Anxious Youth
Isaac C. Smith, Ph.D.,1 Anneliese J. DeVito, B.A.,1 Thomas J. Harrison, M.S.,1 Carissa M. Orlando, Ph.D.,1 Kelly Drake, Ph.D.,2 Golda S. Ginsburg, Ph.D.,1 1. University of Connecticut Health Center, 2. Anxiety Treatment Center of Maryland, 3. University of Connecticut

(PS6-B47) What Affects Child Outcomes? Investigating Additional Factors in a School Nurse-delivered Intervention for Anxious Youth
Carissa M. Orlando, Ph.D.,1 Isaac C. Smith, Ph.D.,1 Anneliese J. DeVito, B.A.,1 Thomas J. Harrison, M.S.,1 Kelly Drake, Ph.D.,2 Golda S. Ginsburg, Ph.D.,3 1. University of Connecticut Health Center, 2. Anxiety Treatment Center of Maryland, 3. University of Connecticut

(PS6-B48) Prolonged Exposure Therapy for Treating PTSD Among Individuals Receiving Methadone or Buprenorphine for Opioid Use Disorder: A Pilot Study
Kelly R. Peck, Ph.D., Nathaniel Moxley-Kelly, B.A., Rebecca Cole, B.A., Gary Badger, M.S., Stacey C. Sigmon, Ph.D., University of Vermont

(PS6-B49) Factors Associated with Teacher’s Sustained Intervention Implementation Following Intensive Consultation
Hannah D. Kassab, B.S., M.S.,1 Julie S. Owens, Ph.D.,1 Amori Y. Mikami, Ph.D.,2 Steven W. Evans, Ph.D.,1 1. Ohio University, 2. University of British Columbia

(PS6-B50) Associations Between Standard Dose, Types of Cannabis Use and Cannabis Related Consequences
Alexander J. Tyskiewicz1, Morgan A. Boyle, M.S.,1 Eleftherios Hetelekides, B.S.,2 Bradley T. Conner, Ph.D.,1 Mark A. Prince, Ph.D.,1 1. Colorado State University, 2. College of William and Mary

Poster Session 6C

Key Words: Emotion Regulation, Depression, Trauma

(PS6-C51) Emotion Regulation Difficulties Moderate the Relation of COVID-19 Stress and Depression Symptoms in a Trauma Exposed Sample
Emily A. Kalantar, M.A., Rachel C. Boek, M.A., Jennifer L. Kuo, M.A., Lucas D. Baker, M.A., Christopher R. Berghoff, Ph.D., University of South Dakota

(PS6-C52) Investigating Clinical Perfectionism in a Transdiagnostic Eating Disorder Sample Using Network Analysis
Brenna M. Williams, M.S., Christina Ralph-Nearman, M.S., Ph.D., Cheri A. Levinson, Ph.D., University of Louisville

(PS6-C53) Examining the Effects of Self-efficacy and Meaning in Life on Posttraumatic Stress and Depressive Symptoms in US Military Personnel
Ian C. Fischer, M.A., Louanne Davis, Ph.D., Michelle Salyers, Ph.D., Melissa Cyders, Ph.D., Kevin Rand, Ph.D.,1 1. Indiana University/Purdue University at Indianapolis, 2. Roudubesh VA Medical center
(PS6-C54) Main and Interaction Effects of Negative Trauma-related Cognitions and Disgust Sensitivity on Daily Experiences of Mental Contamination Following Sexual Trauma
Jordyn M. Tipsword, M.S.¹, C. Alex Brake, Ph.D.², Christal Badour, Ph.D.¹, 1. University of Kentucky, 2. Brown University & Providence VA Medical Center

(PS6-C55) Let’s Agree to Disagree: The Importance of Multi-informant Reports of Family Processes in Understanding School Refusal in Youth
Emily Badin, PsyM, Hannah Brody, B.A., Tian Saltzman, Brian C. Chu, Ph.D., Rutgers University

(PS6-C56) Tailoring Cognitively-based Compassion Training for Veterans with Chronic Pain and Psychological Comorbidity
Anne Malaktaris, Ph.D.¹, Pollanna Casmar, Ph.D.², Ariel Lang, M.P.H., Ph.D.³, 1. VA San Diego Healthcare System, VA Center of Excellence for Stress and Mental Health, 2. VA San Diego Healthcare System/University of California, San Diego, 3. VA San Diego Center of Excellence for Stress and Mental Health

(PS6-C57) Development and Psychometric Properties of the Functional Impairment Post Sexual Assault Male Assessment
Emily M. Romero, M.S., Cassandra R. Lloyd, M.S., Aaron Baker, Ph.D., University of La Verne

(PS6-C58) Loss of Control Over-Eating and Social Media Behaviors in a Latinx College Student Sample
Roberto Sagaribay, B.A., Marcos Lerma, B.S., Jennifer De Alba, B.S., Nallely Ramirez, B.S., Sandra Sierra, Theodore V. Cooper, Ph.D., The University of Texas at El Paso

(PS6-C59) The Effect of Family Organization on Child Externalizing Problems and Maternal Stress
Allison C. Smith, B.S., Thompson E. Davis, III, Ph.D., Louisiana State University

(PS6-C60) Expectancies for Cannabis-induced Emotional Breakthrough, Mystical Experiences and Changes in Dysfunctional Attitudes: Implications for Cannabis-assisted Psychotherapy for Depression
Maha N. Mian, M.A.¹, Brianna R. Altman, M.A.¹, Joseph DeLeo, Ph.D.², Mitch Earleywine, Ph.D.¹, 1. University at Albany, State University of New York, 2. Centre for Compassionate Care

(PS6-C61) Childhood Trauma Exposure and Its Impact on Future Physical and Psychological Intimate Partner Violence
Jessica L. Brower, M.A.¹, Jasara N. Hogan, Ph.D.¹, Julianne C. Flanagan, Ph.D.², 1. Medical University of South Carolina, 2. Medical University of South Carolina; Ralph H. Johnson VAMC

(PS6-C62) A Systematic Review of Public Stigma Attributes and Obsessive-Compulsive Disorder Symptom Subtypes
Gabriella T. Ponzini, M.S., Shari A. Steinman, Ph.D., West Virginia University

(PS6-C63) Examining Distress Tolerance and Suicidality Among Patients Seeking Intensive/residential Treatment for OCD
Andreas Bezahler, B.S.¹, Devin Dattolico, B.A.¹, Martha Falkenstein, Ph.D.², 1. OCD Institute, McLean Hospital, 2. McLean Hospital/Harvard Medical School
(PS6-C64) The Associations Among Parent Anxiety, Emotion Regulation, and Parenting Behaviors
Bethany McCurdy, M.S., Brandon G. Scott, Ph.D., Carl Weems, Ph.D., 1. Iowa State University, 2. Montana State University

(PS6-C65) Shorter Might Be Better: Examination of the OBQ-20 in Patients with Obsessive-compulsive Disorder and Anxiety Disorders

(PS6-C66) Idealistic Attitudes About the Maternal Body and Perinatal Anxiety and Depression: Development of the Maternal Body Beliefs Scale
Elizabeth D. Krause, Ph.D., Kim Ngan Hoang, B.A., Jane Gillham, Ph.D., Clorinda E. Vélez, Ph.D., 1. Swarthmore College, 2. Quinnipiac University

(PS6-C67) Contextualizing Somatic Problems in Rural Teens Who Regularly Use Cannabis
Tori Humiston, M.S., Caroline Cummings, M.A., Catherine Stanger, Ph.D., Alan Budney, Ph.D., Amy Hughes Lansing, Ph.D., 1. University of Vermont, 2. University of Nevada, Reno, 3. Geisel School of Medicine at Dartmouth

(PS6-C69) The Impact of Executive Functioning on Adaptive Behavior in Autistic Adolescents
Rebecca C. Handsman, B.S., Lauren Kenworthy, Ph.D., Cara Pugliese, Ph.D., 1. Center for Autism Spectrum Disorders, Children’s National Hospital, 2. Children’s National Hospital, George Washington University

(PS6-C70) Trust and Experiential Avoidance on Treatment-seeking and Disclosure Behavior in Mental Health Care

(PS6-C71) The Effect of Reduced Social Support on Effective Emotion Regulation During the COVID-19 Pandemic
Annie-Lori C. Joseph, M.S., Brooke A. Duarte, M.S., Matthew W. Jerram, Ph.D., Suffolk University

(PS6-C72) Rape Acknowledgment: Rates and Treatment Seeking in a Nationally Representative Sample of Men and Women
Nicole J. Barle, M.A., Sin-Ying Lin, M.A., K. Daniel O’Leary, Ph.D., Stony Brook University

(PS6-C73) Body Dissatisfaction and Drive for Muscularity: Correlates of Disordered Eating Pathology in Racial and Ethnic Minority Males
Kimberly Yu, M.A., Taryn Henning, B.S., Juan C. Hernandez, B.A., Jenna Stadheim, B.A., Marisol Perez, Ph.D., Arizona State University

(PS6-C74) Validation of the Spanish-translated Repetitive Behavior Scale for Early Childhood (RBS-EC)
Gabriela Sepulveda, M.S., Robert D. Rieske, Ph.D., Samuel O. Peer, Ph.D., Megan O. Bird, B.S., Idaho State University
(PS6-C75) The Relationship Between the Timing of a Morally Injurious Event and Current Distress in an Undergraduate Sample
Laura N. Cabebe, B.A., Precious J. Araujo, B.A., Kelei A. A. Straka, B.A., Alyson Zalta, Ph.D., University of California, Irvine

Poster Session 6D

Key Words: OCD (Obsessive Compulsive Disorder), Stigma

(PS6-D76) Thought-action Fusion and Attitudes Towards Intrusive Thoughts
Debbie M. Warman, ABPP, Ph.D., University of Indianapolis

(PS6-D77) Obsessive Compulsive Disorder Severity and COVID-19. Increased Severity or Method Variance?
Ryan J. Marek, Ph.D.1, Savannah M. Kaye, M.A.2, Christopher Baulch, B.A.2, Steven L. Bistricky, Ph.D.2, 1. Sam Houston State University, 2. University of Houston, Clear Lake

(PS6-D78) Preliminary Effects of Brief RO DBT Intervention on Dyadic Social Interaction and Overcontrol in Young Adults
Jennifer E. Hugg, B.A., University of Maine

(PS6-D79) Trait Mindfulness Predicts Insomnia and Sleep Quality in a Nonclinical Sample
Jessica S. Fields, B.A.1, Alora A. Rando, M.S.1, Sarah T. Wieman, M.S.1, Helen Z. MacDonald, PhD2, Gabrielle I. Liverant, Ph.D.1, 1. Suffolk University, 2. Emmanuel College

(PS6-D80) Associations Between Obsessive-compulsive Symptoms and Reasons for Saving Possessions in Hoarding Disorder
Weilynn C. Chang, B.S., Nataliya Turchmanovych, B.S., Gregory S. Chasson, Ph.D., Illinois Institute of Technology

(PS6-D81) Barriers and Facilitators to Mental Health Help-seeking and Resource Utilization for College Students
Suh Jung Park, B.A.1, Melissa G. Hunt, Ph.D.2, 1. University of Missouri, Columbia, 2. University of Pennsylvania

(PS6-D82) Understanding Emotion Recognition Discrepancies in Body Dysmorphic Disorder
Julia Carrellas, B.A.1, Margaret D. Hall, B.A.1, Susanne S. Hoepfner, Ph.D.1, Hilary Weingarden, Ph.D.1, Jennifer L. Greenberg, Psy.D.2, Katharine A. Phillips, M.D.1, Sabine Wilhelm, Ph.D.2, 1. Massachusetts General Hospital, 2. Harvard Medical School, 3. Weill Cornell Medical College

(PS6-D83) Energy Drink Consumption Predicts Future Intentions to Engage in Nonmedical Prescription Stimulant Use Among College Students
Alynna G. Summit, M.A.1, Nora E. Noel, Ph.D.2, 1. Indiana University, 2. University of North Carolina Wilmington
(PS6-D84) Does Shame Trigger Self-harm? The Interaction of Shame and Urgency Is Associated with More Frequent NSSI (but Not Suicide Attempts) Across Two Samples
Devon B. Sandel, MA¹, Kiana Modavi, B.A.¹, Benjamin Swerdlov, M.A.¹, Jordan A. Tharp, B.A., M.A.¹, Kiara R. Timpano, Ph.D.², Sheri Johnson, Ph.D.¹, 1. University of California, Berkeley, 2. University of Miami

(PS6-D85) It Could Be Worse: COVID-19 Did Not Exacerbate Women’s Under-representation in Prestigious Conference Roles at ABCT’s 2020 Virtual Annual Meeting
Laura E. Sockol, Ph.D., Davidson College

(PS6-D86) Parenting Style Influences the Associations Between Parent Emotion Socialization Strategies and Early Childhood Emotion Regulation
Nicolas L. Camacho, B.A., Michael S. Gaffrey, Ph.D., Duke University

(PS6-D87) Development and Validation of the Self-injury Stigma Scale
Caitlin M. O’Loughlin, M.A., Brooke Ammerman, Ph.D., University of Notre Dame

(PS6-D88) Exploring the Effects of Moral Vitalism and Religiosity on Self-reported Obsessive-Compulsive Symptoms
Kelechi P. Uzogwuu, B.S., Robert E. Fite, M.A., Joshua C. Magee, Ph.D., Miami University

(PS6-D89) Cognitive Distortions as a Mediator of the Relationship Between Dispositional Mindfulness and Psychological Distress
Travis I. Schneider, B.A.¹, Julie N. Kingery, Ph.D.¹, Jamie S. Bodenlos, Ph.D.¹, Jack Peltz, Ph.D.², 1. Hobart and William Smith Colleges, 2. Daemen College

(PS6-D90) Associations Between Political Discrimination and Same-day Affect in College Students

(PS6-D91) Feasibility and Acceptability of a Short-term Virtual Parenting Program During the COVID-19 Pandemic
Josefina M. Toso Salman, M.A., Vanessa Y. Ng, M.A., M.S., Karin T. Wang, M.A., Olenka S. Olesnycky, M.A., Hofstra University, Clinical Psychology Program

(PS6-D92) Considerations for Improving Counseling Center Staff Buy-in and Engagement with Mental Health Apps
Emily Hersch, M.A.¹, Katherine Cohen, M.A.², Emily G. Lattie, Ph.D.², 1. Northwestern University Feinberg School of Medicine, 2. Northwestern University

(PS6-D93) Predictors of Treatment Completion in Online Mindfulness-based Interventions for Well-being
Noah J. French, B.A.¹, Audrey R. Stromberg, B.A.¹, Evan A. Albury, B.S.¹, Nicole J. Stephan, B.S.¹, Neviya George, B.S.¹, Alec P. Shannon, B.S.¹, Chu Yu, M.S.², Dustin J. Rabideau, Ph.D.², Lisa Pitch, M.A.¹, Mitchell R. Lunn, M.D.⁴, Juno Obedin-Maliver, M.P.H., M.D.⁴, Louisa G. Sylvia, Ph.D.⁵, Andrew A. Nierenberg, M.D.⁶, 1. Stanford University School of Medicine, 5. Massachusetts General Hospital, 6. Dauten Family Center for Bipolar Treatment Innovation
(PS6-D94) Gender Differences in Response to COVID-19 Among College Students
   Dominique M. Giroux, B.A.¹, Elissa J. Brown, Ph.D.², Andrea Bergman, Ph.D.¹, 1. St.
   John’s University, 2. St. John’s University, Child HELP Partnership

(PS6-D95) Suicidal Ideation in Sexual Minority Men: Associations of Gender Role
   Conflict and Internalized Stigma
   Joshua J. DeSon, B.A., Margaret Andover, Ph.D., Fordham University

(PS6-D96) Modular Dialectical Behavior Therapy Skills and Parent Management
   Training Group for Emotionally Dysregulated Parents
   Katie H. Fogarty, M.A., Phyllis S. Ohr, Ph.D., Hofstra University

(PS6-D97) Examining the Relationship Between Parental Control and Internalizing
   Symptoms
   Paul S. Spano, B.S., Thompson E. Davis, III, Ph.D., Louisiana State University

(PS6-D98) Cognitive Behavioral Intervention for Limited-income, First Generation
   and Underrepresented Students in Higher Education
   Qshequilla P. Mitchell, Ph.D., Lydia Etheridge, Nick Preston, Jason Perry, Shekinah Lee,
   University of Montevallo

(PS6-D99) Comparative Effectiveness of Three Psychological Skills on Risk of Dietary
   Lapse Among Adults in a Behavioral Weight Loss Program: An Ecological
   Momentary Assessment Study
   Eli Forman, Rebecca Crochiere, M.S., Drexel University

4:00 p.m. – 6:00 p.m.

POSTER SESSION 7

Poster Session 7A

Key Words: Abuse / Maltreatment, Risky Behaviors, Self-Injury

(PS7-A1) Do Trauma-related Cognitions Predict Indirect Self-injurious Behaviors in
   Maltreated Youth?
   Shadie Burke, B.A., Mallory Constantine, B.A., Amanda Mraz, B.A., Kinsey Ellis, B.S.,
   Amanda Howard, M.A., Christopher A. Kearney, Ph.D., University of Nevada, Las Vegas

(PS7-A2) Mediation of the Relationship Between Child Abuse and Psychological
   Distress by Emotion Socialization, Masculine Gender Role Stress, and
   Experiential Avoidance
   Benjamin W. Katz, B.A.¹, Patricia J. Long, Ph.D.², 1. University of Wisconsin, Milwaukee,
   2. University of New England
Acting with Awareness and Nonjudgment Mediate the Relationship Between Childhood Emotional Maltreatment and Adulthood Depression and Anxiety
Nicole M. LaPlena, B.A.1, Prachi Bhuptani, M.A.2, Terri L. Messman, Ph.D.1, 1. Miami University, 2. Alpert Medical School of Brown University

The Role of Insomnia in the Relationship Between PTSD Symptoms and Attentional Control
Joelle M. Rodriguez, William Zak, Alex D. Martin, B.S., Norman B. Schmidt, Ph.D., Florida State University

Emotion Regulation Mediates the Relationship Between Anxiety and Specific Eating Disorder Symptoms Dimensions
Peyton E. Miyares, Samantha N. Hellberg, B.A., Chandnee Puri, Dana Nguyen, Megan Butcher, B.S., Heidi J. Ojalehto, B.S., Jonathan S. Abramowitz, Ph.D., University of North Carolina at Chapel Hill

Predicting Treatment Use Behaviors in a Short-term, Longitudinal Sample of Depressed College Students: The Role of Internalization and Self-stigma
Brittney Golden, M.A., Nicole Morris, M.A., Paul Ingram, Ph.D., Texas Tech University

Associations Among Childhood Sexual Abuse and Disordered Eating: The Moderating Role of Posttraumatic Stress Disorder
Reina Kiefer, B.A.1, Svetlana Goncharenko, M.A.1, Ateka Contractor, Ph.D.2, Nicole H. Weiss, Ph.D.3, 1. University of Rhode Island, 2. University of North Texas

Trauma Group Treatment: Amending the Seeking Safety Protocol for Adult Intensive Outpatient Populations
Faria Kamal, Ph.D., Jared K. O’Garro-Moore, Ph.D., Brian Jo, Ph.D., Columbia University Medical Center

Differential Responses on the Fear of Food Measure Amongst Adolescents with Eating Disorders
Marley Billman, B.S., Jamal H. Essayli, Ph.D., Susan Lane-Loney, Ph.D., Penn State College of Medicine

Cross-lagged Analysis of covid-19-related Worry and Media Consumption in a Socioeconomically Disadvantaged Sample of Community Adults
Shelly R. Goodling, B.S., Nadia Bounoua, M.A., Naomi Sadeh, Ph.D., University of Delaware

Conceptualization of Attrition: Exploring Differences in PTSD Symptoms and Diffusion Tensor Imaging
Sophie Haven, M.A.1, Robert Graziano, Ph.D.2, Wilson J. Brown, Ph.D.3, Steven E. Bruce, Ph.D.1, 1. University of Missouri, St. Louis, 2. Durham VA, 3. Penn State Erie, The Behrend College

Trauma and Physical Health: Examining Neuroticism and Rumination in the Relationship Between Trauma Exposure and Physical Health Symptoms
Marissa Yetter, B.A., Sophie Haven, M.A., Steven E. Bruce, Ph.D., University of Missouri, St. Louis

Examining the Influence of Experiential Avoidance and Identity Disturbance on Daily Experience in Romantic Relationships
Ramya Ramadurai, B.A., Nathaniel R. Herr, Ph.D., Vincent A. Barbieri, M.A., American University
(PS7-A15) Exploring Racial and Ethnic Disparities Among Adolescents and Young Adults During the covid-19 Pandemic
Kerri-Anne Bell, M.A.¹, Ilana Gratch, B.A.¹, Emilia Sherifi, M.S.², Jeremy G. Stewart, Ph.D.², Christine Cha, Ph.D.¹, 1. Teachers College, Columbia University, 2. Queen’s University

(PS7-A16) The Relationship Between Traumatic Childhood Events and Substance Use Among Female Entertainment Workers in Cambodia
Saankari A. Challa, M.A.¹, Marissa Yetter, B.A.¹, Adam Carrico, Ph.D.², Robert H. Paul, Ph.D.³, Steven E. Bruce, Ph.D.¹, Amie Pollack, Ph.D.⁴, Do Khanh Ngoc, Ph.D.⁵, Nil Ean, Ph.D.⁶, 1. University of Missouri, St. Louis, 2. University of Miami, 3. Missouri Institute of Mental Health, 4. Vanderbilt University, 5. Vietnam National University, Hanoi, 6. Royal University of Phnom Penh

(PS7-A17) Factors Influencing Sleep Disturbance During the COVID-19 Pandemic
Rebecca Michel, B.S., Maria C. DiFonte, M.A., Elaine Ruiz, M.A., Katharine E. Musella, M.A., Ellen C. Flannery-Schroeder, ABPP, Ph.D., The University of Rhode Island

(PS7-A18) Anxiety and Depressive Symptoms Predict Different Subjective Sleep Quality Complaints
Mo Xiong, B.A., Jiyoung Song, B.A., Aaron J. Fisher, Ph.D., University of California, Berkeley

(PS7-A19) Using Multiple Assessment Methods to Characterize the Effect of Blue-light-blocking Amber Glasses on Sleep & Affect: A Pilot Study
Elizabeth D. Wilson, B.S.¹, Eric A. Youngstrom, Ph.D.², 1. University of North Carolina Chapel Hill, 2. University of North Carolina Chapel Hill/Helping Give Away Psychological Science

(PS7-A20) The Effect of Sport and Physical Activity-related Concussions Among Youth on Aggression and Mood Disturbances
Alexis L. Bailey, Daniel W. Capron, Ph.D., Brian W. Bauer, M.S., University of Southern Mississippi

(PS7-A21) Examining the Representativeness of Youth Enrolled in an Effectiveness Trial for Emotional Disorders
Zabin S. Patel, M.S.¹, Amanda Jensen-Doss, Ph.D.¹, Golda S. Ginsburg, Ph.D.², Jill Ehrenreich-May, Ph.D.¹, 1. University of Miami, 2. University of Connecticut

(PS7-A22) How Do I Love Thee? A Latent Mixture Model Analysis of College Dating Relationships
Aeriel Halstead, M.S., Scott R. Braithwaite, Ph.D., Brigham Young University

(PS7-A23) The Influence of the Social Determinants of Health in Viral Load Variance in Men Living with HIV
Natalie Blocher, B.A., M.A.¹, Shane Bierma, Ph.D.², Todd Moore, Ph.D.¹, 1. The University of Tennessee, Knoxville, 2. Louisiana State University School of Medicine

(PS7-A24) Our Graduate Students Are Struggling: Pilot Data Assessing Climate of Graduate Student Mental Health in the United States
Molly Wickenhauser, M.A.¹, Danielle Maack, Ph.D.², 1. University of Mississippi, 2. University of Mississippi and Delta Autumn Consulting
(PS7-A25) Somatization and Suicidal Ideation in an Asian American Sample: The Moderating Role of Shame
Yu-Chin Lin, M.S., Stephanie Quan, M.S., Janelle Y. Wee, M.S., Jingyan Gu, B.A., Keyne C. Law, Ph.D., Seattle Pacific University

Poster Session 7B

Key Words: Sexuality, Couples / Close Relationships, Gender

(PS7-B26) An Exploratory Network Analysis of Sexual Functioning Among Newlywed Couples
Katherine W. Bogen, B.A.¹, James K. Haws, M.A.², David DiLillo, Ph.D.¹, 1. University of Nebraska-Lincoln, 2. University of Nebraska

(PS7-B27) Associations Between PTSD Symptom Clusters and Sleep Quality in a Trauma-exposed College Student Sample
Alora A. Rando, M.S., Sarah T. Wieman, M.S., Gabrielle I. Liverant, Ph.D., Suffolk University

(PS7-B28) Analysis of Resting State Network Connectivity in Relation to Impaired Inhibitory Control in a Sample of Women Exposed to Interpersonal Violence
Marissa Yetter, B.A., Carissa L. Philippi, Ph.D., Steven E. Bruce, Ph.D., University of Missouri-St. Louis

(PS7-B29) Nonacceptance and Avoidance of Positive Emotions Account for the Association of Borderline Personality Disorder Symptoms to Anhedonia
Kayla M. Scamaldo, M.A., Matthew T. Tull, Ph.D., Kim L. Gratz, Ph.D., University of Toledo

(PS7-B30) Differences in Emotion Regulation with Generalized Anxiety Disorder, Social Anxiety Disorder and Prolonged Grief Disorder
Margot H. Steinberg, B.A.¹, Bryana Schantz, M.A.¹, Kristin L. Szuhany, Ph.D.², Emma L. Jennings, B.S.³, Alan Chen, M.S.¹, Carly Miron, B.S.¹, Madeleine M. Rassaby, B.A.¹, Donald J. Robinaugh, Ph.D.⁴, Naomi M. Simon, M.D.¹, 1. New York University Grossman School of Medicine, 2. New York University School of Medicine, 3. New York University Langone Medical Center, 4. Massachusetts General Hospital/Harvard Medical School

(PS7-B32) A Psychometric Evaluation of the Competencies of Cognitive Therapy Scale Self-report (CCTS-SR) in a Non-clinical Sample
John F. Buss, B.S.¹, Lauren A. Rutter, Ph.D.², Lorenzo Lorenzo-Luaces, Ph.D.¹, Jacqueline Howard, B.A.², 1. Indiana University, 2. Indiana University Bloomington

(PS7-B34) Modification and Validation of a Measure of Children’s Irrational Beliefs
Alisa Gudz, MSW, Jessica Levy, B.A., Mark Terjesen, Ph.D., St. John’s University

(PS7-B37) Single-session Intervention as a Precursor to School Mental Health Services for Rural Youth
Emma Walker, B.S., Jacqueline Hersh, Ph.D., Kurt D. Michael, Ph.D., Lisa Curtin, Ph.D., Appalachian State University
(PS7-B38) Preliminary Evidence for the Mediating Role of Self-compassion in the Relationship Between Interoceptive Awareness and Emotion Regulation in Individuals with Acquired Brain Injury
Lorena Desdentado, M.S.¹, Rosa M. Baños, Ph.D.², Marta Miragall, Ph.D.³, Roberto Llorens, Ph.D.⁴, Tamara Escrivá-Martínez, M.S.⁵, María Dolores Navarro, Other⁶, Joan Ferri Campos, Ph.D.⁷, 1. Polibienestar Research Institute, University of Valencia, Spain; Department of Personality, Evaluation and Psychological Treatments, University of Valencia, Spain, 2. Polibienestar Research Institute, University of Valencia, Spain; Department of Personality, Evaluation and Psychological Treatments, University of Valencia, Spain; CIBER of Physiopathology of Obesity and Nutrition (CIBEROBN), Instituto Carlos III, Madrid, Spain; 3. Department of Personality, Evaluation and Psychological Treatments, University of Valencia, Spain; CIBER of Physiopathology of Obesity and Nutrition (CIBEROBN), Instituto Carlos III, Madrid, Spain, 4. Neurorehabilitation and Brain Research Group, Instituto de Investigación e Innovación en Bioingeniería, Universitat Politècnica de València, Valencia, Spain; NEURORHB. Servicio de Neuorrehabilitación de Hospitales Vithas, Fundación Vithas, Valencia, Spain, 5. Polibienestar Research Institute, University of Valencia, Spain; Department of Personality, Evaluation and Psychological Treatment, University of Valencia, Spain, 6. NEURORHB. Servicio de Neuorrehabilitación de Hospitales Vithas, Fundación Vithas, Valencia, Spain

(PS7-B39) Associations Between Demographic Characteristics and Psychological Distress in a Sample of New York City Caregivers During COVID-19
Sophia Miller, B.A., Danielle S. Citera, M.A., Maddi Gervasio, B.S., Emma Joseph, Elissa J. Brown, Ph.D., St. John’s University, Child HELP Partnership

(PS7-B40) The Associated Stigma of Being a Caregiver to Someone with a Mental Illness: Findings in a White-latínx Sample
Monica Abdul-Chani, M.A.¹, Jordan C. Alvarez, B.A.², Sarah O’Kelley, Ph.D.¹, 1. The University of Alabama at Birmingham, 2. Auburn University

(PS7-B41) Natural Language Synchrony Between Romantic Partners During Interpersonal Stress Regulation
Binghuang A. Wang, M.S., Melissa V. Gates, B.A., Leanna Z. Poole, B.S., Christina Balderrama-Durbin, PhD, Binghamton University

(PS7-B42) Core Components of Social Anxiety and Interpersonal Evaluation
Jin Shin, B.A., Thomas L. Rodebaugh, Ph.D., Washington University in St. Louis

(PS7-B43) Emotion Reactivity and Regulation: Influence of Lifetime Posttraumatic Stress Disorder on Responses to a Negative Mood Induction in Individuals with Borderline Personality Disorder
Lauren E. Simpson, B.A.¹, Elinor E. Waite, B.A.², Katherine Dixon-Gordon, Ph.D.², 1. University of Nebraska, Lincoln, 2. University of Massachusetts, Amherst

(PS7-B44) Examining Change in Negative Attentional Bias and Anxiety Using K-means Clustering
Amanda N. Holbrook, B.A.¹, Nader Amir, Ph.D.², 1. San Diego State University, 2. University of California, San Diego/San Diego State University Doctoral Program

(PS7-B45) Independent Validation of the Contrast Avoidance Questionnaires via Bifactor Analysis
Travis A. Rogers, M.S., Joseph R. Bardeen, Ph.D., Natasha Benfer, M.S., Auburn University
Self-blame as a Mediator in the Relationship Between Bystander Presence and Posttraumatic Stress Symptoms
Hannah B. Sawyer, Kayla M. Ford, B.S., Edward Molina, B.A., Lindsay S. Ham, Ph.D., University of Arkansas

Trauma Anniversary Reactions Marked by Stress Are Evident Across Adverse Experiences
Madeline J. Bruce, M.S., Alexander Chang, B.S., Luke Evans, M.S., Lindsay Thomas, B.S., Paul Handal, Ph.D., Saint Louis University

Optimism as a Moderator of the Relationship Between Perceived Threat and COVID-19 Anxiety Symptoms
Blakely Murphy, B.A., Cynthia A. Rohrbeck, Ph.D., Ashley E. Reed, B.A., Nicholas W. Talisman, M.A., Philip Wirtz, Ph.D., Nazeef Vasaya, B.A., Caitlin Eivers, George Washington University

Separating Positive and Negative Stress Mindsets in Stress Research: Different Mood and Personality Correlates of Positive and Negative Stress Beliefs
Jazmin A. Nieves, B.S., Amanda Chue, Ph.D., Kathleen C. Gunthert, Ph.D., American University

Interplay of Verbal Learning Deficits and Reward Sensitivity in Adolescents with Bipolar Disorders
Anusha Duggirala, B.A.1, Monica Luciana, Ph.D.2, Snezana Urosevic, Ph.D.1, 1. Minneapolis VAMC, 2. University of Minnesota

Key Words: ADHD, Depression, College Students

ADHD Symptom Severity in Relation to Psychosocial Functioning Within a Sample of ADHD College Students

Psychophysiological Moderators of Treatment Outcome in Positive versus Negative Affect Treatment
Nora Barnes-Horowitz, M.A.1, Aileen Echiverri-Cohen, Ph.D.1, Julian Ruiz, B.A.1, Alicia E. Meuret, Ph.D.2, Thomas Ritz, Ph.D.2, Michael Treanor, Ph.D.1, David Rosenfield, Ph.D.2, Michelle G. Craske, Ph.D.1, 1. University of California Los Angeles, 2. Southern Methodist University

Examining the Effect of Cognitive-behavioral Therapy for Adult ADHD on Comorbid Anxiety and Depression
Kaley A. Roberts, M.A., Texas Tech University

The Combined Role of Negative Self-perception and Non-suicidal Self-injury in Suicidal Ideation-to-action
(PS7-C55) Adolescents with ADHD: Sleep as a Predictor of Academic Treatment Response
Amanda K. Nelson, M.A.1, George J. DuPaul, Ph.D.1, Steven W. Evans, Ph.D.2, Kristina Puzino, Ph.D.3, Bridget V. Dever, Ph.D.1, 1. Lehigh University, 2. Ohio University, 3. Penn State Hershey Medical Center

(PS7-C56) Family Bridger Pilot Program: Feasibility and Acceptability of a Peer Navigator Model of Support for Caregivers of Loved Ones Experiencing Early Psychosis
Matthew H. Christiansen, M.S., Akansha Vaswani-Bye, Ph.D., Maria Monroe-DeVita, Ph.D., University of Washington, Seattle

(PS7-C57) Perfectionism as a Mediator of the Relation Between ADHD Symptoms and Experiential Avoidance in College Students
Elizabeth A. Bodalski1, Kevin Antshel, Ph.D.2, Elizabeth K. Lesler, Ph.D.3, Tamara M. Abu-Ramadan, M.A.4, Michael C. Meinzer, Ph.D.5, Kate Flory, Ph.D.1, 1. University of South Carolina, 2. Syracuse University, 3. University of Northern Iowa, 4. University of Wyoming, 5. University of Illinois at Chicago

(PS7-C58) Differences in Minority Stress Experiences, Relationship Quality, and Mental Health Outcomes Among Women with Bisexual, Pansexual, and Queer Identities
Zane M. Fechter, Lisa M. Godfrey, M.A., Sarah W. Whitton, Ph.D., University of Cincinnati

(PS7-C59) Infant Nighttime Sleep Trajectories in Northern Appalachia
Jamey T. Brumbaugh, B.S.1, Matthew C. Arias, M.S.1, Casey D. Wright, M.S.1, Katherine Neiswanger, M.A., Ph.D.2, John Shaffer, Ph.D.2, Betsy Foxman, Ph.D.3, Mary L. Marazita, Ph.D.2, Daniel W. McNeil, Ph.D.1, 1. West Virginia University, 2. University of Pittsburgh, 3. University of Michigan

(PS7-C60) Mental Health Effects of COVID-19 on Transgender and Gender Diverse People: A Scoping Review and Thematic Analysis
Nathan L. Hollinsaid, B.S., Department of Psychology, Harvard University

(PS7-C61) Deciding Together: Using a Novel Observational Coding System to Evaluate Shared Decision Making in Youth Mental Health

(PS7-C62) Neutral Is Not Good Enough: Affirming Cognitive Behavioral Therapy Practices Increase Positive Perceptions of the Therapeutic Alliance by Transgender and Gender Diverse Adults
Allura L. Ralston, M.A.1, Hannah M. Coffey, M.A.1, Sage A. Volk, B.A.1, T. Zachary Huit, M.A.1, Natalie R. Holt, Ph.D.1, Christen E. Seyl,1, Alexander L. Farquhar-Leicester, M.A.1, Richard A. Mocarski, Ph.D.2, Nathan Woodruff, Debra A. Hope, Ph.D.3, 1. University of Nebraska-Lincoln, 2. University of Nebraska at Kearney, 3. Trans Collaborations
(PS7-C63) Effectiveness of Family Based Treatment (FBT) for Pediatric Eating Disorders in an Outpatient Specialty Practice
Alexis T. Torres, B.A., Amanda Henkel, B.A., Marina Chibazakura, B.S., Samantha Martin, B.S., Jessica A. Cowan, Psy.D., Travis L. Osborne, ABPP, Ph.D., Ariel Ravid, Ph.D., Angela Celio Doyle, Ph.D., 1. Evidence Based Treatment Centers of Seattle, 2. Eating Disorder Clinic at Evidence Based Treatment Centers of Seattle, 3. Evidence Based Treatment Centers of Seattle (EBTCS)

(PS7-C64) Identifying Behaviors That Influence Sleep Health and Increase Risk for Insomnia Among Airmen in Technical Training
Rosemary Estevez Burns, Ph.D., Jordan M. Ellis, Ph.D., Xin Qun Wang, Ph.D., Marc A. Patience, Ph.D., John Blue Star, Ph.D., Chase Aycock, Psy.D., Daniel G. Cassidy, ABPP, Ph.D., Gerald W. Talcott, ABPP, Ph.D., 1. Wilford Hall Ambulatory Surgical Center, 2. United States Air Force, 3. University of Virginia, 4. Wilford Hall Ambulatory Surgical Center, JBSA-Lackland Air Force Base, TX

(PS7-C65) Willingness and Predictors of Mental Health Telehealth Utilization Among College Students
Rebecca Yaklic, B.A., M.A., Phillip May, M.A., Susan L. Kenford, B.A., M.A., Ph.D., Xavier University

(PS7-C66) The Differential Effects of Minority Stressors on Intimate Partner Violence in LGB People of Color
Kevin Moino, M.A., Dominic J. Parrott, Ph.D., Kevin M. Swartout, Ph.D., Georgia State University

(PS7-C67) Assessing Efficacy and Predictors of Two Single Session Interventions for Targeting Distress Tolerance
Niza A. Tonarely, M.S., Jill Ehrenreich-May, Ph.D., University of Miami

(PS7-C68) The Difference Relationship Between Procrastination and Depression and Anxiety Symptoms with ADHD Diagnosed and Undiagnosed Among the Emerging Adulthood in Online Survey
Mana Oguchi, M.A., Hiroaki Kumano, M.D., Ph.D., Waseda University

(PS7-C69) The Protective Effect of Individual-level Coping on the Association Between Racial Discrimination and Depressive Symptoms Among Black Men
Wilson Vincent, Ph.D., Ana María del Río-González, Ph.D., Lisa Bowleg, Ph.D., 1. Temple University, 2. George Washington University

(PS7-C70) Events Are Remembered as Having Occurred More Recently in Paranoia
Will N. Koller, M.A., Joan Danielle K. Ongchoco, M.A., Michael V. Bronstein, Ph.D., Brian J. Scholl, Ph.D., Tyrone D. Cannon, Ph.D., 1. Yale University, 2. University of Minnesota

(PS7-C71) The Protective Role of Social Coping Strategies on Loneliness
Madeleine M. Rassaby, B.A., Alan Chen, M.S., Alexandra Mellis, Ph.D., Candace Raio, Ph.D., Samrachana Adhikari, Ph.D., Kristin L. Szuhany, Ph.D., Matteo Malgaroli, Ph.D., Carly Miron, B.S., Emma L. Jennings, B.S., Bryana Schantz, M.A., Dylan B. Miller, B.A., Paul Glimcher, Ph.D., Naomi M. Simon, M.D., 1. New York University Grossman School of Medicine, 2. New York University Langone Health, 3. New York University School of Medicine, 4. New York University Langone Medical Center
(PS7-C72) Temporal Associations of Regretted Sex, Sexual Protective Behavioral Strategies, and Alcohol Use Among High-risk Young Adults: A Multi-group Analysis
Roselyn Peterson, M.S.¹, Robert Dvorak, Ph.D.¹, Melissa A. Lewis, Ph.D.², 1. University of Central Florida, 2. University of North Texas Health Science Center

(PS7-C73) Goal-related Distress and Meaning in Life: A Daily Investigation of the Role of Psychological Flexibility
Jessica A. Birg, M.A., Ruba Rum, M.S., Michelle Hua, B.A., Fallon R. Goodman, Ph.D., University of South Florida

(PS7-C74) Use of Self-management Resources for Depressive Symptoms by Veterans in Primary Care
Yvette Rother, B.S., Jacob Scharer, Ph.D., Robyn L. Shepardson, Ph.D., Wilfred Pigeon, Ph.D., Jennifer S. Funderburk, Ph.D., VA Center for Integrated Healthcare

(PS7-C75) Well-being Mediates the Relationship Between Gratitude and PTSD in a Diverse Sample of Women
Angela L. Richardson, M.A., Matthew W. Gallagher, Ph.D., University of Houston

Poster Session 7D

Key Words: Adolescents, Global Mental Health, Depression

(PS7-D76) Prevalence and Correlates of Depression and Anxiety Among Secondary School Students in India

(PS7-D77) Mapping the PCL-5 onto State Level Experiences in Veterans Using an Experimental Design
Joanna Fagan, M.S.¹, Adam P. McGuire, Ph.D.², A. Solomon Kurz, Ph.D.², Austen R. Anderson, Ph.D.³, Yvette Szabo, Ph.D.², Sheila Frankfurt, Ph.D.², 1. University of Texas at Tyler, 2. VISN 17 Center for Excellence for Research on Returning War Veterans, 3. VA VISN 17 Center for Excellence for Research on Returning War Veterans

(PS7-D78) Symptoms of Attention-deficit/hyperactivity Disorder, Sluggish Cognitive Tempo, and Internalizing Disorders Predicting Quality of Life in College Students with ADHD: Medication Use as a Moderator
Austin B. Burns¹, Annie A. Garner, Ph.D.¹, Stephen P. Becker, Ph.D.², Michael J. Kofler, Ph.D.³, Matthew Jarrett, Ph.D.⁴, Aaron M. Luebbe, Ph.D.⁵, G. Leonard Leonard. Burns, Ph.D.⁶, 1. Saint Louis University, 2. Cincinnati Children’s Hospital Medical Center, 3. Florida State University, 4. University of Alabama, 5. Miami University, 6. Washington State University

(PS7-D79) An Analysis of the Effects of Natural Environment Training and Discrete Trial Training on Adaptive Skills
Amelia Yanchik, M.A.¹, Michelle Grazjoli, B.S.¹, Peter Vietze, Ph.D.¹, Sadaf Khawar, M.A.¹, Ghowash Irshad, M.A.¹, Leah Esther Lax, Ph.D.², 1. Montclair State University, 2. CARES
(PS7-D80) Self-reported Values of At-risk College Student Drinkers and Implications for Intervention Development
Melissa R. Hatch, B.A., Sayre E. Wilson, M.S., Nadine R. Mastroleo, Ph.D., Angelo M. DiBello, Ph.D., Kate B. Carey, Ph.D., 1. University of New Mexico, 2. Binghamton University, 3. Rutgers University, 4. Brown University

(PS7-D81) Impact of Sudden and Temporary School Closure Due to the COVID-19 on Mental Health Problems of Children, Adolescents, and Parents in Japan
Kohei Kishida, Ph.D., Masami Tsuda, B.A., Shin-ichi Ishikawa, Ph.D., Doshisha University

(PS7-D82) Examining Patterns Mental Health Service Utilization Among Adolescents Enrolled in Medicaid
Casey A. Pederson, Ph.D., Allyson Dir, Ph.D., Fangqian Ouyang, M.S., Patrick Monahan, Ph.D., Sarah Weihe, M.P.H., M.D., Matthew Aalsma, Ph.D., Indiana University School of Medicine

(PS7-D83) Cannabis Consumption While Gambling: Relation of Legal Status Among Frequent Gamblers
Abby McPhail, M.A., M.S., Tori Horn, M.A., James Whelan, Ph.D., University of Memphis

(PS7-D84) Characteristics of Mhealth Therapy App Engagement by Young Adults with OUD
Jennifer Stidham, B.A., Jennifer L. Carrano, Ph.D., Kevin Wenzel, Ph.D., Julia Thomas, B.S., Marc Fishman, M.D., Maryland Treatment Centers

(PS7-D85) The Role of Alcohol, Drug Use, and Impulsivity in E-cigarette Use Among Sexual Minority Young Adults

(PS7-D86) Distress Tolerance, Coping Motives to Drink, and Alcohol Craving in a Lab-based Experiment
Isabel F. Augur, M.A., Lindsay S. Ham, Ph.D., Noah R. Wolkowicz, M.S., University of Arkansas

(PS7-D87) Neural Response to Emotional Processing Predicts Future PTSD Symptom Severity in Veterans
Morgan E. Marvin, B.A., Jessica Bomyea, Ph.D., Andrea Spadoni, Ph.D., Alan Simmons, Ph.D., VASDC: Center of Excellence for Stress and Mental Health; University of California San Diego Dept of Psychiatry

(PS7-D88) Recalling Positive Aspects of the Self Reduces Acute Negative Affect Stemming from Negative Autobiographical Memory Recall
Chelsea E. Boccagno, M.A., Jill M. Hooley, D. Phil., Harvard University

(PS7-D89) Emotion Regulation Repertoires in the Relationship Between Borderline Symptoms and Craving
Joseph H. Lancaster, B.A., Ilya Yaroslavsky, Ph.D., Cleveland State University
(PS7-D90) Effect of DBT Skills Training in Partial Hospital/intensive Outpatient Setting on Post Traumatic Stress Disorder Symptoms
Eric Guendner, M.A.¹, Zjanya Arwood, M.A.¹, Rachel Kantor, M.A.¹, Matison W. McCool, M.A.¹, John Lothes, II, Kirk D. Mochrie, Ph.D.², Samantha Sirabian², Jane St John, M.A.³, 1. University of North Carolina Wilmington, 2. Triangle Area Psychology (TAP) Clinic, 3. Delta Behavioral Health

(PS7-D91) Simultaneous Alcohol and Marijuana Use Motives Moderate the Relationship Between Simultaneous Alcohol and Marijuana Use and High-risk Sexual Behaviors
Haley Kolp, M.S., Emily A. Munoz, M.A., Cayla M. O’Hair, B.A., Lauren Grocott, B.A., Ryan C. Shorey, Ph.D., University of Wisconsin, Milwaukee

(PS7-D92) The Impact of Dialectical Behavior Therapy Phone Coaching on Self-injurious Thoughts and Behaviors
Melanie R. Rosen, M.A., Allison K. Ruork, Ph.D., Shireen L. Rizvi, ABPP, Ph.D., Rutgers University

(PS7-D93) Comparing the Acceptability of Treatment Rationales for Two Psychotherapies
Marin G. Olson, M.A.¹, Jeffrey A. Buchanan, Ph.D.¹, Soultana Mpoulkoura, M.A.², Samuel D. Spencer, M.A.³, 1. Minnesota State University, Mankato, 2. The Chicago School of Professional Psychology, 3. University of Hawai’i at Mānoa

(PS7-D94) Reward Probability Mediates the Relationship Between Posttraumatic Stress and Cannabis Use Among Trauma Exposed College Students

Andrew White, ABPP, Ph.D., Natalie Dunn, B.A., Portland DBT Institute  

(RICP-12) The Challenges Associated with Conducting Clinical Research at an Academic Forensic Institute  
Pankhuri Aggarwal, B.A., M.A., Miami University  

**SEXUAL AND GENDER MINORITY SIG**  

(SGM-01) Family Functioning and Youth Outness: Indirect Effect of Sexuality Specific Family Social Support  
Kathleen K. Little, B.S., Kristin M. Lindahl, Ph.D., Neena M. Malik, Ph.D., University of Miami  

(SGM-02) The Prevalence of Self-injurious Thoughts and Behaviors Among Transgender and Cisgender Children in Middle Childhood: A Population-based Study  
Alyson Randall, B.A., Arjan van der Star, Ph.D., Jamie-Lee Pennesi, Ph.D., Jaclyn Siegel, Ph.D., Aaron Blashill, Ph.D., San Diego State University  

(SGM-03) Identity Concealment as a Risk Factor for Burnout Among Sexual and Gender Minoritized Psychology Trainees  
Benjamin F. Shepherd, Paula Brochu, Ph.D., Nova Southeastern University
(SGM-04) Affirming Psychotherapy for Transgender and Gender Diverse People: Understanding Affirming, Neutral, and Marginalizing Experiences in Therapy
Josselyn Telule, Sage A. Volk, Debra A. Hope, Ph.D., University of Nebraska-Lincoln

(SGM-05) Treatment Goals of Sexual Minority Men in LGBTQ+-affirmative CBT: A Qualitative Study
Cal Brisbin, B.A.¹, Zachary A. Souliard, Ph.D.², Marc Puccinelli, Ph.D.³, Audrey Harkness, Ph.D.³, Benjamin Fetzner, B.A.⁴, John E. Pachankis, Ph.D.², 1. University of California, Los Angeles, 2. Yale School of Public Health, 3. University of Miami, 4. Hunter College

(SGM-06) Identity Development Trajectories and Childhood Gender Role Nonconformity Among a Gender and Racial Diverse Sample in the United States
Yama Chang, M.A.¹, Walter O. Backing, Ph.D.², 1. University of Pittsburgh School of Medicine, 2. Columbia University Irving Medical Center

(SGM-07) Partial Hospitalization Treatment Outcomes for Sexually and Gender Diverse Adolescents and Adults with Eating Disorders
Majd Jarjour, B.S., Vicky Nguyen, Dominic M. Denning, B.A., Christina Wierenga, Ph.D., Walter H. Kaye, M.D., Tiffany A. Brown, Ph.D., University of California, San Diego

(SGM-08) Relationship Education for Single People? Using Technology to Adapt a Dyadic Intervention for Single Young Sexual Minority Men
Kyle Jozsa, M.A., Michael E. Newcomb, Ph.D., Northwestern University Feinberg School of Medicine

(SGM-09) Contextual Support and Mental Health Among White and BIPOC Transgender and Gender Diverse People
Devon Kimball, B.A.¹, Kalei Glozier, B.A.¹, Alexandra Jagielski², Jae Puckett, Ph.D.¹, L. Zachary DuBois, Ph.D.², Debra A. Hope, Ph.D.³, Richard A. Mocarski, Ph.D.⁴, Robert-Paul Juster, Ph.D.⁵, 1. Michigan State University, 2. Oregon State University 3. University of Nebraska-Lincoln, 4. University of Nebraska at Kearney, 5. University of Montreal

(SGM-10) Differences in COVID-19 Pandemic-related Household Stress, Mental Health, Alcohol & Drug Misuse Among a National Sample of Latinx Sexual Minority & Heterosexual Adults
David B. Rivera, B.A., Alison Cerezo, Ph.D., University of California, Santa Barbara

(SGM-11) Evaluating Racial and Ethnic Mental Health Disparities Among LGBTQ+ Adolescents During the COVID-19 Pandemic
Jenny Shen, M.A.¹, Nicholas Eaton, Ph.D.¹, Kathryn Fox, Ph.D.², Jessica L. Schleider, Ph.D.¹, 1. Stony Brook University, 2. University of Denver

(SGM-12) Fuera Del Clóset: Outness, Heterosexist Discrimination, and Sexual Identity Commitment Among Latinx Sexual Minority Adults
Roberto Rentería, M.A., Cristalís Capielo, Ph.D., Arizona State University
SPIRITUAL AND RELIGIOUS ISSUES IN BEHAVIOR CHANGE

(SRIBC-01) Associations Between Congregation Support Networks, Race, and Mental Health during the COVID-19 Pandemic
Zohaib Jessani, M.A., Brandon Vaidyanathan, Ph.D., Catholic University of America

STUDENT SIG

(Student-01) Covid Concerns: Higher Levels of Mental Health Problems Among Sexual Minority College Students Persist into Year Two of the Pandemic
Ashley R. Pate, M.S., Mississippi State University

(Student-02) Examining Associations Between Positive Affect Dampening and Interpersonal Stress Generation
Rachel X. Chen, University of Rochester

(Student-03) An Investigation of Public Misconceptions Regarding Sexual Assault Allegations
Taryn Veniegas, University of Wyoming

(Student-04) Someone You Can Count On: Does the Presence of Friends Influence Likelihood of Bystander Intervention for Sexual Harassment?
Kayla M. Ford, B.S., University of Arkansas

(Student-05) Posttraumatic Cognitions in Psychopathy: An Examination of the Role of Disgust Sensitivity
Jamie Murtagh, The Mississippi State University

(Student-06) Breaking the Stigma: An Expansive Look into Gender Euphoria from Transgender, Nonbinary, and Gender Expansive Individuals
Niko Vehabovic, University of Nebraska, Lincoln

(Student-07) Associations Between Body Image Patterns and Body Image Disorder Symptoms in Sexual Minority Individuals: A Mixture Modeling Approach
Patrycja Klimek Johnson, San Diego State University

(Student-08) Gender and Sexuality Alliance Advisors’ Social Emotional Competency and Self-efficacy: A Potential Approach to Supporting SGM Youth
Kelly Davis, University of Montana

(Student-09) Assessing Parents’ Preferences for the Content of a Parent Coaching Intervention to Support Youth with Mental Health Needs
Catherine Li, Northwestern University

(Student-10) Assessing Parents’ Preferences for the Content of a Parent Coaching Intervention to Support Youth with Mental Health Need
Catherine Li, BA, Northwestern University
(SSI-01) Short-term Fluctuations in Suicidal Ideation and Related Constructs in the Context of the Three-step Theory of Suicide
Olga Revzina, B.A.1, Philip Ninan, M.D.2, David A. Jobes, Ph.D.1, Irene Zhang, M.A.1, Abby Adler Mandel, Ph.D.1, 1. The Catholic University of America, 2. East Carolina University

(SSI-02) Do Unique Profiles of Maltreatment-related Experiences and Borderline Personality Disorder Symptoms Predict Changes in Self-injury in Dialectical Behaviour Therapy?
Sonya Varma, B.Sc.1, Shelley McMain, Ph.D.2, Skye Fitzpatrick, Ph.D.1, 1. York University, 2. University of Toronto

(SSI-03) Towards a More Detailed Understanding of Emotional Experience in Nonsuicidal Self-injury
David Manuel, B.F.A., E. David Klonsky, Ph.D., University of British Columbia

(SSI-04) Nonsuicidal Self-injury Among University Students: The Roles of Emotional Risk Factors, Impulsivity, and Gender
Jocelyn Woolson, B.A., Morgan E. Browning, B.S., B.A., Elizabeth, Lloyd-Richardson, Ph.D., University of Massachusetts, Dartmouth

(SSI-05) Shame, Alcohol Intoxication, and Deliberate Self-harm in Men and Women
Lissa N. Mandell, B.S.1, Michael S. McCloskey, Ph.D.2, Jennifer R. Fanning, Ph.D.3, Michael R. Nadorff, Ph.D.1, Mitchell E. Berman, Ph.D.1, 1. Mississippi State University, 2. Temple University, 3. McLean Hospital/Harvard Medical School

(SSI-06) Examining the Associations Between Interpretation Bias, Interpersonal Needs, and Suicidality from the Perspective of the Interpersonal Theory of Suicide
Hannah C. Hamrick, B.S.1, Christopher Guadalupe, B.S.2, Nathan M. Hager, M.S.3, Alicia L. Milam, B.S., B.A.3, Morgan Middlebrooks, M.A.1, Matt R. Judah, Ph.D.1, 1. University of Arkansas, 2. Old Dominion University, 3. Virginia Consortium Program in Clinical Psychology

(SSI-07) Idiographic Dynamics of Suicide Ideation and Social Support in Persons Living with HIV
Yiqin Zhu, M.S.Ed1, Thomas L. Rodebaugh, Ph.D.2, Kevin Narine, B.S.3, Lily A. Brown, Ph.D.4, 1. Department of Psychiatry, University of Pennsylvania, 2. Washington University in St. Louis, 3. William James College, 4. Perelman School of Medicine at the University of Pennsylvania

(SSI-08) Examining Changes in Self-injurious Behaviors Following 12 Months of Dialectical Behavior Therapy for Subgroups of Individuals with Borderline Personality Disorder
Bev Fredborg, M.A., Ryerson University, Centre for Addiction and Mental Health
(SSI-09) Alexithymia as a Prospective Risk Factor for Suicidal Thoughts and Behaviors
Elizabeth Hoelscher, B.A.¹, Hannah Krall, B.A¹, Caroline Johnson, B.A.¹, Catarina Carosa, B.A.¹, Michael F. Armey, Ph.D.², Heather Schatten, Ph.D.³, Christopher Hughes, Ph.D.⁴, 1. Butler Hospital, 2. The Alpert Medical School of Brown University, 3. Butler Hospital & Brown Medical School, 4. Warren Alpert Medical School of Brown University

(SI-10) A Prospective Investigation of the Relation Between Dysfunctional Family Communication and Suicidal Ideation Severity in a Clinical Adolescent Sample: A Serial Mediation Model
Roberto López, Jr., M.A.¹, Katherine Maultsby, B.S.¹, Annamarie Defayette, M.A.¹, Emma Whitmyre, M.A.¹, Jennifer C. Wolff, Ph.D.², Anthony Spirito, Ph.D.³, Christianne Esposito-Smythers, Ph.D.¹, 1. George Mason University, 2. Brown Medical School/Rhode Island Hospital, 3. Brown University & Butler Hospital

(SSI-11) Rumination, Punitive Parental Responses to Children’s Negative Emotions, Depression, and Suicidal Ideation in Anxious Youth
Jason Brown, B.A.¹, Samantha Glovak, M.A.¹, Jennifer Silk, Ph.D.², Kristy Benoit Allen, Ph.D.¹, 1. University of Tennessee, Knoxville, 2. University of Pittsburgh

(SSI-12) Acceptability of CBT-insomnia (CBT-I) Intervention Within an Adolescent Suicide Intensive Outpatient Program
Daniel Elledge, Ph.D., Afsoon Gazor, M.A., Jessica King, Ph.D., Betsy Kennard, Psy.D., Sunita M. Stewart, ABPP, Ph.D., Children’s Medical Center and University of Texas-Southwestern, Dallas

TECHNOLOGY AND BEHAVIOR CHANGE SIG

(TBC-01) Limited Uptake of Digital Tools Beyond Telemental Health During COVID-19: A Qualitative Evaluation of Mental Health Providers’ Technology Adoption
Alexandra m. Adamis, B.S.¹, Rachel Von Boxtel, B.S.¹, Julia Potter, B.A.¹, Jessica M. Lipschitz, Ph.D.², 1. Brigham and Women’s Hospital, 2. Brigham and Women’s Hospital/Harvard Medical School

(TBC-02) A BIT of Research on Behavioral Intervention Technologies for Latinx Americans
Sarah L. Adut, M.A., Joshua C. Magee, Ph.D., Miami University

(TBC-03) A Review of Social Networking Use Abstinence and Its Impact on Mental Health and Wellbeing
Andres D. Roque, M.A., Alicia Meuret, Ph.D., Southern Methodist University

(TBC-04) Prevalence and Change in Functional Impairment over the Course of a Coached Digital Intervention for Depression and Anxiety
Margaret T. Anton, Ph.D., Heidi Mochari-Greenberger, Ph.D., MPH, Reena L. Pande, M.D., MSc, AbleTo, Inc.
(TBC-05) Effectiveness of Digital CBT Interventions During COVID-19
Harris E. Bajwa, B.A., Sara Mei, B.S., Sara Brown, B.S., Jackie Bullis, Ph.D., Madeline Wenzel, Sara Freedman, MSW, Elyse Nava, LICSW, Scott Rauch, M.D., Courtney Beard, Ph.D., 1. McLean Hospital, 2. Combined Jewish Philanthropies of Greater Boston, 3. Jewish Family and Children’s Service

(TBC-06) A Meta-analytic Look at Technology-delivered Interventions for Youth Mental Health: The Role of Duration and Frequency of Use
Sarah Broner, B.A., Maya Hareli, B.A., Kate Bartolotta, B.A., Kirsten Christensen, M.A., Nicola Forbes, B.A., Abigail Blum, B.A., Elizabeth Raposa, Ph.D., Colleen Conley, Ph.D.
1. Loyola University Chicago, 2. Fordham University, 3. University of Massachusetts, Boston

(TBC-07) Examining Adolescents’ Experience of Anxiety and Preferences for Digital Tools Through Online Focus Groups
Emily Hersch, M.A., Jennifer Nicholas, Ph.D., Kathryn Ringland, Ph.D., Nicholas Allan, Ph.D., Emily Lattie, Ph.D., David Mohr, Ph.D., Sarah Lord, Ph.D., Alan Budney, Ph.D., Ashley Knapp
1. Northwestern University Feinberg School of Medicine, 2. University of Melbourne, 3. University of California, Santa Cruz, 4. Ohio University, 5. Dartmouth College

(TBC-08) Mindful Moms: Acceptability and Impact Trends of Co-designed Video-based Guided Meditations for Women with Opioid Use Disorder
Ashley Gaughan-Maher, Julie Doherty, M.A., Sarah Lord, Ph.D., Dartmouth College

(TBC-09) Skills of Cognitive Therapy as a Predictor of Treatment Outcomes in a Virtual CBT Program for Anxiety and Depression
Sara Mei, B.S., Harris Bajwa, B.S., Sara Brown, B.S., Madeline Wenzel, B.A., Sara Freedman, MSW, Elyse Nava, LICSW, Scott Rauch, M.D., Courtney Beard, Ph.D., Jackie Bullis, Ph.D.
1. McLean Hospital/Harvard Medical School, 2. Combined Jewish Philanthropies of Greater Boston, 3. Jewish Family and Children’s Services

(TBC-10) Choosing the Right Mental Health App: A Model for App Evaluation and Informed Decision Making Regarding Digital Mental Health Apps
Ashley K. Meyer, B.A., Suraj K. Patel, B.A., John Torous, M.D., MBI, Massachusetts General Hospital/Harvard Medical School

(TBC-11) Patient Utilization of a Smartphone App Delivered Cognitive Bias Modification Intervention
Yas Salon, Courtney Beard, Ph.D., Erin Beckham, B.A., Throstur Bjorgvinsson, Ph.D., Andrew Peckham, Ph.D., Jenna Sandler, 1. Tufts University, 2. Mclean Hospital, 3. Brandeis University

(TBC-12) Effectiveness of Online Cognitive-behavioral Treatment During the COVID-19 Pandemic
Danielle A. Uy, M.A., Anne M. Halbreiner, B.A., Peter Farvolden, Ph.D., Martin M. Antony, Ph.D., 1. Ryerson University, 2. MindBeacon
(TOCRD-01) An Examination of Distress Tolerance and OCD Severity Among LGBTQ+ and Heterosexual Individuals Seeking Intensive/residential Treatment for OCRDS
Andreas Bezahler, B.S., Devin Dattolico, B.S., Martha Falkenstein, Ph.D., OCD Institute, McLean Hospital/Harvard Medical School

(TOCRD-02) OCD and Quality of Life: A Serial Multiple Mediation Model
Morgan E. Browning, B.S., B.A., Nathaniel Van Kirk, Ph.D., 1. University of Massachusetts Dartmouth, 2. OCD Institute, McLean Hospital/Harvard Medical School

(TOCRD-03) Tic Suppression Across Tic Types
Megan Dubois, B.A., Kerry Houlihan, B.S., Brittany Raab, Mia Kellman, B.S., Alison Pryor, B.S., Petros Apostolou, M.S., Christine Conelea, Ph.D., University of Minnesota

(TOCRD-04) Measurement of Contextual Factors During Transcranial Magnetic Stimulation for Tourette Syndrome
Kerry Houlihan, B.S., Megan Dubois, B.A., Mia Kellman, B.S., Katie Beard, B.S., Alana Lieske, B.S., Christine Conelea, Ph.D., University of Minnesota

(TOCRD-05) An Experimental Evaluation of a Function-based Model of Tic Expression
Cecily J. Link, Loran P. Hayes, Ph.D., Kirsten R. Bootes, M.S., Brianna Wellen, B.S., Michael B. Himle, Ph.D., University of Utah

(TOCRD-06) Do Explanations of Tic Controllability Impact Young Adults’ Attitudes Toward Peers with Tourette Syndrome? An Experimental Evaluation
Anchal Malhotra1, Christy L. Chantel, Benjamin J. Nash1, Emily I. Braley, M.S.2, Michael B. Himle, Ph.D.2, Matthew Capriotti, Ph.D.1, 1. San Jose State University, 2. University of Utah

(TOCRD-07) Suicidal Ideation or Suicidal Obsessions? An Evidence-based Guide for Accurate Assessment
Elizabeth F. Mattera, B.S., Terrence H.W Ching, Ph.D., Brian A. Zaboski, Ph.D., Stephen A. Kichuk, MPH, Yale University

(TOCRD-08) The Sleep Disturbance Scale for Children in Youth with Trichotillomania
Gabrielle E. Montalbano, B.S.1, Ariel J. Rissman, B.A.1, Michelle Rozenman, Ph.D.2, Tara S. Peris, Ph.D.1, Patricia Z. Tan, Ph.D.1, John Piacentini, ABPP, Ph.D.1, Emily J. Ricketts, Ph.D.1, 1. Childhood OCD, Anxiety & Tic Disorders Program, University of California, Los Angeles Jane & Terry Semel Institute for Neuroscience & Human Behavior, 2. University of Denver

(TOCRD-09) Psychometric Properties of the Premonitory Urge for Tics Scale (PUTS) in Children with Persistent Tic Disorders
Brandon X. Pitts, B.S.1, Jordan T. Stiede, M.S.1, Brianna Wellen, B.S.2, Christopher C. Bauer, M.S.1, Michael B. Himle, Ph.D.1, Suzanne Mouton-Odum, Ph.D.1, Douglas Woods, Ph.D.1, 1. Marquette University, 2. University of Utah, 3. Medical College of Wisconsin, 4. Baylor College of Medicine
(TOCRD-10) Tics and Hireability: The Implication of Perceptions of Tics and Other Hiring Factors
Zachary W. Roylance¹, Emily I. Braley, M.S.¹, Jordan T. Stiede, M.S.², Cecily J. Link, Michael B. Himle, Ph.D.¹, 1. University of Utah, 2. Marquette University

(TOCRD-11) Gender Representation in Tourette Syndrome Research
Brianna L. Sadighian, Ogochukwu A. Obi, Isaac P. Seneca, B.A.¹, Tara Hedayati, Kianna Vargas¹, Morgan Pangburn, B.S.², Kenneth Phelps, Ph.D.³, Matthew Capriotti, Ph.D.¹, 1. San Jose State University, 2. Arizona State University, 3. University of South Carolina

(TOCRD-12) The Accessibility of Behavioral Treatment for Persistent Tic Disorders in 2010 and 2019
Haley A. Webber, A.S., Brianna Wellen, M.S.¹, Kirsten R. Bootes, B.A.¹, Emily I. Braley, M.S.¹, Christine Conelea, Ph.D.², Douglas Woods, Ph.D.³, Michael B. Himle, Ph.D.¹, 1. The University of Utah, 2. University of Minnesota, 3. Marquette University

TRAUMA AND POST TRAUMATIC STRESS DISORDER SIG

(TPTSD-01) Trauma Anniversary Reactions Marked by Stress Are Evident Across Adverse Experiences
Madeline J. Bruce, M.S., Alexander Chang, B.S., Luke Evans, M.S., Lindsay Thomas, B.S., Paul Handal, Ph.D., Saint Louis University

(TPTSD-02) A Preliminary Evaluation of an Integrated Treatment for PTSD and Suicide Prevention: CLASP-PE
Bridget Feler, B.A.¹, Jesse McCann, B.S.², Sally Murphy, M.A., LPC¹, Jonna Vaughn, M.A.⁴, Ron Acierno, Ph.D.⁴, Edna B. Foa, Ph.D.¹, Ivan W. Miller, III, Ph.D.⁵, Lauren Weinstock, Ph.D.⁵, Lily A. Brown, Ph.D.¹, 1. University of Pennsylvania, 2. University of Kentucky, 3. Medical University of South Carolina, 4. University of Texas, 5. Alpert Medical School of Brown University

(TPTSD-03) COVID Stress and Intimate Partner Violence
Brianna Prichett, B.S., Kathleen P. Reed, Ph.D., Clark University

(TPTSD-04) PTSD Symptoms and Rumination Among COVID-19 Healthcare Workers
Karly S. Weinreb, M.A., Samantha Coyle, Ph.D., NCSP, Montclair State University

WOMEN’S ISSUES IN BEHAVIOR THERAPY SIG

(WIBT-01) Identifying Barriers to Implementing Pet Programs in U.S. Domestic Violence Shelters
Claire Baldwin, B.A. Hons., Patti Timmons Fritz, Ph.D., C. Psych., University of Windsor

(WIBT-02) Psychological and Professional Repercussions of the COVID-19 Pandemic in Female Faculty with Children: An Investigation of Outcomes Across Different Academic Career Stages
Christina M. Sanzari, B.A., Julia M. Hormes, Ph.D., University at Albany, State University of New York
(WIBT-03) Moderating Effects of Psychological Flexibility During an ACT for Pregnant Women
Natalie C. Tunnel, M.A., Richard Kim, B.A., Eliana Abraham, Alicia Meuret, Ph.D.,
Southern Methodist University
Saturday, November 20, 2021

11:30 a.m. – 1:30 p.m.

POSTER SESSION 8

Poster Session 8A

Key Words: CBT, Social Anxiety, Acceptance

Lynn Hana, B.S., Mary J. Schadegg, M.A., Laura J. Dixon, Ph.D., University of Mississippi

(PS8-A2) A Qualitative Study on Identity in Individuals at Clinical High-risk for Psychosis: “...Why Does It Have to Be One Thing?”
Cansu Sarac, B.A., Joseph DeLuca, Ph.D., Zarina Bilgrami, B.A., Shaynna N. Herrera, Ph.D., Cheryl M. Corcoran, M.D., Icahn School of Medicine at Mount Sinai

(PS8-A3) The Association Between Symptoms of PTSD and Intimate Partner Violence in Couples During the COVID-19 Pandemic
Caitlin M. Kehoe, M.A., Victoria E. Bennett, M.A., Julia Babcock, Ph.D., University of Houston

(PS8-A4) College Students’ Use of and Preference for Cognitive-behavioral and Mindfulness-based Strategies for Stress Reduction
Sarah Rabbitt, Ph.D., Philip Swigon, Oberlin College

(PS8-A5) The Indirect Effect of Attentional Control on Distress Tolerance Through Emotion Regulation
Alicia L. Milam, B.S., B.A.¹, Hannah C. Hamrick, B.S.², Nathan M. Hager, M.S.¹, Matt R. Judah, Ph.D.², 1. Virginia Consortium Program in Clinical Psychology, 2. University of Arkansas

(PS8-A6) Brief Structured Dog-assisted Therapy for Female Prison Inmates: A Pilot Study
Andrea V. Avecilla, M.A., Elizabeth E. Lloyd-Richardson, Ph.D., University of Massachusetts, Dartmouth

(PS8-A7) Differences in Changes in Mental Health Seeking Attitudes Following a Sleep Intervention Between Adolescent Latinos and Non-latinos with Sleep Health Deficits
Raul E. Barete, B.A., Lauren D. Asarnow, Ph.D., Riya Mirchandaney, B.A., University of California, San Francisco
(PS8-A8) Internalized Weight Bias and Disordered Eating: The Protective Role of Self-compassion
Rachel D. Marshall, M.A., Si Woo Chae, B.A., Kaitlin Rozzell, M.A., Janet D. Latner, Ph.D., University of Hawai‘i at Manoa

(PS8-A9) Predictors of Outcome in Cognitive-behavioral Therapy for Social Anxiety Disorder: A Machine Learning Approach
Sei Ogawa, Ph.D.¹, Risa Imai, Ph.D.¹, Toshi A.Furukawa, Psy.D.², Tatsuo Akechi, Ph.D.¹, 1. Nagoya City University Graduate School of Humanities and Social Sciences, 2. Department of Health Promotion and Human Behavior, Kyoto University Graduate School of Medicine / School of Public Health, Kyoto

(PS8-A10) BIPOC Support Groups in Canada: Insights on Who Attends, and Their Benefits and Drawbacks
Drexler Ortiz, M.S.¹, Cara Samuel, M.S.², Parker Johnson, B.A.³, Vishnu Punwani, B.A.³, Devi Mucina, Ph.D.¹, 1. University of Victoria, 2. University of Toronto, 3. The Table Organization

(PS8-A11) Don’t Forget the Lyrics: An Analysis of Self-affirmations in Musical Cognitive Restructuring
Elizabeth Jean, M.A., Kent State University

(PS8-A12) Perceived Rejection in the Experience of Anger in High versus Low Social Anxiety
Virginia Tsekova, M.A., Naomi Koerner, Ph.D., Martin M. Antony, Ph.D., Ryerson University

(PS8-A13) The Moderating Effect of Cognitive Fusion on the Relationship Between Worry Behaviors and Anxiety
Kelsey Thomas, M.A., Julia Y. Gorday, B.S., Kate Clauss, M.A., Joseph R. Bardeen, Ph.D., Auburn University

(PS8-A14) Testing a Bifactor Model of the Multidimensional Cognitive Attentional Syndrome Scale
Kate Clauss, M.A.¹, Joseph R. Bardeen, Ph.D.¹, Thomas A. Fergus, Ph.D.², 1. Auburn University, 2. Baylor University

(PS8-A15) Problematic Cannabis Use in the COVID-19 Pandemic: The Role of Intolerance of Uncertainty
Frederick T. Schubert, III, B.A., Danielle M. Morabito, M.S., Christopher Zappi, B.S., Cameron Matoska, B.S., Florida State University

(PS8-A16) Does Emotion Regulation Mediate the Relationship Between Post-traumatic Stress and Types of Aggression?
Cassidy L. Tenny, M.A.¹, Nora E. Charles, Ph.D.¹, Joye Anestis, Ph.D.², 1. University of Southern Mississippi, 2. Rutgers, The State University of New Jersey

(PS8-A17) Response Effort Attenuates Provoked Aggression in Men and Women
Michaela Patoilo, B.S.¹, Joshua Bullock, Ph.D.², Jennifer R. Fanning, Ph.D.³, Michael S. McCloskey, Ph.D.², Mitchell E. Berman, Ph.D.¹, Matthew A. Timmins, M.S.¹, 1. Mississippi State University, 2. VA Connecticut Healthcare System, 3. McLean Hospital, Harvard Medical School, 4. Temple University
(PS8-A18) Predictors of Depression and Anxiety in Incoming Medical Students
Dana Nguyen, Samantha N. Hellberg, B.A., Kenan G. Sayers, Maya E. Tadross, Megan Butcher, B.S., Heidi J. Ojalehto, B.S., Jonathan S. Abramowitz, Ph.D., University of North Carolina at Chapel Hill

(PS8-A19) Moderating Effects of Self-reported Family Accommodation on the Relation Between Obsessive-compulsive Symptoms and Relationship Satisfaction in Adults with OCD in a Romantic Relationship
Andrew J. De Leonardis, M.S., Gregory S. Chasson, Ph.D., Illinois Institute of Technology

(PS8-A20) Exploring the Effect of Trauma Type, by Gender, on the Relationship Between Postsecondary Academic Performance and Posttraumatic Stress Disorder
Sami S. Soufi, Malisa M. Brooks, MSW, Anu Asnaani, Ph.D., Kent D. Hinkson, Jr., M.S., University of Utah

(PS8-A21) Evaluation of Health-related Metacognitive Beliefs on Anxiety About COVID-19
Ciara G. Incorvati, B.A., Jacob Balconi, Cynthia L. Dulaney, Ph.D., Xavier University

(PS8-A23) State Mindfulness, Trait Mindfulness, and Response to Mindfulness Training: Is There a Genomic Signature?
Jeffrey M. Greeson, Ph.D., Rowan University

(PS8-A24) Less Social, More Social Media: Reported Use Patterns of Social Media in a Clinical Sample of Anxious Youth During COVID-19
Shannon Gasparro, B.A.¹, Arielle Linsky, Ph.D.¹, Angela W. Chiu, Ph.D.², Payal Desai, M.P.H.¹, Shannon M. Bennett, Ph.D.¹, 1. Weill Cornell Medicine, 2. Weill Cornell Medicine / New York Presbyterian Hospital, 3. Columbia University/New York State Psychiatric Institute

---

**Poster Session 8B**

Key Words: Couples / Close Relationships, Social Relationships, Acceptance

Jenna Rice, B.A., James V. Cordova, Ph.D., Clark University

(PS8-B26) Sex Differences Among U.S. Active Duty Service Members with Posttraumatic Stress Disorder and Comorbid Disorders
Kristen H. Walter, Ph.D., Jordan A. Levine, M.P.H., Naju J. Madra, M.A., Lisa H. Glassman, Ph.D., Jessica L. Beltran, B.S., Naval Health Research Center

(PS8-B27) Neuroticism Prospectively Predicts Self-stigma Associated with Seeking Psychological Services
Zoe M. Trout, B.A., Anne L. Kleinsasser, M.A., Thomas A. Fergus, Ph.D., Baylor University

(PS8-B28) Demographic Differences in Daily Alcohol-related Consequences in a Sample of College Students
Douglas J. Glenn, B.A.¹, Philip Laxton², Cathy Lau-Barraco, Ph.D.², 1. Virginia Consortium Program in Clinical Psychology, 2. Old Dominion University
(PS8-B29) Parsing Impulsive Aggression in Intermittent Explosive Disorder and Borderline Personality Disorder
Whitney M. Allen, B.A.,1 Kristen P. Howard, M.A.,1 Joelyn Pek, Ph.D.,1 Jennifer S. Cheavens, Ph.D.,1 Emil F. Coccaro, M.D.,2 1. The Ohio State University, 2. The Ohio State University Wexner Medical Center

(PS8-B30) Women Locked up in Texas: Predicting Suicide Risk by Custody Type and Nature of Offense
Nicole L. Moreira, M.A., Katherine L. O’Connell, M.S., Rocky B. Marks, B.A., Keyne C. Law, Ph.D., Seattle Pacific University

(PS8-B31) Treating Internalizing Symptoms and Interpersonal Difficulties in a Veterinary Medical Student with Dbt-informed Therapy: A Case Study
S. Taylor Younginer, M.A., Sarah Thompson, Ph.D., L. Christian Elledge, Ph.D., The University of Tennessee, Knoxville

(PS8-B32) Anxiety Sensitivity as a Potential Contributing Factor to Adult Separation Anxiety Disorder Symptoms
Nechama Kaiser, B.A., Michael G. Wheaton, Ph.D., Barnard College

(PS8-B33) Cortical Thickness Association with Perseverative Thinking and Suicidal Ideation
Ana E. Sheehan, B.A., Emily Heilner, Nadia Bounoua, M.A., Rickie L. Miglin, M.A., Jeffrey A. Spielberg, Ph.D., Naomi Sadeh, Ph.D., University of Delaware

(PS8-B34) Attention Young Adults! It Gets Better: Cohort Psychological Outcomes Improve over Time
Kristen Hollas, M.A., Kelsey G. Coulthard, M.A., Mary Lou Kelley, Ph.D., Louisiana State University

(PS8-B35) Supporting Community Health Workers Who Provide Medical and Behavioral Health Support in Underserved Communities: Stakeholders’ Perspectives
Chris Blank, M.A., Maya M. Boustani, Ph.D., Diane G. Marin, M.A., Dina Bashoura, B.A., Loma Linda University

(PS8-B36) Preservice Training in Evidence-based Practice: Years of Training Impacts Knowledge Retention for Exposure
Tristan J. Maesaka, M.A., Brad Nakamura, Ph.D., University of Hawai’i at Manoa

(PS8-B37) Improving Practitioner Use of CBT Through Case-based Consultation to Supervisors
Georganna R. Sedlar, Ph.D.,1 Vishal Kumar, B.S.,2 Noah R. Gubner, Ph.D.,3 Sarah Walker, Ph.D.,4 1. University of Washington School of Medicine, 2. University of Washington, Seattle, 3. Department of Psychiatry and Behavioral Science, University of Washington, 4. Department of Psychiatry and Behavioral Science, University of Washington School of Medicine

(PS8-B38) The Longitudinal Measurement Invariance of the Short Health Anxiety Inventory
Laura J. Long, M.A., Matthew W. Gallagher, Ph.D., University of Houston
(PS8-B39) Changes to Psychosocial Functioning in Florida Mental Health Providers During covid-19
Caroline Lutzky, B.S.,1, Brian E. Bunnell, Ph.D.,1, Arianna Gutierrez, B.S.,1, Henry Slone, B.S.,1, Demi Zhu, B.S.,1, Hannah D. Hedriana, B.S., B.A.,2 Janelle F. Barrera, M.P.H.,1, 1. University of South Florida, 2. University of South Florida Morsani College of Medicine

(PS8-B40) Gaze-contingent Music Reward Therapy: A Novel Computer-based Therapy for Social Anxiety Disorder
Gloria J. Gomez, B.A.,1, Sarah C. Dolan, B.A.1, Amit Lazarov, Ph.D.2, Franklin Schneier, M.D.3, 1. New York State Psychiatric Institute/Columbia University Medical Center, 2. Tel Aviv University, 3. New York State Psychiatric Institute

(PS8-B41) Reproductive Coercion and Intimate Violence Perpetration Among Young Adult Men
Emily A. Munoz, M.A.1, Jeff Temple, Ph.D.2, Ryan C. Shorey, Ph.D.1, Vi Donna Le, M.P.H., Ph.D.2, 1. University of Wisconsin, Milwaukee, 2. University of Texas Medical Branch

(PS8-B42) The Interactive Effect of Mental Contamination and Cognitive Fusion on Generalized Anxiety Symptoms
Kate Clauss, M.A., Joseph R. Bardeen, Ph.D., Auburn University

(PS8-B43) Comparing Symptom Networks of Daytime and Nocturnal Panic Attacks
Nicole S. Smith, M.A., Brian W. Bauer, M.S., Daniel W. Capron, Ph.D., University of Southern Mississippi

(PS8-B44) Demographic and Clinical Differences in Engagement with Supportive Coaching for an Online Anxiety Intervention
Suraj K. Patel, B.A., Alexandra L. Silverman, M.A., Bethany A. Teachman, Ph.D., University of Virginia

(PS8-B45) Predicting Longitudinal Psychiatric Effects of the COVID-19 Pandemic in a Transdiagnostic Sample of Youth Using Task-based Fmri
Camille Archer, B.A.,1, Simone P. Haller, Ph.D.,1, Allison Jaffe, B.S.,1, Anita Harrewijn, Ph.D.,1, Reut Naim, Ph.D.,1, Julia Linke, Ph.D.,1, Joel Stoddard, M.D.,2, Melissa A. Brotman, Ph.D.1, 1. National Institute of Mental Health, 2. University of Colorado Anschutz Medical Campus

(PS8-B46) Intermittent Explosive Disorder: A Latent Class Analysis and External Validation

(PS8-B48) Isolating Fear from Anxiety: An Emotion Vignette Study

(PS8-B49) Burnout in Trainees and Licensed Providers: Training and Treatment Implications
Candice Wilson, B.A.1, Rheanna L. Standridge, B.S.,1 Craig A. Warlick, Ph.D.1, Abby Armstrong, M.S.1, Nicole Farmer, Ph.D.,2 Tristan P. Patterson, M.S.3, 1. University of Southern Mississippi, 2. Southern Arizona VA Health Care System, 3. University of Kansas
**Poster Session 8C**

Key Words: Health Psychology, Military, Alcohol

(PS8-C50) Decreased Unhealthy Alcohol Use over Time Among Air Force Recruits
Chase Aycock, Psy.D.¹, Marc A. Patience, Ph.D.², Indika Mallawaarachchi, M.S.³, Robert C. Klesges, Ph.D.⁴, Rosemary Estevez Burns, Ph.D.⁵, Gerald W. Talcott, ABPP, Ph.D.⁶, 1. Wilford Hall Ambulatory Surgical Center, JBSA-Lackland Air Force Base, TX, 2. United States Air Force, 3. University of Virginia, 4. The University of Virginia Medical School, 5. Wilford Hall Ambulatory Surgical Center

(PS8-C51) Levels of Guilt and Self-assurance Among Individuals Recently Discharged from Psychiatric Hospitalizations
Hannah R. Krall, B.A.¹, Catarina L. Carosa, B.A.¹, Caroline M. Johnson, B.A.¹, Elizabeth C. Hoelscher, B.A.², Michael F. Armey, Ph.D.², Ivan W. Miller, III, Ph.D.², Christopher D. Hughes, Ph.D.², Heather Schatten, Ph.D.³, 1. Butler Hospital, 2. Warren Alpert Medical School of Brown University, 3. Butler Hospital & Brown Medical School

(PS8-C52) Examining Parental Confidence Following Parent-child Interaction Therapy Enhanced Teach Fathers Group
Jamie Scharoff, M.A., Julia Weisman, M.A., Janice Lu, B.A., Anne Fraiman, M.A., Phyllis S. Ohr, Ph.D., Hofstra University

(PS8-C53) The Association Between Psychophysiological Fear Conditionability and Self-reported Shock Expectancy During a Fear Conditioning Paradigm in Healthy Women
Gabriella E. Hamlett, M.A.¹, Dylan B. Miller, B.A.², Madeleine M. Rassaby, B.A.¹, Lily A. Brown, Ph.D.¹, Mohammed R. Milad, Ph.D.², Edna B. Foa, Ph.D.¹, 1. Perelman School of Medicine at the University of Pennsylvania, 2. New York University Grossman School of Medicine

(PS8-C54) Influences of Reward Responsiveness, Sleep, and Cortisol Reactivity on Suicide
Katherine L. O’Connell, M.S.¹, Keyne C. Law, Ph.D.¹, Samantha Jacobson, M.S.¹, Margaret Baer, M.A.², Phillip M. Baker, Ph.D.¹, Kim L. Gratz, Ph.D.², Matthew T. Tull, Ph.D.², 1. Seattle Pacific University, 2. University of Toledo

(PS8-C55) Machine Learning Based Evaluation of Suicide Risk Assessment in Text-based Crisis Counseling
Mattia M. Medina Grespan, M.S.¹, Meghan Broadbent, M.S.¹, Brent Kious, M.D., Ph.D.¹, Alison Lake, M.A., LPC², Madelyn Gould, M.D., Ph.D.², Zac E. Imel, Ph.D.¹, Vivek Srikumar, Ph.D.¹, 1. University of Utah, 2. Columbia University

(PS8-C56) Food Craving as a Mediator in the Relationship Between Weight Suppression and Disordered Eating
Susana Cruz Garcia, B.A., Julia M. Hormes, Ph.D, University at Albany, State University of New York

(PS8-C57) Positive Affectivity: Motivational State Relations with Social Anxiety
Corinne N. Carlton, M.S.¹, Janey E. Dike, M.A., M.S.¹, Matthew Brown, M.S.², Kasey Stanton, Ph.D.¹, John Richey, Ph.D.³, 1. Virginia Polytechnic Institute and State University, 2. Western University, 3. Virginia Tech
(PS8-C58) Creation of a Lexical Stimulus Set to Study Stress Responses in College Students
Joshua S. Steinberg, Anna R. Franklin, M.A., Ayelet M. Ruscio, Ph.D., University of Pennsylvania

(PS8-C59) Feeling More Depressed During the COVID-19 Pandemic? How Anxiety, Social Loneliness and Gender Impact Interest in Telehealth Services
Maria C. DiFonte, M.A., Rebecca Michel, B.S., Elaine Ruiz, M.A., Katharine E. Musella, M.A., Ellen C. Flannery-Schroeder, ABPP, Ph.D., University of Rhode Island

(PS8-C60) Social Attachment and the Interpersonal Theory of Suicide: Associations of Insecure Adult Attachment Styles, Thwarted Belongingness, Perceived Burdensomeness, and Suicide Risk Among Firefighters
Nathaniel A. Healy, M.A.1, Samuel J. Leonard, M.A.1, Jana Bittar1, Ian H. Stanley, Ph.D.2, Anka A. Vujanovic, Ph.D.1, 1. University of Houston, 2. Boston University School of Medicine & National Center for PTSD

(PS8-C61) Examining the Role of Emotional Reactivity Across Positive and Negative Emotions in the Relationship Between Borderline Personality Disorder and Major Depressive Disorder
Michelle Durling, B.A., Elinor E. Waite, B.A., Blake Ronzio, B.S., Katherine Dixon-Gordon, Ph.D., University of Massachusetts Amherst

(PS8-C62) Investigating the Association Between Lower-order Grit Scales and covid-19-related Worries
Catherine Accorso, M.A., Nicholas P. Allan, Ph.D., Brandon Koscinski, M.A., Ohio University

(PS8-C63) Comparing Ripple Effects of Evidence-based Treatment Implementation Strategies Between Providers and Youth Clients
Catherine M. Corbin, Ph.D.1, Ian Muse, B.A.1, Michael D. Pullmann, Ph.D.1, Chayna J. Davis, Ph.D.1, Shannon Dorsey, Ph.D.2, 1. University of Washington School of Medicine, 2. University of Washington, Seattle

(PS8-C64) Telehealth Engagement and Presenting Severity in an Outpatient Military and Family Clinic During the COVID-19 Pandemic
Justin R. Pomerenke, Ph.D.1, Amanda Spray, ABPP, Ph.D.2, Naomi M. Simon, M.D.3, Ariane Ling, Ph.D.1, 1. New York University Langone Medical Center, 2. New York University School of Medicine; Cohen Military Family Center, 3. New York University Grossman School of Medicine

(PS8-C65) Disability and Disasters: The Role of Self-efficacy in Emergency Preparedness Behaviors Five Years Later
Ashley E. Reed, B.A.1, Cynthia A. Rohrbeck, Ph.D., Jennifer E. Marceron Glienke, Ph.D.2, 1. George Washington University, 2. The Family Center Counseling Associates, PLLC

(PS8-C66) A New Point of Intervention with Incarcerated People? Expectations for the Future
Margaret Webb, B.S., B.A., P P. Tangney, Ph.D., George Mason University
COVID-19 Disproportionally Harms Mothers in the Academy: Productivity and Mental Health Outcomes in Women Faculty Parenting During the Pandemic
Christina M. Sanzari, B.A., Courtney E. Breiner, M.A., McKenzie Miller, M.A., Julia M. Hormes, Ph.D., University at Albany, State University of New York

The Role of Emotion Identification in the Association Between Stress and Anxiety
Alicia L. Milam, B.S., B.A.\(^1\), Laura B. Kenneally, B.A.\(^1\), Brooke Puharic, B.S.\(^1\), Matt R. Judah, Ph.D.\(^2\), 1. Virginia Consortium Program in Clinical Psychology, 2. University of Arkansas

Measurable Proxies of “culture” and Their Associations with Internalizing Symptoms
Mossie Lierle, B.S., Juan C. Hernandez, B.A., Marisol Perez, Ph.D., Jenna Stadheim, B.A., Arizona State University

Child Self-reported Depression, Anxiety, and PTSD Symptomatology Following Negative Police and Immigration Officer Interactions
Augustine Lombera, III, B.A.\(^1\), Danielle S. Citera, M.A.\(^2\), Komal Sharma-Patel, Ph.D.\(^2\), Elissa J. Brown, Ph.D.\(^2\), 1. The Pennsylvania State University, 2. St. John’s University, Child HELP Partnership

Session-by-session Change in Subjective Wellbeing Prospectively Predicts Session-by-session Change in Bulimia Nervosa Symptoms
Laura E. Boyajian, B.A., Paakhi Srivastava, Ph.D., Alexandra L. Pitts, Adrienne S. Juarascio, Ph.D., Drexel University

Increasing Pull Demand of Evidence-based Psychological Treatments: Do Client Testimonials on Therapist’s Websites Impact Treatment Seeking?
Olenka S. Olesnycky, M.A.\(^1\), Narise Ramlal, B.A.\(^2\), William C. Sanderson, Ph.D.\(^1\), 1. Hofstra University, 2. Harvard University

What’s the Plan? Using an Observational Coding System to Study the Frequency and Content of Treatment Planning Discussions in Youth Psychotherapy
Alicia R. Fenley, M.A.\(^1\), Laura J. Nelson Darling, M.A.\(^1\), Shiba M. Esfand, B.A.\(^1\), David A. Langer, ABPP, Ph.D.\(^2\), Bruce F. Chorpita, B.A., M.A., Ph.D.\(^3\), Emily Nickson, B.S.\(^4\), Caroline Nelson, B.A.\(^1\), 1. Boston University Center for Anxiety and Related Disorders, 2. Suffolk University, 3. University of California, Los Angeles, 4. Boston College

Does Problematic Substance Use Moderate Efficacy of Cognitive Behavioral Therapy for Adherence and Depression in HIV?
Jasmyn Sanders, M.S., Tiffany R. Glynn, M.S., Steven A. Safren, Ph.D., Sannisha Dale, Ph.D., Audrey Harkness, Ph.D., University of Miami
**Poster Session 8D**

Key Words: Health Care System, Technology / Mobile Health, Stress

(PS8-D75) Mobilizing a Mental Health Response for COVID-19 Health Care Workers
Madeline R. Pike, B.A., Allison LoPilato, Ph.D., Andrea Crowell, M.D., Jordan Cattie, Ph.D., 1. Temple University, 2. Emory University School of Medicine

(PS8-D76) Breastfeeding Self-efficacy and Postpartum Depression Among Women from Low Income Backgrounds
Jenna Wittmann, M.A., Randy Fingerhut, Ph.D., Caroline Brady, B.A., La Salle University

(PS8-D77) The Relationship Between Multiple OCD-related Cognitive Processes and OCD Symptom Types
Megan M. Shambaugh, B.S., B.A., John E. Calamari, Ph.D., Niel A. Rector, Ph.D., Brad C. Riemann, Ph.D., Gregory M. Dams, M.S., 1. Rosalind Franklin University of Medicine and Science, 2. Sunnybrook Health Sciences Centre, 3. Rogers Memorial Hospital

(PS8-D78) Parenting in a Pandemic: Anxiety, Depression, and Parental Self-evaluation During the COVID-19 Pandemic
Haley Adams, B.S., Kimberly Zlomke, Ph.D., University of South Alabama

(PS8-D79) Therapeutic Effects of Suicide Risk Assessment in Research with High Risk Youth
Meredith B. Whitfield, M.S., Amy M. Brausch, Ph.D., David A. Jobes, Ph.D., 1. Western Kentucky University, 2. Catholic University of America

(PS8-D80) First Comes Love, Then Comes Marriage?: A Qualitative Investigation of Marital Attitudes Among First-generation South Asian Immigrants
Zahra Amer, B.A., Alayna J. Watson, M.A., Erica A. Mitchell, Ph.D., Morgan E. Merrick, Kristina Gordon, Ph.D., The University of Tennessee, Knoxville

(PS8-D81) The Role of Body Compassion vs. Self-compassion in the Risk of Developing Eating Disorders
Diana Burychka, M.S., Marta Miragall, Ph.D., Rosa M. Barios, Ph.D., 1. Polibienestar Research Institute, University of Valencia; Department of Personality, Evaluation and Psychological Treatment, University of Valencia, Spain, 2. Department of Personality, Evaluation and Psychological Treatments, University of Valencia, Spain; CIBER of Physiopathology of Obesity and Nutrition (CIBEROBN), Instituto Carlos III, Madrid, Spain; 3. Polibienestar Research Institute, University of Valencia, Spain; CIBER of Physiopathology of Obesity and Nutrition (CIBEROBN), Instituto Carlos III, Madrid, Spain;

(PS8-D82) Shame Is the Shared Maintenance Factor in an Eating Disorder-anxiety Symptom Comorbidity Model in Female Adolescents
Betty Ngo, Leigh C. Brosnof, M.S., Cheri A. Levinson, Ph.D., University of Louisville

(PS8-D83) Gender Expression as a Predictor of Attitudes Towards Public Displays of Affection in Women in Relationships with Women
Lauren Matheson, M.S., Drexler Ortiz, M.S., Ashley Hoskin, Ph.D., Karen Blair, Ph.D., 1. University of Victoria, 2. University of Waterloo, 3. Trent University
(PS8-D84) The Role of Men’s Masculinity/femininity and Appearance Ideal Internalization in Appearance Self-esteem Following a Dissonance-based Intervention
Taryn A. Myers, Ph.D., Trevaughn McNeil, B.A., Jessica C. Gurley, Carli H. Williams, Kathryn Alvarado, B.A., Virginia Wesleyan University

(PS8-D85) Emotion Regulation and Excessive and Compulsive Exercise in Eating Disorders Across Treatment

(PS8-D86) Student Perspectives on Barriers to Lgbq/tgnb-affirmative Training in Clinical and Counseling Psychology Programs
Hannah F. Fitterman-Harris, M.S.¹, Zachary A. Soulliard, Ph.D.², Katherine Zane, Ph.D.³, Honore M. Hughes, Ph.D.¹, 1. Saint Louis University, 2. Yale School of Public Health, 3. OhioHealth- Physician Group

(PS8-D87) A Naturalistic Examination of Affect and Non-eating Activity Engagement as Predictors of Loss of Control Eating
Christina R. Felonis, B.A.¹, Adam Payne-Reichert, B.S.², Stephanie M. Manasse, Ph.D.², Adrienne S. Juarascio, Ph.D.¹, 1. Drexel University, 2. Drexel University WELL Center

(PS8-D88) Further Psychometric Support for the Brief Adjustment scale-6 (BASE-6) in Measurement-based Care
Hayoung Ko, M.A., Lee D. Cooper, Ph.D., Virginia Polytechnic Institute and State University

(PS8-D89) Effects of Trauma Symptomology and Conflict Resolution Skills on Intimate Partner Violence Perpetration: A Dyadic Analysis
Olivia L. Hucks, Dominic J. Parrott, Ph.D., Konrad Bresin, Ph.D., Georgia State University

(PS8-D90) Is Ignorance Bliss? Examining the Effect of News Media Exposure on Anxiety and Depression During the COVID-19 Pandemic
Danielle L. Hoyt, M.A.¹, Michele L. Hiserodt, M.A.², Alexandra K. Gold, M.A.², Megan A. Milligan, B.S.¹, Michael W. Otto, Ph.D.², 1. Rutgers University, 2. Boston University, 3. Boston University / University of New Hampshire

(PS8-D91) Neurofeedback as a Potential Candidate for Reducing Error-related Negativity
Brooke Cullen, B.A.¹, Donatello Arienzo, Ph.D.¹, Nader Amir, Ph.D.², 1. San Diego State University, 2. University of California, San Diego/San Diego State University Doctoral Program

(PS8-D92) Temporality and Motivational Direction of Client Language During a Brief Alcohol Motivational Intervention for Mandated College Students
Estella Fox, B.A.¹, Naomi M. McFarland, B.S.¹, James G. Murph, Ph.D.², Brian Borsari, Ph.D.³, Jon M. Houck, Ph.D.⁴, Benjamin O. Ladd, Ph.D.¹, 1. Washington State University Vancouver, 2. University of Memphis, 3. University of California San Francisco, 4. University of New Mexico
(PS8-D93) The Role of Psychological Inflexibility in the Relationship Between Generalized Anxiety and Energy Levels Among Emerging Adults During the COVID-19 Pandemic
Elaine Ruiz, M.A., Maria C. DiFonte, M.A., Ellen C. Flannery-Schroeder, ABPP, Ph.D., University of Rhode Island

(PS8-D94) A Quantitative Comparison of Worries in Military Children with a Deployed Parent and Other Family Types
Caroline Lutzky, B.S., Demi Zhu, B.S., Samantha Paige, M.P.H., Ph.D., Arianna Gutierrez, B.S., Henry Slone, B.S., Hannah D. Hedriana, B.S., B.A., Brian E. Bunnell, Ph.D., University of South Florida, 2. Doxy.me, 3. USF Morsani College of Medicine

(PS8-D95) Effects of a Cognitive Behavioral Depression Prevention Program on Other Problems Including Anxiety, Behavior, and Substance Use

(PS8-D96) Perceptual Influences on Real-time Suicide Risk Assessment Efficacy Among Persons Living with HIV
Emily Ballentine, B.A., Kevin Narine, B.A., Lily A. Brown, Ph.D., 1. University of Pennsylvania, 2. Perelman School of Medicine at the University of Pennsylvania

1:45 p.m. – 3:45 p.m.

POSTER SESSION 9

Poster Session 9A

Key Words: Risk / Vulnerability Factors, Adolescents

(PS9-A1) Development of Adolescent Anhedonia Across 18 Months Varies by Gender and Family History
Melissa M. Nance, B.A., Erika Forbes, Ph.D., University of Pittsburgh

(PS9-A2) Understanding OCD Attitudes and Knowledge: A Mixed-methods Study
Isabelle E. Siegel, B.A., Casey A. Schofield, Ph.D., Gabriella T. Ponzini, M.S., 1. Rutgers University, 2. Skidmore College, 3. West Virginia University

(PS9-A3) Helicopter Parenting and Its Effects on College Students During the COVID-19 Pandemic
Madison Crowder, B.S., Allison B. Duncan, B.A., Phillip May, M.A., Susan L. Kenford, B.A., M.A., Ph.D., Xavier University
(PS9-A4) The Effect of Emotion Regulation Skill Use on Changes in Negative and Positive Affect in Adults with Major Depressive Disorder or Generalized Anxiety Disorder
Lisa N. Vittorio, M.A., Samuel T. Murphy, M.A., Megan L. Whelen, M.A., Daniel R. Strunk, Ph.D., The Ohio State University

(PS9-A5) Child and Classroom Characteristics Associated with Stability of Peer Victimization Status
Elise L. Everly, B.A.1, Julie S. Owens, Ph.D.1, Lina Himawan, M.A.1, Steven W. Evans, Ph.D.1, Amori Y. Mikami, Ph.D.2, 1. Ohio University, 2. University of British Columbia

(PS9-A7) Perceived Burdensomeness and Help-seeking Attitudes: The Role of Race and Residency Status
Sarah E. Dreyer-Oren, M.A.1, Anjali T. Jain, M.A.1, Tessa Benson-Greenwald, M.A.2, Vaishali V. Raval, Ph.D.1, Amanda Diekman, Ph.D.2, Elise M. M. Clerkin, Ph.D.1, 1. Miami University, 2. Indiana University

(PS9-A8) PEERS® for Preschoolers Program for Young Children with Autism Spectrum Disorder: Exploring Fidelity of Implementation and Effect on Social Skills
Reina S. Factor, Ph.D.1, Hannah Rea, Ph.D.2, Elizabeth A. Laugeson, Psy.D.1, Angela Scarpa, Ph.D.3, 1. University of California, Los Angeles Semel Institute for Neuroscience & Human Behavior, 2. University of Washinton, 3. Virginia Polytechnic Institute and State University

(PS9-A9) In Support of the Mindfulness Stress Buffering Account: Perceived Stress Mediates the Relationship Between Trait Mindfulness and Perceived Physical Health
Gabrielle R. Chin, M.A., Emma E. McBride, M.A., Jeffrey M. Greeson, Ph.D., Rowan University

(PS9-A10) Adverse Childhood Experiences, Intimate Partner Violence Victimization, and Posttraumatic Stress Disorder Symptoms Among Sexual Minorities
Gloria Romero, B.S., M.S.1, Alyssa M. Medenblik, B.A.1, Mary C. Jensen1, Thomas E. Schlechter, B.A.2, Hannah L. Grigorian, M.A.1, Alisa R. Garner, M.A.1, Ryan C. Shorey, Ph.D.3, Gregory Stuart, Ph.D.1, 1.University of Tennessee, Knoxville, 2. University of Wisconsin, Milwaukee

(PS9-A11) Associations of Moral Injury with Burnout and Wellbeing Among Police Officers: The Mediating Role of Negative and Positive Affect
Mahsa Mojallal, M.A., Raluca Simons, Ph.D., Randal Quevillon, Ph.D., Mason Hatwan, B.S., University of South Dakota

(PS9-A12) Does Involvement in Bullying Differ Across Sexual Minority Status?
Cara S. White, B.A., Susan M. Swearer, Ph.D., Samantha A. Kesselring, B.A., University of Nebraska-Lincoln

(PS9-A13) I Think, Therefore I Act: Cognitive Distortions in Youth Involved in Bullying
Catherine M. Carney, B.A., Susan M. Swearer, Ph.D., Miriam P. Crinion, M.A., Samantha A. Kesselring, B.A., University of Nebraska, Lincoln
(PS9-A14) Correspondence Between Parents’ and Children’s Attributions: Variation by Levels of Parents’ Depression and Attribution Target
Rachel Marlowe, B.A.¹, Susanna Sutherland, M.S.¹, Judy Garber, Ph.D.¹, V. Robin Weersing, Ph.D.², Bruce Compas, Ph.D.¹, 1. Vanderbilt University, 2. San Diego State University/University of California San Diego JDP in Clinical Psychology

(PS9-A15) Relationships of Caregiver-child Interactions Around Political News to Youth Worry

(PS9-A16) Age-related Differences in School Avoidance, Academic Impairment & Global Functioning Among Youth with Anxiety Disorders
Anneliese J. DeVito, B.A.¹, Isaac C. Smith, Ph.D.¹, Golda S. Ginsburg, Ph.D.², 1. University of Connecticut Health Center, 2. University of Connecticut

(PS9-A17) Feasibility and Acceptability of an Internet-based Intervention for Emerging and Young Adults with ADHD
Christopher R. Shelton, Ph.D.¹, Cynthia M. Hartung, Ph.D.², Will H. Canu, Ph.D.³, 1. Penn State Erie, The Behrend College, 2. University of Wyoming, 3. Appalachian State University

(PS9-A18) Sympathetic Nervous System Reactivity During Marital Conflict Moderates the Association Between Perspective Taking and Perpetration of Intimate Partner Violence
Donald A. Godfrey, III, M.A., Julia Babcock, Ph.D., University of Houston

(PS9-A19) Symptoms of Depression Predict Consequences Often Attributed to Alcohol Use Independent of Drinking
Jessica Flori, M.S., Cameron Davis, B.S., Mark Crisafulli, M.S., Michael E. Dunn, Ph.D., University of Central Florida

(PS9-A20) Emotion Regulation Moderates the Relationship Between ADHD and Interpersonal Functioning
Christian Ledet, M.A.¹, Monique M. LeBlanc, Ph.D.², 1. Louisiana State University, 2. Southeastern Louisiana University

(PS9-A21) Psychosis-spectrum Symptoms Are Associated with Social and Role Functioning for Youth Involved in the Juvenile Justice System
Sheiry Soriano¹, Elizabeth Thompson, Ph.D.², Joseph Casamassima, M.A.¹, Kathleen Kemp, Ph.D.³, Anthony Spirito, Ph.D.⁴, 1. Warren Alpert Medical School of Brown University, Department of Psychiatry and Human Behavior, Providence, RI, 2. Alpert Medical School of Brown University, 3. Rhode Island Hospital/Alpert Medical School of Brown University, 4. Brown University & Butler Hospital

(PS9-A22) Relationships Between Alcohol Stigmas, Problem Recognition, and Substance Use Treatment Attendance in South Africa
Kristen S. Regenauer, B.A.¹, Jennifer M. Belus, Ph.D.², Michael A. Wagner, Ph.D.¹, Nonceba Ciya,³, Sibabalwe Ndamase, B.A.³, Sybil Majokweni, B.A.⁴, Jessica F. Magidson, Ph.D.¹, 1. University of Marylany, College Park, 2. Swiss Tropical and Public Health Institute, 3. South African Medical Research Council, 4. University of Cape Town
(PS9-A23) The Effects of COVID-19 and Ethnic-racial Identity on Daily Emotion Regulation
Emma A. Kannard, B.A., Anabel F. Potts, B.S., Allison Dombach-Bender, M.S., Camilo Ruggero, Ph.D., University of North Texas

(PS9-A24) Assessing the Factor Structure of the Copenhagen Burnout Inventory Among Mental Health Care Providers
Abby Armstrong, M.S.1, Craig A. Warlick, Ph.D.1, Tristan P. Patterson, M.S.2, Nicole Farmer, Ph.D.3, 1. University of Southern Mississippi, 2. University of Kansas, 3. Southern Arizona VA Health Care System

Cedi McCorkle, MS, Alinne Z. Barrera, Ph.D., Yan Leykin, Ph.D., Palo Alto University

(PS9-A27) Rumination and Avoidance Style Problem-solving Interact to Exacerbate Depressive Symptoms
Michelle L. Buffie, M.A., Jade S. Perry, B.A., Douglas W. Nangle, Ph.D., University of Maine

Poster Session 9B

Key Words: Measurement, Longitudinal, Health Psychology

(PS9-B28) The Longitudinal Measurement Invariance of the Brief Fatigue Inventory
Laura J. Long, M.A., Matthew W. Gallagher, Ph.D., University of Houston

(PS9-B29) Feasibility and Acceptability of a Smartphone Intervention Targeting Interpretation Bias in Parents of Anxious Children
Erin E. Beckham, B.A.1, Arielle Solomon1, Alicia R. Fenley, M.A.2, Donna B. Pincus, Ph.D.3, Courtney Beard, Ph.D.4, 1. McLean Hospital, 2. Boston University Center for Anxiety and Related Disorders, 3. Boston University, 4. McLean Hospital/Harvard Medical School

(PS9-B30) Treatment Engagement Among Hispanic/latino Youth in the Juvenile Justice System
Alyssa Vieira, B.A.1, Kaitlin Sheerin, M.A.2, Kathleen Kemp, Ph.D.1, 1. Rhode Island Hospital/Alpert Medical School of Brown University, 2. Alpert Medical School of Brown University

(PS9-B31) Do ADHD Symptoms Predict the Treatment Response of Young Children with OCD to Family-based CBT?
Grace H. Cain, B.A.1, Lauren Milgram, B.A.2, Kate G. Sheehan, B.S.3, Matthew M. Carper, Ph.D.4, Jennifer Herren, Ph.D.3, Martin E. Franklin, Ph.D.3, Jeffrey Saptya, Ph.D.5, Jennifer Freeman, Ph.D.7, 1. Bradley Hospital & Alpert Warren Medical School of Brown University, 2. Warren Alpert Medical School of Brown University, 3. Bradley Hospital, 4. Quantitative Sciences Program, Alpert Medical School of Brown University, 5. Rogers Behavioral Health, 6. Duke University School of Medicine, 7. Alpert Medical School of Brown University
(PS9-B32) Sex Differences in the Degree of Convergence of Working Memory Measures in Lower Income Adolescents: Implications for the Science of Behavior Change
Rebecca E. Lubin, M.A., Nadine R. Taghian, B.S., E. Marie Parsons, Ph.D., Stacey Doan, Ph.D., Michael W. Otto, Ph.D., 1. Boston University, 2. Claremont McKenna College

(PS9-B33) Psychologists’ and Psychotherapists’ Clinical Practices for the Treatment of Anxiety Disorders and Adaptations Related to COVID-19 Pandemic
Annie Benoit, M.S., Martin D. Provencher, Ph.D., Alexandra Chapdelaine, M.S., Pasquale Roberge, Ph.D., 1. Université de Sherbrooke, 2. Université Laval

(PS9-B34) Angry, but Not Showing It: Examining Reactive Anger to Relived Pain Among Grandiose Men
Ellen F. Finch, M.A., Harvard University

(PS9-B35) Replicating the Dimensional Latent Structure of Obsessive-Compulsive Disorder
Christian A. Hall, M.A., Joshua J. Broman-Fulks, Ph.D., 1. Western Michigan University, 2. Appalachian State University

(PS9-B36) Development of an Adherence Intervention Among People with HIV Who Use Drugs: A Qualitative Study
Jake J. Samora, M.A., Tristan Ramos, B.S., Avani Jhaveri, B.S., Kasey Claborn, Ph.D., 1. Steve Hicks School of Social Work/Dell Medical School (UT Austin), 2. Dell Medical School (UT Austin)

(PS9-B37) Relations Between Fear of Missing out and Alcohol-related Problems Moderated by Drinking Motives
Taylor B. Stanley, M.A., Madison A. King, B.A., Sarah A. Lust, Ph.D., Christopher J. Correia, Ph.D., Auburn University

(PS9-B38) Impact of COVID-19 on Academic and Other Outcomes for Children with ADHD
Kellina Lupas, Ph.D., Athena Mavrakis, B.S., Jennifer Piscitello, Ph.D., Brittany M. Merrill, Ph.D., Amy Altszuler, Ph.D., Devon Tower, M.S., Elizabeth M. Gnagy, Ph.D., Fiona MacPhee, M.S., Marcela C. Ramos, B.S., Leah Ward, B.S., Chanelle Gordon, Ph.D., Nicole K. Schatz, Ph.D., Gregory A. Fabiano, Ph.D., William E. Pelham, Jr., ABPP, Ph.D., 1. Florida International University, 2. Seattle Children’s Hospital, 3. University at Buffalo, 4. Boys Town

(PS9-B39) Perceived Risk in Intimacy and Trichotillomania
Jigeesha Ghosh, B.S., Meghan K. Flannery, M.A., Martha Falkenstein, Ph.D., David A. Haaga, Ph.D., 1. American University, 2. McLean Hospital/Harvard Medical School

(PS9-B40) The Relationship Between Binge Eating and Mental Health Correlates in Older Women
(PS9-B41) Using a Person-centered Approach to Identify Patterns of Exposure to Intimate Partner Violence and Child Abuse in Women 1: Associations with Mental Health
Bre’Anna L. Free, M.S.1, Alexandra J. Lipinski, Ph.D.2, Rivian K. Lewin, M.S.1, Rimsha Majeed, M.S.1, Rebecca J. Zakarian, M.S.1, Mya E. Bowen, B.A.1, Gayle Beck, Ph.D.1, 1. University of Memphis, 2. Minneapolis VA

(PS9-B42) Examining the Effects of Anxiety Sensitivity as the Moderator of Chronic Pain and COVID-19 Disability
Allie N. Binkiewicz, Kevin Saulnier, M.S., Nicholas P. Allan, Ph.D., Ohio University

(PS9-B43) Comparison of Home versus Center-based Early Intervention Applied Behavior Analysis Treatment for Children with Autism and Related Disorders
Sada Khawar, M.A.1, Ghosh Irshad, M.A.1, Amelia Yanchik, M.A.1, Michelle Grazioli, B.S.1, Peter Vietze, Ph.D.1, Leah Esther Lax, Ph.D.2, 1. Montclair State University, 2. CARES

James L. Huettig, B.A., John Flournoy, Ph.D., Katie A. McLaughlin, Ph.D., Harvard University

(PS9-B45) Repetitive Negative Thinking Symptoms Are Associated with Frontoparietal Neural Activity During a Working Memory Task
Morgan E. Marvin, B.A.1, Daniel Stout, Ph.D.1, Katia Harle, Ph.D.2, Andrea Spadoni, Ph.D.1, Alan Simmons, Ph.D.1, Jessica Bomyea, Ph.D.1, 1. VASDC: Center of Excellence for Stress and Mental Health; University of California San Diego Department of Psychiatry, 2. VA San Diego Healthcare System; University of California San Diego Department of Psychiatry

(PS9-B47) The Relationship Between Emotion Regulation and Suicidality over Time in Patients with Psychotic-spectrum Disorders

(PS9-B48) Examination of Sympathetic and Anger Reactivity Within Borderline Personality Disorder
Cheyene K. Horner, B.A.1, Kayla M. Scamaldo, M.A.2, Ilya Yaroslavsky, Ph.D.1, 1. Cleveland State University, 2. University of Toledo

(PS9-B49) Exploring the Utility of the Yale-brown Obsessive-Compulsive Scale (Y-BOCS) and Related Resilience in a Naturalistic Treatment Setting
Anthony J. Leon, B.A.1, Lindsey Salerno2, Eirini Zoupou,1, Jesse McCann, B.S.1, Jeremy Tyler, Psy.D.1, Reem Alkabiah, B.A.4, 1. University of Pennsylvania, 2. Philadelphia College of Osteopathic Medicine, 3. University of Kentucky, 4. Perelman School of Medicine at the University of Pennsylvania

(PS9-B50) Associations Between Child COVID-19 Vaccine Uptake and Medical Mistrust Among Black/african Americans in Appalachia
Kalo C. Sokoto, M.A., Jamey T. Brumbaugh, B.S., Aliyah Pugh, Jaliyah Hubbard, Gwendolyn Dzwil, Linda A. Alexander, Ph.D., Daniel W. McNeil, Ph.D., West Virginia University
(PS9-B51) Body Dysmorphic Syndrome: An Internalizing Syndrome on the Body-image Disturbance Spectrum
Susan L. Longley, Ph.D.¹, Naheed Hasan, Ph.D.², Ada Wainwright, Ph.D.², Kara Rayha¹, 1. Texas A & M University, Corpus Christi, 2. College of DuPage

**Poster Session 9C**

Key Words: fMRI, Depression, PTSD (Posttraumatic Stress Disorder)

(PS9-C53) Bilateral Caudate Activation During Effort-based Decision-making Predicts 3-month MDD Status in a Recently Traumatized Sample
Courtney N. Forbes, M.A.¹, Matthew T. Tull, Ph.D.², Andrew S. Cotton, M.D.², Chia-Hao Shih, Ph.D.², Aaron S. Grau, B.S.², Xin Wang, M.D., Ph.D.², 1. Emory University School of Medicine, 2. University of Toledo

(PS9-C54) Cognitive and Behavioral Predictors of Anxiety and Depression During COVID-19: Results from a Longitudinal Study
Nicolette D. Carnahan, M.A.¹, Michele Carter, Ph.D.¹, Tracy Sbrocco, Ph.D.², 1. American University, 2. Uniformed Services University

(PS9-C55) Childhood Maltreatment and Parental Attitudes Regarding the Use of Corporal Punishment
Hannah E. Walker, M.A., Maire Claire Diemer, M.A., Rachel Wamser, Ph.D., University of Missouri, St. Louis

(PS9-C56) The Mediating Role of Proactive and Reactive Sibling Aggression in the Associations Between Witnessing Parental Violence and Perpetration of Partner Violence
Ayleen Flores, B.S., Ines Cano-Gonzalez, M.A., Ruby Charak, Ph.D., The University of Texas Rio Grande Valley

(PS9-C57) The Association Between Avoidance of Cancer Discussions and Emotional Arousal During Cancer-related Conversations in Couples
Danielle M. Weber, M.A.¹, Donald H. Baumc, Ph.D.¹, Melanie S. Fischer, Ph.D.², Christine Paprocki, Ph.D.¹, Laura S. Porter, Ph.D.⁴, 1. University of North Carolina at Chapel Hill, 2. Heidelberg University Hospital, Heidelberg University, 3. Psychiatric Medicine Associates, 4. Duke University School of Medicine

(PS9-C58) Early Life Adversity and Risk for Depression and Anxiety: The Role of Interpersonal Support
Allison Metts, M.A.¹, Julia S. Yarrington, M.A.¹, Richard E. Zinbarg, Ph.D.², Constance Hammen, Ph.D.¹, Susan Mineka, Ph.D.², Michelle G. Craske, Ph.D.¹, 1. University of California Los Angeles, 2. Northwestern University

(PS9-C59) Harassment, Stalking, and Violence: The Importance of Assessing for Victimization and Related Posttraumatic Stress Disorder (PTSD) Among Patients Seeking Substance Use Treatment
Christopher J. Penn, B.A., TK Logan, Ph.D., Jennifer Cole, Ph.D., Christal Badour, Ph.D., University of Kentucky
(PS9-C60) Negative Self-schemas and Devaluation of Positivity in Depressed Individuals: A Moderated Network Analysis
Amanda C. C. Collins, M.S., Alisson N. S. N. S. Lass, M.S., E. Samuel Winer, Ph.D., Mississippi State University

(PS9-C61) Pre-covid RSA Reactivity Buffers Associations Between COVID Stress Exposure and Child Externalizing Behavior
Hilary Skov, B.A., Erin Glackin, M.S., Victoria Parker, B.A., Renee Lamoneau, Sarah A. Gray, Ph.D., Tulane University

(PS9-C62) Associations Between Health Anxiety and Posttraumatic Stress Symptoms: The Mediating Role of Anxiety Sensitivity
Shirin Ataei, B.A., Heidi J. Ojalehto, B.S., Samantha N. Hellberg, B.A., Megan Butcher, B.S., Jonathan S. Abramowitz, Ph.D., University of North Carolina at Chapel Hill

(PS9-C63) Trauma Symptoms and Self-harm Among Sexual Violence Survivors: Examining State Emotion Dysregulation and Emotional Reactivity as Dual Mechanisms
Alexandra N. Brockdorf, M.A.¹, Katherine W. Bogen, B.A.¹, Kim L. Gratz, Ph.D.², Terri L. Messman, Ph.D.³, David DiLillo, Ph.D.¹, ¹. University of Nebraska, Lincoln, 2. University of Toledo, 3. Miami University

(PS9-C64) Caregiver Maltreatment History and Depressive Symptoms on Expectations of Post-sexual Abuse Functioning
Akemi E. Mii, M.A., Emily A. Sonnen, M.A., Katie Meidlinger, M.A., Kelsey McCoy, M.A., T. Zachary Huit, M.A., Hannah M. Coffey, M.A., Gina C. May, B.A., Mary Fran Flood, Ph.D., MSW, David Hansen, Ph.D., University of Nebraska, Lincoln

(PS9-C65) Iterative Refinement and Testing of a Brief School-based Intervention for Internalizing Symptoms via an Academic-community Partnership
Suh Jung Park, B.A., Evelyn Cho, M.A., Sarah Owens, Ph.D., Jenna Strawhun, Ph.D., Kristin M. Hawley, Ph.D., University of Missouri, Columbia

(PS9-C66) Employing the Use of Daily Diaries and a Behavioral Distress Tolerance Task to Examine the Association Between Daily Stressful Events and Depression Symptoms in Youth
Ariela J. Kaiser, M.A.I, Julia Felton, Ph.D.², Mazneen Havewala, M.A.³, Anne Stevens, Ph.D.¹, Nellie Shippen, B.S., M.A.¹, Erin M. Luquette¹, Michael C. Meinzer, Ph.D.¹, ¹. University of Illinois at Chicago, 2. Henry Ford Health Systems, 3. University of Maryland, College Park

(PS9-C67) Considerations for Methodological Integrity and Participant Safety When Transitioning Qualitative Focus Group Method to a Virtual Platform
Madeleine M. Coury, B.S., B.A.¹, Kimny A. Sysawang, B.A.¹, Madeleine L. Byrns, B.S.¹, Alyssa J. Gatto, M.S.¹, Samantha M. Harden, Ph.D.¹, Julie C. Dunsmore, Ph.D.³, ¹. Virginia Polytechnic Institute and State University, 2. Virginia Tech, 3. University of Houston

(PS9-C68) Body Mass Index and Atypical Balance as Predictors of Rate of Improvement During Treatment for Seasonal Affective Disorder
Praise Iyiewuare, M.P.H., M.A., Kelly J. Rohan, Ph.D., University of Vermont

(PS9-C69) Predictors of Sleep-problem Trajectories Across Adolescence
Abigail E. Pine, M.S., Qimin Liu, M.S., George Abitante, B.A., M.A., Susanna Sutherland, M.S., Judy Garber, Ph.D., Vanderbilt University
(PS9-C70) Mentor Personality and Attachment as Correlates of Youth Mentoring Relationship Quality Within a School-based Mentoring Intervention: The Moderating Role of Negative Interactions
S. Taylor Younginer, M.A., L. Christian Elledge, Ph.D., The University of Tennessee, Knoxville

(PS9-C72) The Dyadic Implications of the Cognitive Processing of Trauma
Melissa V. Gates, B.A., Eileen Barden, M.S., Christina Balderrama-Durbin, PhD, Binghamton University

(PS9-C73) Disorders Relate Differently to Actors’ and Partners’ Romantic Relationship Satisfaction: A Meta Analysis
Lily Assaad, M.S., Doug B. Samuel, Ph.D., Purdue University

(PS9-C74) Effects of Progress Monitoring Compliance Rate on Changes in Anxiety & Depression in the Context of Virtual Psychotherapy
Ethan Chee, B.S., Jiaqi Zhou, M.A., Monica Shah, Psy.D., Danielle Albetta, Benjamin D. Johnides, Ph.D., Center for Anxiety

(PS9-C75) Personality Pathology in Winter Depression: Prevalence and Trajectories of Change in Cognitive-behavioral Therapy and Light Therapy
Julia M. Terman, B.A., Timothy Stickle, Ph.D., Kelly J. Rohan, Ph.D., University of Vermont

(PS9-C76) Young Adult Couples’ Use of Emotion Words Longitudinally Predicts Adult Relationship Satisfaction and Aggression
Corey Pettit, B.A., Meghan A. Costello, Ph.D., Jessica Kansky, M.A., Joseph P. Allen, Ph.D., 1. University of Virginia, 2. Medical University of South Carolina/Ralph H Johnson VA

(PS9-C77) Content Analysis of Marketplace Mobile Applications Used by Adolescents for Treatment of Depression Symptoms
Rebecca J. Wildman, B.A., Kristin L. Wolfe, Ph.D., LPC, Molly Michaels, M.A., Beth D. Kennard, ABPP, Psy.D., University of Texas Southwestern Medical Center/Children’s Health – Children’s Medical Center

Poster Session 9D

Key Words: Sleep, Stress, Health Anxiety

(PS9-D78) The Relationship Between Covid-related Stress and Sleep Disturbance
Anthony R. Garcia, B.A., David L. Yap, M.A., Evelyn Behar, Ph.D., Hunter College, City University of New York

(PS9-D79) Adapting Cognitive Behavioral Therapy to the Equine Arena Setting
Kimberly Hoagwood, Ph.D., Mary Acri, Ph.D., Meghan Morrissey, LCSW, MSW, Lauren F. Seibel, B.A., Robin Peth-Pierce, M.A., Dana Seag, B.A., Aviva L. Vincent, Ph.D., MSW, Other, 1. New York University School of Medicine, 2. Public Health Communications Consulting, LLC, 3. Fieldstone Farm TRC
(PS9-D80) Reliability and Validity of the CASS: A Novel Measure of Adverse Childhood Experiences Tailored to Autistic Youth
Charlotte I. Stewardson, B.A., Michelle C. Hunsche, B.A., M.A., Connor M. Kerns, Ph.D., University of British Columbia

(PS9-D81) A Pilot Study of the Body Project as an Adjunctive to a Behavioral Weight Loss Intervention in Latinx Women with Overweight and Obesity: Changes in Psychosocial Outcomes
Alexandra Hernandez-Vallant, B.S.¹, Kelsey N. Serier, M.S.², Isabel Solis, M.S.², Riley M. Sebastian, B.A.³, Chloe R. Mullins, B.S.², Isabel Gomez³, Jaqueline Medici, B.S.², Jane Ellen E. Smith, Ph.D.², 1. University of New Mexico/Center on Alcohol, Substance Use, & Addictions, 2. University of New Mexico

(PS9-D82) Appearance Evaluation and Appearance Orientation of Female Undergraduate Students: Differing Effects of Positive and Negative Body Image
Si Woo Chae, B.A., Taylor A. Stacy, M.A., Rachel D. Marshall, M.A., Janet D. Latner, Ph.D., University of Hawai’i at Manoa

(PS9-D83) Weight and Shape Related Flexibility Mediates the Association Between Drive for Muscularity and Exercise Dependence in Men
McKenzie Miller, M.A., Christina M. Sanzari, B.A., Courtney E. Breiner, M.A., Julia M. Hormes, Ph.D., University at Albany, State University of New York

(PS9-D84) System, Treatment, and Patient Based Barriers to ART Adherence
Anthony J. Leon, B.A.¹, Shannon Schiavoni, Psy.D.¹, Lily A. Brown, Ph.D.², 1. University of Pennsylvania, 2. Perelman School of Medicine at the University of Pennsylvania

(PS9-D85) A Both/and Analysis of Multiple Minority Stress in LGB People of Color: Effects on Problematic Drinking and Intimate Partner Violence
Kevin Moino, M.A., Dominic J. Parrott, Ph.D., Kevin M. Swartout, Ph.D., Georgia State University

(PS9-D86) Investigating the Relationship Between Sports Team Membership, Exercise Behaviors and Motives, and Psychological Flexibility
Christina M. Sanzari, B.A., McKenzie Miller, M.A., Courtney E. Breiner, M.A., Julia M. Hormes, Ph.D., University at Albany, State University of New York

(PS9-D87) Implementing Measurement-based Care to Improve Patient Outcomes in Veterans Affairs Inpatient Mental Health Program: A Quality Improvement Project
A. Madison Tompkins, Psy.D., Desirae N. Vidaurri, Ph.D., Southeast Louisiana Veterans Health Care System

(PS9-D88) Appearance and Weight Based Pressures in 9 to 11 Years Olds
Taryn Henning, B.S., Jenna Stadheim, B.A., Kimberly Yu, M.A., Marisol Perez, Ph.D., Arizona State University

(PS9-D89) Examining the Negative Alterations in Cognitions and Mood PTSD Symptom Cluster at the Level of Individual Emotions and Cognitions: An Idiographic Vector Autoregressive Analysis
Zoe Y. Zong, Esther Howe, B.A., Aaron J. Fisher, Ph.D., University of California, Berkeley
(PS9-D90) The Relations Between Online Discrimination and Mental Health Outcomes Among Latinx Young Adults: The Moderating Roles of Ethnic Identity and Immigrant Generation
Nora L. Portillo, B.A., Sally L. Grapin, Ph.D., Michael T. Bixter, Ph.D., Jazmin Reyes-Portillo, Ph.D., Montclair State University

(PS9-D91) Youth Profiles of Asocial Behavior Are Differentially Associated with Internalizing and Externalizing Behaviors
George O. Emory, Abbey L. Friedman, B.S., Deborah A. Drabick, Ph.D., Temple University

(PS9-D92) Parenting Practices as a Mediator of Stress and Family Level Outcomes
Allison M. Birnschein, B.A.¹, James a. Rankin, Ph.D.², Courtney Paisley, M.A.¹, Theodore S. Tomeny, Ph.D.¹, 1. The University of Alabama, 2. Perelman School of Medicine at the University of Pennsylvania

(PS9-D93) Remote Administration of CBT for Anxiety in Autism Spectrum Disorder During the COVID-19 Pandemic
Rebecca P. Jordan, B.A., Sonia N. Rowley, B.A., Carla Kalvin, Ph.D., Karim Ibrahim, Psy.D., Denis G. Sukhodolsky, Ph.D., Yale University School of Medicine, Child Study Center

(PS9-D94) Relations Between Unmet Social Support Needs and Family Quality of Life Outcomes
James a. Rankin, Ph.D.¹, Theodore S. Tomeny, Ph.D.², Allison M. Birnschein, B.A.², Courtney Paisley, M.A.², 1. Perelman School of Medicine at the University of Pennsylvania, 2. The University of Alabama

(PS9-D95) The Impact of Acculturation, Enculturation and Beliefs Towards Mental Illness on Treatment Seeking Preferences in a Border Town Hispanic College Sample
Isabel G. Aguirre, B.S., Elizabeth N. Hernandez, B.A., Michiko Hirai, Ph.D., University of Texas Rio Grande Valley

(PS9-D96) Examining Concurrent and Lagged Effects of Sleep Quality on Stress, Anxiety, and Depression Among First-year College Students
Andrew C. Switzer, M.A., Christina L. Robillard, B.S., M.S., Nicole K. Legg, M.S., Brianna J. Turner, Ph.D., University of Victoria

(PS9-D97) Adapting to the Times: The Effectiveness of a Telehealth Acceptance and Commitment Therapy Group in an Adult Intensive Outpatient Program
Jared K. O’ Garro-Moore, Ph.D., Zachary Blumkin, Psy.D., Erica Gottlieb, Ph.D., Constance Abruzzese, Ph.D., Elizabeth Ellman, Psy.D., Columbia University Medical Center

(PS9-D98) Family Accommodation in Adults Receiving Intensive CBT for OCD
Kara N. Kelley, B.A.¹, Nicole Caporino, Ph.D.¹, Martha Falkenstein, Ph.D.², Jason Krompinger, Ph.D.², 1. American University, 2. McLean Hospital/Harvard Medical School

(PS9-D99) Influence of Emotional Regulation on the Association Between Pain Tolerance and Acquired Capability for Suicide
Janelle Y. Wée, M.S., Katherine L. O’Connell, M.S., Benjamin D. Johnson, M.S., Johanna E. Knight, B.A., Liberty N. Estrella, None, Keyne C. Law, Ph.D., Seattle Pacific University
(PS9-D100) Relationship Skills Among Latinx Couples Predicting Stress and Strain During COVID-19
4:00 p.m. – 6:00 p.m.

POSTER SESSION 10

Poster Session 10A

Key Words: Social Relationships, Social Anxiety, Depression

(PS10-A1) Differences in Interpersonal Perceptions in Social Anxiety and Depression
Danielle E. Deros, B.S., Burkhart Hahn, B.S., Jacob D. Kraft, M.S., Kaitlyn Nagel, B.A., DeMond M. Grant, Ph.D., Oklahoma State University

(PS10-A2) Drinking Motives Mediate Associations Between Loneliness and Problematic Drinking in College Students
Faith A. Shank, M.A., Chelsie M. Young, Ph.D., Lindsey Rodriguez, Ph.D., Joanne Angosta, B.A., Ayelet M. Ruscio, Ph.D., 1. Rowan University, 2. University of San Francisco, 3. University of Houston

(PS10-A3) Measuring Behavioral Reactions to Social Stress in Generalized Anxiety Disorder and Major Depressive Disorder
Auburn R. Stephenson, B.A., Elizabeth C. Wade, M.A., Ayelet M. Ruscio, Ph.D., University of Pennsylvania

(PS10-A4) Intimate Partner Violence Among Parents: The Role of Moral Distress
Emily Taverna, M.S., Devin J. McGuier, Ph.D., Amy D. Marshall, Ph.D., 1. Penn State Psychology Department, 2. The Pennsylvania State University

(PS10-A5) Inducing Positivity via a Novel Mood Induction Procedure
Julie Anne M. Miller, Amanda C. C. Collins, M.S., E. Samuel Winer, Ph.D., Mississippi State University

(PS10-A6) Examining the Relationship Between Beliefs About the Longevity of Emotions and Experiential Avoidance
Elise A. Warner, B.A., MSW, Jennifer C. Veilleux, Ph.D., University of Arkansas

(PS10-A7) COVID-19 Vaccine Acceptance: Influential Roles of Political Party and Religiosity
(PS10-A8) Anxiety Sensitivity and Disgust Sensitivity Predict Blood-injection-injury Symptoms in Individuals with Dental Anxiety
Rachel H. Sinex, B.A.¹, Samantha D. Sorid, B.S.², Evelyn Behar, Ph.D.³, Jedidiah Siev, Ph.D.¹, 1. Swarthmore College, 2. College of William & Mary, 3. Hunter College, City University of New York

(PS10-A9) Perceptions of Severity of Sibling versus Couple Violence: The Impact of past Victimization
Charli M. Kirby, B.A.¹, Amber M. Jarnecke, Ph.D.¹, Jessica L. Brower, MA¹, Kristen L. Mummert, B.S.¹, Robert G. Franklin, Jr., Ph.D.², Susan E. Doughty, Ph.D.³, 1. Medical University of South Carolina, 2. Anderson University (SC)

(PS10-A10) Autonomous Interpersonal Style, Depressive Symptoms, Loneliness and COVID-19 Prevention Activities
Alice I. Cohen, B.A., Anthony H. Ahrens, Ph.D., American University

(PS10-A11) Using a Person-centered Approach to Identify Unique Patterns of Intimate Partner Violence and Child Abuse 2: Associations with Perceived Social Support
Bre'Anna L. Free, M.S., Audrey B. Garrett, B.A., Mya E. Bowen, B.A., Rimsha Majeed, M.S., Rebecca J. Zakarian, M.S., Gayle Beck, Ph.D., University of Memphis

(PS10-A12) The Role of Inhibited Temperament and Social Connectedness in the Development of Depressive Symptoms During the Transition to College: Testing an Etiological Model
Nicole Kelso, M.A., Steven M. Brunwasser, Ph.D., Rowan University

(PS10-A13) Risk and Protective Factors for Bullying Behavior in Adolescence
Emilea Rejman¹, W. John Monopoli, Ph.D.¹, Steven W. Evans, Ph.D.², 1. Florida International University, 2. Ohio University

(PS10-A14) Social Support Roles in Substance Use to Cope and Childhood Maltreatment
Joseph H. Lancaster, B.A., Ilya Yaroslavsky, Ph.D., Cleveland State University

(PS10-A15) Empathic Concern and Prosocial Tendencies: Moderation by Emotion Regulation and Gender
Rebecca Revilla, B.A., Bradley A. White, Ph.D., The University of Alabama

(PS10-A16) Emotion Dysregulation and Distress Tolerance Moderate Borderline Personality Features and NSSI Method Versatility
Samantha Jacobson, M.S., Rachel S. Inabata, B.S., Keyne C. Law, Ph.D., Seattle Pacific University

(PS10-A17) Examining the Effects and Implications of Using Virtual Reality to Examine Suicide Risk
Nicole M. Caulfield, M.A., Abigail Keenum, None, Brian W. Bauer, M.S., Ava K. Fergerson, M.S., Aleksandrs T. Karnick, M.P.H., Daniel W. Capron, Ph.D., University of Southern Mississippi

(PS10-A18) Coronavirus Chaos: What Role Does Psychological Flexibility Play in Athletes’ Daily Emotions After the Abrupt End to Sport?
Caroline H. Weppner, B.A.¹, Carol R. Glass, Ph.D.¹, James Doorley, M.A.², Hannah M. Thomas, B.A.¹, Megan Hut, M.A.³, 1. The Catholic University of America, 2. George Mason University, 3. West Virginia University
(PS10-A19) Constructing Redemption from Low Moments: How Redemption Relates to Early Experiences as Well as Emotion, Life Satisfaction, and Health
Amanda L. Feinberg, B.A., Children’s Crisis Treatment Center

(PS10-A20) Treatment Outcomes and Predictors of Non-suicidal Self Injury and Suicidal Ideation After Completion of a CBT/DBT Intensive Outpatient Program
Alexandra P. Bishop, B.A.¹, Benjamin D. Johnides, Ph.D.¹, Monica Shah, Psy.D.¹, Molly Friedel, B.S.¹, Ethan Chee, B.S.¹, David H. Rosmarin, ABPP, Ph.D.², 1. Center for Anxiety, 2. Harvard Medical School

(PS10-A21) Intolerance of Uncertainty and Fear of Missing out (FOMO) Are Associated with Problematic Smartphone Use Severity
Elyse Hutcheson, B.A., Caleb Hallauer, M.A., Jon Elhai, Ph.D., University of Toledo

(PS10-A22) Coping Flexibility and Gaming Use Expectancies Are Associated with Internet Gaming Disorder Severity
Caleb Hallauer, M.A., Elyse Hutcheson, B.A., Jon Elhai, Ph.D., University of Toledo

(PS10-A23) Title: Latent Class Analysis of Cyber Intimate Partner Perpetration and Victimization in Hispanic Emerging Adults: The Role of Traumatic Experiences During Childhood and Mental Health Outcomes
Ines Cano-Gonzalez, M.A., Ruby Charak, Ph.D., Ayleen Flores, B.S., University Texas Rio Grande Valley

(PS10-A24) Integrating Online Provider Trainings into a Digital Future: Development, Launch, and Sustainability of Cbtiweb
Allison K. Wilkerson, Ph.D.¹, Daniel J. Taylor, Ph.D.², Sophie Wardle-Pinkston, M.S.², Jesse Dietch, Ph.D.³, Kristi Pruksma, Ph.D.⁴, Richard Simmons¹, Brian E. Bunnell, Ph.D.⁵, 1. Medical University of South Carolina, 2. University of Arizona, 3. Oregon State University, 4. University of Texas Health Science Center San Antonio, 5. University of South Florida

Poster Session 10B

Key Words: Anxiety, Adolescents, Emotion Regulation

(PS10-B26) Protective Factors for Adverse Childhood Experiences: The Role of Emotion Regulation
Emily A. Roemhild, M.A., Deborah Wong, B.A., Sarah E. Francis, Ph.D., University of Toledo

(PS10-B27) Risk Factors Related to Sexual Assault Revictimization

(PS10-B28) Level of Construal in Expressive Writing: Effects on Emotional, Physical, and Immunological Functioning
Charlotte R. Esplin, M.S., Gabe Hatch, Ph.D., Conner L. Deichman, B.S., Ben Ogles, Ph.D., David Wood, Ph.D., Scott R. Braithwaite, Ph.D., 1. Brigham Young University, 2. University of Miami

(PS10-B30) Traumatic Shame Memories and Development of Paranoid Ideations
Anwesha Maitra, M.S., Dennis R. Combs, Ph.D., University of Texas at Tyler

(PS10-B31) Relationships Among Valued Living, Anhedonia, and Anticipatory and Consummatory Reward Responsivity
Rebecca K. Browne, M.S., Sarah T. Wieman, M.S., Jessica S. Fields, B.A., Alora A. Rando, M.S., Kayla A. Lord, M.S., Helen Z. MacDonald, PhD, Gabrielle I. Liverant, Ph.D., 1. Suffolk University, 2. Emmanuel College

(PS10-B32) The Effects of Covid-focused Expressive Writing and Initial Symptom Severity on Symptoms of Depression
Sarah M. Robertson, Ph.D., Mari Murray, Liz Auger, Jake Adams, B.S., Grace Avin, B.S., Taylor Veith, B.S., College of Charleston

(PS10-B33) A Qualitative Look at Self Care in Mothers of Young Children During the COVID-19 Pandemic

(PS10-B34) Reliable and Clinically Significant Change in Depression Following an Act-based Pain Rehabilitation Program
Julia R. Craner, ABPP, Ph.D., Lindsay G. Flegge, Ph.D., LCSW, Eric Lake, M.A., Arianna Perra, Psy.D., Mary Free Bed Rehabilitation Hospital

(PS10-B35) Negative Social Reactions to Trauma Disclosure and General Perceived Invalidation of Emotion Interact with PTSD Symptoms in Associations with Mental Contamination Among Sexually-victimized Adult Men
Reagan A. Dixon, Cameron K. Daniel, Haley Farris, Jesse McCann, B.S., Jordyn M. Tipsword, M.S., Christal Badour, Ph.D., University of Kentucky

(PS10-B36) Exploring the Role of Expectancy in Exposure Therapy for Anxiety Disorders
Olivia M. Losiewicz, B.A., Michelle G. Craske, Ph.D., University of California, Los Angeles

(PS10-B37) The Impact of COVID-19 Differences on Social Function and Social Satisfaction in Adults with Anxiety Disorders
(PS10-B38) Quality and Quantity of Social Support in College Students with ADHD Symptomatology

(PS10-B39) Emotion Regulation and Distress Tolerance as Predictors of Depression in College Students with Heavy Episodic Drinking
Emily K. Tan, B.A., Joshua E. Curtiss, Ph.D., Paola Pedrelli, Ph.D., Massachusetts General Hospital

(PS10-B40) Suicidality in the Arab World: Results from a Large Internet-based Study
Sariah Daouk, MA; MSc1, Mina Dailami, B.A.1, Rania Awaad, M.D.2, Ricardo F. Muñoz, Ph.D.1, Suzanne Barakat, M.D.3, Yan Leykin, Ph.D.1, 1. Palo Alto University, 2. Stanford University, 3. University of California, San Francisco

(PS10-B41) Childhood Trauma and the Development of PTSD: Disentangling the Roles of Emotion Dysregulation and Distress Tolerance
Jenna Russo, B.S., Deepali Dhruve, B.S., M.S., Arazais D. Oliveros, Ph.D., Mississippi State University

(PS10-B42) Investigating the Roles of Intrapersonal and Interpersonal Distress About Nonsuicidal Self-injury on Treatment Seeking in College Students
Rebecca Hammond, Yeonsoo Park, M.A., Anne C. Knorr, B.A., Brooke Ammerman, Ph.D., University of Notre Dame

(PS10-B43) The Relationship Between Self-compassion and Positive Body Image Construct
Si Woo Chae, B.A., Rachel D. Marshall, M.A., Taylor A. Stacy, M.A., Katrina Obleada, M.A., Janet D. Latner, Ph.D., University of Hawai`i at Manoa

(PS10-B44) Predictors of covid-19-related Distress in High School Students in China
Pooja Shankar, B.A.1, Chencheng Zhang, M.D., Ph.D.2, Eric Storch, Ph.D.3, Nicole Caporino, Ph.D.1, 1. American University, 2. Ruijin University, 3. Baylor College of Medicine

(PS10-B45) Social Anxiety Is Associated with Blunted Anticipatory Attention
Kaitlyn Nagel, B.A., Danielle E. Deros, B.S., Burkhart Hahn, B.S., Jacob D. Kraft, M.S., DeMond M. Grant, Ph.D., Oklahoma State University

(PS10-B46) Sexual Victimization Among Bisexual+ Individuals: The Roles of Minority Stress, Negative Affect, Hazardous Drinking and Coping with Discrimination
Benjamin W. Katz, B.A., Shawn P. Cahill, Ph.D., University of Wisconsin, Milwaukee

(PS10-B47) Association Between Peripheral Inflammation Markers and Neural Correlates in a Sample of Women with PTSD as a Result of Interpersonal Violence
Taryn Fitzgerald, B.A., Steven E. Bruce, Ph.D., University of Missouri, St Louis

(PS10-B48) Interpersonal Stress More Influential on Adolescent Anxiety Than Depression: Insights from Combining Intensive Longitudinal Design and Objective Measure of Relationship Stress
James L. Huetig, B.A., Alexandra Rodman, Ph.D., John Flournoy, Ph.D., Katie A. McLaughlin, Ph.D., Harvard University
(PS10-B49) Pleasure and Pain: Decreases in Positive Affect Following NSSI Proxy Differentiates Those with and Without NSSI History
Sherry Woods, M.S., Katherine Dixon-Gordon, Ph.D., Lauren A. Haliczer, M.A., M.S., University of Massachusetts, Amherst

(PS10-B51) Effectiveness of Videoconference-delivered Cognitive Behavioural Therapy for Psychiatric and Somatic Disorders: Systematic and Meta-analytic Review
Kazuki Matsumoto, Ph.D.¹, Sayo Hamatani, Ph.D.², Eiji Shimizu, M.D., Ph.D.³, 1. Research Center for Child Mental Development, Chiba University, 2. Linköping University, 3. Department of Cognitive Behavioral Physiology, Graduate School of Medicine, Chiba University

(PS10-B52) Examining Grit as a Moderator Between Environmental Stressors and Depression and Anxiety in College Students
William C. Kelner, B.A., L. Christian Elledge, Ph.D., 1. University of Tennessee, Knoxville

(PS10-B53) Development and Initial Validation of the Neglectful Experiences and Deprivation Scale
Nadia Bounoua, M.A., Leah D. Church, B.A., Naomi Sadeh, Ph.D., University of Delaware

Poster Session 10C

Key Words: Adolescents, Sleep, Adherence

(PS10-C54) Predictors of Adherence to a Web-based Sleep Intervention Program for Adolescents
Riya Mirchandaney, B.A., Raul E. Barete, B.A., Lauren D. Asarnow, Ph.D., University of California, San Francisco

(PS10-C55) The Mental Health Impacts of Climate Change on Youth with Anxiety
Kelsey Hudson, Ph.D.¹, Donna B. Pincus, Ph.D.², 1. Boston University Center for Anxiety and Related Disorders, 2. Boston University

(PS10-C56) Variation in Posttraumatic Stress Disorder Symptoms in Racial and Ethnic Minority Groups
Katherina Arteaga, B.S., Ty Schepis, Ph.D., Alessandro S. De Nadai, Ph.D., Texas State University

(PS10-C57) From the Adolescents’ Perspective: Which Contributes More to My Anxiety, Overprotection or Overcontrol? Why?
Emily A. Roemhild, M.A., Deborah Wong, B.A., Sarah E. Francis, Ph.D., University of Toledo

(PS10-C58) Exploring Potential Changes in Family Accommodation via Virtual Intensive Group Behavioral Treatment for Children with Selective Mutism
(PS10-C59) The Pediatric Accommodation Scale: Evaluation of a Therapist-report Format

(PS10-C61) Racial/ethnic Sleep Perceptions and Access to Care: A Qualitative Approach to Improving the Acceptability and Accessibility of Behavioral Sleep Treatment
Jasmine R. Berry, M.A., Debra J. Bell, Ph.D., 1. University of Missouri, Columbia, 2. University of Missouri

(PS10-C62) Examining the Bidirectional Relationships Between Maternal Intrusiveness and Child Internalizing Symptoms in a Community Sample: A Longitudinal Study from Infancy to Middle Childhood
Hannah Hunter, M.A., Kristy Benoit Allen, Ph.D., Ran Liu, M.S., Julia Jaekel, Ph.D., Martha Ann Bell, Ph.D., 1. The University of Tennessee, Knoxville, 2. Virginia Polytechnic Institute and State University

(PS10-C63) Sleep Disturbance Mediates the Relationship Between COVID-19 Stressors and Mothers’ Mental Health
Evan T. Burdette, M.S., Kaitlyn E. Brodar, M.P.H., M.A., Annette La Greca, Ph.D., University of Miami

(PS10-C64) Emotion Regulation Diversity: Association with Current and Prospective Depressive Symptoms

(PS10-C65) Acceptability and Feasibility of an Undergraduate-delivered Universal Mental Health Intervention for Youth in a Summer Camp Setting
Katherine A. Corteselli, M.A., Oluwemimisade Owoseni, Sakshi Khurana, M.A., John R. Weisz, Ph.D., Harvard University

(PS10-C66) The Buffering Effect of Attentional Control on the Relationship Between COVID Stress and Generalized Anxiety Symptoms
Julia Y. Gorday, B.S., Joseph R. Bardeen, Ph.D., Kate Clauss, M.A., Auburn University

(PS10-C67) The Relationship Between Mental Health Factors, Maladaptive Coping Strategies, and Treatment Seeking Behaviors During the COVID-19 Pandemic
Cory Knight, M.S., Savannah M. Kaye, M.A., Ryan J. Marek, Ph.D., Isabelle S. Kusters, M.P.H., Ph.D., Mary Short, Ph.D., 1. University of Houston, Clear Lake, 2. Sam Houston State University

(PS10-C68) Drinking to Cope and College GPA
Morgan A. Boyle, M.S., Alex J. Tyskiewicz, B.S., Madison L. Colley, B.A., Mark A. Prince, Ph.D., Colorado State University
(PS10-C69) Assessing Higher-functioning Populations: Preliminary Revisions of the Hinting Task
Joel M. Martin, Ph.D., Alaina Hanke, B.A., Tessa Miller, B.A., Butler University

(PS10-C70) Explicit and Implicit Attitudes Towards Prisoners: The Impact of Level of Contact
Samantha J. Peka, B.A., M.S., Maureen Carrigan, Ph.D., Brianna Drake, B.S., University of South Carolina Aiken

(PS10-C71) Examination of Approach-avoidance Conflict Behavior, Trauma History, and Treatment Completion for Women with Substance Use Disorders
Mallory J. Cannon, B.A., Timothy J. McDermott, M.A., James Touthang, B.S., Ryan Smith, Ph.D., Namik Kirlic, Ph.D., Elisabeth Akeman, M.S., Martin P. Paulus, M.D., Robin L. Aupperle, Ph.D., Laureate Institute for Brain Research

(PS10-C72) Heal Us, and We Shall Be Healed: Religious Health Beliefs, Trust in Authorities, Adherence to Health Guidelines, and Coping During COVID-19
Aaron D. Cherniak, M.A.¹, Steven Pirutinsky, Ph.D.², David H. Rosmarin, ABPP, Ph.D.¹, 1. Stockholm University, 2. Touro College, 3. Harvard Medical School

(PS10-C73) ADHD Traits, Emotion Dysregulation, and Romantic Relationship Satisfaction in College Students
Toria Davenport, B.S.¹, Will H. Canu, Ph.D.¹, Elizabeth A. Bodalski², Tamara M. Abu-Ramadan, M.A.³, Kate Flory, Ph.D.², 1. Appalachian State University, 2. University of South Carolina, 3. University of Wyoming

(PS10-C74) The Relationship Between Virus/illness Fears and Obsessive-compulsive Symptoms During the COVID-19 Pandemic
Clara Law, M.A., Gina M. Belli, B.A., Christina L. Boisseau, Ph.D., Northwestern University Feinberg School of Medicine

(PS10-C75) Juror Perceptions of Victim Credibility in Cases of Intimate Partner Rape: An Evaluation of Victim Depression and Victim Body Weight
Kimmie Walton, M.A.¹, Denise M. Martz, Ph.D.¹, Tuila Wingrove, Ph.D.¹, Andrew Monroe, Ph.D.², 1. Appalachian State University, 2. Ivy Research Council

(PS10-C76) Posttraumatic Growth Following a Bereavement Intervention for Children and Adolescents: Improvements in Relating to Others and Personal Strength in a Multicultural Sample
Michelle Cusumano, B.A., Tohar Scheininger, B.S., Elissa J. Brown, Ph.D., Robin Goodman, Ph.D., St. John’s University, Child HELP Partnership

(PS10-C77) Neurocognitive and Neuromotor Performance Mobile App (Roberto): Evaluating Contribution of Modules to Composite Score
Xanthia Saganis, M.A.¹, Anthony J. Goreczny, Ph.D.¹, George Kondraske, Ph.D.², 1. Chatham University, 2. University of Texas at Arlington

Poster Session 10D

Key Words: Self-Injury, Body Image, Cognitive Biases / Distortions

(PS10-D78) Self-perceptions and Risk for NSSI: Testing the Benefits & Barriers Model
Victoria Tillotson, Jennifer J. Muehlenkamp, Ph.D., University of Wisconsin, Eau Claire
(PS10-D79) Enhancing Resilience Through a Transdiagnostic, Mindfulness-based Intervention: Initial Validation and Acceptability of a Virtual Delivery Method
Jordan Zimmerman, B.S.,1, Nicole R. DeTore, Ph.D.,1, Anne S. Burke, Ph.D.,2, Maren B. Nyer, Ph.D.,1, Laura C. Curran, M.A.,2, Tunde Aideyan, M.A.,1, Lauren Luther, Ph.D.,1, Daphne J. Holt, M.D., Ph.D.,2, 1. Massachusetts General Hospital, 2. Massachusetts General Hospital/Harvard Medical School, 3. Massachusetts General Hospital and Boston University

(PS10-D80) Sociocultural Factors Influencing Pathways to Care Among Asian Americans with Early Psychosis

(PS10-D81) Intolerance of Uncertainty and Distress and Disability in a Global Pandemic
Hayley E. Fitzgerald, M.A., E. Marie Parsons, Ph.D., Nadine R. Taghian, B.S., Michael W. Otto, Ph.D., Boston University

(PS10-D82) The Impact of Ethnicity-based Intergroup Context on the Experience of Social Anxiety
Samantha J. Meckes, M.A., Mollie McDonald, B.A., Cynthia L. Lancaster, Ph.D., University of Nevada, Reno

(PS10-D83) Observation Oriented Modeling of CBT Outcomes for Panic Disorder
Raymond C. Hawkins, II, ABPP, Ph.D.,1, James W. Grice, Ph.D.,2, 1. University of Texas at Austin / Fielding Graduate University, 2. Oklahoma State University

(PS10-D85) Investigating the Endorsement of Suicidal Thoughts and Behaviors Across Intersecting Identities for Colorado Adolescents
Patrice A. Arkfeld, M.S., Gemma T. Wallace, M.S., Bradley T. Conner, Ph.D., Colorado State University

(PS10-D86) Stigma of Suicide Scale Validation in a Spanish-speaking General Population
Ángel Zamora-Martínez, M.S.,1, Pablo PonsJuan, M.S.,1, Adriana Mira, Ph.D.,1, Juana Bretón-López, Ph.D.,2, Rebeca Diego-Pedro, Ph.D.,3, Edgar González-Hernández, Ph.D.,3, Diana Castilla, Ph.D.,1, Azucena Garcia-Palacios, Ph.D.,4, 1. Universitat de Valencia, 2. Universitat Jaume I, 3. Universidad de las Américas Puebla, 4. Jaume I University

(PS10-D87) Treatment Outcomes Associated with the Early Rapid Reduction of Depressive Symptoms in an Intensive Care Setting
Douglas Terrill, B.A.,1, Mark Zimmerman, M.D.,2, 1. Rhode Island Hospital/Alpert Medical School of Brown University, 2. Warren Alpert Medical School of Brown University

(PS10-D88) Utilizing a Transdiagnostic Cbt-based Group Approach to Treating Veterans During an Acute Inpatient Mental Health Hospitalization
Desirae N. Vidaurri, Ph.D., A. Madison Tompkins, Psy.D., Southeast Louisiana Veterans Health Care System

500 • Saturday Poster Sessions
(PS10-D89) Attention Inflexibility and Ruminative Tendencies Within Borderline Personality Disorder
Cheyene K. Horner, B.A.1, Kayla M. Scamaldo, M.A.2, Ilya Yaroslavsky, Ph.D.1, 1. Cleveland State University, 2. University of Toledo

(PS10-D90) Coping Better Than Expected: Expectancy Violations as a Predictor of Fear Outcomes Following a Single Session of Exposure Treatment

(PS10-D91) Examining the Mediating Role of Mental Health Stigma Between Psychological Symptoms and Treatment Preferences: A Latino Sample
Elizabeth N. Hernandez, B.A., Isabel G. Aguirre, B.S., Michiyo Hirai, Ph.D., The University of Texas Rio Grande Valley

(PS10-D92) The Relationship Between Mindfulness Skills Usage and Suicidal Urges and Thoughts During DBT Treatment
Nicole Davis, B.A.1, Andrew H. Rogers, M.A.2, Keren Shemesh, M.A.3, Alyson DiRocco, Psy.D.1, Rob M. Montgomery, M.A.4, Roz Hedayatian, B.A.4, Ky Anderson, B.A.4, Margaret Thomas, Psy.D.1, Lynn McFarr, Ph.D.1, 1. Alliant International University, 2. University of Houston, 3. Pepperdine University Graduate School of Education and Psychology, 4. CBT California

(PS10-D93) Virtual Camp CHAT: Evaluating the Efficacy of a Virtual Intensive Group Behavioral Treatment for Children with Selective Mutism

(PS10-D94) Exploring Racial Differences in Anxiety Sensitivity Among Veterans
Julia G. Bergman, B.S.1, Shelby McGrew, B.S.1, Amanda M. Raines, Ph.D.1, Darius B. Dawson, Ph.D.1, Terri Fletcher, Ph.D.1, C Laurel Franklin, Ph.D.1, 1. Southeast Louisiana Veterans Health Care System, 2. Michael E. DeBakey VAMC/Baylor College of Medicine, 3. Houston VA

(PS10-D95) Emotional Warmth's Impact on Accommodation-related Distress
Theresa R. Gladstone, B.A., Emily P. Wilton, M.A., Sydney D. Biscarri Clark, B.S., Ashley A. Lahoud, B.A., Christopher A. Flessner, Ph.D., Kent State University

(PS10-D96) The Moderating Role of Mindfulness in the Relationship Between Gender Harassment and Social Anxiety Safety Behaviors
Sebastian Szollos, B.A., Jessica R. Winder, M.A., David P. Valentiner, Ph.D., Northern Illinois University

(PS10-D97) Perceived Benefit and Burden of Complying with COVID-19 Recommendations: Two Attitudes Associated with Social and Systemic Variables
Mona Anne M. Clifton, M.A., Alexandra E. Pizutto, M.S., Ashley Buchanan, M.A., Alannah Shelby Rivers, M.A., Keith Sanford, Ph.D., Baylor University

(PS10-D98) The Relationship Among Self-compassion, Physical Health Problems, and Well-being
Lauren A. Stutts, Ph.D., Hannah Cha, Rebecca Helfant, Helen Zhang, Davidson College
(PS10-D99) Adverse Childhood Experiences Predict Emotional Eating Amongst Adults with Obesity in a Weight Loss Program
Christina M. Chuyl, B.A., Nishka Seth, Evan Forman, Ph.D., Drexel University

6:15 p.m. – 8:15 p.m.

POSTER SESSION 11

Poster Session 11A

Key Words: Psychometrics, Parenting, Child

(PS11-A1) Caregiver Strain Questionnaire - Short Form 11 (CGSQ-SF11): A Validation Study
Urveesha Nirjar, M.A.1, Grace M. Brennan, M.S.2, Dara E. Babinski, ABPP, Ph.D.1, Daniel A. Waschbusch, ABPP, Ph.D.1, 1. Penn State College of Medicine, 2. Yale University, Penn State Health Hershey Medical Center

(PS11-A2) Fear-avoidance Mechanisms as Predictors of Compliance with Social Distancing Measures During COVID-19
Anagha A. Babu, B.A., Danielle L. Hoyt, M.A., Jacqueline Smith, M.S., Mindy M. Kibbey, M.S.2, Sonali Singal, B.S., Teresa Leyro, Ph.D., Samantha G. Farris, Ph.D., Rutgers, The State University of New Jersey

(PS11-A3) Adherence and Weight Loss Outcomes from a Pilot Study Testing the Efficacy of the Body Project as an Adjunctive to a Behavioral Weight Loss Intervention in Latinx Women with Overweight and Obesity
Kelsey N. Serier, M.S.1, Riley M. Sebastian, B.A.1, Isabel Solis, M.S.1, Alexandra Hernandez-Vallant, B.S.2, Chloe R. Mullins, B.S.1, Jaqueline Medici, B.S.1, Isabel Gomez1, Jane Ellen E. Smith, Ph.D.1, 1. University of New Mexico, 2. University of New Mexico/Center on Alcohol, Substance Use, & Addictions

(PS11-A4) Ain’t No Rest for the Ruminating: Perseverative Cognition Predicts Nocturnal Blood Pressure Non-dipping in a Community Sample of Adults
Riley M. O’Neill, B.S.1, Samantha M. Nagy, M.S.1, Daniel J. Taylor, Ph.D.1, Joshua W. Smyth, Ph.D.2, Timothy W. Smith, Ph.D.3, Bert N. Uchino, Ph.D.3, Matthew A. Allison, M.P.H., M.D.4, Chul Ahn, Ph.D.3, John Ruiz, Ph.D.1, 1. University of Arizona, 2. The Pennsylvania State University, 3. The University of Utah, 4. University of California, San Diego, 5. UT Southwestern Medical Center

(PS11-A5) Examining Parent Mental Health Help-seeking in Asian Americans
Grace L. Chen, M.A., Anna C.J. Long, Ph.D., Louisiana State University
(PS11-A6) The Relationship Between Harm Avoidance and Incompleteness Core Motivations and Length of Stay in an Intensive Outpatient Program for Pediatric OCD
Lauren Milgram, B.A.¹, Grace H. Cain, B.A.², Kate G. Sheehan, B.S.³, Hannah E. Frank, Ph.D.¹, Matthew M. Carper, Ph.D.⁴, Erin O’Connor, Ph.D.¹, Kristen Benito, Ph.D.¹, Abbe Garcia, Ph.D.⁵, Brady Case, M.D.⁵, Jennifer Freeman, Ph.D.¹, 1. Warren Alpert Medical School of Brown University, 2. Bradley Hospital & Alpert Warren Medical School of Brown University, 3. Bradley Hospital, 4. Quantitative Sciences Program, Alpert Medical School of Brown University, 5. The Intensive Program for OCD at Bradley Hospital

(PS11-A7) Do Eating Disorder Treatment Outcomes Differ for Individuals with Comorbid Substance Use? Examination in an Adolescent Eating Disorder Partial Hospitalization Program
Rhianna R. Vergeer, B.A.¹, Ashley N. Gearhardt, Ph.D.², Jessica L. Van Huyse, Ph.D.², 1. National Institute on Alcohol Abuse and Alcoholism, 2. University of Michigan

(PS11-A8) A Pilot Study of Videoconferencing-based DBT Skills Group Feasibility and Acceptability

(PS11-A10) Not Just Right Experiences Are Related to Aberrant Visuospatial Processing in Individuals with Elevated Obsessive-compulsive Symptoms
Laura B. Bragdon, Ph.D.¹, Meredith E. Coles, Ph.D.², 1. New York University School of Medicine, 2. Binghamton University

(PS11-A11) Prisoner Reentry and Eating Disorder Pathology: Factors That Impact Disordered Eating Risk for Individuals with a History of Incarceration And/or a Felony Conviction
Francesca Gomez, B.A.¹, Aria Gaston-Panthaki, B.A.², Keesha Middlemass, Ph.D.³, Carolyn Becker, Ph.D.², 1. Arizona State University, 2. Trinity University, 3. Howard University

(PS11-A12) So You’re About to Have a Bad Day: The Relationship Between Daily Forecasting and Same-day Affect

(PS11-A13) Prevalence of Eating Disorder Pathology Within a Nationwide Sample of Individuals with Food Insecurity
Francesca Gomez, B.A., Marisol Perez, Ph.D., Arizona State University

(PS11-A14) Does Disordered Eating in Children Differ Among Those Who Restrict for Economic Reasons versus Those That Restrict Due to Weight/shape Concerns?
Francesca Gomez, B.A., Marisol Perez, Ph.D., Jenna Stadheim, B.A., Arizona State University

(PS11-A15) The Shift Work Disorder Index: Initial Validation and Psychosocial Associations in a Sample of Nurses
Sophie Wardle-Pinkston, M.S.¹, Jessee Dietch, Ph.D.², Daniel J. Taylor, Ph.D.¹, Danica Slavish, Ph.D.³, Brett Messman, B.A.³, Camilo Ruggiero, Ph.D.³, Kimberly Kelly, Ph.D.³, 1. University of Arizona, 2. Oregon State University, 3. The University of North Texas
(PS11-A16) Impact of Emotion Dysregulation on Suicidal Ideation in the Context of Dialectical Behavior Therapy

(PS11-A17) Disgust and Selective Eating Behaviors: Differences Between Subtypes of ARFID and Forms of Disgust
Courtney E. Breiner, M.A., Susana Cruz Garcia, B.A., McKenzie Miller, M.A., Julia M. Horne, Ph.D., University at Albany, State University of New York

(PS11-A18) I Look so Old!: A Replication Investigation of Negative Age-related Body Talk
Savannah C. Hooper, B.A., Victory Ogubuike, Carolyn Becker, Ph.D., Trinity University

(PS11-A19) The Role of Emotional Eating as a Risk Factor for Weight Gain During Confinement: The Lack of the Mediational Effect of Binge Eating
Tamara Escrivá-Martínez, M.S., Rosa M. Baños, Ph.D., Marta Miragall, Ph.D., Rocío Herrero, Ph.D., Lorena Desdentado, M.S., 1. Polibienestar Research Institute, University of Valencia, Spain; Department of Personality, Evaluation and Psychological Treatment, University of Valencia, Spain, 2. Polibienestar Research Institute, University of Valencia, Spain; Department of Personality, Evaluation and Psychological Treatments, University of Valencia, Spain; CIBER of Physiopathology of Obesity and Nutrition (CIBEROBN), Instituto Carlos III, Madrid, Spain; 3. Department of Personality, Evaluation and Psychological Treatments, University of Valencia, Spain; CIBER of Physiopathology of Obesity and Nutrition (CIBEROBN), Instituto Carlos III, Madrid, Spain; 4. Polibienestar Research Institute, University of Valencia, Spain; CIBER of Physiopathology of Obesity and Nutrition (CIBEROBN), Instituto Carlos III, Madrid, Spain; 5. Polibienestar Research Institute, University of Valencia, Spain; Department of Personality, Evaluation and Psychological Treatments, University of Valencia, Spain

(PS11-A20) The Relationship Between BMI and Internalized Weight Stigma: The Moderating Role of Body Appreciation
Taylor A. Stacy, M.A., Si Woo Chae, B.A., Rachel D. Marshall, M.A., Janet D. Latner, Ph.D., University of Hawai’i at Manoa

(PS11-A22) Negative Affect and Its Association with Lower Pain-related Quality of Life in Congenital Heart Disease: A Potential Feedback Loop for Intervention
Victoria N. Shaffer, B.A., Christopher K. Vance, Kamila S. White, Ph.D., Philip Ludbrook, M.D., Ari Cedars, M.D., 1. University of Missouri, St. Louis, 2. Washington University in St. Louis, 3. Johns Hopkins University

(PS11-A23) The Relationship Between Weight Suppression and Impulsivity in Individuals with Bulimia Nervosa
Shannon R. Smith, Sophie R. Abber, B.A., Stephanie M. Manasse, Ph.D., Adrienne S. Juarascio, Ph.D., 1. Drexel University, 2. WELL Center, Drexel University

(PS11-A24) Nighttime Parenting and Youth Sleep Problems During a Sensitive Developmental Stage
Geraldine DJ Cadet, B.A., Juliana Acosta, M.S., Justin Parent, Ph.D., 1. Florida International University, 2. American Psychological Association
(PS11-A25) Public versus Internalized Stigma and Suicide Risk: A Comparison Between a Community and Veteran Sample with History of Nonsuicidal Self-injury
Yeonsoo Park, M.A., Brooke Ammerman, Ph.D., University of Notre Dame

Poster Session 11B

Key Words: Evidence-Based Practice, Ethnicity, Underserved Populations

(PS11-B26) Do Racial/ethnic Match and Therapist Acculturation Predict Client Engagement Challenges with Latinx Families Receiving Ebps?
Jennifer Canico, B.A., Blanche Wright, M.A., Julia R. Cox, Ph.D., Anna Lau, Ph.D., Lauren Brookman-Frazee, Ph.D., University of California, Los Angeles

(PS11-B27) Clarifying Relations Between ADHD and Functional Impairment in Adulthood: Utilization of Network and Machine Learning Approaches

(PS11-B28) The Role of Emotional Clarity in the Bidirectional Associations of Life Stress with Hopelessness and Depressive Symptoms
Erin Dunning, M.A., Lyn Y. Abramson, Ph.D., Lauren B. Alloy, Ph.D., 1. Temple University, 2. University of Wisconsin-Madison

(PS11-B29) Examining Whether Student-teacher Relationship Qualities Moderate the Relationship Between Challenging Student Behavior and Teacher Stress
Madeline R. DeShazer, B.S., Julie S. Owens, Ph.D., Steven W. Evans, Ph.D., Amori Y. Mikami, Ph.D., 1. Ohio University, 2. University of British Columbia

(PS11-B30) Clinical Case Series Results from an Online Adaptation of Organization, Time Management, and Planning Intervention for College Students with ADHD
Maggie Witherspoon, B.A., Will H. Canu, Ph.D., Cynthia M. Hartung, Ph.D., Laura Knouse, Ph.D., Kate Flory, Ph.D., 1. Appalachian State University, 2. University of Wyoming, 3. University of Richmond, 4. University of South Carolina

(PS11-B31) Traumatic Stress Symptoms Predict Restraint in Children and Adolescents in Psychiatric Residential Treatment

(PS11-B32) The Moderating Role of Intolerance of Uncertainty in the Relationship Between Health Anxiety and Covid-related Stress
(PS11-B33) Iatrogenic Effects in Group Treatment: Do Externalizing Problems Impact Treatment Outcome for Youth in Group Treatment for PTSD?
Cassidy L. Tennity, M.A.,1, Stevie N. Grasetti, Ph.D.,2, Rosa L. Boniface, M.A.,2, Caroline Guizzi, B.A., M.A.,2, Nora E. Charles, Ph.D.,1, 1. University of Southern Mississippi, 2. West Chester University of Pennsylvania

(PS11-B34) Change Talk Mediates Outcome in Group Motivational Interviewing Among Dually Diagnosed Homeless Veterans
Elizabeth J. Santa Ana, Ph.D.,1, Katherine A. Beavis, Ph.D.,1, Kayla Lamb, B.A.,2, Jon M. Houck, Ph.D.,3, 1. Medical University of South Carolina, 2. U.S. Department of Veterans Affairs, 3. University of New Mexico

(PS11-B35) The Relationship Between COVID-19 Stress, Psychological Inflexibility and Psychological Well-being
Alyx R. Duckering, B.A., California State University, San Bernardino

(PS11-B36) Heart Rate Reactivity to Trauma Reminders: Baseline Correlates and Change over Treatment
Shivani Pandey, B.S.,1, Mercedes Woolley, B.A.,1, Joseph K. Carpenter, Ph.D.,1, Michael G. Griffin, Ph.D.,2, Patricia Resick, Ph.D.,3, Tara E. Galouzis, Ph.D.,1, 1. Boston VA Healthcare System, 2. University of Missouri, St. Louis, 3. Duke University Medical Center

(PS11-B38) Implementation of Clinician Consultation in Prolonged Exposure Therapy Associated with Patient Reductions in Suicidal Ideation Severity
Gabriella E. Hamlett, M.A.,1, Lily A. Brown, Ph.D.,1, Carmen P. McLean, Ph.D.,2, Stacey Young-McCaughan, Ph.D., RN1, Alan L. Peterson, ABPP, Ph.D.,4, Edna B. Foa, Ph.D.,1, 1. Perelman School of Medicine at the University of Pennsylvania, 2. National Center for PTSD, 3. Department of Psychiatry and Behavioral Sciences, School of Medicine, University of Texas Health Science Center at San Antonio and Research and Development Service, South Texas Veterans Health Care System, San Antonio, TX, 4. University of Texas Health Science Center at San Antonio

(PS11-B39) Erroneous Beliefs About Luck, Not the Illusion of Control, Predict Greater Change in Beliefs Following the Brief Digital Accelerator Treatment (BDAT)
James D. Broussard, Ph.D., Jana M. Fleet, M.S., Jackson State University

(PS11-B40) A Replication of Measurement Invariance Across Gender of the 36-item Difficulties in Emotion Regulation Scale
Rachelle H. Kromash, Shania L. Siebert, M.S., Thalia P. Sullivan, B.A., Hannah G. Mitchell, M.A., Kelly E. Moore, Ph.D., Meredith K. Ginley, Ph.D., East Tennessee State University

(PS11-B41) Fearing Happiness Moderates Depression Treatment Preference
Michael R. Gallagher, B.S.,1, Amanda C. C. Collins, M.S.,1, Jessica S. Bryant, Ph.D., E. Samuel Winer, Ph.D.,1, 1. Mississippi State University, 2. Central Arkansas Veterans Healthcare System

(PS11-B42) Improvements in Caregiver Psychopathology During Children’s Trauma-focused Cognitive Behavioral Therapy: Does Treatment Phase Matter?
Tohar Scheininger, B.S., Maddi Gervasio, B.S., Elissa J. Brown, Ph.D., Komal Sharma-Patel, Ph.D., St. John’s University, Child HELP Partnership
(PS11-B43) Interoceptive Sensibility, Depletion, and Racial Bias in a First-Person Shooter Task
Justin R. Leiter-McBeth, B.S., M.A., Cassidy Serr, Peter G. Mezo, Ph.D., University of Toledo

(PS11-B44) Co-brooding and Co-reflection Differentially Predict Depressive Symptoms and Friendship Closeness in College Students
Tali L. Lesser¹, Megan C. Scafaria¹, Jackie Rieger¹, Alexa Cilia¹, Mia P. Grahn¹, Emily Franco, B.A.¹, Carolina Daffre, B.A.², Alison A. Papadakis, Ph.D.¹, 1. Johns Hopkins University, 2. Duke University

(PS11-B45) Stigma, Mental Health Literacy, & Help-seeking Intentions: Promoting Mental Health Services Among Latinx Undergraduate Students at a Large Public University
Daniel H. Saravia, B.A.¹, Patricia Orozco-Perez, B.A.¹, Isabel López, M.A.², Miguel Palacios, B.A.³, Jonathan I. Martinez, Ph.D.¹, 1. California State University, Northridge, 2. University of California, Santa Barbara, 3. California State University, Dominguez Hills

(PS11-B46) Trauma-related Burnout, Self-care, and Social Support in Front Line Providers in the Caribbean
Angela Pham, Ph.D., Alexandra S. Askew, B.S., B.A.¹, Manuel Gutierrez Chavez, B.S.¹, Robyn Charley-White, M.P.H., Ph.D.², Anu Asnaani, Ph.D.¹, 1. University of Utah, 2. HERStoire Collective

(PS11-B47) Bidirectional Changes in Self-schema Structure and Depressive Symptoms During COVID-19: A Longitudinal, Multi-wave Study
Katerina Rnic, Ph.D., Taylyn Jameson, B.A., Ashley M. Battaglini, M.A., Ellen Jopling, M.A., Joelle LeMoult, Ph.D., The University of British Columbia

(PS11-B48) An Investigation of Anti-black Microaggressions Committed by People of Color
Jade I. Gallo, B.S.¹, Anjalika Khanna Roy, B.A.², Grace Jacob³, Dana Strauss, B.S.³, Monnica T. Williams, ABPP, Ph.D.³, 1. University of Connecticut, 2. Queen’s University, 3. University of Ottawa

(PS11-B49) Marijuana Use in Buprenorphine Treatment for Opioid Use Disorder
Carla Rash, Ph.D.¹, Heidi Lubetkin, M.S.², Janet Rodriguez², Casie DeRosier², James Lynch², 1. University of Connecticut Health, 2. Community Renewal Team

(PS11-B50) Stimulant Use in Buprenorphine Treatment for Opioid Use Disorder
Carla Rash, Ph.D.¹, Heidi Lubetkin, M.S.², Janet Rodriguez², Casie DeRosier², James Lynch², 1. University of Connecticut Health, 2. Community Renewal Team

Poster Session 11C

Key Words: Dissemination, Implementation, Substance Abuse

(PS11-C51) Using the Community-based Learning Collaborative Model to Target Opioid Use Disorder: Novel Adaptation and Results
Christina C. Strauch, B.S., M.S., Steven Lawyer, Ph.D., Samuel O. Peer, Ph.D., Idaho State University
PS11-C52) Acceptability of a CBT Skills Assessment Tool for Simulated Clinical Training in the Treatment of Anxiety Disorders

PS11-C53) Variations in Sleep Impairment Across Age Groups in Patients with Chronic Pain
Madeline Pruett, B.A., Diana Tinsley, M.A., Evan Rooney, B.A., John Young, Ph.D., University of Mississippi

PS11-C54) Intrinsic Religiosity & Mindfulness in DBT
Caroline Kutschbach, B.A., Marget Thomas, Psy.D., Andrew H. Rogers, M.A., Lynn McFarr, Ph.D., 1. CBT/DBT California, 2. University of Houston

PS11-C55) The Impact of COVID-19 as a Collective Trauma
David T. Solomon, Ph.D., Jessica Bell, Alvin Malesky, Ph.D., Western Carolina University

PS11-C56) The Effect of Maternal Sleep Quality on Parenting Style
Stacy S. Forcino, Ph.D., Emily-Anne S. del Rosario, AnaBelle Ramos, California State University, San Bernardino

PS11-C57) Post Traumatic Stress Mediates the Relation Between Early Adversity and Suicidal Behaviors in Male Youth
Elizabeth M. McRae, M.A., Laura Stoppelbein, Ph.D., Sarah O’Kelley, Ph.D., Shana Smith, Psy.D., 1. The University of Alabama at Birmingham, 2. The University of Alabama, 3. Jacksonville State University

PS11-C58) Predicting the Quality of Youth Mentoring Interventions: Considering the Role of Youth Depression and Mentor Relationship Goals
Savannah B. Simpson, M.S., Jasmine Cosby, B.A., Elizabeth B. Raposa, Ph.D., 1. University of South Carolina, 2. Fordham University

PS11-C59) The Moderating Role of Maternal Support Seeking in the Relationship Between Maternal and Child Depressive Symptoms
Celine Lu, B.A., Kayley Morrow, B.A., Cecile D. Ladouceur, Ph.D., Jennifer Silk, Ph.D., 1. University of Pittsburgh, 2. University of Pittsburgh School of Medicine, 3. Silk

PS11-C60) Sexual Trauma Reporting to Universities: Institutional Betrayal, Mental Health Impacts, and the LGBQ+ Community
Riley N. Hoogerwerf, B.A., Natalie Q. Poole, B.A., Stephanie Amaya, M.A., Matt Gray, Ph.D., University of Wyoming

PS11-C61) What Do Adolescents Expect from Treatment? an Assessment of DBT-A Treatment Format Preferences and Expectations

PS11-C62) Resilience in Stressful Events: A College Campus Pilot Study of Peer Psychological First Aid During COVID-19
Alexa B. Chandler, M.A., Megan S. Irgens, M.A., Cassandra Hirdes, Amy Athey, Psy.D., University of Arizona
(PS11-C63) Perception of Resilience Factors for Transgender and Gender Diverse Adults Across Demographic Groups
Christen E. Seyl¹, Brenna R. Lash, M.P.H.¹, Sage A. Volk, B.A.¹, Allura L. Ralston, M.A.¹, T. Zachary Huit, M.A.¹, Hannah M. Coffey, M.A.¹, Richard A. Mocarski, Ph.D.², Nathan Woodruff³, Debra A. Hope, Ph.D.¹, 1. University of Nebraska, Lincoln, 2. University of Nebraska at Kearney, 3. Trans Collaborations

(PS11-C64) Maternal Anxiety Beliefs Mediate the Relation Between Maternal Emotion Regulation and Parenting Goals
Elizabeth M. Aaron, B.A., Elizabeth J. Kiel, Ph.D., Miami University

(PS11-C65) Relationships Between Body Appreciation, Disordered Eating, Intuitive Eating, and Health Among Transgender and Gender Non-binary Individuals: A Preliminary Analysis
Thomas Le, M.S.¹, Zachary A. Soulliard, Ph.D.², 1. University of Maryland, College Park, 2. Yale School of Public Health

(PS11-C66) Minority Identities and Implicit Identification with Non-suicidal Self-injury
Edward I. Wolfson, Nigel M. Jaffe, Stephanie Jarvi Steele, Ph.D., Williams College

(PS11-C67) Test-retest Reliability of a Measure for Transgender and Gender Diverse Well-being: The Trans Collaborations Clinical Check-in (TC3)
T. Zachary Huit, M.A.¹, Allura L. Ralston, M.A.¹, Natalie R. Holt, Ph.D.¹, Richard A. Mocarski, Ph.D.², Nathan Woodruff³, Alexander L. Farquhar-Leicester, M.A.¹, Debra A. Hope, Ph.D.¹, 1. University of Nebraska, Lincoln, 2. University of Nebraska at Kearney, 3. Trans Collaborations

(PS11-C68) The Link Between Hoarding Symptoms and Thwarted Belonging: An Investigation Across the COVID-19 Pandemic
Madeline L. Kushner, B.A.¹, Hannah C. Broos, B.A.¹, Stephanie E. Hudiburgh, M.S.¹, Caitlin A. Stamatis, M.S.², Kiara R. Timpano, Ph.D.¹, 1. University of Miami, 2. New York-Presbyterian Hospital/Weill Cornell Medical College

(PS11-C69) Testing a Model of Family Resilience During the COVID-19 Pandemic in a National U.S. Sample: Links Between Parent Mental Health, Parenting, and Child Mental Health
Francesca Penner, M.A., Yasmin Elzaki, M.D., Haglaeeh T. Contreras, Roberto P. Santos, M.D., Dustin E. Sarver, Ph.D., University of Mississippi Medical Center

(PS11-C70) Parental Stress and Online Health Information-seeking Behaviors: Implications for Public Health in the Digital Age
Madison P. McCall, B.S.¹, Megan T. Hineline, B.A.¹, Margaret T. Anton, Ph.D.², Deborah J. Jones, Ph.D.¹, 1. University of North Carolina at Chapel Hill, 2. AbleTo, Inc.

(PS11-C71) Cultural Competency and Credibility of Gender-affirming Cognitive Behavioral Therapy Seen as Synonymous by Transgender and Gender Diverse Adults
Sage A. Volk, B.A.¹, Christen E. Seyl¹, Allura L. Ralston, M.A.¹, T. Zachary Huit, M.A.¹, Hannah M. Coffey, M.A.¹, Richard A. Mocarski, Ph.D.², Nathan Woodruff³, Debra A. Hope, Ph.D.¹, 1. University of Nebraska, Lincoln, 2. University of Nebraska at Kearney, 3. Trans Collaborations
(PS11-C72) Using Ecological Momentary Assessment to Examine the Effect of Sleep and Stress on Daily Forecasting in College Students

(PS11-C73) Mapping Interconnections Between Depression Symptoms, Anxiety Symptoms, and Gender Congruence Among Transgender and Gender Diverse Adults: A Network Analysis

Danielle R. Novick, M.S., Nicole E. Lorenzo, Ph.D., Christina M. Danko, Ph.D., Andrea M. Chronis-Tuscano, Ph.D., University of Maryland, College Park

Poster Session 11D

Key Words: Implementation, Evidence-Based Practice, Stakeholder Relevant

(PS11-D75) The Impact of COVID-19 on Organizational Readiness to Implement MATCH
Angelina F. Ruiz, B.A., Daniel M. Cheron, ABPP, Ph.D., Rachel E. Kim, Ph.D., Judge Baker Children’s Center

(PS11-D76) The Peer Body Project on College Campuses: Modifications and Adaptations for Implementation

(PS11-D77) Social Anxiety and Risky Marijuana Use: The Role of Underutilization of Protective Behavioral Strategies
Paige E. Morris, B.A., Julia D. Buckner, Ph.D., Michael J. Zvolensky, Ph.D., 1. Louisiana State University, 2. University of Houston

(PS11-D78) Perceived Discrimination, Mindfulness, and Sleep Outcomes
Shelby D. Tuthill, M.S., Tori Crain, Ph.D., Mark A. Prince, Ph.D., Stimulant Norms and Prevalence Study Team (University of Wyoming), 1. Colorado State University, 2. Portland State University, 3. University of Wyoming

Joseph S. Maimone, B.A., Kate Bentley, Ph.D., Flynn Kelly, B.A., Daniel Coppessmith, M.A., Matthew K. Nock, Ph.D., Evan M. Kleiman, Ph.D., 1. Massachusetts General Hospital, 2. Massachusetts General Hospital/Harvard Medical School, 3. Harvard University, 4. Rutgers, The State University of New Jersey
(PS11-D80) Readiness to Change: A Pathway to Teachers’ Trauma-sensitive Strategy Implementation
Megan A. Blanton, B.A., M.S.¹, Jennifer Langhinrichsen - Rohling, Ph.D.², Fallon J. Richie, M.A.³. 1. The University of South Alabama, 2. University of North Carolina at Charlotte

(PS11-D81) Emotional Dysregulation as a Moderator of the Association Between Symptom Clusters of Post-traumatic Stress Disorder and Alcohol Abuse and Dependence Disorder
Rimsha Majeed, M.S., Audrey B. Garrett, B.A., Rebecca J. Zakarian, M.S., Mya E. Bowen, B.A., Bre’Anna L. Free, M.S., Gayle Beck, Ph.D., University of Memphis

(PS11-D82) Utilization of the COVID-19 Telehealth Framework as a Means of Reducing Health Disparities
Natalie Dunn, B.A., Eric Matsunaga, B.A., Andrew White, ABPP, Ph.D., Linda Dimeff, Ph.D., Portland DBT Institute

(PS11-D83) Efficacy of a Universal Prevention Program for Body Confidence Among Youth 9 to 11 Years Old
Marisol Perez, Ph.D., Taryn Henning, B.S., Kimberly Yu, M.A., Arizona State University

(PS11-D84) A Mobile Phone-based Brief Intervention Reduces Riding with a Cannabis-impaired Driver
Jenni B. Teeters, PhD, Shelby King, M.S., Western Kentucky University

(PS11-D85) Perceived Barriers to Providing Telehealth Services with Children with Autism Spectrum Disorder
Anamiguel Pomales-Ramos, B.S., Brooke Ingersoll, Ph.D., Michigan State University

(PS11-D86) Evaluation of Stressors and Perceived Needs of Low-income Black Pregnant and Postpartum Women
Keaton Somerville, M.A., Kent State University

(PS11-D87) Characteristics and Utilization of a Pediatric Behavioral Health Emergency Telephone Triage Service for Caregivers
Mary Kathryn M. Cancilliere, Ph.D.¹, Anthony Spirito, Ph.D.², Kathleen Donise, M.D.¹. 1. Alpert Medical School of Brown University, 2. Brown University & Butler Hospital

(PS11-D88) Using Appraisal Theory to Improve the Measurement of Racial Affect
Emily J. Blevins, M.S., University of Illinois at Urbana-Champaign

(PS11-D89) Mindfulness as a Predictor of Health Anxiety Above and Beyond Known Predictors

(PS11-D90) Not All Judgements Are Created Equal: Addressing How Judgements of Anxious Others and Social Anxiety Symptoms Co-vary Using a Cluster Analysis
Ryan J. Ferguson, M.A., Allison J. Ouimet, Ph.D., University of Ottawa

(PS11-D91) Weight Bias in Healthcare: A Qualitative Study of Patient Perspectives
Hannah F. Fitterman-Harris, M.S., Jillon S. Vander Wal, Ph.D., Saint Louis University
(PS11-D92) Adverse Childhood Experiences and Perceived Stress: The Promotive Impact of Resilience
Tre D. Gissandaner, M.A., Jordan Gette, M.A., Adam T. Schmidt, Ph.D., Texas Tech University

(PS11-D93) Coping Self-efficacy as a Mediator Between Traumatic Experiences and PTSD Symptoms in Men with Substance Use Disorders
Meghan Mette, B.A.¹, Laurel Meyer, B.A.¹, Christa R. Lewis, M.A.², Kevin Wenzel, Ph.D.³, Rebecca Schacht, Ph.D.³, 1. University of Maryland, Baltimore County, 2. University of Maryland, 3. Maryland Treatment Centers

(PS11-D94) Relationship Between Post Traumatic Symptom Severity, IBS, and Functional Dyspepsia
Jillian B. Berfield, B.A., Steven E. Bruce, Ph.D., University of Missouri, St. Louis

(PS11-D95) Rejection Sensitivity and Emotional Maltreatment in Adolescent Females with Symptoms of Borderline Personality Disorder
Brooke A. Duarte, M.S.¹, Leila Sachner, B.A.², Sara Kimble, B.S.², Luciana G. Payne, Ph.D.³, 1. Suffolk University, 2. McLean Hospital, 3. Mclean Hospital / Harvard Medical School

(PS11-D96) Storm and Tornado Fear Predicts Storm-related Safety Behaviors, Moderated by Fear of Destruction
Burkhart Hahn, B.S., Jacob D. Kraft, M.S., Kaitlyn Nagel, B.A., Danielle E. Deros, B.S., DeMond M. Grant, Ph.D., Oklahoma State University

(PS11-D97) Impact of Attachment Style on Relationship Satisfaction During COVID-19
Jacqueline Trumbull, B.A.¹, Rachel E. Guetta, B.A.¹, Kibby McMahon, M.A.¹, Clair Cassiello-Robbins, Ph.D.¹, M. Zachary Rosenthal, Ph.D.², 1. Duke University, 2. Duke University Medical Center

(PS11-D98) The Effects of Sleep Quality on Diurnal Cycles of Positive and Negative Affect
Jiyoung Song, B.A., Peter D. Soyster, M.A., Aaron J. Fisher, Ph.D., University of California, Berkeley
Sunday Poster Sessions

POSTER SESSION 12

Poster Session 12A

Key Words: Technology / Mobile Health, Clinical Utility, Student Issues

(PS12-A1) Telehealth’s Here to Stay?! Perspectives from Current Patients and Graduate Students
Erin A. McLean, M.A., Jennifer Lent, M.A., Janice Lu, B.A., Shilpa Raj, M.A., Phyllis S. Ohr, Ph.D., Hofstra University

(PS12-A2) Relationships Among Pubertal Stage, Worry, Rumination, and Internalizing Symptoms in a Youth Sample Treated for Anxiety Disorders
Jacqueline Sullivan, M.A.¹, Samantha K. Noose Glovak, M.A.¹, Cecile D. Ladouceur, Ph.D.², Jennifer Silk, Ph.D.³, Kristy Benoit Allen, Ph.D.¹, 1. The University of Tennessee, Knoxville, 2. University of Pittsburgh School of Medicine, 3. Silk

(PS12-A3) Relation of Parent and Child Dental Fear to Child Compliance in Dental Appointments
Jeongwi An, B.A., M.A.¹, Christopher K. Owen, B.S., M.S.¹, Sarah M. Lipinski, B.S.¹, Kelly M. Hickey, M.A.², Christa L. Lilly, B.S., M.S., Ph.D.¹, Masahiro Heima, Ph.D.³, Cheryl B. McNeil, Ph.D.¹, Daniel W. McNeil, Ph.D.¹, 1. West Virginia University, 2. Case Western Reserve University, 3. Kagoshima University

(PS12-A4) Impact of Early Social Skills Training in Targeting the Social Barriers Among Children with ASD
Ghowash Irshad, M.A.¹, Amelia Yanchik, M.A.¹, Michelle Grazioli, B.S.¹, Peter Vietze, Ph.D.¹, Sadaf Khawar, M.A.¹, Chana Tilson, M.S.², Leah Esther Lax, Ph.D.³, 1. Montclair State University, 2. Hand in Hand Early Childhood Center, 3. CARES

(PS12-A5) PTSD and Negative Functioning: The Impact of Victim Blame and Distraction After Victimization Disclosure
Melanie D. Hetzel-Riggin, Ph.D.¹, Francesca M. Giardina, B.A.², Kelsey Fredericks, Paige Brumett¹, 1. Penn State Behrend, 2. The Pennsylvania State University, The Behrend College, 3. Penn State Erie, The Behrend College

(PS12-A6) Are Latinx Youth Depressive Symptoms Related to family Functioning and Parental Acculturative Stress?
Alyssa Scurria, M.S., Lourdes Suarez-Morales, Ph.D., Nova Southeastern University
(PS12-A7) Acceptability and Feasibility of Telehealth Delivered Written Exposure Therapy with College Students  
Maya A. Krek, B.S., Benjamin W. Katz, B.A., Shawn P. Cahill, Ph.D., University of Wisconsin, Milwaukee

(PS12-A8) Examining Time to Divorce: The Influence of Military Experiences and Service Member Mental Health Among a Sample of U.S. Army Couples  
Mollie E. Shin, B.A.¹, Elizabeth S. Allen, Ph.D.¹, Kayla Knopp, Ph.D.², Galena Rhoades, Ph.D.³, Howard Markman, Ph.D.¹, Scott Stanley, Ph.D.³, 1. University of Colorado, Denver, 2. VA San Diego Healthcare System, 3. University of Denver

(PS12-A9) Reward Probability Mediates the Relationship Between Trauma Exposure and Posttraumatic Stress Among College Students  
Michael B. Quin, Jr., Daniel R. Loomis, M.A., Rebecca L. Laconi, M.A., Zachary Getz, M.A., Michael J. Gawrysiak, Ph.D., West Chester University of Pennsylvania

(PS12-A10) The Relationship Between Age and Parent-reported Behavior in Individuals of Ages 2-21 with Selective Mutism  
Jenna Blum¹, Rachel Canella², Sharon Armstrong, Ph.D.², Elisa Shipon-Blum¹, Raiya Shah,¹ 1. S.Mart Center, 2. La Salle University

(PS12-A11) Attention-deficit/hyperactivity Disorder (ADHD) and Co-occurring Depression: Greater Risk for Drug Abuse?  
Annie Reiner, B.A., Matthew Jarrett, Ph.D., University of Alabama

(PS12-A12) The Relationship Between NSSI Age of Onset and Current NSSI: Moderating Effects of Coping Strategies  
Nicole C. Cardinalli, Margaret Andover, Ph.D., Fordham University

(PS12-A13) Stressor Type Matters in Mindset Research: Differential Salience of Stress Categories in Ratings of Stress Mindset  
Elijah R. Murphy, M.A., Diana J. Cox, B.S., Feven Fisseha, B.A., Kathleen C. Gunthert, Ph.D., American University

(PS12-A14) Comparing Eating Styles and Motives Between Hispanic and Non-hispanic White Female Undergraduates  
Riley M. Sebastian, B.A., Kirsten P. Peterson, B.S., Jacqueline Medici, B.S., Toreh Alysandra Jackson, Chloe R. Mullins, B.S., Isabel Gomez, Lindsey E. Parker, B.S., Jamie Smith, M.A., Jane Ellen E. Smith, Ph.D., University of New Mexico

(PS12-A15) Does Rumination Play an Explanatory Role Within the Relationship Between Depression and Posttraumatic Stress Among Military Veterans? Evidence from a Treatment-seeking Sample  

(PS12-A16) Comorbid Externalizing Disorders and Suicidality as Predictors of Targeting Traumatic Stress Among Youth with Posttraumatic Stress Disorder  
Austen Taylor K. Matro, B.A., Kalyn L. Holmes, M.A., University of Hawai‘i at Mānoa

(PS12-A17) Associations Between Rape Acknowledgment, Difficulties in Emotion Regulation, Posttraumatic Stress Disorder, and Growth Mindset  
Nicole J. Barle, M.A., Sin-Ying Lin, M.A., K. Daniel O’Leary, Ph.D., Stony Brook University
Hannah D. Hedriana, B.S., B.A. 1, Caroline Lutzky, B.S. 2, Demi Zhu, B.S. 3, Deborah C. Beidel, ABPP, Ph.D. 3, Rahul S. Mhaskar, M.P.H., Ph.D. 1, Liwei Chen, Ph.D. 1, Brian E. Bunnell, Ph.D. 2, 1. University of South Florida Morsani College of Medicine, 2. University of South Florida, 3. University of Central Florida & UCF RESTORES

(PS12-A19) The Relational Self-schema Measure: Predicting Trauma, Mood, and Anxiety Symptoms
Delaney Adams, B.S., Stephen Paup, M.S., Walter D. Scott, Ph.D., Washington State University

(PS12-A21) Stress, Coping, and Resilience in Parents of Children with Autism Spectrum Disorder
Patricia Andia Jara, B.S., Madison W. Silverstein, Ph.D., Loyola University New Orleans

(PS12-A22) Examining the Effects of Impulsivity and Affect Regulation on Smoking Initiation in College Students; A Study of the Acquired Preparedness Model
Michael A. Sustaíta, M.A. 1, Aaron K. Haslam, Ph.D. 2, Lee M. Cohen, Ph.D. 3, 1. University of South Alabama, 2. Texas Tech University, 3. University of Mississippi

(PS12-A23) The Mediating Role of Anger in the Association Between Childhood Maltreatment and Alcohol Use in Lesbian, Gay, and Bisexual Young Adults
Gisselle Razo, B.S., Claire Hsieh, B.S., Ruby Charak, Ph.D., The University of Texas Rio Grande Valley

(PS12-A24) Possible Implications of Increased Screen Time on Trait Mindfulness, Trait Anxiety and Experiential Avoidance
Esther C. Killius, B.A., Joshua J. Broman-Fulks, Ph.D., Appalachian State University

(PS12-A25) Perceived Moral Injury of Combat Veterans and Association with Public Stigma
Sean A. Lauderdale, Ph.D., Ray Daniel, M.S., Kelli R. Lahan, B.S., Texas A & M University Commerce

Poster Session 12B

Key Words: Adolescents, Externalizing, Criminal Justice

(PS12-B26) Perceived Injunctive Norms and Marijuana Social Expectancies Among Juvenile Justice-involved Adolescent Marijuana Users
Nazaret C. Suazo, B.A. 1, Lauren Micalizzi, Ph.D. 1, Aya Cheaito, M.A. 2, Kara A. Fox, B.A. 3, Lynn Hernandez, Ph.D. 4, Kathleen Kemp, Ph.D. 5, Anthony Spirito, Ph.D. 6, 1. Brown University, 2. University of Vermont, 3. University of North Carolina at Chapel Hill, 4. City University of New York School of Medicine, 5. Rhode Island Hospital/Alpert Medical School of Brown University, 6. Brown University & Butler Hospital

(PS12-B27) Treatment Outcomes Related to Targeting Traumatic Stress Among Community Sample of Youth with Posttraumatic Stress Disorder
Austen Taylor K. Matro, B.A., Holly R. Turner, M.A., University of Hawai’i at Manoa
(PS12-B28) Evaluating the Novel Mask Delay Discounting Task: Association Between Delay Discounting, Political Party Identification, and Self-reported Mask Use

(PS12-B29) The Impact of Purpose in Life on Successful Strivings Two Years Later
Kerry Kelso, M.A., Todd B. Kashdan, Ph.D., George Mason University

(PS12-B30) Safety Behaviors and Health Anxiety in the Midst of the COVID-19 Pandemic
Rachel E. Quinn, B.A., Hannah Youtsler, None, Cynthia L. Dulaney, Ph.D., Xavier University

(PS12-B31) A Psychometric Validation Study of the Emotion Regulation Questionnaire (ERQ) in a Clinical Sample

(PS12-B32) Immigration-related Trauma, Acculturation and Mental Health Outcomes Among Latinx Adolescents
Tamara L. Greak, M.A., University of Miami

(PS12-B33) An Experimental Investigation of Clinical Decision-making in Cognitive Behavioral Therapy When Therapists Work with African American vs. White Patients
Iony D. Ezawa, Ph.D.¹, Daniel R. Strunk, Ph.D.², 1. Vanderbilt University, 2. The Ohio State University

(PS12-B34) Building a More Diverse and Inclusive Field of Psychology
David R. Heckler, ABPP, Ph.D.¹, Anokhi Shah², 1. Dell Children’s Medical Center/University of Texas at Austin, 2. The University of Texas at Austin

(PS12-B35) Stress Generation Among Offspring of Parents with Anxiety Disorders
Thomas J. Harrison, M.S.¹, Golda S. Ginsburg, Ph.D.², Isaac C. Smith, Ph.D.¹, Carissa M. Orlando, Ph.D.¹, 1. University of Connecticut Health Center, 2. University of Connecticut

(PS12-B36) Establishment of the DC Autism Collaborative (DC-AC) to Improve the Behavioral Health of Children with Autism in the District of Columbia
Serene Habayeb, Ph.D.¹, Anne Inge, Ph.D.¹, Yetta Myrick, B.A.², Amanda Hastings, Psy.D.³, Shaakira Parker, M.P.H.³, Melissa Long, M.D.¹, Olivia Soutullo, Ph.D.¹, Leandra Godoy, Ph.D.¹, 1. Children’s National Hospital, 2. DC Autism Parents, 3. Children’s National Health System

(PS12-B37) How Brief Is Too Brief? A Mixed Method Examination of Outcomes in a Counseling Intervention for IPV
Sara B. Danitz-Steinhardt, Ph.D.¹, Danielle Shayani, B.S.¹, Colin T. Mahoney, Ph.D.², Katherine M. Iverson, Ph.D.³, 1. National Center for PTSD, 2. Western New England University, 3. Boston University School of Medicine & National Center for PTSD

(PS12-B38) Impact of Brief Writing Interventions on Affect and Covid-related Stress
M. Alexandra Kredlow, Ph.D., Javiera Oyarzun, Ph.D., Jocelyn Shu, Ph.D., Olivia T. Karaman, B.A., Elizabeth A. Phelps, Ph.D., Harvard University
(PS12-B39) Associations Between Adverse Childhood Experiences and Health-related Quality of Life, Depression, and Substance Use in Adulthood: Findings from the 2011, 2012, and 2016 BRFSS Surveys
Da Eun Suh, M.A., Austen Taylor K. Matro, B.A., Holly R. Turner, M.A., University of Hawai‘i at Manoa

(PS12-B40) Adolescent Stress Experience–expression–physiology Correspondence: Links to Psychopathology and Frontolimbic Neural Circuitry
Jason J. Bendezu, Ph.D., Michelle E. Thai, M.A., Andrea Wiglesworth, B.S., Kathryn R. Cullen, M.D., Bonnie Klimes-Dougan, Ph.D., University of Minnesota

(PS12-B41) Associations Between School Modality and Youth Mental Health in the COVID-19 Pandemic

(PS12-B43) Patterns of Adverse Childhood Experiences and Their Associations with Health Outcomes in Adulthood
Holly R. Turner, M.A., Austen Taylor K. Matro, B.A., Taylor A. Stacy, M.A., John P. Barile, Ph.D., University of Hawai‘i at Manoa

(PS12-B44) Assessing Intervention Appropriateness and Acceptability Amongst Indian College Students

(PS12-B46) Differences in Reported Mental Health Symptoms Across Racial and Ethnic Groups in the United States and Canada Amid the COVID-19 Public Health Crisis
Hanan Salem, B.A.1, Angela Evans, Ph.D.2, Lindsay Malloy, Ph.D.3, Tara Peris, Ph.D.4, Donna B. Pincus, Ph.D.5, Jill Ehrenreich-May, Ph.D.6, Jonathan S. Comer, Ph.D.1, 1. Florida International University, 2. Brock University, 3. Ontario Tech University, 4. University of California, Los Angeles, 5. Boston University, 6. University of Miami

(PS12-B47) Improvements in Direct and Indirect Telehealth Use and Satisfaction During a Community-based Learning Collaborative
Megan O. Bird, B.S., Steven Lawyer, Ph.D., Samuel O. Peer, Ph.D., Idaho State University

Poster Session 12C

Key Words: Risk / Vulnerability Factors, Body Image, Body Dysmorphic Disorder

(PS12-C50) Conformity to Masculine Norms, Masculine Discrepancy Stress, and the Development of Muscle Dysmorphia Symptoms
William Grunewald, M.A.1, Shruti S. Kinkel-Ram, B.S.2, April R. Smith, Ph.D.2, 1. Auburn University, 2. Miami University
(PS12-C51) Obsessive-compulsive and Depressive Symptoms as Predictors of Loneliness: Insights from Data Gathered During the COVID-19 Pandemic
Emma C. Wolfe, B.A.¹, Zoë E. Laky, B.A.¹, Susanne S. Hoeppner, Ph.D.¹, Angela Fang, Ph.D.², Noah C. Berman, Ph.D.¹, Sabine Wilhelm, Ph.D.⁴, 1. Massachusetts General Hospital, 2. University of Washington, Seattle, 3. College of the Holy Cross, 4. Harvard Medical School

(PS12-C52) Visuospatial Impairments in Body Dysmorphic Disorder: Relationship to Severity and Comorbidities
Margaret D. Hall, B.A.¹, Emily E. Bernstein, Ph.D.¹, Susanne S. Hoeppner, Ph.D.¹, Julia Carrellas, B.A.¹, Jennifer L. Greenberg, Psy.D.², Katharine A. Phillips, M.D.³, Sabine Wilhelm, Ph.D.², 1. Massachusetts General Hospital, 2. Harvard Medical School, 3. Weill Cornell Medical College

(PS12-C53) Psychotherapy Theories, Methods, and Practitioners of the Future: An Expert Poll
Rory A. Pfund, Ph.D.¹, Danielle M. Cook, B.S.², John C. Norcross, ABPP, Ph.D.², 1. University of New Mexico, 2. University of Scranton

(PS12-C54) Emotion Regulation in Response to Intrusive Thoughts: The Role of Alexithymia
Molly H. Nadel, B.A.¹, Jumi Hayaki, Ph.D.², Noah C. Berman, Ph.D.², 1. Home Base, Massachusetts General Hospital, 2. College of the Holy Cross

(PS12-C55) Clinician Opinions: Perceived Utility of and Barriers to Incorporating Pre-treatment Ecological Momentary Assessment into Clinical Care
Peter D. Soyster, M.A., Aaron J. Fisher, Ph.D., University of California, Berkeley

(PS12-C56) Early Predictors of Treatment Nonresponse in Dialectical Behavior Therapy
Qingqing Yin, M.S., Molly Stern, B.A., Shireen L. Rizvi, ABPP, Ph.D., Rutgers University, The State University of New Jersey

(PS12-C57) Nondisruptive Technologies’ Potential for Enhancing Mental Health Treatment: A Case Study
Shiri Sadeh-Sharvit, Ph.D.¹, Steven D. Hollon, Ph.D.², 1. Center for m2Health, Palo Alto University and Eleos health, 2. Vanderbilt University

(PS12-C58) Examining Prior Experiences of Cybervictimization as a Predictor for Prosocial Bystander Attitudes Towards Cyberbullying
Elisa Liang, B.A.¹, Emily R. Kutok, B.S., B.A.¹, Shira Dunsiger, Ph.D.², Megan Ranney, M.P.H., M.D.³, 1. Brown-Lifespan Center for Digital Health, 2. Brown University, 3. Alpert Medical School of Brown University

(PS12-C59) Impact of Comorbidity on Treatment Outcomes in Patients with Emotional Disorders
Jorge Osma, Ph.D.¹, Óscar Peris-Baquero, M.S.¹, Laura Martínez-García, M.S.¹, Maria Vicenta Navarro-Haro, Ph.D.¹, Vanesa Ferreres-Galán², Alba B. Quilez-Orden¹, 1. Universidad de Zaragoza, 2. Universidad de Zaragoza; Instituto de Investigación Sanitaria de Aragón; Hospital Comarcal de Vinaròsl

(PS12-C60) Limiting Time on Social Media Helps Reduce Depression, but Muting Strangers Further Reduces FOMO and Social Comparison
Melissa G. Hunt, Ph.D., Elisa Xu, Alissa Fogelson, Julia Rubens, University of Pennsylvania
(PS12-C61) Increase Relatedness Satisfaction Through Daily Journaling
Chan N. To, B.A., Anthony H. Ahrens, Ph.D., American University

(PS12-C62) Ruminating on Depressive Symptoms Predicts Transdiagnostic Remission When Controlling for General Rumination and Affect
Bryanna K. Mackey, Lucas S. LaFreniere, Ph.D., Skidmore College

(PS12-C63) An Adapted Dialectical Behavior Therapy Skills Program: A Case Series
Joelle Lim, M.A.1, Michelle Y. Tan, PsyM², Rie Kubota, Ph.D.1, 1. Institute of Mental Health, Singapore, 2. Institute of Mental Health, Singapore; James Cook University, Singapore

(PS12-C64) Within-person Changes in Aversive Reactivity Predict Session-to-session Reductions in Anxiety and Depression in the Unified Protocol
Stephen A. Semcho, M.A., Matthew W. Southward, Ph.D., Shannon Sauer-Zavala, Ph.D., University of Kentucky

(PS12-C65) The Efficacy of the Unified Protocol in Treating Borderline Personality Disorder
Martina Fruhbauerova, B.S., Shannon Sauer-Zavala, Ph.D., University of Kentucky

(PS12-C66) The Rapid Delivery of DBT Skills: A Two-week Group Intensive Outpatient Program
Benjamin D. Johnides, Ph.D.¹, Molly Friedel, B.S.¹, Ethan Chee, B.S.¹, Alexandra P. Bishop, B.A.¹, David H. Rosmarin, ABPP, Ph.D.², 1. Center for Anxiety, Brooklyn, NY, 2. Harvard Medical School

(PS12-C67) Cyberstalking: Gender Differences and Correlations with Externalizing Personality Traits
Krystal A. Ervin, M.S., Sean A. Lauderdale, Ph.D., Texas A&M University Commerce

(PS12-C68) Virtual Self-compassion Training Reduces Negative Affect and Bedtime Procrastination

(PS12-C69) Preliminary Findings for the Feasibility of the Telehealth Delivery of Unified Protocol for Transdiagnostic Treatment of Emotional Disorders in Children and Adolescents
Ashley R. Karlovich, B.A., Elizabeth Halliday, B.S., Hannah Grassie, B.A., Jill Ehrenreich-May, Ph.D., University of Miami

(PS12-C70) Clinical Characteristics and Outcomes of Anxious-depressed versus Anxious-only Youth in the Context of a Transdiagnostic Intervention Study
Felix Angulo, B.A.¹, Pauline Goger, M.S.², V. Robin Weersing, Ph.D.¹, 1. San Diego State University, 2. San Diego State University /University of California San Diego Joint Doctoral Program in Clinical Psychology

(PS12-C71) Emotion Regulation and Clinical Profile of People with Borderline Personality Disorder and Comorbid Eating Disorders: Does the Type of Eating Behavior Matter?
María Vicenta N. Navarro Haro, Ph.D.¹, Carlos Suso Ribera, Ph.D.², Azucena García-Palacios, Ph.D.², 1. University of Zaragoza, Spain, 2. Jaume I University
(PS12-C72) What’s the Process in Processing?: Linguistic Analysis of Cohesiveness During COPE Therapy for PTSD and Substance Use Disorders
Erin M. Gandelman, M.S.,1 Elliot Borge, B.A.,1 Therese Killeen, Ph.D.,2 Elizabeth J. Santa Ana, Ph.D.,2 Steven A. Miller, Ph.D.,1 Sudie E. Back, Ph.D.,2 1. Rosalind Franklin University of Medicine and Science, 2. Medical University of South Carolina

Poster Session 12D

(PS12-D73) Influence of Depression and Other Factors on Treatment Decisions About Other Health Conditions
Kalpana Sundaram, M.S.,1 Laura Dunn, M.D.,2 Ricardo F. Munoz, Ph.D.,1 Yan Leykin, Ph.D.,1 1. Palo Alto University, 2. Stanford University

(PS12-D74) Summer Seasonal Affective Disorder: A Systematic Review of Prevalence and Epidemiological Predictors
Emily J. Casteen, B.S., Stephanie E. Punt, M.A., Annaleis K. Giovanetti, M.A., Stephen S. Iardi, Ph.D., University of Kansas

(PS12-D75) Comparison of PCIT for Children with and Without Autism in a Private Practice with Community-based Providers
Robin Han, M.S.,1 Suzi Naguib, Psy.D.,2 Christopher K. Owen, B.S., M.S.,1 Lindsay R. Druskin, B.A.,1 Erin J. Victory, B.A.,1 Kelsey R. Keen, Rachel L. Piper, LCSW,2 Samantha N. Holbert,1 Sophia Shank,1 Cheryl B. McNeil, Ph.D.,1 1. West Virginia University, 2. Sunfield Center

(PS12-D76) Sexual Assault History, Emotion Dysregulation, Substance Use, and Internal and External Sexual Consent: A Path Model
Stephanie B. Ward, B.A.,1 Kate Walsh, Ph.D.,1 Sarah Lowe, Ph.D.,2 1. University of Wisconsin, Madison, 2. Yale School of Public Health

(PS12-D77) Need to Be Wanted and Safe: Early Maladaptive Cognitions Associated with Cyber Psychological Abuse Perpetration Post Break-up

(PS12-D78) Family Processes Operating at Previously Unknown Within-day Level: Using Ecological Momentary Assessment to Capture Effects of Peers and Family Relationships on Internalizing Affect
James L. Huettig, B.A., Alexandra Rodman, Ph.D., John Flournoy, Ph.D., Katie A. McLaughlin, Ph.D., Harvard University

(PS12-D79) Profiles of Asocial Behavior Among Low Income, Urban Youth
Abbey L. Friedman, B.S., George O. Emory, Deborah A. Drabick, Ph.D., Temple University

(PS12-D80) An Evaluation of the Multidimensional Group Fidelity Scale – Provider (MGFS-P) for Act & Adapt
Jesus E. Solano, M.A., Sofia Sytniak, B.S., Amber Ramos, B.A., Laura Saldana, B.A., Haedy Gorostieta, B.A., Antonio Polo, Ph.D., DePaul University
(PS12-D82) Interpersonal Emotion Regulation and Strategy Selection: The Role of Efficacy and Goals
Kelsey J. Pritchard, Ph.D., Peter G. Mezo, Ph.D., University of Toledo

(PS12-D84) Rising Temporal Autocorrelation in Affect Is Associated with Future Worsening in Depression: A Dynamical Systems Approach
Joshua E. Curtiss, Ph.D.1, Szymon Fedor, Ph.D.2, Rosalind Picard, Ph.D.2, Paola Pedrelli, Ph.D.1, 1. Massachusetts General Hospital, 2. Massachusetts Institute of Technology

(PS12-D85) Co-brooding and Co-reflection: Risk and Protective Factors for Depression Risk
Jessica Balderas, M.A., Rick Ingram, Ph.D., University of Kansas

(PS12-D86) Unemployment Status and Employment Related Stress on Depression and Anxiety Symptomatology in the Context of COVID-19
Grace N. Martin, Kathleen E. Kildosher, Danielle L. Hoyt, M.A., Teresa Leyro, Ph.D., Samantha G. Farris, Ph.D., Rutgers University

(PS12-D87) Multi-faceted Examination of Depression: How Positive Affect Regulation and Camouflaging Are Related
Madison N. Beedon, B.A.1, Courtney J. Bernardin2, Debra J. Bell, Ph.D.2, 1. Miami University, 2. University of Missouri

(PS12-D88) Examining the Predictive Value of Early Symptom Change in CBT for Depression

(PS12-D89) Likelihood of Depression Among Individuals with a Substance Abuse Disorder, with Implications for the Criminal Justice System
Bianca Castellano, B.A., Craig D. Marker, Ph.D., Mercer University

(PS12-D90) Sex Differences in Patients with Chronic Pain Undergoing Multidisciplinary Pain Rehabilitation: A Systematic Review
Lindsay G. Flegge, Ph.D., LCSW, Eric Lake, M.A., Julia R. Craner, ABPP, Ph.D., Carnegie Truesdale, ABPP, Psy.D., Mary Free Bed Rehabilitation Hospital

(PS12-D91) Should Discharge Be Collaborative? Assessing Fixed and Flexible Discharge Dates in an Intensive Outpatient Program
Craig A. Warlick, Ph.D.1, Jonathan Poquiz, Ph.D.2, Rheanna L. Standridge, B.S.1, Jonathan Huffman, M.A.3, Leslie DeLong, Ph.D.4, Juliet Nelson, Ph.D.5, 1. University of Southern Mississippi, 2. Lurie Children’s Hospital of Chicago, 3. University of Kansas, 4. Private Practice, 5. DBT Center of Lawrence

(PS12-D92) Mentalizing Imagery Therapy Promotes Connectedness to Nature and Reduces Depression: Secondary Analysis of a Randomized Controlled Trial
Ashley K. Meyer, B.A.1, Liliana A. Ramirez Gomez, M.D.1, Maren B. Nyer, Ph.D.1, Richard Liu, Ph.D.1, Hitoshi Sakurai, M.D., Ph.D.2, David Mischoulon, M.D., Ph.D.1, Joseph A. Zamaria, Psy.D.3, Simmie Foster, M.D., Ph.D.4, Emma R. Hayden, B.S.2, Paola Pedrelli, Ph.D.1, Felipe Jain, M.D.6, 1. Massachusetts General Hospital, 2. Kyorin University School of Medicine, 3. University of California, San Francisco, 4. Harvard Medical School, 5. McLean Hospital, 6. Harvard Medical School / Massachusetts General Hospital
POSTER SESSION 13

Poster Session 13A

Key Words: Addictive Behaviors, Adult, College Students

(PS13-A1) Differential Impact of Alcohol and Marijuana Use Among College Students During the COVID-19 Pandemic
Margaret A. Caruso, M.S., Alyson L. Futral, Christopher J. Correia, Ph.D., Auburn University

(PS13-A2) Intimate Relationship Functioning and Prevalence of Psychopathology in African American and Caribbean Black Adolescents
Bailey A. Steele, B.A., Aerin Scoles, B.A., Mark A. Whisman, Ph.D., University of Colorado Boulder

(PS13-A3) Examining the Association Between Post-traumatic Stress Disorder and Relationship Satisfaction Among First Responders: The Mediating Role of Emotion Dysregulation
Donald A. Godfrey, III, M.A., Maya Zegel, M.A., Julia Babcock, Ph.D., Anka A. Vujanovic, Ph.D., University of Houston

(PS13-A5) Which Depressive Symptoms Are Valued Most? An Assessment of Subjective Importance Ratings of PHQ-9 Items with Indian Adolescents
Emma H. Palermo¹, Eirini Zoupou¹, Akash Wasil, M.A.¹, Sarah Gillespie, B.A.², Suh Jung Park, B.A.³, Robert J. DeRubeis, Ph.D.¹, 1. University of Pennsylvania, 2. University of Minnesota, 3. University of Missouri, Columbia

(PS13-A6) Measuring Excessive Reassurance Seeking in Adolescents and Evaluating Its Role in Perceptions of Parenting and Anxiety
Sarah E. Francis, Ph.D., Mackenzie A. Trevethan, University of Toledo

(PS13-A7) Associations Between Perceived Stress and White Matter Tract Integrity in Trauma Exposed Women with and Without PTSD
Taryn Fitzgerald, B.A., Steven E. Bruce, Ph.D., University of Missouri, St. Louis

(PS13-A8) Cancer Stage at Diagnosis Moderates the Relationship Between Depression and Physical Activity in Cancer Survivors
Pallavi V. Babu, M.A., Alex H. Buhr, M.A., Rachel A. Bond, B.A., Jason C. Levine, Ph.D., University of Toledo

(PS13-A9) The Importance of Oral Language in Youth’s Academic Achievement
Paige N. Picou, B.S., Paige F. Adenuga, B.S., Thompson E. Davis, III, Ph.D., Louisiana State University
(PS13-A10) Posttraumatic Stress Disorder Symptom Severity and Substance Use Risk During Romantic Conflict: The Roles of Emotion Regulation Difficulties and Communication
Ariana G. Vidaña, M.A., Anna C. Barbano, B.S., Kayla M. Scamaldo, M.A., Kim L. Gratz, Ph.D., Matthew T. Tull, Ph.D., University of Toledo

(PS13-A11) Migraine in College Students: Examining the Role of Emotion Dysregulation
Patricia J. Mejia, B.S., Michael J. McDermott, Ph.D., University of Louisiana at Lafayette

(PS13-A12) Does Social Disadvantage Predict Access to General Counseling Services and Do These Services Mediate Subsequent Adult Arrest in Externalizing Youth? Lessons from the ADD Study
Cameron M. Perrine, M.A., Ana J. Bridges, Ph.D., University of Arkansas

(PS13-A13) Utility of the CBCL as a Predictor of Autism-related Behaviors
Jessica V. Smith, B.S., Kimberly Schauder, Ph.D., Alyssa D. Verbalis, Ph.D., Anna Chelsea Armour, M.A., Lauren Kenworthy, Ph.D., Center for Autism Spectrum Disorders, Children’s National Hospital

(PS13-A14) The Impact of Depression on Stress Coping Strategies Following Decreased Sleep
Feven Fisseha, B.A., Amanda Chue, Ph.D., Kathleen C. Gunthert, Ph.D., American University

(PS13-A15) Therapists’ Perceptions of Self-disclosure as a Function of Their Clinical Experience, Therapeutic Orientation, and Contextual Factors: A Mixed Design
Antigoni Kotsiou, M.A., Barber National Institute

(PS13-A16) The Impact of Shared Decision Making on Treatment Engagement in Youth with Post-traumatic Stress

(PS13-A17) Borderline Personality Disorder Symptoms Account for the Association Between Social Anxiety and Cannabis Use Problems
Katherine A. McDermott, M.S., Jesse R. Cougle, Ph.D., Florida State University

(PS13-A18) More Than One Way out of the Closet: Denying Linear Models of LGB Identity Development
Camron J. Williams, Sara E. Roles, B.S., David T. Solomon, Ph.D., Western Carolina University

(PS13-A19) The Role of Liability Considerations in Mental Health Clinicians’ Treatment of Suicidal Patients
Rocky B. Marks, B.A., YuChin Lin, M.S., Nicole L. Moreira, M.A., Katherine L. O’Connell, M.S., Keyne C. Law, Ph.D., Seattle Pacific University

(PS13-A20) Investigating the Moderating Role of Social Support in the Relationship Between Perceived Stress and Suicidal Ideation History, Recency, and Frequency
Anne C. Knorr, B.A., Brooke Ammerman, Ph.D., University of Notre Dame
(PS13-A21) Experiential Avoidance, Emotional Resilience, and Help-seeking Among University Students
Jennifer L. Barinas, M.A., Ryon McDermott, Ph.D., University of South Alabama

(PS13-A22) Principal Component Analysis of the Verbal and Physical Bullying Scale for Latinx Youth
Guadalupe Gutierrez, M.A., Susan M. Swearer, Ph.D., Raul A. Palacios, II, Ed.S., Cesar A. Torres Mulgado, M.A., University of Nebraska, Lincoln

(PS13-A23) Emotion Regulation Mediates the Relation Between Interpretation Biases and Psychopathology in an Adolescent Inpatient Sample
Elizabeth M. Raines, M.A., Erika S. Trent, M.A., Haley E. Conroy, B.A., Karina Silva, B.A., Andres G. Viana, ABPP, Ph.D., University of Houston

(PS13-A24) The Role of Dissociation on the Association Between Sexual Victimization and Emotion Dysregulation
Haley R. Church, B.A.¹, Shauna A. Kumar, M.A.¹, Terri L. Messman, Ph.D.², Kim L. Gratz, Ph.D.³, David DiLillo, Ph.D.¹, 1. University of Nebraska, Lincoln, 2. Miami University, 3. University of Toledo

(PS13-A25) The Impact of Adverse Childhood Experiences on Adults’ Reactions to the COVID-19 Pandemic
David T. Solomon, Ph.D., Sloan White, Cathy Grist, Ph.D., Western Carolina University

Poster Session 13B

Key Words: LGBTQ+, Trauma, Violence / Sexual Assault

(PS13-B26) Social Support as a Buffer of the Association Between Sexual Assault and Trauma Symptoms Among Transgender and Gender Diverse Individuals
Lauren Grocott, B.A.¹, Thomas E. Schlechter, B.A.¹, Shannon Wilder, Ph.D.², Christine A. Gidycz, Ph.D.³, Ryan C. Shorey, Ph.D.¹, 1. University of Wisconsin, Milwaukee, 2. Eastern Kansas VA, 3. Ohio University

(PS13-B27) Parental Experience Implementing Evidence-based Encopresis Treatment: Where We Are and Where We Can Go
Elise Cohen, Psy.D., Hilary B. Vidair, Ph.D., Faithlynn Morris, M.A., M.S., Megan Moxey, M.A., M.S., LIU Post

(PS13-B28) Construct Validity of the Adult, Rejection Sensitivity Questionnaire
Kayla A. Lord, M.S., Michael Suvak, Ph.D., Gabrielle I. Liverant, Ph.D., Suffolk University

(PS13-B29) Everyday LGBTQ+ Family Conversations Among LGBTQ+ Youth: A Qualitative Thematic Analysis
Colin Tidwell, B.A.¹, Deanna M. Kaplan, Ph.D.², Janine Galione, Ph.D.³, Nicole Nugent, Ph.D.³, Matthias R. Mehl, Ph.D.¹, 1. University of Arizona, 2. Brown University, 3. Rhode Island Hospital/Alpert Medical School of Brown University, 4. Brown University Med School
(PS13-B30) Who Looks on the Bright Side? Optimism of Low-income Parents with a Clinic-referred Young Child

Kat L. Wright¹, Alexandra Sullivan, B.S.², Nicole Breslend, Ph.D.², April Highlander, M.A.³, Rex Forehand, Ph.D.², Deborah J. Jones, Ph.D.³, ¹. University of Kentucky, 2. University of Vermont, 3. University of North Carolina at Chapel Hill

(PS13-B31) Preliminary Investigation of the Relationship Between Internalized Stigma, Experiential Avoidance, and Suicidal Thoughts and Behaviors in College Students

Maya Nauphal, M.A.¹, Nicole D. Cardona, M.A.², Vinushini Arunagiri, Ph.D.³, Erin F. Ward-Ciesielski, Ph.D.², ¹. Center for Anxiety and Related Disorders, Boston University, 2. Boston University, 3. McLean Hospital

(PS13-B32) Suicide Risk & Psychiatric Symptoms Among post-9/11 Justice-involved Veterans

Blake Martin, M.A.¹, Ryan Holliday, Ph.D.², Claire A. Hoffmire, Ph.D.², Rani Hoff, Ph.D.³, Lindsey Monteith, Ph.D.², ¹. UT Southwestern Medical Center & VA North Texas Health Care System, 2. Rocky Mountain Mental Illness Research, Education and Clinical Center, 3. Yale University School of Medicine, Department of Veterans Affairs

(PS13-B33) The Competencies in Cognitive Therapy Scale – 10: A Brief Measure of Cognitive Therapy Skills for Use in Research and Clinical Practice

Samuel T. Murphy, M.A., Daniel R. Strunk, Ph.D., The Ohio State University

(PS13-B34) Assessing the Four-factor Structure of the Personality Assessment Inventory – Borderline Features (PAI-BOR) Scale for LGB Individuals

Daniel S. Brunette, B.A., Logan M. Wahl, B.A., Jennifer S. Cheavens, Ph.D., The Ohio State University

(PS13-B35) Eveningness Chronotype Associated with Trait Mindfulness Among Adolescents with ADHD: A Pilot Study

Jessica R. Lunsford-Avery, Ph.D., Naomi Ornstein Davis, Ph.D., John T. Mitchell, Ph.D., Duke University Medical Center

(PS13-B36) Changes in Behavioral Inhibition in Response to Cognitive Behavioral Therapies in a Sample of Adults with Anxiety Disorders

Lauren S. Woodard, B.A.¹, Erin F. Ward-Ciesielski, Ph.D.², Todd J. Farchione, Ph.D.², David H. Barlow, ABPP, Ph.D.¹, ¹. Boston University Center for Anxiety and Related Disorders, 2. Boston University

(PS13-B37) Revisiting Suicide Screening – Why Some Attempters Can Be Missed?

Eric Uhl, B.A.¹, Haley Raybin, B.A.¹, Ricardo F. Munoz, Ph.D.¹, Nancy H. Liu, Ph.D.², Suzanne Barakat, M.D.³, Monica Garza, Ph.D.⁴, Yan Leykin, Ph.D.¹, ¹. Palo Alto University, 2. University of California, Berkeley, 3. University of California, San Francisco, 4. Legacy Community Health

(PS13-B38) Subjective Well-being Before and After Cognitive Behavioral Treatment for Emotional Disorders: Differences Between Majority and Minority Ethnoracial Groups

Nicole D. Cardona, M.A.¹, Erin F. Ward-Ciesielski, Ph.D.¹, Maya Nauphal, M.A.², Jacqueline R. Bullis, Ph.D.³, Todd J. Farchione, Ph.D.¹, ¹. Boston University, 2. Center for Anxiety and Related Disorders, Boston University, 3. McLean Hospital/Harvard Medical School
(PS13-B39) Which Evidence-based Content Is Best Suited for Brief Online Interventions? Comparing the Acceptability and Perceived Utility of Modules in the Common Elements Toolbox (COMET)
Joshua S. Steinberg, None, Akash Wasil, M.A., Robert J. DeRubeis, Ph.D., University of Pennsylvania

(PS13-B40) Associations Between Sexual and Gender Minority Identity and PTSD Symptom Clusters Among Veterans Seeking Military Sexual Trauma-related Treatment
Autumn Rae Florimbio, Ph.D.¹, Travis A. Rogers, M.S.², Jennifer D. Wong, Ph.D.³, Diana C. Bennett, Ph.D.¹, Madeleine S. Goodkind, Ph.D.³, Minden B. Sexton, Ph.D.¹, 1. Ann Arbor Veterans Healthcare System, 2. Auburn University, 3. New Mexico VA Health Care System

(PS13-B41) Predictors of Parenting Sense of Competence for Fathers During COVID-19
Lauren B. Jones, M.A., Nicole Baumgartner, B.A., Natalee N. Price, M.A., Elizabeth J. Kiel, Ph.D., Miami University

(PS13-B42) Parent Verbosity and Verbal Aggression Moderate Parent and Child Stress During the COVID-19 Pandemic
Kate L. Senich, B.S., Li Shen Chong, M.A., Elana Gordis, Ph.D., University at Albany, State University of New York

(PS13-B43) Effects of the Managing Frustration for Children (MFC) with ADHD Group Intervention on Functional Impairment over Time: An Open Trial
Helena F. Alacha, M.A., The University of Louisville

(PS13-B44) The Effect of Maternal Childhood Trauma on Child Internalizing Symptoms: The Mediating Roles of Postpartum Depressive Symptoms and Maternal Sensitivity
Taryn Henning, B.S., Sarah G. Curci, M.A., Juan C. Hernandez, B.A., Linda Luecken, Ph.D., Marisol Perez, Ph.D., Arizona State University

Craig A. Warlick, Ph.D.¹, Rachel Lawrence, M.S.¹, Mary Parker Raley¹, Niusha Karki¹, Abby Armstrong, M.S.¹, Tristan P. Patterson, M.S.², Aaron Van Gorp, Ph.D.³, Nicole Farmer, Ph.D.⁴, 1. University of Southern Mississippi, 2. University of Kansas, 3. University of Missouri, 4. Southern Arizona VA Health Care System

(PS13-B47) A Culturally Informed, Religiously-based, Cognitive-behavioral Mental Health Treatment for Serious Mental Illness
Zachary Galasi, B.A., Daisy Lopez, M.S., Merranda McLaughlin, B.A., Amy Weisman de Mamani, Ph.D., University of Miami

(PS13-B48) Fitspiration vs Self-compassion: Impact of Social Media Posts on Body Satisfaction, Self-esteem, and Exercise Motivation
Allison R. Ludwig, B.A., Bridget A. Hearon, Ph.D., Albright College
(PS13-B49) All in This Together: The Impact of Gender, Ethnicity, and Social Support Informing the Relationship Between Relative Deprivation on Psychiatric Symptoms  
Roselee J. Ledesma, M.A., Linda E. Guzman, M.A., Ana J. Bridges, Ph.D., University of Arkansas

(PS13-B50) Exploring the Association Between Eating Disorder Symptoms, Stress, and COVID-19 Anxiety  
Gina M. Belli, B.A., Clara Law, M.A., Christina L. Boisseau, Ph.D., Northwestern University Feinberg School of Medicine

Poster Session 13C

Key Words: School, Child, Vulnerable Populations

(PS13-C51) Disciplinary Removals of Specific Disability Categories in Public Schools: A National Trend  
Kelli R. Lahman, B.S., Sean A. Lauderdale, Ph.D., Texas A & M University Commerce

(PS13-C52) Interactive Effects of Adverse Childhood Experiences and Parental Acceptance on Youth Behavioral Health  
Kristina M. Perry, B.A., Alicia M. Chunta, B.A., George J. DuPaul, Ph.D., Lehigh University

(PS13-C54) Brief, Group-based Behavioral Parenting Training Delivered Through Telehealth: Evidence for Preliminary Efficacy  
Jacob Holzman, Ph.D.¹, Erica L. Gleason, M.A.², Jillian Talley, M.A.², 1. University of Colorado Anschutz Medical Campus, 2. University of Denver

(PS13-C55) Does Teacher Self-efficacy Regarding Anti-bullying Interventions Moderate the Relation Between Peer Victimization and Internalizing Symptoms?  
Megan R. Kozak, Jasmine Blake, Jake C. Steggerda, M.A., Meredith J. Scafe, M.S., MSW, Timothy A. Cavell, Ph.D., University of Arkansas

(PS13-C56) New Normative Cut-off Scores for the Strengths and Difficulties Questionnaire Predict Youth Strength Profiles  
Marina M. Matsui, B.S., Holly R. Turner, M.A., Amanda M. Vincent, M.A., Brad Nakamura, Ph.D., University of Hawai’i at M‘noa,

(PS13-C57) Associations Between Adult Cognitive Functioning and Age of Cannabis Use Onset  
Dominick F. DeMarsico, B.S., Nadia Bounoua, M.A., Naomi Sadeh, Ph.D., University of Delaware

(PS13-C58) The Onset, Duration, and Trajectory of Traumatic Events in Autistic Individuals: A Qualitative Exploration of Self and Caregiver Perspectives  
Hira Peracha, B.A., Anika Rai, B.A., Elise Ng-Cordell, B.A., Connor M. Kerns, Ph.D., University of British Columbia

(PS13-C59) The Relationship Between Depression and Subjective Heart Attack Risk: Autonomy as a Moderator  
Diana J. Cox, B.S., M.A., Kathleen C. Gunthert, Ph.D., American University
(PS13-C60) Peer Relationships Sometimes Overtake Family in Predicting Internalizing Symptoms: Directly Testing Differential Interpersonal Impacts at Between- and Within-person Levels
James L. Huettig, B.A., Alexandra Rodman, Ph.D., John Flournoy, Ph.D., Katie A. McLaughlin, Ph.D., Harvard University

(PS13-C61) Characterizing Patterns in Individual Differences in Trait Emotion Regulation Using Machine Learning
Colin M. Bosma, M.A., Neil Rafferty, Emily A. Haigh, Ph.D., University of Maine

(PS13-C62) Social Anxiety Mediates the Relationship Between Atypical Social Communication and Reciprocal Friendships in ASD
Nardin Yacoub, M.S.¹, Rachel G. McDonald, M.S.¹, Eden Fowler-Benton, B.A.¹, Matthew D. Lerner, Ph.D.², Erin Kang, Ph.D.¹, 1. Montclair State University, 2. Stony Brook University

(PS13-C63) Personality Expression Around Close Others in Daily Life: How Personality Dimensions Predict Negative Affect in Community Control Individuals and Those with Borderline Personality Disorder
Skye C. Napolitano, M.A.¹, Sean Lane, Ph.D.¹, Tim Trull, Ph.D.², 1. Purdue University, 2. University of Missouri

(PS13-C64) Investigating Emotion Constraint Beliefs as an Index of Emotion Control in Daily Life
Jeremy B. Clift, B.A.¹, Kayla D. Skinner, Ph.D.², Jennifer C. Veilleux, Ph.D.¹, 1. University of Arkansas, 2. University of Missouri, Saint Louis

(PS13-C65) The Moderating Role of Emotional Dysregulation on the Efficacy of the Unified Protocol to Reduce Neuroticism in People with Emotional Disorders
Jorge Osma, Ph.D., Óscar Peris-Baquero, M.S., Laura Martínez-García, M.S., María Vicenta Navarro-Haro, Ph.D., Universidad de Zaragoza

(PS13-C66) Intentions to Reduce Alcohol Use Following Brief Alcohol-related Health Messages
Susanna V. Lopez, M.S., Emily Warner, B.A., Delaney Dunn, M.S., Thad Leffingwell, Ph.D., Oklahoma State University

(PS13-C67) Attention-deficit/hyperactivity Disorder and Psychological Need Satisfaction and Frustration in College Students
Judah W. Serrano, M.S.¹, Tamara M. Abu-Ramadan, M.A.¹, John M. Vaska, M.S.¹, Will H. Canu, Ph.D.², Elizabeth K. Lefler, Ph.D.³, Cynthia M. Hartung, Ph.D.³, 1. University of Wyoming, 2. Appalachian State University, 3. University of Northern Iowa

(PS13-C68) Factors Associated with College Students’ COVID-19 Personal Protective Behaviors
Allison B. Duncan, B.A., Madison Crowder, B.S., Susan L. Kenford, B.A., M.A., Ph.D., Xavier University

(PS13-C69) Perceived and Measured Empathy in Individuals with Positive and Negative Schizotypy
Anne E. Werkheiser, B.A., Erin B. Tone, Ph.D., Georgia State University
(PS13-C71) Behavioral Strategies: Impact on Quality of Life & Relationships in College Students with ADHD

**Poster Session 13D**

Key Words: PTSD (Posttraumatic Stress Disorder), Child

(PS13-D72) Post-traumatic Stress Disorder in a National Sample of Preadolescent Children: Prevalence, Correlates, Clinical Sequelae, and Treatment Utilization
Rachel Y. Levin, B.A.¹, Richard Liu, Ph.D.², 1. Massachusetts General Hospital and Harvard Medical School, 2. Massachusetts General Hospital

(PS13-D73) Demographic Characteristics, Mental Health Conditions, and Psychotherapy Use of Veterans in Couples and Family Therapy
Grace Boyers McKee, Ph.D.¹, Scott McDonald, Ph.D.², Mina Ghatas, M.S.², Amol Karmarkar, Ph.D.³, 1. San Francisco VA Medical Center, 2. Central Virginia VA Medical Center, 3. Virginia Commonwealth University

(PS13-D74) Maternal Support and Caregiver-child Symptom Concordance Among Sexually Abused Children
Rachel Wamser, Ph.D., Claudia Campbell, B.A., University of Missouri, St. Louis

(PS13-D75) Depressive Realism, Attributional Style, and Response to a Negative Mood Induction
Sayde L. Ackerman, M.A., Fernando Krause, M.A., Zoren Degtyarev, B.S., Michael T. Moore, Ph.D., Adelphi University

(PS13-D76) Within-persons Associations of Relationship Quality with Mental Health and Substance Use Among Sexual and Gender Minorities Assigned Female at Birth
Elissa L. Sarno, Ph.D.¹, Christina Dyar, Ph.D.¹, Michael E. Newcomb, Ph.D.², Sarah W. Whitton, Ph.D.³, 1. Northwestern University Feinberg School of Medicine, 2. Northwestern University, 3. University of Cincinnati

(PS13-D77) Cyber Dating Abuse Victimization Among Latinx College Students
Mariany G. Gainza Perez, B.S., Andrea Rodriguez-Crespo, B.S., Neida Amador, B.A., Sandra Sierra, Marcos Lerma, B.S., Theodore V. Cooper, Ph.D., The University of Texas at El Paso

(PS13-D78) Veteran PTSD Symptomology & Partner Parenting Practices Among Veteran Couples Seeking Couple-based PTSD Treatment
(PS13-D79) Perceived Sleep Quality: Strengthening the Relation Between Anxiety Sensitivity and Trauma Symptoms
Saankari A. Challa, M.A., Steven E. Bruce, Ph.D., University of Missouri, St. Louis

(PS13-D80) Social Support as a Protective Factor for Adversity and Psychosocial Adjustment in At-risk Youth
Zachary Wilde, B.S.¹, Christopher T. Barry, Ph.D.², Stephanie D. Smith, Ph.D.¹, Joshua Underwood, B.S.², 1. University of Southern Mississippi, 2. Washington State University

(PS13-D81) Evaluation of the Factor Structure, Stability, and Validity of the COVID-19 Stress Scales
David L. Yap, M.A., Evelyn Behar, Ph.D., Hunter College, City University of New York

(PS13-D82) Associations Between COVID-19 Exposure and PTSD Symptoms in Children with Interpersonal Trauma
Maddi Gervasio, B.S., Danielle S. Citara, M.A., Sophia Miller, B.A., Emma Joseph, Komal Sharma-Patel, Ph.D., Elissa J. Brown, Ph.D., St. John’s University, Child HELP Partnership

(PS13-D83) Emotion Regulation as a Predictor of Improvement in Functional Impairment and PTSD Symptom Severity During Treatment – Data from Webstair
Jessilyn M. Froelich, M.S., Danielle M. Morabito, Sarah Speicher, M.S., Marylene Clotire, Ph.D., National Center for PTSD

(PS13-D84) The Development of New Disorders After Remission: Effortful Control as a Transdiagnostic Predictor
Bryanna K. Mackey, Lucas S. LaFreniere, Ph.D., Skidmore College

(PS13-D85) Attention Problems and Restlessness Are Prevalent in Youth with Internalizing Problems and Predict Response to CBT
Madison Aitken, Ph.D., Brendan F. Andrade, Ph.D., Centre for Addiction and Mental Health

(PS13-D86) Using Mindfulness to Improve Emotion Regulation and Conflict De-escalation in Law Enforcement Officers
Maren Westphal, Ph.D.¹, Qalvy Grainzvolt, M.S.², 1. Pace University, 2. Port Chester Police Department

(PS13-D87) Mindfulness Sub-facets Differentially Mediate the Relationship Between Adverse Childhood Experiences (ACEs) and Cannabis Use Severity
Lexi Kearns, B.S.¹, Elizabeth Gillooly, B.S.¹, Mikaela Armao¹, John Walsh¹, Daniel R. Loomis, M.A.², Michael J. Gawrysiak, Ph.D.², Zachary Getz, M.A.², 1. West Chester University, 2. West Chester University of Pennsylvania

(PS13-D88) Does Adherence to Cognitive Behavioral Therapy for Insomnia Predict Outcomes?
Kelly N. Kim, B.S.¹, Jessica R. Dietch, Ph.D.², Daniel J. Taylor, Ph.D.¹, 1. University of Arizona, 2. Oregon State University

(PS13-D89) Increasing Acceptability of Internet-based Cognitive Behavioral Therapy During the COVID-19 Pandemic Using a Treatment Rationale
Anthony Molloy, M.A., Donovan Ellis, M.A., Langting Su, M.A., Page Anderson, ABPP, Ph.D., Georgia State University
(PS13-D90) A Preliminary Examination of the Parenting Attitudes and Behaviors Survey: A Measure Designed to Examine Anxiogenic Parenting Practices in Food Allergy
Ashley A. Lahoud, B.A.1, Christopher A. Flessner, Ph.D.1, Emily P. Wilton, M.A.1, Anna K. Luke, M.A.2, Theresa R. Gladstone, B.A.1, Sydney D. Biscarri Clark, B.S.1, 1. Kent State University, 2. Boston Children’s Hospital

(PS13-D91) Perceived Control as Protection: The Association Between Locus of Control and Emotion Reactivity in a College Student Sample

(PS13-D92) Shared and Unique Maintenance Factors of Comorbid Eating Disorder-anxiety Symptoms in Female Adolescents
Leigh C. Brosos, M.S., Betty Ngo, Cheri A. Levinson, Ph.D., University of Louisville

(PS13-D93) Understanding the Perspectives of Indian College Students on Mental Health on College Campuses
Tanvi Malhotra, B.A.1, Nivedita Nandakumar, B.A.1, Nandita Tuteja, B.A.1, Akash R. Wasil, M.A.1, Avantika Bhatia, Ph.D.1, Robert J. DeRubeis, Ph.D.2, 1. Ashoka University, India, 2. University of Pennsylvania

(PS13-D94) Factor Structure and Convergent Validity Analyses for the Distress Tolerance Scale
Erick A. Rogers, M.A.1, Andrew J. Freeman, Ph.D.2, 1. University of Nevada, Las Vegas, 2. State of Nevada Division of Child and Family Services

(PS13-D95) Adolescent Self-injury Functions and Suicide: Examining the Role of Romantic Stress
Genesis Vergara, M.A.1, David A. Jobes, Ph.D.1, Amy M. Brausch, Ph.D.2, 1. The Catholic University of America, 2. Western Kentucky University

(PS13-D96) Examining Stigma Towards Someone Engaging in Nonsuicidal Self-injury: The Roles of Lived Experience and Bisexuality

(PS13-D97) Adolescents’ Exposure to Suicide Death: An Exploration of Clinical and Psychological Correlates
Daniella Ekstein, M.A.1, Angela P. Spears, B.S.2, Christine Cha, Ph.D.2, 1. Columbia University, 2. Teachers College, Columbia University
